Scituate-Cohasset midget Sharks start 3-0

Win first three games all within eight days

In their season opener, Sunday Sept. 14 on the turf at Scituate High School, the Sharks (8th grade) won convincingly against an inexperienced team from Silver Lake, 22-6. The Sharks got off to an early start as Joe Daileader took a handoff on the first offensive play and scurried 38 yards for a touchdown.

Shane Haggerty converted the 2-point conversion for a quick 8-0 lead. Later in the first quarter Matt McCrae found himself on the receiving end of a Haggerty pass for a 14-0 lead, as well as the 2-point conversion attempt, making the score16-0 Scituate.

Haggerty added to the scoring for the Sci-Coh Sharks on a heads up scramble around the right end off of a broken play. Haggerty was stuffed on his sneak attempt and the Sharks had a 22-0 halftime lead. With the game now in hand Silver Lake managed to find the end zone in the fourth quarter.

Game two of the young season was Wednesday night in Norwell. Once again the Sharks jumped out to an early lead and never looked back. Shea McCarthy getting the Sharks on the scoreboard first with a 29 yard-scamper-down the left sideline. Haggerty again converted the 2-point conversion and the Sharks led 8-0. After a tough defensive stand forced a Norwell punt, Haggerty caught the punt in stride and went 56 yards to pay dirt for a 14-0 lead.

The conversion pass failed and the teams headed to midfield for the ensuing kickoff 14-0. After another defensive stop, Haggerty hit McCrae for a 24-yard touchdown pass. Haggerty once again ran in the 2-point conversion for a 22-0 Sci-Coh lead. Norwell returned the kickoff for a touchdown and converted their extra point to the close the gap to 22-8. Norwell then kicked off to Scituate and Jordan Kelly returned the favor by dashing 70 yards for another Sci-Coh touchdown. Grady Comeau ran in the 2-point conversion for a 30-8 Sharks lead. Norwell returned the ensuing kickoff for another touchdown but were stymied on their conversion attempt for a 30-14 score.

Norwell threatened on their next possession but on the half's final play Daniel Buckley intercepted a Norwell pass and the teams headed to halftime with the score 30-8.

The Sharks put the game away on their first possession of the second half, when Michael Stewart powered his way to a 3-yard touchdown run. Patrick Thowig ran in the 2-point conversion and the score resulted in a 38-14 lead. As darkness settled in at Norwell High School the SciCoh defense, led by Joe Daileader and Daniel Buckley, turned out the lights the rest of the way and the Sharks had a convincing 38-14 victory.

Just four days later the Sharks strapped on their gear for a Sunday tilt against the Plymouth Jaguars at Cohasset High School's Alumni Field. Shane Haggerty got the Sharks on the board first with a nifty 7-yard bootleg around the left end and followed that with a 2-point conversion rush for an early 8-0 lead for the Sharks.

Plymouth came right back after a Shark fumble and powered their way into the end zone for a touchdown and 2-point conversion to even things at 8-8. The determined Sharks marched right back down the field and on third and long Haggerty found McCrae on a mismatch with a much smaller defender.

McCrae grabbed the pass and darted down the sideline for a 36-yard touchdown catch and also hauled in the 2-point conversion pass for a 16-8 lead. The Sharks next possession was stymied by Plymouth's massive front line and forced the Sharks to punt from their opponent's 48-yard line.

Haggerty's punt sailed over the Jaguar's return man's head and the Sci-Coh punt coverage downed the ball at the 11-yard line. Four plays later Plymouth was forced to punt from its own end zone. A strong surge from Sci-Coh's front seven resulted in a blocked punt which was converted into a touchdown when the ever alert Craig Davis fell on the loose ball for a six more points.

Haggerty hit a wide-open Shea McCarthy for the two points and Scituate headed to the break with a 24-8 lead.

On Scituate's first offensive series of the second half, McCrae got behind the Plymouth defender, Haggerty threw a perfect spiral to the wide open McCrae who sprinted 62 yards for a 30-8 advantage Scituate.

Plymouth's double wing offense was held in check by the stellar defensive play of John Foster from his linebacker position, Jordan Kelley and Tyler Serra. Plymouth manufactured a couple of late scores but Scituate recovered the attempted onside kick and proudly exited the field with a satisfying 30-24 win.

The next game is Sunday Sept. 28 at Scituate High School against their division power Bridgewater Badgers. Game time is 1:00p.m.

SCHOOLS

Gearing up for Spirit Week!

LIFE AT CHS

LAUREN MACK

...make sure you get your Homecoming Dance tickets before Tuesday because they are going to sell out fast this year.

Hello, hello everybody. This week has been a busy one full of eagerness and preparation due to the much-anticipated CHS spirit week that begins on Monday! A note to all underclassmen if they might've missed the memo: Monday will be "Decade Day," Tuesday will be "Professional Day" (note: do not take literally — you must go to school), Wednesday will be "Clash Day," Thursday will be "Sailors and Pirates Day," and then finally Friday will be the annual "Blue and White Day," so everyone should plan their outfits accordingly this weekend because everyone loves school spirit!

And of course, the annual Homecoming Dance will be held next Friday night in the cafeteria after the football game. However, make sure you get your tickets before Tuesday because they are going to sell out fast this year. In addition to the homecoming and spirit week planning, there was a yearbook committee meeting last Wednesday night discussing all of the potential themes and layouts.

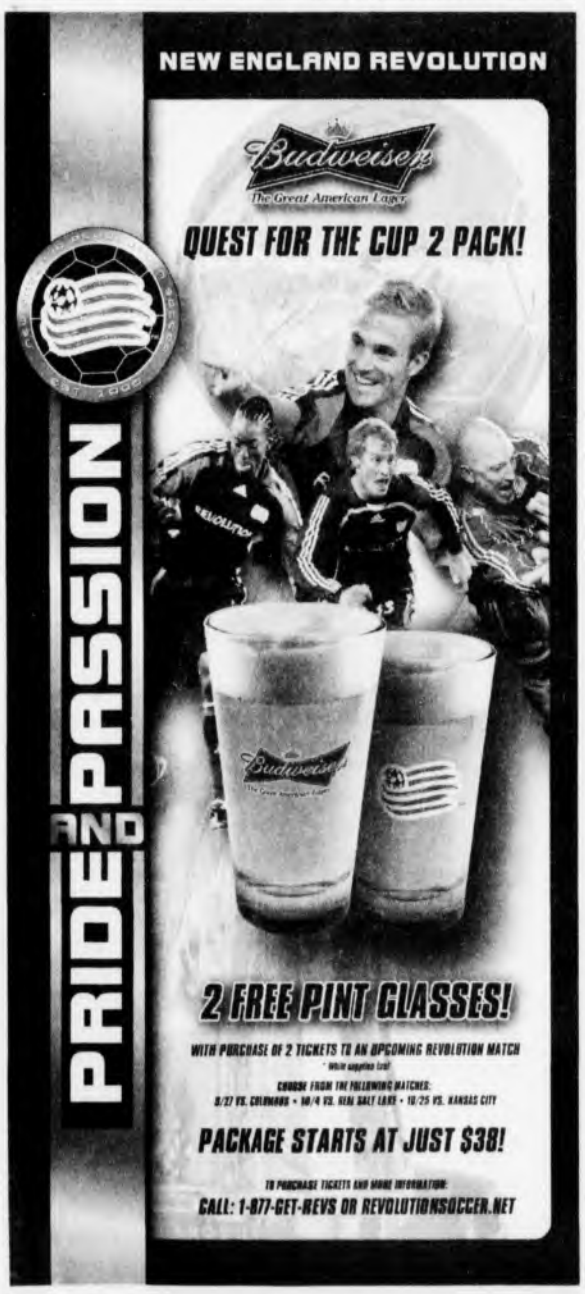
Attention senior parents: All senior ads for the yearbook are due Oct. 1st, they should be dropped off at the office no later than that date. All proceeds from these ads will benefit the senior class of 2009. Next Tuesday, there will be a meeting at the high school at 7:30 pm for senior parents regarding *The Spinnaker*, which you may recognize as the school paper. This informational meeting will simply go over some of the content that students in the Journalism class will review and hopefully answer any questions that may arise regarding anything related to the school publication.

This week has also been busy (as well as stressful) for those in the music department, who have been hard at work conducting auditions for this years' musical, "West Side Story" And finally, after much deliberation, the parts for the play have finally been announced! Starring as Maria and Tony, we have **Jenny Magruder** and **Ian Porter**. **August Oddleifson** will be Riff, **Ellie Baumgarten** will be Anita, **Andrew Bell** will be Bernardo, and many, many other supporting roles will be contributing to make this years' show a great one!

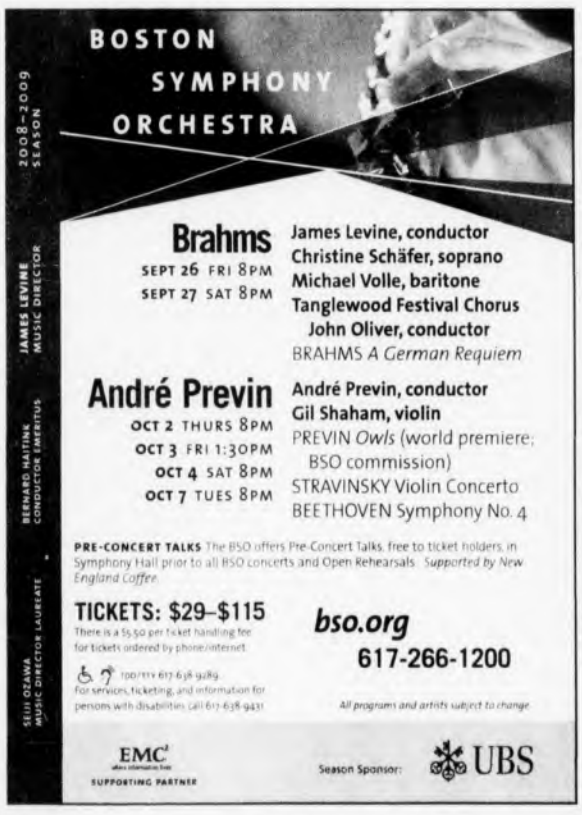
As for this week's quote of the week, I happened to run into a man who many people know as "Coach A". Teacher in the Social Studies department, Mr. **Peter Afanasiw**, or Mr. A as students know him, has been notorious for his presence in the history halls and lunchroom just as much as on the field. When I asked him his thoughts about the big game against Scituate on the 26th, he replied: "Oh dear god. It's gonna rain...we're going to get pretty wet." And with that, I will leave you all to a wonderful weekend! Adios!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.

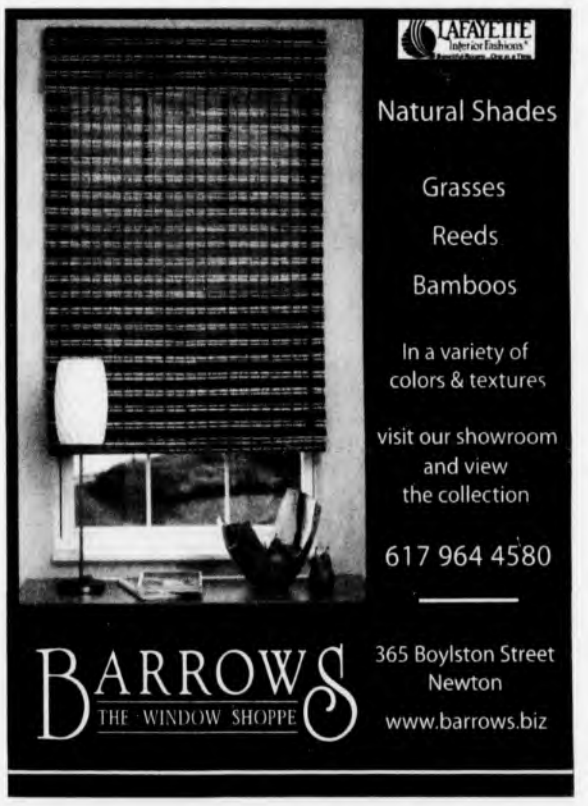
Commended students in National Merit Scholarship program



The National Merit Scholarship Corporation (NMSC) announced the names of approximately 16,000 Semifinalists in the 54th annual National Merit Scholarship Program. These academically talented high school seniors have an opportunity to continue in the competition for some 8,200 National Merit Scholarships, worth more than $35 million, that will be offered next spring. To be considered for a Merit Scholarship award, Semifinalists must fulfill several requirements to advance to the Finalist level of the competition. About 90 percent of the Semifinalists are expected to attain Finalist standing, and approximately half of the Finalists will win a National Merit Scholarship, earning the Merit Scholar title.



Jessica Fitts, a senior at Cohasset High School, is a National Merit Scholarship Semifinalist. To become a Finalist, a Semifinalist must have an outstanding academic record throughout high school, be endorsed and recommended by the high school principal, and earn SAT scores that confirm the student's earlier performance on the qualifying test. The Semifinalist and a high school official must submit a detailed scholarship application, which includes the student's self-descriptive essay and information about the Semifinalist's participation and leadership in school and community activities.



CMHS Principal Joel Antolini also announced that **Johanna Brophy**, **Margaret Goodwin, Fiona McBride, David Oddleifson, Graham Sinclaire**, and **Timothy Treese** have been named Commended Students in the 2008 National Merit Scholarship Program. A Letter of Commendation from the school and National Merit Scholarship Corporation, which conducts the program, will be presented by the principle to these scholastically talented seniors.

About 34,000 Commended Students throughout the nation are being recognized for their exceptional academic promise. Commended Students placed amount the top 5 percent of more than 1.4 million students who entered the 2008 competition by taking the 2006 Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT).

Doris A. Cosgrove Lahage

Longtime teacher at Cohasset High School

Doris A. Cosgrove Lahage, 77, of Jupiter, Fla., formerly of Cohasset, Plymouth, and Carver, died Wednesday, Sept. 24, 2008 after a long illness.

She was the wife of Edmund P. Lahage and the daughter of the late Clement B. Cosgrove and Mary A. Cosgrove.

Mrs. Lahage worked for more than two decades as a business teacher at Cohasset High School. Mrs. Lahage taught thousands of students in her long and rewarding career.

She was active in the local community and her church community. She served on the Town of Hull School Committee before re-entering the workforce as a high school teacher. She donated her time as a religious outreach volunteer and hospital chaplain. She was a gregarious person with a huge network who made an impact on many lives.

Mrs. Lahage graduated first in her undergraduate class from Boston University and received her Masters from Boston State College. She received numerous awards and commendations through her academic career.

In addition to her husband, she leaves two daughters and sons-in-law, Jean Lahage Cohen and Reuben Cohen of Manhasset, New York, and Miriam Lahage and Andrew Pakula of London, England, two grandsons, Jesse Cohen of Pawtucket, Rhode Island, and Jacob Pakula of London, England, and many nieces, nephews, and dear friends. Mrs. Lahage was predeceased by her sons Joseph and Peter.

Services will be held at 2 p.m. on Friday, Sept. 26, at St. Joseph's Assisted Living Community at 350 Bush Road in Jupiter, Fla.

Arrangements were handled by Taylor & Modeen Funeral Home, Jupiter, Fla.

In lieu of flowers, donations may be made to God's Love We Deliver, 166 Avenue of the Americas, New York, NY 10013 .Attn: Development Department

Abrahamic Religions topic of Glastonbury lecture slated

Glastonbury Abbey's Inter-Religious Lecture Series Listening to Other Voices will present a program titled "Old Faiths in New Times: The Abrahamic Religions Today and Tomorrow" at 7:15 p.m., on Thursday, Oct. 16, in the Glastonbury Conference Center, 16 Hull St., Hingham.

Guest speaker will be Alan Wolfe, chairman of the Religion and Democracy in the United States task force of the American Political Science Association, TV commentator on the Pew Report on Religion in America, founding director of the Boisi Center for Religion and American Public Life at Boston College and a teacher there and elsewhere. He will give a talk titled "Who's Afraid of American Religion?," focusing on the role of religion in recent American politics, whether it is dead among the young, how the faiths are faring and what it may mean for everyone.

Wolfe is the author of more than a dozen books, including "The Transformation of American Religion: How We Actually Practice Our Faith." He has written numerous articles and lectured across the United States, Europe and the Middle East.

The lecture is free, but donations will be accepted.

Worship Guide

Beechwood Congregational Church, 51 Church St. 781-383-0808. Interim Pastor: Richard Chamberlain; Please join us for Sunday Service and Sunday School at 10 a.m. followed by fellowship in Merritt Hall. Accepting donations of new socks for homeless shelters and non-perishable food items for local food pantries.

Our mission statement is: "Equipping God's people for living out the Good News to be the hands, feet, voice and heart of Christ in our community and in the world." How should we accomplish this? Come hear sermons to find out.

St. Stephen's Episcopal Church: Coming up this fall is our new "Episcopal Church for the 21st Century" class being taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. The eight-week course begins Oct. 5 from noon until 2 p.m.. On Oct. 5, we will also offer a "Blessing of the Pets" at 2:30 in our church courtyard in honor of St. Francis' day! All are welcome.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, from our website, www.ststephenscohasset.org.

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 am and 10 am on Sundays, including a Healing Eucharist at 9:30 am on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield is rector; she can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's: Sun. Sept. 28: Services at 8:00 – 10:00 am. Godly Play children's program is at 10:00; Jr. High Youth group at 10:00 am; high school youth group at 11:30 am. A reception at the rectory at 4:00 pm.

- Mon. Sept. 29: 3:00 pm, Christian Meditation
- Oct. 1: 9:30 Holy Eucharist with healing; 10:30 Bible Study

OBITUARIES

SEE OBITUARY, PAGE 23

Mary Jane Elizabeth McArthur

Former teacher, author, genealogist, town official

Mary Jane Elizabeth McArthur, 79, of Cohasset, died Sept. 21, 2008.

Mrs. McArthur, a former member of the Massachusetts Teachers Association, retired in 1989, after teaching for 30 years in the Cohasset, Duxbury and Scituate public schools. She was a member of the Cohasset Board of Selectman from 1981 through 1986, and chairperson from 1984 to 1985. She was the former member of many town government committees, including the Advisory Committee, Conservation and Historical Commission and the Government Island Study Committee. She was a director of the Cohasset Bicentennial Inc.

She was a member of Cohasset Historical Society, South Shore Genealogical Society and Maine Old Cemetery Association. She was a member of the Massachusetts Society of Mayflower Descendants and a direct descendant of four Pilgrims. She was also a member of the Daughters of the American Revolution as a direct descendant of Brig. Gen. John Crane, a participant in the Boston Tea Party. She was the author of "The Ancestors and Descendants of Oliver Chase and Sarah Elizabeth Crane of Whiting, Maine," published in 2000. Mrs. McArthur, daughter of the late Louis and Bernice (Lewis) Doyle of Baileyville, Maine, was born at St. Stephen, New Brunswick, Canada, in 1928. She graduated from Saint Croix High School at Baileyville in 1946 and Boston University in 1950.

Mrs. McArthur and her husband and family spent many summers at their log cabin on the Saint Croix River in Baileyville, Maine.

She leaves her husband of 55 years, Earl R. McArthur Jr.; her daughters, Susan M. Hamilton and her husband, Philip, of Portland, Maine, and Dr. Katherine McArthur and her husband, Bruce Creswell, of Cohasset; four grandchildren, Philip Chase Hamilton, Rachel Sprague Hamilton, Andrew Ovide Lemieux and Nicholas Paul Lemieux.

She was the sister of the late Philip Doyle.

A memorial Mass will be celebrated at 10 a.m., on Saturday, Oct. 4, at St. Anthony Church, Cohasset. Private interment will be at Cohasset Central Cemetery.

Memorial donations may be made to Cohasset Historical Society, 106 South Main St., Cohasset, MA 02025 or Cohasset Central Cemetery, Cohasset, MA 02025.

Martha L. Mello

Licensed practical nurse, nursing home administrator

Martha L. (Maynard) Mello of Lake Village, Ariz., died Sept. 21, 2008.

Mrs. Mello grew up in Cohasset and spent most of her married life in Norwell. She was a licensed practical nurse and a licensed nursing home administrator. Prior to this, she worked for a number of years at John Hancock in Boston.

She was a longtime member of St. Andrew's Episcopal Church in Hanover, most recently St. Luke's Episcopal Church in Scituate.

She leaves her husband, Augustine L. Mello; her children, Janet (Mello) Conte and her husband, Thomas, of Lake Village, Ariz., and Walter M. Mello and his wife, Felicia, of Medfield; her sister, Florence Baker of California; her brother, Herman Maynard of

Martha L. Mello

Cohasset; her grandchildren, Abigail (Conte) Shattuck and her husband, Adam, of Birmingham, Ala., Christopher Conte and his wife, Emily, of Mobile, Ala., Walter M. Mello Jr. and his wife, Susan, of New York City and Nicole Mello of Medford; and her great-grandchild, Kealon Thomas Conte.

She was the sister of the late Walter Maynard Jr.

Relatives and friends are invited to attend the graveside service at 12:30 p.m., on Saturday, Sept. 27, at Woodside Cemetery, Cohasset. Visiting Hours will be Saturday, 10 a.m. to noon, at Pyne Keohane Funeral Home, 21 Emerald St., off Central Street, Hingham.

Memorial donations may be made to the Alzheimer's Association, Massachusetts Chapter, 311 Arsenal St., Watertown, MA 02472.

To sign the online guest book, visit www.Keohane.com.

Jeanne T. Walsh

Enjoyed gardening and swimming

Jeanne T. Walsh, 80, of Scituate, died Sept. 1, 2008, at her home, following a brief illness, surrounded by her family.

She was born in Memphis, Tenn., the daughter of the late Viola and Lauristen Tyler. She was a graduate of Brunswick High School, Brunswick, Maine.

Mrs. Walsh was devoted to her family. She worked on the Guild at St. Luke's in Scituate for 20 years, and loved to garden and swim.

Wife of the late R. William Walsh, she leaves four daughters, Laurie Walsh of Cohasset, Leslie Wickfield of Groton, Tyler Wheeler of Carver and Stephanie St. John of Cohasset; her sister, Shirley Foss of Newburg, Ore., her sister-in-law, Stella Walsh of Portland, Maine; her daughter-in-law, Marilyn Walsh of Hingham; 14 grandchildren; and four great-grandchildren.

She was the mother of the late Russell W. Walsh Jr.

A memorial service will be held at 1 p.m., on Saturday, Oct. 4, at St. Luke's Episcopal Church in Scituate.

Rocco Sorrentino

Formerly of Cohasset

Rocco Sorrentino, 75, of Carver, formerly of Cohasset, died Sept. 22, 2008.

Mr. Sorrentino was a veteran of the Korean Conflict, having served with the United States Air Force.

He leaves his wife, Ilene (Taggert) Sorrentino; his children; Daniel R. Sorrentino of Tampa, Fla., and Rose Murray of Cape Cod. He also leaves four grandchildren and five great-grandchildren.

A graveside service will be held on Saturday, Sept. 27, at 10 a.m. in Woodside Cemetery, Cohasset. Visiting hours Friday from 4 to 7 p.m. at McNamara-Sparrell Funeral Home, 1 Summer St. (across from St. Anthony's Church), Cohasset.

Donations in Mr. Sorrentino's memory may be made to the American Cancer Society, 1115 W. Chestnut St., Brockton, MA. 02301. To sign an online guestbook, visit mcnamara-sparrell.com.

First Parish launches plan for religious education

A new year and a new phrase of religious education has begun at First Parish Unitarian Universalist in Cohasset. At the helm of these happenings are Interim Religious Education Director, Jim FitzGerald, and a cadre of enthusiastic teachers, many of them parents. This autumn is particularly exciting, because last year under Mr. FitzGerald's able guidance the Religious Education Committee adopted the first five-year plan for the Religious Education program, beginning this month and running through June 2013.

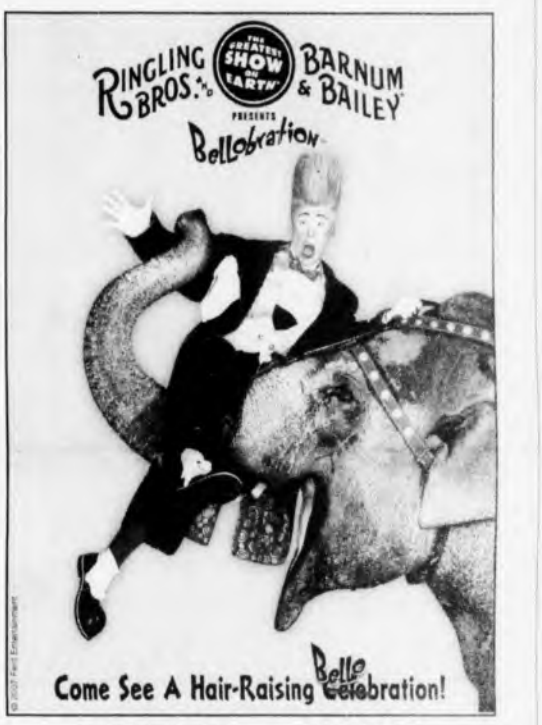
COURTESY PHOTO

Children from First Parish Unitarian Universalist in Cohasset help clean up on an autumn Sunday at Holly Hill Farm.

Last winter and spring religious education leaders solicited the entire congregation for input. A team of church members representing youth, parents, and the wisdom generation then used this input and resources of the Unitarian Universalist Association to draft a program that spotlights Unitarian Universalist identity, while acknowledging the traditions of Christian, Hebrew and Islamic faiths and other World Religions. It is a program which also continues to honor First Parish's commitment to environmental and social justice activism such as stewardship of Great Brewster Woods, partnership activities at Holly Hill Farm, volunteering at the non-profit *Cradles to Crayons*, and learning about and supporting a humanitarian program of the children's choosing. Younger children and toddlers will continue using beautifully crafted *Spirit Play* stories which include Bible stories, contemporary stories and myths to focus attention on questions about morality, belief, differences, and the environment.

First Parish Unitarian Universalist is continuing its outstanding program for middle school age youth. Youngsters who participated in last year's OWL (Our Whole Lives) program, which dealt with issues of healthy relationships including human sexuality, are this year following the Unitarian Universalist *Coming of Age* curriculum. *Coming of Age* includes visiting the homes of other faiths as well as Unitarian Universalist congregations and builds in discussions with adult mentors and advisors about how a free thinking person arrives at a personal credo. Participating youngsters — primarily 7th through 9th graders — develop a strong sense of community with one another through both programs and continue this collaboration through their high school years in First Parish's Senior High Youth Group.

Rituals such as the opening Church School ceremony, sharing joys and concerns, Rites of Passage at the conclusion of Coming of Age years, and shared intergenerational experiences through activities such as grandparent letter writing, and One Room Schoolho.uses on holiday weekends introduce the children to people and ideas beyond their church community, rounding out the RE program. The cornerstone of this Religious Education program is to provide children and youth opportunities to grow into a deep appreciation of their Unitarian Universalist identity and an enthusiastic commitment to give back to their church community and the larger community



For families who are looking for a liberal and accepting church school program for their children, First Parish Unitarian Universalist invites you to visit, to pick up an RE brochure at the Parish House at 23 North Main Street, or to phone Jim FitzGerald, Interim Director of Religious Education, at 781-383-1100.

All are welcome to celebrate high holidays

The high holidays will be celebrated Sept. 29, with Rabbi Shmuel Bronstein and Cantor Zalmen Schurder at the Hingham Quincy Chabad located at 20 Downer Ave., Hingham.

Start the New Year on a high note with a warm and friendly atmosphere. No background or affiliation necessary. Hebrew/English prayer books are available. No membership fees. Suggested donation for services sponsor, $180; family, $180; per person, $72. A Rosh Hashana dinner will be held at 7 p.m.

For information or RSVP to shevybronstein@gmail.com_or call 617-850-5935.

Horoscope

SALOME'S STARS
FOR RELEASE WEEK OF
SEPT. 22, 2008

ARIES (March 21 to April 19) The changing season brings new experiences as well as challenges for the ever-adventurous Aries. Your social life expands, as do the opportunities at your workplace.

TAURUS (April 20 to May 20) That recent period of uncertainty has passed. You can now feel more confident about making decisions, especially those that relate to an important personal relationship.

GEMINI (May 21 to June 20) Although you might be faced with a number of tasks on your to-do list, try to take time out to enjoy the arts. Music, especially, can be soothing to the sensitive soul of a Gemini.

CANCER (June 21 to July 22) A disagreement with a colleague or friend is best resolved with open and frank discussion. Trying to force the other party to see things your way is bound to backfire.

LEO (July 23 to August 22) That Leonine pride might be ruffled by a colleague's challenge to one of your pet ideas. But stop growling and listen. You could learn something that will work to your advantage.

VIRGO (August 23 to September 22) Someone in authority might decide to select you as a candidate for a project that carries more responsibilities. Be prepared to show why you're the right choice for the job.

LIBRA (September 23 to October 22) That new workplace problem should be dealt with as soon as possible. Leaving it unresolved for too long could lead to an even more unsettling and time-consuming situation.

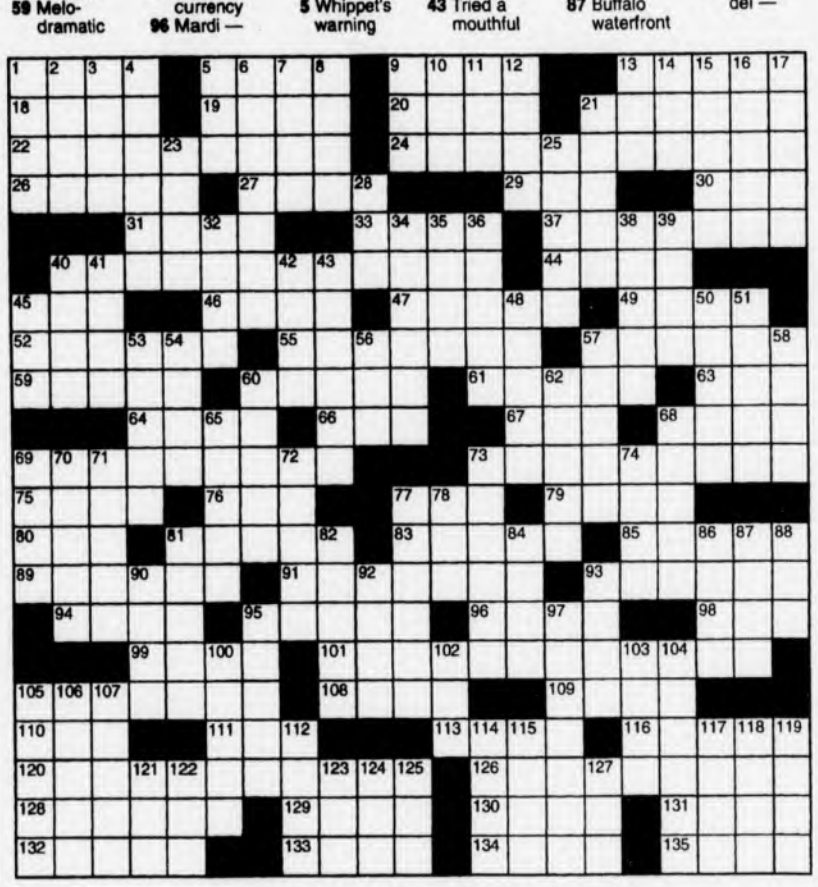
SCORPIO (October 23 to November 21) You might have to do some fancy juggling to keep both your work responsibilities and personal obligations on track. But ultimately, you'll work it all out, as you always do.

SAGITTARIUS (November 22 to December 21) You might hear some upsetting things about a situation in your life. But don't be swayed by talk. Demand proof before making any decisions on the matter.

CAPRICORN (December 22 to January 19) Don't risk depleting those precious energy levels by taking on more tasks than you can realistically handle. Also, remember to ask for help when you need it.

AQUARIUS (January 20 to February 18) It might be difficult for the Aquarian who is used to giving advice to take counsel when offered. But it's a good idea to listen to what trusted friends feel you should know.

PISCES (February 19 to March 20) Things might be a little unsettled as you move through a period of reassessment. But once you get your priorities sorted out, you should be ready to tackle an important decision.



(c) 2008 King Features Synd., Inc.

BORN THIS WEEK: You're able to achieve a happy balance in your productive life by never feeling overwhelmed or underappreciated.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Quick Flix

BABYLON A.D. (PG-13) Vin Diesel plays a mercenary who escorts a pregnant woman who is carrying a genetically modified Messiah through an apocalyptic landscape. (Not reviewed)

BANGKOK DANGEROUS (PG-13) Nicolas Cage is an assassin who travels to Thailand for business but winds up falling for a couple of locals, a young pickpocket and a beautiful shop girl. (Not reviewed)

BOTTLE SHOCK (PG-13) The husband and wife team of Randall Miller and Jody Savin tell the true story about a 1976 event that put California wines on the map. **(C)**

BRIDESHEAD REVISITED (PG-13) Based on Evelyn Waugh's novel about life among the rich and famous, the film is a star-crossed love story that falls flat. **(C-)**

THE DARK KNIGHT (PG-13) In his last role, Heath Ledger delivers a chilling performance as the demonic and despicable Joker. Director Christopher Nolan's exciting film is full of layers and complicated characters. **(A)**

DEATH RACE (R) Framed for a murder he didn't commit, an ex-con is forced to enter a racing competition with murderous prisoners to win his freedom. The movie plays like a really bad video game. **(D)**

DISASTER MOVIE (PG-13) Like its predecessors, "Epic Movie," "Scary Movie," etc., this spoof promises to deliver the same cheesy parodies of films far more clever than itself. (Not reviewed)

ELEGY (R) Ben Kingsley plays a solitary college professor obsessed with a beautiful student played by Penelope Cruz. With Patricia Clarkson and Peter Sarsgaard. (Not reviewed)

FLY ME TO THE MOON (G) An animated tale about three flies stowing away on the Apollo 11 moon mission. Young ones might be amused by the colors and slapstick humor, but adults will find it a snore. **(D)**

FROZEN RIVER (R) A destitute mother of two is so desperate for cash she enters into a human smuggling ring sneaking illegal immigrants into the U.S. out of Canada. **(C)**

A GIRL CUT IN TWO (Not rated) An old author, a mentally imbalanced playboy and a hot TV weather girl engage in a deadly love triangle. **(C)**

HAMLET 2 (PG-13) Funny and smart film about a drama teacher who's trying to save the drama department from being cut from the school curriculum, so he stages a musical version of "Hamlet." **(B+)**

Sylvia (Annette Bening) shops and walks and talks and takes care of her pooch in "The Women."

THE HOUSE BUNNY (PG-13) Anna Faris and Emma Stone team up for a comedy about a disgraced Playboy Playmate (Faris) who becomes a housemother to a bunch of nerdy sorority girls. **(C+)**

I SERVED THE KING OF ENGLAND (R) This black comedy follows a diminutive man on an eventful path that will take him from a brothel to the arms of a beautiful woman who adores Hitler to a Soviet prison. **(B)**

KIT KITTREDGE: AN AMERICAN GIRL (G) Abigail Breslin stars in this Depression-era drama based on a character from the American Girl doll series. Breslin creates a heroine for the ages. **(B-)**

THE LONGSHOTS (PG) Limp Bizkit frontman Fred Durst directs this tale about a girl trying out for the boys' football team. Ice Cube stars. (Not reviewed)

MAMMA MIA (PG-13) The film version of the musical about a soon-to-be bride trying to determine which of her mother's three exes is her father. Meryl Streep's performance is the only reason to see this. **(C+)**

MAN ON WIRE (PG-13) Acclaimed documentary about the man who walked a tightrope between the towers of the World Trade Center gets to the heart of what makes a man so eager to cheat death. **(A)**

THE MUMMY: TOMB OF THE DRAGON EMPEROR (PG-13) Brendan Fraser as a poor man's Indiana Jones searching for artifacts and finding nothing but trouble. The adventure takes him to China with Maria Bello. Jet Li plays a mummy. **(D)**

PINEAPPLE EXPRESS (R) Comedy with Seth Rogen and James Franco as stoners on the run from a killer cop is dumb but also sweet and endearing. Rogen and Franco make a great comedy team. **(A)**

PROUD AMERICAN (PG) Docudrama celebrating the American the free enterprise system combining aerial photography and history with a collection of personal vignettes. (Not reviewed)

RED ROSES AND PETROL (R) The family of Enda Doyle (Malcolm McDowell) gathers in Dublin for his wake, who left behind self-recorded video diaries containing secrets he never shared. (Not reviewed)

RIGHTEOUS KILL (R) The pairing of Robert De Niro and Al Pacino as cops hunting a serial killer isn't much more than a "Law & Order" episode with foul language and sex scenes. **(C-)**

THE SISTERHOOD OF THE TRAVELING PANTS 2 (PG-13) Themes of friendship, forgiveness and resiliency, remain central in the follow-up to the 2005 hit in which teen girlfriends shared a magical pair of jeans that brought good fortune to each. **(B-)**

SPACE CHIMPS (G) Low-rent animated tale about three chimps going into space to conquer an evil dictator on a distant planet. Formulaic storytelling, entertaining for only very young kids. **(C)**

STAR WARS: THE CLONE WARS (PG) Animated "Star Wars" spinoff has a Saturday-morning cartoon feel to it, but the dogfights and lightsaber battles are engaging and the story conjures up suspense and humor. **(B)**

STEP BROTHERS (R) Will Ferrell and John C. Reilly are 40-year-olds who've never left home and are forced to share a bedroom when their parents get married. **(C-)**

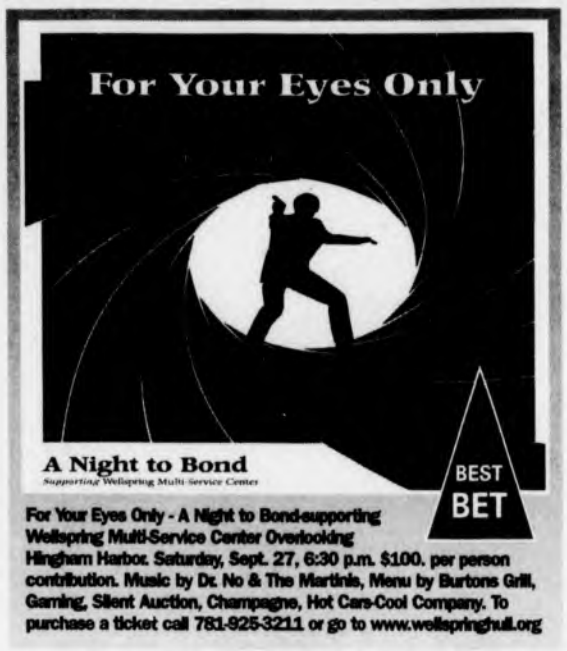
TELL NO ONE (Not rated) From France, award-winning romantic thriller brings to life Harlan Coben's bestseller about a man who eight years after his wife's murder suddenly has reason to believe she's alive. **(A-)**

TRAITOR (PG-13) Don Cheadle puts a human face on an American Muslim torn between doing what's righteous and what's right. **(B+)**

TROPIC THUNDER (R) Ben Stiller directs and stars in a comedy he co-wrote about actors playing soldiers who accidentally get caught up in a real battle. Be prepared to laugh - hard. **(B)**

TROUBLE THE WATER (Not rated) Documentary shot by amateur filmmaker Kimberly Rivers Roberts, who chronicled her experiences before, during and after Hurricane Katrina. **(B+)**

TYLER PERRY'S THE FAMILY THAT PREYS (PG-13) Two women make a cross-country trip to escape the turmoil in the lives of their adult children and rediscover themselves. Kathy Bates and Alfre Woodard star. (Not reviewed)



VICKY CRISTINA BARCELONA (PG-13) Woody Allen's latest romantic comedy about a philanderer (Javier Bardem), his two lovers (Scarlett Johansson, Rebecca Hall) and his wife (Penelope Cruz). **(B)**

WALL-E (G) The latest Pixar entry follows the exploits of a robotic trash compactor trying to woo another droid in the year 2805, long after humans have abandoned the Earth. (B)

THE WOMEN (PG-13) An all-star cast (Meg Ryan, Annette Bening) in the 1939 classic about how a group of women react when they find one of their husbands having an affair. **(C-)**

Winslow House Annual Turkey Dinner, Saturday, Sept. 27. The historic 1699 Winslow House, 634 Careswell Street, Marshfield, welcomes one and all to attend its annual Turkey Dinner on Saturday, Sept. 27, beginning at 6 p.m. The ancestral home of Marshfield's founding family has hosted this New England tradition since the 1920's and it has become a way to celebrate the autumn season with old acquaintances and new friends. Each table will have its own turkey to carve. Bring friends, family, renew acquaintances and enjoy the season. Tickets are $35 for non-members, $ 30 for members and $ 15 for children to age 14. Reservations are strongly recommended, as this event sells out quickly. Reservations can be made by going online to the Winslow House website at www.winslowhouse.org or by contacting the Winslow House at 781-837-5753.

For Your Eyes Only - A Night to Bond-supporting Wellspring Multi-Service Center Overlooking Hingham Harbor. Sept. 27, 6:30 p.m. $100. per person contribution. Music by Dr. No & The Martinis, Menu by Burtons Grill, Gaming, Silent Auction, Champagne, Hot Cars-Cool Company. To purchase a ticket call 781-925-3211 or go to www.wellspringhull.org

The South Street Gallery will once again offer its **Art Appraisal Day** Sept. 27, from 10 a.m. to 3 p.m. Hingham resident Arthur Garrity, a professional fine art appraiser, will offer verbal appraisals at the Gallery at 149 South Street. Etchings, prints or original oil or watercolor paintings may be submitted for review. There is a fee of $10 per appraisal, or $25 for three appraisals, with all of the proceeds being donated to the Second Parish Church in Hingham. **There is a limit of three items per customer per visit**. Garrity notes, "In the past, artwork has always been a hedge against inflation. Many wealthy families that once lost their fortunes during the Depression, for example, but held on to their art collections, were able to rebound by selling their artwork years later."The South Street Gallery is located at 149 South Street, one minute from the Square in Hingham. **Hours are from Tuesday to Saturday, 10 a.m. to 6 p.m.** For additional information, please call 781-749-0430 or visit www.southstreetgallery.com

NORTH RIVER ARTS SOCIETY'S ArtsOn! – Ten Marshfield and Norwell artists will open their studio doors to the public Oct. 4, from noon to 4 p.m. to raise funds to support its campaign to revitalize its home, the historic G.A.R. Hall and adjacent Firehouse. Artists will be on hand to talk with visitors about their work and inspirations, and art will be available for purchase. Advance tickets $20. Tickets day of tour: $25. Map and full description of artists and their studios available with ticket purchase. Call 781-837-8091 for information - www.northriverarts.org.

THE FRIENDS OF THE BOSTON HARBOR ISLANDS is organizing a lighthouse cruise up the North Shore Oct. 4. The boat leaves Long Wharf (closest T stop Aquarium, Blue Line) in downtown Boston at 10 a.m. and arrives back at 3 p.m. This fully narrated excursion is ideal for those interested in viewing lighthouses as they were meant to be seen – from the water. After passing the lighthouses of Boston Harbor, we will get close-up views of the lighthouses at Hospital Point, Fort Pickering, Ten Pound Island, Marblehead, Gloucester Breakwater, Eastern Point and Bakers Island. The Twin Lights on Thacher Island will be our farthest destination. Information visit www.fbhi.org or call 781-740-4290.

INLY ARTS FESTIVAL Global Folk Fusion" will have an international theme, integrating an eclectic collection of art forms from the four corners of the world. On Oct. 5, from 1 to 4 p.m., explore world fusion music performances by Entrain and Afro-Cuban drum circle and folk art, dance, and storytelling with a funky twist through interactive workshops, hands-on projects, and live performances. The event is open to the public, geared for all ages, and will be held rain or shine on the Inly School campus, 46 Watch Hill Drive (off Rte. 123, near the junction of Rte. 3A), in Scituate. Visit www.inlyartsfestival.com for complete information. The admission price of $10 per person ($40 max per family) covers all activities. Food will be available for purchase.

HISTORY COMES ALIVE as The Daniel Webster Estate and Heritage Center welcomes back Boston actor, writer and producer, Robin Lane in a fascinating One-woman dramatization of one of America's most important First Ladies, Eleanor Roosevelt. The performance will take place at Oct. 11 at North Community Church Parish House, Old Main St., Marshfield Hills. Doors open at 7 p.m. Performance at 7:30 to 8:30; Refreshments to follow. Tickets: $18. Purchase tickets by calling Virginia - 781-837-2403 or Eileen - 781-837-7579. Information and directions visit danielwebsterestate.org

BARKTOBER-FEST, the first event of its kind in Plymouth tailored to dog lovers of all ages and, of course, their furry companions. This one-day canine festival will be held from 11 a.m. to 4 p.m. Oct. 18, on the Plymouth waterfront featuring games and prizes, food for dogs and their owners, demonstrations, live entertainment, and vendors offering dog-related services and items. Other events include a pet/owner photo look-alike contest, a pet costume contest, a dog trick competition, an adoption presentation and obedience training. For the safety of animals and owners, this is an on-leash event. All dogs must be on a leash at all times. Information: www.plymouthbarktoberfest.com or 508-830-1620.

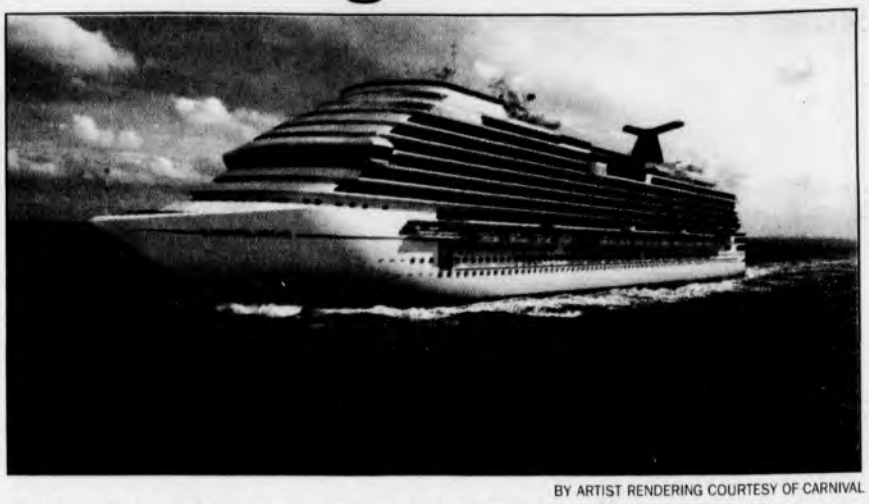
New ships to cruise the high seas

Fran Golden
GATEHOUSE NEWS SERVICE

BOSTON — The big cruise lines are preparing to introduce their new generation of ships, and cruise travelers are in for some innovations and surprises. We're talking merry-go-rounds, giant water parks, hot nightspots and a big focus on the ocean and outdoors.

Dream a big Dream

When it debuts in September 2009, Carnival's new 130,000-ton Carnival Dream will be the largest ship in the "Fun Ship" fleet.



Currently under construction in Italy, the 3,646-passenger ship will offer a new space called The Piazza, an indoor/outdoor cafe and live music venue with a circular dance floor and whirlpools that extend over the ship's beam so you feel like you're floating above the water. The ship will also have what are being promoted as the "most elaborate" children's facilities at sea, including a huge Carnival WaterWorks water park with two waterslides.

Adults will get their own quiet outdoor retreat and pool called Serenity, and the ship's Cloud 9 Spa is being billed as the "largest and most elaborate" to date. Other cool features include a two-level mini golf course.

The Carnival Dream will introduce new cabin configurations including family cabins for five with two bathrooms (one full with shower and the other with a mini-tub and sink) and "cove" cabins with balconies near the waterline. There will also be spa cabins and suites with special amenities.

The ship debuts in Europe and will do two cruises from New York on Nov. 15 and 23, 2009, before taking up its permanent home in Port Canaveral, Fla., sailing on alternating, weeklong eastern and western Caribbean itineraries year-round. The New York cruises will visit Nassau and Freeport in the Bahamas as well as Port Canaveral (near Orlando).

For reservations, call 800-327-9501 or visit www.carnival.com.

BY ARTIST RENDERING COURTESY OF CARNIVAL

The Carnival Dream is under construction in Italy and will debut as the biggest ship in the Carnival fleet.

Big, bigger, biggest

Royal Caribbean is the current record holder for world's largest ship with its Independence of the Seas, a 160,000-ton vessel. But the line will top itself when it debuts the much anticipated, 220,000-ton Oasis of the Seas in December 2009.

That is a lot of additional space, and at the shipyard in Finland, Royal Caribbean is adding all sorts of first-time-on-a-cruise-ship features for the 5,400 passengers to enjoy, including an outdoor boardwalk area with a hand-crafted merry-go-round, beachside-style shops and eateries, and carnival games.

The ship will have an extensive water park and a Sports Zone with such first-on-a-cruise-ship innovations as a zip line. But what would you expect from a company that earlier brought ice skating rinks and rock climbing walls to cruise ships?

And there's more. The upper center of Oasis of the Seas, Central Park, will be a lush park spanning the length of a football field, with scenic pathways, real flowers and trees, and alfresco dining as well as outdoor entertainment including concerts and street performers. The first moving bar at sea, the Rising Tide Bar, will ascend three decks above the park providing views while you imbibe.

The first Beach Pool at sea will feature a sloping entry through shallow water, sans sand but with beach chairs, umbrellas and private cabanas. And other new and notable features include AquaTheater, a kidney-shaped pool area with tiered platforms for sunning. During the day, guests will be able to take scuba lessons in the pool. At night, the place will be transformed into a setting for fountain shows synchronized to lights and music.

Of the 37 different types of cabins, those with big bucks can book the first two-level, loft-style cabins at sea (the upper level bedroom overlooks the living room and others offer expansive ocean views).

Oasis of the Seas will cruise the Caribbean from its homeport of Fort Lauderdale. For reservations, call 800-ROYALCARIBBEAN, or visit www.royalcaribbean.com.

Cruising goes hot and icy

Norwegian Cruise Line's new generation of ships is supposed to debut in 2010, with the first of two 150,000-ton, 4,200-passenger vessels, currently known as F3. But details of the ship have been announced. Here, one big emphasis is on nightlife, with a club scene inspired by Vegas, South Beach and other hip locales.

The shipboard hotspots will include the POSH Beach Club, an adults-only venue on top of the ship. During the day, cushioned day beds and private cabanas will provide a place to catch rays and ocean breezes and a 35-foot waterfall a place to cool off. At night, the scene will include bottle service on silver trays and dancing under the stars.

The F3 will also debut the first Ice Bar at sea. In the frozen chamber - temperatures kept below 17 degrees - guests will be able to enjoy ice cold vodka and a Northern Lights display while donning a fur coat, hat and gloves (all provided). Cabins will have the unusual feature of wavy walls and separate shower and toilet compartments.

Norwegian Cruise Line has not yet disclosed itineraries for the ship, nor opened reservations. Stay tuned. For more information, call 866-234-0292 or visit www.ncl.com.

Celebrity cruising

Premium line Celebrity Cruises launches the first of its new generation of ships this November with the German-built Celebrity Solstice. While perhaps not aiming to make as many waves as the new mainstream ships, the 122,000-ton, 2,850-passenger vessel will introduce treats of a more cerebral sort including the first glassblowing demonstrations at sea - operated in conjunction with The Corning Museum of Glass.

The ship will also boast a half-acre Lawn Club, with real grass, where passengers can play bocce ball and croquet, practice their golf putting, picnic or go barefoot in the park - while also enjoying the passing sea views.

Celebrity Solstice will have a broad variety of dining options, and accommodation choices including AquaClass spa cabins, with special spa privileges.

The ship will sail the Caribbean from Fort Lauderdale in winter and cruise Europe in the summer.

For reservations, call 800-437-3111 or visit www.celebritycruises.com.

Schools tough stand on user fees

Committee denies waiver request

By Nancy White
NWHITE@CNC.COM

The School Committee took a stand on facility user fees Wednesday night and pledged to better educate the booster clubs and other youth groups on the user fee structure.

"Either way we go, this is an opportunity to draw a line in the sand."
— Rick Flynn, School Committee

Ellen Maher, a member of the Scituate-Cohasset Youth Football and Cheerleading program, came before the board to request a waiver of the school's $1800 user fee for use of Alumni Field on three days. In a letter to the committee, Maher said the group was unaware of the user fee policy. They didn't get charged for the use of the facility the year before and did not budget appropriately for the expense.

"At the end of our fiscal year, we'll look at the budget and see if we can make a donation to the school," Maher offered instead.

School Committee Chairman Rick Flynn said the request brought him back to numerous past discussions of the school's responsibility to maintain the fields and buildings. The committee came up with user fee structure in recent years as a way to fund regular

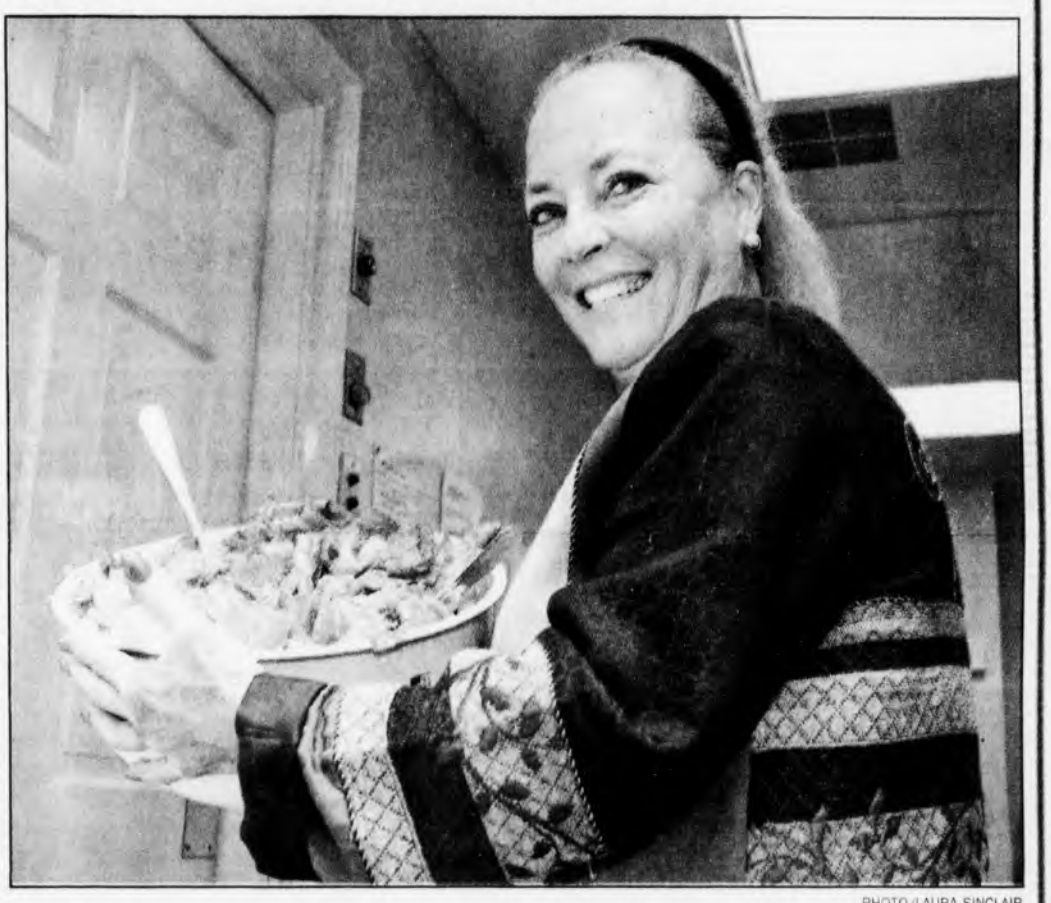
Treasure chest of volunteers

Sea Chest to have new sponsor

By Nancy White
NWHITE@CNC.COM

The Sea Chest Consignment Shop is undergoing somewhat of a transformation. While it is business as usual for the most part, the gears are in motion to have an entirely new charity sponsor the consignment shop.

At the fourth annual volunteer luncheon held on Tuesday morning at the Lightkeepers, shop manager Andi Merrill recognized the continuing efforts of 70 volunteers — and let them know what the future looks like.



"You people are the shop," said Merrill. "We absolutely would not be successful without you."

Some volunteers have worked with Merrill for decades and consider the people at the shop their second family. Merrill was the long-time manager of the Cohasset Consignment Shop run by the Social Service League and when she left many of the volunteers followed her to Sea Chest.

One of those volunteers, Joan Graham, started volunteering at the Cohasset Consignment Shop 48 years ago and has donated her time through many changes. She recently "retired" from regular duty, but said she would be available if they got desperate one day.

When she started to volunteer,

SEE VOLUNTEERS, PAGE 7

PHOTO/LAURA SINCLAIR

Linda Thomas not only volunteers for the Sea Chest Consignment Shop but also catered the luncheon honoring the volunteers. Linda's catering company is called Comfort Foods and here she holds a mandarin orange almond salad.

Treat's on the table

Three 'pond' articles proposed

By Nancy White
NWHITE@CNC.COM

At least three articles proposing solutions for the Treat's Pond/Atlantic Avenue issues could be before Special Town Meeting in November.

On Monday night, the Board of Selectmen again held court on the contentious and complicated Treat's Pond issue. This week, the focus was on the Army Corps of Engineers project and the $700,000 of federally earmarked funds that go with it.

Although Selectmen have discussed Treat's Pond in recent weeks, this was the first time the Army Corps project has been discussed in detail before the board since Annual Town Meeting in March when a resolution was made requesting additional time to review possible solutions.

It was clear, once again, there is no easy answer to the Treat's Pond area flooding. Every option proposed seems to have roadblocks and there are major outstanding questions that need to be answered in the near term.

How much is the town responsible for paying toward the project? Will a freshwater outlet to the harbor from Treat's Pond negatively impact the harbor? Will the town be able to get the easements they need and at what cost? What properties does the town need to look to for an easement?

These were just some of the questions raised during the 2-1/2 hour discussion. As Town Meeting approaches, many of the issues have to be addressed before the warrant heads to the printer on Friday, Oct. 24. Special Town Meeting is scheduled for Monday, Nov. 17.

The three proposed Town Meeting articles would put the issue before the voters to determine the best means, if any, to address the degrading quality of Treat's Pond and/or the flooding issues plaguing the area. The articles could put the town on the line for anywhere between $50,000 and $500,000 depending on which, if any, option passed muster (*see sidebar for options*).

A recent letter from the Army Corps of Engineers requested the town indicate its interest in the project by the end

Cohasset making strides on MCAS

All schools meet English, math targets

By Nancy White
NWHITE@CNC.COM

The scores are in. And Cohasset students made the grade.

This past week, the 2008 MCAS scores were released. Cohasset is making strides in all areas and achieved its annual yearly progress goals mandated by the federal government.

The Massachusetts Comprehensive Assessment System, or MCAS, is an annual statewide test in its 11th year of administration. The School Committee received an overview from Supt. Of Schools Denise Walsh on Wednesday night. At their next meeting scheduled for Oct. 8, each school's principal will give an in-depth look at their strengths and weaknesses — and the ways they plan to improve scores for the next round of testing.

"Overall, we are very pleased," said Walsh in a phone interview. While the district did well, she was quick to note that there were areas where improvement was needed. "We never can get too complacent…we are pleased with the progress but we still have work to do."

Areas where Cohasset has devoted resources in the past few years (new textbooks, technology and teacher professional development) has reflected immediately and significantly in MCAS scores, said Walsh.

"We are pleased with the progress but we still have work to do."
— Supt. of Schools Denise Walsh

She noted in grade five math, grade seven and eight English and math, and grade 10 science, Cohasset ranked at number one for percentage of proficient and advanced scores in the South Shore region.

MCAS tests include multiple choice, open response, and short answer questions and writing prompts. School and

PICTURE THIS/Colleen Roth

Name: Colleen Roth.

Occupation: Wife, mother, grandmother and assistant manager at Sea Chest Consignments.

Best day of your life: Must have been that blind date in college when I met Kenny and his crazy pilot friends.

Best vacation: The wine country in France…the B&B was a beautiful winery.

Favorite season: Summer.

Favorite holiday: Christmas.

Favorite or meal: Mexican…the hotter the better.

Best magazine: Southern Living.

Best movie: "My Cousin Vinny."

Best TV show: "Heroes" and "The Tudors" on Showtime

Fun fact about yourself: When I get angry or upset I become a backward talker…therefore losing the argument.

Pet peeve: Rude people.

Goal: To stay healthy and enjoy my family.

Person you'd most like to meet: My mother's mother.

Biggest worry: I don't have one.

Best part of Cohasset: Sea Chest Consignments…the volunteers, consignors, and customers…we're the biggest and best family in town.

PHOTO/NANCY WHITE

The Mariner caught up with Colleen Roth, assistant manager of Sea Chest Consignments, at the shop's annual volunteer luncheon on Tuesday at the Lightkeepers Residence.

New Cohasset Mariner 'drop box'

The Cohasset Mariner has a new "drop box" and pickup location at Tedeschi's in the village. The drop box is on the counter in the front window around the corner to the left after you enter the front door.

The Mariner picks up at 8 a.m. on Mondays and Tuesdays. The drop box can be used to drop off glossy photographs, letters, flyers or other editorial copy.

The Mariner thanks Bill Ducharme at Tedeschi's for allowing Tedeschi's to be our new pickup location. For years the Mariner pickups were at Cohasset News, which is now a new dance studio. The Mariner thanks John and Larry Scott at Cohasset News for accepting Mariner items over many years. John and Larry are still at the Cohasset Butcher & Deli on Brook Street.

Historical society event at Town Landing

The Cohasset Historical Society, as it continues to celebrate its 80th anniversary, will be at the Town Landing on Border Street from 10 am to 2 pm on Saturday, Oct. 4th, weather permitting. Internationally known artist WK Gilbert will be signing his marine prints and the United States Coast Guard will have a Defender Class Coast Guard Cutter docked there open to visitors. Come join the society for this unique opportunity to talk to those who protect the shoreline.

In addition to Saturday's event, the Society is exhibiting Coast Guard artifacts, uniforms and marine paintings at its headquarters, 106 South Main St., until the end of October.

Village sewer tie-ins at a standstill

Commission reevaluating plant capacity this fall

"We try to be as responsible and responsive as we can, but do it in a conservative way."
— John Beck, Sewer Commission

By Nancy White
NWHITE@CNC.COM

Right now, there is no capacity available in the central sewer district — and the waiting list for village properties is eight names deep. The Sewer Commission will undertake a thorough review of the capacity of the wastewater treatment plant to be complete by the end of November.

The Village is not part of the Little Harbor sewer expansion project, which will connect 487 homes to the town system.

Calling determining if there is sewer capacity a balancing act, Sewer Commission Chairman John Beck said there are multiple variables that go into determining if there is capacity at the plant located on Elm Street.

"It's a tough equation," said Beck, in a phone interview. More than simply the average daily use, unknowns like weather, groundwater levels and resulting inflow and infiltration (I&I) have to be taken into consideration.

"We try to be as responsible and responsive as we can, but do it in a conservative way," said Beck.

For example, during the rainstorms this past weekend the wastewater treatment plant processed as much as 670 gallons in one day due to stormwater infiltrating the system and groundwater rising, said Beck. The partially finished upgrades and new membranes at the plant "performed very well," Beck said.

Yet, he said the membranes will lose efficiency over time and that as well must be taken into consideration when adding more homes and businesses to the system.

"Nobody wants another overflow," said Beck. In recent years, significant rainstorms created an influx of water to the plant causing it to overflow on multiple occassions.

Following the passage of the new village business district bylaws, which allow mixed-use commercial/residential buildings, many village property owners put their name in for additional sewer capacity. Because capacity had been available, several properties have made it off the waiting list, including the Samuel Bates building (35-29 South Main St.), the hardware store, the new Depot Court building and the to-be-permitted medical building behind the gas station.

Connections are measured in equivalent dwelling units, or EDUs. One EDU is equal to 440 gallons per day of capacity. When a connection is granted, the property owner had six months to pay for the connection in full. The cost can run from about $8,500 for houses or businesses with increased capacity needs (such as adding apartments) to $15,000 for new construction. At the end of six months, if the connection is not paid for in full, the property owner may file for an few months extension or the connection can be put back into the town's inventory.

While there are eight village properties currently on the waiting list, most of the requests are for multiple EDUs, some request as many as 23 EDUs. As actual plans are filed with the town, the number of EDUs currently requested may change.

The ongoing Little Harbor sewer project — the $15.2 million sewer distribution and plant expansion — will tie-in an additional 485 homes to town wastewater treatment plant. It is expected the homes will be tied in by late 2010. Then after homeowners hook up to the sewer, the Sewer Commission will have to re-evaluate the capacity again and see if any more connections are available. The associated sewer plant upgrade and expansion will increase the capacity from its current 300,000 gallons per day to 450,000 gallons per day.

There is a separate waiting list for sewer connections for vacant, but buildable, lots in the Little Harbor district. Currently, there are five lots on that list.

This fall, the Sewer Commission will also be installing a flow meter for effluent in the North Cohasset district, which is connected to the Hull wastewater treatment plant.

"It will give us a pretty good handle because it will measure the exact effluent flow," said Beck. Currently, the flow is measured by the water use, which does not take into account outside watering that doesn't go into the sewer system. Cohasset has an intermunicipal agreement with Hull to send as much as 80,000 gallons per day to their wastewater treatment plant.

POLICE BEAT

Minor accidents, copper theft and noise issues

By Mary Ford
MFORD@CNC.COM

• At 5:26 a.m. on Wednesday (Sept. 24), a 2007 Honda being driven by a Hull man pulled out of a parking space into the travel lane on Ripley Road striking a 2007 Audi that was heading toward Depot Court. There were no apparent injuries. The Audi was owned and operated by a Hingham man.

• At 1:16 p.m. on Friday (Sept. 26) a 2004 Toyota, owned and operated by a Cohasset woman, was on Atlantic Avenue traveling toward Nichols Road in heavy rain when the Toyota went around the corner and slid into the northbound lane. The Toyota sideswiped a 2002 BMW, also owned and operated by a Cohasset woman. Police said neither woman was injured. There was damage to the front driver's side of the Toyota and to the left side of the BMW. Neither car was towed, police said.

• At 2:52 p.m. on Saturday (Sept. 27), a 2004 Dodge Stratus, driven by a Quincy man, slid in the mud and went off the road. There were no injuries. The car was initially stuck but was able to get out. A tow truck was called for but was later cancelled.

Copper theft

A business on Chief Justice Cushing Highway (Route 3A) reported that about $1,000 worth of copper had been stolen from a shed on the property last week. The incident occurred sometime between Tuesday (Sept. 23) and Thursday (Sept. 25). Police are interviewing some of the abutters and the theft remains under investigation.

Noise issues

A caller notified police about a BFI truck picking up trash before 5:30 a.m. last week at the Cohasset Golf Club. Another caller complained about trash being picked up at Atlantica before 6 a.m.

In both cases, police said the management of both facilities wanted to be good neighbors and will ask the trash services not to come so early.

Speeding

Police will increase patrols and possibly use the speed board to slow traffic along North Main Street in the mornings. A caller, who walks to the train, complained last week that cars coming into town from East Street in Hingham are speeding and therefore making it difficult to walk safely.

"We have put this on the list of places for officers to conduct enforcement and we will move the speed board to that location to see if it will help influence drivers," Chief Hussey said. The chief said the speed board helps alert motorists who do not realize how fast they are traveling.

Red light

Police received a complaint last week about a vehicle in the neighborhood that kept going through the temporary light on Jerusalem Road. The incident was called in two days after it occurred. Chief Hussey said police have received few complaints about cars running that light.

Welfare check

Police and fire personnel went to a home last week after a letter carrier reported four days of mail were piling up and windows were open. As it turned out no one was home at the time.

Chief Hussey explained that letter carriers contact police to conduct welfare checks when they see something unusual such as several days of mail piling up when it appears that the homeowners are not away.

Mailboxes

Police responded to a report of damage to several mailboxes overnight (Friday, Sept. 26 into Saturday, Sept. 27) on Doane Street. However, when police arrived the mailboxes were back in place. Police talked to the caller. No one had seen anything regarding the vandalism and there was no evidence at the scene.

Wheel on fire

Police notified the MBTA after callers reported an inbound train had a wheel on fire on Saturday. The MBTA contacted the engineer and the train stopped in Hingham, police said.

Arrest

A woman was arrested after allegedly hitting her Cohasset boyfriend with a telephone receiver last week. Police determined there was evidence to charge her with assault and battery with a dangerous weapon.

Flat tires

A hole near a raised catch basin in the roadwork on South Main Street caused on car to get two flat tires on Sunday. The caller notified police who confirmed there was a hole and notified the DPW.

Faded crosswalk

A concerned caller notified police that the crosswalk at Pond Street and Clay Spring Road is so faded that cars do not stop. It also poses a safety hazard for children trying to cross, the caller said. Chief Hussey said the information was passed on to the DPW.

'Freeze' on school spending

On the advice of Superintendent of Schools Denise Walsh, the School Committee directed the central office to put a "freeze" on all spending except for classroom essentials. The report of state budget cuts, the first of which was expected to be announced Thursday as the Mariner went to press, caused Walsh and the committee to consider being very fiscally conservative.

"Anything not necessary for the classroom," Walsh said would be put on hold. That includes supplies, materials, professional development programs. Fortunately, Walsh said, some materials were prepaid out of remaining funds in last year's budget.

"Anything not necessary for the classroom."
— Supt. of Schools Denise Walsh

Although Cohasset does not depend on the state for a great portion of their budget — most of the operational budget comes from local aid — they depend on state aid for special education through the state's "circuit breaker" fund. Walsh said this award is the most likely of the monies Cohasset receives to be affected.

The state special education reimbursement fund, or "circuit breaker," is a revolving account established by the state legislators for use on special education costs. The account is outside of the operational budget exclusively for monies reimbursed by the state for special education costs. The circuit breaker can be used to pay (or pre-pay) out- of-district tuition or costs associated with special education in-district.

Chapter 70 funding and various grants also come from the state and could be impacted in state budget cuts.

"It is pretty frightening to think about," said Walsh. "If the circuit breaker funding is cut, we don't have a cushion."

Walsh said she and business manager Dave DeGennaro have been considering a freeze for a couple of weeks now.

With the exception of two open positions Walsh classified as crucial, there will be no additional hiring either. A school nurse at Osgood and the Osgood adjustment counselor will be hired in the next couple of weeks.

"We don't know what's going on at the state," said Walsh after the meeting. "It's for the sake of caution."

Schools take tough stand on user fees

FROM FEES, PAGE 1

maintenance of the school buildings and fields.

Flynn said a lot of time and though was put into putting a fee schedule together a few years ago. Although the user fee structure was established approved by the School Committee in February 2005, but this year the schools have been consistent about charging all users.

"Either way we go, this is an opportunity to draw a line in the sand," said Flynn.

The general reasoning behind the facility user fee is to help the school pay for the necessary maintenance of the facilities as well as use of water, heat and other utilities.

"We're not trying to make money on it," said Flynn. However, Maher said it was unclear where or how the user fees would be utilized.

"I'd like to know the money is going directly back to the maintenance of the facility (we are using). It would make it more palatable," said Maher. A specific project or maintenance expense specific to the sport may make the fee easier to digest. School officials said the user fees do go into a "use of facility" line item for use in maintaining the fields or to share in the utility cost.

School Committee member Adrienne MacCarthy said the bottom line for her was the budget. The current fiscal 2009 budget includes a roughly $24,000 offset — a revenue generated outside the operational budget — from use of facilities.

"I'm not sure it would be prudent to take the $1800 off the table," said MacCarthy. "It is unfortunate you did not have the information in a timely manner. My feeling is to waive the fee is not being fiscally prudent."

School Committee member Lucia Flibotte agreed, "as a town we have decided we're going to be a fee for service town," who has spoken on many occasions against this increasing practice, but she said the needs of the budget require it. "My job here is to look out for this budget," said Flibotte.

For School Committee member Steve Fusco, the issue came down to a policy was in place and needs to be enforced.

"We have a fee structure requirement. Even if we had excess cash, I'm not sure it would be relevant," said Fusco.

In order to utilize the school facilities, groups or individuals must fill out an authorization form and get approval from the school principal as well as the central office. Rates vary depending on the type of facility (field, classroom, gymnasium) and for indoor locations, heating or non-heating season.

"None of us wants to be the bad guy. If we give one exception then there's always another," said Flynn.

The School Committee voted unanimously to not waive the user fee for the youth football program.

After the vote was taken, several of the School Committee members said "sorry."

Summit with boosters a possibility

As a part of the discussion of the Scituate-Cohasset Youth Football and Cheerleading program's request for a waiver of user fees, the School Committee said they needed better communication with the boosters clubs. Not only to convey the user fee message to ensure all groups understand their responsibility, but also to understand how much the booster clubs contribute to the athletic programs.

"Getting one message to all users I think would be beneficial for everyone," said School Committee Chairman Rick Flynn. Making sure field users understand the fee structure, why it is what it is and why it is important was a necessary step. Flynn suggested the School Committee, or a sub-committee, meet with the boosters to discuss these issues.

While the School Committee recognized the important monetary contributions the various booster clubs make to the athletic teams, the felt they needed to get a better handle on the numbers.

"The offset numbers have grown (in percentage of the budget)," said Flynn and understanding how much the booster clubs are contributing would lead to a better understanding of what it takes to run the athletic department.

"I think we need to have a dialogue," said Flynn.

Part of the problem is the booster clubs often buy items or pay for service for teams without going through the School Committee. Then, the funding is not on paper and the School Committee doesn't know about it.

"The bottom line is it has to come in as a gift or a grant" in order for the school to account for it donation and properly report it, said Superintendent of Schools Denise Walsh.

The more money the boosters get credit for, the better is for the School Committee to get a complete picture of the real costs of the athletic program and the real costs of running the school district, said Flynn.

Cohasset making strides on MCAS

FROM MCAS, PAGE 1

district results are used to evaluate, revise, and update the curriculum and instruction programs, aligned with the Massachusetts Curriculum Frameworks.

Beginning in the third grade, each year students take the MCAS tests yearly until eight grade and then again in grade 10. Passing the grade 10 MCAS is a requirement for high school graduation.

All three Cohasset schools — Deer Hill, the middle school and the high school — met their targeted annual yearly progress scores on both the English and math. If Cohasset keeps on pace with its yearly gains, all students should score proficient and above by 2014 when all students are required to be proficient in reading and math by the federal No Child Left Behind act.

"We can't point to one thing an say this is why we are seeing results," said Walsh. When changes add up to significant score improvement, they do know they are going in the right direction.

The move to block scheduling at the middle-high school gives students more time in each subject. For math, students now take an additional "math lab" period to ensure they are understanding the material. Walsh called the practice the "gift of time." A new middle school "spiral" science curriculum where kids review and expand their understanding of all MCAS-covered topics each year.

In an effort to improve the math curriculum, math learning and, in turn, math scores, a math specialist split between Deer Hill and Osgood was added this year. Walsh said the new position creates opportunities for teachers to hone in on their teaching methods.

The principals and teachers of every school analyze the testing scores closely, looking at each student's progress and the areas where a grade struggled to tailor their classroom learning.

About two-third of Massachusetts middle schools did not meet their annual yearly progress goals. That stands in contrast to Cohasset Middle School's numbers, which were the highest in the South Shore region.

As Cohasset and the state moves closer to 2014 and 100 percent proficiency for their students, Walsh said task gets a little bit harder.

"Eventually, all the schools are going to hit a wall," said Walsh.

Individual student scores were sent home to parents and Walsh encouraged parents to look closely to ensure their children is progressing.

"As educators, it is all about children reaching proficiency," said Walsh.

This past week, the Boston Globe printed the statewide MCAS ratings. The Globe and Boston.com ranked them by adding the percentage of students who scored either "advanced" or "proficient" in English and Math. Statewide, Cohasset High School ranked 52nd in English, 17th in Math and seventh in science/technology for grade 10. Ninety percent or above of students scored in those categories. None of Cohasset's 10th graders failed the math, English or science/technology portions of the test.

BRIEFLY

New school website up and running

The Cohasset Schools launched an entirely new website on Oct. 1. The re-vamped site can be accessed at the same web address, www.cohassetk12.org.

The site will be composed of five sites (one for each school and one for the central office) and each one is designed to be frequently updated by administrators, teachers and staff. Teachers will be able to have their own site to post homework assignments, the Superintendent will be able to post messages, and the daily school lunch menu will be available as well. The ability to purchase school lunches online will be available soon.

Lunch dates for veterans announced

All veterans are welcome to lunch at noon, on the third Wednesday of each month. Upcoming dates include Oct. 15, Nov. 19 and Dec. 17. The purpose of the luncheons is to foster camaraderie and assist those in need.

Luncheons will take place at Hearth 'n Kettle, 151 Main St., Weymouth. Menu will include a choice of chicken, fish or steak tips with coffee or soft drink with refills. Cost is $16 and includes gratuity.

For more information, call coordinators Paul Salvas at 781-337-0533 Joe McElroy 781-383-0505.

School enrollment up

Hot off the presses on Wednesday night was the complete school enrollment numbers for the 2008-2009 school year.

"We can see the beginning of trends. We actually have numbers and it is a good place to start as we go into the budget season," said Superintendent of Schools Denise Walsh. A total of 1442 students started in the Cohasset Public Schools this September.

The entire district (kindergarten through grade 12) is up 41 students. The jump is mainly due to a large incoming kindergarten class of 137 (half-day and full-day) at Osgood School. From the 2007 numbers, Deer Hill School gained 12 students over last year, the middle school lost 17 and the high school gained 15.

The numbers, by school: Osgood, 418 students, Deer Hill, 356, the middle school, 311, and the high school, 381. An increase in students could translate into a higher allocation for state chapter 70 funding, Walsh said.

Walsh said she was "very comfortable" with the class sizes across all schools. Osgood class size hovered between 19 and 20 students, Deer Hill was a little higher averaging 22-23 students per class. The high school and middle school class sizes varied by subject and class but were generally between 20 and 30.

Blood drive scheduled for Oct. 10

In order to give blood, potential donors must be at least 17 years of age (16 with a parent's authorization), weigh at least 110 pounds and be in good health.

Everyone, whether it is realized or not, depends on blood. Every two seconds, someone needs blood. At this time, donations of all blood types are needed to meet the needs of patients in local hospitals as well as those throughout New England.

The American Red Cross hopes the residents of Cohasset will give the Gift of Life. A Red Cross blood drive will take place from 1 to 7 p.m., on Friday, Oct. 10, at St. Anthony Parish Hall, 10 Summer St. Childcare will be available from 3 to 5 p.m.

Because of the uncertainty of the times, the Red Cross seeks to maintain a five to 10 day community blood supply. The fact is, nearly 2,000 units of blood are needed each day to help those in need in the South Shore region. It is a challenge to collect enough blood to meet the needs of hospital patients year around. Across the United States, 70 percent of the population is eligible to give blood, but only 5 percent actually do so.

In addition to supporting cancer treatment, blood is used for a variety of other life-threatening medical conditions. Transfusions are used daily in the treatment of trauma victims, to replace blood lost during surgery and to restore blood cells damaged from genetic disorders. Without the availability of transfusions, such medical miracles as bone marrow transplants would not be possible. The importance of a volunteer blood donor to the health and wellbeing of the community cannot be overstated. Blood donors save lives every day.

In order to give blood, potential donors must be at least 17 years of age (16 with a parent's authorization), weigh at least 110 pounds and be in good health. Most medications and medical conditions do not prohibit a person from being a blood donor. Donors can give blood safely every eight weeks. To make an appointment to donate at this blood drive or for more information, call Kevin or Ann O'Connor at 781-383-1290, the Red Cross Blood Services at 800-448-3543 or visit givelife.org. For more information on the blood donation process and current eligibility guidelines, visit the Web site at newenglandblood.org.

℠ 20/20 Mortgage is a product offered by Hingham Institution for Savings. Trademark registration pending. Annual percentage rate based on 20% down payment. Higher loan amounts will require a larger down payment. Owner occupied residences only. A loan with a smaller down payment will require Private Mortgage Insurance and the APR will be higher. The maximum rate increase at adjustment is 5% above the initial interest rate. Initial 240 months principal and interest payments of $5.67 per $1,000. 10 year US Treasury average plus 4.00% margin. The payments used above includes a comparison to our higher rate 30 year fixed rate mortgage at a rate of 6.375% and an APR of 6.337% with payments of $6.24 per $1,000. Rates effective September 20, 2008. Rates subject to change without notice. Massachusetts properties only. Member FDIC/Member DIF. Equal Housing Lender.

Young animal lover helps Scituate shelter

AROUND TOWN

JENNIFER PIEPENBRINK

HAPPY OCTOBER

Hello Cohasset, happy October to all! This past week or so has been a tricky one for us personally and my mind has been a bit all over the place. I am so sorry if I have forgotten anything in this week's column or missed out on returning someone's call or message but will be back in action next week. In the meantime, here comes this week's column with some wonderful news and events that will be taking place soon.

GENEROSITY

At his ninth birthday party on Sept. 27th, **Jerome Vainisi**, who loves animals, was able to raise over $200 for the Scituate Animal Shelter with the help and generosity of his friends.

Jerome asked for donations to the shelter in lieu of gifts so he and his friends could provide many wonderful animals with much needed help. His parents, **Jerry and Tracey,** and sister, **Grace**, are very proud of him. Jerome thanks his many friends who were happy to help.

HARVEST SUPPER

The Annual Harvest Supper and Auction will be held at the Beechwood Congregational Church for the 85th straight year! In years past, members have personally made calls to people in surrounding towns in order to make dinner reservations. This policy is being phased out. Instead, the first 100 people will be seated on a first come basis. Those, who want to, can call the church and order reservations on the voice mail at 781-383-0808. Seating begins at 5:30 for dinner, which will be served at 6:30. This year's menu includes ham, herbed roasted potatoes, green beans, Harvard beets, coffee and dessert. Dinner is $9 for adults and $4.50 for children. An auction of locally harvested produce, pies, homemade goods and various donated items will take place immediately following dinner.

FIVE-YEAR REUNION

The five-year reunion for the CHS class of 2003 will be held Wednesday, Nov. 26th from 7-11pm at the George Mealy American Legion Post, 98 Summer St. Make your parents happy by coming home for Thanksgiving. Then catch up with old friends and share your new exciting experiences. Appetizers and drinks will be served. Questions? Contact Curt (curt.kahn@gmail.com) or Ross (rlieblappen@gmail.com).

COURTESY PHOTO

Jerome Vainisi, his sister Grace Vainisi, and their friend, Virginia Coffey. Jerome raised $200 for the Scituate Animal Shelter on his ninth birthday!

PHOTO/CRAIG GOEDECKE

Pran Teelucksingh, 5, decorated himself as a tree for the Decorated Bicycle Parade during Cohasset Day on Sept. 20. In last week's issue, the Mariner misidentified Pran in the photo page about the event. Sorry about the mix-up, Pran!

BRYANT

Bryant University has admitted the following local student to the Class of 2012. **Eric MacCarthy**, who is a communication student from Cohasset, is off to a wonderful start to the year at Bryant College. We look forward to hearing about your days at college Eric, have a super time!

HOOP SIGNUPS

Cohasset Youth Basketball Registrations will take place on Saturday, Oct. 18 from 8-11 in the basement conference room at Town Hall. Registration fee remains at $75. Anyone registering after Oct 31 will be charged a $25 late registration fee. Teams will be selected on Nov. 15 and they will be posted online. Registrations will close on Nov. 7. Any late registrations will be subject to the approval of the CBBC.

Also on Oct. 18, signups for Travel Basketball tryouts will be held. No money or registration is required at this time. In order to plan properly, the CBBC needs to know how many kids are planning on trying out for Travel Basketball.

More information about Youth Basketball and Travel Basketball will be available on Oct. 18.

UNH GRAD

Caitlin M. Gontarz, daughter of **Donna and Bob Gontarz** of Cohasset, graduated *cum laude* from the University of New Hampshire on Saturday, May 24, 2008. Caitlin received a Bachelor of Arts degree in English. Congratulations Caitlin!

OUR WORLD

There are some new classes and programs taking place at the Our World Children's Global Discovery Museum including an indoor sports class on Tuesday afternoons, Drama Kids, Toddler programs and more. Please call 781-383-3198 or go to www.ourworldcgdm.org for more information.

That is all for this week. Send in all of your news and photos no later than Tuesdays by 5:00 pm to me for that weeks Friday column.

EMAIL: aroundtowncohasset@yahoo.com

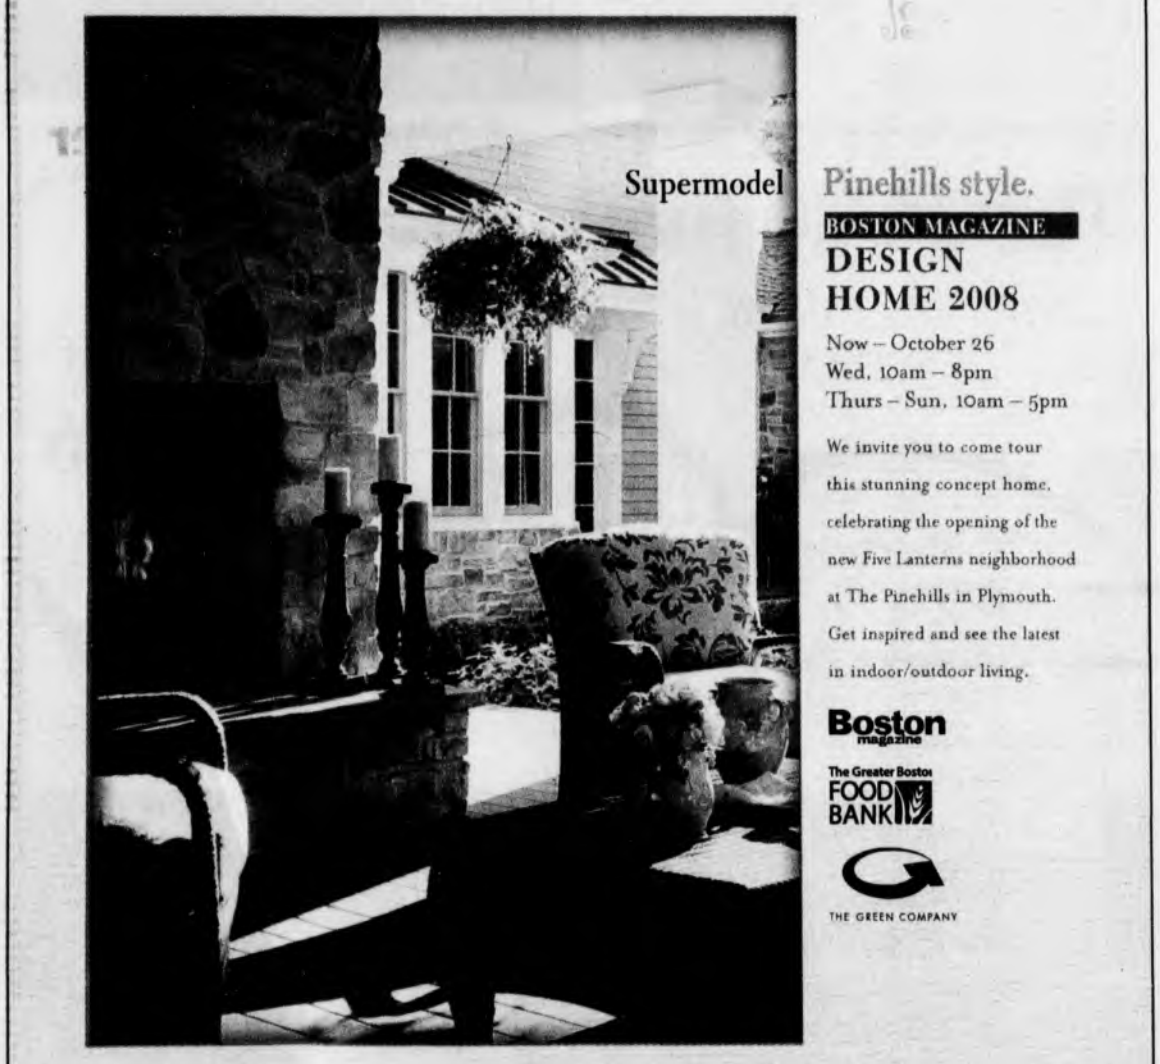
MAIL: PO Box 33, Cohasset, Mass 02025

SENIOR SCENE

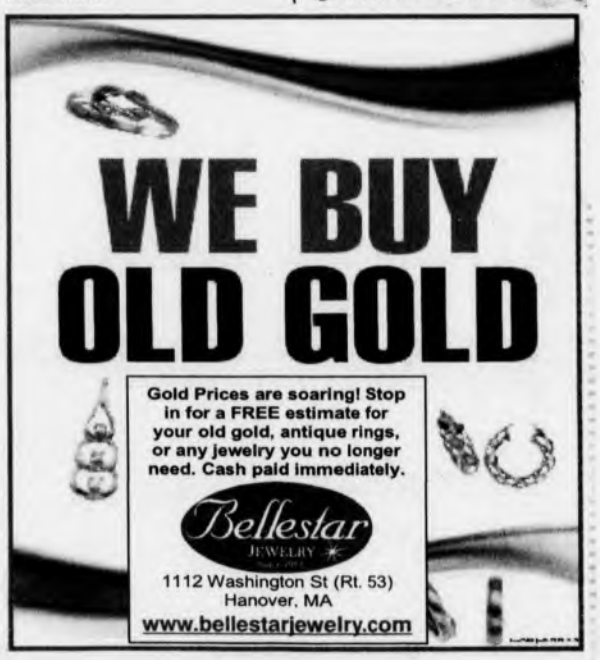
Surviving the stock market!

Cohasset Elder Affairs is sponsoring the following events. Call 781-383-9112 to register.

• Wednesday, Oct. 8, 11 a.m. to noon. "How to Survive in a Down Market During Your Retirement Years" with presenters, Richard Gilman, financial specialist, Matthew Cunningham, registered principal and financial advisor, Securitas Financial Group, Hingham. In addition to answering questions, this seminar will cover: Easy ways to avoid probate, proper ownership of accounts and how to protect assets. Following the seminar, Securitas Financial will provide a complimentary lunch.



• Wednesday, Oct. 15, 11 a.m. to noon. "The Purple Cow," presented by Dr. Joseph Santelli, DDS. He will speak on mini dental implants that involve no surgery. Following the seminar, a gourmet lunch will be provided by the Angel Food Project. Donation: $2.50.



• Wednesday, Oct. 22, 11 a.m. to noon. "Using Newest Technology & Collaboration to Improve Our Connections," presented by Lucille Sorrentino, Tina Dwyer and Anna Hall. Dessert will be provided by Weymouth Health Care. Gourmet lunch provided by Arthur Roebuck. Donation is $2.50.

David Wadsworth to speak Oct. 15

Historian David Wadsworth will lead participants on a walk around town, without leaving one's seat, when he presents "The Common and Village" in his talk on Wednesday evening, Oct. 15, at Cohasset Historical Society, Pratt Building, 106 South Main St. Wadsworth will relate the significance of the buildings and their histories with his slides and knowledge of the town and its people. Always a fascinating storyteller, his ability to recount the who, what and where of Cohasset makes the town's past alive again.

All are invited to attend this program, which will begin at 7:30 p.m. There is no charge and light refreshment will be served.

Sea Chest Consignment Shop honors its volunteers

FROM VOLUNTEERS, PAGE 1

spurred on by an interest in retail, the consignment shop was located in the old railroad station in the village.

Beyond knowing she was doing a good thing for charity, Graham said the social aspect of the shop has been rewarding for her and other volunteers.

"Many friendships have been made," said Graham.

Volunteer coordinator Carol Rankin agrees 100 percent with Graham.

"My favorite part is being with the people and interacting with the people. I've always said this is a family, a support system for each other as well as customers," said Rankin, who started volunteering in 1996 when she was shopping at the Cohasset Consignment Shop and one of the volunteers working asked if she would like to volunteer. Now at the Sea Chest, she is the one asking customers if they'd like to volunteer.

The volunteers range from high school students looking for community service hours to volunteers in their nineties. They come from all over the South Shore, too. Most are from Cohasset and Scituate, but some come as far as Quincy, Hanson and Duxbury.

"It's good time and a good service; you feel good leaving. My philosophy is you can come in and leave with a smile," said Rankin.

Merrill said each day is staffed with different volunteers yields a unique dynamic.

"Each day has its own personality and the customers pick up on that. Customers have their favorite day to come in depending on who's there," said Merrill.

PHOTOS/LAURA SINCLAIR

Joan Graham was recognized for her many years of volunteer service at the consignment shop.

Polly Logan and Andi Merrill enjoy the luncheon at the Lightkeepers Residence.

Lillian Peters and Ernie Grassey, Sea Winds Charity, Inc. board members; Andi Merrill, Sea Chest Consignment Shop Manager; Louis Harvey, Sea Winds Charity, Inc., board member; and Colleen Roth, assistant manager at Sea Chest.

Formerly sponsored by the non-profit organization Road to Responsibility, the consignment shop has broken ties with that organization. The new sponsor of the consignment shop will be a new charity, Sea Winds Charity Inc., which is currently waiting for approval from the IRS for their official non-profit status.

As Sea Winds Charity, there will be a Board of Directors, a fundraising committee and a committee to determine how to distribute the funds. The volunteers will be given a choice of four or five different South Shore non-profit human service charities and then the profits will be distributed according to their will.

"Their input is going to make the decision," said Merrill.

It is the intent to garner funds for the Sea Winds Charity, Inc. through the consignment shop as well as other fundraising efforts. It is expected the final non-profit status paperwork for Sea Winds Charity will be coming in about six months.

Sea Chest is located in the Dwyer Building along Rt. 3A, behind Cohasset Cycle Sports, Mullaney's fish market and Lapels dry cleaners. For information about volunteering, call the consignment shop at 781-383-2293.

Volunteers for the Sea Chest Consignment Shop gather outside the Lightkeepers Residence where a luncheon was held in their honor.

— TEACHERS WITH CLASS —

Ann Berman has always loved art

By Kathryn Hillman
SPECIAL TO THE MARINER

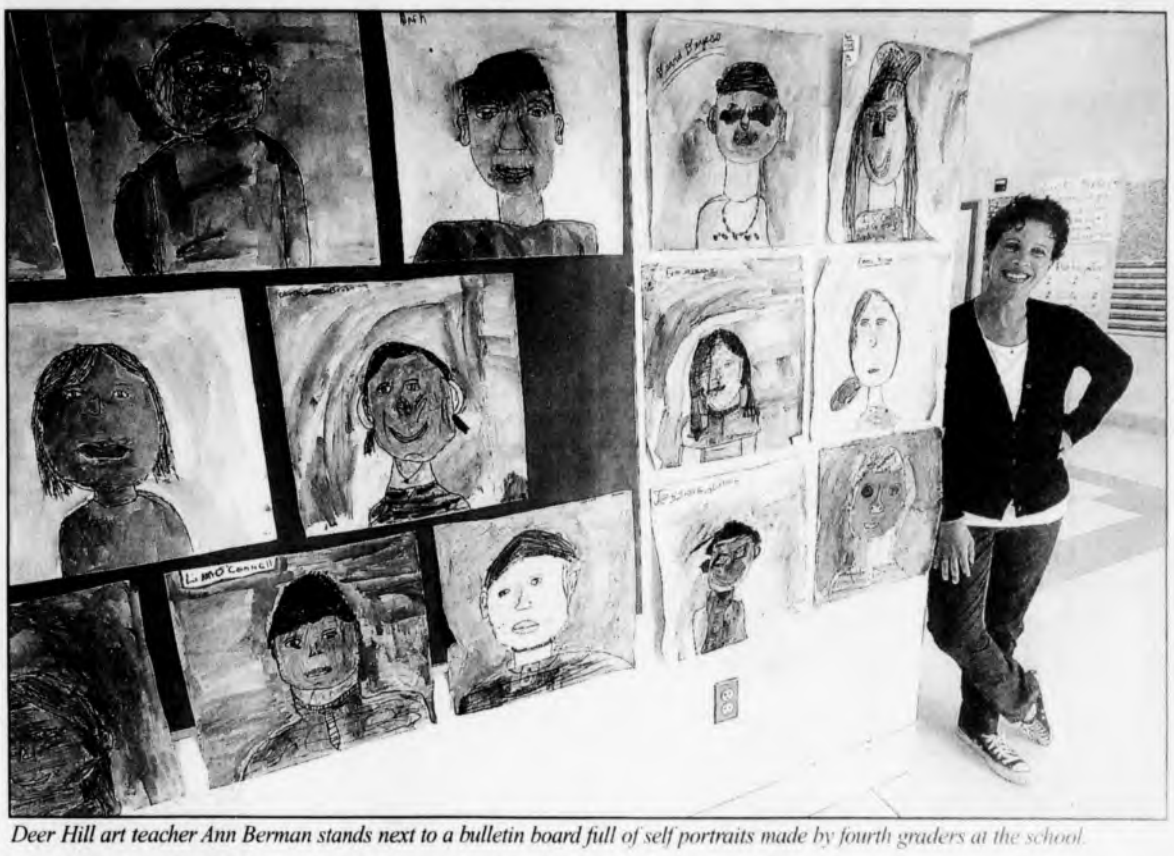
Ann Berman, art teacher at Deer Hill School, has been teaching in the Cohasset schools since 1992 and has become known to a generation of students and parents. Aside from the imaginative art projects she has done with the third through fifth graders in her 16 years at Deer Hill, Berman has also started projects such as the Deer Hill Favorites, an art exhibition of the children's artwork from over the course of the year, and the well-loved Hats for Rosie's Place.

Berman lives with her husband Jeff, a professional musician (who plays the piano at the Favorites event) and her three children, Samantha, who now attends the University of Massachusetts at Amherst; Alice, who is in 10th grade; and Ben, who is in eighth grade. The family also has a 13-year-old golden retriever named Molly and an eight-year-old cat named Camus.

Even as a child, Berman said that she "...always loved art". In college, she combined her love of art with education, first earning a Fine Arts degree in Printmaking. Realizing that she wanted to teach children, she returned to school and earned a degree in teaching at the Mass College of Art to get a master's degree in Art Education. Her first position in art education was at the Mather School in Dorchester, and later in Marshfield. Berman came to teach in Cohasset in 1992. Berman says, "[Cohasset is] such a nice place to work."

In Cohasset, Berman has pioneered many lasting projects. She has started an after-school art program for students who would like to do a little more with art than they have time to do during the 40-minute class periods. Two of the best known of these projects are the Hats for Rosie's Place project and Deer Hill Favorites Night.

Berman has directed the Rosie's Place project since 1996. Introducing the project early in the year, she teaches students how to knit during after-school art. She says that the students love doing it, and as many as 50 students will show up to learn. "They love the idea that they can make a difference." The hats are personally delivered to Rosie's Place, and the shelter volunteers are extremely grateful. Berman says that over the years they have knitted approximately 18,000 hats and that many of the students become life-long knitters. "If they realize at this young age that they can make a difference, they will keep helping."



Another big project is the annual Deer Hill Favorites Night, which Berman started it in 1992. "It's a celebration of their artistic ability," she says, "in which the students get to experience a real art opening." Berman stressed how much people in Cohasset really value art and music. She says that parents in Cohasset have always helped out and she truly appreciates that help.

Berman has many creative projects planned for her students this year. She wrote a grant application to the National Endowment to the Humanities, an award that she has used to obtain full-size prints of famous American paintings. Using these prints, she hopes to teach a unit on American artists. She also intends to carry on her tradition of having the fifth graders (the grade that graduates from the Deer Hill School) make "clay memories." Each fifth grader decorates a clay tile with whatever they loved best from their years at Deer Hill. The tiles are mounted together on a panel and decorate the hallways of the school.

When asked what museum she would recommend for her students if they wanted to learn more about art, she directed the students to the Museum of Fine Arts in Boston. She also expressed a desire to take the students on a field trip to the MFA to show them the original paintings of the prints she displays in class.

Berman has participated in programs with the South Shore Art Center in past years, inviting artists to come and demonstrate art techniques for the students. She enjoyed organizing these programs because they were a "...connection to the community, ...outside the art room."

When asked to give a statement about Cohasset and the arts, Ms. Berman said, "I love what I do, I love working with the children of Cohasset. I feel lucky to say that I love my job. The parents are very supportive. It's very nice working here."

Deer Hill art teacher Ann Berman stands next to a bulletin board full of self portraits made by fourth graders at the school.

STAFF PHOTO/ROBIN CHAN

Art teacher Ann Berman explains to the fifth graders from Ms. Jordan's class their lesson for the day. They were to apply a clear protective layer to their self-portraits.

OPINION

EDITORIAL

Grading MCAS

A decade ago, the annual release of the MCAS (Massachusetts Comprehensive Assessment System) test results prompted hand wringing and outrage in some communities. Newspapers rushed to rank the results, as if the blizzard of numbers could, by some simple formula, be converted into a single list, with the "best" schools on top and the "worst" on the bottom.

Homeowners and real estate brokers in many towns fretted about the test scores' impact on home values. Politicians, parents and educators complained about the tyranny of standardized testing.

While test results aren't meant to determine real estate values, MCAS results — which are supposed to give teachers and administrators a tool to determine whether the curriculum frameworks are working and students are learning the subject matter — continue to provide a way to "grade" a school system.

Properly used, aggregate scores can tell something about the quality of a school or even the performance of a teacher. While dubbed "high-stakes" (meaning a student has to pass MCAS in the 10th grade to graduate), MCAS, unlike the SATs, is not supposed to be a reflection of a student's individual performance or a predictor of how well they will do in college.

In fact, it has been reported some state college professors have noticed no improvement in their freshmen's readiness for college-level work since the MCAS tests were initiated. (It is also interesting that some colleges no longer want to see SAT scores as part of the admission process).

Here in Cohasset, MCAS results continually translate into a "good news story" which is two-fold.

On the one hand, Cohasset has much to be proud of. Cohasset students do well on the MCAS, which means the schools are doing their job in teaching the curriculum.

On the other hand, as Supt. of Schools Denise Walsh points out, MCAS also shows areas where the schools can do better.

We can state with authority that the school department and school committee take the MCAS very seriously. School curriculum and MCAS requirements are constantly being analyzed.

In fact at the School Committee's next meeting at the middle-high school, each school's principal will give an in-depth look at their school's strengths and weaknesses — and the ways they plan to improve scores for the next round of testing.

Standardized tests like MCAS have always raised concern about "teaching to the test." MCAS will no doubt continue to evolve and be a "one size fits all" solution to education across the state.

However, Cohasset schools continue to do well and did so before the MCAS era. Wisely, Cohasset schools do not waste time whining about MCAS, which will be with us for the foreseeable future. They just "get on with it."

If Cohasset keeps on pace with its yearly gains, all students should score proficient and above by 2014 when the federal No Child Left Behind act requires all students be proficient in reading and math.

LETTERS TO THE EDITOR

Supporting the 'bailout'

TO THE EDITOR:

The tsunami of telephone calls and emails to our Congressmen and Senators objecting to the "bailout" illustrates the downside of universal suffrage, where democracy has be reduced to counting heads without regard for what is in them.

The knee jerk conclusion that the bailout served only to reward those Wall Streeters guilty of greed and misjudgment revealed total ignorance of the nation's plight and the pressing need to act massively and immediately to avert collapse of the financial system, and of course made it difficult for those representatives who understood the issue to vote responsibly. Granted, some representatives were as cement headed as their angry constituents, and their public statements help fuel the misconceptions.

Whether the tax payers' money infused to prevent disaster, by buying up a large portion of the questionable mortgages, will largely be recouped in time is unknowable, but retaining a healthy economy certainly will discourage defaults on the loans, whereas allowing financial meltdown would guarantee massive defaulting as jobs are lost and businesses are failing. The downward spiral would continue.

The label "bailout" is unfortunate, because it implies that the main objective is to rescue the financial institutions and their managers. Of course, the truth is that the financial institutions will be paying dearly for being prevented from collapsing, and their managers probably have lost or will lose fortunes.

It's natural to be angry at the expenditure of taxpayers' money, but to express the anger by refusing to take massive and rapid remedial action is like cutting off one's nose to spite one's face. Or like refusing to bail out the boat because keeping it from sinking would save the life of the stupid navigator that steered you into the storm.

R .Murray Campbell
217 Jerusalem Road

MEETINGS

The following meetings are posted at Town Hall:

Advisory Committee, Oct. 7 & Oct. 9, 7 p.m.
Alternative Energy Committee, 7:30 p.m., Oct. 21 & Nov. 18.
Board of Health, Oct. 22 7 p.m.
Capital Budget Committee, 7:30 p.m., Oct. 7 & Oct. 21.
Historical Commission, Oct. 8, 7:30 p.m.
Library Trustees, Oct. 14, 7 p.m. at the library.
Planning Board, Oct. 6, 7 p.m.
Recreation Commission, 6:30 p.m., Nov. 5.
Selectmen, 7 p.m., Oct. 14 & Oct. 20.
School Committee, 7 p.m., Oct. 15 at the high school.
School Improvement , 2:30 p.m., Nov. 5 at the high school.
ZBA, 7:30 p.m., Oct. 7.

All meetings take place at Town Hall unless otherwise noted. Call the Town Clerk's office at 781-383-4100 for updates and additions.

Saint Stephen's accepting book donations

Saint Stephen's Episcopal Church, 16 Highland Ave., is accepting donations of slightly worn hardcover and paperback books, books on tape, DVDs, and CDs for its annual book sale, part of the ecumenical Village Fair on Dec. 6.

Donations can be brought to the church in bags or boxes and placed inside the parish hall door marked "Church Offices". Use the "reserved parking" spot to unload your books during church office hours Monday through Friday 8 a.m. to 2 p.m. Books are sorted in Walton Rodgers Hall every Tuesday from 9 to 11 a.m. Donations will be accepted through Nov. 25. Old textbooks, romance novels, damaged, musty or moldy books or books with notes and/or highlighting cannot be accepted. For information, call D'Anne Avotins at 781-923-1104

Proceeds from the Book Sale will be used to send underprivileged children and their families to the Barbara C. Harris Camp in Greenfield, N.H. For more information, visit www.bchcenter.org.

Wind turbine project answers

COMMENTARY

ALTERNATIVE ENERGY COMMITTEE

With CCI Energy's recent application to construct two wind turbines on the Graham Waste property the Cohasset Alternative Energy Committee (AEC) felt it important to answer questions raised in recent newspaper articles and asked at the Sept. 8 Planning Board meeting. As the AEC has spearheaded the idea of bringing wind power to Cohasset we feel it is important that residents fully understand the technical aspects of wind energy and specifics regarding this project as we understand them.

The benefit to our town is twofold. First, there will be an increase in tax revenue. The amount of the tax revenue will ultimately be determined by the size of the project. The second benefit is a long-term energy purchase agreement between CCI Energy and Cohasset. There is a benefit to CCI to sell energy to the town as the retail rate is higher than wholesale. Cohasset is likely to purchase from CCI only if we if can be assured a lower and more stable rate than we currently have. In January, Cohasset received a 30-plus percent increase in electrical costs from our current provider; this is a six-figure impact on our town's budget. In addition to the rate increase, the length of the contract was shortened. No one can predict where energy costs are headed but we feel there is little chance our current supplier is planning to lower our costs. Anything we can do to lower and stabilize our electrical costs is a tremendous benefit for taxpayers. With long-term rate stabilization the town can make new decisions on transportation along with heating and cooling of our buildings. Future building renovations can include the possible replacement of natural gas boilers with electric driven heat pumps and school buses can be battery driven instead of diesel. With wind energy in Cohasset, our long-term thinking can change and we can look to eliminate fossil fuels and their growing costs where possible.

The United States now has over 20,000 MW of wind generation equipment placing us equal to the world leader Germany and ahead of Spain and Denmark. Currently the USA obtains less than 2 percent of its electricity from wind; Denmark is the world leader obtaining 20 percent. Most studies show the existing electrical grid can handle 20 percent of our energy from renewable sources such as wind and solar. Most of the USA's equipment is concentrated in Texas and California but there is a growing install base in New York, Pennsylvania, and Iowa as well as the Dakotas and Maine

The idea of modern wind energy in Cohasset dates back to December 2004 when a member of the Advisory Board asked the Board of Selectmen: "Look at what Hull has been able to accomplish with wind, can Cohasset do the same?" Over the summer of 2005 the Troika appointed nine Cohasset citizens to the Alternative Energy Committee; their first meeting was held Aug. 17, 2005. Wind energy was discussed at that first meeting along with energy conservation, solar, tidal, and alternative transportation ideas. Since that meeting the AEC has held over 30 open monthly meetings and two public forums. We have also met with eight separate town committees and presented at Town Meeting twice. Locally we have presented to the Rotary Club, Old Goats, have been interviewed by the local TV and radio shows and have had multiple articles published in the Mariner, Patriot Ledger, and mention made in the Boston Globe. Our outreach has been extensive and our message consistent, we know wind energy will work in Cohasset and we support the placement of wind turbines on both town owned land and privately developed land.

Wind bylaw

Drafting of a Wind Bylaw became a primary focus for the AEC in 2007. Our research had shown placement of turbines in New England towns was difficult as they fell outside most zoning bylaws. Passage of a comprehensive wind energy bylaw would be needed to move forward. The committee first researched other towns' efforts and found a guide from the Cape Light Compact and the Massachusetts Department of Energy.

Station parking count going up

MAKING TRACKS

TOM GRUBER & MARK BRENNAN

Greenbush – Last week we had a chance to stop by the Greenbush Commuter Rail Station to take a census of the cars in the parking lot. For this census we assume only one rider per car and we count the number of bikes and add that number to the number of cars. So the number of cars actually includes bikes, as well. Keep in mind that there may be riders who are dropped off which would be in addition to our car count.

As you can see the number of riders has increased pretty steadily. The count of 190 is a little over 90 percent of the ridership that the MBTA projected for the year 2010 when they wrote the Final Environmental Impact Report in May of 2001. It looks like their estimate may be pretty close to reality.

North Main Street crossing – The MBTA has pretty much completed the major construction work that was required to improve the safety at this crossing. However, as of early Wednesday of this week, the road had not been re-marked and the necessary signs have not been placed. We asked the MBTA to post a reflective sign at the northern end of the lengthened island immediately. Otherwise, there is no warning that the island has been lengthened for cars approaching from Hingham. We viewed this as an immediate hazard, especially in low light conditions. As of noon on Wednesday, CBB notified us that they had erected a temporary sign, for which the Town is grateful. That's good response!

Little Harbor Water/Sewer Project – For the last several weeks this project has been very visible along North Main Street. This week they have worked their way down to the Common. Just to give you an idea of the logistics that this project involves, we spent quite a bit of time working with the Carriage House Nursery School to assure safe passage for the schoolchildren and their parents during construction. The water line construction on the Common will require substantial work in front of the school that could be a safety hazard. Consequently, we arranged with the school, that at a convenient time, (this week Oct. 2nd and 3rd) they would rearrange their schedule and close for two days so the work can be done without potential hazard to the children.

COURTESY PHOTO

Staging area to the right of church.

COURTESY PHOTO

Working in the common area.

Now the question is how can we handle the completion of the water service and construction of the new sewer line in this area and still keep the area safe for the schoolchildren? The contractor, LM Holdings, has generously offered to do all of the remaining construction work in an area about 300 feet wide, which spans the school property, during the second shift. Even thought there would be a bit of inconvenience to the abutting homes for about one week, it would assure the safety of the children during construction and seems like it might be a prudent move. Currently it is expected that this might take place the week of Oct. 20th.

You may have noticed that there is a strange green enclosure on William B. Long Road next to the First Parish Church. This is a staging area for the construction project. This is a place where the construction workers can store material and equipment in the area of the Common without making the whole place look like a construction yard. At night and on weekends the staging area can be closed up and all of the miscellaneous construction material is hidden from sight. During the day, if you drive by, you might be able to peek in and see what delectable stuff lies within.

Beach St. Culvert – We are told by LM Holdings that the Beach Street culvert will finally be replaced this coming week. To refresh your memory, this will entail closing Beach Street at the area where the work in being done. Homes from #140 Beach St. and greater will only have access to Atlantic Avenue, while houses with numbers #130 and lower will only have access to Highland Avenue during the construction. This work is expected to take about one week.

Sample Date	# of Cars
Opening Day Oct. 31, 2007	75
Nov. 20, 2007	130
Dec. 4, 2007	152
Dec. 11, 2007	169
Jan 7, 2008	165
Feb 14, 2008	164
April 15, 2008	183
June 10, 2008	178
July 23, 2008	150
Sept. 24, 2008	190

Greenbush parking lot data.

Farmer's Market – Last week the Farmer's Market had its first week at its new location, the Music Circus. The change in location worked quite well. Both the vendors and patrons seemed to adapt to the new location. However, there was a bit of confusion in the patron parking area. We will make a few small changes this week to improve the situation. By the time you read this, you will know whether it did. The only thing we ask of the patrons is to be respectful of where you park. Please leave enough space for other cars to maneuver, enter and exit.

Tom Gruber, Special Assistant to the Town Manager for Greenbush Affairs. Email: cgbaffairs@townofcohasset.org

Mark Brennan, Special Assistant to the Town Manager for Greenbush Engineering, Email: cgbengineering@townofcohasset.org

Elections past

HENSHAW

TOM HENSHAW

My first adventure in the big leagues of the American political process came in the election of 1952. I lost. I elected the wrong governor of Rhode Island and, for a few brief moments, a Republican was the chosen head of the most Democratic state in the union.

I had been working for the Boston office of the Associated Press for about four months at the time, which explains why I was assigned the job of taking returns from the outlaying precincts and writing them down on preprinted cards: How can you screw that up? I proceeded to show 'em.

When our Providence correspondent called with the results of the presidential contest between Republican Dwight Eisenhower and Democrat Adlai Stevenson, I picked up the card that was prepared for the gubernatorial race, filled it in and passed the result on to my unwitting editor.

A friend who worked at the Providence Journal later told me they had the poor guy on the radio telling listeners what he was going to do for Rhode Island but Steve was always funning with me so I didn't believe it. I got my comeuppance in the same election, though.

That was also the election in which Christian Herter defeated Paul Dever for governor of Massachusetts. When his election was finally assured, I was sent down to report on his victory party, mostly, I think, to keep me from doing any more damage to the AP's image.

Usually a victory party means a couple of pops to allay the thirst that can build up over a hard day's night, but I arrived in time to hear Herter's handler, a state rep from out west named Heselton, announce that ginger ale was the choice of the candidate but milk and cookies could be arranged.

Four years later, the Democratic candidate for vice president, Senator Estes Kefauver of Tennessee, was in town on a campaign swing and The Tennessean, a newspaper in Nashville, wanted a special story on his visit. I was dispatched to his "time" at a Boston hotel.

I looked up the senator and explained to him that The Tennessean wanted me to interview him but I never got it all out.

"The Tennessean!" he said, clapping his hand on my shoulder. "How's old Jim McLean?"

I started my explanation again but Estes had wandered off, clutching a glass of bourbon and branch water. A few minutes later I braced him again but he was too fast for me.

"From The Tennessean, eh!" he said, clapping his hand on my shoulder. "How's old Jim McLean?"

I was plotting my next move when I felt a familiar clap on my shoulder and a familiar voice booming out, "How's old Jim McLean?"

"He's fine," I said. "He wants me to interview you."

Local pols can be just as frustrating or interesting as the ones that wander in from afar. Take Kevin White, the former mayor of Boston and candidate for governor, for instance.

He was running for some office or another and I was spending the day with him for The Boston Herald when we visited a plant in Roxbury that made ice cream cones (just the cones, not the ice cream).

The process genuinely fascinated White. He expounded on it as we were driven to the next stop. Then he further expounded on all the different things he had learned while campaigning in factories, offices and other places where the voters gathered. Finally, he stopped as a thought occurred to him.

"You know," he said, "politics may be the last refuge of Renaissance Man."

HEALTH NOTES

Flu season round the corner

By Steve Bobo
SPECIAL TO THE MARINER

Now that we no longer need be concerned with suntans and their effects, we begin to think about sniffles and worry about the inevitable flu.

First: a cold, is not the flu — They are both viruses but the symptoms of a cold, stuffy nose, sneezing and sore throat, are different as is duration and severity. Colds take their time arriving and are milder in the long run. The average duration of a cold is 9 days. So, most people tough it out, but if you're having a really bad time, call the Town Health Nurse and she'll tell you which specific treatment will work best depending on your symptoms. The flu virus is a different matter.

How is the Flu Spread? — The flu spreads mostly through droplets (like spit and mucus) from the mouth, nose, and throat. This happens when a person with the flu coughs or sneezes near another person (within 3-6 feet). Sometimes people become infected by touching something like a doorknob or telephone that has been touched by someone with the flu, and then touching their own mouth, nose, or eyes.

People who have the flu can spread it to other people one day before they become sick and up to 3-5 days after they feel symptoms. Children with the flu can spread it to others for up to 7 days after they become sick.

Adopt the following procedures to help prevent getting the flu or spreading it to others; good habits whether or not people around you are sick.

Get the flu vaccine — The best way to prevent seasonal flu is to get vaccinated each year. for more information about flu vaccine.

Cover your mouth — Sneeze or use a tissue when you cough or sneeze. Throw the tissue away right after you use it. or: Cough or sneeze into your sleeve, not your hands, if you don't have a tissue.

Clean your hands — Clean your hands after you cough or sneeze.

Wash hands with soap and warm water — if they are not available, use an alcohol-based hand sanitizer (such as Purell or a store brand). Wet your hands with warm water and put soap on them. Rub your hands together to make a lather. Scrub all parts of your hands. Continue rubbing your hands for 15-20 seconds. Rinse your hands well under running water. Dry your hands with a towel or paper towel. Throw used paper towels away right after use. Someone who is sick should use a separate towel or paper towel to dry off. In public restrooms, dry your hands using a paper towel or air dryer. If possible, use a paper towel to turn off the water. Don't allow your clean hands to touch the faucet.

To use an alcohol-based hand sanitizer — Put the sanitizer on the palm of one hand. Rub it over all surfaces of your hands and fingers until dry. Young children should be supervised when using alcohol-based hand sanitizer. Also, store hand sanitizers out of children's reach. The contained alcohol may be dangerous if swallowed.

Flu symptoms — Most people who get the flu have a sudden onset of fever, dry cough, body aches, sore throat, headache, and extreme tiredness or weakness. The fever and body aches usually last 2-3 days and rarely more than 5 days. Cough, tiredness, and weakness may last longer. Some people who get the flu may feel tired or weak for 2 or more weeks after the fever goes away.

Flu clinic

The Board of Health has not yet announced a date for a full flu clinic. The reason, of course is that, although, we have some vaccine for this year's flu virus, we will only have the full amount we will need when we've received the shipment from the MA Dept. of Public Health.

- **Where**: Cohasset Town Hall Auditorium, 41 Highland Avenue
- **When:** Date to be announced
- **Who:** Open to all Citizens of Cohasset (Adults Only)
- **Parents of young children** — please check with your pediatrician to see if the shot is available at your physician's office.
- **Remember:** Wear a short sleeve shirt
- **Also:** Seniors please bring Medicare part B and/or Senior Health Insurance cards

For more information please contact Mary Goodwin , RN, at 781-383 – 2210

Steve Bobo is a long-time member of the Cohasset Board of Health.

LIBRARY CORNER

Part 2 of Genealogy Workshop is Oct. 23

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road. For more information, call 781-383-1348.

Movie Matinee – Enjoy a free screening of the movie "A Shot in the Dark" starring Peter Sellers and Elke Sommer at 11 a.m., on Friday, Oct. 3, in the Meeting Room. Inspector Clouseau (Sellers) finds himself falling for the prime murder suspect – the beautiful maid (Sommer), whose talent for being in the wrong place at the wrong time rivals Clouseau's. Light refreshments provided by the Friends of the Library.

Genealogy Workshop – Genealogist Michael Brophy will present Beginning Genealogy and Family History – Part 2, at 7 p.m., on Thursday, Oct. 23. Topics to be covered are United States military history records, city directories, church records, town reports, tax records and more. Anyone interested in tracing their family roots are welcome. Free. Sponsored by Friends of the Library.

Independent Film Night — The library will show the independent film "Choking Man" at 6 p.m., on Thursday, Oct. 16. Free admission and free refreshments provided by the Friends of the Library.

Author Visit – Catherine Goldhammer, author of "Still Life with Chickens," will discuss her new book "Winging It: Dispatches from an (almost) Empty Nest," at 3 p.m., on Sunday, Oct. 26, in the Meeting Room. All are welcome to this free event. Goldhammer's books will be available for purchase.

FOR CHILDREN

Letters About Literature 2009 – Letters about Literature is a national reading and writing program that asks students in grades four through 12 to write letters to authors whose books have made a difference in their lives. LAL is looking for personal and reflective writing about the importance of written work in the lives of young readers. Massachusetts winners, their families, friends, teachers and librarians are invited to an awards ceremony at the State House in the spring. The state program is sponsored by the Massachusetts Center for the Book & the Calderwood Writing Initiative at the Boston Athenaeum. The national program is sponsored by the Library of Congress and Target Stores. Visit the Web site at massbook.org for more information and guidelines, or pick up the guidelines in the Children's Room or Young Adult Room of the library.

Eyes On Owls – Saturday, Oct. 4, in the Meeting Room. Marcia Wilson, owl rehabilitator, will bring her owls and her knowledge to provide an experience for all. Due to popularity of this show there will be two performances: 11 a.m. and 1 p.m. Free tickets are available at the Circulation Desk. Don't miss this opportunity to see several kinds of owls up close. For more information about Wilson and her commitment to nature go to eyesonowls.com.

Story & Craft – Online registration has begun for Story & Craft, which will take place Thursdays, Oct. 2, 9, 16 and 23, at either 10:30 to 11:30 a.m. or 1 to 2 p.m., in the Story Room. Story & Craft is for Cohasset residents ages 3 and older and is a four-week commitment. To register, go to the Web site at cohassetlibrary.org and click on calendar. Choose either the morning session or the afternoon session and fill out the registration form. Include child's name and age in the name field.

MamaSteph – Performances at 10:30 a.m., on Mondays, Oct. 6, 20 and 27, in the Meeting Room. Join others for children's music and more. Doors close promptly at 10:35 a.m. Funded by Friends of the Cohasset Library. All ages and communities are welcome.

Drop In Story Time – In the Story Room at 10:30 a.m., on Tuesdays, Oct. 7, 14, 21 and 28. All ages and communities welcome.

Turbine talk on Our Town

"Our Town" co-hosts Pat Martin and Mark DeGiacomo sit down with Chairman of the Alternative Energy Committee Andrew Willard and Private Energy site Developer Jim Sweeney to talk about the new windmill proposed on Route 3A at the site of the former Cohasset Heights Landfill.

The Cohasset High School chorus also provides a song from the recent spring art night.

Our Town airs on local Comcast Channel 10 on Monday, Tuesday and Thursday evenings starting at 9pm.

Stay tuned and stay informed.

Treat's Pond could go before Special Town meeting

FROM TOWN MEETING, PAGE 1

of September. The letter requested a confirmation of the town's interest in the project and intention to serve as the non-federal sponsor for the Treat's Pond Aquatic Ecosystem Restoration project and, if interested, identify a preferred restoration alternative.

The Board of Selectmen did one of those things. In a 3-1 vote (Selectman Karen Quigley was the sole nay vote and Selectman Ralph Dormitzer continued to recuse himself as a selectmen from the Treat's Pond discussion), Selectmen reaffirmed Cohasset's interest in the Army Corps project and desire to put the question to Town Meeting. Yet, the Selectmen were not ready to express the town's preferred route.

In lieu, they voted (again, 3-1) to send a second letter to the Army Corps with a list of questions, including asking the impacts additional freshwater from Treat's Pond would have on the harbor and what properties are affected by each option as the lot numbers would need to be included in any Town Meeting article on the project.

Options and roadblocks

Last summer, the Army Corps proposed building a pipe across Whitehead Road to outfall at Whale Meadow and the outer harbor or a pipe down Atlantic Avenue to outfall in the inner harbor. The primary goal was saltmarsh restoration. Both options had drawbacks. Whitehead Road residents expressed strong opposition to having the pipe installed under their property. Others opposed the Atlantic Avenue option because it would add freshwater and pollution to the inner harbor.

The Treat's Pond issue is multi-faceted and the solutions proposed each come to the issue from different angles.

On the one hand, the Army Corps project is primarily designed and engineered to enable two-way flushing to facilitate a saltmarsh restoration. The project engineers have said there could be some benefit to alleviating the recurring flooding in the area, but addressing flooding was not the primary focus.

On the other, the flood control master plan done by Coughlin Environmental Service is looking at Treat's Pond and Atlantic Avenue solely from the perspective of mitigating flooding. One of Coughlin's concepts is to install an "interceptor pipe" on Atlantic Avenue so during significant rain events a considerable portion of the stormwater that currently ends up in Treat's Pond would instead be conveyed to the harbor.

The Army Corps does not recommend an extension of the pipe on Sandy Cove because they found it did not yield enough flushing to enable the saltmarsh restoration. Dan Coughlin, principal engineer for Coughlin Environmental, found the extension of the pipe would not provide reliable relief of flooding because it could get clogged with sand/debris or damaged in a storm surge.

"The (current) pipe is not a satisfactory long-term solution," said Selectmen Chairman Ted Carr, but could provide temporary relief to flooding while a more permanent solution is sought, which led the Selectmen to put that option on the table for Town Meeting.

Selectman Karen Quigley came out strongly against nearly all the project's manifestations, except doing something with the current pipe on Sandy Cove.

"There are legal and financial blocks significant enough in my mind to take the Army Corps project off the table," said Quigley. She said she was aware and sympathized with the Atlantic Avenue residents affected by the flooding, but "did not believe this particular (the Army Corps) project will resolve the problem of flooding."

As discussion drew on and the obstacles of the issue became more apparent, Selectman Fred Koed expressed frustration with the lack of a clear answer to the problem.

"I can't believe this is the only place in the world this has happened," said Koed. Quigley, too, shared in the frustration, half-joking they should give the problem to MIT students to solve.

Questions need to be answered

Along with Koed, Quigley opposed the addition of freshwater into the inner harbor. "The harbor is terribly impaired and the amount of freshwater is a greater problem…than pollution," said Quigley.

"(There is) a lot of political opposition to freshwater to harbor, we could talk about it for the next two months, it's not going to change," said Koed.

The lack of specific scientific data on the impact of additional freshwater in the harbor brought in by the proposed Army Corps project caused some audience members to call for a study or, at least, for the Army Corps to provide an data-backed answer. The Selectmen included the question of freshwater impact on the environmental health of the harbor in their second letter to the Army Corps.

"What do we think we're going to learn that we don't already know? I don't want to spend taxpayer money on what we already know," said Quigley, who voted against the content of both letters to the Army Corps.

It was unclear whether this request for more information from the Army Corps could trigger any town obligation to pay for the project.

It is estimated roughly $600,000 has been spent on the project thus far. As the Selectmen understood at Monday's meeting, the town is currently not responsible to pay for any percentage of the project because a Town Meeting vote never authorized the town's involvement or its funding. If the town does agree to the project, then the town and/or other non-federal funding sources will be responsible for 35 percent of the total cost. The entire project, whether the Whitehead Road or the Atlantic Avenue route is pursued, is estimated around $1.7 million, making the town share approximately $600,000.

A matter of priorities in addressing town-wide flooding issues was something Quigley felt needed to be addressed.

"Are we leapfrogging this project over others because we might get a million dollars in federal funds? For a true stormwater remediation solution, it needs to be wrapped into a town-wide solution," said Quigley. A town-wide flood control plan is in the final stages of development by Coughlin Environmental Services. Jacob's Meadow and Elm Street residents have called for help with their recurring flooding issues many times over the past few years, said Quigley.

"We do owe it to Jacob's Meadow," said Koed.

Despite the issues, or perhaps because of them, a majority of the Selectmen determined to put the issues — and the multiple proposals — in front of Town Meeting.

Proposed Town Meeting articles

Voters could consider as many as three different options for the Treat's Pond/Atlantic Avenue flooding issues at Special Town Meeting. Since all options would involve borrowing and/or real estate transactions, a two-thirds vote of Town Meeting would be required. This is only a preliminary description of the articles as discussed this week at the Board of Selectmen's meeting. A more detailed draft of the articles will be available in the coming weeks and more discussion should follow.

Army Corps of Engineers saltmarsh restoration project

Details: As of Monday, the Selectmen have not chosen a desired route for the restoration to take place.

The Army Corps proposed building a pipe across Whitehead Road to outfall at Whale Meadow and the outer harbor or a pipe down Atlantic Avenue to outfall in the inner harbor. Both options have received strong opposition from affected residents (from which the town would have to acquire easements and, particularly for the harbor option, the larger community).

Estimated cost: $1.7 million (85 percent federal grant, 35 percent town and other non-federal funding sources).

Construct an overflow pipe down Atlantic Avenue

Details: The pipe is proposed in the townwide flood control master plan. The present pipe on Sandy Cove would be maintained, this pipe would be used during intense rainfall to alleviate Treat's Pond flooding.

Estimated cost: $500,000.

Extend pipe on Sandy Cove

Details: Extend the Treat's Pond outlet pipe on Sandy Cove 100-feet from current outfall, still above the low tide mark and accessible to a backhoe. Permission and easements of Sandy Cove residents would have to be given in order to extend the pipe.

Estimated cost: $50,000.

Sandy Cove easement update

At this week's Selectmen's meeting, Priscilla Dewey Houghton of 91 Atlantic Ave. asked what the status of the town's easement to Treat's Pond and its associated outfall pipe to Sandy Cove. She expressed her hope of a resolution as soon as possible. Houghton's property is severely impacted by flooding when during severe rain events and has even offered her own property as a means to reach the pipe on the beach.

Selectmen Chairman Ted Carr said he hoped to have a decision on the issue within the next few weeks. He hoped a member of the Board of Selectmen, Town Manager Bill Griffin and the affected residents would meet in the next week or two to discuss a resolution. If a suitable agreement could not be reached, Carr said the town could move forward with litigation.

Two weeks ago, the Board of Selectmen held extensive discussion regarding the town's easement to Treat's Pond and its outfall pipe to Sandy Cove. The 1964 document (the "Bigelow deed") granting the easement to the town was and remains in conflict, as the Board of Selectmen are not seeing eye-to-eye with some of the property owners the easement crosses.

Although the Selectmen indicated they would like to resolve the easement issue without litigation, the town's legal options to enforce their easement were discussed in detail with Town Counsel during open session. In addition, the Selectmen held an executive session to further discuss litigation strategy and possible real estate acquisition.

The easement issue is key to the greater scheme of Treat's Pond and its associated Atlantic Avenue flooding because it allows the town a legal way for the town to maintain the drainage pipe. Keeping the outfall clear is crucial to preventing and alleviating flooding in the area while a more comprehensive solution is developed.

New scale may cause delays

Will help with revenue, fairness

By Nancy White
NWHITE@CNC.COM

A visit to the Recycling Transfer Facility is a weekend ritual for most in Cohasset. Beginning in mid-October, residents may notice some delays as they make their way through the facility. A truck scale to weigh construction and demolition (C&D) material has been installed and will begin operation in mid-October.

The construction and demolition scale was a $30,000 capital purchase authorized by the 2007 Town Meeting. Now that the scale has been procured and installed, the Board of Selectmen set the fee for C&D disposal.

Before the scale was installed, Town Manager Bill Griffin said the RTF staff would give each load "an eyeball assessment."

"It wasn't fair," said Griffin. " The scale will help with revenues and fairness."

Currently, all C&D material is brought to the Bourne landfill for a fee of $75 per ton for disposal. The transport to the landfill costs the town approximately $20 per ton. It is estimated a cost between $3000 and $5000 per year will be required to maintain and certify the scale. Lastly, the town is hoping to pay back the purchase price of the scale through its revenues.

Given the costs, Griffin proposed implementing six cents per pound fee, or $120 per ton, for C&D disposal.

The truck entering the RTF would be weighed on the scale, would deposit the C&D material, then be weighed again empty and then charged accordingly. Homeowners with small amounts of C&D in trash barrels will be charged $5 per barrel for a maximum of two barrels. With more than two barrels, the car/truck would have to weighed.

The Selectmen approved the fee structure in a unanimous vote.

"This is new, so let's implement this fee and then we'll track it over the next few months," said Griffin.

For the first few weeks of operation, Griffin recommended the C&D be allowed into the RTF on all days the facility is open (Friday through Sunday) as well as Thursday when the staff is working at the site. There are some concerns the weighing of the vehicles on the weekend may cause delays for other users.

"This is new, so let's implement this fee and then we'll track it over the next few months."
— Town Manager Bill Griffin

"We need to watch how this goes…It is a very limited site and we're trying to do a lot," said Griffin.

Merle Brown, who has been involved with the RTF, advised to make sure the town does everything it can to let residents know the changes being made — and the delays it may cause.

"You get more people upset than there needs to be," said Brown. As a result, the implementation of the new fees will begin the week of Oct. 20. "It will take some time, I'm sure we'll have some screaming and hollering, but that's just the way it is."

According to state laws, C&D material must be separated from regular household trash.

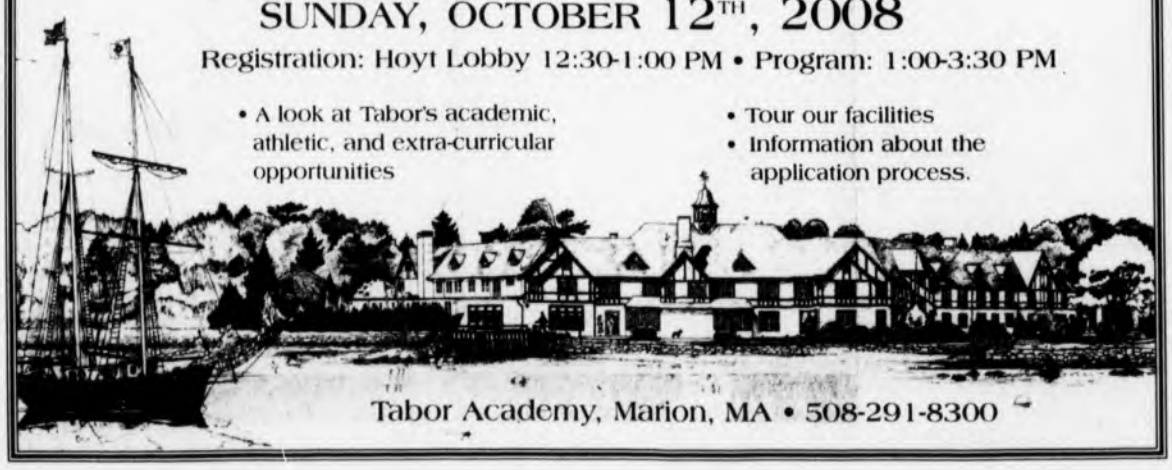
"I hope the public is patient and understanding. They are good guys (who work at the RTF) and they do a good job — give them a break," said Selectman Karen Quigley.

Recreation Notes

Shutterbug Series starts Oct. 7

Cohasset Recreation Center is at 41 Highland Ave. For more information or to sign up for activities, call 781-383-4109 or visit recreation@townofcohasset.org.

Shutterbug Series – At the Recreation Center. This class will teach children who have a digital camera and enjoy taking pictures what to do with the photos once they are printed and teach a bit about digital storage and photo preservation. All materials, except photos, for the completion of an album are included in the cost of this series – album, paper, embellishments, adhesives and pens – all acid free to make memories last a lifetime. Instructor: Jeanne Astino. Cost for the four-week class is $100. Session 1: Tuesdays, 3:30 to 5 p.m., starting Oct. 7. For ages 9 and older.



Rock Climbing – Quarry Hills, Quincy. South Shore Center for Outdoor Education. Students, ages 8 and older, can have fun while learning techniques and how to use the equipment necessary to climb with confidence with professional guides. Top-roping allows for a safe climbing experience that builds confidence. All equipment is provided. Transportation to Quarry Hills is needed. Cost is $140/session. Session 1: Tuesdays, Oct. 7 through 28, from 3:15 to 5:30 p.m.

Hatha Yoga Class – Moving meditation including gentle stretching and strengthening postures with breathing exercises to decrease stress and increase flexibility. Meets Thursdays, at 10:30 a.m., at Town Hall. Cost is $8.

Kitchen Kids – This is a great way to introduce kids to the joy of creative cooking in a fun and safe atmosphere. Even the fussiest eaters will be thrilled to east something they have made themselves. The class is hands-on with step-by-step instructions in a safe, clean environment. Instructor: Sandy Tremblay. Saturday, Oct. 18, Freakish Feasts. Ages 5 through 8 meet from 9 to 11 a.m.; ages 9 through 12, 11:30 a.m. to 1:30 p.m. Cost is $30.

Drive in Control – Sunday, Oct. 19 from 1 to 5:30 p.m. In Control Advanced Driver Training is the first Massachusetts certified driver skills course in the state. Drivers are taught how to avoid crashes and how to best respond in a variety of high speed driving situations, including ABS braking, tailgating (and what safe driving distances really are), car control, handling distractions while driving, etc. Students will have the opportunity to get behind the wheel with a professional driver and practice these emergency situations. Class will take place in South Weymouth. Group class rate for Cohasset Recreation is $274, $225 for second/subsequent member of same family. Insurance deductions are available with most insurance carriers.

Babysitting Course – Meets at Paul Pratt Library. This one-day, three-hour course is designed to assist fifth- through seventh-graders to be better babysitters and learn the do's and don'ts of being home alone. The course will cover information on child development, playing with younger children, basic first aid, fire safety and prevention, and the overall responsibilities of babysitting. Instructor: Kim Cleary, a nurse and mom. Each class is limited to 18 pre-registered students. Cost is $18. The class will meet 9 a.m. to noon, on Saturday, Oct. 25.

TABOR ACADEMY
ADMISSIONS OPEN HOUSE
SUNDAY, OCTOBER 12TH, 2008
Registration: Hoyt Lobby 12:30-1:00 PM • Program: 1:00-3:30 PM
• A look at Tabor's academic, athletic, and extra-curricular opportunities
• Tour our facilities
• Information about the application process.

Tabor Academy, Marion, MA • 508-291-8300

Wind turbine project answers

COMMENTARY

ALTERNATIVE ENERGY COMMITTEE

The AEC understands that the size of the machines will have a visual impact on Cohasset; for some this is a major concern, for others they are seen as sculpture.

FROM WIND, PAGE 10

Locally the Town of Scituate had already amended its bylaws. The bylaw drafting process included multiple publicly held meetings with the Planning Board and Board of Selectmen. Input was also obtained from the Advisory Board, Zoning Board of Appeals and town counsel. Finally a presentation, debate and vote were taken at Town Meeting this past March. At Town Meeting the discussion included statements by the AEC chair that there were three primary locations targeted, the Middle High School, the Transfer Station and the Graham Waste location. The bylaw passed with a unanimous voice vote.

The reason for our bylaw allowing the 100-meter height is simple, the power of the wind is significantly better the higher you go. Our wind data from Turkey Hill shows an increase in the average wind speed from 3.3 meters per second (m/s) at 20 meters, to 5.28 m/s at 49 meters. Our final report extrapolates the speeds will be greater than 6.68 m/s above 80 meters. With wind, a doubling in wind speed creates a four-time increase in energy production. The higher CCI or Cohasset can place the turbines the more energy can be generated. The more energy that can be harnessed the lower the cost per kWh of energy produced.

Graham Waste

Cohasset's knowledge of the Graham Waste project began on April 25, 2006, when Mr. Jim Sweeney presented to the AEC his credentials and plans to place up to four 2.5 MW turbines on site. Mr. Sweeney explained that he was soon to construct a MET tower to begin collecting wind data for a year. As the AEC was also working to construct a MET tower there was discussion of sharing of information. Since that first meeting, Mr. Sweeney has presented regular updates on his progress as documented in our monthly minutes. On July 16 of this year at the request of the AEC, Mr. Sweeney presented his project at a well-attended public forum at the Paul Pratt Library.

The issues being raised today go to the very heart of any large development. As we have seen with changes to Cohasset Village, Avalon Bay, the Train Overlay District and such, residents want to understand the scope of the work and the impact on the community. They are also asking good questions about the technology as well as critical safety issues.

CCI's scaled-down proposal now consists of two 1.65 MW machines, on par with size of Hull 2 which is 1.8 MW. The machines being considered are from AAER of Canada and Vestas of the Netherlands. The turbines are to be placed on 100-meter towers (328 feet) with an 80 meter rotor diameter (262 feet) for a total height from base to tip of the top blade of 140 meters (460 feet). The bylaw allows for the tower height not to exceed 350 feet (107m) from grade to the top of the nacelle. By comparison Hull 2 uses a 60-meter tower on top of a 20 meter hill for a total nacelle height of 80 meters. Hull 2 uses the same size rotor as Graham Waste. Hull was not able to place their turbine on a taller tower because the size of the crane needed to lift the blades would have risked a collapse of the landfill. It is important to note the Graham Waste project will not be placing turbines on the landfill nor will CCI be in any way disturbing any of the landfill as was done in Hull.

Visual impact

The AEC understands that the size of the machines will have a visual impact on Cohasset; for some this is a major concern, for others they are seen as sculpture. There are things to keep in mind; first the towers and blades are to be painted in a non-reflective color of white or a light blue so they better blend in with the sky. Secondly the towers and blades are not lit. The FAA will require a single, synchronized, red light on the top of each nacelle, similar to what is seen on top of communication towers in the region and Hull 1 & 2. Unlike so many commercial buildings, schools and local storefronts, there are no spotlights on the ground illuminating the turbines.

The second concern residents have is Shadow Flicker. Flicker is when the turbine is rotating with the sun behind the blades; this can create a strobe effect if you are in front of the blades. With this project there may be a strobe effect for some homes on the east side of 3A at sunset, primarily in the Rose Hill development. As there are no houses to the west of the project strobe effect in the morning hours is moot. Computer models can accurately predict when flicker may occur, just like they can predict an eclipse of the moon. Homes in Rose Hill at maximum could experience 30 hours of flickering annually. This flicker effect will be concentrated into a six-month time period of (September-November) and (January-March) when wind production is greatest. Assuming all 30 hours takes place in six months this equals an average of 5 hours per month or less than 30 minutes per day, in the late afternoon. If you were to look at the flicker over 12 months the impact is less than 2.5 hours per month.

However, these 30 hours are the maximum if the turbines rotated 24 hours per day every day, we never had any clouds, rain, or snow falling and the wind was always from the same direction. But because the sun does not always shine, wind comes from different directions and turbines rotate less then 60 percent of the time, the actual impact to the neighborhood will be significantly less. As well, any landscaping such as trees will disrupt the flicker effect. Finally Rose Hill residents are far enough away that they will not experience a hard shadow crossing their property but will notice a flicker if they are staring at the turbines while the sun is directly behind the rotating blades. Hull residents who live much closer to Hull 2 find if they are home at the time and the flicker is bothersome, closing the shades for the short time period resolves any issues.

Noise

Noise is the final primary concern residents may have. Many of us live along well-traveled streets such as 3A, Main, Sohier, and Atlantic so we understand the concern that this project could add to the existing background levels. The bylaw references the Mass State noise regulation (310CMR 7.10). Manufactures of large-scale turbines have been addressing noise in a number of ways; the primary being slowing down the speed of rotation. The turbines in question spin at some of the slowest speeds in the industry, less than 18 rotations per minute; this slow rotation has reduced the noise level dramatically compared to even Hull 1.

The World Health Organization Guidelines to prevent sleep disturbance is 30 dB inside the bedroom, the equivalent of a quiet library or a whisper. The outside the bedroom guideline with windows open is 45 dB. The turbines projected noise rating is 45 dB at one-quarter mile. Currently there are no residential homes within a quarter mile of the project. Within one quarter to one half mile it is estimated there are 80 dwellings, those 80 homes could experience noise of 45dB or less when the turbines are rotating. Although the 80 number sounds large, there are well over 100 residents (homes and apartments) within the same diameter of Hull 2 including a development built by Avalon, The Avalon Estates. Further, ambient noise is not necessarily lower at night because road noise is replaced with crickets and toads during the summer months (55dB in some cases); during winter months people normally have their windows shut. The AEC urges concerned residents to visit the areas surrounding Hull 2 and experience the noise levels first hand.

Safety

There have been some general health and safety questions raised that are worth mentioning. The turbines are equipped with fire suppression equipment and the blades are heated to avoid ice build up. In the AEC's review of medical issues we can find no peer reviewed and published reports of health related issues in the US or in Europe where turbines have been a way of life for over 20 years. Like all large developments, CCI has been required to obtain permits from the FAA and Fish & Wildlife, which included an endangered species and migratory bird review. The turbines are fully grounded for lighting strikes and the equipment used to connect the turbines to the main electrical grid insure there are no power surge issues.

The impact on home values is not a part of the bylaw because there is no way to measure property values impact based on any development. Changes in home values with the addition of the Greenbush train, the Train Overlay District, Avalon Bay, or wind turbines are subjective. We again look to Hull and find no measurable change in home values from the placement of either turbine.

The AEC has worked for three years on many projects in our effort to bring alternative energy to town as a way of stabilizing our long-term energy costs. Every kilowatt of electricity we do not need to purchase at market rate has a direct impact on the town budget. We feel the CCI Energy proposal is well researched and is located in the right location, we support this project. It is our hope the Planning Board and, more importantly, our fellow Cohasset residents come to support the project as well.

Written by the Alternative Energy Committee: Andrew Willard, chairman; Mimi White, Mike Bliss, Rob Hobson, Sally Ayers and Marie Caristi-MacDonald; and Jim Shipsky, former member.

Cohasset Rec is on the web

The Cohasset Recreation Dept. is proud to announce the launching of its new website with the capability for online registration. You can locate the site by entering **CohassetRec.com** into your Internet browser.

You'll find the new award winning website design to be extremely easy to navigate as you quickly locate programs of interest. Once a program is located you can have your registration form automatically filled in. Just enter your information into the My Household area once, and there's no more filling out forms over and over again! Simply print the form and mail or bring it into the office. And creating your own My Household account will help the Rec better serve you by providing emergency contacts, allergies info and more.

You'll also be able to locate other information about your recreation department by viewing areas such as Parks & Facilities, Department Info (policies, staff info etc.) and News & Features. There's an Announcements window to keep you up to date on any last minute information. And a "Your Community In Action" area for pictures from local events. For the business there's a Sponsors location on the home page to promote your business.

The Rec looks forward to providing Cohasset with up to date recreation information at **CohassetRec.com**.

If you have any questions please stop by the Rec office at Town Hall, email: recreation@townofcohasset.org or call 781-383-4109.

Kicking it to the next level

CHS girls impressive in shutout of Hull, recent practices

By Mike Spellman
MSPELLMAN@CNC.COM

The members of the Cohasset High girls' soccer team have not seen a lot of field time over the last week, between the rain, poor field conditions, Holidays and medical emergency.

Friday through Sunday was lost due to steady and sometimes pelting precipitation, the result of which were an unplayable pitch on Monday. The fields were pretty well dried out by Tuesday, but, in deference to Rosh Hashanah, the team could not practice until after sundown. No way was Coach Beal going to lose the opportunity to get back out there, though. She simply reserved Alumni Field, and hit the lights.

"It was a little bit of a different environment out there (Tuesday) night," said the Lady Skippers 11th year head coach. "Going so long without a practice, then doing it under the lights, something new don't really experience that much anyway, but I think it gave the girls a little boost. They were happy to be back out there with each other. I saw a lot of good things out there."

Beal had recently expressed concern with some of the complacency that seemed to be hitting her team. Of course, she never used that word. She defended her team's collective work ethic and attitude in one breath, but then in the next called out the lack of movement away from the ball.

It seems that public declaration may have done the trick, as Tuesday's practice seemed to the veteran coach "a nice continuation" of Thursday's 3-0 win over South Shore League rival Hull.

"I think that game was something of a rebound for us," said Beal, who saw her team go to 6-1 with the shutout victory and remain in a three-way tie for first place with East Bridgewater and Norwell. "Our movement off the ball was improved, and the girls worked hard. They had to because Hull is a much improved team that also works very hard."

While the Lady Skippers dominated the possessional battles, the only thing that prevented them from going into the halftime break in a nil-nil deadlock was a pretty tally from sophomore standout Caroline Fein in the 20th minute.

Junior Christine Coner gave the visiting Skippers some breathing room 18 minutes into the second half, and senior tri-captain Sarah Coggins essentially iced it with the game's third goal six minutes later.

The Lady Skippers protected well from there. In fact, junior keeper Charlotte Malone needed to stop only one shot to record her fourth shutout of the season.

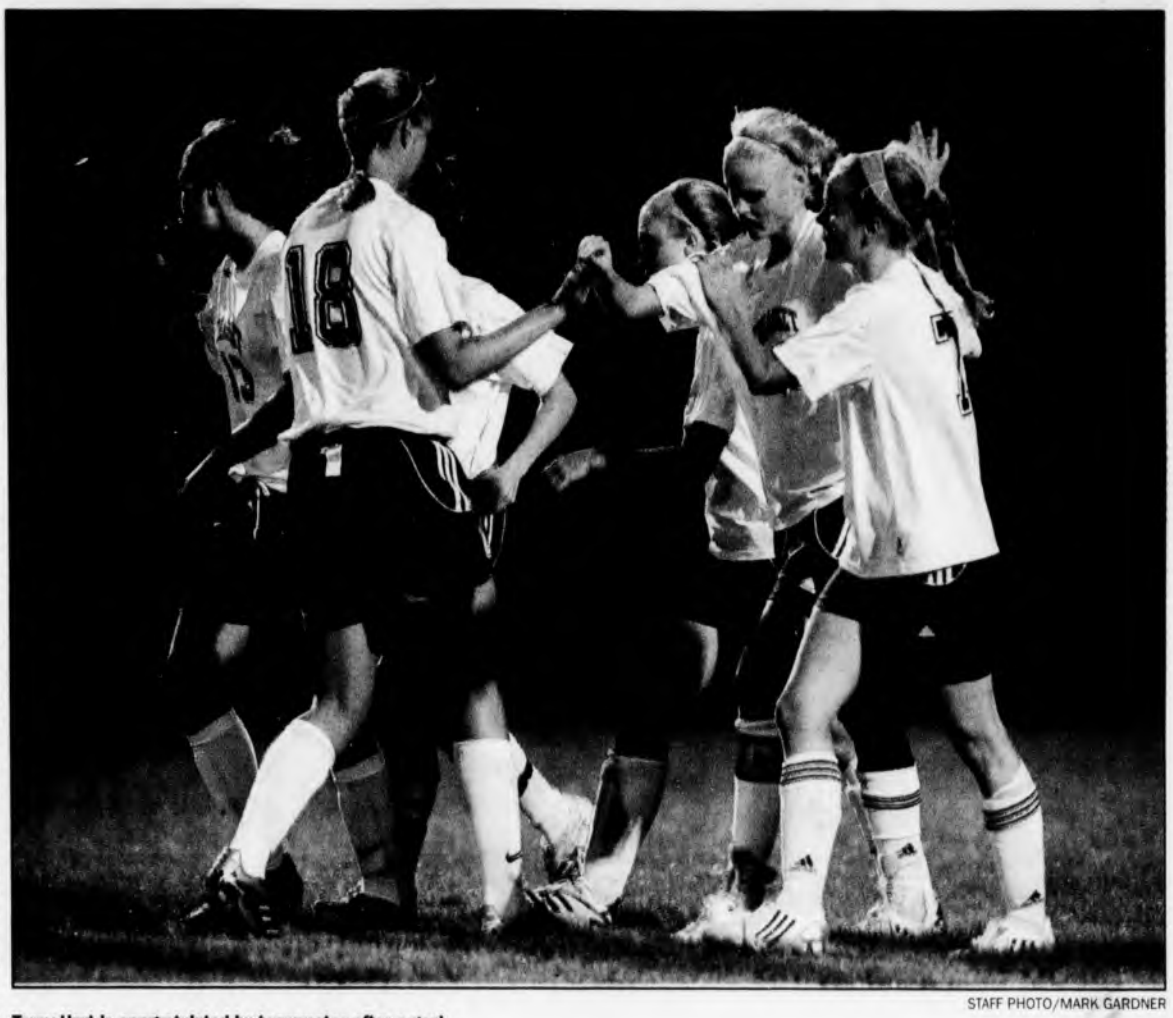
"It was a real good day, starting with the fact it was one of the nicest weather days we've had at Hull in my 11 years of coming here," said Beal, pointing to the off-the-chart windy conditions that are prevalent at Hull High's field, which is literally surrounded on three sides by the Atlantic Ocean.

The Lady Skippers were supposed to get back into action on Wednesday with SSL rival Mashpee, but one of the Lady Falcons' players passed out on the bus and the trip north ended at Plymouth's Jordan Hospital. There was no word at the time of this writing regarding the unnamed player's condition.

"Obviously, that situation was a lot more important than a game," said Beal. "We all just hope she's OK."

The Lady Skippers could not let the nice fall day and a dry field go unused, however. The girls were geared up for action, so Beal split the varsity and JV squad into two competitive teams and ran them through a modified scrimmage.

Beal said she was pleased with the overall level of play, and pleasantly surprised by what she saw from several of the candidates for varsity promotion next season, among those Emily Castro, Carly Oddleifson, Isabelle Robinson and Michaela Brophy (the younger sister of senior keeper Johanna Brophy).



Speaking of Johanna, she may finally be able to return to action next week. The standout senior keeper was elbowed in the face in a collision 20 minutes into the season opening win over Notre Dame, and sustained heavy damage to her front teeth. She's finally schedule to have root canal surgery next Monday, and may be available to play as soon as next Friday's clash with archrival Norwell—a game that may well determine this year's SSL championship.

"Charlotte (Malone) has done a phenomenal job filling in for Johanna, but we really want to get Johanna back out there," said Beal. "This is her senior year. She's been such a huge part of the growth we've made these last few years. It's only right that she finishes it off."

Next up

At 6-1, the Lady Skippers are nearly two-thirds of the way to reserving their return to the Div. 3 South Sectionals, where they hope to advance beyond last season's program best run to the finals.

The girls are slated to host Abington this afternoon (3:30 p.m. start) to kick off a day of Homecoming action, then play two more league games next week. They'll be at Harwich on Tuesday (4 p.m. start), then at Norwell for the much anticipated rematch Friday (3 p.m. start). The Lady Skippers gave Beal her first ever win over Norwell back on Sept. 15. Win number two would put the locals in prime position to put a stranglehold on the SSL title chase when they travel to East Bridgewater a week from Wednesday intent on avenging their lone loss of the season, a 2-1 setback on Sept. 17.

Skippers sink

Ready for Homecoming this weekend

By Joel Racicot
JRACICOT@CNC.COM

This is definitely one of those games where the final score was not indicative of how close a game it really was. It was hard to imagine the final score, 27-6, after leaving a rainy SHS, Friday night. Two fourth quarter turnovers by Cohasset that led to defensive touchdowns for Scituate turned a 14-6 game into a seemingly lopsided blowout.

"We were toe-to-toe for three and a half quarters," said Cohasset head coach Pete Afanasiw. "They made the big plays. We didn't."

Despite the loss, Afanasiw took some positives from the game. Notably the play from the offensive line; Eric Wasel, Matt Wasel, Dan Sullivan, Andersen Lynner and Will Lynner.

"They executed well against guys that weighed 45 or 5o pounds more than them," Afanasiw said. "They never gave up their ground. They opened up good holes and played very disciplined."

Dean Driscoll scored Cohasset's only touchdown on a pass from Jeff Cavanaro early in the first half.

Brendan Doonan, Jake Kissick and Nick Lieberman all made crucial plays on defense.

Scituate is much improved from a year ago and should make some power moves in the Patriot League.

"Scituate is an up and coming football team," Afanasiw said. "I give them a lot of credit they executed and played well."

Cohasset will host Cardinal Spellman for the Homecoming Game, Friday night at 6 p.m. There will be a lot of festivities, so make it down to Alumni Field for the fun.

COURTESY PHOTO

Senior Captain Marissa Tangherlini lunges to keep the ball out of the Cohasset zone in a recent game against Mashpee. The squad controlled the ball for the entire first half but with few shots on goal were unable to tally points. A second half goal by Mashpee went unanswered and the Skippers lost this battle 1-

COASTAL NISSAN salutes the South Shore Athlete of the Month

Abington High School's Kristian LaPointe has kicked off his junior in phenomenal fashion, notching eight touchdowns in three games, including four in the Green Wave's 46-6 blowout of Arlington Catholic. The South Shore League's current leading scorer, LaPointe also plays basketball and baseball for Abington.

Coastal Nissan has donated $500 to the Abington High School Athletic Department in Kristian LaPointe's name.

Way to Go Kristian!

Sports Notes

Youth basketball registrations

Youth Basketball Registrations will take place Saturday Oct. 18 from 8-11 in the basement conference room of the town hall. Registration fee remains at $75. Anyone registering after Oct. 31 will be charged a $25 late registration fee. Teams will be selected on Nov. 15 and they will be posted on this Web site. Registrations will close on Nov. 7. Any late registrations will be subject to the approval of the CBBC.

Also on Oct. 18, we will be holding signups for travel basketball tryouts. No money or registration is required at this time. In order to plan properly, we need to know how many kids are planning on trying out for travel basketball.

More information about youth basketball and travel basketball will be available Oct. 18.

CYSBA major league baseball tryouts rescheduled

The try-outs for the 2009 Cohasset Youth Baseball and Softball Association (CYBSA) major league spring baseball season are rescheduled for Monday, Oct. 6 at Barnes Field from 4:00 p.m. to 6:00 p.m.

All boys and girls who are age 10 prior to May 1, 2009 and no older than age 12 on April 30, 2009 and who are not currently on a CYBSA major league baseball team are invited to try-out.

All 12 year olds (born between May 1, 1996 and April 30, 1997) who attend the tryouts are automatically selected for a Major League team; provided that these players attend the tryout.

Players should register at Barnes Field beginning at 3:30pm. This will be the only opportunity to try-out.

Please visit our website CYBSA.net for more information. Questions regarding the tryouts may be directed to Liam O'Connell at (781)383-9538 or Nancy Froio at (781)383-1897.

South Shore Crusaders

South Shore Crusaders 13U AAU Baseball tryouts for next spring will occur soon. For more information please call or e-mail John Kopacz (781) 659-2425 (johnkopacz@mertech.org) or Tim Foley (781) 659-1864 (foley6@verizon.net).

Basketball Conditioning at South Shore YMCA at Mill Pond

The South Shore YMCA in Hanover is offering a great new conditioning class to youths ages 11-15. This clinic will help get participants in better shape for the basketball season. This conditioning program works on strength and explosives as well as improving speed, agility, and overall endurance. This eight week program meets on Mondays and Wednesdays from 3:45-4:45 p.m. and starts Monday, September 22. For more information or to register for the clinic, please contact Linda at 781-829-8585, ext 260.

Instructional Youth Hockey

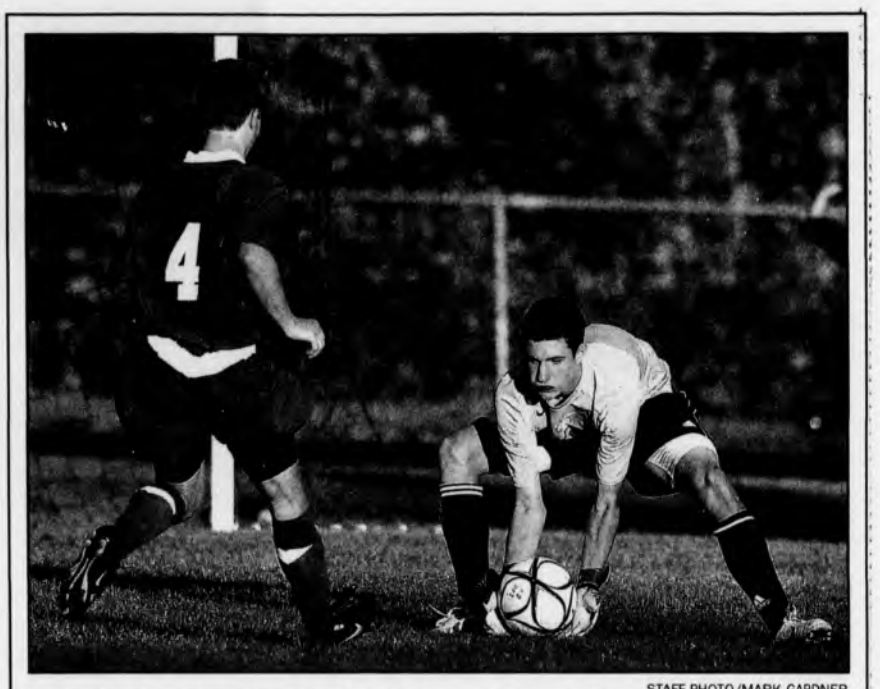
Boys and girls born between 01/01/2000 and 12/31/2004. Game and practice per week. $600, register online at www.coastalstars.com.

Preseason Basketball Clinics at the South Shore YMCA at Mill Pond

The South Shore YMCA in Hanover is offering a great new preseason basketball clinic for girls ages 10- 14. This 10 week clinic will meet on Thursdays from 6:00 p.m.-7:30 p.m. and starts September 18. The clinic is designed for basketball players interested in honing their skills in the off-season. The class will focus on improving fundamentals while teaching team systems and concepts. There will be lots of skills drills and scrimmaging for practice. For more information or to register for the clinic, please contact Linda at 781-829-8585, ext 260.

ATHLETE OF THE MONTH

Kristian LaPointe
ABINGTON



Name: Kristian LaPointe
Family: Mother Diane, father Glenn, brothers Glenn, Marcus and Josh, sisters Renee, Shawna, Kacie and Tessa
Hobbies: Watching movies, being with friends, going to the beach
Favorite Athlete: Chris Paul

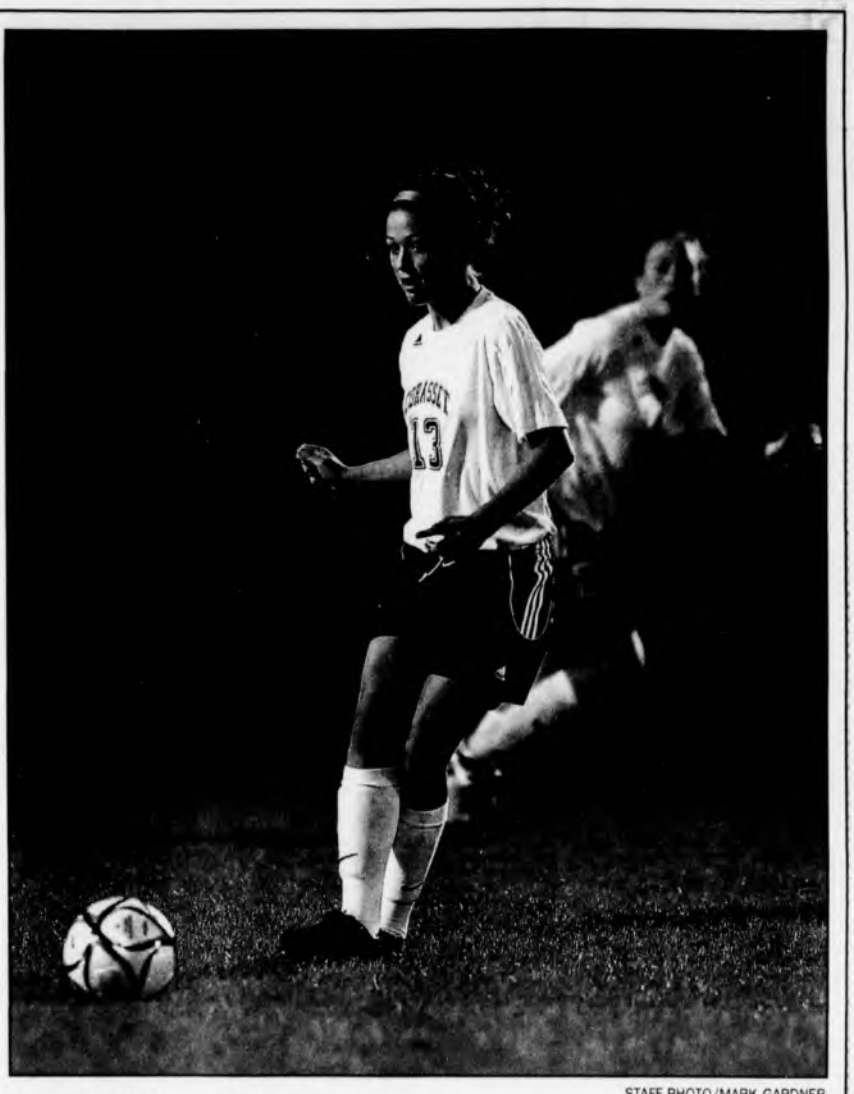
Scituate-Cohasset midget sharks remain unbeaten

On a day better suited for Ducks, it was the 8th grade Sharks who weathered the storm and held on for a 12-6 victory over the division power Bridgewater Badgers. This game was a battle from the very first play of the game and was still in doubt until the last minute when second string quarterback Jack White, who was filling in for the injured starter Shane Haggerty, executed a perfect bootleg on fourth and four from midfield, scampering 7 yards for a first down and sealing the victory for Scituate-Cohasset.

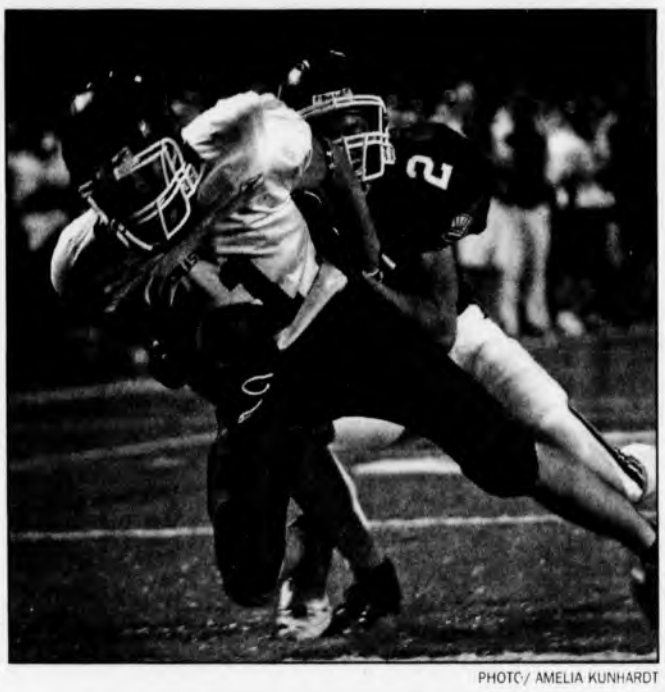
The first half started with each team feeling each other out and adjusting to the difficult weather conditions. After numerous changes in possession, Bridgewater put together a drive in the final minutes of the half. Bridgewater reached the two-yard line with under a minute to play and the Badgers could taste the endzone. However Sci-Coh's defensive line led by Tyler Serra, Sean Shea, Craig Davis, Jordan Kelley and Conor Dooley stonewalled the Badgers four plays in a row and Scituate took over at the one foot line with only seconds remaining. Halftime score 0-0.



On Scituate's kick-off to open the second half, Shea McCarthy recovered the football that bounced off an opponents face-mask. First down Scituate. Five plays later, Shane Haggerty found an open Conor Dooley in the corner of the endzone for the Sharks first touchdown. On the conversion attempt Haggerty was not only stopped short of the goal line but was also injured on the play. Scituate 6, Bridgewater 0.

Scituate's defense took over from here, not allowing Bridgewater to gain any momentum or yardage on their ensuing possession. Joe Daileader and Jack White, play after play, met the much larger Bridgewater runningbacks head on all afternoon. The linebackers, Michael Stewart, John Foster and Danny Buckley held the opponents number one receiver to zero pass completions.

Three plays into Sci-Coh's next offensive series, their franchise, Haggerty, hobbled back onto the field long enough to hit Conor Dooley with a quick pass over the middle and watched as Dooley sprinted 55 yards for his second touchdown of the game. 12-0 Scituate. Feeling comfortable with a two touchdown lead it was time for Haggerty to call it a day and begin icing his injured ankle.



Bridgewater was able to break off a long run setting up their only touchdown late in the fourth quarter. On the ensuing onside kick Bridgewater was successful recovering the ball leaving the Scituate sidelines a little nervous. However 6'4 Matt McCrae, filling in on defense for Haggerty, stepped in front of a Bridgewater receiver, intercepting the pass which set up White's bootleg four plays later, completing the victoty for the 4-0 Sharks.

Next up the Barnstable Silver Bullets in Barnstable on Sunday.

Pep rally, homecoming today

LIFE AT CHS

LAUREN MACK

Hello again, everyone. As most of you have probably heard, all of the CHS students as well as some of the staff have been participating in Spirit Week! This is the one week a year that allows students to break the normal dress standards and use their imagination to create interesting arrays of outfits corresponding with the assigned "spirit days".

As I mentioned last week, the days for this week were Decades Day on Monday, Professional Day on Tuesday, Tacky Day on Wednesday, Nautical Pirates and Sailors Day on Thursday, and ending with a pep rally on the annual Blue and White Day on Friday. The little twist that has been a longstanding Spirit Week tradition, though, is that the seniors have always had separate special days.

However, this year the administration felt that school unity was more important and therefore eliminated this tradition. But that is no matter, because the seniors this year love everyone equally, from the freshmen to our own lovely class of '09, making it all okay. In any case, the homecoming dance is scheduled for this Friday night at 7:30pm, so everyone planning on going should plan accordingly. And don't forget to catch some of the homecoming games on Friday with soccer starting at 3:30pm followed by football at 6 pm! Also at the football game, the homecoming king and queen will be announced. The court for this year goes as follows: for boys we have **Conor Ofsthun, Marcus Barrett, Marcus Charles,** and **Nick Simonds**, and for girls we have **Anna Roberts, Ashley Thompson, Madeline Leahy**, and **Margaret Goodwin**. So best of luck to everyone in the court!

This week's Teacher Quote of the Week comes from a well-respected member of the science department. She is commonly seen smiling in the halls wearing her tie-dyed lab coat and often makes references to her Scottish heritage. This woman's name is Dr. Anne Thomae, or "Doc T," as the students say. I had the pleasure of catching up with Doc T this week and asking her what her opinion was on Spirit Week this year.

She responded to me saying, "Oh, it's so great! You see, I always need to be comfortable and these days have been great for me, because I'm very comfortable in my tie-dye and tackiness. And I just love how tacky I look! Pirate Day might be an issue though, 'cause peg legs and parrots just don't do it for me". And with that, I'll leave everyone to a wonderful homecoming weekend! Adios!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.

DEER HILL, OSGOOD MENUS

FRIDAY, OCT. 3

French bread pizza, baby carrots and celery sticks with ranch dressing, cinnamon applesauce.

MONDAY, OCT. 6

Cheese pizza, fresh garden salad, chocolate pudding.

First PAC meeting of school year Oct. 7

Cohasset PAC meeting will take place at 7:30 p.m., Tuesday, Oct. 7. All are welcome to the first Parents Advisory Council meeting of the school year. This will be a general meeting to talk about organization needs and upcoming workshops. Consider becoming involved, take a moment and speak to any of the PAC officers or A.P.P.L.E. participants. The meeting will be at Osgood School, behind Deer Hill School, 210 Sohier St., Cohasset. All workshops and presentations are free. Sponsored by Cohasset PSO.

Cohasset PAC has joined the South Shore PAC to promote communication, combine workshops and establish a broader network. South Shore PAC Network hopes to meet informally throughout the year. To be added to the email network for updates, forward contact information to southshorepac@comcast.net.

• Landmark Parents Association & Landmark Outreach will present "The Reading Brain: Current Research and Interventions," with presenters Nadine Gaab and Joanna Christodoulou. The program will take place at Landmark Elementary/Middle School, 167 Bridge St., Manchester, on Saturday, Oct. 18. Coffee and registration at 8:30 a.m., will be followed by the presentation at 9 a.m. Gaab and Christodoulou will answer the following questions in their "The Reading Brain" presentation: Does learning to read change the brain? Does the brain of a struggling reader work differently? Can reading interventions rewire the brain? Are music, language and reading skills linked? Admission is free and registration is required. Gaab is assistant professor of pediatrics at Children's Hospital/Harvard Medical School; faculty member, Harvard Graduate School of Education; principal investigator, Gaab Lab, Division of Developmental Medicine/Laboratories of Cognitive Neuroscience at Children's Hospital Boston/Harvard Medical School. Christodoulou is a doctoral student and instructor in education, Harvard Graduate School of Education and the Massachusetts Institute of Technology. Register online at landmarkoutreach.org/saturday. For information, call Irena Sinclair at 978-927-1456 or email irenasinclair@comcast.net.

• Youth Health Connection-South Shore Hospital will present an evening with Richard M. Lerner, author of "The Good Teen: Rescuing Adolescence from the Myths of the Storm and Stress Years. Competence, Confidence, Connection, Character, Caring." Learn more about these attributes. Why they are of such importance during adolescence and how to help guide teens to attainment of these attributes. The presentation will take place from 7 to 8:30 p.m., on Tuesday, Oct. 21, at Notre Dame Academy, Hingham. This is a free community event for parents and teens. For more information, call Karin Farrell at 781-794-7849 or email karin_farrell@sshosp.org. Books, provided by Barnes & Nobles-Hingham, will be available for purchase at the event. Program made possible through the support of the Sean McDonough Charitable Foundation.

Dance, art, fun at Inly Arts Festival

This year's Inly Arts Festival has an international theme, integrating an eclectic collection of art forms from the four corners of the world. On Sunday, Oct. 5, from 1 to 4 p.m., explore world fusion music and folk art, dance, and storytelling with a funky twist through interactive workshops, hands-on projects, and live performances. The event is open to the public, geared for all ages, and will be held rain or shine on the Inly School campus in Scituate.

World fusion music by Entrain and Afro-Cuban drum circle. Don't miss the thundering beats of the Afro-Cuban drum circle performance, which will take place from 1:30 to 2 p.m. From 2 to 4 p.m., the campus will rock to the rhythms of Entrain, a favorite Boston band that has been praised for its ability to shift effortlessly between musical styles — from rock, blues, reggae, calypso and ska, to zydeco, jazz and funk—often within the same song.

Interactive dance workshops – Two workshops will be held from 2 to 2:30 p.m. and from 3 to 3:30 p.m. Jump right in and learn a variety of simple folk dances from around the world—anything from a Yiddish wedding dance, a Tahitian "canoe" dance, and a lively Mexican dance (La Raspa) to traditional dances from Ghana, Russia, Scandinavia, England and France. Led by a teacher from the Folk Arts Center of New England, the workshops are for all ages. Important: Wear sneakers if you'd like to participate!

Hands-on folk art activities – Dress to get messy and try different art projects all afternoon long. Ongoing interactive art activities include Chinese brush calligraphy, Rangoli ground art from India, Russian Matryoshkas, Spanish Milagros, Vietnamese water puppets, and Aboriginal bark paintings. A special hands-on project courtesy of the South Shore Art Center will feature Moroccan-style tiles. In keeping with the mission of the school, activities will be hands-on, interactive, experiential, process-oriented, and educational; encourage people to look at things in new and different ways; and endeavor to integrate life and art.

Global folk art exhibit – Presented by Native, a gallery in Scituate Harbor, this exhibit is an eclectic collection of indigenous, tribal, and folk art from around the world. Display items may include Zulu baskets, African masks, South American body masks, Indian elephant masks, felt clothes from the Middle East, Mexican day of the dead skeletons, Yoruba lizards, Middle Eastern decorative fabric wall hangings, shields from South Pacific islands, Asian purses, and dolls from South Africa.

The festival will be held rain or shine on the Inly School campus, 46 Watch Hill Drive, off Route 123, near the junction of Route 3A), in Scituate. Visit www.inlyartsfestival.com for complete information.

The admission price of $10 per person ($40 max per family) covers all activities. Food will be available for purchase.

Recreation Department to offer Sunday Jams

Recreation Department director Ted Carroll has tapped music industry veteran and Cohasset resident Howie Altholtz to help coordinate Sunday Jams, a program of music for teens. Altholtz has been involved in the music business for more than 25 years, as a writer, performing artist, producer and lawyer.

Carroll and Altholtz envision starting with Sunday Jams at the Recreation Center. Depending on interest, additional services may include advice on the business of music, songwriting clinics and guest music business insiders, including artists, producers and managers.

For information, email Carroll at tcarroll@townofcohasset.org or call 781.383.4109. A schedule is in the works, and any input and ideas would be welcome.

'Godspell' to be performed by Cohasset Dramatic Club

Cohasset Dramatic Club has announced it has assembled the cast for its fall production of "Godspell." Show dates will be at 7:30 p.m., on Nov. 14, 15, 21 and 22, and 2 p.m., on Nov. 16 and 23. The production will take place at Cohasset Town Hall auditorium.

Director and music director, Mark Bono set out in search of a diverse, energetic cast of 10 adults to recount the telling of the Gospel according to St. Matthew, through both parables and music, and find them he did. The ensemble is led by Stephen Lee from Randolph as Jesus. Lee has done this show before, and it is one of his favorites, so he is thrilled to be a part of this cast bringing this show to life for the first time on the Cohasset Town Hall stage. Supporting Lee in the ensemble, and each singing their own piece from the score by Stephen Schwartz, are Mark Alves, Cohasset; Eric Braun, Hanover; Nicole DiRuzza, Quincy; Denise Feeney, Abington; Lisa Pratt, Cohasset; Anne Thornton of Hanover; and Sharon White and Bill White of Scituate.

"Godspell" boasts a string of songs led by the hit "Day By Day." As the cast performs "Prepare Ye The Way of the Lord," "Learn Your Lessons Well," "All For the Best," "All Good Gifts," "Turn Back, O Man" and "By My Side," the parables come to life. Drawing from various theatrical traditions such as clowning, pantomime, charades and vaudeville, "Godspell" is a unique reflection of the life of Jesus, with a message of kindness, tolerance and love.

Tickets will be available soon at Paperscapes in Cohasset Village, Buttonwood Books on CJC Highway in Cohasset, or via CDC's ticket reservation and information line at 617-697-2115. Tickets are $15, and reservations are presently being accepted.

Take the train to Halifax to explore charming Nova Scotia

David L. Harris
GATEHOUSE NEWS SERVICE

You can get there by car, boat or plane, but gliding on the rails to Halifax, Nova Scotia, you have the time to sit back and appreciate the Kodak moments: lush forest, rolling hills, a couple of dusty mills, and gorgeous rivers.

Halifax is one of the eastern-most port cities in North America. VIA Rail Canada's Ocean train travels there from Montreal every day but Tuesday, a 772-mile overnight journey through Canada's Maritimes region that's truly captivating.

The train offers the option of sleepers, complete with comfort-able, duvet-covered bed, bath-room with shower and access to the train's dining room a few cars away. If you book the top-category Easterly sleeper-class your lesson in local culture begins immediately with an onboard "learning coordinator" lecturing on topics including history and how lobsters are caught. Easterly passengers also enjoy wine tastings and access to the rail's signature dome viewing car – with 360-degree views.

We left in the early evening. By early morning, as the fog burned off, we train passengers crossed time zones from Eastern to Atlantic and were mesmerized by the glistening Bay of Chaleur.

Shortly thereafter we were in the heart of Nova Scotia, winding along the carved-out hills on the outskirts of Halifax. As you enter the city, you can catch a glimpse of one of the cemeteries where some victims of the Titanic are buried – three ships from Nova Scotia were involved in the task of recovering bodies from the disaster.

PHOTO BY DAVID HARRIS

The lighthouse at Peggy's Cove.

The train disembarks in down-town Halifax, and from the station you can easily walk to almost any downtown hotel. The city is easy to explore, a compact place with a college-town ambiance (thanks to the University of King's College, Dalhousie University and other schools).

Founded in 1749 by Gov. Edward Cornwallis, Halifax grew up around the star-shaped Halifax Citadel, a huge stone fort – the present structure was completed in 1856 – that's the biggest remnant of the British Empire's hold on Canada. The site was designated a national landmark in 1951. Kilt-wearing historical re-enactors offer guided tours. And every day at noon, they fire off a cannon that today points to down-town office buildings.

A short walk away is the active waterfront and Pier 21, Canada's version of Ellis Island, first stop for about 1 million immigrants, mostly from Ireland, Scotland, Germany, France and Italy. Pier 21 features a museum, an eye-popping multime-dia show and a research center you can use to find Canadian ancestors. The museum is the centerpiece of a renaissance around Halifax Harbour, which has undergone a series of major cleanups: New lux-ury condos are being built and a boardwalk makes it easy to walk along the water. Along the board-walk is the Maritime Museum of the Atlantic, featuring a collection of artifacts from the province's rich marine history, including Titanic information.

Near the waterfront, a must-do stop on a Saturday is the Halifax Farmer's Market (7 a.m. to 1 p.m.; open Saturdays year-round). Vibrant and crowded, it is housed in the historic Keith's Brewing Co. building at 1496 Lower Water St., next to the Courtyard Marriott. You'll find here a dizzying array of the finest in local produce – fresh vegetables, fruit, bread, meats and cheeses.

While the city impresses, it is in the outskirts that you'll gain an appreciation for Nova Scotia's local charm. Picturesque towns dot the province, from the craggy granite boulders of Peggy's Cove to the vineyards of Wolfville, and many options are within an hour's drive from Halifax.

Rent a car and drive to Lunenburg, a historic fishing village listed as a UNESCO World Heritage Site. The town hasn't changed much at all since it was founded as a British colonial settlement in 1753. Colorful pastel-painted shops, homes and other buildings surround the harbor and it's easy to get lost in the beauty. The other draw to Lunenburg is the *Bluenose II*, a replica of the celebrat-ed 1921 Canadian racing and fishing vessel. For $35, from June through September, you can take a two-hour cruise on the schooner. You may even spot seals flopping in the water.

Those hungry for seafood knowledge should stop by the Fisheries Museum of the Atlantic, an aquarium and museum right next to the *Bluenose II* pier. Here you can check out what halibut, salmon and lobster look like when they're not being served on a plate. And then dine on fresh seafood at the museum's The Old Fish Factory, with a great view of the harbor to boot.

IF YOU go...

Getting there: VIA Rail Canada offers departures from Montreal to Halifax on its Ocean train (www.viarail.ca) leaving Montreal's Central Train Station six times a week (every day but Tuesday) at 6 p.m. and arriving in Halifax about 21 hours later. The trip takes you through the provinces of Quebec, New Brunswick and Nova Scotia. Regular seats from $222 each way; Easterly sleeper-class from $426, available mid-June to mid-October.

Staying there: In Halifax, the Courtyard Marriott offers rooms with views of Halifax Harbour (rates from $143 to $229; 902-428-1900; www.marriot.com). In Lunenburg, the Lunenburg Arms Hotel (rates from $129; 902-640-4040; www.eden.travel) overlooks Lunenburg Harbour. In Wolfville, the Blomidon Inn (rates range from $99 for a small room to $269 for a cottage; 800-565-2291; www.the-blomidon.net), is a quaint bed and breakfast in the former mansion of a sea captain.

Eating there: For some of the freshest fish you'll ever eat and a delicious salad bar, try The Five Fisherman (902-422-4421; www.fivefishermen .com) at 1740 Argyle St. in Halifax. McKelvie's, housed in a former fire station at 1680 Lower Water St., features deli-cious seafood and pasta. In Lunenberg, try Fleur De Sel (902-640-2121; www.fleurde-sel.net), a French restaurant that features some of the most creative dishes from one of the region's most celebrated chefs, Martin Ruiz Salvador.

Triathlon drama makes run at being the next Rocky

"Know Regrets" – Author uses the long hours of training for triathlons to create the scenes in his novel about fulfilling a dream and competing in the Ironman Triathlon World Championship in Hawaii.

Finally, a novel centered on triathlons. There are hundreds of novels dramatizing many great sports, none of note focused on triathlons. Tim Durant has changed that statistic with "Know Regrets: the Story of Trip Johnson," a single father of two, who at the age of 40 has a second chance to act on his dream of competing in the Ironman Triathlon World Championship Hawaii.

Tim Durant, a former Cohasset resident, has penned a novel centered on triathlons.

Everyone has a dream. Not everyone has the courage to act on it. Trip had always dreamed of racing in the Ironman. His dream hidden for so long, he became numb to its fire. When the dream reignites, and he finds the courage to act on it, the journey begins. Trip has a chance to swim 2.4 miles, bike 112 miles and run 26.2 miles among the best tri-athletes in the world. In order to reach his goal, he will draw upon more than physical strength, endurance and determination. His voyage takes him from the comfortable suburbs of Boston, to the wild nightlife of Waikiki, over to the forbidding lava fields of the Big Island, all on the path of pursuing a deeply seeded dream.

The scenes in "Know Regrets" had been developing in Durant's head for over 20 years. They started as day dreams during his long runs and rides as he trained for his first triathlons while living in Hawaii, serving in the United States Navy. Through the sweat and miles, these dreams slowly formed into a fun, adventurous and inspiring tale. "Know Regrets" shows insight into the mystic of Hawaii, and reveals the greatness of triathlons and the athletes that compete in them, a glimpse of human nature and strength of the human spirit. If you liked "*Rocky*," "*American Flyers*" or "*The Rookie*," you will love "*Know Regrets*."

"Tim has written about the Ironman like a true insider. I was reliving all the fears, exhilaration, drudgery, and pain," said Karen Smyers, Ironman Triathlon World Champion. "'Know Regrets' takes you on a mental and physical rollercoaster that we all feel when chasing something important."

Living with Crohn's disease has also motivated Tim to donate some of the proceeds from this book to the Crohn's and Colitis Foundation of America. "Know Regrets" is available direct from the publisher at lulu.com and at many other retail outlets such as Amazon.com, Barnes and Noble and Borders. You can also check bookfinder4u.com to find a bookseller in your country.

Tim Durant, a former Cohasset resident, is a first-time novelist who lives in Massachusetts with his wife, three kids and their two dogs. Some of his family still lives in Cohasset. He is available for comment at tkdurant@gmail.com or www.know-regrets.com.

Head of the Weir River Race

Hull Lifesaving Museum's 21st annual Head of the Weir River Race is a celebration of the estuary at the height of its fall beauty and the array of the region's open water rowers. The race will take place Saturday, Oct. 18. Fee is $20 per rower; free for spectators.

As many as 60 boats jockey for position racing out the narrow estuary and into open water, traveling from West Corner on the Hingham/Hull/Cohasset line, past Bumpkin Island, across Hull Bay, to the museum's Windmill Point Boathouse at Hull Gut. A highly contested 5-fi miler, the Weir draws coxed youth and adult rowers in gigs, single and double livery and workboats, currachs and ocean shells, as well as experienced paddlers in kayaks and canoes. In the head of the river format, boats kick-off from the starting line at one-minute intervals, and times are collated at the finish to determine the race winners. The Weir is an exciting race and a great spectator event, featuring more than 150 rowers from all over New England and New York. Best spectator views are from the bridge on George Washington Boulevard – 10 to 20 minutes after the start; at the tip of Hull's Sunset Point, or at the Windmill Point Boathouse finish line. Spectators should show care crossing the road on George Washington Boulevard, watching for fast moving traffic.

Registration, required for all participants, will begin at noon at the race starting line behind the Hull Public Works building at the Hull town line on Route 228. Registration closes at 1:30 p.m. The coxswains' meeting will be at 1:45 p.m., and race start at 2:30 p.m. All coxed boats must contact the race organizers before the day of the race. There is no parking available at the race starting line; the put-in for trailered boats is at Nantasket Pier, 1 mile from the starting line, where car and trailer parking is available. For more information, call Ed McCabe, Hull Lifesaving Museum's maritime program director, or Lory Newmyer, executive director at the museum, at 781-925-5433, email info@hulllifesavingmuseum.org, or visit the Web site at lifesavingmuseum.org.

Mountain biking day at Wompatuck State Park

Friends of Wompatuck State Park will host Take a Kid Mountain Biking Day at Wompatuck State Park at 9 a.m., on Saturday, Oct. 4. Participants will meet at the Visitor Center parking lot. Bring children for this opportunity to pass on one's passion for pedaling.

The event will feature guided tours of trails, rail beds and some paved sections suitable for young cyclists. There will be several ride leaders, and the rides will be determined by age and skill level. All are welcome.

Call 781-249-0010 for more information.

Derby Fall Fair postponed to Oct. 4

Due to heavy rains last Saturday, The Derby Fall Fair is being postponed until Saturday, Oct. 4. Hours are from 11 a.m. until 4 p.m. and the entire South Shore community is encouraged and welcome to attend. There will be fine foods and exciting rides and games for children and adults alike.

Fall farm celebration and art exhibit at Weir River Farm

Join The Trustees at Weir River Farm for a Fall Farm Celebration and Art Exhibit on Saturday, Oct. 4 from 10 a.m. to 2 p.m. Weir River Farm inspired the well-known Boston area artist Polly Thayer Starr, who donated the property to The Trustees. Join us to celebrate her gift at our annual farm celebration, where we'll display the work of local artists depicting this iconic landscape. Polly's daughter Vicki and several other members of the community who were integral in preserving this special place will be there to join us and share their memories. We'll also have a Polly Thayer Starr artwork exhibit, the Armstrong Brothers Band, pony rides, local vendors, food, crafts, and pumpkins for the children. Members $3, nonmembers $5. For information, call 781-740-7233 or visit www.thetrustees.org.

Tickets for Season Two of

Dancing With The REALTORS®

To Benefit Habitat for Humanity

Go on Sale Monday, September 15th at PASS

Just like the popular TV show, "Dancing with the Stars," PASS members have been practicing for months with professional dance partners to put on a great show for you and to raise money for Habitat for Humanity of Greater Plymouth and South Shore Habitat for Humanity. If you missed the 700 seat sold out event last year, don't miss it this year.

Returning dancers will dance Cha Cha and Tango and newcomers will dance the Fox Trot and Swing dance.

Event will be held on Wednesday, October 15, 2008 from 5-11PM at Lombardo's in Randolph.

TV and KISS-108FM radio personality Billy Costa will be returning as Master of Ceremonies and auctioneer for the evening.

Tickets are $49 and include hors d'oeuvres, full dinner and dessert, live and silent auction and a great dance show!

Tickets available on a first come, first serve basis. Purchase at the PASS office (48 Schoosett Street, Pembroke, MA) or call 781-826-5139. MasterCard, Visa, American Express, checks and cash accepted.

Worship News

St. Joseph Retreat Center schedule of events

St. Joseph Retreat Center, 339 Jerusalem Road, is hosting the following programs:

Sunday, Oct. 5, Day of Prayer for Caregivers, 9 a.m. to 4:30 pm. "Come, Rest Awhile" with a day of prayer including lunch and ending with liturgy.

Tuesday, Oct. 7, Morning of Prayer, 9 to 11:45 a.m. "Praying with Our Ordinary Lives."

Wednesday, Oct. 8, day workshop, 9 a.m. to 3:30 p.m. "Perceptions and Emotions in Prayer: Resistance and Surrender."

Wednesday, Oct. 22, day of prayer, 9 a.m. to 3:30 p.m. "Aging Gracefully: The Challenges and Joys of Deepening Discipleship in the Later Years of Life."

Thursday, Oct. 23, morning of prayer, 9 a.m. to 12;30 p.m. "Essential Dispositions for Prayer." This is the first in a special series of Mornings of Prayer titled "Growing in Relationship with Jesus Through the Dynamic of the Spiritual Exercises Using Art, Poetry, Music and Scripture." Discount available for registration in all seven programs: Nov. 10, Dec. 11, Feb. 9, March 30, April 16 and May 1.

The Retreat Center is also available for private retreats for individuals and for groups. For more information and to register, visit the Web site at csjretreatcenter.org or call 781-383-6024/6029.

Faith in the voting booth

Local religious leaders will discuss how faith and religion might or might not inform the citizen in the voting booth. The event will take place at 7 p.m., on Sunday, Oct. 5, at Second Parish Church, 685 Main St., Hingham.

Memorial Services

Frank Allan MacDonald

Memorial service Sunday at First Parish

A Memorial Service will be held for Frank Allan MacDonald or "Al MacDonald", as he was better known, at the First Parish in Cohasset on the Common. The service will take place at 4:30 p.m. Sunday (Oct. 5) with a light supper reception following in the Parish House at 23 North Main St. Donations in lieu of flowers can be made to First Parish in Cohasset and or the Vedanta Centre, 130 Beechwood St., Cohasset, MA 02025.

"Allan" or" Al "taught at Cohasset High for 29 years and was beloved for his Advanced Placement English courses, co-founding and directing the Alternative School. He chose Jack Buckley as his successor, who continued the program into the 1990s. His survival classes were especially popular as they included hiking (25 trips) to the White Mountains with students. He was an environmental activist in recent years.

Frank Allan MacDonald.

Edward Bayley Long

1920-2008

In celebration of his life, a memorial reception will be held in his honor from 2-to-5 p.m. on Saturday, Oct. 18th at the Long family home: 31 Nichols Road, Cohasset.

It's Happening

Organist Gail Archer to play at St. Stephen's Church

Celebrating its 17th year, St. Stephen's Concert Series in Cohasset will present organist Gail Archer of New York City in a recital at 3 p.m., on Sunday, Oct. 26, in a program featuring the music of 20th century French organist Olivier Messiaen. The music of this composer is highly controversial and uses elements of bird song, Gregorian chant, Far Eastern scales and scales of his own construction – all in a mission to bring the music of the church into the world and to musically present Christian truths in the concert hall. Archer lives in New York and serves as chairman of the music department at Barnard College, Columbia University.

This year, St. Stephen's is also celebrating the partial restoration of its 58-rank Aeolian-Skinner organ, portions of which had been rendered unplayable by spring storms several years ago/

The church is at 16 Highland Ave., Cohasset, is handicap accessible, and there is plenty of parking is available at the village car park. Admission is free, but donations will be accepted. For information, call 781-383-1083.

Beechwood Church Harvest Supper and Auction

The annual Harvest Supper and Auction will take place Thursday, Oct. 23, at Beechwood Congregational Church, 51 Church St., Cohasset, for the 85th straight year. In years past, members have personally made calls to people in surrounding towns in order to make dinner reservations. This policy is being phased out. Instead, the first 100 people will be seated on a first-come basis. Those who want can call the church and order reservations on the voice mail at 781-383-0808. Seating begins at 5:30 for dinner, which will be served at 6:30.

This year's menu will include ham, herbed roasted potatoes, green beans, Harvard beets, coffee and dessert. Dinner is $9 for adults and $4.50 for children. An auction of locally harvested produce, pies, homemade goods and various donated items will take place immediately following dinner.

Holly Hill Farm to sponsor races

Friends of Holly Hill Farm will sponsor two races on Sunday, Oct. 19, through the 120 acres of woods at Holly Hill Farm in Cohasset. Sign in for the 5k is at 8 a.m., and 9 a.m. for the 1-mile fun run.

Proceeds will benefit educational activities at Holly Hill Farm. For information, contact Janice McPhillips at fhhfarm@verizon.net or call 781-383-6565.

Coffee with the Authors

Buttonwood Books & Toys will host writers Catherine Goldhammer, Jennifer Haigh and Joan Wickersham during its semi-annual Coffee with the Authors, Tuesday, Oct. 7, from 9:45 to 11:30 a.m., at Atlantica Restaurant, Cohasset.

Goldhammer's new book, "Winging It: Dispatches from an (Almost) Empty Nest," describes the changing dynamic of her family as her daughter prepares to leave for school. Haigh will speak about "The Condition," the story of a New England family that comes apart when the daughter is diagnosed with Turner's syndrome. Wickersham will discuss her book"The Suicide Index," which describes the painful path her life took after her father commits suicide.

Reservations and tickets are required. Tickets are $16 and may be picked up at Buttonwood, or send a self-addressed, stamped envelope with a check to Buttonwood Books & Toys, Shaw's Plaza, Route 3A, Cohasset, MA 02025.

Anyone unable to attend can call Buttonwood at 781-383-2665 to reserve or order a signed copy of the books.

Blood drive set for Oct. 10

Everyone, whether it is realized or not, depends on blood. Every two seconds, someone needs blood. At this time, donations of all blood types are needed to meet the needs of patients in local hospitals as well as those throughout New England.

The American Red Cross hopes the residents of Cohasset will give the Gift of Life. A Red Cross blood drive will take place from 1 to 7 p.m., on Friday, Oct. 10, at St. Anthony Parish Hall, 10 Summer St., Cohasset. Childcare will be available from 3 to 5 p.m.

In order to give blood, potential donors must be at least 17 years of age (16 with a parent's authorization), weigh at least 110 pounds and be in good health. Most medications and medical conditions do not prohibit a person from being a blood donor. Donors can give blood safely every eight weeks. To make an appointment to donate at this blood drive or for more information, call Kevin or Ann O'Connor at 781-383-1290, the Red Cross Blood Services at 800-448-3543 or visit givelife.org. For more information on the blood donation process and current eligibility guidelines, visit the Web site at newenglandblood.org.

Worship Guide

Beechwood Congregational Church, 51 Church St. 781-383-0808. Interim Pastor: Richard Chamberlain; Please join us for Sunday Service and Sunday School at 10 a.m. followed by fellowship in Merritt Hall. Accepting donations of new socks for homeless shelters and non-perishable food items for local food pantries.

Our mission statement is: "Equipping God's people for living out the Good News to be the hands, feet, voice and heart of Christ in our community and in the world." How should we accomplish this? Come hear sermons to find out.

First Parish Unitarian Universalist on Cohasset Common, 23 North Main St. (Parish House). 781-383-1100. www.firstparishcohasset.org Minister: the Rev. Dr. Jan Carlsson-Bull. Interim Director of Religious Education: Jim FitzGerald. Music Director: Allegra Martin. Interim Organists: Carolyn Bates and Maureen Hague. Parish Administrator: Sandy Bailey. Parish Committee Chair: Mary Parker.

We welcome all to our inclusive spiritual community. We affirm our Unitarian Universalist Principles and put them into action by worshiping together, caring for one another, and working for a safe, just, and sustainable world.

Sunday, Oct. 5

8 a.m. - Circle Ministry (group led by Joan Kovach & Susan Meikleham and meeting on the 1st & 3rd Sundays in the Parish House)

9:50 a.m. – Childcare for our youngest and religious education classes for children in the Parish House. Coming of Age and Senior High youth are invited to join their parents for worship in the Meeting House.

10 a.m. Worship in the Meeting House

We welcome guest minister, Rev. Jory Agate, to our pulpit. Rev. Agate will preach on "Living Out Loud." She will be joined for this service by Rev. Dr. Jan Carlsson-Bull and members of the Welcoming Congregation Committee, sponsors of this special service.

Rev. Jory Agate is the Ministerial Development Director at the Unitarian Universalist Association (UUA). For ten years, she served as the Minister of Religious Education at First Parish in Cambridge and for six years as the Youth Programs Director at the UUA.

Everyone is invited for refreshments and fellowship in Trueblood Hall directly after the service and RE classes.

Directly after Coffee Hour, everyone is invited to a post-service conversation with Rev. Agate. We'll also welcome her wife, Jeb Mays, and their two teenage daughters, who will discuss the joys of being raised by two Moms. We'll also welcome Rachel Judelson, who will be present as an interpreter, since one of our teenage guests is deaf.

11:30 a.m. - Bell Choir Practice - Meeting House

4:30 p.m. - Memorial Service for Allan MacDonald - Meeting House

All are welcome to this Celebration of the Life of Allan MacDonald, a beloved member of this community, English teacher at Cohasset High School for 29 years, co-founder of the Alternative School at Cohasset High School, hiker, organic gardener, environmentalist, an active member of this congregation, and the much loved husband of Marie Caristi-MacDonald. A reception will follow in the Parish House. In lieu of flowers, memorial contributions may be made to First Parish UU - Cohasset, 23 North Main St., or to the Vedanta Centre, 130 Beechwood St.

All are welcome as we worship and learn and live our faith together! To learn more about First Parish Unitarian Universalist, please come by the Parish House and pick up or sign up for the current monthly newsletter, The Common, or visit our website at www.firstparishcohasset.org or contact Rev. Dr. Jan Carlsson-Bull, Minister, at 781-383-1100.

Sacrament of Reconciliation (Confession): Saturdays from 4:15-4:45 p.m. and by request. First Friday of the Month: Adoration from noon to 3 p.m., Benediction at 3 p.m., and Evening Mass at 5 p.m. For Holy Day Masses and Parish Events call 781-383-0219 ext. 9. For Religious Education call 781-383-0630. Web site: www.saintanthonycohasset.org.

Second Congregational Church, 43 Highland Ave. If you live on the South Shore and you're looking for a church home we encourage you to join us on Sunday mornings.

September through mid June: Service (with choir) begins at 10 am in the sanctuary with Nursery care and Sunday School for age's pre-K through 8th grade, including children's music provided at the same time. Immediately following the 10am service you're invited to a coffee-fellowship hour in Bates Hall. Youth groups for middle and senior high school children are available. We are an open, welcoming church family. We enjoy periodic book/Bible/topical discussion groups in addition to annual church wide events such as the Strawberry Festival, Christmas Craft Fair, Quilt Show and Appalachia Service Project.

TIME AND TALENT AUCTION: Saturday, Oct. 4th at 7 pm in Bates Hall. The auction is open to the public and will feature a wide variety of selections including dinners, sailing expeditions, vacation homes and a wide variety of services. Come and check it out!!

For more information please call us at 781-383-0345 or visit us on line at www.2ndcc.org

St. Stephen's Episcopal Church: Starting this Sunday Oct. 5th is our new "Episcopal Church for the 21st Century" class being taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. It is an eight-week course running from noon until 2 p.m.. On Oct. 5th, we will also offer a "Blessing of the Pets" at 2:30 in our church courtyard in honor of St. Francis' day! All are welcome.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, from our website, www.ststephenscohasset.org

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 am and 10 am on Sundays, including a Healing Eucharist at 9:30 am on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield is rector; she can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's:

- Sun. Oct. 5: Services at 8 – 10 am. Godly Play children's program is at 10 a.m.; Jr. High Youth group at 10 am. Noon- "Episcopal Church for the 21st Century" class begins. Pet blessing 2:30 pm in the courtyard.
- Mon. Oct. 6: 3 pm, Christian Meditation
- Wed. Oct. 8: 9:30 Holy Eucharist with healing; 10:30 Bible Study
- Fri. Oct. 10: 9:30 Yoga, noon Soup and Sandwich
- Sat. Oct. 11: 7 p.m. Bible Fellowship

Abrahamic Religions topic of Glastonbury lecture

Glastonbury Abbey's Inter-Religious Lecture Series Listening to Other Voices will present a program titled "Old Faiths in New Times: The Abrahamic Religions Today and Tomorrow" at 7:15 p.m., on Thursday, Oct. 16, in the Glastonbury Conference Center, 16 Hull St., Hingham.

Guest speaker will be Alan Wolfe, chairman of the Religion and Democracy in the United States task force of the American Political Science Association, TV commentator on the Pew Report on Religion in America, founding director of the Boisi Center for Religion and American Public Life at Boston College and a teacher there and elsewhere. He will give a talk titled "Who's Afraid of American Religion?," focusing on the role of religion in recent American politics, whether it is dead among the young, how the faiths are faring and what it may mean for everyone.

Wolfe is the author of more than a dozen books, including "The Transformation of American Religion: How We Actually Practice Our Faith." He has written numerous articles and lectured across the United States, Europe and the Middle East.

The lecture is free, but donations will be accepted.

Horoscope

SALOME'S STARS
FOR RELEASE
WEEK OF SEPT. 29, 2008

ARIES (March 21 to April 19) You might need to get more facts to help you work out those problems with your new project. As always, a friendly approach shows the charming Arian at his or her persuasive best.

TAURUS (April 20 to May 20) Information is what energizes ambition, and this is a good time for the ambitious Bovine to expand his or her range of knowledge and to be ready for the challenges that lie ahead.

GEMINI (May 21 to June 20) This is a good time to consider making some long-overdue decorating changes at home or in your workplace. A splash of color can help raise spirits, even on the grayest day.

CANCER (June 21 to July 22) Learn more. Earn more. That's the formula for Moon Children looking to expand their career horizons. Investigate the best places to get those training courses you'll need.

LEO (July 23 to August 22) Your creative side helps gain attention for many of your ideas. But don't neglect the practical aspects involved in implementing their move from paper to production. Good luck.

VIRGO (August 23 to September 22) A health problem should not be ignored. The sooner you check it out, the sooner you can deal with it and then move on. Some job advice comes from an unlikely source.

LIBRA (September 23 to October 22) A relationship takes an unexpected shift that could leave you puzzled and hurt. Asking for an explanation could help uncover the reason for this sudden turn of events.

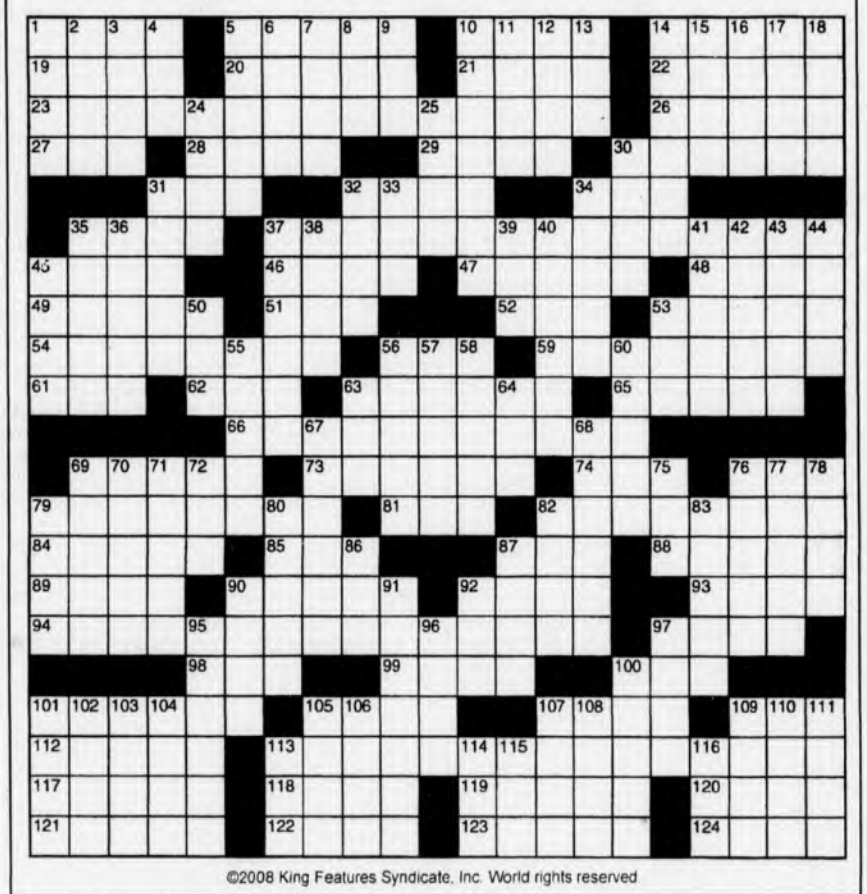
SCORPIO (October 23 to November 21) Your busy schedule has drawn down much of your energy levels. Restore them by spending a well-earned time out enjoying the arts — perhaps with that special someone.

SAGITTARIUS (November 22 to December 21) Make that presentation with confidence. Remember: When you show you believe in yourself, it helps persuade others that you truly know what you're doing.

CAPRICORN (December 22 to January 19) Although you usually prefer doing things on your own, a group effort might be advisable at this time. Try to keep an open mind about suggestions from colleagues.

AQUARIUS (January 20 to February 18) This could be a good time to reassess some of your recent decisions and see if any adjustments should be made based on facts that you might have just uncovered.

PISCES (February 19 to March 20) An emotionally charged situation creates uncertainty about the future of your relationship. Best advice: Talk things out while there's still time to reach a new understanding.



(c) 2008 King Features Synd., Inc.

BORN THIS WEEK: You tend to act on matters of principle despite what others might advise.

Level: Challenging

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

POLICE STATUS REPORTS

Busy June, quiet July for police

The most recent police status reports were for June and July.

Chief James Hussey said June was a very busy month for Cohasset Police Department. There were 30 arrests, two for possession of a Class D substance; two for minors transporting alcohol; five for minors in possession of alcohol; two for assault and battery; one for larceny of a motor vehicle; one for operating a motor vehicle with a revoked license; one courtesy booking; 12 for protective custody; and four for outstanding warrants.

In June, the police department investigated nine motor vehicle accidents, three of which resulted in personal injury. There were 61 motor vehicle citations issued totaling $1,345 in fines. Additionally, there were 94 parking tickets issued totaling $2,925 in fines.

The Emergency Dispatch Center also received a total of 990 calls for police services, and of those 237 were Emergency 911 calls.

There were 13 reports of breaking and entering, 12 involving motor vehicles, and one involving a business. Also in June there were eight criminal complaints issued for the month.

In contrast July was a relatively quiet month for Cohasset Police Department. Chief Hussey said there were six arrests, two for operating under the influence of liquor; one for assault and battery; one for possession of a Class D substance; one for breaking and entering a motor vehicle; and one for unlicensed operation of a motor vehicle.

The police department investigated 16 motor vehicle accidents, five of which resulted in personal injury. There were 61 motor vehicle citations issued totaling $1,325 in fines. Additionally, there were 156 parking tickets issued totaling $5,250 in fines.

The Emergency Dispatch Center received a total of 986 calls for police services, and of those 226 were Emergency 911 calls.

Also in July, there were 14 reports of breaking and entering, all involving motor vehicles and all leading to arrests. Also in July, there were four criminal complaints issued for the month.

Fall Farm Celebration and Art Exhibit at Weir River Farm, Hingham on Saturday, Oct. 4 from 10 a.m. to 2 p.m. Weir River Farm inspired the well-known Boston area artist Polly Thayer Starr, who donated the property to The Trustees. Celebrate her gift at our annual farm celebration, where the work of local artists depicting this iconic landscape will be displayed. Polly's daughter Vicki and several other members of the community who were integral in preserving this special place will be there to join us and share their memories. We'll also have a Polly Thayer Starr artwork exhibit, the Armstrong Brothers Band, pony rides, local vendors, food, crafts, and pumpkins for the children. Members $3, nonmembers $5. Information: call 781-740-7233 or visit www.thetrustees.org.

Movie review

'Duchess' explores royal pains

The Duchess (C+)

Film Review
BY: AL ALEXANDER

Georgiana Spencer (Keira Knightley, right) will remind you of Princess Diana.

"The Duchess" is a sumptuous tale of Whigs, wigs and a synthetic marriage in which the strands of coincidence link the 18th and 20th centuries.

That's Georgiana Spencer, the estimable Duchess of Devonshire, up on the screen, but it's her great-great-great-great niece, Diana Spencer, the doomed Princess of Wales, who director Saul Dibb wants you to see.

The similarities are striking, too, from their loveless marriages to their abilities to entrance the zeitgeist with their candor, empathy and extremely strong fashion sense. But beyond that, what's the point?

Well, there isn't one, except an underlying message that royals, especially those of the male variety, are foppish bores who can't control their scepters.

That's why "The Duchess" never rises above the rank of a mild diversion. But unlike the surly, unsociable Duke of Devonshire, don't dare sell this lovely vivacious woman short, especially when she is being played by the charismatic Keira Knightley.

With corsets pulled tighter than the state budget and wigs towering taller than wedding cakes, Knightley is a picture of grace and obscene opulence. But her acting still remains decidedly mediocre.

Not a good thing when she appears in virtually every scene. The result is a wildly uneven ride, gyrating between rapturous moments of insight and clarity to long slogs of dull, predictable drawing-room intrigue based on the betrayal and bed-hopping chicanery that have become the low standards of this genre.

It's also a bit much to expect people who can barely afford a movie ticket these days to exude sympathy for a woman of privilege who had her choice of castles and a designer wardrobe so gilded it would make Cindy McCain blush.

What sets Georgiana apart from all the other wronged women through history is that she was close to her husband's lover, even shared the same castle.

How amazing is that? Just think of Hillary and Monica, Diana and Camilla or Jackie and Marilyn doing each other's hair, sharing lustful secrets, and exploring each other's bodies for purely hypothetical reasons, as was the case for Georgiana and her BFF, the sexually liberated Lady Bess Foster.

Seductively played by Hayley Atwell ("Cassandra's Dream"), the Lady is such a guiltless tramp that she becomes infinitely more memorable than the duchess and the celebrated actress playing her.

Both women, however, are usurped by Ralph Fiennes as the distant duke, a man who thinks more of his prized hounds than he does his wife and their numerous daughters, each a reminder of Georgiana's repeated failures to deliver a coveted male heir.

Fiennes is devilishly villainous without ever being evil. If anything, his unmitigated boorishness is often hilarious, a running punch line much like Prince Charles, another man seemingly devoid of warmth and compassion.

It's Oscar-caliber work rooted in nuance and subtly instead of the Henry VII bombast you half-expect, making the duke the best reason to see "The Duchess." Well, that and the spectacular sets, each more dazzling than the next, and of course all those lavish costumes that made Georgiana famous.

What's missing though is any sense of perspective, especially concerning how the commoners viewed her and her influence on the reform-minded Whig Party, a passion born out of her secret trysts with prime minister-to-be Charles Grey ("Mamma Mia's" Dominick Cooper), the love of her life.

That hypocrisy and sexism kept them from ever becoming a couple is the most heartbreaking aspect of "The Duchess" and one of the few times when Georgiarta's plight resonates more than her bling.

Rated PG-13. "The Duchess" contains sexual content and brief nudity.

Calendar of events

Send your calendar events to: Dorothy Dinsmore, Community Newspaper Company, 165 Enterprise Drive, Marshfield, MA 02050 or by fax 781-837-4543 or e-mail ddinsmore@cnc.com. Deadline is Friday at noon. The Wellness Community (TWC) at Pathways Center for Cancer Support, 273 Hanover St., Hanover provides free programs for those on the South Shore with cancer and for their loved ones. TWC at Pathways offers support, education and hope through several support and networking groups, yoga, tai chi, art exploration and educational workshops. The support groups are led by trained clinicians. Those interested in finding out more about the free programs offered at TWC Pathways are urged to attend a **Newcomer's Orientation** which is held **every Tuesday at 10:30 a.m.** Information regarding these free programs, call 781-829-4823 or visit www.wellnesscommunity.org.

Buttonwood Books & Toys hosts its semiannual event **Coffee with the Authors** on Oct. 7, from 9:45 to11:30 a.m. at the Atlantica Restaurant, Cohasset. The authors are **Catherine Goldhammer, Jennifer Haigh, and Joan Wickersham**. Goldhammer's new book, "Winging It: Dispatches from an (Almost) Empty Nest," is her memoir that describes the changing dynamic of her family as her daughter prepares to leave for school and she realizes that she needs to "let go." Haigh will be discussing "The Condition," the story of the McKotches, a New England family that comes apart during one fateful summer. The catalyst is the diagnosis of their only daughter with Turner's syndrome, a genetic condition that prevents her from physically maturing. Joan Wickersham discusses "The Suicide Index" which describes the painful path her life took after her father commits suicide. Reservations and tickets ($16 per person) are required. Call Buttonwood at 1-781-383-2665 to reserve or order a signed copy if unable to attend.

South Shore Men of Harmony invite men of good character who love to sing but do not necessarily read music to come to a weekly meeting. The acapella barbershop chorus rehearses every Tuesday evening from 8 to 10 pm. at the Hingham Community Center, 70 South St. Call Bill Fitzgerald at 781-337-7464.

The Bar Association of Norfolk County presents **a free legal clinic** from 6 to 8 p.m. Oct. 7 at Quincy District Court. A panel of attorneys experienced in all areas of the law will be available for a one on one consultation to discuss your legal questions. All consultations are strictly confidential. For information contact Adrienne C. Clarke at 617-471-9693.

Island Grove Chorus, a women's acappella singing group, meets every Tuesday night at 7:30 p.m. at the United Church of Christ, Abington. Call 781-848-5843 for information.

The British Beer Company, 15 Columbia Road, Pembroke, every Tuesday **Wicked Trivia** 7:30 to 9:30 p.m. 781-829-6999.

Wednesday, Oct. 8

Includes Breakfast, Materials, Presentation and Tour $30 members / $40 non-members. Register on line at www.SSWBN.org or call 781 749 8883.

The Hull Lifesaving Museum's fall youth open-water season is underway. Sign-ups will be open through Oct. 8. The program is open to girls and boys ages 12-18; no experience is needed – novices welcome. The program takes place at the Hull Lifesaving Museum's Boathouse, 185 Main St., at the tip of Hull. Fall is a season of racing, camaraderie, and self-discovery, and includes two of HLM's signature races, the Head of the Weir (October 18) and The Icebreaker: Youth Open Water Rowing Championships (November 22). The season cost is $140 for HLM members and $180 for non-members; scholarships are available upon request. Information or to register, visitwww.lifesavingmuseum.org, or call 781-925-5433.

Creative Dance Center owner, Becky Ford, leads her students in some stretching exercises during their ballet class. The center is now occupying the former Cohasset News site on Brook Street.

Dancing in the village

Creative Dance Center opens on Brook Street

By Nancy White
NWHITE@CNC.COM

Creativity comes in many forms — some paint, some write, some sculpt and some make art with their bodies through dance. One of the newest additions to the Village cultivates the art of dance for some of the South Shore's aspiring dancers. Creative Dance Center opened its doors in September in the former Cohasset News space.

In a short time, the space has been completely transformed from the convenience store into a bright and airy dance studio. Each day, dozens of girls from age two to 18 flock to the center to dance.

Becky Ford, or "Miss Becky" as her students know her, is the owner and director of Creative Dance Center.

A dancer since age six, Ford is a former professional dancer with the Peninsula Ballet Theatre of San Mateo, California. She has performed in various classical ballets such as Giselle, Swan Lack, Les Sylphide and the Nutcracker, to name a few. She was even featured in the documentary, "A Life of Dancing." She was a former principal dancer with San Francisco Ballet.

To continue her passion for dance, she began teaching on the South Shore in 1990. Then she opened her own studio with her own vision in 1999. In its nine years existence, Creative Dance Center has been in multiple locations in Scituate and Cohasset. As Ford's following grew, she needed more space. She most recently was located above Feng Shui restaurant in Cohasset Plaza on Route 3A.

On the hunt for a new space this past summer, she saw a sign in the Cohasset News window and inquired within. She loved it almost immediately. Although hard to visualize when she first stepped into Cohasset News, the renovations came out beautifully, Ford said. The high ceilings, glimmering hardwood floor and wall of mirrors beg for visitors and dancers alike to do a twirl.

"It's definitely my favorite so far," said 13-year-old Zoë Ryan, a five-year veteran of Creative Dance. It's the biggest space they've had, "I can finally fit in two leaps."

A Scituate resident, Zoë has been taking ballet classes since she was two and recently took up hip-hop dance.

"I want to continue to take dance as long as I can," said Zoë, hoping she can keep up with her dance classes as

Turf on the table

Citizen's petition requests funding for turf field

By Nancy White
NWHITE@CNC.COM

It was once a pipe dream, a pie in the sky vision on the town's 10-year capital plan but, depending on how Town Meeting votes, a turf field at the high school's Alumni Stadium could become a reality.

The Cohasset Sports Partnership has submitted a citizen's petition to request Town Meeting support for a turf field — and the funding to build it. Numbers are not firmed up yet, but the Cohasset Sports Partnership is estimating between $500,000 and $600,000 of public funds are needed for the project. Special Town Meeting is scheduled for Monday, Nov. 17.

"This field when used more than a couple of times a week becomes a mud puddle."

— George McGoldrick, Cohasset Sports Partnership

The model behind the turf field campaign — many might have seen the "got turf?" signs about town last spring — is to build a public-private partnership so the million dollar project doesn't seem so daunting (and hard to swallow) in front of Town Meeting.

Even though fundraising is still in a preliminary stage, Sports Partnership member George McGoldrick said they have received over $200,000 in private funding commitments.

While the field will be on school grounds and be utilized by high school sports teams, the Sports Partnership has made it clear the field would be a town-wide project and town asset. Youth groups, Sunday afternoon pick-up games and adult leagues would all be able to schedule the field.

Right now, the current state of the field limits its use.

"This field when used more than a couple of times a week becomes a mud puddle," said McGoldrick. That means

Capital budget requests are lining up

Ambulance, library computers top list

By Nancy White
NWHITE@CNC.COM

Town Meeting voters will have the final say on what capital items ultimately gets purchased.

The Capital Budget Committee began to wade through the multiple requests from town departments for capital expenditures on Tuesday night. The committee is hearing from various town departments on their most pressing needs.

The 2-1/2-hour meeting is the first of what will be several meetings with town departments as the committee puts together its recommended spending for Special Town Meeting on Nov. 17. Town Meeting voters will have the final say on what capital items ultimately gets purchased.

Town Manager Bill Griffin let the Capital Budget Committee know there would be no free cash available to devote to capital items. The only available funds are in the capital stabilization fund, which was established and funded with $250,000 at the 2008 Annual Town Meeting, or the town could turn to bonding to pay for capital expenses.

Griffin also advised the committee that there were several other big-ticket items on the table for Town Meeting.

The Capital Budget Committee didn't seem willing to recommend to Town Meeting the spending of all the capital reserves.

But, that didn't stop town departments from coming forward to present their best case for capital purchases. The school department, the library, the fire department as well as members of the Cohasset Sports Partnership to speak on their efforts for a turf field.

Schools

Up first was the school department with a request for a replacement plan for both school buses and classroom computers. The schools also requested that a $45,000 item for the track refurbishment remain on the committee's radar in case the efforts to get a turf field get waylaid.

The capital budget committee asked for more information about the buses before it could advise on a plan. The committee asked the school department to provide utilization reports, mileage and past (and expected future) vehicle repairs.

Steve Gaumer, chairman of the Capital Budget Committee, suggested the schools look into contracting out bus service, perhaps teaming up with a near-by district to attract more bids. Gaumer also asked the schools to do a cost-benefit analysis of buying the buses (as they do now) versus leasing the vehicles.

The goal through the research is to determine whether the current transportation model is the most cost efficient, said Gaumer.

As far as the classroom computers, the committee wanted more information. A technology committee was established to look into establishing a town-wide technology replacement plan, but the capital budget committee hadn't heard from them in awhile.

"We were looking for a more town-wide approach to technology to increase the overall efficiency for the town," said Gaumer. The school department has about 500 computers and many of the classroom models at the lower levels are aging.

"We need to start planning on replacing equipment," said School Committee

PICTURE THIS/Rose Marie Engel-Conn

PHOTO/MARY FORD

The Mariner caught up with Rose Marie Engle-Conn, a fabulous octogenarian, at the Senior Center this week. Rose Marie, who comes from Germany, is taking a class in Italian at the center.

Name: Rose Marie Engel-Conn.

Occupation: Retired teacher and principal.

Best day of your life: Each day when I entered a class during my teaching career and was able to see children absorb new things.

Best and worst vacation: Best: Turkey. Worst: Tunisia in West Africa.

Favorite season: Autumn, I love it!

Favorite holiday: Christmas.

Favorite food: I am addicted to jellies and marmalades.

Best book: "The Bible as History," by Werner Keller.

Best actor: Cary Grant, a wonderful British-born, American actor.

Best movie: "The Odd Couple."

Best TV show: "The NewsHour with Jim Lehrer" on PBS.

Fun fact about yourself: Positivity, creativity and activity are the keys to my life!

Pet peeve: Impoliteness.

Goal: To live to my last day in a good mood and being positive.

Person you'd most like to meet: Martin Luther.

Biggest worry: The downturn in the economy and the clash of religions around the world.

Best part of Cohasset: Everything! I love Cohasset!

BRIEFLY

New Cohasset Mariner 'drop box'

The Cohasset Mariner has a new "drop box" and pickup location at Tedeschi's in the village. The drop box is on the counter in the front window around the corner to the left after you enter the front door.

The Mariner picks up at 8 a.m. on Mondays and Tuesdays. The drop box can be used to drop off glossy photographs, letters, flyers or other editorial copy.

Sports writers wanted

The Cohasset Mariner is looking for students, parents and grandparents who might like to cover youth or high school sports as a community service.

The Cohasset Mariner believes that coverage of high school and youth sports is important and a great way to provide young athletes with some recognition.

Please contact editor Mary Ford at: mford@cnc.com

All ages of sports writers are welcome. Access to a computer and email is a must.

Brush chipping

Residential brush may be dropped off in the Public Works parking area from 7:30 a.m. to 3 p.m., on Saturday Oct. 25. No trees over five inches, no stumps, firewood, briars or weeds allowed.

Paint collection

Paint collection days: Residents can drop off paint at the Recycling Transfer Facility on the last Saturday of the month from April through October. Residents are encouraged to dry out any latex paint using cat litter, sand or paint hardener, which can then be disposed of with regular household trash. Empty cans can then be thrown in the tin can container.

New school Web site launched

The Cohasset Schools has an entirely new Web site. The revamped site will still be able to be accessed at www.cohassetk12.org.

The site will be composed of five sites, each one to be frequently updated by administrators, teachers and staff. Teachers will be able to have their own site to post homework assignments, the Superintendent will be able to post messages, and the daily school lunch menu will be available as well. The ability to purchase school lunches online will be available around the time of the new Web site launch.

Lodge to hold open house

On Saturday, the 18th of October the Konohassett Lodge, located at 7 Brook St., will host its second open house of 2008 in conjunction with the 275th anniversary of the Grand Lodge of Massachusetts.

Celebrating Freemasonry throughout the Commonwealth, "Square & Compasses Day" will be held on Oct. 18. Building on the tremendous success of the event over the last three years, more than 150 Masonic Lodge buildings in the state will be hosting Open Houses and welcoming the public through their doors between 9am - 3 pm to learn more about the positive impact Freemasonry has on its members, their families and communities.

The public is invited. For more information see our new website www.konohassett.org .

POLICE BEAT

Stolen car processed for evidence

By Mary Ford
MFORD@CNC.COM

The sergeant on duty told the officer to keep a safe distance and not to engage in a pursuit for safety reasons.

At noon on Tuesday (Sept. 30), an officer's attention was drawn to a Honda Civic that had made a quick left from Route 3A onto Sohier Street and then make another quick left into the Mobil Mart. The officer ran the plate in the cruiser's mobile data terminal that revealed the car had been stolen out of Belmont. He confirmed that information with the dispatcher and then pulled into the Mobil Mart. The officer started to get out of the cruiser and asked the operator to turn off the car. However, the subject did not turn off the car and took off onto Route 3A northbound.

The sergeant on duty told the officer to keep a safe distance and not to engage in a pursuit for safety reasons. Hingham police were kept apprised of the situation and the car turned left onto Route 228 (East Street). It traveled through Hingham and sped into Weymouth. The car was recovered later in Quincy. The car was brought back to Cohasset where detectives processed it for evidence. Police also have a good description of the suspect. Police will be working with other police departments to identify the suspect, Chief James Hussey said.

Suspended license

A 44-year-old Cohasset man is being summonsed to court for operating on a suspended license. A Cohasset officer, who was aware the man had been arrested recently for operating under the influence of alcohol in Hingham, observed him driving at about 9:43 a.m. on Monday (Sept. 29). A computer check revealed the man's license had been suspended, police said.

Tire, rim

Cohasset police advised a resident whose car's tire and rim were damaged from a raised sewer cap on South Main Street last week to contact the town about the process to follow. Police made a log entry of the time, date and location of the incident.

Hit truck

A caller reported that his daughter had backed up and hit a truck parked across their street on Monday (Sept. 29) at about 6 p.m. Police said the 1998 Ford that the woman was driving hit a 2003 Dodge pickup, owned by a Hingham resident. She apparently did not see the Dodge, which sustained damage the right rear area, police said. There were no injuries and neither vehicle had to be towed.

Sideswiped

Two cars traveling in opposite directions on Hull Street last Friday (Oct. 5) at 5 p.m. sideswiped each other causing damage. The driver of the 2004 Subaru, who lives in Cohasset, reported the incident to Cohasset police, and the driver of the 2005 Toyota, who is from Brockton, reported the accident to Hull police. Chief Hussey said it is not clear which vehicle crossed over the centerline but the side-view mirrors on the driver's side of both cars made contact. Police conducted an accident report but it could not be determined who was at fault, Hussey said.

Card reader

A walk-in to the police station reported being billed on a credit card statement for more food than was actually purchased at a local pizza shop. As it turned out, there appeared to be a problem with the magnetic card swipe reader at the shop. The clerk apparently swiped the card more than once thinking the charge had not gone through. The purchase was made on Sept. 18 and the customer received the statement on the 30th, police said.

The shop is resolving the matter, police said.

Being summonsed

At about 12:17 p.m. on Thursday (Oct. 2), Cohasset police assisted Plymouth police in locating a resident allegedly involved in the larceny of car keys and a pocketbook from that town. Cohasset police checked the vehicle registration confirming the subject lived in town and later saw the car in the driveway. Plymouth police will summons the subject to court on larceny charges.

Suspicious email

A Cohasset woman went to the police station last Thursday afternoon to report receiving a suspicious email at work. The woman, who is going through a divorce, was advised by her attorney to have the incident logged. Police said there was no crime involved.

Bike not free

A resident reported that about 4 p.m. last Thursday (Oct. 2) on Sohier Street an older brown minivan with two women inside stopped in front of a house and tried to put a bicycle that was lying on the ground into the minivan. When confronted, they said they thought the bike was free and was there for the taking, police said. Police were unable to locate the minivan.

Intoxicated

Police responded to a report of a disturbance involving an intoxicated man in the Town Parking Lot at 9:30 p.m. on Thursday (Oct. 2). His girlfriend had become concerned that the man might try to drive. When police arrived, the 44-year-old Hingham man walked toward the officers. He was glassy eyed and showed signs of being intoxicated, police said. Police said the man became a little uncooperative and was taken into protective custody. He later apologized to the officers, police said.

Rolex taken

A resident filed a report with police about a Rolex watch that had apparently been stolen during a recent garage sale. Police said the resident had a garage sale at his house on Sept. 22; at some point he took off his watch and put it in the cash box during the sale. When he went to retrieve it, the watch was missing. As it turned out the man's son had taken the watch out of the cash box during a transaction and put it on the table temporarily.

The man, who searched the house for the watch, believes it was stolen from the table during the garage sale. He supplied police with the serial number and a good description. Police put the information out on the NCIC (National Crime Information Center) database that provides other police departments with information on stolen property.

Credit card

A walk-in to the police station at 12:16 p.m. on Friday (Oct. 3) reported having received a credit card bill for charges in excess of $5,000 for medical services the individual did not obtain. In fact, the woman had never been to the medical center nor had she visited a doctor on the date in question. Police had the victim fill out an identity theft packet so her credit card companies and banks can be notified and determine if her social security number has been stolen. They will then work with the medical center's billing department to resolve the issue.

Fraudulent hours

A business reported last week that a former employee submitted fraudulent hours worked and was paid for them. Police said there have been ongoing conversations between the employer and former worker to resolve the matter in lieu of the employer seeking a criminal complaint. Police said the employer wants the money back. The potential charge could be larceny over $250.

Brazilian license

A 56-year-old Quincy man is being summonsed to court for operating without a license. On an unrelated matter, police responded to a burglar alarm at a local facility and when they arrived they saw a blue Toyota Camry pull into the driveway. They spoke to the operator who showed them a Brazilian license even though he had been in the country for 10 years. His car was towed.

Barrow trial gets continuance

The car accident happened shortly before 1a.m. on Saturday, Feb. 2, on Route 3A near Pond Street.

The trial of Christopher Barrow, the driver in a fatal Cohasset crash last winter that took the life of 16-year-old Timothy Mahoney of Scituate, has been postponed until Dec. 5.

Barrow, 18 years old and a Scituate resident, faces multiple charges including, motor vehicle homicide by negligent operation, negligent operation of a motor vehicle, minor in possession of alcohol and minor transporting alcohol.

The car accident happened shortly before 1a.m. on Saturday, Feb. 2, on Route 3A near Pond Street. Barrow suffered serious injuries in the accident and is now in a wheelchair.

During a pre-trial hearing at Quincy District Court on Wednesday morning, Barrow's attorney, Robert Jubinville, a Milton-based criminal lawyer, told Judge Sydney Hanlon he hoped to resolve the case without going to trial and explained he needed extra time. Judge Hanlon granted the continuance and Barrow will appear again on Dec. 5.

Members of the Mahoney family and the Barrow family were in attendance at the pre-trial hearing.

The maximum sentence for the misdemeanor charge of vehicle homicide is imprisonment for 30 days to two and one-half years or a fine of $300 to $3,000, or both.

When a defendant is convicted of motor vehicle homicide, either the felony or the misdemeanor, his driver's license is revoked for a period of 10 years; upon a subsequent conviction, it is revoked for life.

Citizen's petition requests funding for turf field

FROM TURF, PAGE 1

about two varsity games are played on Alumni Field each week. "It's an asset that's woefully underutilized."

At first glance on a sunny afternoon this week, the field looks pristine. But, McGoldrick notes, it hasn't rained recently. The current field, which was built in 1995, is plagued with drainage problems due to poor soils, said McGoldrick. This fall, the field is being used just for varsity boys and girls soccer and varsity/JV football games. For the most part, practices are held on other fields.

While youth sports have grown by leaps and bounds over the last 10 to 15 years, the amount of fields has stayed the same. In 1995, youth soccer had 400 registered children, this fall there are 706. Before 1994 there was no youth lacrosse program and when it started it had 25 boys, in 2008 upwards of 250 boys and girls in grades 3 through 8 are involved. One hundred first and second graders recently attended a youth lacrosse clinic. Participation in field hockey has nearly tripled in five years from 23 girls in 2003 to 65 girls in 2008. The Scituate/Cohasset youth football team has grown from 57 Cohasset youth in 2006 to 100 in 2008.

"There's been a significant increase in kids doing outside activities," said McGoldrick. The increased participation is a positive development, but has put stress on the current fields, he said. Bancroft and Norfolk Roads are swarming with kids and parents on a Saturday morning and high school teams have to practice all over town, instead of right in their backyard.

With the turf field, McGoldrick said, use of Alumni Stadium could increase dramatically.

"It's like creating three new fields because of the increased use," said McGoldrick.

Ellen Maher, a member of the sports partnership and the football boosters, attests the Scituate turf field is used constantly, "it can literally have 24/7 use."

"In Cohasset, sports have a proud tradition. I see this as a key component—give the town an asset they can utilize," said McGoldrick

Synthetic turf fields are popping up all over the South Shore. Scituate, Weymouth, Archbishop Williams, Quincy, and Thayer Academy all have built turf fields in recent years. There are about 100 turf fields exist in the greater Boston area. In fact, Maher said, three out of four of Cohasset High's opening football games were played on turf fields.

"There's an intangible value of what the field brings," said Maher naming community spirit and sport program prestige as a couple.

PHOTO/NANCY WHITE

The Cohasset Sports Partnership has submitted a citizen's petition to request Town Meeting support for a turf field at Alumni Field, which has drainage problems.

What the turf field would cost

The current construction estimate for the turf field is between $800,000 and $900,000. Track re-construction could also be wrapped into this project at a cost anywhere between $50,000 for a repair to $350,000 for a complete new synthetic track.

Part of the Partnership's argument for the turf field is to point out how much is spent yearly just to maintain the current grass field. Between watering, mowing, fertilizer, lining and other expenses, the schools are spending over $40,000 to keep the field in use.

A significant portion of the debt incurred by the purchase and installation of the turf field could be re-paid through this offset and new revenue (field user fees, etc.), said McGoldrick of the Cohasset Sports Partnership. If Town Meeting supported the project and with the $200,000 already committed, the town would have about $250,000 remaining. Corporate contributions, Community Preservation Act, in-kind contributions and/or additional private donations will be sought.

As far as maintenance is concerned, the cost is significantly less than traditional grass. Weymouth High pays about $1,200 annually to maintain the field. Scituate High contracted with the turf construction company for maintenance at an annual cost of $4,000.

"It makes sense, financially, economically, and practically," said George McGoldrick.

The turf field looks much like real grass. The field is covered with 2.75-inches of infill (small pieces of recycled rubber tires) and then 3.5-inch blades of grass.

"It's a comfortable surface to play on," said McGoldrick and makes for must faster play.

If built, the turf fields come with a warranty between eight and ten years with an actual life expectancy of up to 15 years or more.

The members of the Cohasset Sports Partnership met with the Capital Budget Committee and the Advisory Committee this week and will continue those conversations with town boards and various constituencies in Cohasset over the next month.

"The town believes in this project philosophically. It's a town concept that the partnership took a lead in trying to make it a reality," said McGoldrick.

To find out more information or to make a donation to the turf field, visit the Cohasset Sports Partnership website at www.cohassetsportpartnership.org.

Fire Dept. teams up with Vo-Tech

Shelving added to fire engine

By Nancy White
NWHITE@CNC.COM

"I was really impressed with the students and the work they did."
— Lt. Bob Protulis

COURTESY PHOTO

South Shore Vo-Tech students stand by their finished shelving project on Cohasset Engine 3. The shelving keeps fire equipment organized, secure and accessible. From left, Zach Wyndham, Kevin Lloyd, Andrew Holland (kneeling), James Sorrentino, and Mike Patten.

The Cohasset Fire Department recently teamed up with the South Shore Vo-Tech to enhance one of the fire trucks. The metal fabrication and welding classes at the Vo-Tech designed and built new shelves in one of the town's fire trucks to make their tools organized and accessible.

The project was largely coordinated between Cohasset's representative to the South Shore Vo-Tech School Committee Kenny Thayer, Fire Lieutenant Bob Protulis and the Vo-Tech administration. Cohasset Engine 3 was brought to the Vo-Tech on two separate days to complete the project.

"We now have the ability to access the equipment quickly while keeping the tools securely mounted," said Protulis. "I was really impressed with the students and the work they did."

The metal fabrication and welding class at the vo-tech tackled the project. Typically, between two and three students work on the project at any one time, South Shore Vo-Tech Assistant Principal Gene Kelly said, but as many as 15 could work on it over the course of its progress. Each student must sign in and record their time spent on their project and what they accomplished. Some students may be working and some may be observing. Each one is getting something out of it, he said.

"We're constantly looking to do community service projects. We think it's our responsibility to the towns to put our resources to work," said Kelly.

This isn't an isolated collaboration. The Vo-Tech has done projects in nearly every town it draws students from. Located in Hanover, the South Shore Vocational Technical High School draws students from Abington, Cohasset, Hanover, Hanson, Norwell, Rockland, Scituate and Whitman.

Many years ago, Vo-Tech students helped with the reconstruction and renovation of the Lightkeeper's Residence in the nineties.

"The projects have different scopes and require different specialties," said Kelly. Each project gives the student a hands-on, real life component to their learning and the satisfaction of knowing they are helping a community.

All the projects have to align with what the student is supposed to be learning and the Massachusetts Curriculum Frameworks.

There are a wide breadth of trades available that kids can specialize in including, cosmetology, culinary arts, healthcare, electrical, automotive, autobody, computer information technology, graphic arts and welding/metal fabrication, to name a few.

"We make sure we're not teaching (the students) an obsolete skill. We want to teach them skills they'll be able to use," said Kelly.

All parties are happy with the collaboration.

"Everything worked out really great," said Thayer and, as an extra bonus, the project saved the town quite a bit of money. If done by a professional contractor, the shelving would have cost between $500 and $600, the Vo-Tech completed it for the cost of the materials — under $100.

"We're always short on money when we're trying to get these type of things done," said Protulis. When he was casually talking about it with Thayer, both jumped at the chance to have the Vo-Tech help out. Protulis drove the fire engine up to the Vo-Tech campus on two separate days, one so he could explain what he was wanted and one to have it installed.

"It really was relatively painless, the teacher, Mr. Bob Petrino and the students took care of it all," said Protulis. Now, Protulis is looking to bring some of the other equipment up to the Vo-Tech for some more work. He'd like to bring the ladder truck up for some work so all the equipment the firefighters may need to use at an emergency will be handy. He might even add additional shelving and brackets to the engine.

"It's helped us out tremendously," said Protulis.

Thayer is Cohasset's representative to the South Shore Vo-Tech school committee. Although relatively new to the school committee position (he was appointed this past summer), Thayer has been involved with the Vo-Tech for many years.

"I was always over there," said Thayer. He was involved in the automotive committee and enjoyed being a part of the students' education. When he was asked by the Assistant Principal Gene Kelly to become Cohasset's representative, he couldn't say no. He said he gets a thrill seeing the kids complete a project they can be proud of.

Now, it's his goal to get more Cohasset kids thinking about South Shore vocational school as a secondary education option.

"I want to try to make more awareness of the vo-tech," said Thayer. Only a few Cohasset kids attend the vocational regional high school.

"There's so much stuff going on over there…it's fantastic," said Thayer. Thayer welcomes any parent or student interested in learning more about the vo-tech and the education provided there to take a tour or find out more information. Visit their website at www.ssvotech.org.

Historical Society Fall Dinner and Annual Meeting

The Cohasset Historical Society will hold its annual meeting and fall dinner on Oct. 26 at the Cohasset Harbor Resort, 124 Elm St. The featured speaker will be Historian and Folklorist, John Horrigan presenting "Bay State Phantoms". From the beginning of time, history has been filled with superstition and the supernatural. John will tell of encounters with 'phantoms' witnessed by residents of Massachusetts from 1638 to the present. Hear stories of strange lights, odd creatures, popular ghosts and dangerous animals observed by the people of our state over the past five centuries. Some of the topics discussed will be *"The Great Light in the Night"* (1638), *"The Wolves of Newbury"* (1704), *The Gloucester Sea Serpent"* (1817), *"The Lady in Black"* (1861), *"The Mysterious Air Ships"* (1909), *"Scituate Sea Monster"* (1969), *and "The Red-Headed Hitchhiker of Route 44"* (1998). This meeting will begin at 5:30 PM with a cash bar and is open to members and guests at a cost of $31 per members and $36.00 per guests. The entrée choices are Cranberry and Sage Stuffed Chicken or Grilled Pork with Apple-raisin glaze. Reservation are needed by Friday, Oct 17th and can be made by calling the Historical Society at 781-383-1434 or by sending a check with your desired entrée choices to The Cohasset Historical Society, PO Box 627, Cohasset, MA 02025.

Wadsworth talk is Wednesday — Historian, David Wadsworth, will lead us on a walk around town when he presents "The Common and Village" in his talk on Wednesday evening, Oct. 15th at the Cohasset Historical Society, in the Pratt Building, 106 South Main Street. Without leaving the comfort of our seats, David will relate the significance of the buildings and their histories with his slides and vast knowledge of our town and its people. Always a fascinating storyteller, David's ability to recount the 'who, what and where' of Cohasset makes our town's past alive again. All are invited to attend this program, which will begin at 7:30 p.m. There is no charge and light refreshments will be served.

OCTOBER IS DYSLEXIA AWARENESS MONTH
IS YOUR YOUNG CHILD AT RISK FOR READING FAILURE?
Does your child have difficulty:
★ Speaking or understanding language
★ Learning new vocabulary
★ Rhyming words or hearing sounds in words
★ Following directions
★ Learning letter names
★ Or if there's a family history of reading difficulties
Don't take a "wait and see" approach. Early and appropriate intervention is critical and will greatly increase your child's academic success and self esteem.
Contact the Massachusetts Branch of the International Dyslexia Association for more information at 617-650-0011 or visit us at:

Cohasset native Steve Bowen to head back to space

AROUND TOWN

JENNIFER PIEPENBRINK

FALL BEAUTY

Hello Cohasset. What a beautiful fall week we have had and will continue to have throughout the weekend. The leaves look so pretty on the trees and on the ground. I am getting a bit nervous as we look ahead to the winter months, I want to have a lot of snow with warm temperatures, HMMM.... Anyways, I will enjoy all that we get regardless of what it brings and hope that all of you do as well. It is so nice outside when we see all the kids playing in the leaves, playing fall time sports and more. In this week's column, we have a lot of events and programs to share so here we go.

BOOKS IN BLOOM

Here is a great program. On Oct. 15, 16, and 17, the Community Garden Club of Cohasset will transform the Paul Pratt Library with a show called Books In Bloom. Club members will interpret a book title of their choosing through fresh flower and plant material. This is not a standard flower show where all arrangements need to adhere to strict rules. The show is meant to be interpretive, creative and fun. Junior Gardeners (grades 3, 4, and 5) spent their last meeting preparing for this show. Arrangements can be viewed from 10 am to 5 pm. Admission is free and open to the public.

NEW OFFICER

Sheriff Andrea J. Cabral and the Suffolk County Sheriff's Department are pleased to announce that Ian Hickey of Cohasset has graduated from the Sheriff's Department Training Academy Class 08-02 and is now an officer within the Department. Wow, what an accomplishment.

REUNION

The five-year reunion for the CHS class of 2003 will be held Wednesday, Nov. 26th from 7-11pm at the George Mealy American Legion Post, 98 Summer St. Make your parents happy by coming home for Thanksgiving. Then catch up with old friends and share your new exciting experiences. Appetizers and drinks will be served. Questions? Contact Curt (curt.kahn@gmail.com) or Ross (rlieblappen@gmail.com).

HISTORIAN

Historian, **David Wadsworth**, will lead friends on a walk around town when he presents "The Common and Village" in his talk on Wednesday evening, Oct. 15th at the Cohasset Historical Society, in the Pratt Building, 106 South Main St. Without leaving the comfort of your seats, David will relate the significance of the buildings and their histories with his slides and vast knowledge of our town and its people. Always a fascinating storyteller, David's ability to recount the "who, what and where" of Cohasset makes our town's past alive again. All are invited to attend this program, which will begin at 7:30 p.m. There is no charge and light refreshments will be served.

TENNIS

The Middlebury College Panther women's tennis team hosted the second annual Gail Smith doubles tournament on campus. Seniors Elizabeth Stone **(Cohasset)** and **Elizabeth Emery (McLean, Va.)** advanced out of their bracket and into the quarterfinals. The pair of seniors fell in a tiebreaker to Williams, 9-8 (5). They had previously picked up three wins in round robin play to advance to the championship bracket.

ASTRONAUT

Astronaut **Steve Bowen,** a Cohasset native, will make his first trip into space aboard the shuttle Endeavour on Nov. 14. The endeavor's 15-day mission to the international space station launches from NASA's Kennedy space center in Florida. Steve, 44, graduated from Cohasset High in 1982 before earning an electrical engineering degree from the U.S. Naval Academy in 1986 and an ocean engineering degree from MIT in 1993. Steve will conduct three spacewalks during the shuttle flight, according to NASA. The shuttle will deliver equipment and supplies necessary to double the station crew size from three to six in May 2009.

NEW ARRIVAL

Thank heaven for little girls! Parents **Scott and Kara Bianchi** and big two-year-old sister **Julia** welcomed a new baby girl to their family. **Celia Maris Bianchi** arrived on Sept. 5th, 2008. Her proud grandparents are **Richard and Susan Pope** as well as **Steve and Jane Bianchi**, all of Scituate. This was wonderful news to receive on your new addition to a super family! Have so much fun with your girls.

CLEANUP DAY

You can get out and enjoy the beautiful fall weather with family and Make a Difference at the same time.

This year the annual Make-A-Difference-Days sponsored by the PSO are as follows: Come to the Joseph Osgood School on Oct. 18th from 9-11 am. Volunteers are wanted to clean up the nature trails and other outdoor areas along with general fall clean-ups involving the various shrub and flower beds and other assorted jobs.

Any amount of time you can give is greatly appreciated!

The Deer Hill School event is on Oct. 18th as well from 12-2 pm. If anyone would like to donate or add to the beautiful daffodils that graced the entrance to the lower school campus, come and help to plant some bulbs!

FALL CLEANUPS

Last, the Cohasset Elder Affairs is looking for 2-hour commitments on Nov. 22nd and 23rd, which is the weekend before Thanksgiving. Generally, help is asked for a 2-hour commitment to assist the neighbors with general fall clean up (i.e. leaves, storage of lawn furniture, etc.). This is a wonderful opportunity to bring generations of the town together and make some new friends. If you have any questions or are interested in volunteering please contact: **Patty Cunningham** 383-1378 or **Vanessa Simone** 383-8832.

BUTTONWOOD

Buttonwood Books & Toys, Shaw's Plaza welcomes Beth A. Grosshans, Ph.D. on Wed. Oct. 22, at 7 p.m.. Beth will be discussing her book, "Beyond Time-Out: From Chaos to Calm," written with Janet Burton. The book describes the havoc current parenting trends have caused, and then outlines the necessary tools to lead children to more controlled, respectful and cooperative behavior. This is a free event that all are invited to attend.

ANIMAL SHELTER

Come enjoy an artful evening of wine tasting and hors d'oeuvres sampling at the South Shore Art Center in on Friday, Oct. 17th from 6-9 pm. Music is by jazz, cabaret, and pop vocalist Krisanthi Pappas. Tickets are $45 each and available at the Sotheby's International Real Estate Office at 1 South Main Street in Cohasset Village and at the Scituate Animal Shelter. All proceeds benefit the Shelter. For information, please call 617-967-5175.

HARVEST SUPPER

The Annual Harvest Supper and Auction will be held at the Beechwood Congregational Church for the 85th straight year on **Oct. 23rd at 6:30**! In years past, members have personally made calls to people in surrounding towns in order to make dinner reservations. This policy is being phased out. Instead, the first 100 people will be seated on a first-come basis. Those who want to, can call the church and order reservations on the voice mail at 781-383-0808. Seating begins at 5:30 for dinner, which will be served at 6:30. This year's menu includes ham, herbed roasted potatoes, green beans, Harvard beets, coffee and dessert. Dinner is $9 for adults and $4.50 for children. An auction of locally harvested produce, pies, homemade goods and various donated items will take place immediately following dinner.

This is all for now. Please send *in all of your news to me no later than 5:00 on Tuesday evenings. Don't forget that it is Fire Safety Month. Talk with your family about what to do in the event of a fire and how to escape from your home if needed.*

Leah Roy, Ginny Norman, and Andy Norman, all of Cohasset.

Cohasset's Kathy Ofsthun dealt blackjack all evening competing with husband Rich who manned another table. The guests won great prizes and Wellspring won all around!

Bernadette Faulkner, and Ann Musto, both of Cohasset, art lovers and event committee members.

A Night to Bond for Wellspring

The drizzle didn't dampen the excitement when 230 supporters joined in the fun for the recent A Night to Bond for Wellspring. The sold-out event set a fundraising record for Wellspring Multi-Service Center.

According to Executive Director Vinny Harte, "It was a dazzling night of style and fun, but the spotlight never left our mission of Wellspring. While many dollars were raised, the need continues. The support received on that Saturday night helped Wellspring immediately assist people in need on the following Monday morning."

There is a Laser way to treat severe gum disease without cutting or stitches

Introducing

Laser Periodontal Therapy™

Finally, there's good news for those of you who suffer from gum disease (gingivitis and periodontitis). We now offer an exciting laser based technique for treatment of periodontal disease called Laser Periodontal Therapy™. Through the use of the Millennium Dental Technologies, Inc. PerioLase® Laser, designed especially for Laser Periodontal Therapy™, we can treat your moderate to severe gum disease and you can quickly return to your normal routine!

There's no incision (scalpel) and no stitches (sutures). Discomfort is greatly reduced, often there is not any pain at all. You heal naturally with full retention of your gums. Local area dentist Dr. Michael Thomas is fully trained and licensed to perform Laser Periodontal Therapy™, an FDA cleared and patented laser gum therapy that greatly reduces the pain and recovery time associated with traditional gum surgery. Dr. Thomas is the only dentist in the South Shore area using the PerioLase MVP-7, the first ever digital dental laser with FDA approval for use in the treatment of gum disease. If you suffer from tender, red, swollen, bleeding gums, or have been told you need periodontal surgery to treat gum disease, call us today for an appointment to evaluate your condition and see what a difference the laser treatment can make for you.

Ballet dancers, Jordan Tripp, Emma Watts and Kara McLaughlin, are at the front of the line at the ballet bar.

Dancing in the village

FROM DANCE, PAGE 1

she heads to high school.

The dance center happened to be a good fit to share the same building — and parking spaces — with the Village Deli. Most of her younger-student classes are held during the morning hours, then go on hiatus during the lunchtime hours (when the deli is busiest), later she returns for the after-school and evening classes.

Sometimes she sees parents who wait in the dance center's waiting room head over to grab a quick lunch or dinner sandwich while they wait.

The mission statement of Creative Dance Center is to offer classes that will motivate, inspire and instill a love for dance while teaching the fundamentals in a positive atmosphere.

"I'm the luckiest person to be able to do what I've always loved to do," said Ford. The key to her teaching philosophy is to teach her students in a positive manner so have that similar passion and love for dance. She'd like to see all her students continue to dance into their adult life. Her classes start with girls as young as two-and-a-half all the way up to high school aged.

At Creative Dance Studio, dance is less about the steps and more about movement and creativity.

"I want them to come into class being creative and expressing themselves," said Ford. "I love to see the students, especially the young ones, really take an idea and make it their own."

To get those creative juices flowing, she often gives the kids things to act out, often choosing season-appropriate ideas, like leaves falling to the ground or snow blowing in the wind.

"It is amazing to see what they come up with," said Ford. The kids will transform into everything from blades of grass to sun shining. "You never know what they will do."

Classes in ballet, tap, hip hop and jazz are offered. There is even a creative movement class

A dancer since age six, Becky Ford is a former professional dancer with the Peninsula Ballet Theatre of San Mateo, California.

If You or Someone You Know is Struggling with Hearing Loss...Don't Miss This Opportunity!

WANTED
30 People

30 People Who Have Difficulty Hearing, Especially In Noisy Situations, To Evaluate New and Exciting Open Ear LX700 Digital Technology, Risk Free!

Mass Audiology will have State licensed hearing instrument specialists available to perform comprehensive hearing evaluations at no charge for the first 30 qualified callers to determine if you are a candidate for this new ultra-modern, open-ear hearing solution. Applicants selected will be asked to give their opinion on this remarkable new hearing instrument in 2 weeks. This state-of-the-art instrument is virtually invisible when worn. This device will be fit and digitally programmed on the spot in one of our offices.

Participants who wish to keep their instruments can do so at a tremendous savings, due to their participation.

However, if you feel the hearing instruments do not improve your hearing, simply return them. A very small, fully refundable security deposit will be required.

Candidates will be selected by October 31, 2008.
Those interested need to call today.

FROM DANCE, PAGE 8

for two to three year olds. Ford's specialty and background is ballet so Tina Combs-Fabrizio helps her with the hip-hop and jazz classes. Fabrizio also teaches many after-school programs on the South Shore and has performed and choreographed for many local theatre groups.

Each May, all of the classes take part in an end of the year performance. Unlike some dance studio recitals that can go on for hours with each class having its own vignette, Ford uses the talent across her classes to tell a story in about 90 minutes.

In the past, her students have told the stories of the Wizard of Oz, Rainbow Fish, Charlotte's Web, Little Mermaid through dance.

Ford, who has two teenagers of her own, knows how busy kids can be between school, homework, sports and other activities, and tries to make dance classes as easy as possible to participate in.

Emma Watts points her toe during her ballet class at Creative Dance Center.

Becky Ford, or "Miss Becky" as her students know her, is the owner and director of Creative Dance Center on Brook Street in the Village.

Photos by Laura Sinclair

Kara McLaughlin moves gracefully to her spot on the dance floor.

"We want to give kids the technique and the foundation in class," said Ford. As they begin to put together the show (preparation doesn't start until January), the students begin to string together the pieces they've learned.

A keystone of her teaching is dance is not a competition, "I look at dance as an art," said Ford.

In the past, her studios have been in shopping plazas on Route 3A with not a lot of walking traffic. In the village, it is a whole other story.

"I love the hustle and bustle of the village," said Ford. She said friendly faces pop in to ask how she is doing or mothers stop in to pick up a brochure.

"I've always loved this area," said Ford. For her, she is optimistic this is her last move — "this is perfect."

Space is still available in some classes. Please call Creative Dance Center at 781-383-2300 for more information.

A Village Night Out is Thursday, Oct. 16

A garden done by Hope in Bloom for a client. Imagine what comfort and enjoyment this beautiful garden might bring to a patient undergoing breast cancer treatment.

On the heels of Cohasset Day, "A Village Night Out" will take place on Thursday, Oct. 16th from 5-9 p.m. in downtown Cohasset. For the second year, merchants will open their doors for extended shopping hours and offer refreshments and festivities for the public to enjoy. Each participating merchant will donate a raffle prize that will be on display at Hernan's Salon beginning Friday, Oct. 9th. Customers will be given raffle tickets at each shop they visit, so the more shops visited, the more chances there are to win some fabulous raffle prizes.

Pink balloons and white lights will mark the establishments participating in this event. And 10 percent of all sales will be again donated to Hope in Bloom, a local non-profit organization that provides indoor and outdoor gardens for those undergoing treatment for breast cancer. Last year's festivities on a perfect October night resulted in a $700 donation.

...10 percent of all sales will be again donated to Hope in Bloom, a local non-profit organization that provides indoor and outdoor gardens for those undergoing treatment for breast cancer.

Enjoy music and a coffee sampling at French Memories, a wine tasting at Village Wine and Spirits and Octoberfest at the Red Lion Inn. Carmela Fine Foods will offer delicious appetizers and have a trunk show featuring fine Italian hand painted pottery by Giardini di Sole. Look for the live models once again in the windows of Ports showing off the latest in fall fashion.

Come meet the owners of the village's newest businesses, Cindy Doody of Mariposa Massage and Body, and Kellie Lynch of Balance Studio. Order your holiday cards at Paperscapes. Preview gift ideas for everyone on your holiday list at Darilynn's, Fleming's Lighting, Sagestone Beads, and Twist. Round out your evening at Bia Bistro.

So don't miss the fun! Call your friends, and make plans to join all of us here in the village on Oct. 16th for a festive evening that supports a great cause.

Tickets for Season Two of

Dancing With The REALTORS®

To Benefit Habitat for Humanity

Go on Sale Monday, September 15th at PASS

Just like the popular TV show, "Dancing with the Stars," PASS members have been practicing for months with professional dance partners to put on a great show for you and to raise money for Habitat for Humanity of Greater Plymouth and South Shore Habitat for Humanity. If you missed the 700 seat sold out event last year, don't miss it this year.

Returning dancers will dance Cha Cha and Tango and newcomers will dance the Fox Trot and Swing dance.

Event will be held on Wednesday, October 15, 2008 from 5-11PM at Lombardo's in Randolph.

TV and KISS-108FM radio personality Billy Costa will be returning as Master of Ceremonies and auctioneer for the evening.

Tickets are $49 and include hors d'oeuvres, full dinner and dessert, live and silent auction and a great dance show!

Tickets available on a first come, first serve basis. Purchase at the PASS office (48 Schoosett Street, Pembroke, MA) or call 781-826-5139. MasterCard, Visa, American Express, checks and cash accepted.

Saint Stephen's Church now accepting book donations

Saint Stephen's Episcopal Church, 16 Highland Avenue, Cohasset is currently accepting donations of slightly worn hardcover and paperback books, books on tape, DVDs, and CDs for its annual book sale, part of the ecumenical Village Fair that will be held this year on Dec. 6 on Cohasset's scenic Common.

Donations can be brought to the church in bags or boxes and placed inside the parish hall door marked "Church Offices". Use the "reserved parking" spot to unload your books during church office hours Monday through Friday 8 a.m. to 2 p.m. Books are sorted at St. Stephen's Church in Walton Rodgers Hall every Tuesday from 9 to 11 a.m. Donations will be accepted through Nov. 25. Old textbooks, romance novels, damaged, musty or moldy books or books with notes and/or highlighting cannot be accepted. For information, call D'Anne Avotins at 781-923-1104

Old textbooks, romance novels, damaged, musty or moldy books or books with notes and/or highlighting cannot be accepted.

The monies raised from the Book Sale will be used to send underprivileged children and their families to the Barbara C. Harris Camp in Greenfield, N.H. For more information about this facility, visit www.bchcenter.org.

Library awarded $2500 grant

Thanks to a grant from the federal Institute of Museum and Library Services (IMLS), the Paul Pratt Memorial Library has been awarded $2,500 by the MA Board of Library Commissioners. The funds will be used to conduct a Preservation Survey grant program that will result in the professional assessment of the library's Historical Room and collection.

The Institute of Museum and Library Services is the primary source of federal support for the nation's 122,000 libraries and 17,500 museums. The Institute's mission is to create strong libraries and museums that connect people to information and ideas. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development.

To learn more about the Institute, please visit www.imls.gov.

Holly Hill Farm to sponsor races

Friends of Holly Hill Farm will sponsor two races on Sunday, Oct. 19, through the 120 acres of woods at Holly Hill Farm in Cohasset. Sign in for the 5k is at 8 a.m., and 9 a.m. for the 1-mile fun run.

Proceeds will benefit educational activities at Holly Hill Farm. For information, contact Janice McPhillips at fhhfarm@verizon.net or call 781-383-6565.

Proposed commuter boat cuts on hold

Rider comments made a difference

By Carol Britton Meyer
CMEYER@CNC.COM

Commuter boat riders are breathing a sign of relief.

The MBTA's recent proposal to cut Hingham and other commuter boat service has been taken off the table at least for now.

The MBTA initially assured commuter boat advocates that Greenbush restoration would not impact boat service, so the recently proposed cutbacks were not well-received.

"The proposed service changes to the water transportation network have been removed from consideration as part of the 2008 service plan," said MBTA manager of service planning Melissa Dullea. "Some proposals will be modified or reconsidered as part of a separate process at a later date."

A number of residents from Hingham and surrounding communities who regularly take the boat to work and other destinations and some local legislators were upset when the proposal was first presented. Many attended public meetings about the issue hosted by the MBTA to air their concerns.

At a recent meeting in Weymouth, Dullea said that the proposed elimination of some weeknight boat trips was based on ridership figures, which have dropped off somewhat since the Greenbush line started up again.

Rep. Garrett Bradley, D-Hingham, testified in opposition to the proposed changes at the same hearing and thinks that the comments he and others made affected the outcome. "I really appreciate that people wrote to me about their personal commuter boat experiences, which I used in my written comments and in my testimony at the hearing," he said. "It's a well-utilized boat, and some of the holiday service cuts that were proposed are full work days for some folks."

While he's pleased that the cuts have been put on hold, Bradley promised "to be every vigilant going forward. I don't think the proposed cuts are completely off the table for the long term," he said.

At the same time, Bradley appreciated the MBTA's willingness to listen. "This enabled those who aired their concerns to have more of an impact than in the past," he said.

MBTA Spokesperson Joe Pesaturo explained how the process worked. "Shortly after the draft 2008 Service Plan was released, Transportation Secretary Bernard Cohen convened a meeting of all parties (public and private) involved in the delivery of water transportation services to discuss an overall coordinated water transportation strategy for the Commonwealth," he said. "As a result, the MBTA decided it was best to defer any immediate changes to its own services while the Executive Office of Transportation leads the efforts to advance a comprehensive approach that will take into account all water transportation activities and develop a suitable plan for meeting the demands and needs of the public."

Hingham resident Thomas Maloney is among those cheering the MBTA's most recent decision. "I am very happy the T has dropped its plans to cut some of the commuter boat service. I was amazed it was even considered in these times," he said. "With the current high gas prices, everyone trying to be 'more green' by commuting by public transportation, and the fact that the Hingham Shipyard development [which is adjacent to the commuter boat terminal] is just coming on line, to consider cutting service is insane."

Maloney suggested that the Shipyard developers and the T "could benefit by marketing to people in the city who might want to take the boat to Hingham, enjoy a movie and the restaurants that will be opening at the Shipyard soon, and return later in the evening. I hope they both take advantage of this new, untapped resource," he said.

"It's a well-utilized boat, and some of the holiday service cuts that were proposed are full work days for some folks."
— State Rep. Garrett Bradley, D-Hingham

The MBTA's initial "Preliminary 2008 Service Plan" included proposals to eliminate the last round trip and to reduce or eliminate service on certain holidays on the Hingham/Boston commuter boat.

For Hingham this would have meant eliminating the 7:40 p.m. trip from Hingham Shipyard and the 8:30 p.m. trip from Rowe's Wharf. There was also talk about eliminating commuter boat service on Martin Luther King Day and Presidents Day. A reduced holiday schedule was proposed for Patriot's Day, Columbus Day, Veterans Day, and the day after Thanksgiving.

Several schedule changes were also proposed for the Quincy/Hull/Boston/Logan Airport commuter boat, including reducing the number of trips operating during off-peak periods on weekdays and weekends and to eliminate the second stop at Logan Airport on weekends.

OPINION

EDITORIAL

Random acts of kindness

Have you been walking around the past two weeks wondering why people are still going about their business as usual?

Have you been wondering why Planet Earth is still on its axis? Why the sun is still rising in the a.m. and setting in the p.m.?

After the current economic meltdown started and the fact that our economy shows little signs of recovery in the short term and maybe the long term, many of us are fearful about the future. At times, with the 24-hour-news-cycle, that fear can almost be paralyzing.

But could there be an upside – other than a bull stock market returning?

Is there a message in all this? Maybe, maybe not. But at the very least, perhaps we can all try to stay positive and try to offer a random act of kindness every day.

One thing we have noticed and we cannot say with certainty that it is a trend – but some people are feeling less rushed and could be taking the time "to smell the roses," to coin a phrase.

It could be just us – but we have noticed friendlier and "neighborlier" shoppers in the supermarket, for example. We've witnessed folks with a cart full of items allow someone with just a few to cut in line. No one else objected!

This week, a motorist let us pull out in front of them on a busy street. Earlier in the week that also happened on Route 139 in Marshfield where one can sit for a good 10 minutes waiting for a lull in the traffic.

We also saw a little boy who had just come home from school. He was heading back out apparently to meet some of his friends and was skipping down the sidewalk. His skipping was so full of joy – that if skipping were an Olympic sport, he would be a candidate for the gold medal. Skipping is nothing new and occurs in good times and bad, but we *noticed* it. When we are in our usual rush-back-to-work mode, the only thing we usually notice is the time and the fact we are running late!

On a personal note, we have unearthed a cookbook from a woman's club in Wisconsin that dates back to the mid-70s. It is full of casseroles. While it is possible to find casseroles in a more modern cookbook, this cookbook has a plethora of one-dish meals. We have found ways to substitute some of the "full fat" ingredients with light or non-fat substitutes. We have found the old-fashioned recipes to be money savers and the left-overs are great for lunch.

Is there a message in all this? Maybe, maybe not. But at the very least, perhaps we can all try to stay positive and try to offer a random act of kindness every day.

The other alternative, as a friend reminded us this week: Stop watching television!

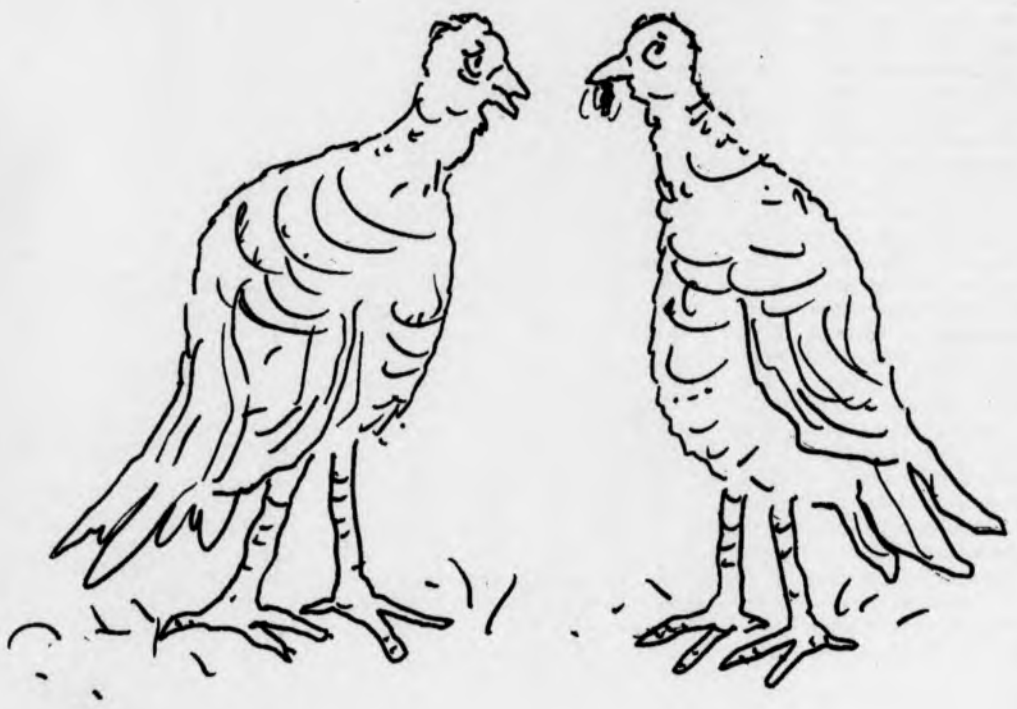
MEETINGS

The following meetings are posted at Town Hall:

Advisory Committee, Oct. 14 & 22, at 7 p.m.
Alternative Energy Committee, 7:30 p.m., Oct. 21 & Nov. 18.
Board of Health, Oct. 22 7 p.m.
Conservation Commission, Oct. 16, 7 p.m.
Capital Budget Committee, 7:30 p.m., Oct. 21.
Library Trustees, Oct. 14, 7 p.m. at the library.
Planning Board, Oct. 27 at 6:30 p.m.
Recreation Commission, 6:30 p.m., Nov. 5.
Selectmen, 7 p.m., Oct. 14, Oct. 20, & Oct. 27
Sewer Commission, Oct. 28, 6 p.m.
School Committee, 6:30 p.m. (will convene in open session and then go into executive session); 7 p.m. open session, Oct. 15 at the high school.
School Improvement , 2:30 p.m., Nov. 5 at the high school.
ZBA, Nov. 5 & Dec. 3 at 7:30 p.m.

All meetings take place at Town Hall unless otherwise noted. Call the Town Clerk's office at 781-383-4100 for updates and additions.

Sports writers wanted



The Cohasset Mariner is looking for students, parents and grandparents who might like to cover youth or high school sports as a community service.

The Cohasset Mariner believes that coverage of high school and youth sports is important and a great way to provide young athletes with some recognition.

Please contact editor Mary Ford at: mford@cnc.com

All ages of sports writers are welcome. Access to a computer and email is a must.

Proposed turf field is before the Capital Budget Committee

What the heck is so good about artificial turf if it doesn't have any grubs?

HAMILTON

Inaction exacerbates state budget troubles

THE HEDLUND REPORT

SEN. ROBERT HEDLUND

While it's nice to send back millions in earmarks for pet projects, all we have really done is blown through billion-dollar surpluses during the boom years that we should have saved to ensure we would never have to cut local aid during the lean years.

"Those who cannot learn from history are doomed to repeat it."
— George Satayana

We've seen elements of this situation before.

Years of fiscal irresponsibility coupled with the ballooning cost of entitlement programs. A grim national economy brought on by housing speculation and bank failures. The state's Democratic leadership fiddling while actual budget deficits grow by the month. Budgets that contain tens of millions worth of legislative earmarks despite known budget problems. Increased short-term borrowing just to pay bills and make local aid payments.

Is it 2008? Or 1988?

We know how the state budget crisis that began in 1988 ended more than two years later: $1.5 billion in debt, a credit rating near junk-bond status, and hundreds of millions of dollars in new taxes.

The question now, of course, is where will the state's current budget troubles lead us?

We were about $1 billion in the red the second as soon as the budget was signed in July, according to the Massachusetts Taxpayers Foundation and other fiscal watchdog groups. And we were told this past week that revenue collections are down by more than $250 million and that number could quickly rise depending on how fast our stumbling economy eats away at sales tax and capital gains tax revenues.

All told, we easily could be looking at a $1.5 billion budget deficit this year.

The main lesson we learned back in 1988-1990 was that delaying action and staying the course just makes a budgetary problem worse.

For example, back in 1989, despite plummeting revenue estimates, the lame-duck Dukakis Administration refused to make any real cuts or layoffs, and insisted everything was going to be fine. They increased spending by 10 percent, exceeded personnel budgets, and raised fees by more than $200 million. The following summer, we were treated to the spectacle of Michael Dukakis being held hostage in the State House by his lieutenant governor who threatened to enact a series of spending cuts once he left the country on a trade junket.

Fiscal year '89 ended with the state $1.5 billion in the red. The infighting on Beacon Hill over how to fix the problem led a vice-president with Standard & Poor at the time to say at the time: "In my 12 years in the business, this is the worst fiscal management I've ever seen."

Rather than enacting reforms, the Legislature eventually voted to "temporarily" raise the income tax first to 5.95 percent and then 6.25 percent. And as we know now, that temporary tax hike is still with us.

On the bright side, the resulting anger amongst voters helped bring change to the state in 1990 by voting out several sitting legislators.

There are some differences this time around. For example, Treasurer Timothy Cahill has been a model of fiscal responsibility by publicly calling for immediate action. "The issue is clear," he was quoted as saying recently. "You either cut now or you cut later. But I don't see any way around cutting. I keep saying that, I've been saying it for six months."

But mainly, the Patrick Administration has been somewhat forthright about the state's fiscal situation, more so than the Dukakis Administration ever was. The budget cuts he announced last week at least demonstrate recognition of the problems we are facing. Time will tell, however, if he is sincere in his interest to abolish the Turnpike Authority and reform the state pension system, or if that is just a politically motivated gesture intended to save the state's income tax.

I remain concerned, however, by the lack of action from House and Senate leadership. They are particularly responsible for irresponsibly bloated state budget that they allowed to be stuffed with pork and new spending, even over the objections of Gov. Patrick. And their response so far has consisted of cutting the Legislature's $59 million budget by 10 percent, and continuing their wait-and-see attitude.

It was a wait-and-see attitude that got us into such a big mess in 1989, and it would be foolhardy to simply cross our fingers and hope things work out in 2009.

It's easy to be a legislator when times are good and we can pass $750 million spending bills that allow us to build gazebos and fund corporate sailing races. But we really earn our money as elected officials when times are bad.

I have been telling my town officials for at least three years now that Beacon Hill has been playing a cruel game with them. While it's nice to send back millions in earmarks for pet projects, all we have really done is blown through billion-dollar surpluses during the boom years that we should have saved to ensure we would never have to cut local aid during the lean years.

We have seen how political inaction can destroy a state's economy for years. It's a lesson we as your state leaders need to learn from, otherwise we'll just be repeating history.

State Senator Robert "Bob" Hedlund represents the eight-town Plymouth-Norfolk District that includes Cohasset, Hingham, Scituate, Marshfield, Duxbury, Hull, Norwell and Weymouth.

Parking, paving and a little excitement

MAKING TRACKS

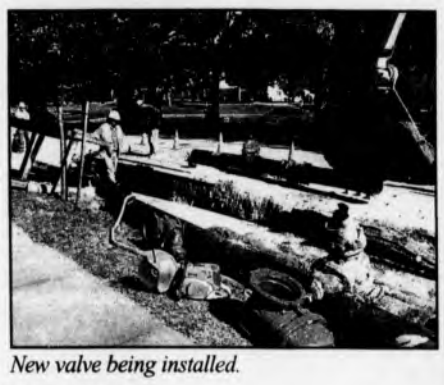
TOM GRUBER & MARK BRENNAN

Little Harbor Water & Sewer Project – Last week, the Farmer's Market was at the Music Circus for the second week due to the Water/Sewer work on the Common. The Music Circus parking situation was much improved from the prior week. Cars kept the in and out drive area clear and parking was very orderly. Remember, the Farmer's Market will be at the Music Circus for the remainder of the season.

Beach Street Culvert – Last week we mentioned that Beach Street would be closed this week so that the Water/Sewer Project could replace the large culvert under the road not far from Atlantic Avenue. This past Monday, LMH started their construction with a vengeance. The head and tail walls (These are the walls on either side of the culvert pipe that support the roadway.) are amazing to see before they are dropped into place. Each wall weighs in at about 15,000 pounds. This particular design is called an "L" wall. If you look carefully, you can see two feet at the bottom of the wall, with one foot appreciably longer than the other. When this type of wall is placed at the side of the culvert the longer foot will be under the road. The full weight of the roadway sits on the wide foot, holding the whole wall in place. You can also notice in the photo, that the exposed surface of the wall has been textured to simulate a stonewall. To give you an idea of how large this wall is the oval hole in the center will hold two 36-inch diameter pipes. These two pipes will be the actual culvert which will carry the water under Beach Street.

In order to excavate the present old culvert, the water from Little Harbor must be kept out of the work area. To do this a cofferdam has been erected to hold back the tidal water so is does not enter the work area. The accompanying photo shows the cofferdam in place. If you have an eagle eye, you will notice a small hose that goes from behind the cofferdam to Little Harbor. Actually, there is a pump that carries any water that leaks past the cofferdam back to Little Harbor where it came from.

COURTESY PHOTOS



One of two "L" walls.

The cofferdam in place.

Paving – Whitehead and Caravel Cove Roads are on tap to be paved Thursday of this week. By the time you read this you will know whether we were successful at getting the paver here along with suitable weather. If the gods are favorable, Bow Street and Little Harbor Road should be ready for and paved next week.

A little excitement this week – Last Monday evening there was quite a bit of excitement in front of the Community Center on N. Main Street. A very large water main valve decided that it just couldn't stand the pressure of every day life so it gave up the ghost, flooding the village and down Ripley Road as far as the Post Office. The scenario of events that led to this failure is quite interesting. The valve was quite old (1880's we are told) and it was shut so that there was no pressure in the water main along N. Main Street. But, at the same time the other side of the valve was at full line pressure, since it was connected to the main line in the village. Also, since the pressure in the system comes mainly from the water tanks high on our surrounding hills, the fact that the tanks were full means the pressure was at its maximum. And poof, the old valve just let go. We just happened to drive by the Community Center just after the valve had failed and water was about 4 inches high in the street. There was a lot of late night work to get this water flow shut off.

New valve being installed.

The accompanying photo shows the new valve and a short section of pipe being installed in front of the Community Center.

Remember when

HENSHAW

TOM HENSHAW

I was doing what I do best the other day, staring stupidly at a political analyst on the boob tube, when a thought occurred to me. I used to get more excited watching a test pattern.

A test pattern, for those who were born after ice no longer covered the earth, was a series of lines, boxes and circles that used to cover your 10-inch TV screen so you could stay tuned while the networks thought of something else to put on the screen.

Like the hula hoop, saddle shoes and the 15-cent hamburger with a 10-cent soft drink at McDonald's...

Like the hula hoop, saddle shoes and the 15-cent hamburger with a 10-cent soft drink at McDonald's, it's the kind of recollection that leads you to ask: "Hey, whatever happened to that?" There are a lot of them when you reach the age of four score and three.

Like carbon paper, for instance. That was a sheet of treated black paper you put between two sheets of white paper to make two copies of the same thing. Now you belt it out on a computer keyboard, punch a button and you're buried in copies.

We used manual typewriters in those days, then electric typewriters, then computers. I can recall an intern in our office, a girl brought up on modern conveniences, staring helplessly at a manual typewriter and asking "How do you turn it on?"

Or like the favorite extracurricular activities of college boys, like jamming bodies into telephone booths (the record, I believe, was 19), or swallowing goldfish or panty raids on the girls' dorm, in which coeds at some schools joined enthusiastically.

I wonder if any veteran of World War II still has the little lapel pin he was given along with his discharge, the one we called "the ruptured duck," although I can't for the life of me remember why.

Remember when Lucky Strike cigarettes came in red and green packages until one day after Pearl Harbor when the pack suddenly became red and white and the company announced proudly that "Lucky Strike Green has gone to war!"

I often wonder if it ever came back and what it had to do with the war effort to begin with.

Remember when Nov. 11 was Armistice Day, celebrating the end of the "war to end all wars," until the powers that be recognized the irony of that phase and changed it to Veterans Day to include those who fought in future wars.

Remember when you tuned in to the Bob Hope Show on radio and heard the jingle, "You wonder where the yellow went, when you brush your teeth with Pepsodent." And Santa told Bob to "Put a little something in the pot, boy."

Does anyone still use the Denver boot, the clamp that used to be put on the wheels of illegal parkers to make sure they didn't get away; and do women still wear silk stockings now that nylon seems to have taken over the chore of shaping their gams.

And does anyone besides me ever use the term "gams" anymore.

HEALTH NOTES

Facts about melamine found in formula

By Steve Bobo
SPECIAL TO THE MARINER

Melamine use in direct addition to human or animal food in the U.S. is not permitted, nor is it permitted to be used as a fertilizer in the U.S., as it is in some parts of the world.

On Sept. 11, the Food and Drug Administration,(FDA) learned that melamine may be contained in an infant formula manufactured by a firm in China. As of Sept. 21, the FDA learned that a total of 52,857 cases of nephrolithiasis (kidney stones) and, in some instances, renal failure had been reported in China linked to consumption of this contaminated powdered formula. There have been approximately 13,000 hospitalizations, and at least 3 deaths have been confirmed to date. The vast majority of illnesses involved children under the age of 3 years (82 percent < 2 years; 17 percent 2-3 years; 0.8 percent > 3 years; and no cases involved adults). The results of an investigation conducted in China indicated that Chinese-produced powdered infant formula was linked to these illnesses; no cases were associated with liquid infant formula. An investigation of powdered formulas was conducted nationally by China's General Administration of Quality Supervision, Inspection and Quarantine (AQSIQ) and revealed contamination of powdered formulas produced by 22 companies. Test results conducted in China on samples of the powdered infant formula showed that they contained a wide range of concentrations (0.1 ppm. to greater than 2,500 ppm. melamine).

In addition, other countries have reported detection of melamine in other product categories, such as confections and beverages.

The FDA points out that available analytical methods can reliably detect a level of 1 ppm. melamine in some food matrices. *A food matrix is a group of concentrated nutrients, extracted from a selected food, which have been bound together so that the body can use them for nourishment.*

Illnesses were reported in more than 10 different regions of China. A press release from the Ganzu Health Bureau on Sept. 11, stated that during the first half of 2008, one hospital in Ganzu treated 16 infants who had kidney stones. The 16 infants varied in age from 5 months to 11 months; some of the cases reportedly developed renal insufficiency. In a record review conducted for the period 2006 to the present, hospitals in Ganzu identified a total of 59 cases of kidney stones in infants, including 1 infant who died. Most of the cases were from rural areas. All of the cases occurred in 2008; none were identified in 2006 and 2007. Unfortunately, it is difficult to pinpoint the specific causes of ailments like kidney stones, however, they are detectable by several methods. Symptoms are related to blockage of the urinary tract and their makeup gives a clue to their origin.

Medical authorities in China indicated that some cases of kidney stones were visualized by ultrasound and CT scan, but not by routine x-ray, indicating that other cases may not have been diagnosed.

Melamine, in its chainlike "polymerized" form, has been used for decades in manufacturing of dishes, plastic resins, etc. generally resulting in negligible contamination. Melamine use in direct addition to human or animal food in the U.S. is not permitted, nor is it permitted to be used as a fertilizer in the U.S., as it is in some parts of the world.

On Oct. 1, a Chinese news outlet, Xinhuanet, cited a Beijing Times report about several kinds of Cadbury-brand candies having been pulled from shops in China and elsewhere. These reports coupled with other news releases about contaminated Chinese confections in Connecticut and Utah lead one to wonder how much Chinese candy has been imported for consumption in the US and for how long.

Massachusetts is continuing surveillance and investigation into all milk-based products from China containing ingredients such as nonfat milk powder, whey powder, lactose powder, whole milk powder and casein. If you are aware of retailers or individuals in possession of such products, you are requested to contact the Board of Health.

Unfortunately, it is difficult to identify the specific causes of ailments like kidney stones, and even more difficult to relate the incidence of the ailment in any specific location to diet in that location. Similarly cancer clusters are difficult to ascribe to conditions within a localized area because the accuracy of statistical probability determination generally depends on the accumulation of far more data than is usually available. And so, in the case of Chinese chocolate and kidney stones, there may never be sufficient information to reveal the proverbial smoking gun. As usual, the only advice in this case is be careful what you eat.

Steve Bobo is a long-time member of the Cohasset Board of Health.

LIBRARY CORNER

Drop-in story time on Tuesdays

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road. For more information, call 781-383-1348.

FOR CHILDREN

Letters About Literature 2009 – Letters about Literature is a national reading and writing program that asks students in grades four through 12 to write letters to authors whose books have made a difference in their lives. LAL is looking for personal and reflective writing about the importance of written work in the lives of young readers. Massachusetts winners, their families, friends, teachers and librarians are invited to an awards ceremony at the State House in the spring. The state program is sponsored by the Massachusetts Center for the Book & the Calderwood Writing Initiative at the Boston Athenaeum. The national program is sponsored by the Library of Congress and Target Stores. Visit the Web site at massbook.org for more information and guidelines, or pick up the guidelines in the Children's Room or Young Adult Room of the library.

Story & Craft – Online registration has begun for Story & Craft, which will take place Thursday, Oct. 16 and 23, at either 10:30 to 11:30 a.m. or 1 to 2 p.m., in the Story Room. Story & Craft is for Cohasset residents ages 3 and older and is a four-week commitment. To register, go to the Web site at cohassetlibrary.org and click on calendar. Choose either the morning session or the afternoon session and fill out the registration form. Include child's name and age in the name field.

MamaSteph – Performances at 10:30 a.m., on Mondays, Oct. 20 and 27, in the Meeting Room. Join others for children's music and more. Doors close promptly at 10:35 a.m. Funded by Friends of the Cohasset Library. All ages and communities are welcome.

Drop In Story Time – In the Story Room at 10:30 a.m., on Tuesdays, Oct. 14, 21 and 28. All ages and communities welcome.

Coloring/Decorating Contest – Create a unique owl by decorating the template found on Mrs. Moody's desk. You can use markers, glitter, beads, pipe cleaners, tissue paper, and things found in nature to create an owl that reflects your personality. Contest ends on Friday, Oct. 24, at 4 p.m. Winners in all age groups. Winners will be called.

FOR ADULTS

Genealogy Workshop – Genealogist Michael Brophy will present "Beginning Genealogy and Family History – Part 2" at 7 p.m. Thursday, Oct. 23. Topics to be covered are U.S. military history records, city directories, church records, town reports, tax records and more. Anyone interested in tracing their family roots are welcome. Free. Sponsored by the Friends of the Library.

Independent Film Night – The library will show the independent film "Choking Man" at 6 p.m. Thursday, Oct. 16. Free admission and free refreshments provided by the Friends of the Library.

Author Visit – Catherine Goldhammer, author of "Still Life with Chickens," will discuss her new book "Winging It: Dispatches from an (almost) Empty Nest" on Sunday, Oct. 26, at 3 p.m. in the Meeting Room. All are welcome. Free. Ms. Goldhammer's books will be available for purchase.

Library Book Group – Join us for coffee and discussion of Junot Diaz's Pulitzer Prize winning book "The Brief Wondrous Life of Oscar Wao" at 10 a.m. Oct. 29, in the Meeting Room. All are welcome. Free.

Party politics on Our Town

"Our Town" co-hosts Pat Martin and Mark DeGiacomo sit down with Kevin O'Donnell, chairman of the Cohasset Republican Town Committee, and Kevin MacCarthy, chairman of the Cohasset Democratic Town Committee, to debate from each party's perspective the issues, platforms and candidates in the presidential election.

Our Town airs on local Comcast Channel 10 on Monday, Tuesday and Thursday evenings starting at 9pm.

Stay tuned and stay informed.

Concession stand supports the troops

By Brian P. Nanos
BNANOS@CNC.COM

"It's nothing compared to what these men and women do for us."
Colleen Kelly

Years ago, Colleen Kelley worked one shift at a New England Troop Supporters-run concession stand at Gillette Stadium. The group collects money to send care packages to servicemen and women who are either overseas or have recently returned home.

She was hooked, and what started as a one-day affair became something of a third job. Kelley is now the vice president of the organization, along with working at Rockland Trust and attending nursing school. Kelley is now looking for more volunteers to help her staff the concession stand during New England Patriots home games and other Gillette Stadium events.

She said her original motivation for working at the stand was simple.

"He did it," she said.

"He" is Kelley's brother, Sgt. Michael Kelley of Scituate, who had volunteered for the organization before going overseas himself. On June 8, 2005, Michael was brought down by enemy fire at his base in Afghanistan. A member of the National Guard's 101st Field Artillery Battalion, he was the first combat-related fatality in Afghanistan for the Massachusetts National Guard and also the first Scituate soldier to die in the War on Terror.

"I wanted to do something in honor of my brother," Colleen said of her first shift at the stand.

Each of the concession stands at Gillette Stadium is run by a nonprofit group, and Kelley said the stadium owners allow the charities to take up to 14 percent of the money they raise in a weekend, depending on how well they clean up and how much food they serve. The groups also get to keep their own tips.

The take-home can be large. During May's NCAA men's lacrosse final four, the group earned $4,400 in one weekend. With football under way, Kelley anticipates many more busy weekends.

"I always need volunteers and I am always open to them," she said.

According to Kelley, she has had trouble finding the 14 volunteers needed to operate the stand each weekend. If the group has less than 14 people show up, it has to choose between operating short-handed or taking workers from another group, in which case New England Troop Supporters would have to split its tips.

The work is hard, Kelley said, especially during the ends of each quarter. When there's time, she said she tries to give each volunteer a break to watch five minutes of the game. But even when they don't get a break, she said the work is a rewarding way to serve the troops.

"It's nothing compared to what these men and women do for us," she said.

Anyone interested in volunteering for New England Troop Supporters should call Colleen Kelley at 617-347-6439 or send e-mail to netroops@yahoo.com.

Be aware of the Asian Longhorned Beetle

By Barbara Canney
SPECIAL TO THE MARINER

Look up! Look down! Look all around! Be aware – the Asian Longhorned Beetle is threatening our hardwood trees including maples, birch, horse chestnut, poplar, willow, elm and ash. This beetle has the potential to cause more damage than Dutch Elm disease, chestnut blight and the gypsy moth combined.

The Asian Longhorned Beetle, which probably entered the U.S. in solid wood crates used for importing goods from China, was first sighted in 1996 by a man in Brooklyn, N.Y. Earlier this month, September 2008, a sighting was reported and confirmed by the USDA in Worcester, where 33 square miles have been quarantined. Inspection crews will perform surveys in suspected host trees by groundwork, specially trained tree climbers and bucket trucks. They will have to cut and burn infected trees.

The Asian Longhorned Beetle has a distinct appearance – big, shiny, and black with white spots all over. It has black and white banded antennae shaped like the horns of longhorn cattle. A mature beetle measures 1 to 1 1/2 inches long, perhaps the length of your thumb joint to the tip of your nail.

One female will chew a depression in the tree bark and lay 35 to 90 eggs. In 10 to 15 days, white, grub-like creatures hatch and become caterpillars (larvae) that crawl deep beneath the bark where they feed and develop during the winter. When summer arrives, the adult beetles emerge from within the tree bark by boring a round exit hole in the tree. They will feed off the twig bark and leaves for several days. The adult beetle will be active all summer until frost. In the fall, they perish. This breeding process interferes with the tissues that carry water and nutrients from tree roots to the trees leafy canopy. Once the beetle has sufficiently disrupted the tree's survival paths, the limb or the entire tree will die. At home, we can unknowingly move the pest in firewood and fallen timber. It is important as homeowners and a community that we keep a vigilant eye out for signs of this treacherous creature.

COURTESY ILLUSTRATION

Asian Longhorned Beetle.

Signs to look for: Yellow or drooping leaves in tree canopy in dry weather; coarse sawdust in branch crotches or at base; sap flows may appear; round exit hole in trunk; oval pit where female chewed to lay eggs.

Call the USDA at 866-702-9938 if you suspect the presence of the ALB in your area. Information is available online at aphis.usda.gov.

Been wondering about the tree trunks wrapped in cloth along Route 228 in Hingham? They are to protect the trees during road construction presently going on.

Editor's note: the article was reprinted, with permission from the Community Garden Club of Cohasset, from the October newsletter.

Books in Bloom coming to library

The Community Garden Club of Cohasset will transform the Paul Pratt Library with a show called "Books In Bloom" on Oct. 15, 16 and 17. Club members will interpret a book title of their choosing through fresh flower and plant material. This is not a standard flower show where all arrangements need to adhere to strict rules. The show is meant to be interpretive, creative and fun.

The junior gardeners in grades three four and five spent their last meeting preparing for this show. Arrangements can be viewed at Paul Pratt Library, 35 Ripley Road, Cohasset from 10 a.m. to 5 p.m. Admission is free and open to the public.

Register to vote for state election deadline Oct. 15

The last day to register to vote for the state election on Nov. 4 will be Wednesday, Oct. 15. Registration will take place at the Town Clerk's office from 8:30 a.m. to 8 p.m.

Any citizen of the United States who is a Massachusetts resident and who will be 18 years old on or before a town meeting or Election Day may register to vote. There is no waiting period to be eligible to register to vote. If people move, they may register to vote as soon as they move into a new home.

Registration is closed for a brief period before each town meeting and election to allow election officials time to prepare the voting lists. Those who register during a "closed" period, will be eligible to vote only in later town meetings or elections.

Beacon Hill Roll Call

By Bob Katzen
bob@beaconhillrollcall.com
October 2, 2008

QUESTIONS

If you have any questions about this week's report, e-mail us at beaconhill@aol.com or call us at (617)720-1562.

Copyright © 2008 Beacon Hill Roll Call. All Rights Reserved.

By Bob Katzen

THE HOUSE AND SENATE. Beacon Hill Roll Call records local representatives and senators' votes on two roll calls from prior legislative sessions. There were no roll call votes in the House or Senate last week.

BORROW $3 BILLION FOR "GENERAL GOVERNMENT" EXPENSES (H 5055)

158-0, Senate 38-0, approved and Gov. Patrick, after vetoing some spending, signed into law a bill allowing the state to borrow $3 billion for a variety of government projects including $250 million for "costs associated with the purchase and procurement of equipment for general government operations." The package is full of hundreds of state and local projects but the Patrick administration is required to adhere to the state's annual bond borrowing cap and ultimately decides which projects are affordable and actually get funded. Other provisions include $90 million for the state police including funds for cruisers and helicopters; $452 million to improve the state's information technology systems; $137 million for public library projects; $35 million for projects at three zoos and millions of dollars for local projects in cities and towns across the state. The package also includes a controversial plan to rescue the Mass Turnpike Authority (MTA) by allowing it to lower its interest costs through refinancing $800 million in debt using the state's higher credit rating. Supporters of the $3 billion package said that it is a fiscally responsible one that will fund many worthwhile projects. They defended the turnpike plan and argued that without this refinancing of debt, tolls would be raised to help the MTA pay its debts at a higher interest rate. They also noted that the rescue plan includes provisions that would hold the MTA more accountable in the future. Although no one voted against the package, critics say that the MTA plan is nothing more than a bailout of this fiscally irresponsible agency and does little or nothing to make it more accountable in the future. (A "Yes" vote is for the bill).

ROSE KENNEDY GREENWAY (H 5013)

House 136-21, Senate 33-5, approved and Gov. Patrick signed into law the bill authorizing the nonprofit Rose Fitzgerald Kennedy Greenway Conservancy to lease for 20 years and take control of the Rose Fitzgerald Kennedy Greenway away from the Massachusetts Turnpike Authority (MTA) which currently controls it. The greenway is a series of outdoor parks located in the path of the old elevated Central Artery. The state would immediately provide the conservancy, funded mainly by private donations, with $2 million and the MTA would hand over $5 million to the conservancy. In future years, the conservancy would be eligible to receive up to $5.5 million annually from the state, depending on the conservancy's budget for that year. Supporters said that this would allow the nonprofit conservancy, rather than the troubled MTA to operate, manage, improve and maintain the greenway. They said that this jewel is on track to become one of America's premier urban parks. Opponents said that the state should not be giving millions of dollars, with few strings attached, to this private group run by corporate executives and lobbyists who will operate the greenway to benefit their clients - the local businesses in the greenway corridor. They noted that there are hundreds of parks across the state and that none receive anywhere near this amount of funding. (A "Yes" vote is for the bill giving the Rose Fitzgerald Kennedy Greenway Conservancy the authority to operate the greenway and providing it with millions of dollars. A "No" vote is against the bill).

ALSO UP ON BEACON HILL

MAKE SALVIA ILLEGAL (H 4434) - The House gave initial approval to a proposal classifying Salvia Divinorum as a class C substance and making its use illegal in Massachusetts. Salvia Divinorum, found primarily in Mexico, is also known as Salvia, Diviner's Sage and Sage of the Seers. Supporters of the ban said that Salvia, already illegal in eight states, is a dangerous mind-altering drug that produces debilitating hallucinations and long-term perception disorders. They noted that it is being glamorized on YouTube and that its use by teenagers is rising. Opponents of the ban said that Salvia is not a hallucinogen and is legal in all countries except Australia. The Salvia Divinorum Research and Information Center's website says that Salvia is an herb used in divination, healing, meditation and the exploration of consciousness. The website also notes that it should always be used in a "thoughtful, intelligent manner, and only by responsible adults that are of sound mind and clear intent."

ANIMAL CRUELTY (H 1527) - The House adopted a new version of a bill increasing the penalty for being present at an animal fight from a fine of up to $250 and/or 30 days in jail to a fine of up to $1,000 and/or five years in jail. The new version eliminates a section from the original bill that made it a new crime to possess or distribute videos or audio recordings that depict the torture of or cruelty to animals. Gov. Patrick had urged the Legislature to eliminate the section because it is unconstitutional and would have prohibited free speech. He cited the case in which a court struck down on free speech grounds a federal law prohibiting the sale of animal cruelty videos. The governor also noted that the creation of the new crime "could result in the prosecution of members of an animal rights group that hosts on its website depictions of animal cruelty for consciousness-raising or protected artistic speech in a movie depicting a bull-fight."

PUBLIC CHARITIES (H 274) - The House and Senate approved and sent to Gov. Patrick legislation changing the current law that requires charities that receive more than $100,000 in gross support and revenue annually to file an audited financial statement along with their regular annual report. The proposal would require the report only from charities that receive more than $200,000. Supporters said that audited financial statements are costly for small nonprofits to prepare.

Village design guidelines on hold

Waiting for Design Review Board

By Nancy White
NWHITE@CNC.COM

After the meeting it was determined the Design Review Board was never officially populated and has not yet been able to meet as a group to discuss the guidelines.

The Planning Board put off approving the village business district design guidelines for a little bit longer. Citing a desire to consult and get feedback from the not quite official Design Review Board, the Planning Board will wait a few more weeks to approve.

"We didn't do anything with them," said Planning Board Chairman Al Moore in a phone interview. "We don't have any special permits in the pipeline so we have some time."

While the spirit of the guidelines may apply to all village projects before the planning board, the design guidelines would only be enforceable with applicants seeking special permits. A special permit is needed when a property is requesting a change of use. For example, a special permit would be needed for an application seeking to change a strictly commercial building to a mixed-use retail/residential building.

With the lack of urgency, Moore said the board would like to have the expertise and keen eye of the Design Review Board take a thorough look at the guidelines before final approval.

"We want to have as many people look at it and comment on it as possible," said Moore.

During a September meeting, the Planning Board requested the "unofficial" Design Review Board, which includes former Planning Board member Bill Good, to look over village design guidelines.

They even gave the design review board specific items to focus on. After the meeting it was determined the Design Review Board was never officially populated and has not yet been able to meet as a group to discuss the guidelines.

At last fall's Special Town Meeting, voters overwhelmingly supported the revival of the Design Review Board, which was set for the chopping block. Nearly a year later, the board is still does not have members. A Troika appointed board, the Design Review Board in the past has worked cooperatively with the Planning Board to put forth desirable projects for the town. The Troika is made up of the chairman of the Board of Selectmen, the Chairman of the Advisory Committee and the Town Moderator.

The town received five interested citizens willing to do the job in the late spring, but the Troika has yet to meet to appoint the members. As the Mariner went to press Thursday morning, no Troika meeting was scheduled.

The design guidelines, simply stated, is a set of regulations to go with the village zoning bylaws to aid both the Planning Board and the applicants during the permitting process. It includes a set of guiding principles as well as specific areas for application assessments — everything from rooflines to materials to signage to landscaping. By setting clear expectations for development, the Planning Board aims to have a smoother review process.

With the professional consulting help from Angus Jennings of Concord Square Planning and Development, the Planning Board has a 21-page draft of the guidelines, which include text and graphic components. Over the past two months, there have been three nights of public hearings on the design guidelines.

Moore is hopeful to have the village design guidelines approved and in the books within the next couple of months.

Ambulance, library computers top list of capital budget requests

FROM REQUESTS, PAGE 1

The Capital Budget Committee will be prioritizing the capital item requests and meet with more town departments over the next few weeks.

member Alfred Slanetz. A brief discussion was held on whether the computers because of their high use and therefore shortened useful life were really a capital purchase.

"Anything expendable that quickly does not fit the town's definition of capital," said Gaumer.

School officials said they would return to the committee for their meeting on Tuesday, Oct. 21with more information.

Library

The library had several capital purchase requests, a few had been before the board for consideration previously and others were brand new.

The library ranked them in order of importance placing the replacement of 20 public computers at the top of the list. The library requested the replacement of the computers during the last Town Meeting cycle, but the need for staff computers was more immediate and $15,000 was allocated to that purchase.

"The cost of the computers has gone down," said Library Trustee Stacey Weaver, who had a firm estimate of $19,500 for 20 computers.

Also on the list was replacement of the library's carpeting, which was peeling away from the floor and, if not addressed soon could cause a serious fall. New gutters and downspouts for the outside of the Paul Pratt Memorial Library were on the list.

"Like the school budget, I'm not sure some of these are capital budget items," said Peter Decaprio, Capital Budget Committee member.

It was the computers that topped the discussion. Library director Jackie Rafferty spoke passionately about the need for the computers, which are used constantly by library patrons.

"People recognize and understand that technology is integral to the library," said Rafferty. "It is a busy hub of constructive activity."

The computers, which are five to six years old, are almost constantly in a state of repair. Parts from compatible older computers were being used to repair the current computers, "we certainly got our money's worth…we're not that far away from out of order signs on those computers."

Yet, some members of the capital budget committee felt the carpet replacement should be the first priority because if someone ever got hurt him by tripping on the rug, it would open up the town to a lawsuit.

The Capital Budget Committee requested the library representatives to seek out a few quotes for both the downspout/gutter work and the carpet replacement.

Fire Department

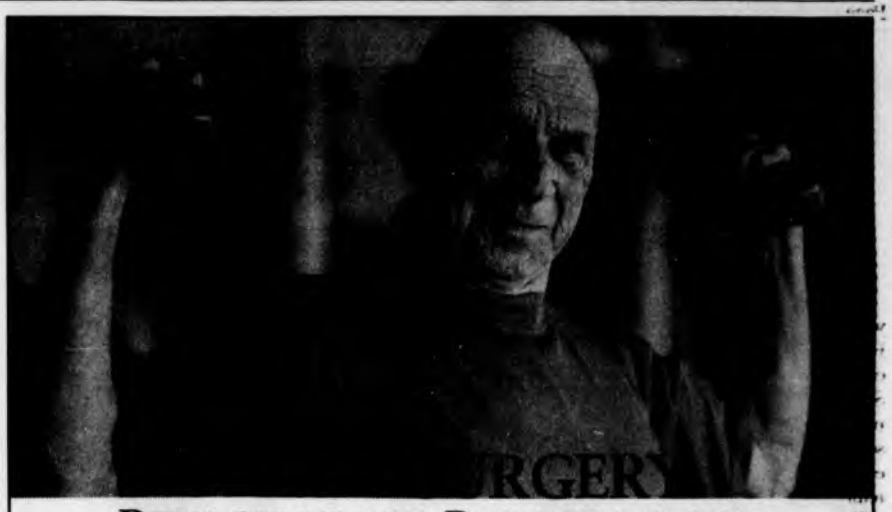
For the third Town Meeting cycle in a row, Fire Chief Bob Silvia came before the Capital Budget Committee to request a new ambulance. Although money was allocated a year ago to repair the 2001 ambulance to extend its life ($25,000), the ambulance was recently placed on the state's Office of Emergency Medicine Service on a "watch list" meaning the vehicle has issues with its age, mileage and general health of the vehicle.

Silvia proposed a five-year lease-to-purchase plan that would allow the town to pay approximately $36,500 each year for five years and then the town would own the ambulance. The other option is to pay for the ambulance 100 percent up front, which is what the town has done in the past.

Fire Captain Mark Trask spoke on behalf of the fire department union on their frustration with the ambulance and its safety.

"This ambulance has been stretched as far as any I've ever seen (during my 30 years with Cohasset Fire)," said Trask. "It's a shame year after year we're wondering where the money is going to come from, (the town) knows every five or six years they are going to have to purchase an ambulance."

"I speak for the guys and women in the department, please give us safe equipment to work on," said Trask, who said some in the department feel unsafe working in the vehicle and transporting patients in what has become a bumpy ride.



The town's ambulance is one of the few capital items that pays for itself. Approximately $372,000 in revenue was brought into the town in fiscal 2008, said Silvia.

Silvia's plan is to move the current ambulance into a reserve role,

Capital Budget Committee chairman Steve Gaumer said if the vehicle was considered unsafe, would it be wise to use it in a reserve role.

"The vehicle has reached the end of its service life as a frontline piece, but I think it would be okay in a reserve role" where it might take four years to get the same amount of mileage a frontline piece gets in one year, said Silvia.

The Capital Budget Committee will be prioritizing the capital item requests and meet with more town departments over the next few weeks.

RELY ON US FOR REHABILITATION
Stay close to home while we coordinate your needs with hospital staff.

Regain your strength, confidence and mobility with:

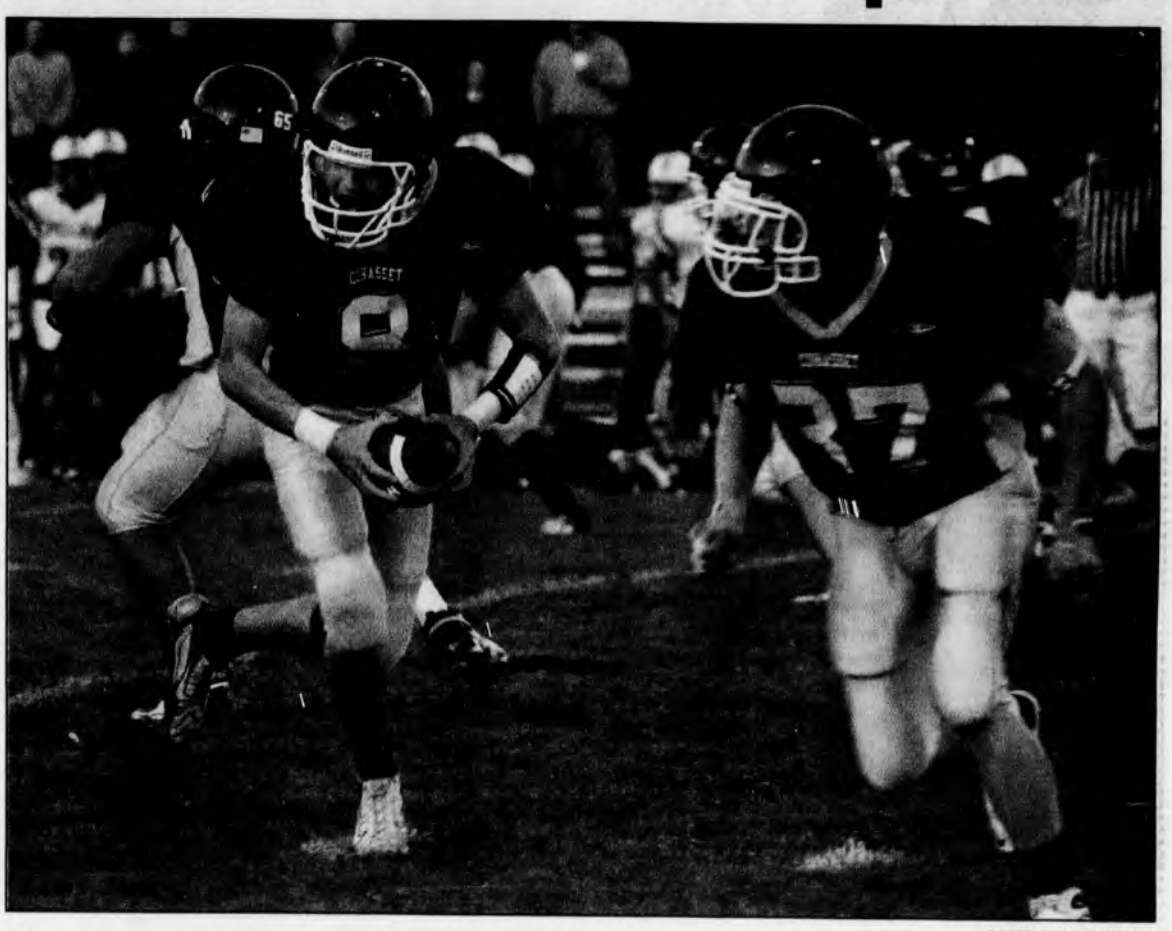
Cohasset gridders take it to Cardinal Spellman

Super play down the stretch



Homecoming, Oct. 3. The forecast wasn't predicting rain, but it seemed to be par for the course as the big black clouds rolled over Alumni Field. Friday night lights, might yet again be Friday night umbrellas. But the clouds kept moving, a raindrop fell here and there and by kickoff at 6 pm, the sky didn't look so ominous, the balloons were flying in the wind, and the boys in blue, looked strong, tough and prepared to take on Cardinal Spellman.

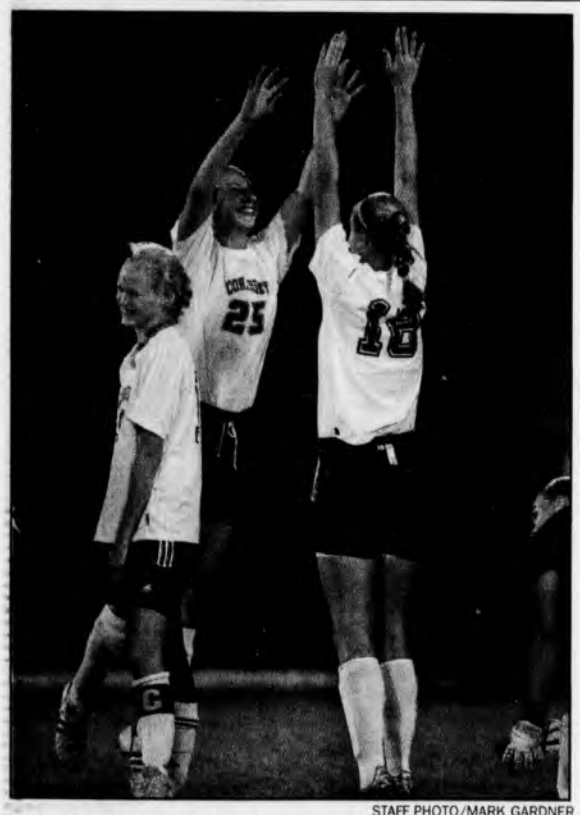
The first quarter was a tug of war. Three and out for Cohasset, three and out for Spellman. The stalwart Cohasset defense (led by Jake Kissick with 11 tackles in the game, 3 for losses) kept Spellman in their own territory for much of the first quarter, not allowing them to build any momentum. The quarter ended as Cohasset failed to convert on 4th and 12 from the Spellman 16. CS took over on downs to start the 2nd quarter, but failed to convert and punted. Cohasset went on offense from the Spellman 46 yard line. Strong running by Dana Valentine (120 yards on 15 carries for the night) set up Jeff Cavanaro (7/14 passing, 125 yards, 1 TD) to hit Johnny Maher from the 20-yard line for the first score of the night. The conversion failed, and Cohasset led 6-0 at the 5:52 mark of the second quarter.

CS got the ball back, it was 3rd down with 4 yards to go, when the CS quarterback rolled to his left and was met in the backfield by Maher (8 tackles in the game) in what many called the hardest hit of the game. CS punted and Cohasset got the ball back. A turnover by Cohasset and CS got the ball back. And they marched down the field. A couple of reverses, a couple of screen passes, a draw up the middle and they were in the red zone and converted to score. The extra point counted, and the Skippers were down 7-6.

The icing on the cake was an interception by Jake Wheelwright who returned it 55 yards for the score that put the game out of reach for CS.

Third quarter, CS received the opening kickoff. A couple of big runs, one up the middle and one to the left gave CS good field position. A facemask penalty against the Skippers got CS closer to the end zone. It was 3rd and goal from the Skipper 6 yard line and a play action fake put the Cardinals in the end zone. A terrific, body-sacrificing block by Brendan Doonan prevented the extra point. The Skippers went on the offensive and a tough, gritty ground attack by Valentine and Alec Livingstone set up Cavanaro to hit Doonan (3 catches for 68 yards) at the 5-yard line. They were knocking on the door, but unfortunately nobody answered and the CS defense kept the Skippers out of the end zone. It was the end of the 3rd quarter.

PHOTO/CRAIG GOEDECKE



Cohasset's Jeff Cavanaro moves the ball down the field during Friday's Homecoming game against Cardinal Spellman. The Skippers rolled over Spellman with a final score of 27-13.

Fourth quarter. It was the tenacious and relentless work by the Cohasset "O" line,

Matt Wasel, Will Lynner, Dan Sullivan, Co-Captain Andersen Lynner and Nick Lieberman that opened up holes that allowed the Skippers to continue their ground assault culminating in a 30+ yard run by Valentine into the end zone. The critical 2-point conversion was made by Cavanaro to Doonan. Cohasset was now on top 14-13 midway through the 4th quarter. CS went three and out on their next possession.

Cohasset took over in great field position to set up Valentine again at the 1-yard line for a score. The extra point failed, but Cohasset was leading 20-13 with less than 3 minutes on the clock. The icing on the cake was an interception by Jake Wheelwright who returned it 55 yards for the score that put the game out of reach for CS. The final score 27-13 Cohasset.

Coach Pete Afanasiw commented: "Overall the kids played very physical football in all three aspects of the game. There was a lot of hard hitting and our conditioning really paid off late in the game when we were a step quicker off the ball, able to execute crisply and play mistake free football when it counted most. It must be mentioned that even though we were trailing into the fourth quarter, we never lost our composure and actually played some of our best football down the stretch"

"They know my style of coaching — respecting your opponent, your teammates and yourself — and they strive to meet and exceed my expectations every day."

Deb Beal, Cohasset High girls coach

Back to the grind

SSL title on line today as Lady Skippers face off with archrival Norwell

By Mike Spellman
MSPELLMAN@CNC.COM

Deb Beal is ready to get back to normal soccer.

Three games against rebuilding South Shore League opponents came at a good time, as it allowed the veteran Cohasset High girls coach to both lighten the load on her stalwarts and get her reserves some prime playing time.

The end result was three wins by a combined score of 13-1 over Abington, Harwich and Mashpee, an output that probably could have been more than doubled had Beal not ordered a shift to ball control play rather than shooting once a "comfortable lead" was obtained.

"The girls know how it feels to lose and they as a group make a point to not embarrass any team they play," said Beal. "They are truly class acts. We have some very talented players on our team who are very competitive and play on some serious club soccer teams, but in the end they are respectful and kind kids who love to play soccer.

"They know my style of coaching — respecting your opponent, your teammates and yourself — and they strive to meet and exceed my expectations every day."

That said, the coach is happy to see a return to the primary focuses. This afternoon, the Lady Skippers will take archrival Norwell on the road (2 p.m. start) in a match that will quite likely determine the league championship.

The two longtime SSL rivals enter the game tied for first in the standings with matching 7-1 marks in league play. The Skippers won the first go-round, played at Cohasset High back on Sept. 15, which marked the first time a Beal coached team had ever topped a Norwell team.

Unfortunately, the locals let down a bit after that emotional victory and lost two days later to East Bridgewater (5-2-1 in league play), a team Norwell has twice bested.

"Our rematch with Norwell is much anticipated," noted Beal. "It appears as though we have to beat Norwell and remain consistent throughout the second half of the league schedule and we should be able to claim the league title. It is all very exciting."

Beal saw the elation that came with the first win over Norwell, particularly from her seven seniors— four of whom have played varsity all four years, the other three since their sophomore years.

"I want this group of seniors to claim that title this fall," the 11th year head coach continued. "They have worked long and hard for it and finished second too many times. I believe we can win the league as long as we do our jobs. These past few games we have really played and worked together as a team."

At 8-1 overall (7-1 in league play), the Lady Skippers will secure their spot in the the Div. 3 state tourney with their next win— which would, by far, be the earliest Beal has seen a team clinch.

Skippers 5, Mashpee 0

Scorers: Maggie McGoldrick, Christine Coner, Mackenzie Hart, Carli Haggerty, Caroline Fein

"We seemed very relaxed and comfortable," said Beal of the Wednesday home win. McGoldrick took all of 12 seconds to put the host Skippers on the board, and there never seemed much doubt from that point forward.

"Lots of kids have seen lots of playing time over the past three games, which helps our fitness," said Beal. "I have really enjoyed seeing some of them take risks on the field and challenging themselves to play smarter and more efficiently. When we lost to EB, we worked too hard on the field. We need to let the ball do the work we just need to adapt our runs and hit our shots and I know we'll do just fine."

Skippers 4, Harwich 1

Scorers: Kaci Kucinski, Maggie McGoldrick, Caroline Fein, Rachel Fredey

Beal always has concern about lethargy after this annual trek to the lower Cape, but her worries were quickly eschewed on Tuesday afternoon, as the Skippers again scored early and often, doing all their tallying before the first half's mid-point.

It was all about possession soccer from that point forward, and shooting was pretty much verboten.

"We concentrated that afternoon on possession of the ball and making clean to-feet passes using one and two touch," reported Beal. "I was very impressed that we were able to stay on task for 80 minutes and remain moti-

Scituate-Cohasset Sharks notebook

The undefeated 8th grade Sharks traveled to a wet and rainy Barnstable last Sunday trying to defend their unbeaten status at the top of the league.

Last year the Sharks upset Barnstable handing them their first loss in over two years. Looking to avenge last year's outcome, Barnstable pounded the ball down Scituate's throat all afternoon building a comfortable 18-8 margin, a minute into the fourth quarter. As the sky started to brighten so did the hopes of the Scituate faithful when Shane Haggerty returned a kickoff 81 yards to close the gap to 18-14 with just eight minutes left in the contest.

The momentum now shifted to the visitors sidelines, as both the fans as well as the players loudly encouraged the Sci-Coh defense to hold on. On the first play from scrimmage, the defense led by Tyler Serra, Craig Davis, Sean Shea, Danny Buckley and John Foster forced the Barnstable running back to fumble, recovering on Scituate's 46-yard line.

The offense, which had struggled all day, finally came alive.

A third down screen pass to Conor Dooley was followed by another completion to Matt McCrae on fourth and four. Shea McCarthy, Joe Daileader, Jordan Kelly and Mike Stewart took turns carrying the ball as the offensive line pounded away at the tired Barnstable defense.

Scituate's offensive line led by Mike Rosen, Serra, Buckley, Shea, Davis, Dooley and McCrae dug in deep as Barnstable tried their best to put up a goal line stand on first and goal from the 4-yard line. Employing their new blocking technique taught to them this past week in practice by special assistant Paul Farren, these seven determined youngsters bulled their way to victory when little Joe Daileader, on fourth and one reached across the goal line as Rosen and Buckley drove their opponents backwards to give Scituate a 20-18 lead.

Sunday brings a new challenge to the Sharks when their rival and also unbeaten Marshfield travels to Scituate for a 1:00 p.m. tilt with the victor claiming first place in division one of the OCYFL.

Scituate kicked off to Barnstable but Drew Nahill and Patrick Twohig did not allow the Barnstable returner to cross the 35-yard line. The defense shutdown any attempt at a passing game that Barnstable threw at them. Facing one of the toughest running backs they will see this year, Michael Stewart, Jack White and an injured John Foster stepped up their game and turned the ball over on downs to Scituate. All that was left to do was put the ball in Haggerty's hands and let him run out the clock sealing the victory for the Sharks.

After Barnstable took a quick 6-0 lead in the first quarter, Haggerty broke loose for a 36 yard bootleg, diving into the end zone for Scituate's first score of the afternoon. Matt McCrae hauled in the conversion pass and the Sharks led 8-6. The ever-determined Barnstable offense scored right before the half and led 12-8 at the break.

The second half opened with Scituate receiving the ball and their running game starting to gain the advantage, until a questionable spot of the ball on fourth down turned the ball back over to Barnstable. Barnstable quickly capitalized and a minute into the fourth quarter built the 18-8 lead.

This victory completed an exciting weekend for the Sharks, whose junior varsity team beat Hanson, Saturday morning 28-0. These junior varsity players are the reason for the success on Sundays because not only do they perform on special teams and fill in for the injured starters, they also practice as hard as they can each night allowing the starters to prepare for their next opponent.

Hats off to Tommy Ryan, Andrew DelGrosso, Mark DelGrosso, Ryan Gillis, Chris Leclair, Gideon Bernstein, Matt Gregory, Michael Rosen, Jack White, Drew Nahill, Patrick Thowig, David Mavilia, Greg Hurley, Paul Harrigan and Jake Brady who all performed admirably Saturday.

A special call out to the following "teammates" who due to injuries are not able to participate in games but have attended every practice encouraging and supporting their teammates at all times: Christian Davis, Grady Comeau and Thomas Fogarty.

Sunday brings a new challenge to the Sharks when their rival and also unbeaten Marshfield travels to Scituate for a 1:00 p.m. tilt with the victor claiming first place in division one of the OCYFL.

Back to the grind

FROM SOCCER, PAGE 17

vated when the score could have been much more lopsided."

Skippers 4, Abington 0

Scorers: Torey Hart, Maggie McGoldrick, Caroline Fein, Danielle Sookiasian

This home win last Friday was pretty much a ditto of the two victories that followed.

There's Gold in them thar feet

Maggie McGoldrick has been the team's most consistent scorer of late. The senior captain has found twine in each of the last three games, bringing her season total to eight goals and three assists.

She's ba-ack

Senior keeper Johanna Brophy returned to action for the first time since being lost quite literally to busted-in teeth in the season opener way back on Sept. 4.

The splint was taken off Brophy's front teeth earlier in the week, and she had a mouth guard fitted by her dentist. She played the first half of the Mashpee game before giving way to heir apparent Charlotte Malone, who surrendered just four goals in her 9.5 games between the pipes.

"I just wanted to get Johanna's head back in it before the big showdown with Norwell," explained Beal. "Johanna has been our keeper the last few years, and this is a start she's earned. This season is really about the seniors who've been through so much with me over the last four years.

"Believe me; it's not reflection at all on Charlotte. She's done a tremendous job for us. She's really made the most of her opportunity to shine. She's had some very solid defense in front of her, but she's made the saves when called upon too to earn that 0.42 goal's against average. She's still got another whole season in front of her, and I know the keeper position is in great hands next season too with her."

Some closing thoughts from Coach Beal

"I am looking forward to the remaining weeks and find it hard to believe we are 10 games in," said Beal. "In the next few weeks we crank up the fitness and we perfect the skills we have already."

The Lady Skippers finish the regular season with big non-league tilts against higher division teams from Notre Dame, Rockland and Plymouth North).

"I scheduled those to help us prepare for the tournament," said Beal. "We have been fortunate to date with (no) cancellations, but the rest of the season is tight as far as recovery time goes, so we need to stay healthy and injury free, which gets harder as the kids get tired and their school work load increases.

"That's the nice thing about fall sports; they don't have much work during the first part of the season but it catches up very quickly around this time with the midterm here and the first term over in early November. Not only are these kids great athletes but they are also great students. They are forced to balance their time efficiently."

Forwards

Torey Hart leads the way with six goals and three assists. Said Beal of sophomores Kaci Kucinski and Caroline Fein: "up top together is some serious speed and they have been great job together."

The coach also lauded the play of Danielle Sookiasian, Alex Foley, Brittany Dunn and Christine Coner, who has three goals and three assists out of an outside flank position.

Midfielders

Said Beal: "Megan Richardson has been working very hard in practice and has found herself in the starting line up for some games. Mackenzie Hart and Christine Coner are providing a lot of speed on the outside flanks and creating some great scoring opportunities."

Center-mids Sarah Coggins and Maggie McGoldrick continue to lead the offensive attack and distribute the ball precisely to the forwards and flanks. Both these seniors have plans to play college soccer. Coggins has already committed to UVM, while McGoldrick is deciding between NYU and Holy Cross.

"They have the ability to take control of a game and change it," said Beal of the dynamic midfield duo. "They communicate very well with Sammi (Lehr) leading the defense and Torey (Hart) up leading the offense. The four of them on the field together is such an asset."

"Kristin Monaco has provided some great play and continues to improve her game," continued Beal. "She is a hard worker who creates opportunities for her teammates by just doing her job. Melissa Campedelli has worked herself into the rotation and is jumping around a little bit for us helping out on the flanks and the center mid. Olivia Yerardi and Rachel Fredey also have been training with the varsity and giving some quality minutes on the game field."

Defense

Sammi Lehr, Meredith Kelly, Samantha Crough and Tori Lehr are, according to Beal, "in tip top shape."

"Not much gets by them," she added. "Sammi has taken the defensive leader role very seriously and makes sure everyone is moving and supporting one another back there."

Beal also noted that sophomores Carli Haggerty and Lindsay Davis seem to be learning from what she calls the "best defensive unit in the league."

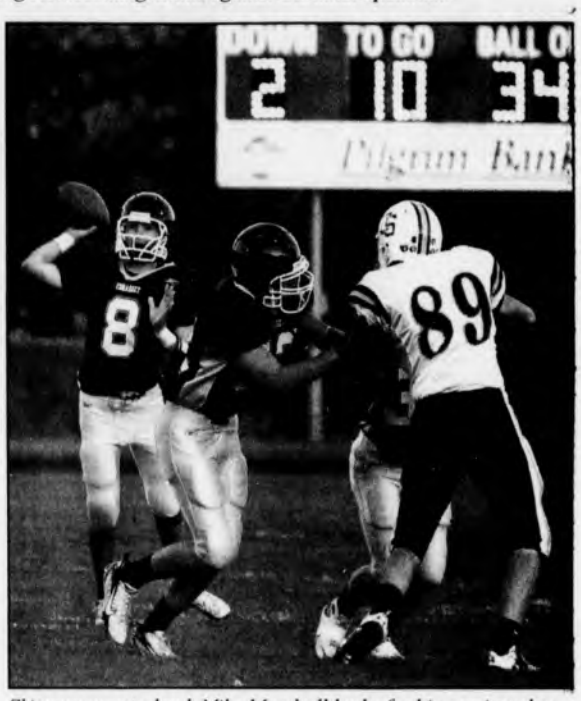
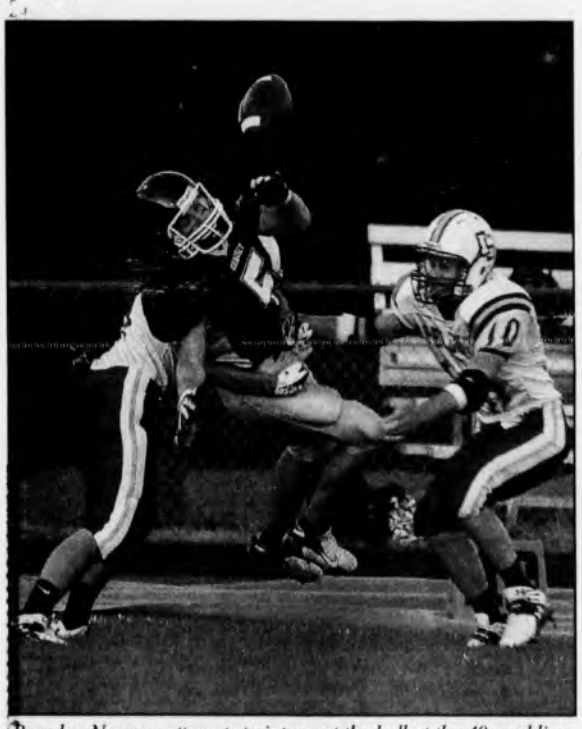
Cohasset Skippers Cheerleader Betsy Crawford, a junior, showed her team colors and team spirit for Friday evening's Homecoming game against Cardinal Spellman.



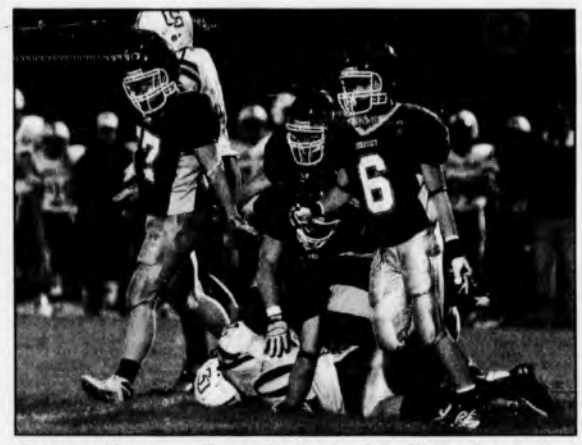
A football player makes a grand entrance as he heads into the Cohasset Skippers Cheerleaders Team banner for the Friday evening Homecoming Game against Cardinal Spellman.

Cardinal Spellman's John Haggerty-10 goes against the grain of the Cohasset Skippers during Friday's Homecoming Game. Cohasset resistance pushed them past Spellman with a final score of 27-13.

The Skippers run through a tunnel of Skipper Cheerleaders with pompoms during last Friday evening's Homecoming game.

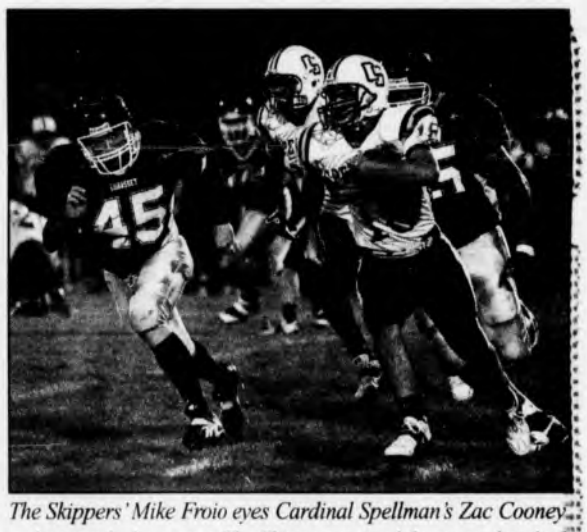


Skippers quarterback Mike Marshall looks for his receiver during the homecoming game.

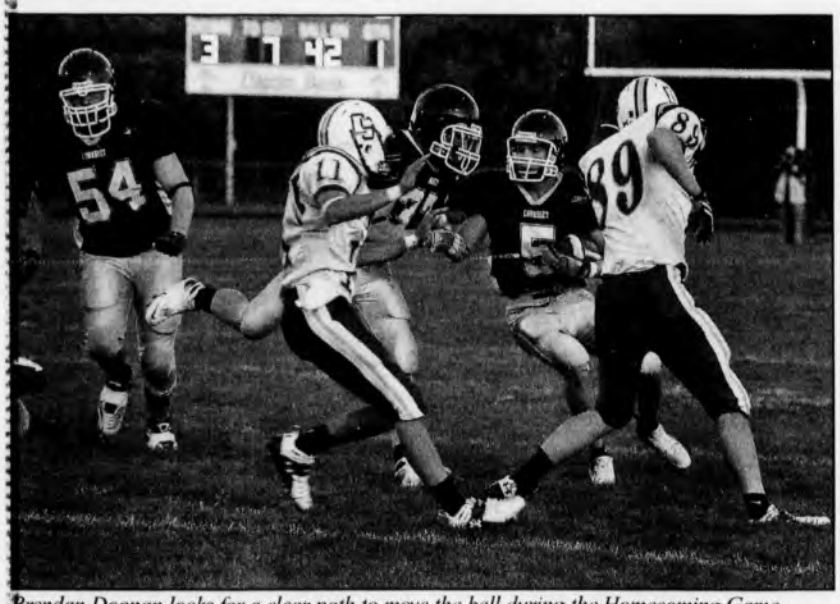


Homecoming heroes

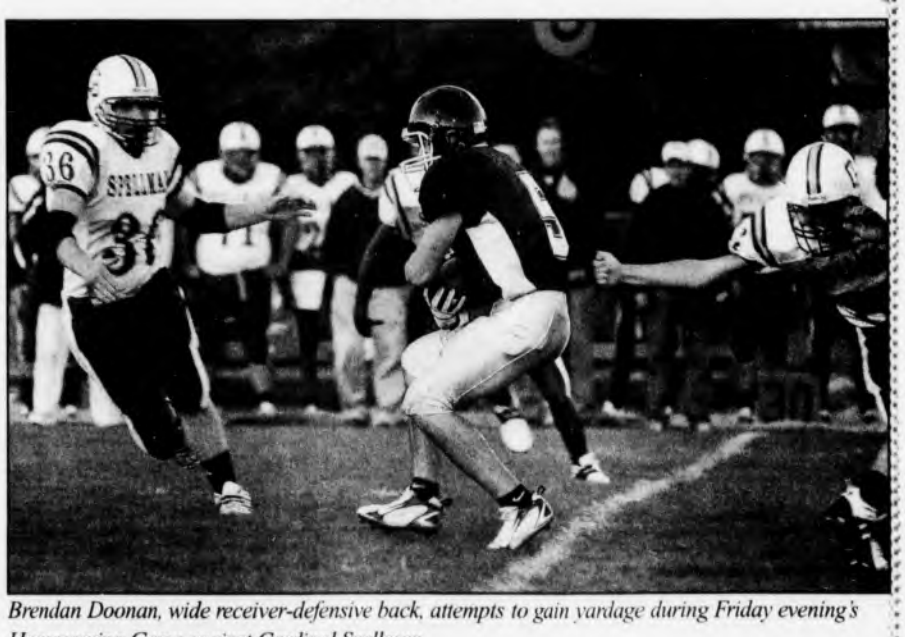
Skippers tackle Spellman under Friday night lights



Photos by Craig Goedecke



Brendan Noonan attempts to intercept the ball at the 40 yard line, but a Cardinal Spellman player had other plans for Noonan. The Skippers faced Spellman during Friday evening's Homecoming.



Cohasset Skippers roll over the Cardinal Spellman players during Friday's Homecoming Game.

The Skippers' Mike Froio eyes Cardinal Spellman's Zac Cooney as he rounds the corner. The Skippers gained the upper hand of the ball and won.

Brendan Doonan looks for a clear path to move the ball during the Homecoming Game against Cardinal Spellman.

Brendan Doonan, wide receiver-defensive back, attempts to gain yardage during Friday evening's Homecoming Game against Cardinal Spellman.

Cohasset Skippers Head Coach Pete Afanasiw applauds his team after winning Friday's Homecoming game against Cardinal Spellman with a final score of 27-13.

Defensive tackle Nick Simonds raises his helmet after being named Homecoming King Friday evening during Halftime. Nick was joined soon after by Homecoming Queen Ashley Thompson.

PHOTO/CRAIG GOEDECKE

Ashley Thompson and defensive tackle Nick Simonds, both seniors, pose for a photo after being named Homecoming King and Queen during halftime last Friday evening.

Students made spirit week a success!

LIFE AT CHS

LAUREN MACK

First of all, I'd like to recognize all those who participated in the spirit week festivities. But I'd especially like to congratulate the senior class for stepping up to the plate by not only participating, but also by behaving incredibly responsible with the restrictions put on us and showing our school spirit.

Overall, the week went extremely well, and aside from a few issues such as old rivalries and crowd surfing at the homecoming dance, there were no significant issues. If you happened to catch the game last Friday night, you'd know that not only did Cohasset win, but that we also have a new homecoming King and Queen! Ashley Thompson and Nick Simonds now hold the throne, however, I heard from an inside source that last year's king, Matt Blaze, is reluctant to give up his crown.

This year's French Exchange, a joint program with Scituate High School, begins next week. The foreign exchange students will be arriving from suburbs around the Paris area to stay with their assigned American students and will live with their host families for 10 days and then in February, the American students will stay with their host families, also for 10 days. Also, big news this week is that today was a half day, which is significant because it is extremely rare for a Friday to be a half day, not to mention the fact that Monday is Columbus Day, making an already long weekend even longer.

A new face in the high school faculty but no stranger to the student body, Ms. Carolyn Crimmins really brings a ray of sunshine into the English department. Formerly an 8th grade teacher, Ms. Crimmins was promoted to teach in the high school. However, she teaches freshmen, meaning that she has a large majority of the same students that she had last year. Anyone who's ever had Crimmins knows that her affection for Leonardo DiCaprio is just as deep as her love for Shakespeare. When asked why she loves her Romeo so, she responded that, "He's a humanitarian, an environmentalist, and an intellectual l— except I hate that he dates 21-year-old models. Whatever. You can't get everything you want, right?" And with that, I leave you all to a wonderful super-extended long weekend! Adios!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.

SCHOOLS

Cohasset students earn AP Scholar Awards

Twenty-eight students at Cohasset High School have earned AP Scholar Awards in recognition of their exceptional achievement on AP Exams.

The College Board's Advanced Placement Program (AP) provides motivated and academically prepared students with the opportunity to take rigorous college-level courses while still in high school, and to earn college credit, advanced placement, or both for successful performance on the AP Exams. About 18 percent of the 1.6 million students worldwide who took AP Exams performed at a sufficiently high level to also earn an AP Scholar Award.

The College Board recognizes several levels of achievement based on students' performance on AP Exams.

One student qualified for the AP Scholar with Distinction Award by earning an average grade of at least 3.5 on all AP Exams taken, and grades of 3 or higher on five or more of these exams. This student is Sarah Brown.

Ten students qualified for the AP Scholar with Honor Award by earning an average grade of at least 3.25 on all AP Exam taken, and grades of 3 or higher on four or more of these exams. These students are: **Marcus Barrett, Samantha Burgoon, Jacqueline Cahill, Jonathan Choi, Jessica Fitts, Fiona McBride, Rachel McMorris, Sara Meehan, David Oddleifson,** and **Emerson Oronte.**

Seventeen students qualified for the AP Scholar Award by completing three or more AP Exams with grades of 3 or higher. The AP Scholars are **Matthew Blaze, Oliver Brennan, Lennart Brown, Jennifer Cahill, Melissa Castro, Evan Deutsch, Colin Dignam, Brittany Dunn, Margaret Goodwin, Sondra Hart, Chloe Koines, Alexandra Lesniewski-Lass, Jesse Meade, Conor Ofsthun, Charles Sceery, Graham Sinclaire,** and **David Toomey.**

Of this year's award recipients at Cohasset High School, 15 are juniors: **Marcus Barrett, Lennart Brown, Jennifer Cahill, Melissa Castro, Jonathan Choi, Brittany Dunn, Jessica Fitts, Margaret Goodwin, Fiona McBride, Rachel McMorris, David Oddleifson, Conor Ofsthun, Charles Sceery, Graham Sinclaire,** and **David Toomey.** These students have at least one more year in which to complete college-level work and possibly earn a higher-level AP Scholar Award.

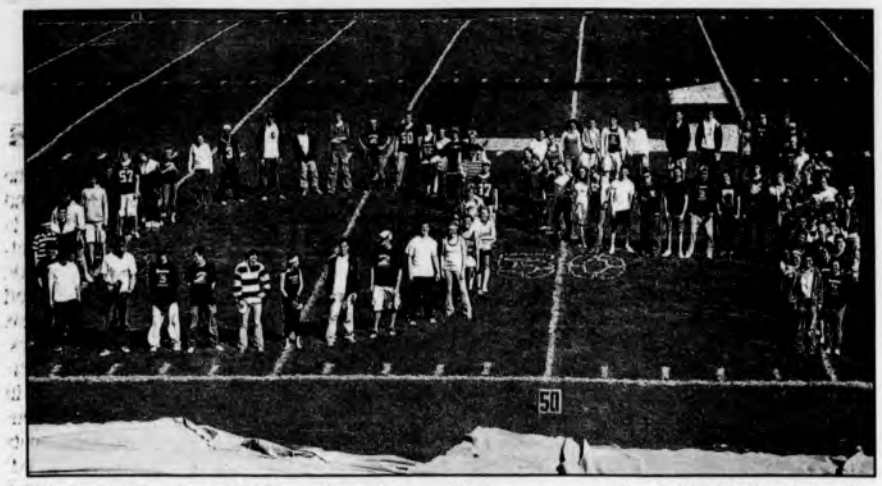
Through 37 different college-level courses and exams, AP provides motivated and academically prepared students with the opportunity to earn college credit or advanced placement and stand out in the college admissions process. Each exam is developed by a committee of college and university faculty and AP teachers, ensuring that our exams are aligned with the same high standards expected by college faculty at some of the nation's leading liberal arts and research institutions. AP is accepted by more than 3,600 colleges and universities worldwide for college credit, advanced placement, or both on the basis of successful AP Exam grades. This includes more than 90 percent of four-year institutions in the United States. Research consistently shows that AP students who score a 3 or higher on AP exams (based on a scale from 1 to 5, with 5 being the highest) typically experience greater academic success in college and higher graduation rates than students who do not participate in AP.

The College Board is a not-for-profit organization whose mission is to connect students to college success and opportunity. Founded in 1900, the association is composed of more than 5,400 schools, colleges, universities, and other educational organizations. Each year, the College Board serves seven million students and their parents, 23,000 high schools, and 3,500 colleges through major programs and services in college admissions, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT, the PSAT/NMSQT, and the Advanced Placement Program (AP). The College Board is committed to the principles of excellence and equity, and that commitment is embodied in all of its programs, services, activities, and concerns.

SCHOOL NOTEBOOK

New school Web site launched

The Cohasset Schools has an entirely new Web site. The revamped site will still be able to be accessed at www.cohassetk12.org.



The site will be composed of five sites, each one to be frequently updated by administrators, teachers and staff. Teachers will be able to have their own site to post homework assignments, the Superintendent will be able to post messages, and the daily school lunch menu will be available as well. The ability to purchase school lunches online will be available around the time of the new Web site launch.

Recreation Department to offer Sunday Jams

Recreation Department director Ted Carroll has tapped music industry veteran and Cohasset resident Howie Altholtz to help coordinate Sunday Jams, a program of music for teens. Altholtz has been involved in the music business for more than 25 years, as a writer, performing artist, producer and lawyer.

Carroll and Altholtz envision starting with Sunday Jams at the Recreation Center. Depending on interest, additional services may include advice on the business of music, songwriting clinics and guest music business insiders, including artists, producers and managers.

For information, email Carroll at tcarroll@townofcohasset.org or call 781.383.4109. A schedule is in the works, and any input and ideas would be welcome.

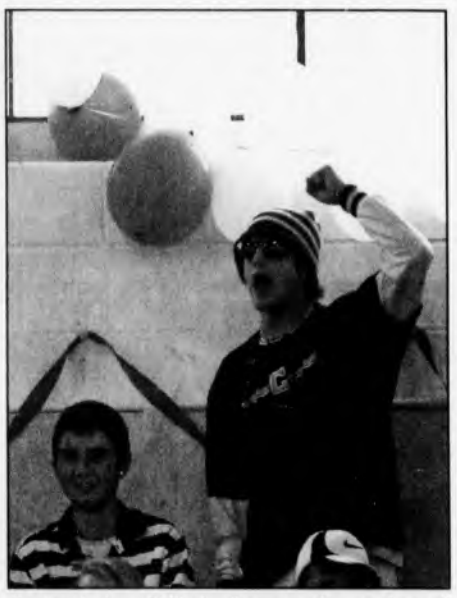
Members of the class of 2009 spell out their graduation year on the football field after their rally.

Skipper pride!

The cheerleading squad goes through its routine during the pep rally.

Pep rally caps off school spirit week

Staff photos by Robin Chan



Junior Ian Porter cheers on the Skippers as the various fall sports are introduced to the student body during the pep rally last Friday.

Science teacher Ann Thomae is overjoyed about getting a superfan shirt for being one of the teachers who helped out with the pep rally.

Junior, Melissa Campedelli, wears her Skipper pride with her face paint and soccer jersey while playing the flute , during the pep rally.

Senior Andrew DiPaolo cheers on the members of the golf team as they are introduced to the student body.

Music teacher Brian Marks leads the student body in the Cohasset fight song that hadn't been sung in years.

Boys soccer captain Lennart Brown announces the winners of the super fan T-shirts for those students who showed the most spirit throughout the week.

The homecoming court stands before the student body near the end of their pep rally. The court includes Margaret Goodwin, Conor Ofshtun, Nick Simonds, Maddelyn Leahy, Ashley Thompson, Marcus Barrett, Anna Roberts, and Marcus Charles.

Rec Notes

Introducing kids to the kitchen

Cohasset Recreation Center is at 41 Highland Ave. For more information or to sign up for activities, call 781-383-4109 or visit recreation@townofcohasset.org.

Hatha Yoga Class – Moving meditation including gentle stretching and strengthening postures with breathing exercises to decrease stress and increase flexibility. Meets Thursdays, at 10:30 a.m., at Town Hall. Cost is $8.

Kitchen Kids – This is a great way to introduce kids to the joy of creative cooking in a fun and safe atmosphere. Even the fussiest eaters will be thrilled to east something they have made themselves. The class is hands-on with step-by-step instructions in a safe, clean environment. Instructor: Sandy Tremblay. Saturday, Oct. 18, Freakish Feasts. Ages 5 through 8 meet from 9 to 11 a.m.; ages 9 through 12, 11:30 a.m. to 1:30 p.m. Cost is $30.

Drive in Control – Sunday, Oct. 19 from 1 to 5:30 p.m. In Control Advanced Driver Training is the first Massachusetts certified driver skills course in the state. Drivers are taught how to avoid crashes and how to best respond in a variety of high speed driving situations, including ABS braking, tailgating (and what safe driving distances really are), car control, handling distractions while driving, etc. Students will have the opportunity to get behind the wheel with a professional driver and practice these emergency situations. Class will take place in South Weymouth. Group class rate for Cohasset Recreation is $274, $225 for second/subsequent member of same family. Insurance deductions are available with most insurance carriers.

Babysitting Course – Meets at Paul Pratt Library. This one-day, three-hour course is designed to assist fifth-through seventh-graders to be better babysitters and learn the do's and don'ts of being home alone. The course will cover information on child development, playing with younger children, basic first aid, fire safety and prevention, and the overall responsibilities of babysitting. Instructor: Kim Cleary, a nurse and mom. Each class is limited to 18 pre-registered students. Cost is $18. The class will meet 9 a.m. to noon, on Saturday, Oct. 25.

CPR – Meets at Cohasset Town Hall. American Heart Association CPR courses instructed by members of the Cohasset Fire Department. CPR instruction will include adult, child and infant CPR. Two-year certification card. Cost is $45 per class. Class one meets 6 to 10 p.m., on Wednesday, Nov. 5.

Kids Love Crafts – Meets at the Recreation Center. Join others for a jammed-filled program of ooey, gooey arts and crafts, stories and songs. Watch one's 2-to 4-year old child make a mess and have some fun as they create crafts that can be treasured for a lifetime. Space is limited to 10 children with parent. Meets Tuesdays, 10 to 11 a.m. Cost for the six-week session is $60. Session 2: Nov. 18 through Dec. 23; Session 3: Jan. 6 through Feb. 10; Session 4: March 3 through April 14; and Session 5: May 5 through June 9.

Boot Camp Fitness –Meets on Cohasset Common. Mondays and Wednesdays, 9:15 to 10:15 a.m., through Dec. 1. This is an interval calisthenic training program for men and women. Class includes running/walking, jump roping, jacks, lunges, squat thrusts, single running knees, skipping, push-ups, sit-ups, stairs and hills. Class goal is to improve cardio endurance, and strength. Bring water, jump rope, running shoes and dress in layers. Get ready to bring fitness level to the next phase. Instructor: Betsy Callanan. Cost for 10 weeks is $100.00.

Ski and Snowboard Lessons – Improve skiing and snowboarding at Waterville Valley and Bretton Woods with four days of skiing and two 1 fi-hour lessons. Luxury motor coach to and from Cohasset Town Hall. Ski days are Sunday, Dec.14, Saturday, Jan. 3, Saturday, Jan. 24, and Saturday, Feb. 7. Cost is $279.99.

Yoga – At Cohasset Town Hall. Vinyasa yoga class will feature flowing meditation style class including moving from one pose to the next on an inhale or an exhale in a smooth way that the poses run together and become like a dance. Meets Tuesdays, at 9:30 a.m. Cost is $8.

Recreation Department seeks donations

Cohasset Recreation Department is sprucing up the Teen Center and are looking for cash donations, bar stools, folding tables and chairs, pool tables, ping pong tables, foosball tables, air hockey tables, arcade games, video game systems and televisions. Maybe that flat screen TV bought a few years ago doesn't seem quite as big as it used to. All donations are eligible for tax deduction. With help, the Recreation Center will be a safe and enjoyable after school destination and the best spot in town to host a party.

Senior Scene

Dental implants without surgery

Cohasset Elder Affairs is sponsoring the following events. Call 781-383-9112 to register..

- Wednesday, Oct. 15, 11 a.m. to noon. "The Purple Cow," presented by Dr. Joseph Santelli, DDS. He will speak on mini dental implants that involve no surgery. Following the seminar, a gourmet lunch will be provided by the Angel Food Project. Donation: $2.50.
- Wednesday, Oct. 22, 11 a.m. to noon. "Using Newest Technology & Collaboration to Improve Our Connections," presented by Lucille Sorrentino, Tina Dwyer and Anna Hall. Dessert will be provided by Weymouth Health Care. Gourmet lunch provided by Arthur Roebuck. Donation is $2.50.

Legion seeking donations for those deployed

Donations may be dropped off at the Legion Post on Summer Street daily after 3 p.m. or at Pilgrim Cooperative Bank branches on 3A or in the village.

The George H. Mealy American Legion Post 118 is seeking donations of toiletries and other items for those deployed to Iraq and Afghanistan. Donations may be dropped off at the Legion Post on Summer Street daily after 3 p.m. or at Pilgrim Cooperative Bank branches on 3A or in the village.

Monetary donations are also accepted. Checks should be made out to the Sons of the American Legion, with "Soldiers Project" written in the memo line on the check. Checks can be mailed to Sons of the American Legion, PO Box 118, Cohasset, MA 02025. The following items are being collected at the American Legion for deployed servicemen and women:

Batteries - AA and AAA, razors, mouthwash, Chapstick, nuts, shaving cream Ziploc bags of all sizes, hand warmers, baby wipes, pens and notepaper, Pringles, toothbrushes, toothpaste and floss.

Also, sports magazines, local newspapers, socks, T-shirts, candy (no chocolate), phone cards, peanut butter and crackers, dry tuna in a bag, deodorant, winter hats and gloves, gum, mints, Lifesavers, Q-Tips, sunscreen, soap and body wash, dry soup, beef jerky, Tylenol, Advil, Excedrin and cameras.

Also, athlete's foot cream or spray, bandanas, socks, Bounce dryer sheets, chap sticks, ground coffee, CoffeeMate, antibiotic cream, duct tape, used CD or DVD's, paperbacks, knee-hi hose, cologne, Band-Aids, a variety of shoe inserts, playing cards, black pens, writing pads, envelopes, puzzle magazines, flea collars, lens cleaner for glasses, Ramen noodles in the cup, breakfast bars, gum, single-serve packets hot chocolate or soup, Pringles, hard candy, and microwave popcorn. Personal notes or cards are encouraged.

Beechwood Church Harvest Supper and Auction

The annual Harvest Supper and Auction will take place Thursday, Oct. 23, at Beechwood Congregational Church, 51 Church St., Cohasset, for the 85th straight year. In years past, members have personally made calls to people in surrounding towns in order to make dinner reservations. This policy is being phased out. Instead, the first 100 people will be seated on a first-come basis. Those who want can call the church and order reservations on the voice mail at 781-383-0808. Seating begins at 5:30 for dinner, which will be served at 6:30.

This year's menu will include ham, herbed roasted potatoes, green beans, Harvard beets, coffee and dessert. Dinner is $9 for adults and $4.50 for children. An auction of locally harvested produce, pies, homemade goods and various donated items will take place immediately following dinner.

Author Beth A. Grosshans discusses new book

Buttonwood Books & Toys, Shaw's Plaza, Cohasset, welcomes Beth A. Grosshans, Ph.D. at 7 p.m. Wednesday, Oct. 22. Grosshans will be discussing her book, "Beyond Time-Out: From Chaos to Calm," written with Janet Burton. The book describes the havoc current parenting trends have caused, and then outlines the necessary tools to lead children to more controlled, respectful and cooperative behavior.

Beth A. Grosshans, Ph.D. is a clinical psychologist in private practice with more than 15 years of clinical experience working with children and their families. She has taught a child development course at Princeton Center for Montessori Teacher Education for over eight years, and has been a frequent speaker in the New Jersey Montessori Network of Schools since 1992. Free event, adult refreshments will be served. If you would like to order a personalized and/or signed copy, call Buttonwood at 1-781-383-2665.

FASHION APPAREL STORE AND HOME/MEN'S STORE, CHESTNUT HILL MALL, CHESTNUT HILL, 617-630-6000. SUNDAY 12-6, MONDAY THROUGH FRIDAY 10-9, SATURDAY 10-8

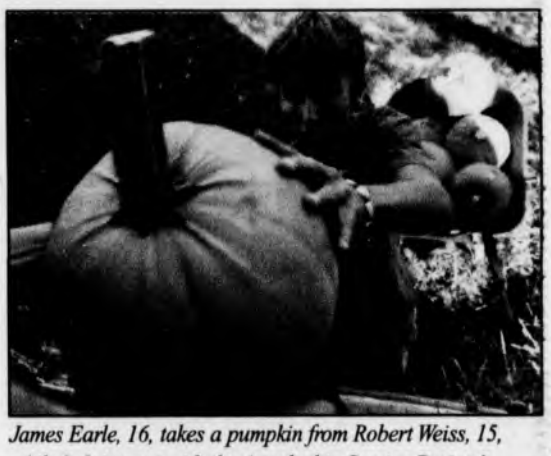
Ben Campbell, 16, fills a hole in the line with a pumpkin while helping out on Wednesday. The Pumpkin Patch will be open from Oct. 11 through Halloween from 10 a.m. to 8 p.m. at Wheelwright Park.

Kathleen Kelly, 15, lifts a pumpkin out of the wheelbarrow and puts it in place while helping shape the pumpkin patch on Wednesday

Ayla Suncanson, 2, of Hingham picks out a pumpkin from the patch while enjoying the pumpkins with her grandfather.

Special delivery

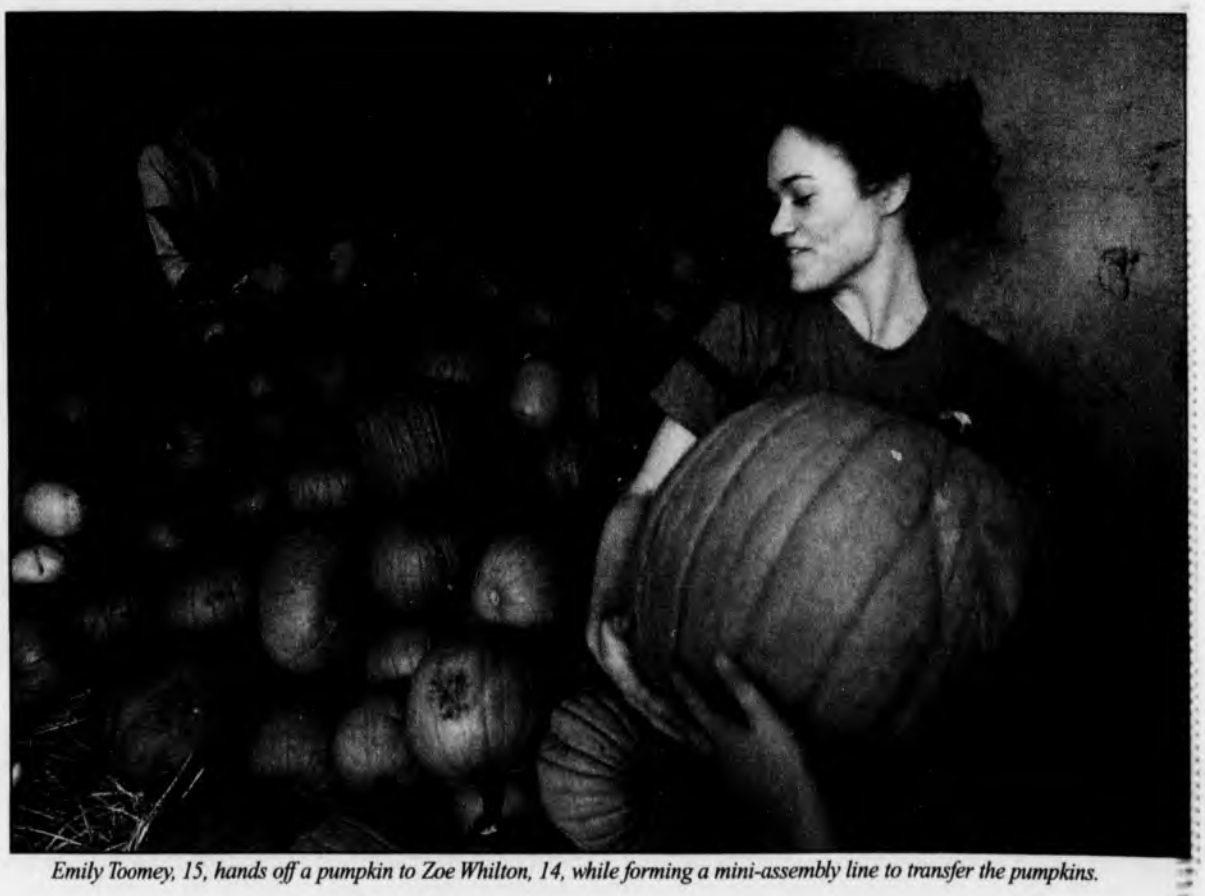
Pumpkins arrive at Wheelwright Park



Staff photos/Robin Chan

Mike Fithian, 17, helps put the pumpkins in the right spot while helping piece together the pumpkin patch with the other Appalachia Service Project volunteers. The Pumpkin Patch will be open from Oct. 11 through Halloween from 10 a.m. to 8 p.m. at Wheelwright Park.

Ashley Howard, 15, hands a pumpkin off to Kathleen Kelly, 15, while helping unload the truck on Wednesday afternoon. The Pumpkin Patch will be open from Oct. 11 through Halloween from 10 a.m. to 8 p.m. at Wheelwright Park.



James Earle, 16, takes a pumpkin from Robert Weiss, 15, while helping out with the Appalachia Service Project's annual pumpkin sale at Wheelwright Park.

Andrew Fewsmith, 15, quickly grabs two pumpkins from rolling down the mound while helping out with transferring the pumpkins from the back of the truck. There are roughly 4,000 pumpkins large and small that the Appalachia Service Project will be selling at Wheelwright park.

Emily Baumgarten, 14, picks up a pumpkin from the back of the truck while helping out on Wednesday. The Pumpkin Patch will be open from Oct. 11 through Halloween from 10 a.m. to 8 p.m. at Wheelwright Park.

Emily Toomey, 15, hands off a pumpkin to Zoe Whilton, 14, while forming a mini-assembly line to transfer the pumpkins.

Business Notes

Bixby appointed chairman of Bar Association Taxation Law Section

Cohasset resident Brian D. Bixby has been appointed by Massachusetts Bar Association president Edward W. McIntyre as the chairman of the association's Taxation Law Section for the 2008-09 year, beginning Sept. 1. Bixby is co-chairman of the Private Client Group at Burns & Levinson LLP in Boston, where he concentrates on estate and tax planning, fiduciary administration and probate court litigation.

COURTESY PHOTO

Brian D. Bixby

The MBA's Taxation Law Section is a driving force behind estate tax reform in Massachusetts. It acts as a forum for members to foster ties with the government, Internal Revenue Service, and the Department of Revenue while suggesting legislation; providing services to the section and the bar and acting as the liaison between the section's membership and the MBA House of Delegates.

This rating is given only to lawyers who have "Very High to Preeminent Legal Ability" and who embrace "Very High Professional Standards."

Bixby has received the AV rating from *Martindale-Hubbell*, the highest professional excellence rating category awarded based upon opinions solicited from members of the bar. This rating is given only to lawyers who have "Very High to Preeminent Legal Ability" and who embrace "Very High Professional Standards." Since 2007, Bixby has been on the Board of Directors for the Visiting Nurse Association of Boston & Affiliates. He also works with Senior Partners for Justice, a program where lawyers offer legal assistance to low-income Massachusetts residents in family law matters.

The MBA's 17 sections and Young Lawyers Division provides lawyers with up-to-date information on specific areas of law, monitor law-related legislation, sponsor professional education programs and provide information on the law for the general public.

Organist Gail Archer to play at St. Stephen's Church

Celebrating its 17th year, St. Stephen's Concert Series in Cohasset will present organist Gail Archer of New York City in a recital at 3 p.m., on Sunday, Oct. 26, in a program featuring the music of 20th century French organist Olivier Messiaen. The music of this composer is highly controversial and uses elements of bird song, Gregorian chant, Far Eastern scales and scales of his own construction – all in a mission to bring the music of the church into the world and to musically present Christian truths in the concert hall. Archer lives in New York and serves as chairman of the music department at Barnard College, Columbia University.

This year, St. Stephen's is also celebrating the partial restoration of its 58-rank Aeolian-Skinner organ, portions of which had been rendered unplayable by spring storms several years ago/

The church is at 16 Highland Ave., Cohasset, is handicap accessible, and there is plenty of parking is available at the village car park. Admission is free, but donations will be accepted. For information, call 781-383-1083.

Holly Hill Farm to host Discover the Woods Day

"Holly Hill Farm's first Discover the Woods Day has something for outdoor enthusiasts of varying ages and interests," said Frank White, chairman of Friends of Holly Hill Farm, the sponsors of the day-long event. Activities will start in the barnyard at 236 Jerusalem Road, Cohasset, Sunday, Oct. 19, but most of the action will take place in the 140 acre farm's woods, directly adjacent to Wheelwright Park.

Activities scheduled for the day include two morning fun runs, a 5K and a 1-miler, a mapping game for anyone older than 12 years, and a nature discovery game for families with children younger than 12. In the afternoon, starting at 2, local environmental scientist Steve Ivas will lead a guided tour of the woods highlighting many of the features that have made the woods such a wonderful source of recreation and education. During the noon hour visitors are invited to bring a picnic, listen to music, visit the farm animals and historic barns and explore the nearby fields and woods.

To learn more about the day, to sign up or to volunteer, call Jon Belber or Janice McPhillips at 781-383-6565 or email fhhfarm@verizon.net.

POLICE/FIRE LOG

WEDNESDAY, SEPT. 24

10:27 a.m. **North Main St., and Sohier St.**, fire, investigation, caller reports one of his excavators just hit the gas main. Fire Capt. requesting Gas Company to the scene.

12:55 p.m. **Bow St.**, disturbance – neighborhood, ongoing neighbor dispute. Officers have spoken to parties involved in the volume of music that did not seem excessive for the time of day, but it could be heard from the caller's back deck. Caller stated that she could not work, could not enjoy her home and was forced to keep all of her doors closed to block out the music which she said was offensive to her. Responding officers did not think the music was loud enough to become too offensive but spoke with male party about being more considerate of his neighbors. Male party agreed to turn the music down a little to keep peace with the neighbor but was not forced to do so because of any police action.

4:50 p.m. **Hull St.**, traffic enforcement.

5:07 p.m. **Chief Justice Cushing Highway**, motor vehicle stop, traffic citation/warning.

5:16 p.m. **Chief Justice Cushing Highway**, motor vehicle stop, traffic citation/warning.

5:40 p.m. **Beechwood St.**, animal complaint, ACO requesting officer to assist at above location – sick cat –

ACO is out of town. Officer reports – no one home.

5:52 p.m. **Beechwood St.**, motor vehicle stop, traffic citation/warning.

8:35 p.m. **Nichols Rd.**, assist citizen, caller reports there is a vehicle in the neighborhood that keeps on going through the red light on Jerusalem Road, this occurred 2 days ago.

8:58 p.m. **Elm St.**, suspicious person, walk in party reports there is a white male outside her building cutting tree limbs, officer report male checks out – he is a resident of the complex.

9:09 p.m. **Hull St.**, well being check, caller reports her daughter (21-year-old) is out at above location – possibly on drugs, officer checked above location – no one home.

9:29 p.m. **Beechwood St.**, motor vehicle stop, verbal warning.

10:18 p.m. **Beechwood St.**, motor vehicle stop, verbal warning.

THURSDAY, SEPT. 25

1:05 a.m. **South Main St.**, open door/window.

3:32 a.m. 209A violation, one violation occurred in Boston and one occurred in Hingham. Caller was advised to contact Boston Police and Hingham Police.

7:06 a.m. **Norfolk Rd.**, traffic enforcement.

8:33 a.m. **Jerusalem Rd.**, officer wanted, 911 caller states that she is home alone but hears someone upstairs. House checked and secure.

2:08 p.m. **Ripley Rd.**, minor motor vehicle crash.

3:20 p.m. **Chief Justice Cushing Highway**, animal complaint, caller reports a dog locked in a vehicle with the windows up, caller is concerned for the dogs well being. Vehicle not located.

4:46 p.m. **Chief Justice Cushing Highway and Mendel Rd.**, motor vehicle stop, traffic citation issued.

4:58 p.m. **Chief Justice Cushing Highway**, B&E (past/report), caller reports a past B&E.

5:24 p.m. **Joy Pl.**, investigation, calls reporting no water at area of Joy Place. Left messaged with the Water Dept. L&M Holding and Water Dept. on scene finishing up. Water to be turned back on. Water Dept. confirms water to be turned back on 5:30.

8:37 p.m. **Chief Justice Cushing Highway**, motor vehicle stop, traffic citation/warning.

8:59 p.m. **Beechwood St.**, motor vehicle stop, verbal warning.

9:29 p.m. **Chief Justice Cushing Highway**, erratic operation of motor vehicle, Scituate dispatch called to let them know of a call they received from a party driving on Route 3A heading south into Cohasset of a motor vehicle driving erratically. Officer followed motor vehicle through Cohasset on Route 3A and reports the driver shows no sign of driving erratically. Called Scituate to inform them.

9:55 p.m. **Windy Hill Rd.**, mutual aid, 911 caller reports her husband had back problems and is unable to get out of his car. Mutual aid ambulance from Hull responding.

10:58 p.m. **Chief Justice Cushing Highway**, motor vehicle stop, traffic citation issued.

FRIDAY, SEPT. 26

1:49 a.m. **High School and Pond St.**, building checks.

1:50 a.m. **Deer Hill and Sohier St.**, building checks.

6:03 a.m. **Border St.**, noise complaint, caller reports "disturbing the peace." Caller states he has called several times about the trash being picked up at Atlantica before 6 a.m. Caller "wants to know why something hasn't been done." Lt. spoke with the manager, the restaurant has advised their disposal company to change the pick up time to later in the morning. The restaurant will recall the disposal company. Manager is very cooperative and apologetic.

6:19 a.m. **North Main St.**, animal complaint, caller states "there is a cat in the middle of the road." Location given as "Main Street between the golf course and Route 3A." Caller was unsure if the cat was deceased. It is a raccoon.

10:37 a.m. **Elm St.**, officer wanted, walk in party to HQ requesting to speak to an officer.

1:16 p.m. **Nichols Rd., and Atlantic Ave.**, motor vehicle crash/no injury, caller reports his wife has been involved in a motor vehicle crash.

2:09 p.m. **Grace Drive**, downed tree, DPW reports a large tree down on the wires at this location. National Grid notified and responding.

4:37 p.m. **Sohier St.**, fire investigation, caller reports an unknown alarm going off in her basement.

6:36 p.m. **Chief Justice Cushing Highway**, motor vehicle stop, traffic citation/warning.

6:54 p.m. **Norman Todd Rd., and Beechwood St.**, motor vehicle stop, traffic citation/warning.

8;05 p.m. **Pleasant St.**, suspicious activity, caller reports kids on the railroad tracks at this location, officer reports the kids weren't walking on the tracks, they have been advised.

SATURDAY, SEPT. 27

1:03 a.m. **High School and Pond St.**, building checks.

1:04 a.m. **Deer Hill and Sohier St.**, building checks.

10:53 a.m. **Doane St.**, vandalism report, caller reports several mailboxes damaged overnight.

11:13 a.m. **North Main St.**, suspicious person, walk in party is a minister, came into speak to an officer regarding a suspicious male that approached her to talk to her and he wanted to talk to her alone but she refused to do so and he said he was just released from jail and was offended that she wouldn't talk to him and he left the area.

11:20 a.m. **Pond St.**, building checks.

11:20 a.m. **Pond St.**, building checks.

11:26 a.m. **Sohier St.**, building checks, Deer Hill/Osgood School check.

2:06 p.m. Domestic, walk in party to speak to an officer regarding his girlfriend that he is breaking up with, she has stolen his car and locked him out of the house and took the keys and has not been heard from in about 3 days.

2:29 p.m. **North Main St.**, hazard, 911 callers report the train leaving Cohasset Station heading inbound has a wheel on fire. MBTA notified via bapern 3 as well and the MBTA Chief's Office. They have notified the engineer and the train is stopped.

AHEARN ESTATE
LEGAL NOTICE
Commonwealth of Massachusetts
The Trial Court
Probate and Family Court
Department
NORFOLK Division
Docket No. 08P2307EP

In the Estate of DOROTHY I. AHEARN AKA DOROTHY I. AHERN AKA DOROTHY ISABELLE AHEARN
Late of COHASSET
In the County of NORFOLK
Date of Death August 23, 2006

NOTICE OF PETITION FOR PROBATE OF WILL

To all persons interested in the above captioned estate, a petition has been presented praying that a document purporting to be the last will of said decedent be proved and allowed, and that MARIBETH AHEARN of HINGHAM in the County of PLYMOUTH or some other suitable person be appointed executor, named in the will to serve without surety.

IF YOU DESIRE TO OBJECT THERETO, YOU OR YOUR ATTORNEY MUST FILE A WRITTEN APPEARANCE IN SAID COURT AT CANTON ON OR BEFORE TEN O'CLOCK IN THE FORENOON (10:00 AM) ON **NOVEMBER 5, 2008.**

Legal Notices

In addition, you must file a written affidavit of objections to the petition, stating specific facts and grounds upon which the objection is based, within thirty (30) days after the return day (or such other time as the court, on motion with notice to the petitioner, may allow) in accordance with Probate Rule 16.

WITNESS, HON. ROBERT LANGLOIS, ESQUIRE, First Justice of said Court at CANTON this day, September 24, 2008.

Horoscope

SALOME'S STARSFOR
RELEASE WEEK OF
SEPT. 29, 2008

ARIES (March 21 to April 19) You might need to get more facts to help you work out those problems with your new project. As always, a friendly approach shows the charming Arian at his or her persuasive best.

TAURUS (April 20 to May 20) Information is what energizes ambition, and this is a good time for the ambitious Bovine to expand his or her range of knowledge and to be ready for the challenges that lie ahead.

GEMINI (May 21 to June 20) This is a good time to consider making some long-overdue decorating changes at home or in your workplace. A splash of color can help raise spirits, even on the grayest day.

CANCER (June 21 to July 22) Learn more. Earn more. That's the formula for Moon Children looking to expand their career horizons. Investigate the best places to get those training courses you'll need.

LEO (July 23 to August 22) Your creative side helps gain attention for many of your ideas. But don't neglect the practical aspects involved in implementing their move from paper to production. Good luck.

VIRGO (August 23 to September 22) A health problem should not be ignored. The sooner you check it out, the sooner you can deal with it and then move on. Some job advice comes from an unlikely source.

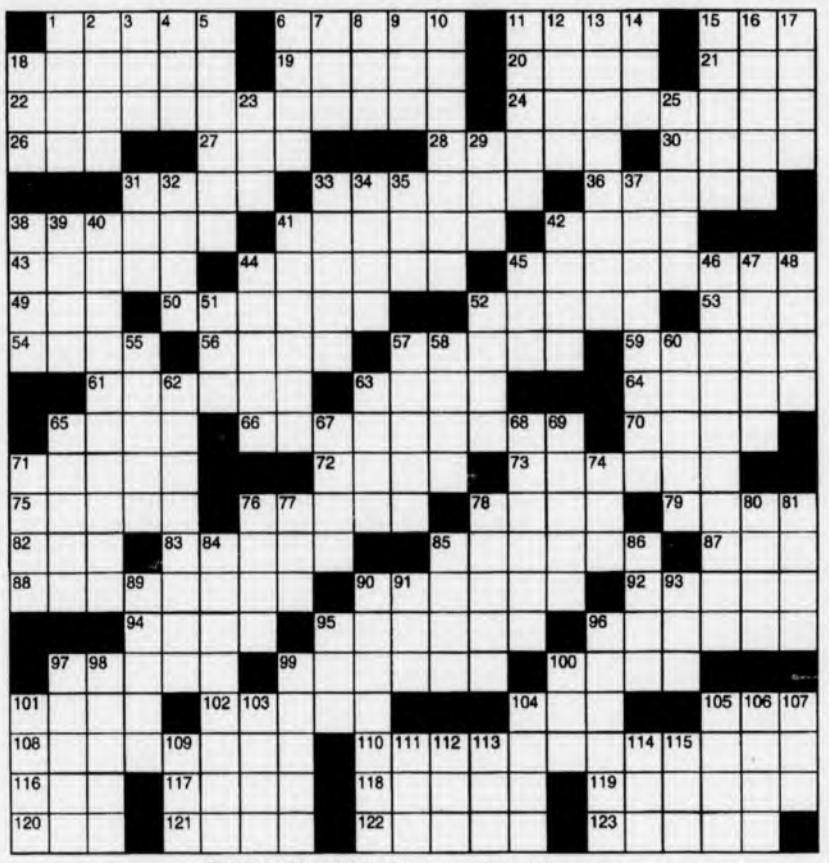
LIBRA (September 23 to October 22) A relationship takes an unexpected shift that could leave you puzzled and hurt. Asking for an explanation could help uncover the reason for this sudden turn of events.

SCORPIO (October 23 to November 21) Your busy schedule has drawn down much of your energy levels. Restore them by spending a well-earned time out enjoying the arts — perhaps with that special someone.

SAGITTARIUS (November 22 to December 21) Make that presentation with confidence. Remember: When you show you believe in yourself, it helps persuade others that you truly know what you're doing.

CAPRICORN (December 22 to January 19) Although you usually prefer doing things on your own, a group effort might be advisable at this time. Try to keep an open mind about suggestions from colleagues.

AQUARIUS (January 20 to February 18) This could be a good time to reassess some of your recent decisions and see if any adjustments should be made based on facts that you might have just uncovered.



PISCES (February 19 to March 20) An emotionally charged situation creates uncertainty about the future of your relationship. Best advice: Talk things out while there's still time to reach a new understanding.

BORN THIS WEEK: You tend to act on matters of principle despite what others might advise.

Level: Challenging

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

St. Stephen's Episcopal Church: Welcome to St. Stephen's church!

Next Sunday, Oct. 19th, Massachusetts diocesan Bishop Thomas J. Shaw, SSJE, will be visiting St. Stephen's, highlighted by a 9 a.m. worship service that day. Following a parish wide fellowship hour, the Bishop will be meeting with parish committees, including the youth group.

We are also currently underway with our new "Episcopal Church for the 21st Century" class taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. It is an eight-week class running from noon until 2:00.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, from our website, www.ststephenscohasset.org.

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 am and 10 am on Sundays, including a Healing Eucharist at 9:30 am on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's:

- Sun. Oct. 12: Services at 8 – 10 am. Godly Play children's program is at 10; Jr. High Youth group at 10 am. Noon- "Episcopal Church for the 21st Century" class begins.

Obituaries

June C. Fahey

Grandmother of four

June C. (Comeau) Fahey, 71, of Cohasset, died Sunday, Oct. 5, 2008.

Mrs. Fahley was the wife of the late Joseph C. Fahey. She leaves two daughters Michele A. Fahey of Bolton, and Jacqui Fahey Sandell of Cambridge; a brother Donald Comeau of Sandwich and four grandchildren.

A funeral Mass was celebrated Oct. 9 in St. Anthony's Church, Cohasset. Interment Cohasset Central Cemetery, Cohasset.

The McNamara-Sparrell Funeral Home in Cohasset handled the arrangements.

For an online guestbook, visit mcnamara-sparrell.com

Phyllis L. Chamberlain

Great-grandmother

Phyllis L. (Donahue) Chamberlain of Hingham, formerly of Cohasset, died Oct. 5, 2008.

Wife of the late John P. Chamberlain, she leaves her children, Thomas Chamberlain of Scituate, Peter Chamberlain of Pembroke, John Chamberlain of Rockland and Stephen Chamberlain of Scituate; five grandchildren; and six great-grandchildren.

A funeral Mass was celebrated at St. Anthony Church, Cohasset. Interment in St. Patrick's Cemetery, Rockland. Arrangements were handled by McNamara-Sparrell Funeral Home, Cohasset.

Memorial donations may be made to St. Anthony Church, 10 Summer St., Cohasset, MA 02025.

To sign the online guest book, visit www.mcnamara-sparrell.com.

Donald Conroy

Retired tree foreman for the Town of Hingham

Donald Conroy of Weymouth formerly of Hingham died Oct. 2, 2008.

Mr. Conroy grew up in Hingham and worked for the Town of Hingham as a tree foreman in the Parks Department for 35 years retiring back in 1989.

He enjoyed watching football and baseball and really enjoyed singing. He was a devoted husband, father, brother and grandfather. He was an easygoing man who enjoyed spending his time with his family. They will always remember him for his funny sense of humor and his compassion ways. He will be missed by all those who had the pleasure of knowing him.

He leaves his wife of 53 years Jean (Ward) Conroy; two daughters Patricia Ann White and her husband Charles of Bridgewater and Mary T. Simonds and her husband Paul of Cohasset; three sisters Mary Louise Cargill of Melrose, Mildred Stopyra of Florida, and Joan Conroy of Melrose; three grandchildren Diana, Jessica and Nicholas.

He was the brother of the late Paul, Joseph and Eleanor Conroy.

A life celebration service was held in Pyne Keohane Funeral Home, in Hingham, on Oct. 6 followed by a funeral Mass in Saint Paul's Church, Hingham. Interment was in Saint Paul's Cemetery, Hingham.

Visit www.Keohane.com to sign the online condolence book.

Abrahamic Religions topic of Glastonbury lecture

"Who's Afraid of American Religion?" will focus on the role of religion in recent American politics, whether it is dead among the young, how the faiths are faring and what it may mean for everyone.

Glastonbury Abbey's Inter-Religious Lecture Series Listening to Other Voices will present a program titled "Old Faiths in New Times: The Abrahamic Religions Today and Tomorrow" at 7:15 p.m., on Thursday, Oct. 16, in the Glastonbury Conference Center, 16 Hull St., Hingham.

Guest speaker will be Alan Wolfe, chairman of the Religion and Democracy in the United States task force of the American Political Science Association, TV commentator on the Pew Report on Religion in America, founding director of the Boisi Center for Religion and American Public Life at Boston College and a teacher there and elsewhere. He will give a talk titled "Who's Afraid of American Religion?," focusing on the role of religion in recent American politics, whether it is dead among the young, how the faiths are faring and what it may mean for everyone.

Wolfe is the author of more than a dozen books, including "The Transformation of American Religion: How We Actually Practice Our Faith." He has written numerous articles and lectured across the United States, Europe and the Middle East.

The lecture is free, but donations will be accepted.

BEST BET

Cosmos, still life with flowers from the artist's garden

The Dickinson Art Gallery, 3152 Main St., (Route 18) Weymouth will exhibit the paintings of Dianne Pennell Miller, as their featured artist for the month of October. The artist, a native of Braintree, is a prolific plein air artist who paints out of doors to capture the variety and vitality of natural light; she does 95 percent of her painting "on location" rather than in the studio. The gallery is open Wednesday through Saturday from 10 a.m. to 5:30 p.m. and on Sunday from noon to 5 p.m. For information and evening appointments, call 781-331-3384. Preview many of the gallery's artists online at www.dickinsonartgallery.com.

Send your calendar events to: Dorothy Dinsmore, Community Newspaper Company, 165 Enterprise Drive, Marshfield, MA 02050 or by fax 781-837-4543 or e-mail ddinsmore@cnc.com. Deadline is Friday at noon. Visit Town Commons: What's happening on the South Shore on the Web at wickedlocal.com — click on your town — then click the fun, entertainment or arts tabs.

Thursday, Oct. 9

'Ambiguity, tension and the silence of women'

Prize-winning 'Doubt' examines hierarchy of the Catholic Church

By R. Scott Reedy
CORRESPONDENT

Photo: (L-R), Christian Potts of Braintree, Jennifer White of Whitman and Mikkl Joseph of Weymouth perform in Doubt: A Parable" at the Company Theatre Oct. 10-26.

The 2005 Tony and Pulitzer-prize winning drama "Doubt" — which deals with possible clergy sex abuse in New York in 1964, but which will likely also remind some of the similar scandal in the Boston Archdiocese — opens with a young priest asking, "What do you do when you're not sure?"

Father Flynn, a follower of Vatican II, believes the clergy should be more accessible to the parish which conflicts with the more traditional views of his parochial school colleague, Sister Aloysius, who insists that her students not be coddled. These two approaches come into direct conflict when Aloysius suspects Flynn of an inappropriate relationship with the school's first African-American student. The drama, which begins performances at Norwell's Company Theatre on Friday, poses many questions including whether the older nun is right that something untoward is going on between the young priest and the pre-teen boy in his charge at a Bronx parochial school or whether the cleric is being wrongly accused. While raising provocative issues, playwright John Patrick Shanley asks playgoers not only to ponder Father Flynn's guilt or innocence, but also to consider the more fundamental question of just what is doubt?

First produced off-Broadway at the Manhattan Theatre Club four years ago, "Doubt: A Parable" transferred to Broadway in March 2005 and closed on July 2, 2006. Cherry Jones, a former A.R.T. company member, starred in both the off-Broadway and Broadway productions and also headlined the 2007 national tour, which played Boston's Colonial Theatre. Jones won her second Tony Award as Best Actress for her unforgettable portrayal of Sister Aloysius.

"It's incredibly exciting to be involved with this show," explained director Steve Dooner by telephone last week. "It was the play to see in New York."

Dooner, who teaches Drama and English at Quincy College when he is not either acting or directing, acknowledges the show's New York success, the December release of a Shanley-directed feature film version starring Meryl Streep and Philip Seymour Hoffman, not to mention this summer's Gloucester Stage Company production, have heightened awareness of all things "Doubt."

"I knew the level of scrutiny on this subject matter would, of course, be great, and that many would also have pre-conceived opinions on how the play itself should be performed. With that in mind, we've been rehearsing intensely. Our actors are working very hard to bring out the ambiguity and tension, and to show the silence of women in the church. We understand how very important it is to present the value of both sides," says Dooner of his cast, which includes Duval White, Christina Bynoe, and company theater veterans Christian T. Potts ("The Full Monty," ("Cabaret") as Father Flynn and Miki Joseph ("Showboat") as Sister Aloysius.

"There is a misunderstanding about what the play is about. It is about certainty and when you begin to doubt, not unlike when people began to doubt the Catholic Church," says Dooner, who is quick to point out that Shanley has not written a two-act indictment of the church. "This play never looks down on Catholicism. It's actually celebratory in the way it presents what a good priest and nun are all about."

Dooner went directly to Shanley to learn more about the subject he knew firsthand from his own childhood.

"I have very good memories of being raised in the Catholic Church and being an altar boy about 10 years later than when this story is set. I knew, however, that the system of hierarchy was very much in place in the 1960s," says Dooner. "This is one of the topics I raised when I wrote to Shanley. I wanted his input on just how nuns and priests interacted in that time. Shanley wrote back and told me, 'You shouldn't torture yourself too much about siding with Father Flynn, because there is no solid shred of evidence against him in the play.'"

Dooner says he has reexamined his own thoughts on the play and the Catholic Church since he took on his latest assignment.

"What this play is really supposed to do is raise the power of doubt in our minds — a kind of suspension of judgment — so that we can try and reexamine ourselves and get rid of the junk and baggage that we bring to judgment. It also asks us to look at authority and how priests and nuns use and abuse their authority and how they often benefit from the structure they inhabit. The conflict between the priest and the nun is so beautifully pregnant for that reason. It has isotopes shooting off in all directions as to whether the nun, in her certainty and the older form of her Catholic faith, is in a position to see Father Flynn clearly or whether Father Flynn, because of his openness, is the one who sees things more clearly.

"What you have all through the play is that tension between the new and the old, between black and white, between the outgoing and introverted. It is a very fascinating look at how the church and society have evolved over the past 40 years."

Shanley himself put it best, according to Dooner, when he wrote: "Certainty is often a feeling and not often anything more. The power of that feeling can be corrupt and not founded on anything truthful or just."

The Company Theatre will present "Doubt: A Parable" from Oct. 10-26 at 30 Accord Park Drive, Norwell. For tickets and information, visit the box office, call 781-871-2787 or go online at companytheatre.com

Union Jack to 'encore' at Mount Blue on Oct. 11

Union Jack's return "home" to Mount Blue in September was so successful that the South Shore classic rock 'n' blues band will return to the Norwell bistro and lounge on Saturday evening, Oct. 11, at 9 p.m. for an encore performance.

The group performs rock hits from both sides of the Atlantic, featuring the music of The Rolling Stones, The Black Crowes, Aerosmith, Eric Clapton, The Allman Brothers, J. Geils Band, Red Hot Chili Peppers, Tom Petty, Peter Gabriel, Neil Young and many others.

Union Jack's most recent appearance at Mount Blue featured several special guests, including noted Boston area harp player Tom Perez and the legendary "voice" of the J. Geils Band, Peter Wolf, who performed several songs with the band. Call Mount Blue for reservations at 781-659-0050. For information, visit unionjackband.org or mountblue.com.

Fall foliage and festivals go hand-in-hand

Kim Foley MacKinnon
GATEHOUSE NEWS SERVICE

Suggest a drive through the country to look at the changing leaves at my house and you'll be greeted with moans and groans.

Bring up a harvest festival or other cool event that just happens to require a drive through colorful foliage areas and you actually get excited responses. Try one of these options to help get the gang out the door.

Massachusetts

Head to the gorgeous Berkshires to go apple picking at Hilltop Orchards. You can take a free hayride (weekends from 11 a.m. to 4 p.m.) to pick from more than two dozen varieties of apples. Or hike up one of the farm's backcountry trails. At the top of the hill, you'll be rewarded with 20-mile views of the southern Berkshire Mountains. Afterward, enjoy a glass of wine or cider from the orchard's winery and pick up some baked goodies to bring home (800-833-6274) ; www.hilltoporchards.com).

New Hampshire

The White Mountains offer beautiful vistas, no matter the season, but in the fall take a trip to the charming town of Jackson and you can also enjoy quirky Pumpkin People. Thanks to a local contest, businesses and homeowners display their pumpkin creations throughout the village. You can take a self-guided tour - businesses offer maps. You might see pirates, "three pumpketeers," or a bride and groom, all with pumpkin heads. A judging contest to pick the favorites takes place this weekend (Columbus Day Weekend), but the pumpkins remain on display at least through Oct. 20. (603-383-9356); www.jackson-nh.com.

Rhode Island

Every weekend day in October at the historic, family-owned Pachet Brook Tree Farm in Tiverton, you can go on a 30-minute hayride and pumpkin hunt - $8 per person, offered 10 a.m. to 4:30 p.m. Look for scarecrows and other Halloween decorations and surprises (not scary) as you go through the woods and fields of the farm. At the end of the ride, you'll end up in a pumpkin patch, where everyone gets a pumpkin. You can also do the hayride on weekdays, by appointment, (401-624-4872); www.pachetbrook-.com).

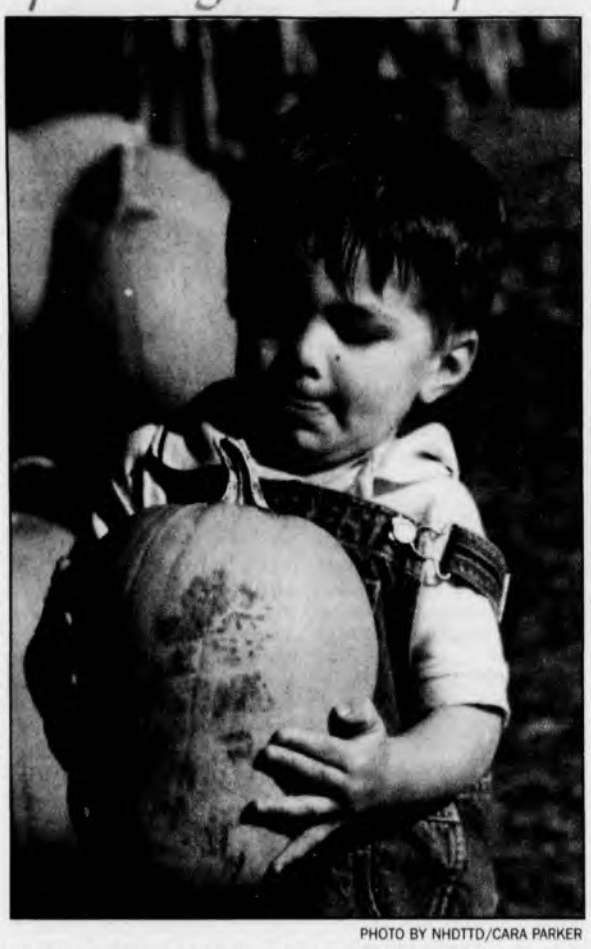

PHOTO BY NHDTTD/CARA PARKER

The perfect pick at Appleview Orchard in Pittsfield, New Hampshire.

Vermont

The historic Billings Farm & Museum in Woodstock has its third annual Wagon Ride Weekend on Oct. 18 and 19. Take a 30-minute, narrated horse-drawn ride around the farm fields and along the Ottauquechee River. The working dairy farm, opened in 1871, has farm life exhibits, a restored and furnished farmhouse, plus programs and activities for the whole family. You might see the cows being milked or help make ice cream. Check online for other programs (802-457-2355; www.billings-farm.org).

Maine

Take a trip back in time, and through Maine, at the 24th annual Harvestfest, Oct. 17-19. It's a colonial-themed celebration in York Beach and York Village. Enjoy an old-fashioned marketplace with crafts from across the country, hay rides, an ox roast, a corn toss challenge and a pumpkin stroll (bring your own carved pumpkin to participate). There's also a classic car show, Native American Pow-Wow, food and live music planned. (207-363-4422) ; www.gatewaytomaine.org.

Connecticut

All aboard the Pumpkin Patch Trolley in East Windsor at the Connecticut Trolley Museum. Take a ride on an authentic trolley to see the pumpkins (enjoying the foliage en route), pick your pumpkin, and return for decorating and games. The program runs Fridays, Saturdays and Sundays, through Oct. 26. The museum's collection of passenger and freight streetcars, interurban cars, elevated railway cars, service cars and locomotives is also impressive. (860-627-6540) , www.ct-trolley.org.

Fall weekend getaways

If you are venturing a couple of hours or more from home, or just want to make a special weekend of leaf-peeping and other activities, many hotels and inns in New England offer special fall packages. Here are a few options.

The "Happy Trails" package at the Orchards Hotel (800-225-1517; www.orchardhotel.com) in Williamstown, Mass., has a great deal: Starting at $189 per couple, you get accommodations, breakfast for two, a knapsack filled with hiking maps and local guides, homemade granola, water bottles and a disposable camera. Offered through November.

At the Eagle Mountain House (800-966-5779); www.eaglemt.com), near Jackson, N.H., book the Eagle Escape package, which includes two nights' accommodation, dinner for two one evening and full country breakfasts daily. The historic inn, which opened in 1879, is listed on the National Trust for Historic Preservation. Rates are from $159 per person, through December.

Close to Woodstock, Vt., the 45-room Hartness House (800-732-4789); www.hartnesshouse.-com) offers a New England Fall Foliage deal that includes two nights' accommodations for two, plus two breakfasts and one dinner. Prices start at $309, through October.

The "Escape in Farmington" package at the Hartford Marriott Farmington (800-228-9290; www.marriott.com) in Connecticut, starts at $199 and includes accommodations, plus dinner and breakfast for two, through December.

Ballot questions to consider

Voters will choose more than President Nov. 4

By Carol Britton Meyer
CMEYER@CNC.COM

Unlike the recent state primary, which drew just over four hundred Cohasset voters, the Nov. 4 State/Presidential election and controversial ballot questions are expected to attract a larger crowd.

First, there's the contest between Presidential candidates Republican John McCain and Democrat Barack Obama.

Then there are the three controversial binding statewide ballot questions related to reducing and then eliminating the state personal income tax; decriminalizing marijuana use and instituting a new system of civil penalties; and prohibiting dog races on which betting or wagering occurs. There is also a non-binding wind power question that will be on the ballot in several South Shore communities, including Cohasset. (See information box.)

State Rep. Garrett Bradley, D-Hingham, said it's important for voters to realize that the first three questions are binding. "These are not [just] questions gauging voters' opinions on these issues [except Question 4]," he said. "No legislative approval is needed for them to become law."

While he said he understands voter frustration over the state of the economy and the rising costs of oil and gas,

A treasure among trash

Recycling Transfer Facility guys get the job done

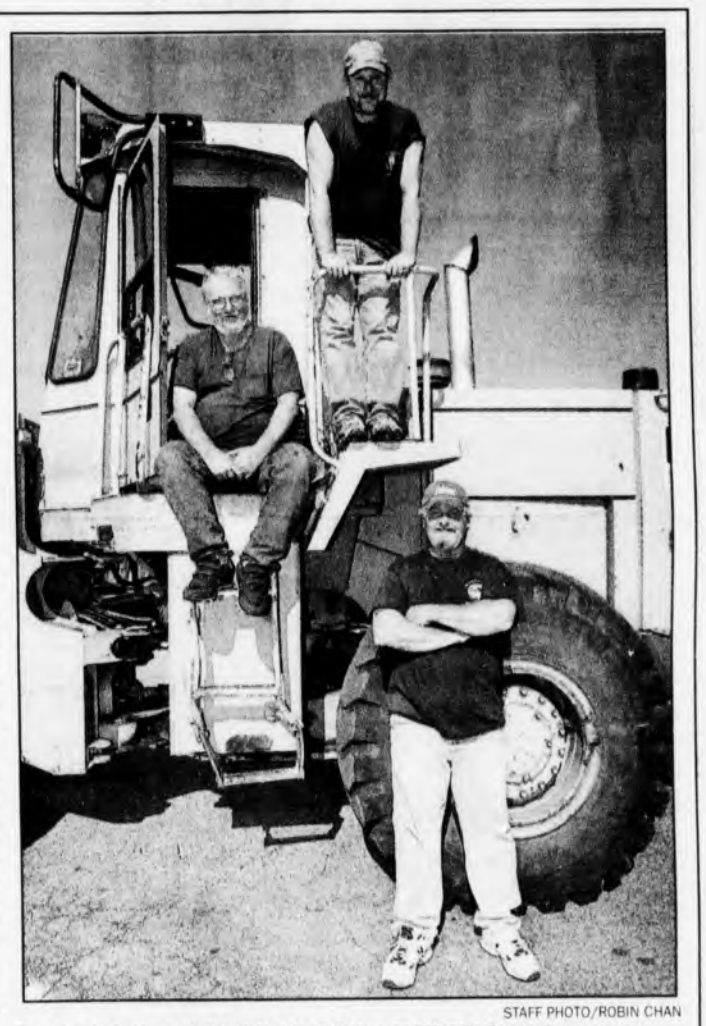
By Nancy White
NWHITE@CNC.COM

For some it's a chore, for others it's a treasure hunt and still others it's an opportunity to do their part to save the environment. It just may be the only place in Cohasset where nearly every household must make at least one stop every weekend—the Recycling Transfer Facility.

To greet, guide and generally keep residents in line through the sometimes-tricky process are three guys who stand ready for whatever residents throw their way. Charlie Guarente, Phil Edgett and Chuck Baker are the guys who keep things moving as the facility accepts the town's refuse.

"It's three guys versus the whole town," jokes Phil Edgett, one of the RTF workers, but on many occasions, like every Sunday, when the facility it overwhelmed with cars and residents it couldn't be more true.

"It can get pretty crazy up here," says Charlie Guarante, the working foreman at the RTF. Although there has never been an official car counter, the guys estimate as many as 1000 cars can make their way to the RTF, located off Cedar St., in a single day.



Cohasset is ahead of the curve when it comes to recycling — and in doing so has saved the town a lot of money along the way. In 2007, Cohasset disposed 1755 tons and recycled 1023 tons of paper, cardboard, bottles and cans. Cohasset has one of the highest recycling rates (37 percent) on the South Shore. Part of the reason for the recycling success is the the RTF has been on a "pay as you throw" system since 2001, only three other South Shore communities (Marshfield, Holbrook and Scituate) are on the pay-as-you-throw system.

Being a transfer station has made all residents change the way they think about the Cohasset "dump."

"For the most part, people have their routines," said Guarante, with some being zealous about recycling, most being diligent and a few who haven't adjusted well to change.

"Whatever you want to throw away, you have to break it down into parts,"

SEE TREASURE, PAGE 8

STAFF PHOTO/ROBIN CHAN

From top to bottom, Phil Edgett, Chuck Baker, and Charlie Guarente pose on a loader at the Recycling Transfer Facility.

DRESSED FOR SUCCESS

PHOTO/CRAIG GOEDECKE

Laces, left, held by Taylor Kelley, and Charley, right, held by Megan Kelley, are owners of the dogs, who won for best costume following Cohasset's Annual Costumed Dog and Pet Parade held Thursday afternoon at the South Shore Music Circus Parking Lot. For more on the event, see page 4.

Fiscal outlook not good

By Nancy White
NWHITE@CNC.COM

It comes as no surprise, but Town Manager Bill Griffin made it clear this week the town and its finances are in for some challenging years ahead. Town departments will be buckling down with their expenses for the foreseeable future.

Essential spending only. No vacant positions will be filled. Revenues must be maximized. Those were the directives given from Griffin to keep the town afloat for this fiscal year and the next.

"The national and international economic crisis combined with its negative impact on the finances of the Commonwealth of Massachusetts place local finances in a precarious position," Griffin stated in the memo sent to all department heads, boards, commissions and committees on Oct. 7.

PICTURE THIS/JoAnne Lehr

PHOTO/NANCY WHITE

This week the Mariner caught up with JoAnne Lehr, the volunteer coordinator for the Appalachia Service Project's Pumpkin Patch fundraiser. ***For more on the Pumpkin Patch, see the story on page 7.***

Name: JoAnne Lehr.

Occupation: Teacher and Pumpkin Patch volunteer coordinator.

Best day of your life: The day I met my husband...I was life guarding and he faked drowning in front of me so I would 'save' him. The rest is history!

Best vacation: Myrtle Beach.

Favorite season: Fall in New England.

Favorite holiday: Christmas, with all our traditions and family and friends gathered together, is such a wonderful time of year.

Favorite junk food: Utz Cheese Curls.

Best book: "The Da Vinci Code."

Best actor: Johnny Depp, especially in "Bennie and June."

Best TV show: "House."

Favorite music, song or artist: Rod Stewart, "The Great American Song Book."

Fun fact about yourself: I've been involved with Cohasset ASP for 20 years, and the Pumpkin Patch for 6 years.

Pet peeve: Inconsiderate people.

Goal: To raise a healthy, happy family.

Person you'd most like to meet: Leonardo da Vinci or Ben Franklin...amazing minds!

Biggest worry: The safety and happiness of my family, friends...and our world.

Best part of Cohasset: The wonderful, caring people of our community who help to support programs like ASP!!

BRIEFLY

New restaurant for Pacini's

The Board of Selectmen have received an application for a new all alcoholic restaurant licenses for the Route 3A property formerly occupied by Pacini's. However, the Selectmen can't entertain the application because Pacini's still holds the liquor license for the premises. When Pacini's closed last winter they did not surrender their liquor license.

The Selectmen will hold a hearing to consider the revocation of Pacini's license due to the fact they have ceased to conduct the licensed business and there is a demand for it.

Selectmen review Town Meeting articles

The Selectmen reviewed nine articles that are set to go before voters at Special Town Meeting Nov. 17.

Fiscal 2009 budget adjustments: First, additional funds (number to be determined) are needed for the town's unemployment compensation. The $20,000 budget has nearly been exhausted due to unemployment claims in the school department. Second, the debt service budget needs to be adjusted due to some refinanced bonds and the state paying the remaining Osgood School reimbursement in a lump sum. The Selectmen did not vote on their recommendation.

Union contracts and other salary adjustment: This article requests funding for those fiscal 2009 cost items contained in collective bargaining agreements between the town and unions representing the firefighters, library employees, clerical employees, and non-union and contract employee salary adjustments. The Selectmen did not vote on their recommendation.

Release of easements: The Water Commission is requesting Town Meeting authorization to release two easements no longer of use to the town: one, at 100 Pleasant St. and two, on Nichols Road. With the release of the 100 Pleasant Street easement, the Water Department will begin using another town owned piece of land to access the Bear Hill water tower. The Selectmen postponed their recommendation to allow the Water Commission time to talk with the abutters to the new Bear Hill water town access point.

Conservation restrictions for open space: The five-year process of acquiring open space around Lily Pond, the town's primary drinking water supply, is nearing an end. An article requests the town to support the establishment of a conservation restriction on approximately 200 acres of land in the watershed. The Selectmen recommended approval of the article in a 4-0 vote (Selectmen Paul Carlson was absent).

Zoning bylaw reconciliation: This housekeeping article seeks to correct several typographical and grammatical errors in the zoning bylaws. It contains no substantitive changes to the zoning bylaws. The Selectmen recommended approval of the article in a 4-0 vote (Selectmen Paul Carlson was absent).

Gas line easement: St. Stephen's church has requested a gas line easement from Highland Ave. over the grassy area between the Town Hall parking lot and their property at 29 Highland Ave. The Selectmen recommended approval of the article in a 4-0 vote (Selectmen Paul Carlson was absent).

Elder Affairs Center: The Council for Elder Affairs seeks up to $10,000 from free cash to do feasibility studies and preliminary design plans on several possible locations for a new or renovated Elder Affairs Center. Selectmen Ralph Dormitzer said this project was not a "must have" for the town given the town's current financial state. Selectmen Fred Koed disagreed, applauding the Friends of Cohasset Elder Affairs efforts to raise money to couple with town funds. The Selectmen held off on making a recommendation until they could get a better idea of the town's bigger financial picture.

Alternative Energy Committee: The Alternative Energy Committee is seeking $10,000 in a free cash appropriation to keep their energy consultants for another year. The town previously allocated $20,000 for energy consultants. To date, the town had received $17,000 in grant funding because of the consultant's work. The Selectmen held off on making a recommendation until they could get a better idea of the town's bigger financial picture.

Town Hall restoration: The Town Hall restoration committee will be seeking the authority to accept grants on behalf of the town as part of their restoration efforts. No funding will be sought at this town meeting, rather the committee is looking for the opportunity to present the project to the town and receive feedback.

Lothrop Lane article removed

By Nancy White
NWHITE@CNC.COM

Selectmen Fred Koed and Karen Quigley received several phone calls after word got out an article was on the Special Town Meeting warrant seeking a permanent easement over Lothrop Lane to gain access to Sandy Cove beach and the Treat's Pond drainage pipe.

The land taking article requests Town Meeting to authorize the Board of Selectmen to acquire by purchase, gift or eminent domain a permanent easement or right of entry over 19 properties on both Lothrop Lane and Atlantic Ave.

The Board of Selectmen have had numerous discussions with the residents of Lothrop Lane who have expressed a desire to cease using their private street as means to access Sandy Beach except in emergency circumstances. The town has an easement (which is currently in conflict) on the other side of the beach via a private driveway, often called the Bigelow driveway.

"I think it is counter-productive to our negotiation stand to have this article in there," said Koed.

Selectmen chairman Ted Carr said he might be responsible for the inclusion of the article on the warrant; he said he asked Town Counsel to draft articles for all the opportunities so the Selectmen could then narrow their focus. Carr agreed with Koed and Quigley that the Lothrop Lane option was not a viable solution.

In a 3-0 vote, Selectmen removed the article from the draft warrant.

Excluding the now removed Lothrop Lane article, a total of four articles are on the warrant in regards to Treat's Pond. One article asks the town to consider seeking rights of access to Sandy Cove via Atlantic Ave. Another requests the town to commit to the Army Corps of Engineers saltmarsh restoration project (no funding amount is currently listed). Another requests funding for a Treat's Pond Atlantic Ave. overflow pipe project according to Coughlin Engineering Services flood control master plan. A fourth article seeks funding for a Sandy Cove outflow pipe extension. The articles are still in draft form with no cost estimates. Selectmen will review these articles at their meeting next Monday night, Oct. 20.

Inclusionary bylaw not ready for prime time

The inclusionary zoning bylaw may have to wait another Town Meeting cycle before heading to the prime time. The Housing Partnership Committee brought forth a proposal for a re-vamped inclusionary bylaw leading up to the 2008 Annual Town Meeting in March, but the article was scratched after the Planning Board suggested the bylaw wasn't ready for the Town Meeting floor. It was the intention to have the Housing Partnership Committee continue working on the bylaw and return to the Planning Board with subsequent drafts.

According to a memo sent from the Planning Board office to the Town Manager, since the withdrawal of the article, the Planning Board had not heard from the Housing Partnership Committee on the inclusionary bylaw issue. They found out recently an inclusionary zoning bylaw article was submitted for the Special Town Meeting (Nov. 17) warrant.

"For an article of this scope, the Planning Board would expect such discussion and review to require several meetings prior to public hearings," states the memo. The current Planning Board schedule and application load limits their availability for a public hearing on the inclusionary zoning article.

The Planning Board voted unanimously to alert the Town Manager of their inability to advertise and hold adequate public hearings on the article prior to Town Meeting.

POLICE BEAT

Dirt Bike 'fire' on S. Main Street

By Nancy White
NWHITE@CNC.COM

What was originally thought to be a burning building turned out to be a dirt bike burning rubber in a garage. A cruiser driving near the corner of S. Main and Summer St. saw heavy smoke coming out of the second floor of the building. The officer went over to the building (147 South Main St.) with his spotlight to see if he could see the origin of the smoke. He found the smoke was coming from a second floor window. The officer knocked on the door to no response. He broke a pane of glass and then reached inside to open the door. Immediately, he was hit with heavy acid smoke in the doorway.

A resident met the officer in the smoke filled hallway and told him the smoke was coming from a dirt bike in the garage met the officer. One of the apartment residents was spinning the wheels of a dirt bike creating the smoky conditions.

The fire department was called in to help in ventilating the building. They opened the garage doors and windows in the apartment.

The building inspector was asked to come down the following day to see if any damage was done to the building.

Temporary lights

The temporary street lights regulating one-way traffic on Jerusalem Road went into a flashing mode a few times last week. Residents called in the problem on several occasions and police officers responded to help direct traffic while a fix was made.

Police Chief James Hussey said the lights run on solar power and after several cloudy days it no longer had power stored up. When the lights no longer have power, it goes into a flashing mode, said Hussey. A generator was installed as a backup to the street light system. The Little Harbor sewer project contractor L&M Holdings is overseeing the light. Police dispatch has an emergency number to call in the event the lights malfunction again.

Early trash pick-up

A complaint was logged about early morning trash pick-up at a local business. A nearby resident called in about 6:20a.m. to say a dump truck was picking up trash before 7p.m. There isn't a specific bylaw regulating the time trash can be picked up, but there is a bylaw regulating no construction work between 11p.m. and 7a.m. The caller indicated this was an ongoing problem.

"In this case, the business is trying to work with the trash provider to get them to come later," said Hussey.

Tractor hits car

Last Monday afternoon around 1:30p.m. near the intersection of North Main St. and Sohier St., a large tractor working on the Little Harbor sewer project moved abruptly hitting a car traveling on North Main. A piece of the tractor hit the side of the car causing minor damage to the car. The two parties exchanged papers with the help of an officer. In many cases where there has been damage to property, the project contractor LM Holdings has corrected or paid for the damage.

Drunken disturbance

A woman who had been drinking elsewhere showed up at the Legion Post on Summer St. looking to get in last Tuesday shortly after midnight. The bartenders didn't let her in and called the police when she objected. In talking to the woman, it was clear to the responding officers she was under the influence of alcohol. Because the woman was local and there was a responsible party at the home, the officers drove her home.

"If someone is local or if someone is available to take care of the person to make sure they are safe, we will bring them home," said Hussey. Protective custody, where a person is kept at the police station, is used to protect the person from themselves.

Vandalism

The owner of a commercial building on Ripley Road that is currently being rehabbed noticed tiny holes in five windows. The damage could have been done by BB gun fire. However, the owner is unsure of when the damage was incurred.

"The owner has no idea if it happened two months ago or two weeks ago," said Hussey. The former tenant has never mentioned the damage to the building owner or may not have even realized it.

Because of the lack of a time frame, Hussey said it would be fruitless to devote manpower to investigating the matter. The matter was logged so the building owner may seek an insurance claim.

"The only way we as a police department will have a chance to investigate it is if it reported soon after it happens. It's hard to do any follow up on something like that," said Hussey.

Walking in the street

An intoxicated man was found walking in the middle of traffic near the intersection of Sohier St. and Ripley Road last Wednesday afternoon around 2p.m. He was transported back to his home.

"It was in everyone's best interest to get him off the street," said Hussey.

Lost

Last Thursday around 2:50 p.m. a call came in about an erratic driver crossing the yellow line on South Main St. When the police responded they found the car in St. Anthony's Church parking lot.

As it turns out, the car was driven by an out-of-state couple looking for a specific address on South Main St. They were driving slow on the road to look for the address numbers and admitted they did swerve a little.

Although this specific instance turned out to be innocent, Hussey said he would never discourage citizens from calling in what they believe to be an erratic driver.

"We appreciate those calls from the public and it's something we don't mind responding to. Lots of times we do find people under the influence of drug and alcohol," said Hussey.

Stop sign

A large flatbed truck turning from Depot Court onto South Main St. last Friday morning hit the stop sign bending it over. A caller was able to give the police department a partial plate number and the police are following up to determine who owns the truck and who was driving.

"If any restitution is needed, we will pursue it," said Hussey, adding the truck driver may not have even realized he hit the sign.

OUI arrest

A 39-year-old male Cohasset resident was arrested for driving under the influence of alcohol early Sunday morning at 1:37a.m. An officer in a marked cruiser observed a blue Land Rover speeding on Sohier St. toward N. Main, then ignored the stop sign and turned onto N. Main heading toward the village. The officer activated his blue lights and pulled the car over just before it entered the village.

Based on the officer's conversation, observation and investigation with the driver, he determined the driver was driving under the influence of alcohol. The driver was arrested for operating a motor vehicle under the influence of alcohol, negligent operation of a motor vehicle and failure to stop. The driver was brought to the station and his car was towed.

We'll make you smile.

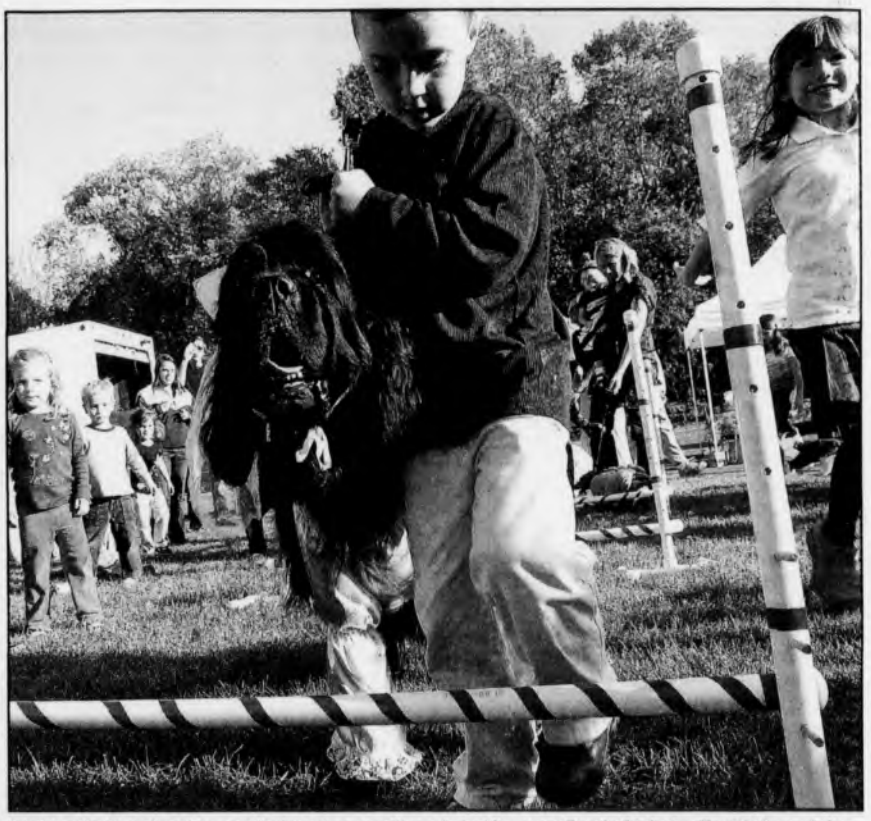
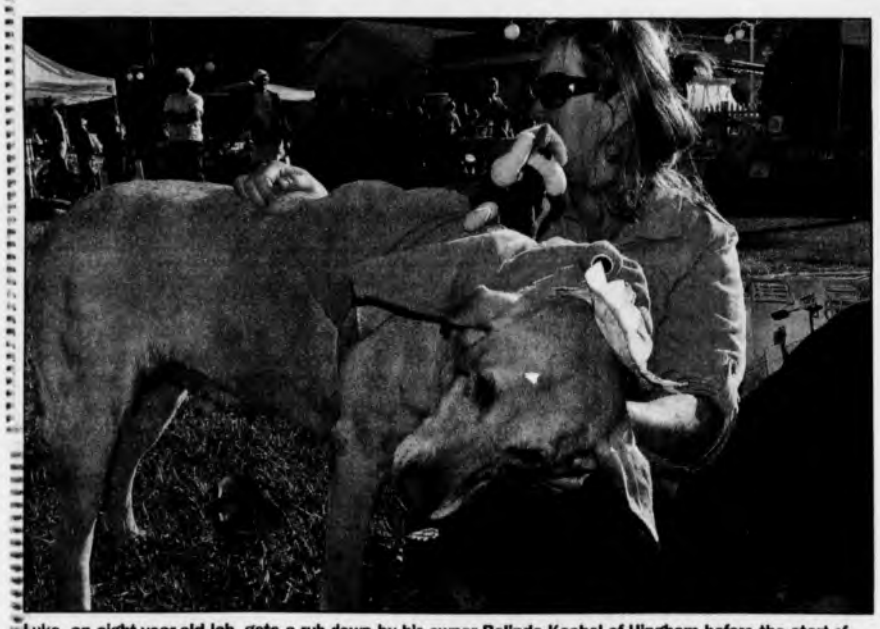
Pooches on parade



Cohasset's annual Costumed Dog and Pet Parade makes its way through the South Shore Music Circus parking lot last Thursday afternoon. The event, which was held in conjunction with the Farmers Market, was hosted by the Cohasset Dog Wash.



Eleven-year-old Sydney, a Basenji shepherd, shows off her purple butterfly antler-like costume while taking part in Cohasset's annual Costume Dog and Pet Parade. Her owner, Deanne McDonnell of Cohasset, is walking Sydney.

Lucy sports a pink tie-dyed wrap along with a pink headband during Cohasset's annual Costume Dog and Pet Parade. Owners Trish and Noel Hart of Cohasset are walking Lucy.

Misty, a Newfoundland, is coached to step over the pole by his owner Bernie Mulcahy, 5, of Cohasset during an agility game held after Cohasset's annual Costume Dog and Pet Parade Thursday afternoon. Misty came dressed as a pet bride.

Luke, an eight-year-old lab, gets a rub down by his owner Belinda Kachel of Hingham before the start of the annual dog parade. Luke later won for the most obedient dog.

Two-year-old Hannah Nicholls of Cohasset gives Misty, a Newfoundland, a little pat on the head before taking part in Thursday's dog parade at the South Shore Music Circus parking lot. Misty came dressed as a bride.

Billy Steverman of Minot, formerly of California, slices up some watermelon while helping his Parents Coop Farmstand during the Farmers Market held during Cohasset's Annual Costumed Dog and Pet Parade held Thursday afternoon in the parking lot of the South Shore Music Circus.

Interpreting the MCAS scores

Assessment guides changes in classroom at all levels

By Nancy White
NWHITE@CNC.COM

"We're focusing on the development of open response answers, our focus needs to be on writing."
— Osgood Principal Janet Sheehan

The three principals from the four schools paid a visit to the School Committee to give them an in-depth look at the MCAS scores.

News was mostly positive: all Cohasset schools and grade levels made their annual yearly progress target and in some cases students scored among the highest on the South Shore. Superintendent of Schools Denise Walsh had given the school committee a birds' eye view of the MCAS scores at a meeting two weeks ago.

Each school's principal brought forth a presentation delving into the scores and what they mean for the school district. The presentation attempted to not focus on the straight scores rather offer some interpretation of the scores—what they mean and how they serve as a basis for planning for the current and future school years.

The high points include some of the best scores in the South Shore region. Cohasset ranked number one for percentage of proficient and advanced scores for grade five math, grade seven and eight English and math, and grade 10 science. The region included the nearby public school districts of Hanover, Hingham, Norwell, Scituate, Duxbury, and Marshfield.

The Massachusetts Comprehensive Assessment System, or MCAS, is an annual statewide test in its 11th year of administration.

MCAS tests include multiple choice, open response, and short answer questions and writing prompts. School and district results are used to evaluate, revise, and update the curriculum and instruction programs, aligned with the Massachusetts Curriculum Frameworks. Beginning in the third grade, each year students take the MCAS tests yearly until sixth grade and then again in grade eight and 10.

Passing the grade 10 MCAS is a requirement for high school graduation.

As the district — and all other Massachusetts public schools — move toward 100 percent proficiency, it becomes increasingly difficult to achieve the set achievement goals, said curriculum director Nancy Mrzyglod. This is evidenced by two-thirds of the middle schools in the state not making their annual yearly progress goals for the 2008 test, she said. According to the federal No Child Left Behind act, all students are required to be proficient and above in reading and math by 2014.

"I expect by 2012 we won't be making annual yearly progress goals," said Mrzyglod.

Deer Hill Grade 3

Although the third grade students attend Deer Hill, Osgood Principal Janet Sheehan presented the grade three scores because Osgood's curriculum prepares the students for the test while in kindergarten through second grade. Seventy-five percent of students scored in the proficient and advanced categories for the English language portion of the MCAS. About one-fifth of the students scoring in the needs improvement category were just one or two points away from a proficient score.

Sheehan found the student areas of strength were vocabulary and open response to fiction, while they struggled with the open response to non-fiction and writing portions of the test.

Ninety minutes of reading instruction daily, more professional development on teaching writing and open response, the expertise of a reading specialists and the establishment of a remedial reading group in grade 2 are just some of the efforts put in place to target MCAS problem areas.

On the math portion of the MCAS 68 percent of students scored proficient and above. Sheehan said there would be a focus on fine-tuning the students' math open response skills and numbers sense questions.

"We're focusing on the development of open response answers, our focus needs to be on writing," said Sheehan. She wants to both challenge students to move them not only from needs improvement to proficient, but also proficient to advanced.

Deer Hill Grades 4 and 5

At the fourth and fifth grade levels Deer Hill Principal Jennifer deChiara said the students were keeping up with the state standards and the school was still meeting its annual yearly progress mandated by the state. At the same time, she said the test results were a "mixed bag." In both the math and reading portions of the test, students excelled at the multiple-choice questions, but has lower scores on the open response questions.

The fourth grade reading tests showed a nice increase in the long composition scores and the fifth grades scores has notable increases on the math and science scores, deChiara said.

"It concerns all of us that kids are still struggling with the open response," said deChiara and a continued focus will be placed on writing in the classroom.

In many respects, the MCAS scores reflect what's going on in the classroom and the scores initiate changes in the classroom. This year, deChiara changed the structure of some of the classroom teachers instruct in all subjects. In the past, some teachers specialized in math or English.

"I think it strengthens the faculty overall," said deChiara. The addition of a math specialist and a math instructional consultant for teacher professional development are on board to help teachers and students. More technology aspects have been added to the classroom as well to aid in instruction.

DeChiara said the fourth and fifth grade students do need new social studies books in the near future, "the current texts are not well aligned (with the Massachusetts Curriculum Frameworks)."

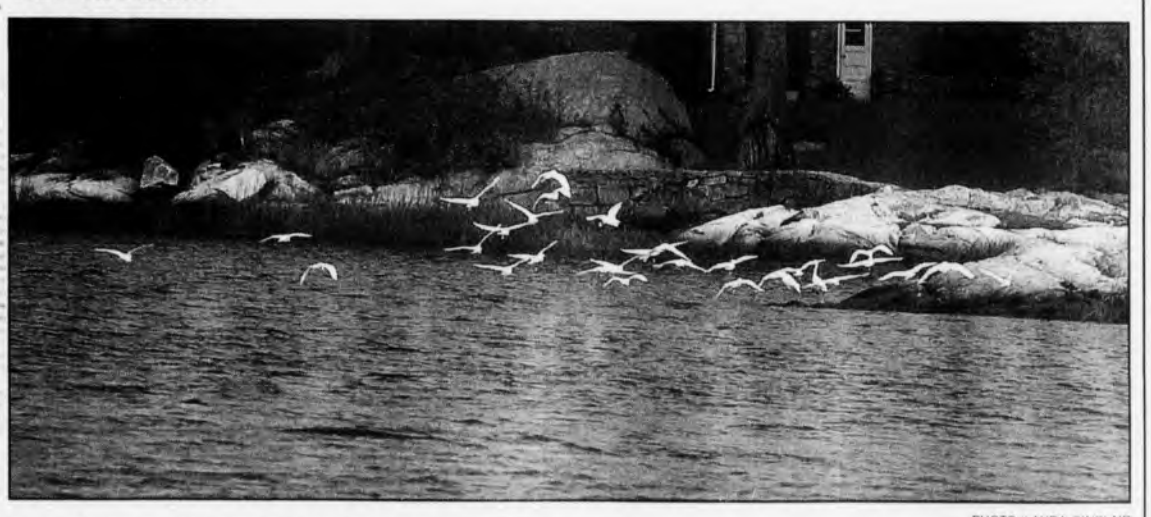
"We are seeing improvement and there is no reason why we shouldn't be seeing more," said deChiara.

Middle-High School Grades 6 to 10

Middle-High School Principal Joel Antolini proudly reported the sixth, eighth and tenth grade students exceeded the state performance targets.

"We're seeing more students in advanced in progressive years," said Antolini. He credits improved scores to block scheduling, math labs (an extra block of math instruction per week) and the new science spiral curriculum, to name a few. Recently implemented changes such as increased graduation requirements and changes to the high school schedule including two semesters of English per year he expects to make a difference on test scores.

Like the other two schools, Antolini is not seeing the students excel at the open response questions. Antolini said the students have done fairly well with topic development and writing conventions, but fall short in expanding on topics. The struggle with open response was found in both the math and English portions of the MCAS.



Special services director Linda Gill said the special education students were making strides on all levels. She attributed their continuing improvement to the co-teaching mode, access to the curriculum and having higher expectations for the students.

"The higher expectations made an enormous difference," said Gill. As one example, she said two special education students who failed the MCAS exam in eighth grade turned around and scored advanced in grade 10.

Town offers flu clinics for high-risk residents

The Cohasset Board of Health has scheduled two flu clinics from 10 a.m. to noon on Tuesday, Oct. 21, and Tuesday, Oct. 28, in the auditorium of Cohasset Town Hall, 42 Highland Ave.

The clinics are only for residents 65 and older and for high-risk adults, which includes those with asthma, chronic pulmonary disease, diabetes or heart disease.

Residents are asked to wear short sleeves, and seniors are reminded to bring Medicare part B and/or Senior Health Insurance cards.

Courtney Culhane runs for The Jimmy Fund

AROUND TOWN

JENNIFER PIEPENBRINK

SHARE NEWS

Hello Cohasset, how is everyone doing? I hope everyone enjoyed the long weekend that happened last week. This weather has been amazing and pumpkins, apples and fall time fun is around all over the place.

Please send in news, photos and event information about some of these fun-filled fall activities to share with the community. Have a great week!

RUN FOR A CAUSE

Congratulations go out to **Courtney Culhane** who completed the Boston Athletic Association's 8th Annual 1/2 Marathon to benefit Dana Farber Cancer Institute and The Jimmy Fund. She was the youngest female in the competition placing fourth in her division, 1442/3702 overall, and 602/2052 for all females. She completed the race in under two hours, finishing at 1:53:13. The competition took place around Boston's Emerald Necklace, beginning and ending at Fenway's Roberto Clemente Field. Courtney was proud to donate her time and effort to such a great cause and honor her family members who have both survived and died of cancer.

Courtney is an NDA scholar and is one of the top runners for the NDA varsity cross country team; she also enjoys playing ice hockey for NDA in the winter months. Her parents are so proud of her accomplishments (and amazed that she had the energy to help her mom go food shopping later that day!). This was a nice piece of news to write about Courtney, Cohasset is very proud of you.

BATES OFFICER

Allison Earon has been named an officer of the 2008-09 Chase Hall Committee at Bates College. The Chase Hall Committee is the largest student-run entertainment organization at Bates. It sponsors concerts, coffeehouses, dances, the Winter Carnival and other all-campus events. Allison, a senior neuroscience major, is the daughter of **William Earon**, and **Mary Sheppard**, Cohasset. Allison spent the winter semester of her junior year in Seville, Spain, studying through the Council on International Educational Exchange.

Allison is a 2004 graduate of Cohasset High School.

Nice news Allison!

WRITE STUFF

Here is another exciting bit of news about a great young lady from here in Cohasset. Storytelling has always come naturally for **Amanda Thompson**, Cohasset High graduate and Gordon College sophomore. The 19-year-old has already published two novels and is currently working on a new fantasy series. As a child, her father encouraged her storytelling and reading.

"I've been writing as long as long as I could form letters," Amanda said. "I remember writing stories and giving them to my teacher in second grade." Amanda self-published her first novel, "Millennium Girl," while attending Cohasset Middle School, and published her second novel, Season, shortly after her high school graduation. She is currently completing The Broken Sword, the first book in her new fantasy series, due in 2010.

OUR WORLD

Some new classes, programs and workshops are happening at the Our World Museum for children of many ages.

There are programs in drama, cooking, art, Mr. Dykas classes, music and more. For more information call 781-383-3198 or check out the Web site at www.ourworldcgdm.org. Holiday Happenings at Our World is also getting ready to kick off with Halloween Nites and many other programs and nights for November and December. A whole lot of fun for all.

JR. GARDENERS

The Junior Gardeners of the Community Garden Club of Cohasset will meet this month on Monday, Oct. 20 from 2:30 p.m. to 3:30 p.m. They will be working in the Deer Hill courtyard planting bulbs, and putting the garden to bed for the winter.

FREE DROP-OFF

The Paul Pratt Library offers free drop-off and delivery of library materials to the home of Cohasset residents who are unable to come to the library due to illness or limited physical abilities. A volunteer from the Friends of the Library will gladly bring reading materials to your home and return library items on a regular basis, if needed. Contact the Reference Librarian at the library for further details at 781-383-1348.

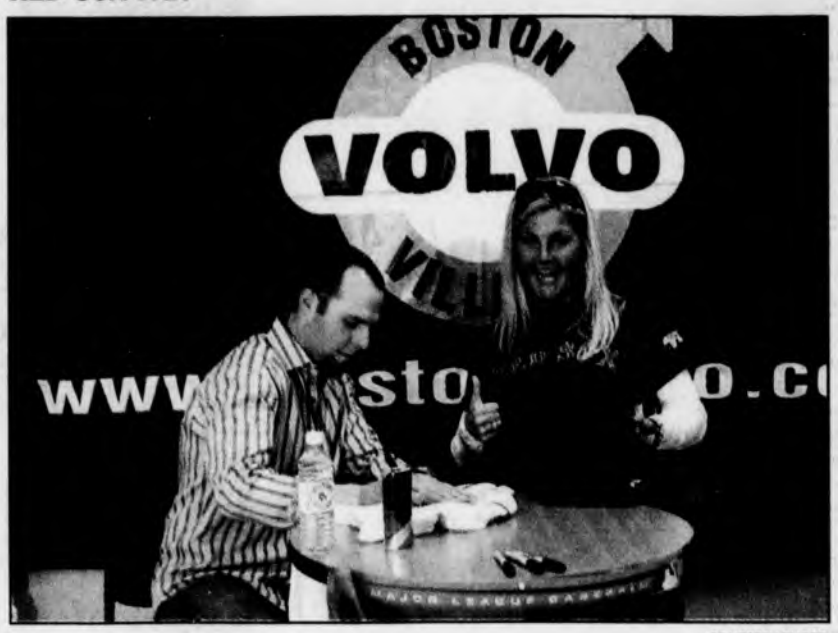
WALK IN WOODS

Noted local naturalist Norwell's Steve Ivas will lead a walk through the woods, fields and salt marsh of Holly Hill Farm on Sunday, Oct. 19 starting at 2 p.m. at the main barn at 236 Jerusalem Road. Steve's tour completes the farm's first annual "Discover the Woods Day," a day starting at 8 in the morning with fun runs, games for children, bring your own picnic, visits with the farm animals, and music. Children, as well as adults, will find that Steve makes nature come alive. For information, please call 383-6565.

CLASS REUNION

Another reminder about a great event for the CHS class of 2003. The five-year reunion for the CHS class of 2003 will be held Wednesday, Nov. 26 from 7-11p.m. at the George Mealy American Legion Post (98 Summer St.) in Cohasset.

Appetizers and drinks will be served. Questions?



Contact Curt (curt.kahn@gmail.com) or Ross (rlieblappen@gmail.com).

Send in your news to me no later than Tuesdays by 5 p.m.

'Magical' pumpkin patch returns to park

ASP fundraiser open until Halloween

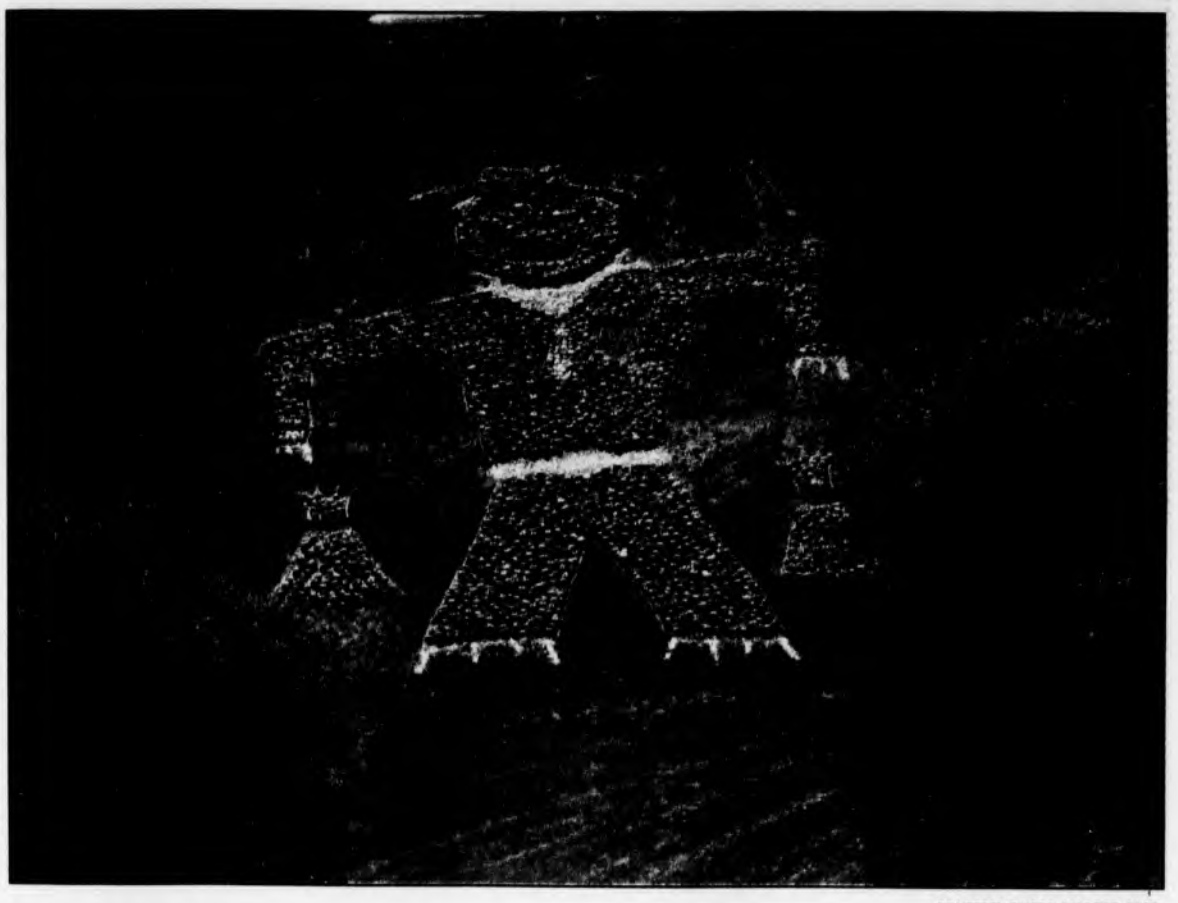
By Nancy White
NWHITE@CNC.COM

Like magic, a pumpkin patch has popped up at Wheelwright Park.

For the sixth year running the Cohasset Appalachia Service Project (ASP) Pumpkin Patch has painted the town orange, so to speak, with thousands of pumpkins taking over the entrance of Wheelwright.

What has quickly become an October town tradition and attraction, the Pumpkin Patch raises money for the annual trip of more than 150 teenagers and adults making the trip to Appalachia to help repair homes.

"It's fun to be here," said Phil Lehr, one of the founders of the Pumpkin Patch. He said some families excitedly await the arrival of the patch to buy their pumpkins and fall decorations, some come simply to bask in the orange glory of the pumpkin patch and there has even been a birthday party held at the patch.



"The field takes on a magical kind of feel," said JoAnne Lehr, one of the patch's organizers. "For kids, it's an event."

The Pumpkin Patch started in Cohasset in 2003 with David Bigley, Phil Lehr, and their business partner Pumpkins USA located in North Carolina. The pumpkins currently on Wheelwright Park are grown on Navaho land in New Mexico and arrive in Cohasset by the trailer load.

Pumpkins USA only sells their pumpkins to non-profits, mostly church groups. Each fall, the pumpkins are delivered to over 1,300 locations in 48 states. The pumpkins are consigned so the group doesn't owe anything until the pumpkins are sold so there is little up-front cost.

A typical load of pumpkins contains just over 2,500 large pumpkins and 1,500 to 2,000 smaller ones of various sizes. In past years, the Cohasset ASP has ordered one and half trailer of pumpkins, splitting the second truckload with another local non-profit. Following the success of last year's Pumpkin Patch where ASP raised about $7,000, two full trailer of pumpkins have been ordered.

All profits from this fundraiser go directly to support Cohasset Appalachia Service Project, an ecumenical home repair ministry. Cohasset sends about 180 teenagers and adults to Virginia, West Virginia or Kentucky to make homes safer under the direction Appalachia Service Project, Inc. based in Johnson, Tennessee.

COURTESY PHOTO/MARGOT CHEEL

This year's pumpkin patch is arranged in the shape of a scarecrow. When the pumpkin patch opened last week it contained over 4,000 pumpkins of all different sizes.

The Pumpkin Patch is completely staffed by volunteers. Between 170 to 190 volunteers will work at the Pumpkin Patch this month. The Patch opened last Saturday, Oct. 11 and will be open daily from 10a.m. to 8p.m. through Halloween.

Part of the excitement each fall is the patch is configured in a different pattern on the field. Phil Lehr is the mastermind behind the patch design.

The unloading process begins with the smaller pumpkins, which are offloaded first and placed around the perimeter of the Pumpkin Patch shape. The shape is roughly outlines with spray paint. Then the medium and large sized pumpkins are offloaded to fill in the spaces between. In total, the offloading effort takes about two hours with a crew of 35 to 40 people from high school students to parents.

A typical load of pumpkins contains just over 2,500 large pumpkins and 1,500 to 2,000 smaller ones of various sizes.

The pumpkin patch has been a spider web, a jack-o'-lantern, a chessboard and a pirate skull and bones. This year, the design is a whimsical scarecrow, complete with an ASP "monogrammed" pocket.

With each design, Lehr has to consider and reconcile many different variables.

"I have a lot of ideas, but not all of them work," said Lehr. He begins by designing the shape on a paper grid then expands it to fit the Wheelwright Park field. He always wants to incorporate pathways so visitors and buyers can easily move about the patch in search of their perfect pumpkin and likes to have a design with a Halloween or fall association.

Once the patch is set up, Cohasset aerial photographer Margot Cheel flies above to capture the patch's shape before the patch gets picked over by customers. There's a small window to get the shot and each year they hope for clear skies. The aerial photos of each year's pumpkin patch design are available for purchase at the patch.

COURTESY PHOTO/PHILIP LEHR

At three weeks old, this little pumpkin, Thaddeus Vair, is the Pumpkin Patch's youngest visitor ever.

Class of 2003 planning five-year reunion

The five-year reunion for the CHS class of 2003 will be held Wednesday, Nov. 26th from 7-11pm at the George Mealy American Legion Post (98 Summer St.). Make your parents happy by coming home for Thanksgiving. Then catch up with old friends and share your new exciting experiences. Appetizers and drinks will be served. Questions? Contact Curt (curt.kahn@gmail.com) or Ross (rlieblappen@gmail.com).

OCTOBER IS DYSLEXIA AWARENESS MONTH

IS YOUR YOUNG CHILD AT RISK FOR READING FAILURE?

Does your child have difficulty:

- ★ Speaking or understanding language
- ★ Learning new vocabulary
- ★ Rhyming words or hearing sounds in words
- ★ Following directions
- ★ Learning letter names
- ★ Or if there's a family history of reading difficulties

Don't take a "wait and see" approach. Early and appropriate intervention is critical and will greatly increase your child's academic success and self esteem.

Contact the Massachusetts Branch of the International Dyslexia Association for more information at 617-650-0011 or visit us at:

A treasure among trash

FROM TREASURE, PAGE 1

said Chuck Baker. And all those parts get sent to different places to be recycled. Newspapers, glass, cardboard, paint, plastic, tin, household trash all have their own drop-off location and then ultimate destination.

Cohasset's blue pay-as-you-throw bags can be purchased at the DPW Building, Recycling Transfer Facility, Stop & Shop, Joseph's Hardware, Fiori's Exxon, Hingham Lumber, Hingham Tedeschis, Cohasset Food Mart, Cohasset Mobil and All The Best. The town sells a 33-gallon package of 10 bags for $15.00 and a 16-gallon package of 10 bags for $7.50.

"We answer about 18,000 questions everyday," said Edgett and often they are the same questions over and over. Where do the newspapers go? (Look at the signs!) When can I bring my yard brush? (The last Saturday of every month May through October) Where does the glass go? (Look at the signs!) I have an old television; can I bring it here? (If it still works, put it in the 'boutique.')

In spite of the many questions that are asked over and over, the guys at the RTF have somewhat of a motto they say to each other—"always with a smile."

When the gates open on Wednesdays, Fridays, Saturdays and Sundays promptly at 7:30a.m., there are always a few (or more) cars waiting at gate.

But, whatever you do, don't try to get into the RTF after 3:30p.m.—it's not going to happen. The closing of the gate is carefully timed on two different clocks.

"The devil himself won't get me to let him in after 3:30," said Edgett.

DPW workers Chuck Baker, Phil Edgett, and foreman Charlie Guarente pose in the glass recycling area at the Recycling Transfer Facility.

Turning trash into treasure

Although going to the RTF is something everyone has to do, the RTF workers try to make it as pleasant an experience as possible. Every dog knows a treat is coming his way and every kid knows they're in for a lollipop. Reggae music, classic rock and the Patriots game (when kickoff is at 1p.m. on Sunday) is played in the background to keep the workers and visitors spirits up. The speakers and sound system were constructed from stuff Cohasset residents threw away.

But, whatever you do, don't try to get into the RTF after 3:30p.m.—it's not going to happen.

At the glass recycling hut is another treasure made of "trash." Chuck Baker, who typically mans the glass hut on the weekends, has chosen and collected dozens of stuffed animals, toys and other colorful objects to create Cohasset's very own "aquarium."

"The kids like to come in and name the ones they know," said Baker. "It's good to see their faces light up."

Baker recently started collecting buoys and began stringing them up on the side of the building.

The RTF guys are also able to turn trash into goodwill. They collect General Mills' boxtops for education for a school in Appalachia. So far, they have collected over 2500 boxtops.

One of the most popular spots at the RTF is the 'boutique,' it's where residents can leave something no longer of use to them and others can pick it up. For some residents, the boutique can be the highlight of weekend. The RTF guys say there are even a few residents who incorporate multiple stops to the boutique into their weekend plans.

By the RTF workers' own estimation, about 90 percent of the stuff that arrives at the boutique is junk and about 10 percent of it is actually useable. Children's toys and any kind of book tend to fly off the shelf fast, while some stuff, like broken lawn furniture or well-worn rugs will be passed over all day long.

Charlie Guarente, Phil Edgett and Chuck Baker work as a team each week to keep the RTF orderly, organized and a generally pleasant experience. They ask residents to their part to make that possible.

"Keep recycling and be nice and considerate of others. Patience is a virtue," said Guarente.

Spunky, the Thursday mascot peeks out of a DPW truck while his owner Chuck Baker was busy with a photo shoot for the newspaper.

The workers have been collecting box tops for a young boy in the Appalachia region. They have collected approximately 2,000 box tops.

Absentee ballots available for Nov. 4 state election

Absentee ballots for the Nov. 4 state election are now available at the Town Clerk's office. Absentee voting may be done during normal office hours up until noon on Monday, Nov. 3, when the office will close to prepare for the election.

Voters who are in town on Election Day and are able to come to the polls you should vote in person. Only the following voters may use an ababsentee voting ballot:

- those absent from town during the hours the polls are open;
- those with physical disabilities; and
- those whose religious beliefs prevent voting at the polls on Election Day.

The applicant must request an absentee ballot. Applications are available in the Town Clerk's office or a written, signed request can be sent by mail, or hand delivered by the voter or any other person. The application should include the legal voting address of the voter, where the ballot is to be mailed, and the signature of the applicant. Also, applications may be downloaded from the Secretary of State's Web site, www.sec.state.ma.us//, and mailed or hand delivered to the Town Clerk's office. The ballot will be mailed to the voter.

The applicant must request an absentee ballot. Applications are available in the Town Clerk's office or a written, signed request can be sent by mail, or hand delivered by the voter or any other person.

A family member of a person qualified to vote by absentee ballot may apply on behalf of such voter. The applicant shall state his or her relationship to the absentee voter; sign the application under the pains and penalties of perjury and mail or hand deliver the application to the clerk's office. Absentee ballots must be mailed to the voter. Returned ballots should be mailed or can be delivered by an immediate member of the family to the Town Clerk's office by November 4, 2008, to be counted.

The town will be using the Accu-Vote optical scan system for the Nov. 4 election. Voters' instructions are printed on the ballot. Any pen or pencil can be used to completely fill in the oval to the right of the voter's choice. The scanner will read the ballots whether they are inserted face up or down. Secrecy sleeves are available at the check-in tables.

BRIEFLY

Historical Society Fall Dinner and Annual Meeting

The Cohasset Historical Society will hold its annual meeting and fall dinner on Oct. 26 at the Cohasset Harbor Resort, 124 Elm St. The featured speaker will be Historian and Folklorist, John Horrigan presenting "Bay State Phantoms". From the beginning of time, history has been filled with superstition and the supernatural. John will tell of encounters with 'phantoms' witnessed by residents of Massachusetts from 1638 to the present. Hear stories of strange lights, odd creatures, popular ghosts and dangerous animals observed by the people of our state over the past five centuries. Some of the topics discussed will be "*The Great Light in the Night*" (1638), "*The Wolves of Newbury*" (1704), *The Gloucester Sea Serpent*" (1817), "*The Lady in Black*" (1861), "*The Mysterious Air Ships*" (1909), "*Scituate Sea Monster*" (1969), *and* "*The Red-Headed Hitchhiker of Route 44*" (1998). This meeting will begin at 5:30 PM with a cash bar and is open to members and guests at a cost of $31 per members and $36.00 per guests. The entrée choices are Cranberry and Sage Stuffed Chicken or Grilled Pork with Apple-raisin glaze. Reservation are needed by Friday, Oct 17th and can be made by calling the Historical Society at 781-383-1434 or by sending a check with your desired entrée choices to The Cohasset Historical Society, PO Box 627, Cohasset, MA 02025.

Insights series to begin at Scituate Library

The first of four Insights programs, Atlantic Symphony Orchestra's informative and entertaining musical educational series, will take place at Scituate Town Library, 85 Branch St., at 7:30 p.m., on Tuesday, Oct. 21. Annotator Steve Ledbetter, a musicologist and former Dartmouth College professor, will explore the works on the theme of "National Treasures" that form the orchestra's opening night program with works by Copland, "Fanfare for the Common Man" and "Lincoln Portrait"; Gershwin, "An American in Paris"; and Dvorak, Symphony No. 6.

What is the form of a symphony? How does Dvorak use that form to express ideas about nationality? A popular presenter in the Insights series, Ledbetter's style and understanding of music make this a learning experience not to be missed.

Aimed at adults and teens, Insights one-hour sessions led by ASO musicians combine performance, commentary and demonstration to delve into an aspect of classical music. For more information about Atlantic Symphony, visit the Web site at atlanticsymphony.org.

The Insights series is sponsored by the Friends of the Scituate Town Library. Tickets at $10 for adults and $5 for ages 18 and younger are available in advance at the library or at the door on the evening of the program. For more information or directions to the library, call 781-545-8727 or visit the Web site at scituatetownlibrary.org.

OPINION

EDITORIAL

Flu shots good for young and old

Public health officials bet if they can stop the spread of the flu among children this season, they will make inroads into an illness responsible for 200,000 hospitalizations each year.

So the message is clear: If you are a parent of children aged 6 months to 19 years old, get them vaccinated — for their own protection as well as everyone else's.

The recommendation from the Centers for Disease Control and Prevention has been expanded from previous guidelines in which vaccination was recommended for children only up to 4 years old.

The standard advice still holds. Get vaccinated for the flu if you are in certain high-risk categories: health-care workers, pregnant women, people 50 and older, people of any age with chronic medical conditions or compromised immune systems and people who live in nursing homes or long-term care facilities.

Vaccine makers project as many as 143 million to 146 million doses of influenza vaccine will be produced for use in the United States during the 2008-09 influenza season.

Getting vaccinated, however, is good advice across the board. This year, more than ever, people can take the advice. Vaccine makers project as many as 143 million to 146 million doses of influenza vaccine will be produced for use in the United States during the 2008-09 influenza season. "This is an all-time high supply of vaccine making it possible for more people than ever to seek protection from the flu," according to the CDC Web site at cdc.gov/flu.

This is a change from previous years, in which the supply was not so plentiful and the government recommended only people in high-risk groups get vaccinated.

To protect against the flu season, which typically peaks in January or February, vaccine is available already in many places. See your doctor, visit a county health clinic or consult the CDC's Flu Clinic Locator at fluclinicslocator.org. Getting vaccinated now offers protection for the entire flu season.

That's just the first step in fighting the flu, which kills about 36,000 people a year (including 100 children). Wash your hands — a lot. Keep your distance from sick people. Don't touch your eyes, nose and mouth.

And, if you do get sick, get treatment immediately. There are several antiviral drugs that can help shorten the progression of the disease.

Flu is not just a bad cold and it's not an upset stomach. It's a serious illness that everyone has a stake in preventing. Get your shot.

MEETINGS

The following meetings are posted at Town Hall:

Advisory Committee, Oct. 22, at 7 p.m.
Alternative Energy Committee, Oct. 21 & Nov. 18, at 7:30 p.m.,
Assessors, Oct. 24, at 8:45a.m.
Board of Health, Oct. 22, at 7 p.m.
Capital Budget Committee, Oct. 21., at 7:30 p.m.
Harbor Committee, Oct. 21, at 7p.m.
Planning Board, Oct. 27 at 6:30 p.m.
Recreation Commission, Nov. 5., at 6:30 p.m.
Selectmen, Oct. 27, at 7 p.m.,
Sewer Commission, Oct. 28, at 6 p.m.
School Improvement , Nov. 5, 2:30 p.m., at the high school.
Water Commission, Oct. 30, 6p.m., at King St. plant.
ZBA, Nov. 5 & Dec. 3, at 7:30 p.m.

All meetings take place at Town Hall unless otherwise noted. Call the Town Clerk's office at 781-383-4100 for updates and additions.

TIME TO REFLECT
Cohasset's Minot Light is reflected on the Antoine and Wilson Monument overlooking Cohasset Harbor.

LETTERS TO THE EDITOR

Board of Health appreciates Health Fair support

TO THE EDITOR:

On behalf of the Cohasset Board of Health, I would like to thank all those who made our recent health screening day such a success.

Every year we depend on the generosity of community businesses and agencies to provide the services we offer free of charge to all who attend. The Cohasset Rotary Club and Pilgrim Bank's donations supported the cholesterol, glucose, and PSA screenings that are so popular each year. The reusable shopping bags were generously donated by Goodwin Graphics. Our food table was once again full of delicious snacks and coffee from Atlantic Bagel and Deli, Dunkin Donuts, Shaw's, Starbucks and Stop and Shop.

Attendees and participants enjoyed taking a break during the day and sitting and visiting with each other while snacking on the complimentary "goodies" presented so attractively by our faithful volunteers, Merle and Ed Graham, Mary Hartwell, Madeline Hargadon and Barbara Hopey, who help us each year. We couldn't conduct the annual health fair without them!

Many thanks to the following providers for their services:

The Second Congregational Church

Health Watch Inc., cholesterol, glucose and PSA monitoring

The Norwell VNA , osteoporosis screening

Massachusetts should set 'Zero Waste' goal

TO THE EDITOR:

Department of Environmental Protection (DEP) officials are now talking about lifting the 1989 statewide moratorium on building new waste incinerators. This will open the door for new waste burners including unproven gasification technologies to be built in Massachusetts. This is at odds with efforts to increase recycling and waste diversion. The Commonwealth is at a crossroads: a commitment to either waste reduction or more dirty and dangerous waste disposal sites.

Our current system for dealing with garbage is to burn it or bury it, and neither is a safe solution. Incinerators emit harmful pollutants into the air and landfills leak toxic chemicals into soil and groundwater. As Carl Pope, the executive director of the national Sierra Club says, "Incinerators and landfills are relics of an unsustainable past that have no place in our green economy."

Our current system for dealing with garbage is to burn it or bury it, and neither is a safe solution.

In a state that prides itself on leading the way environmentally, it is difficult to believe that we still produce so much waste. Massachusetts currently generates 14 million tons of waste, or over two tons per person each year. Over the years this number has changed very little. Even worse, recycling rates across the state actually dropped in recent years.

In this day and age with all the talk and concerns of global warming, DEP should be sending the message that the Commonwealth is serious about making our "carbon footprint" smaller not increasing it by allowing more pollutants into the air by lifting the moratorium on incineration.

Massachusetts should follow the lead of other regions and towns across the world and set a Zero Waste goal. We can use strategies including waste reduction, reuse, recycling, composting, anaerobic digestion, and producer responsibility to reduce waste by 70 to 90 percent. Central Vermont has already implemented this plan and our state is looking into it as well. We should follow their lead and decrease our "carbon footprint."

Write to DEP Commissioner Laurie Burt, One Winter Street, Boston MA, 02108 and tell her not to lift the moratorium on building new waste incinerators.

John McNabb
53 Pond St.

Cohasset Cultural Council seeks funding proposals

The Cohasset Cultural Council has set an Oct. 17, deadline for organizations, schools and individuals to apply for grants that support cultural activities in the community.

According to Council spokespersons Diane Kennedy, Selene Eymer and Betts Murray, these grants can support a variety of artistic projects and activities in Cohasset—including exhibits, festivals, short-term artist residencies or performances in schools, workshops and lectures.

The Cohasset Cultural Council will also entertain funding proposals from schools and youth groups through the PASS Program, a ticket subsidy program for school-aged children.

Cohasset Cultural Council is part of a grass-roots network of 329 local councils that serve every city and town in the state. The program is the largest, most decentralized one of its kind in the United States. The state legislature provides an annual appropriation to the Massachusetts Cultural Council, which then allocates funds to each local council. This year, the Cohasset Cultural Council will distribute about $4,300 in grants.

Application forms and more information about the Local Cultural Council Program are available on the Web at www.mass-culture.org/lcc_public.asp. Contact Diane Kennedy, Cohasset Cultural Council Chair, at 781-383-1304 with any questions.

Rainy days get in the way of paving

MAKING TRACKS

TOM GRUBER & MARK BRENNAN

Little Harbor Water & Sewer Project – As most of our readers are aware, the Greenbush Guys have been tapped to do the paving on the Little Harbor Water/Sewer/Drainage Project. Consequently, we get lots of calls regarding when streets will be paved. We certainly understand the interest that residents have regarding when their roads will be put back into a passable.

But, as many have seen, paving sometimes is not always done when it was scheduled. The reasons for this are many. For example, one or more rainy days may cause the paving company to fall behind in their schedule. Thursday, Oct. 9 is a good example of what can happen to delay things. On this day, both Whitehead Road and Caravel Cove were scheduled to be paved, in that order. In fact we had distributed flyers to all the homes to make sure that residents knew what was happening and could make appropriate plans. The paving contractor had brought all of his equipment and machines to Cohasset the night before to make sure they could get an early start on Whitehead Road.

Well, the first thing early Thursday morning it was raining. Paving on a wet road base is not a good idea, so we had to wait about two hours until the train stopped and the roadbed dried a bit. If you are familiar with Whitehead, it is a very narrow one-lane road almost 2,000 feet long. The paving process started at the ocean end and all the asphalt trucks had to back all the way down the road to unload their asphalt into the paving machine. This took a lot of time. In the middle of the morning the pavers ran out of asphalt and had to wait about an hour for the next truck. So another hour was lost.

When the pavers arrived at Caravel Cove at around 2:30 p.m., they were now about three hours behind schedule. They got up to speed quickly with multiple crews. Then another disaster – the caterpillar type track broke on the paving machine, bringing the day to a screeching halt. So much for the plans to get two roads paved with the base coat.

Now, on Thursday, Oct. 16, the paver is scheduled to do the remainder of Caravel Cove, then Little Harbor Road. Again, by the time you read this you will know whether we were successful at meeting this schedule. Let's hope we did!

COURTESY PHOTOS

The paving stops here.

The culvert wall after installation.

Town Lot showing off its new stripes.

Beach Street Culvert – We have talked about the new culvert on Beach Street and showed a photo of the new culvert "L" wall before it was installed. Now it is in place and the water is happily going back and forth with the tides from Little Harbor. The two 36-inch culvert pipes can be seen in the accompanying photo. Please drive carefully across the new culvert until the road is patched, which should be done by the time you read this.

Town Parking Lot – We owe our sincere appreciation to several groups for reasons associated with the Town Parking Lot work. First of all to the very patient businesses in the Village who have suffered through multiple closures of the Town Parking Lot as it underwent the work necessary to re-do and complete the paving and add the striping. Finally on Tuesday of this week the final striping was completed. So, thank you businesses.

Second, we'd like to thank the Contractor, CBB, for working with us closely to schedule and arrange the striping in such a way that it would minimize the disruption the service businesses that abut the Town Parking Lot. We mentioned before, that the last time striping was scheduled the striping contractor didn't show up until almost 4 p.m. Of course this left them almost no time to complete their work before dark. But, they were able to complete the row of spaces that were against the backside of South Main Street. So, we asked CBB to make sure that this time, the lot could be kept open for these spaces to be used for all of the service businesses that abut the lot. They did. So, thanks to CBB.

To wrap up the Town Parking Lot, the DPW will be placing "One Way" signs at the entrance and exits on Depot Court as well as directional arrows on the travel way in the lot. So there will be an "In" driveway and an "Out" driveway, the way it used to be. Hopefully, this will let us get back to a semblance of order in the lot.

It's been 65 what?

HENSHAW

TOM HENSHAW

I was sitting at the table, clutching a glass of merlot, surrounded by old folks, when a sudden thought occurred to me.

I was one of them.

It was the 65th anniversary reunion of the Class of 1943 at Braintree High School at Isaac's Restaurant on the Plymouth waterfront.

There were about 90 of them when they graduated from the old high school on Washington Street, the one that has long since gone to condos.

There were still 20 of them in a position to attend the 65th reunion, a testimony to a hardy generation that had grown through adolescence during the Great Depression and left the graduation stage to be fitted for uniforms.

Another reunion, maybe it was the 30th, was held in the Lantana in Randolph at a time when most had settled into their niches in life and looked around to see how their classmates were doing. Conversation and dress held more than a little one-upmanship.

They wore nametags, which is a good thing, because how do you recognize someone you haven't seen or have seen only occasionally in 65 years?

The meetings go like this. You shake hands tentatively. You sneak a look at the nametag. After a moment, it rings a bell. You search the face for recognition. It's there, just needs a bit of study. The handshake gets warmer.

The first reunion of the Class of '43, on its fifth anniversary, if I recall right, was held in Popeye's or whatever Morey Pearl was calling his saloon on Bridge Street in North Weymouth at the time.

It was notable because it gave classmates a chance to see how many of them survived the late unpleasantness over there in Europe and out there in the Pacific and because Verle King ordered a Black and White and ginger and the bartender refused to mix good scotch with ginger ale.

There was drinking at the 65th reunion, too, but the contents of most of the glasses looked a lot like wine and the erstwhile showoffs in the group downed them slowly with one fist, not two.

Another reunion, maybe it was the 30th, was held in the Lantana in Randolph at a time when most had settled into their niches in life and looked around to see how their classmates were doing. Conversation and dress held more than a little one-upmanship.

By the time the 65th rolled around, nobody cared anymore. As one who attended to see that her friend did not have a second merlot put it, "You guys were like a bunch of kids."

An acquaintance recently received notice of the 65th reunion of his class at Woburn High School. In it, he and his classmates were warned that this would be their last reunion.

Not so the Class of '43 at Braintree High School.

As classmates were leaving, most for their afternoon naps, some were already planning for the 70th.

HEALTH NOTES

Facts and myths about the flu

By Steve Bobo
SPECIAL TO THE MARINER

Folks in town have at least three opportunities to obtain flu shots depending on age, inclination and several other factors: There will be a flu clinic for seniors, 65-plus year, and those people with chronic health problems such as asthma, chronic pulmonary disease, heart disease and immunosupressed individuals, including those receiving chemotherapy or with HIV/AIDS, from 10 a.m. to noon, on Tuesday, Oct. 21, and 10 a.m. to noon, on Tuesday, Oct. 28, in the auditorium at Cohasset Town Hall. Parents of children under 18 years of age should consult their pediatricians.

The flu vaccine is free, but seniors are reminded to bring their Medicare insurance card or Medicare HMO card with them and are asked to wear a short sleeve shirt for ease of administration. The money the Board of health receives from Medicare registration and reimbursement during flu clinics will assist in paying for flu shots for a broader segment of town citizens, thus reducing the likelihood of flu being transferred between individuals.

A third opportunity, the town-wide flu clinic for all Cohasset residents, will be announced at a later time.

Flu is caused by viruses of several types:

• Seasonal flu viruses infect humans every year causing respiratory disease – fever and cough – that can lead to more severe disease, and even death in infants, the elderly or those with chronic health problems. In Cohasset, flu season usually begins in December and can last into March or April.

Parents of children under 18 years of age should consult their pediatricians.

• Avian or bird flu occurs naturally among wild birds. The H5N1 strain currently circulating has caused significant illness and death among wild birds and domestic poultry. Bird flu is not easily passed to humans, but some people have become sick after extensive direct contact with poultry.

• Pandemic flu. Sometimes a new strain of influenza virus emerges to which humans have no natural protection. If the new virus is easily transmitted from person to person, it can result in a pandemic affecting people worldwide. Influenza pandemics have occurred in 1918, 1957 and 1968. The next influenza pandemic will occur when a new strain of influenza virus emerges that is easily transmitted from person to person.

Over time, flu has produced a number of myths, the most prevalent of which are:

Myth 1."The flu isn't a serious disease." In fact, flu is a serious disease of the nose, throat and lungs, and it can lead to pneumonia. Each year about 200,000 people in the United States are hospitalized, and about 36,000 people die because of the flu. Most who die are 65 years and older. But small children less than 2 years old are as likely as those over 65 to have to go to the hospital because of the flu.

Myth 2. "The flu shot can cause the flu." No! A flu shot cannot cause the flu. Some people get a little soreness or redness where they get the shot. It goes away in a day or two. Serious problems from the flu shot are very rare.

Myth 3. "The flu shot does not work." Most of the time the flu shot will prevent the flu. In scientific studies, the effectiveness of the flu shot has ranged from 70 percent to 90 percent when there is a good match between circulating viruses and those in the vaccine. Getting the vaccine is the best protection against this disease.

Myth 4. "The side effects are worse than the flu." Nonsense; the worst side effect you're likely to get from a shot is a sore arm. The nasal mist flu vaccine might cause nasal congestion, runny nose, sore throat and cough. The risk of a severe allergic reaction is less than 1 in 4 million.

Myth 5. "Only older people need a flu vaccine." Truth: All with reduced immunity. Adults and children with conditions like asthma, diabetes, heart disease and kidney disease need to get a flu shot. Doctors also recommend children 6 months and older get a flu shot every year until their 5th birthday.

Myth 6. "You must get the flu vaccine before December." Actually, the best time to get vaccinated is October or November, but you can get vaccinated in December or later.

For more information, call Mary Goodwin, the town health nurse at 781383-2210; your healthcare provider; call 800-CDC-INFO (800-232-4636); or visit the Web site at cdc.gov/flu.

LIBRARY CORNER

Learn to trace your family's history

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road. For more information, call 781-383-1348.

FOR CHILDREN

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road, Cohasset. For more information, call 781-383-1348.

Letters About Literature 2009 – Letters about Literature is a national reading and writing program that asks students in grades four through 12 to write letters to authors whose books have made a difference in their lives. LAL is looking for personal and reflective writing about the importance of written work in the lives of young readers. Massachusetts winners, their families, friends, teachers and librarians are invited to an awards ceremony at the State House in the spring. The state program is sponsored by the Massachusetts Center for the Book & the Calderwood Writing Initiative at the Boston Athenaeum. The national program is sponsored by the Library of Congress and Target Stores. Visit the Web site at massbook.org for more information and guidelines, or pick up the guidelines in the Children's Room or Young Adult Room of the library.

Story & Craft – Online registration has begun for Story & Craft, which will take place Thursday, Oct. 23, at either 10:30 to 11:30 a.m. or 1 to 2 p.m., in the Story Room. Story & Craft is for Cohasset residents ages 3 and older and is a four-week commitment. To register, go to the Web site at cohassetlibrary.org and click on calendar. Choose either the morning session or the afternoon session and fill out the registration form. Include child's name and age in the name field.

MamaSteph – Performances at 10:30 a.m., on Mondays, Oct. 20 and 27, in the Meeting Room. Join others for children's music and more. Doors close promptly at 10:35 a.m. Funded by Friends of the Cohasset Library. All ages and communities are welcome.

Drop In Story Time – In the Story Room at 10:30 a.m., on Tuesdays, Oct. 21 and 28. All ages and communities welcome.

Coloring/Decorating Contest – Create a unique owl by decorating the template found on Mrs. Moody's desk. You can use markers, glitter, beads, pipe cleaners, tissue paper, and things found in nature to create an owl that reflects your personality. Contest ends on Friday, Oct. 24, at 4 p.m. Winners in all age groups. Winners will be called.

FOR ADULTS

Genealogy Workshop – Genealogist Michael Brophy will present Beginning Genealogy and Family History – Part 2, at 7 p.m., on Thursday, Oct. 23. Topics to be covered are United States military history records, city directories, church records, town reports, tax records and more. Anyone interested in tracing their family roots are welcome. Free. Sponsored by Friends of the Library.

Author Visits – Catherine Goldhammer, author of "Still Life with Chickens," will discuss her new book "Winging It: Dispatches from an (almost) Empty Nest," at 3 p.m., on Sunday, Oct. 26, in the Meeting Room. All are welcome to this free event. Goldhammer's books will be available for purchase.

Kathleen Kent, author of "The Heretic's Daughter,' will discuss her new book at 7 p.m., on Wednesday, Novs. 12. The book is a liteary imagining of the events surrounding the Salem witch trials. Kent, a descendant of one of the first women to be accused as a witch, brings her family's legacy to life. Copies of the book will be available for purchase. All are welcome to these free events.

Library Book Group – Join others for coffee and discussion of Junot Diaz's Pulitzer Prize winning book, "The Brief Wondrous Life of Oscar Wao," at 10 a.m., on Wednesday, oct. 29, in the Meeting Room. All are welcome to this free event.

Books in Bloom – Community Garden Club of Cohasset will display flower arrangements throughout the library on Friday, Oct. 17. All are welcome to this free display.

Movie Matinee – The library will show the film "The Miracle Worker" starring Patty Duke and Anne Bancroft at 11 a.m., on Friday, No. 7. The Friends of the Library will provide light refreshments. Movie site license sponsored by Friends of the Library and Cohasset Democratic Town Committee. The movie is free and all are welcome.

Party politics on Our Town

"Our Town" co-hosts Pat Martin and Mark DeGiacomo sit down with Kevin O'Donnell, chairman of the Cohasset Republican Town Committee, and Kevin MacCarthy, chairman of the Cohasset Democratic Town Committee, to debate from each party's perspective the issues, platforms and candidates in the presidential election.

Our Town airs on local Comcast Channel 10 on Monday, Tuesday and Thursday evenings starting at 9pm.

Stay tuned and stay informed.

Ballot questions to consider

FROM QUESTIONS, PAGE 1

Bradley pointed out that reducing and then eliminating the state personal income tax would have dire consequences.

"Property taxes would need to be raised through operating overrides to maintain services – including police and fire departments, the schools, and public transportation," he said. "In my opinion, this would be an irresponsible way to address how the people of Massachusetts are taxed."

Cohasset polls will be open from 7 a.m. to 8 p.m. Tuesday, Nov. 4, for the State/Presidential election. Precincts 1 and 2 will vote at the Town Hall, 41 Highland Ave.

Editor's note: This is the first of a two-part series. This week we look at Questions 1& 2 on the Nov. 4 ballot. Questions 3 & 4 will be examined in next week's issue of the Cohasset Mariner.

QUESTION 1 — STATE PERSONAL INCOME TAX

Besides concerns centering on the state's need to borrow at higher interest rates and tap funds set aside for "rainy day" use in order to cover current local aid obligations should Question 1 pass, local officials have their own reasons for opposing it.

A Yes vote would reduce the state personal income tax rate to 2.65 percent for the tax year beginning on Jan. 1, 2009, and would eliminate the whole tax beginning on or after Jan. 1, 2010. A No vote would make no change in state income tax laws. Massachusetts has a flat personal income tax rate of 5.3 percent of federal adjusted gross income.

The repeal of the income tax would have a devastating impact on town services," said Town Manager Bill Griffin. "Even though we do not receive as much state aid as a lot of communities, a significant loss would be extremely difficult to address without a large override or reduction in services."

Cohasset School Committee members expressed concern during a recent meeting about the implications of Question 1 for the school budget. At their Wednesday night meeting, the School Committee voted 3-1 to oppose Question 1.

School Committee member Adrienne MacCarthy looked at it as her job as a school committee member to protect the school budget—and that includes state funding.

"(The elimination of the state income tax) does affect us fiscally and how we run the district with the budget. We would be significantly impacted and might not be able to do what we do in the district," said MacCarthy.

School Committee vice chairman Alfred Slanetz, who did not vote with the rest of the committee, didn't believe the state would cut 40 percent of its budget in the event Question 1 gets a majority vote. He suggested there would be increased sales tax to make up for lost revenue. Slanetz also felt it was not the School Committee's place to take a stand.

"When it comes to tax policies, it's not our role. Our job is to allocate the money given to us in the best way possible," said Slanetz.

State Sen. Robert Hedlund, R-Weymouth, said he realizes some people are angry about the then-5 percent personal income tax being raised more than a decade ago (billed as a temporary move) but never restored to the original percentage. Whatever side of the issues citizens are on, though, Hedlund warns, "These binding questions would have the force of law if passed."

The Committee for Small Government supports Question i on the platform of "eliminating government waste." The Committee claims that a "yes" vote would create many new Massachusetts jobs and would not raise property or any other taxes or require cuts in essential government services.

Opponents note that this initiative would slash state revenues by more than $12 billion a year – nearly 40 percent of the state budget.

QUESTION 2 — POSSESSION OF MARIJUANA

Passage of Question 2 would replace the criminal penalties for possession of one ounce or less of marijuana with a new system of civil penalties. This would be enforced by issuing citations and would exclude information regarding this civil offense from the state's criminal record information system (CORI).

Offenders age 18 or older would be subject to forfeiture of the marijuana plus a civil penalty of $100.

Those under the age of 18 caught with an ounce or less would be subject to the same forfeiture and, if they successfully complete a drug awareness program within one year of the offense, the same $100 penalty. Offenders who do not complete the drug awareness program within one year could also be required to pay a higher penalty – as much as $1,000.

Offenders under age 18 and their parents or legal guardian would be notified of the offense and the option to complete a drug awareness program developed by the state Department of Youth Services. Under the proposed law, possession of an ounce or less of marijuana could no longer be grounds for state or local government entities to impose any other penalty, such as denying student financial aid, public housing, public financial assistance, or the opportunity to serve as a foster or adoptive parent.

At the same time, the proposed law would allow local ordinances or bylaws prohibiting the public use of marijuana and would not affect existing laws, practices, or policies concerning operating a motor vehicle or taking other actions while under the influence of marijuana, unlawful possession of prescription forms of marijuana, or selling, manufacturing, or trafficking in marijuana.

Bradley said he thinks decriminalizing marijuana "would be a big step in the wrong direction" and would set a dangerous precedent. "Marijuana is a gateway drug that starts you down the path to more dangerous drugs," he said. "If we minimize its use, we're basically sending the message to young people that it's OK to do this."

Some opponents say that decriminalization would embolden and enable drug dealers. Police Chief James Hussey said the proposal is "worse than lowering the drinking age or selling alcohol in supermarkets…it is just not a well thought out questions, by any means."

Hussey said it may encourage dealers to carry lesser amounts of marijuana so, if caught, they would not face criminal charges.

"It's the wrong message to be sending to our youth that small amount of marijuana is okay," said Hussey.

In his experience, juveniles arrested on first time marijuana possession charges aren't arraigned and it is settled outside the court's jurisdiction and therefore doesn't end up on the person's criminal record.

"Let me put it this way, if a 16-year-old kid is found in possession of alcohol, he is charged with a crime, but a 16-year old kid with marijuana is not charged with a crime. It doesn't make sense," said Hussey.

Whitney A. Taylor of the Committee for Sensible Marijuana Policy holds an entirely different view. One of the committee's biggest arguments against the current law is that when individuals are placed under arrest, their names are entered into the Criminal Offender Record Information (CORI) system. "It lists what the individual was arrested for but not the outcome, and that information is available to the public," Taylor said. "We don't support or condone marijuana use. This is just a smart criminal justice reform. The sky is not falling in and more people will not be breaking the law."

She notes that penalties for other marijuana-related crimes, such as sales or DUIs, remain untouched.

Furthermore, Taylor said, taxpayers would save $30 million a year in arrest costs. "Do the citations and confiscate the marijuana, but keep the cops on the streets to fight more violent and serious crimes," she said. "That money should be kept in police coffers."

Conversely, Hingham Police Lieutenant Michael Peraino said that in Massachusetts, 80 percent of the prisoners are incarcerated for crimes not involving drugs and that "17 percent are in there for drug offenses not involving marijuana; 0.3 percent of the people in our prisons are in there for marijuana possession only, and 2.4 percent are in there for offenses involving marijuana but excluding possession only – they are in there for dealing. Our jails aren't full of marijuana users."

In a press release, the Massachusetts District Attorneys Association further noted that "Marijuana charges represent an infinitesimal percentage of police work, and Question 2 does not reduce the time police will spend processing these cases."

Taylor claims that passage of Question 2 would not increase marijuana use. "Eleven other states have similar laws and have shown no increase in marijuana use," she said.

The committee's platform is, "Let the punishment fit the crime."

The eleven Massachusetts District Attorneys—as well as Governor Deval Patrick, Attorney General Martha Coakley, Boston Mayor Thomas Menino, the Massachusetts Association of School Superintendents, the Black Ministerial Alliance, the Boston Ten Point Coalition, The Massachusetts Sheriffs Association, Mothers Against Drunk Driving oppose Question 2.

Supporters of marijuana decriminalization, on the other hand, note that laws governing the sale, trafficking, and purchase of marijuana would be left unchanged, as would any laws related to impaired driving.

Taylor said that "if everyone would stop and listen – and consider what Question 2 would do, they would realize that personal possession of one ounce or less remains illegal, but would not carry a criminal penalty."

In 2004, a majority of Cohasset voters supported a non-binding policy question placed on the ballot by the Drug Policy Forum of Massachusetts calling for marijuana decriminalization. The majority of Hull and Hingham voters also voted "yes."

Reporter Nancy White contributed to this report.

"These are not [just] questions gauging voters' opinions on these issues [except Question 4]; no legislative approval is needed for them to become law."

— Rep. Garrett Bradley, referring to Questions 1, 2, and 3.

Nov. 4 ballot questions

Hingham and 10 other South Shore communities will have four ballot questions to consider Tuesday, Nov. 4. Questions 1, 2, and 3 are binding, while Question 4 is a non-binding Public Policy Question to register public opinion with legislators.

Question 1 – State personal income tax: A Yes vote would reduce the state personal income tax rate of 5.3 percent of federal adjusted gross income to 2.65 percent for the tax year beginning on Jan. 1, 2009, and would eliminate the tax altogether after Jan. 1, 2010. A No vote would make no change in state income tax laws.

Question 2 – Possession of marijuana: A Yes vote would replace the criminal penalties for possession of one ounce or less of marijuana with a new system of civil penalties. A No vote would make no change in state criminal laws concerning possession of marijuana.

Question 3 – Dog racing: A Yes vote would prohibit dog races on which betting or wagering occurs, effective Jan. 1, 2010. A No vote would make no change in the laws governing dog racing.

Question 4 – Alternative energy wind policy: This is a non-binding Public Policy Question on alternative energy wind policy to register public opinion to legislators representing the towns of Hingham, Hull, Cohasset, Scituate, Marshfield, Hanover, Norwell, Rockland, Braintree, and parts of Holbrook and Randolph.

The question reads: Shall the state representative from this district be instructed to vote in favor of legislation that would support the development of Cape Wind in Nantucket Sound and other possible future onshore and offshore wind power developments in Massachusetts?" Voters will be asked to vote either "Yes" or "No" on this question.

For further information about the statewide ballot questions, refer to "The Official Massachusetts Information for Voters" pamphlet recently mailed to every household or view this information online at: www.sec.state.ma.us. Click on the "Election Division" link and then click on the "Information for Voters Online Book" link under the "State Election 2008" heading.'

Beacon Hill Roll Call

By Bob Katzen

THE HOUSE AND SENATE. Beacon Hill Roll Call records local representatives and senators' votes on two roll calls from prior legislative sessions. There were no roll call votes in the House or Senate last week.

$3,056,500 FOR WORKFORCE DEVELOPMENT GRANTS (H 4900)

House 142-14, Senate 34-3, overrode Gov. Deval Patrick's $3,056,500 veto reduction (from $11,038,500 to 7,982,000) in funding for workforce development grants. The governor also vetoed some of the earmarking of the grants for specific programs. These funds come from the Workforce Training Fund that was established in 1998 and is financed by Massachusetts employers. Supporters of keeping the $3,056,500 said that it is important to fund these grants that provide resources to Massachusetts businesses to train employees and improve their skills. In his veto message, Patrick said that he reduced the funding of earmarks for programs not recommended. Some opponents of keeping the $3,056,500 said that the funding is excessive and argued that earmarking is unfair because it favors employers in specific areas across the state. (A "Yes" vote is for overriding Patrick's reduction and for keeping the $3,056,500. A "No" vote is against overriding Patrick's reduction and against keeping the $3,056,500).

GREEN JOBS (H 5018)

House 156-0, Senate 38-0, approved and Gov. Patrick signed into law the Green Jobs Act that offers state support to help develop the clean energy technology industry. Supporters say that the measure would create thousands of "green jobs," reduce greenhouse gas emissions, encourage green startup companies to locate and expand in Massachusetts and put Massachusetts in the forefront of the new green economy. (A "Yes" vote is for the bill).

Y = Yes; N = No, NV = No Vote

Wind turbine hearing Oct. 27

The Planning Board's continued public hearing on the proposed wind turbines originally scheduled for Oct. 6, has been postponed to Monday, Oct. 27 at 7:15 p.m. The Oct. 27 meeting will take place in the Town Hall Auditorium.

The applicant, Jim Sweeney of CCI-Energy, has requested additional time to conduct the additional studies and gather additional data requested by the Planning Board.

As a procedural matter, the applicant has requested the postponement and the continued public hearing will reconvene on Oct. 6 only to immediately be continued to Oct. 27. No discussion on the project will take place on Oct. 6.

CCI-Energy is proposing installing two turbines on the Graham Waste site off of Route 3A behind Hingham Lumber. The project calls for two 1.65-megawatt turbines each approximately 141-meters, or 462-feet, from ground to the top of the blade.

Beechwood Church Harvest Supper and Auction

The annual Harvest Supper and Auction will take place Thursday, Oct. 23, at Beechwood Congregational Church, 51 Church St., Cohasset, for the 85th straight year. In years past, members have personally made calls to people in surrounding towns in order to make dinner reservations. This policy is being phased out. Instead, the first 100 people will be seated on a first-come basis. Those who want can call the church and order reservations on the voice mail at 781-383-0808. Seating begins at 5:30 for dinner, which will be served at 6:30.

This year's menu will include ham, herbed roasted potatoes, green beans, Harvard beets, coffee and dessert. Dinner is $9 for adults and $4.50 for children. An auction of locally harvested produce, pies, homemade goods and various donated items will take place immediately following dinner.

Fiscal outlook not good

FROM OUTLOOK, PAGE 1

"This is a very difficult time this town and every other town in the Commonwealth is facing."
Town Manager Bill Griffin

Though the fiscal 2009 budget is a balanced one, several potential issues could arise to change that. Governor Deval Patrick has announced emergency budget reductions, which so far will not affect local aid to cities and towns but could down the line in this fiscal year or the next.

Painting a grim picture, Griffin stated there continues to be an increase in uncollected property taxes and a reduction in motor vehicles excise collections. In the memo, Griffin stated the increase in uncollected property taxes has already significantly impacted free cash for fiscal 2009—it's at its lowest point in many years. Both these issues will impact the town finances for fiscal 2010 and beyond.

Over the past two years, the town has has limited snowfall and therefore limited deficits in the snow removal line item. But, if this upcoming winter season is a snowy one, it could mean a large deficit that would need to be addressed in this current fiscal year or in fiscal 2010.

"Fiscal 2010 looms as a very difficult budget year. We can expect a reduction in state aid, less 'new growth' and less free cash to offset the budget," states Griffin.

While consideration will likely be given to bringing an override question to the voters, the town is also required to prepare a balanced budget without an assumed override for Town Meeting. More specific guidelines for budget preparation will be provided to town departments later in October.

For the time being, Griffin said at the Board of Selectmen meeting Monday night, expenses need to be reigned in. Discretionary spending must be avoided in order to allow as much out appropriations to close in surplus at the close of the fiscal year.

Griffin warned it is likely positions will have to be eliminated in the fiscal 2010 budget, "it is certainly preferable that those positions be eliminated by attrition and not be layoff."

Lastly, Griffin asked departments and committees to review their current fee structures to ensure the fees are recovering the cost of providing the associated service. If changes need to be made to the current fees, he asked they be brought to his attention.

"This is a very difficult time this town and every other town in the Commonwealth is facing," said Griffin at the Selectmen's meeting.

The Board of Selectmen intend to meet jointly with the School Committee, Advisory Committee, and Capital Budget Committee to discuss the state of the town's finances before Special Town Meeting (Nov. 17).

"I think we could be in for a rough ride," said Selectmen chairman Ted Carr. The meeting would also allow the committees to discuss and possibly prioritize some of the funding request items on the Special Town Meeting warrant.

The School Committee put a "freeze" on all non-essential spending and hiring at their meeting Oct. 1.

BRIEFLY

Singers, dancers and comedians to perform in Cohasset Cabaret

Cohasset Cabaret, a show featuring singers, dancers and comedians, will present their second show Friday and Saturday, Nov. 7 and 8, at St. Anthony's Church hall. The show will be directed again this year by Blanche Clarke, who has worked in theater for many years, including the Hingham Cabaret, Hingham Civic and other venues.

On both evenings, a social hour will take place from 7 to 8 p.m., where attendees can try their luck at the raffle table that will have items from local artists and merchants. Audience members are encouraged to bring their own snacks "cabaret style" or there will be a selection of sandwiches. A cash bar will serve wine, beer and soft drinks. Cohasset Cabaret is sponsored by the Friends of Cohasset Elder Affairs and will benefit the Friends of St. Anthony Youth Ministry.

The local cast will feature Doug Trudeau from Showstopper's fame as emcee. A sampling of what to expect: Lily Sestito will perform again. "Tina Turner" will appear with one of her popular numbers. Katherine, a star of the musical "Thoroughly Modern Millie" will give a song and dance routine. Vere Brown, a singer from Boston, will dazzle with his strong baritone voice. And, a few of the guys from the "Full Monty: will give a revue.

Tickets are on sale, and cost $25 each. Tickets can be purchased at St. Anthony Parish Hall and the CEA office at South Shore Community Center. For more information, call 781-383-0021.

Atlantic Symphony to present oboe soloist

Atlantic Symphony invites the public to a special musical experience at 7 p.m., on Sunday, Oct. 19, with oboist Andrew Price. Hear the sounds of one instrument stripped to its essentials: wood, reeds, breath, fingers and the energy it takes to bring them together into sound. While listening, sip or dine in the intimate setting of Asian C, a Pan-Asian restaurant on Route 53, Hingham.

Price performs occasionally with the Boston Pops and the

Andrew Price, Atlantic Symphony's principal oboist.

Boston Symphony orchestras, and as principal oboe for the Boston Pops Esplanade Orchestra. His stories compliment the sound of solo oboe.

Doors open at 6:30 p.m. for those who want to enjoy a prix-fixe buffet. Drinks may be ordered throughout the hour-long concert.

A limited number of tickets are available. For reservations, call 781-740-5694 or order online at atlanticsymphony.org. Cost is $15 for adults and seniors, $10 for youth. Buffet is $20. Cash bar available.

Organist Gail Archer to play at St. Stephen's Church

Celebrating its 17th year, St. Stephen's Concert Series in Cohasset will present organist Gail Archer of New York City in a recital at 3 p.m., on Sunday, Oct. 26, in a program featuring the music of 20th century French organist Olivier Messiaen. The music of this composer is highly controversial and uses elements of bird song, Gregorian chant, Far Eastern scales and scales of his own construction – all in a mission to bring the music of the church into the world and to musically present Christian truths in the concert hall. Archer lives in New York and serves as chairman of the music department at Barnard College, Columbia University.

This year, St. Stephen's is also celebrating the partial restoration of its 58-rank Aeolian-Skinner organ, portions of which had been rendered unplayable by spring storms several years ago/

The church is at 16 Highland Ave., Cohasset, is handicap accessible, and there is plenty of parking is available at the village car park. Admission is free, but donations will be accepted. For information, call 781-383-1083.

'Godspell' to be performed by Cohasset Dramatic Club

Cohasset Dramatic Club has announced it has assembled the cast for its fall production of "Godspell." Show dates will be at 7:30 p.m., on Nov. 14, 15, 21 and 22, and 2 p.m., on Nov. 16 and 23. The production will take place at Cohasset Town Hall auditorium.

Director and music director, Mark Bono set out in search of a diverse, energetic cast of 10 adults to recount the telling of the Gospel according to St. Matthew, through both parables and music, and find them he did. The ensemble is led by Stephen Lee from Randolph as Jesus. Lee has done this show before, and it is one of his favorites, so he is thrilled to be a part of this cast bringing this show to life for the first time on the Cohasset Town Hall stage. Supporting Lee in the ensemble, and each singing their own piece from the score by Stephen Schwartz, are Mark Alves, Cohasset; Eric Braun, Hanover; Nicole DiRuzza, Quincy; Denise Feeney, Abington; Lisa Pratt, Cohasset; Anne Thornton of Hanover; and Sharon White and Bill White of Scituate.

"Godspell" boasts a string of songs led by the hit "Day By Day." As the cast performs "Prepare Ye The Way of the Lord," "Learn Your Lessons Well," "All For the Best," "All Good Gifts," "Turn Back, O Man" and "By My Side," the parables come to life. Drawing from various theatrical traditions such as clowning, pantomime, charades and vaudeville, "Godspell" is a unique reflection of the life of Jesus, with a message of kindness, tolerance and love.

Tickets will be available soon at Paperscapes in Cohasset Village, Buttonwood Books on CJC Highway in Cohasset, or via CDC's ticket reservation and information line at 617-697-2115. Tickets are $15, and reservations are presently being accepted.

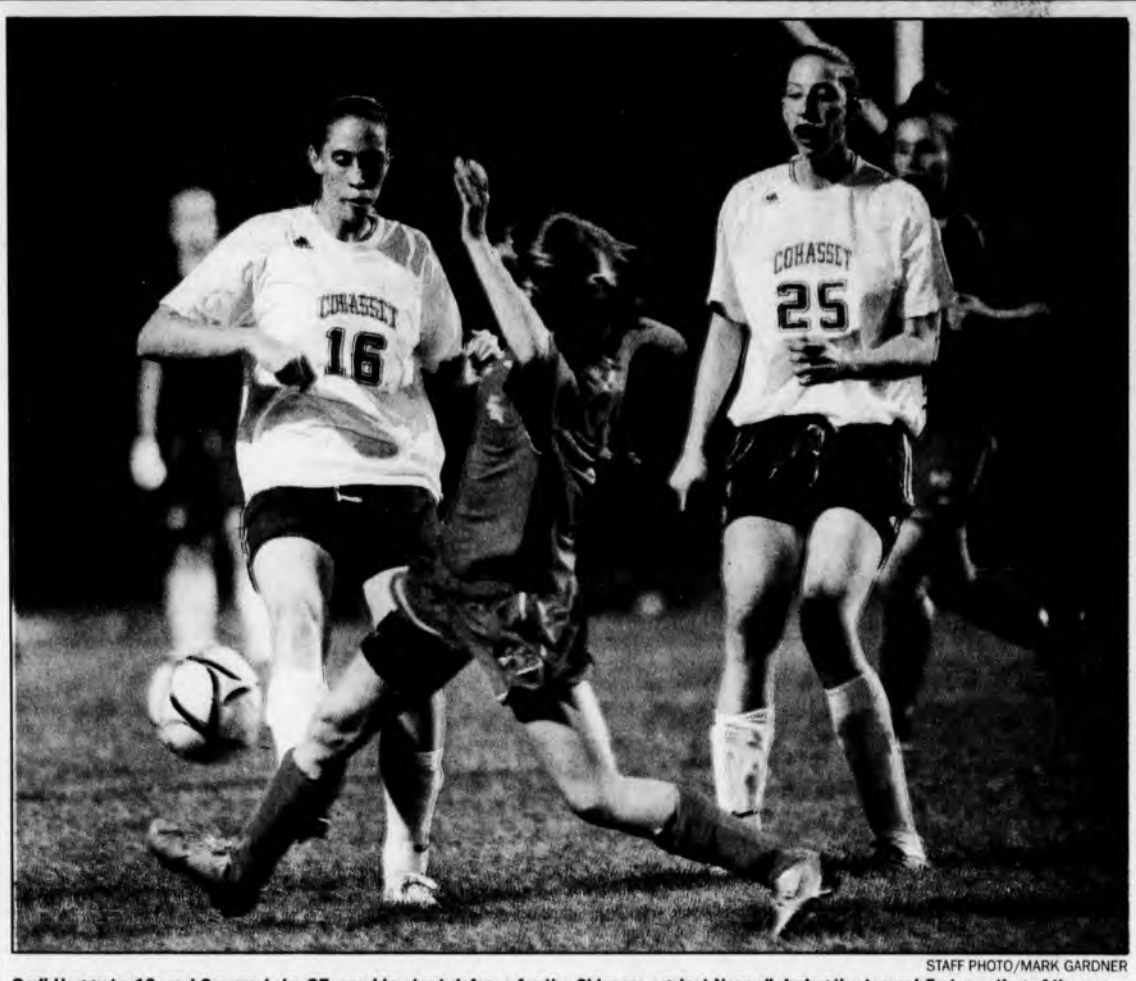
Cohasset rally falls just short

Skippers lose to Carver, 28-22

Coach Pete Afanasiw is looking forward. After losing to Carver 28-22, the Cohasset High School varsity football team is now focused on taking on the always-impressive Mashpee team.

It was Carver's explosive ground assault, combined with timely aerial execution that gave Carver a big, and ultimately, insurmountable lead in the third quarter. Coach Afanasiw said, "I knew Carver was going to be a huge contest. They have a tremendous group of seniors and are always a physical team. We made a good push, we never gave up, but I wish we could have the third quarter back."



Cohasset got on the board first as Jeff Cavanaro (145 yards on 16 of 27 passing, 2 TDs and a rushing TD) connected with Johnny Maher late in second quarter for a 25-yard touchdown. Brendan Doonan (five receptions for 95 years, 1 TD and 1 conversion) converted the PAT and the Skipppers were leading 7-0 in the second quarter. But before the buzzer could signal halftime, the Crusaders from Carver, playing before their Homecoming crowd, marched down the field and unleashed their passing game, getting the ball inside the Skipper 20 and ultimately into the end zone. As the teams headed into the locker rooms, they were deadlocked.

As the second half began, and Carver received the kickoff, it was as if halftime never happened. On the first play from scrimmage, Carver ran right, 45 yards into the end zone. On their ensuing possession Cohasset got into Carver territory but failed to convert on fourth-and-six. The Skippers had plenty of opportunities to score in the third quarter, but Carver managed to hold them out of the end zone every time.

Carver scored two more times in the quarter, putting the game seemingly out of reach.

Coach Afanasiw "Carver's offensive line deserves credit, they pushed us around up front and really took the fight to the defense," said Afanasiw.

STAFF PHOTO/MARK GARDNER

Carli Haggerty, 16, and Sammy Lehr, 25, provide stout defense for the Skippers against Norwell during the teams' first meeting of the season in mid-September. The Skippers came away with a 1-0 win in the first contest, but fell 4-2 in the most recent showdown between the two South Shore League rivals.

Heartbreaker for CHS girls

Lady Skippers fall to Norwell SSL showdown

By Mike Spellman
MSPELLMAN@CNC.COM

Time to adjust the goals.

This is the nature of high school sports, sometimes for better, sometimes for worse.

In the case of the Cohasset High girls' soccer team, it is, at least in the present, an adjustment for the worse.

Last Friday's 4-2 loss to archrival Norwell essentially quashed the Lady Skippers hopes for a South Shore League title.

With the victory, the Norwell girls (now 9-1 in league, 9-3 overall) not only avenged their lone loss of the season, a 1-0 setback to Cohasset three weeks ago, but broke the tie for first place with the Skippers (8-2, 9-2).

"The girls were pretty upset after that loss," reported Lady Skippers head coach Deb Beal. "It was especially disappointing to our seniors, who would have liked to hang a South Shore League championship banner in the (CHS) gym. But now our first goal needs to be finishing strong, getting a top seed and then hopefully doing something great with it."

Mathematically, the Cohasset girls would still appear to be in the running for a league title. If they win out over four SSL rivals they've already topped, all they'd need is for Norwell to lose once to create a first place tie. However, Norwell has league games remaining against only Mashpee, Abington, Harwich and Hull, teams they beat by a combined score of 31-3 in the initial go-rounds. The closest of those games was a 4-0 win over Abington (4-10).

CHS golfers swing for playoff berth

By Charlie Mushin and Ian Lyster

The 2008 Cohasset High School golf team has had its fair share of ups and downs this season. Being the South Shore League champs just a year ago, the team had high expectations going into this year.

"Everyone is playing well but we just can't seem to put it all together," said captain Jonny Wade, who added, they "aren't as good as we should be."

The team was 6-6 going into a crucial match with Scituate on Wednesday (Oct. 15) at 3 p.m. A win catapults the team into the state tourney while a loss effectively ends their season. Results were not available at press time.

As far as Wade's strategy heading into the critical match and potentially the playoffs, he said Clippers have to "just keep playing consistently and as long as everyone plays their game they will be fine into and

CHS looks to offense to spark strong finish

MSPELLMAN@CNC.COM

It's rare when the coach of a 2-7-3 team can sound credible making the claim that a tourney spot remains within reach, but Cohasset boys coach Jim Willis actually makes a compelling argument.

"When I look at all of the games that were decided by just one goal or one play this season, I've got to believe there's still a chance," said the Skippers' second year head coach. "Especially with the way a few guys have been picking it up and the fact most of these teams we lost to by one goal on the road are now coming to our place."

Unfortunately, Monday's 2-1 loss down on Nantucket island dealt a palpable blow to the

CAPTAIN'S CORNER/Jonny Wade

PHOTO/MARY FORD

The Mariner caught up with CHS golf captain Jonny Wade, a three-sport athlete, before a recent match against Mashpee at the Cohasset Golf Club.

Name: Jonny Wade

Grade: Senior

Sports played: Golf, hockey, lacrosse

Favorite subject: History

Favorite sport: Depends on the season. However, golf is a great way to start off the year!

Favorite professional team: Boston Bruins

Athlete you would most like to meet: Tiger Woods

Favorite music, band or group: Too many to pick from!

Best thing about CHS athletics: You get to know everyone really well. Because of the size of the school, freshmen can contribute to the varsity program. At other schools, there is more division between the grades.

Goal: To win the league match in golf and make it to the state tournament. (Cohasset has won the South Shore League Tournament, which is a one-day individual and team competition the last two years. CHS golfers have made it to the state tournament the last four years and won the South Shore League Title in 2005.)

Lady Skippers fall to Norwell SSL showdown

FROM GIRLS SOCCER, PAGE 15

"It would take a pretty big upset for us to have a chance," conceded Beal. "But we can't think about that right now. Our goal is to keep getting better and look to win every game. If our focus is on what Norwell is doing, we'll be in trouble."

If the Cohasset girls do, in fact, win out, they'd earn a higher seed than Norwell by virtue of fewer losses. That could mean something if the two teams meet before the sectional finals, in which case the higher seed hosts. Forget Friday's loss; the Lady Skippers would love a chance to avenge the 1-0 loss they suffered to the Norwell in the Div. 3 sectional semi-finals last fall.

"One game at a time, though," Beal warns.

Norwell 4, Skippers 2

After 30 minutes of hard-fought white-knuckle soccer, Cohasset captain Maggie McGoldrick opened the scoring with a pretty tally less than 10 minutes before the break.

"I really liked our chances after that went in," said Beal. "The game had been pretty even to that point, and I thought the first goal would give us a real lift and hopefully deflate Norwell."

Obviously, it did not play out that way. Norwell's Krista Prouty converted three minutes later to send the game into the half tied at one apiece.

Hillary Kitchen and Kara O'Connell followed with goals a few minutes apart after the break to stun the visiting Skippers.

The locals did not quit, however, and sophomore speedster Kaci Kucinski got behind the defense with 11 minutes to play and finished strong to make it a 3-2 game.

Five minutes later, however, Norwell sophomore forward Kelly Duffy scored to seal the victory.

"In terms of how we played, I was honestly not disappointed at all," said Beal. "We actually played a very good game, and I was very proud of the effort. We possessed the ball very well for 37 of 40 minutes in the second half, but Norwell took advantage of a couple of (defensive) breakdowns, and their girls definitely deserve credit for that. That's what good players and good teams do."

In particular, Beal lauded the play of senior captains McGoldrick and Torey Hart and sophomores Kucinski and Caroline Fein.

"We had great play up front from Kaci and Caroline, and they were very well supported by Maggie and Torey," said Beal. "It was a solid team effort, and our players stepped up in a very emotional game. I was very proud of that."

Skippers 4, Sandwich 0

Not that there was a lot of suspense regarding this matter, but the Cohasset girls sewed up their spot in the Div. 3 state tourney with this Columbus Day win on the Cape.

Sarah Coggins and Torey Hart had a goal and an assist each to lead the Skippers to their 10th win on the season.

Kucinski and McGoldrick scored the other two goals.

Senior keeper Johanna Brophy, playing her second straight game since missing a month of action due to injury, was sharp in net to record her first shutout.

Next up

The Skippers were looking to extract a little revenge when they traveled to East Bridgewater on Wednesday. E.B. handed Cohasset its only other loss, a 2-1 setback on Sept. 17, which now stands as the difference between a first place tie and second place.

"That game is more about bragging rights," Beal said prior to that match. "(E.B.) came into our place and took a win against us two days after we took a very emotional win (over Norwell). Our girls are hungry to return the favor."

The Lady Skippers don't have a lot on the league schedule after that one. They beat their remaining SSL rivals (Carver, Hull and Mashpee) by a combined score of 13-0.

Mixed in that stretch run, though, are some quality battle testers with larger division standouts Notre Dame (7-2-1), Rockland (3-4-1) and Plymouth North (9-2-2).

"When we scheduled those games I figured they'd be great tune up games to get us ready for the challenge," said Beal. "Those are all tough teams, and that should get us ready mentally and physically for what we'll face in the tourney."

CHS looks to offense to spark strong finish

FROM BOYS SOCCER, PAGE 15

Skippers postseason aspirations.

"Yeah, 3-6-3 would have sounded a lot better," continued Willis. "But a 6-1 finish is not impossible for this team. Until we lose two more, we're going in to every game with the thought that this is doable."

If it is going to happen, there's no mystery as to where the improvement is going to have to occur: at the offensive end. Indeed, given the way the Skippers have executed up front to date six goals total seems nearly as great a long shot as six wins.

"It was the same old problem against Nantucket," said Willis, whose team has scored just eight goals total all season. "We've struggled with putting the ball on goal all season, and that came back to bite us again (Monday)."

The Skippers lone goal came off a blast from outside the 18-yard line by fullback Jack Murphy with under 10 minutes to play. This, the visitors' first shot on goal of the game, cut Nantucket's lead to 2-1.

"We're playing a lot of up and down soccer," continued Willis, whose team has surrendered just 10 goals in the last 11 games.

The Skippers have lost two games by a 2-1 score, two others 1-0 and also played to a couple of scoreless draws. One of those 1-0 losses came to 11-1 Carver, the game's lone goal coming with 40 seconds to play.

"Our defense has been pretty outstanding most of the season," continued the head coach, "but there's such a thin margin of error when you're not even scoring a goal a game. We've got a lot of youth, and we're just not putting ourselves in positions to score."

Willis is doing all he can think of to turn that around. Beginning with this past Wednesday's big showdown with East Bridgewater, seniors Lennart Brown and Owen Landon — the team's best defenders, if not overall players all season — were going to be playing with the front seven.

"We're at the point now we're I've got to roll the dice a little bit in the hopes of giving the offense a spark," said Willis. "Lennart has been a center mid most of his life, and he can lead an offense. Owen is a strong overall player who plays strong and aggressive around the ball. Those are things we need up front right now."

Brown started the season as the Skippers center midfielder, essentially quarterbacking the offense, but a season-opening 5-0 loss to Scituate convinced Willis he needed to put his top player at sweeper and build from the back forward.

Today, though, the coach feels the younger players on his team have now come far enough in their understanding of his system to do a passable jump manning the rear.

Among the younger players Willis will be looking upon to take it to the next level is sophomore Anders Goetz, who has inspired enough confidence from his coach to be assigned marking duty on top opposing wings for all 80 minutes

"Anders isn't the big kid, but he's just relentless and loves to battle top players," lauded Willis. "He seems to welcome those challenges."

Willis also feels his defense is in better shape now with senior fullback Conor Ofsthun back to just about 100 percent health. The tall and athletic multi-year varsity performer was slowed through the first several weeks of the season by a severely sprained ankle.

Of course, the coach also recognizes an even bigger load may well be required of star junior keeper Will Wise, the Skippers number one netminder since his freshman year.

"Will has had a sensational year," said Willis. "I don't want to think of where we'd be without him. Obviously, we're going to continue needing him to come up big if we're going to have any shot at this thing."

Next Up

Clearly, the Skippers have their work cut out for them with their stated goal of going 6-1 to finish up.

After Wednesday's tilt with East Bridgewater (3-4-3), they host Carver (11-1) this afternoon (Friday; 3:30 p.m. start) and Nantucket (7-3-2) Tuesday before traveling to Hull (1-8-1) Wednesday.

The Skippers sandwich hostings of Cape rivals Mashpee (6-4-3) and Harwich (12-0) — on Oct. 27 and Nov. 3, respectively — around an Oct. 29 trip to Scituate (4-5) to close out the regular season.

CHS golfers swing for playoff berth

FROM GOLF, PAGE 15

through the tourney."

This last match with Scituate is not the only thing on the line for a couple CHS golfers. Juniors Chase Stebbins and Ian Quinlan, along with sophomore Robbie Hill, are all vying for a number one spot in next year's rotation as well. Stebbins may be the early favorite as he is having a solid season, but Quinlan and Hill aren't too far behind.

Behind Wade, Stebbins, Quinlan, and Hill are juniors Harry Cipolla and Sebastian Braga and sophomore Morgan Grasz. With Wade being the only graduating senior, the rest of the team will look to add to its success and experience from this season to make a solid run for the state tournament next season.

Close contests for Cohasset field hockey

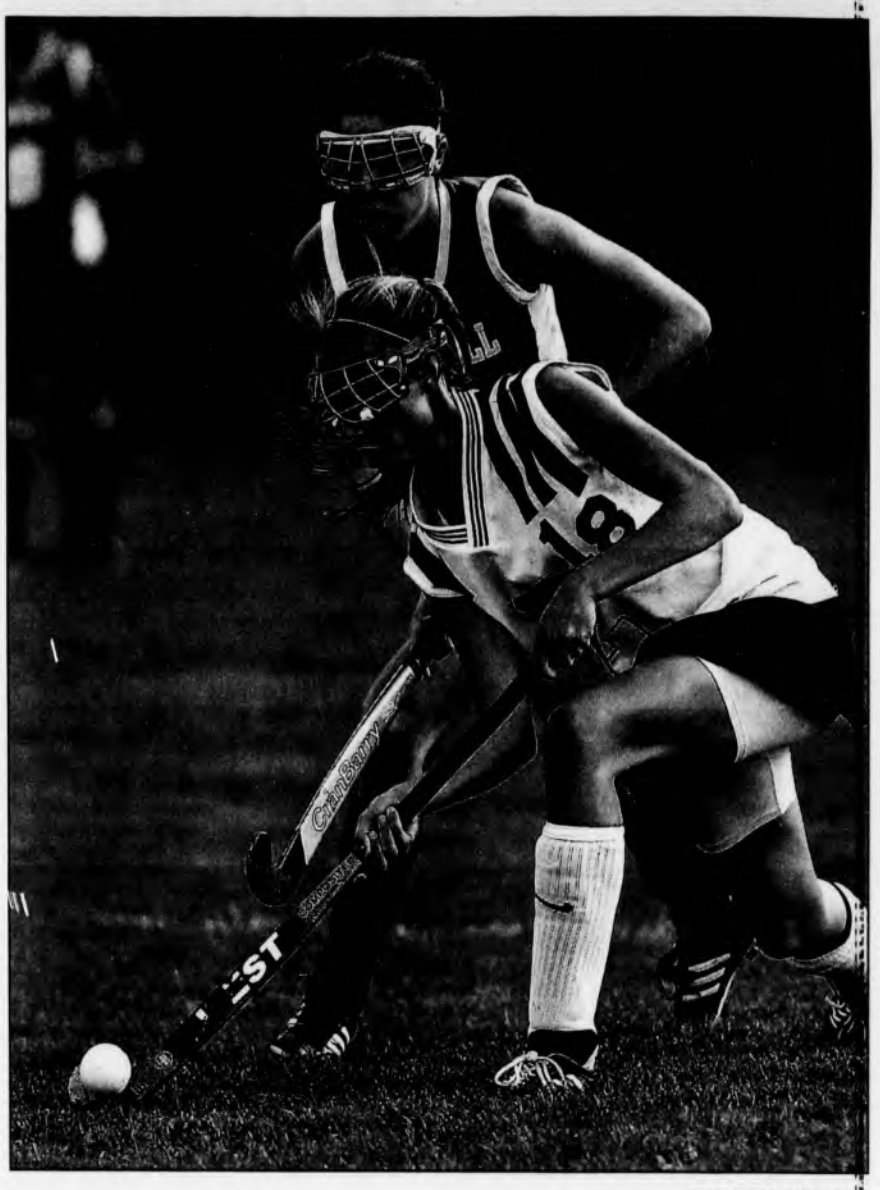
By Susan Franklin
SPECIAL TO THE MARINER

With 15 minutes left in the half, Cohasset was tenacious at both ends of the field. Players like Lesen Haracz were seemingly everywhere Harwich turned.

The Cohasset varsity field hockey team has had a couple of rough weeks on the field. Facing five opponents, including division champion Harwich, the team suffered four loses, all of which had the potential of being in the win column.

In the first half of the Mashpee game at Deer Hill, aggressive play by Lucy Noble, Marissa Tangherlini, Lesen Haracz, Hillary Gaumer and Isabelle Franklin set the tone early and Cohasset controlled the ball for 28 of 30 minutes. Unable to convert on numerous offensive bursts, by Kelsey Erler, Hillary Gaumer, Lesen Haracz and Jenny Cahill, the score at halftime stood 0-0. Cohasset's defense was tenacious, with dominant play by veterans Marisa Tangherlini and Jean Thome, key plays by Kate Durant and numerous saves by Alyssa Mullin. Erika Reardon, Kate O'Callahan, Taryn Donohue, Margaux Donze, Emily Toomey and Lauren Blaze jumped in and held Mashpee's offense at bay with strong defensive plays. Mashpee's only goal came in the second half off a corner with a high shot in the upper corner of the net. Alyssa Mullin reacted well but this type of shot is extremely difficult to save. At then end of this 0-1 content, Cohasset's conference record stood at 1-3 with the overall league record of 2-5.

The team traveled to Carver where the game ended in a 0-0 tie, before returning home to face Norwell. Cohasset came out on fire early. Six minutes into the contest, Jean Thome drilled a pass into the circle from midfield intended for Hillary Gaumer but it was too hot to handle. Norwell took it down the sideline, pursued by Lucy Noble who chased it all the way to the other end where she stole it and sent it back downfield. Nine minutes in Isabelle Franklin finds Gaumer in the circle who flipped it to Jenny Cahill whose shot on goal missed right. Over the next eight minutes, Cohasset's offense made three more attempts on goal, including a shot that went wide by Jenny Cahill and a blast from Hillary Gaumer that was knocked down by the Norwell goalie. A series of penalty corners gave Norwell its scoring opportunities but the Cohasset defense did not allow even a shot.



In the second half, Norwell made a push on the Cohasset goal, getting off a number of shots that did not materialize into goals. A period of fast paced activity ensued with the ball traveling and the players running all over this 100 x 60 yard field but neither team could gain enough control to generate scoring opportunities. Late in the second half, a penalty in the Cohasset zone set Norwell up for a series of corners, yielding them a goal. With the score now 0-1 and only minutes left in the contest, Cohasset attached the Norwell goal. Marissa Tangherlini hit the ball through a bevy of sticks but a foot fault gave it back to Norwell. Cohasset took it right back generating a corner where Lucy Noble passed to Hillary Gaumer who put it in the net, but the goal was called back. A Jenny Cahill shot off a series of passes from Kelsey Erler and Gaumer fell short, and the a follow-up shot went wide. Time ran out and Cohasset came out on the short end of the 0-1 score. Later that week, Cohasset and Hull tied in 2-2 game played at Deer Hill field.

Despite the tough losses, the team came out to play against division behemoth Harwich. The game at Deer Hill was on grass not the pristine artificial turf surface on which Harwich dominates. Harwich came in an aggressive man-to-man half field defense. For the first five minutes the ball never left the Cohasset zone but despite ball control, Harwich could not get a shot against Cohasset's pesky defenders. Eight minutes in Cohasset got the ball across the centerline to a streaking Hillary Gaumer just above the circle she had too much momentum to control a shot. Minutes later Harwich got its first shot on goal, but Cohasset stopped it. A Harwich corner ensued where two shots were fired, both stopped by Mullin. Cleared up the field by the Cohasset defense, a foot fault brought it back the other way.

Thirteen minutes in Harwich got a shot off a full field drive but Mullin saved it and sent it wide. Harwich generated four more attempts on goal but all were thwarted by the Cohasset defense and Mullin. Seventeen minutes into the scoreless half, the Harwich coach called a timeout. Returning to the field, Harwich successfully executed a play that resulted in a goal. Kelsey Erler sparked a breakaway with a lead pass to Gaumer but her shot was spoiled by a foot fault. Marissa Tangherlini took the penalty hit but Harwich turned the ball back. Cohasset brought it back on a penalty charged drive up field. Gaumer surrounded by Harwich sticks managed to get a three shots off in the circle but none of them materialized into goals.

A frustrated Harwich squad started the second half with a mission. Taking control of the ball, they attempted a series of shots on goal but they were foiled again by Cohasset's defense. Finally Cohasset cleared the ball from their zone and the offensive line comprised of Jenny Cahill, Isabelle Franklin, Lesen Haracz and Hillary Gaumer went on the attack. Spoiled by a foot fault Harwich gained a corner but their attempt to score was foiled by Tangherlini. Minutes later Gaumer made an unfettered shot off a Cohasset corner but it went wide. Turned back downfield, Harwich drove a loose ball in front of the Cohasset net at Mullin but the shot went wide.

With 15 minutes left in the half, Cohasset was tenacious at both ends of the field. Players like Lesen Haracz were seemingly everywhere Harwich turned. Harwich appeared frustrated and called a second timeout. Back on the field a Cohasset breakaway by Cahill, Erler and Gaumer brought the ball into the Harwich zone where another shot on goal was turned away. Harwich's fastest player took the ball, sprinting the length of the field to drill a shot at Mullin who turned it away with a kick save. With three minutes remaining in the contest, Haracz thwarted a well-designed play on a Harwich corner, but the errant rebound controlled by Harwich was shot into the goal. Cohasset lost this game 0-2 but overall, they played with intensely all game and gave Harwich their most difficult contest of the season.

YOUTH FOOTBALL

Sharks suffer first loss, 18-14

On a perfect afternoon for football the Marshfield Rams overcame a 14-12 deficit in the fourth quarter to knock off the previously undefeated Scituate Sharks, 18-14. Marshfield now takes over first place in Division One and Scituate secures at least a second place finish depending on the outcome of Marshfield's game against Plymouth.

Marshfield won all facets of this battle with superior special teams play, a physical attacking defense and an offense that took advantage of some mismatches defensively for Scituate.

Despite allowing Marshfield to return each kickoff past midfield, Scituate's defense kept rising to the challenge time and time again to keep the Sharks within striking distance. However, two illegal procedure penalties against Scituate in short yardage situations killed promising drives forcing Scituate to punt the ball back to Marshfield.

Marshfield got on the scoreboard first but was unable to convert their extra point try and led early 6-0. Scituate came right back thanks to some solid running from Jordan Kelly & Shea McCarthy. Shane Haggerty got the Sharks on the scoreboard thanks to a great lead block from Michael Stewart and Matt McCrae hauled in the conversion attempt to give Sci-Coh an 8-6 lead.

The score stood at 8-6 entering the third quarter when Marshfield decided to power the ball right at Scituate with their all-star running back Kevin O'Donnell. O'Donnell broke numerous tackles and scampered 32 yards to give Marshfield 12-8 lead. Once again Scituate's defense came up big on the conversion try stopping Marshfield short of the goal line.

Now it was Scituate's turn to put a little offense together. Joe Daileader, Stewart, Kelley and McCarthy took turns carrying the ball behind Scituate's line of Tyler Serra, John Foster, Danny Buckley, Craig Davis & Sean Shea. Kelley eventually powered his way into the end zone and Scituate regained the lead 14-12. However, once again Scituate's kickoff coverage was lacking and Marshfield returned the ensuing kickoff across midfield to their opponent's 38-yard line. After a personal foul penalty on Marshfield set up a third and long, O'Donnell once again beat a Scituate defender down the sideline, hauling in a long touchdown pass recapturing the lead for Marshfield 18-14.

Scituate's final possession stalled as Marshfield's defense pressured Haggerty to throw the ball away when he wasn't getting sacked. After a punt from deep in their own territory, Scituate could not stop Marshfield's offense and as a result Marshfield was able to run out the clock and capture first place with a grueling 18-14 victory.

Scituate travels to non-league opponent Taunton Saturday for their first and only night game of the season, game time 7:30 p.m.

Youth Basketball registration Oct. 18 at Town Hall

Cohasset Youth Basketball registrations will take place on Saturday, Oct. 18 from 8-11 a.m. in the basement conference room of the town hall. Registration fee remains at $75. Anyone registering after Oct 31 will be charged a $25 late registration fee. Teams will be selected on Nov. 15 and they will be posted on www.cohassetbasketball.com. Registrations will close on Nov. 7. Any late registrations will be subject to the approval of the CBBC.

There will also be signups for travel basketball tryouts on Oct. 18. No money or registration is required at this time. In order to plan properly, we need to know how many players are planning to try out for travel basketball.

More information about youth basketball and travel basketball will be available on Oct. 18.

Cohasset Youth Travel Basketball to hold tryouts Oct. 20-30

Cohasset youth are invited tryout for Cohasset Girls and Boys Travel Basketball teams according to the schedule below. Players who plan to try out must sign up on Saturday, Oct. 18, from 8 to 11 a.m., in the basement conference room in Town Hall. No money or registration will be collected; this is just to get a count of how many players will be trying out.

These teams compete in the very competitive Girls South Shore League and the Boys Patriot League. The leagues are geared for the players who are committed to basketball. The teams practice twice weekly and play travel games on Saturdays and Sundays.

Girls tryouts

Fifth grade: Tuesday, Oct 21 and Thursday, Oct. 23, from 7 to 8:15 p.m., Deer Hill gym

Sixth grade: Tuesday, Oct 21 and Thursday, Oct. 23, from 7 to 8:15 p.m., Osgood gym

Seventh grade: Monday, Oct 20 and Wednesday, Oct. 22, from7 to 8:15 p.m., Deer Hill gym

Eighth grade: Monday, Oct 20 and Wednesday, Oct. 22, from7 to 8:15 p.m·· Osgood gym

Boys tryouts

Fifth grade: Tuesday, Oct 28 and Thursday, Oct. 30, from 7 to 8:15 p.m., Deer Hill gym

Sixth grade: Monday, Oct 27 and Wednesday, Oct. 29, from 5:30 to 7 p.m., Deer Hill gym

Seventh grade: Monday, Oct 27 and Wednesday, Oct. 29, from 7 to 8:15 p.m., Deer Hill gym

Eighth grade: Monday, Oct 27 and Wednesday, Oct. 29, from 7 to 8:15 p.m., Osgood gym

For information about girls basketball, contact Steve Fredey at 781-383-6356; for boys, contact Chris Haggerty at 781-383-9930.

Exchange students have arrived at CHS

LIFE AT CHS

LAUREN MACK

Hello everybody! Thanks to Christopher Columbus, this week was a short one; however, that did not slow down the swing of the school week. On the holiday, the boys' soccer and girls' field hockey teams traveled to Nantucket to play against Whalers. The scores of both games were irrelevant, but the boys and girls teams enjoyed themselves on the island nonetheless. Also in regards to soccer, the annual Pancake Breakfast will be held at the Deer Hill on Sunday morning from 8 a.m.-noon. And for all of you who bought tickets, you are also automatically entered into a raffle to win many different prizes, including free gas for a year! The school-wide student council elections were also held this week, resulting in Chris O'Grady as our new School President, and Matt Brooks as his Vice President. More big news this week is that the French exchange students arrived on Wednesday evening to stay with their host families. The students included in this joint program with Scituate High School will host for ten days and then stay with a family in France for ten days.

With the exchange occurring, it seems fitting that my Teacher Quote of the Week comes from the teacher who is behind the scenes of this foreign exchange program, Ms. Beth Marat, or Madame as she is referred to in the classroom. This year will be her second year doing the French Exchange at CHS, and when asked about how she hopes this second time around will go, she responded: "Oh mon dieu, je suis heureux qu'il ne soit pas la semaine de spirit. Tous les etudiants Français penseraient que nous sommes absolument fous!" (Translation: "Oh my god, I am just glad that it's not spirit week. All of the French students would think that we are all absolutely insane!"). And with that I bid you all farewell until next week. Au revoir!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.

SCHOOL MENUS

DEER HILL, OSGOOD MENUS

MONDAY, OCT. 20

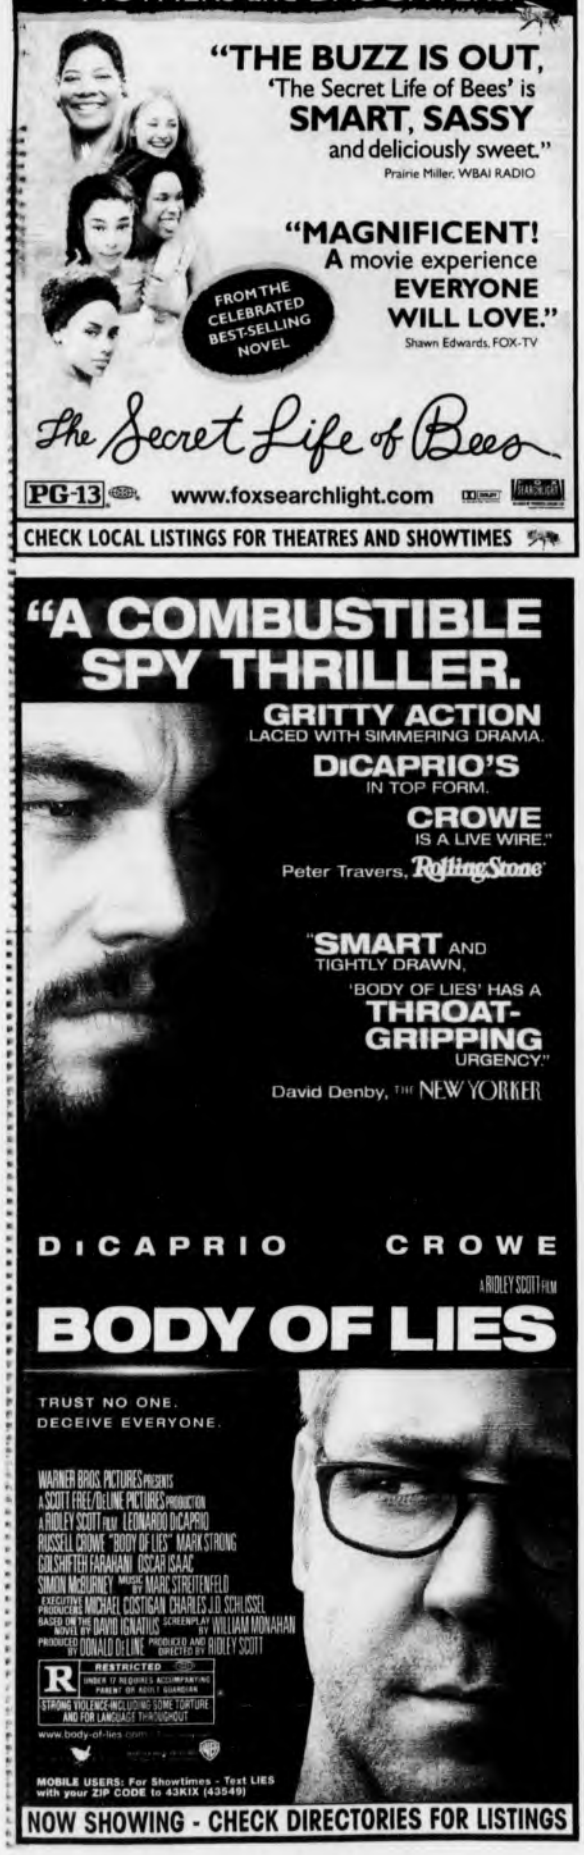
New school Web site launched

The Cohasset Schools has an entirely new Web site. The revamped site will still be able to be accessed at www.cohassetk12.org.

The site will be composed of five sites, each one to be frequently updated by administrators, teachers and staff. Teachers will be able to have their own site to post homework assignments, the Superintendent will be able to post messages, and the daily school lunch menu will be available as well. The ability to purchase school lunches online will be available around the time of the new Web site launch.

Skippers lose to Carver, 28-22

FROM FOOTBALL, PAGE 15



Jake Kissick had another strong performance with 11 tackles. Robert Jones played well at cornerback with some very strong hits.

At the start of the fourth quarter, the Skippers, not willing to go quietly into the dark night, marched down the field in an 11-play drive that resulted in Cavanaro taking it into the end zone for the TD. Key catches by Doonan, Dean Driscoll and Thomas Flibotte in that drive ensured the result. Doonan converted the PAT.

The ensuing on-side kick by Cohasset was unsuccessful, but it was no matter. On the second play from scrimmage, Carver fumbled and Maher recovered the ball, setting up Cohasset for an eight-play scoring drive. Cavanaro connected with Doonan from the 5-yard line. The score was 28-20 Carver. In the two-point conversion attempt, Carver was guilty of pass interference on Driscoll, giving the Skippers another attempt. Cavanaro hit Doonan for 2, and the Skippers were now down by 6. With time on the clock, Cohasset attempted another on-side kick, and this time Mike Froio came up with the ball midfield. It couldn't have been scripted better. Cohasset had another shot at the end zone. But the opportunity was short lived as Carver, in double coverage, intercepted a Cavanaro pass attempt to Maher. The Crusaders methodically ran down the clock grinding up yardage until time ran out.

Coach Afanasiw commented, "There is a lot of parity in the league this year and I truly think that the eventual league champ will not be an undefeated team," said Afanasiw. "That means we still have a shot at post season play. It's a tall task, be we need to win our remaining five games… difficult but very possible."

Sports FAX 781-837-4543

Registration closes for Saturday's race at 1:30 p.m. The coxswains' meeting will be at 1:45 p.m., and race start at 2:30 p.m.

Head out to the Head of the Weir River Race Saturday

Hull Lifesaving Museum's 21st annual Head of the Weir River Race is a celebration of the estuary at the height of its fall beauty and the array of the region's open water rowers. The race will take place Saturday, Oct. 18. Fee is $20 per rower; free for spectators.

As many as 60 boats jockey for position racing out the narrow estuary and into open water, traveling from West Corner on the Hingham/Hull/Cohasset line, past Bumpkin Island, across Hull Bay, to the museum's Windmill Point Boathouse at Hull Gut. A highly contested 5-1/2 miler, the Weir draws coxed youth and adult rowers in gigs, single and double livery and workboats, currachs and ocean shells, as well as experienced paddlers in kayaks and canoes. In the head of the river format, boats kick-off from the starting line at one-minute intervals, and times are collated at the finish to determine the race winners. The Weir is an exciting race and a great spectator event, featuring more than 150 rowers from all over New England and New York. Best spectator views are from the bridge on George Washington Boulevard – 10 to 20 minutes after the start; at the tip of Hull's Sunset Point, or at the Windmill Point Boathouse finish line. Spectators should show care crossing the road on George Washington Boulevard, watching for fast moving traffic.

Registration, required for all participants, will begin at noon at the race starting line behind the Hull Public Works building at the Hull town line on Route 228. Registration closes at 1:30 p.m. The coxswains' meeting will be at 1:45 p.m., and race start at 2:30 p.m. All coxed boats must contact the race organizers before the day of the race. There is no parking available at the race starting line; the put-in for trailered boats is at Nantasket Pier, 1 mile from the starting line, where car and trailer parking is available. For more information, call Ed McCabe, Hull Lifesaving Museum's maritime program director, or Lory Newmyer, executive director at the museum, at 781-925-5433, email info@hull-lifesavingmuseum.org, or visit the Web site at lifesavingmuseum.org.

Holly Hill Farm fall program schedule

Holly Hill Farm's salt marsh on the north side of Peck's Meadow will be the site of a workshop on salt marshes on Sunday, Oct. 5. This workshop should be of interest to those who want to know about plant life in salt marshes, why preservation of salt marshes is so important for the environment and why salt marshes are in danger of being lost. Emily D.W. Sullivan, the Wetland Project coordinator in the Northeast Massachusetts Mosquito Control and Management District will be the instructor.

On Sunday, Oct. 19, Friends of Holly Hill Farm will host its first annual Discover the Woods Day, a day packed with events that will celebrate the completion of a three-year project that has led to making the woods of Holly Hill Farm, next to Wheelwright Park, more accessible and enjoyable. Trails and paths have been cleared and improved, trail markers and entrance signs posted and a new trail guide, complete with trail map published and available for purchase at the farm stand. Featured will be a 5k cross country trail run, a 1-mile family fun run, a mapping game, a nature identification game and an afternoon guided tour of the fields and woods by local environmental scientist Steve Ivas.

Because of their popularity a year ago the next two activities will be repeated. Farm managers Hannah Hobbs and Ben Wolbach will once again lead an information-laden walk through the growing fields of the farm. This is where people can learn where the produce featured at the farm stand is grown, gain insight into organic growing techniques and have a chance to have gardening questions addressed. It will take place on Saturday afternoon, Oct. 25. The second repeat is the holiday wreath making workshop, which will take place in the farm's greenhouse on Saturday, Dec. 6. Participants will make their own wreaths from materials provided by the farm.

Those interested in more information should call education director Jon Belber at 781-383-6565 or via email to jbelberhollyhill@hotmail.com.

Fall program schedule:

Sunday, Oct. 19, 2 to 3:30 p.m. Discover the Woods Day. More information available by contacting Jon Belber at jbelberhollyhill@hotmail.com.

Saturday, Oct. 25, 1 to 3:30 p.m. Tour the growing fields of Holly Hill Farm. Instructors: Hannah Hobbs and Ben Wolbach. Cost: $5 per person; no charge for members of Friends of Holly Hill Farm.

Saturday Dec. 6, 2 to 3:30 p.m. Wreath making with an instructor to be named. Cost: $15 per person; $10 for members of Friends of Holly Hill Farm.

Although registration by a week in advance of most events is optional as it assures a space, it is not required. For information and to register, email Belber. Registration, at least 10 days in advance of Discover the Woods Day running events, is required. By sending an email to Belber, interested parties will receive more details and registration forms.

All workshops, tours and events will start in front of the Main Barn at Holly Hill Farm, 236 Jerusalem Road, Cohasset. Parking is available. Friends of Holly Hill Farm Inc., the not-for-profit organization that uses and makes available the resources of Holly Hill Farm for educational programs, sponsors the above activities.

Wine tasting to benefit Scituate Animal Shelter

The public is invited to an evening of music, wine and hors d'oeuvres tasting on Friday, Oct. 17, from 6 to 9 p.m., at the South Shore Art Center in Cohasset. Jazz, cabaret and pop vocalist Krisanthi Pappas will perform. Tickets are $45 each and available at the Sotheby's International Real Estate office, 1 South Main St., Cohasset Village, and at the Scituate Animal Shelter.

All proceeds will benefit the Scituate Animal Shelter. For information, call 617-967-5175.

Senior Scene

Improving our connections on Oct. 22

Cohasset Elder Affairs is sponsoring the following events. Call 781-383-9112 to register.

• Wednesday, Oct. 22, 11 a.m. to noon. "Using Newest Technology & Collaboration to Improve Our Connections," presented by Lucille Sorrentino, Tina Dwyer and Anna Hall. Dessert will be provided by Weymouth Health Care. Gourmet lunch provided by Arthur Roebuck. Donation is $2.50.

• Wednesday, Oct. 29, 11 a.m. to noon. "Funding Your Lifestyle and Medical Expenses When the Cost of Living is Going Through the Roof" will be presented by Frank Callahan from Right at Home and Pat Dougherty from Coastal Finance. A special luncheon will be served following the presentation. Call to register.

• Monday, Nov. 3, 7 to 8:30 p.m. A discussion titled "Presenting the Boston Italians" will be given by author Stephen Puleo. Come meet the author at this event, which will take place at St. Anthony Parish Center. Puleo will tell the story of the people who came to America from Sicily, Aveleno, Abruzzi and Calabria to live on the streets of the North End of Boston and why they came. Call to sign up.

• Friday, Nov. 7, and Saturday, Nov. 8. Doors open at 7 p.m. Cabaret 2008, sponsored by Friends of Cohasset Elder Affairs, will take place at St. Anthony Parish Center. This evening of entertainment will feature singers, dancers and comedians. The evening will include a social hour, raffle table and cash bar serving beer, wine and soft drinks. Cost is $25.

• Saturday, Nov. 22, and Sunday, Nov. 23, will be "Make a Difference Days," which is sponsored by Deer Hill School PSO. Volunteers from Deer Hill School and their families will go to the homes of seniors to rake, put down storm windows and do other chores. Call the Senior Center before Nov. 14 to sign up.

• Tuesday, Nov. 25, noon. The Roy family and the staff at Atlantica Restaurant will host a Thanksgiving feast or Cohasset seniors. Each senior is asked to bring anon-perishable food or household items for Cohasset Food Pantry. Call the Senior Center before Nov. 20 to sign up.

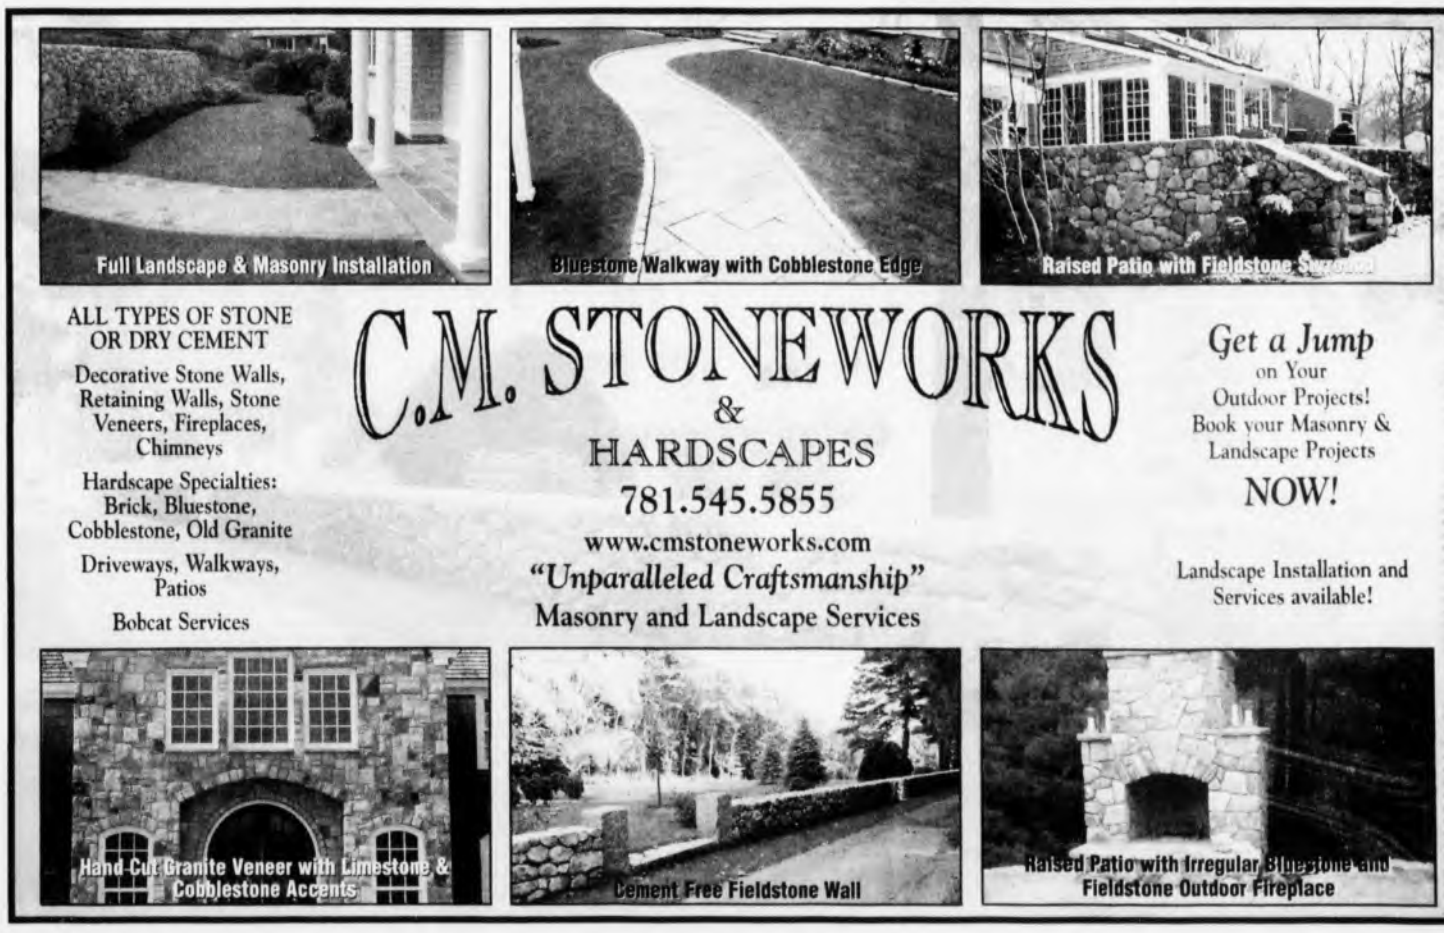
Lunch dates for veterans announced

All veterans are welcome to lunch at noon, on the third Wednesday of each month. Upcoming dates include Nov. 19 and Dec. 17. The purpose of the luncheons is to foster camaraderie and assist those in need.

Luncheons will take place at Hearth 'n Kettle, 151 Main St., Weymouth. Menu will include a choice of chicken, fish or steak tips with coffee or soft drink with refills. Cost is $16 and includes gratuity.

For more information, call coordinators Paul Salvas at 781-337-0533 Joe McElroy 781-383-0505.

Lodge to hold open house Saturday



On Saturday, Oct. 18 the Konohassett Lodge, located at 7 Brook St., will host its second open house of 2008 in conjunction with the 275th anniversary of the Grand Lodge of Massachusetts.

Celebrating Freemasonry throughout the Commonwealth, "Square & Compasses Day" will be held on Saturday. Building on the success of the event over the last three years, more than 150 Masonic Lodge buildings in the state will be hosting open houses and welcoming the public through their doors between 9 a.m. - 3 p.m. to learn more about the positive impact Freemasonry has on its members, their families and communities.

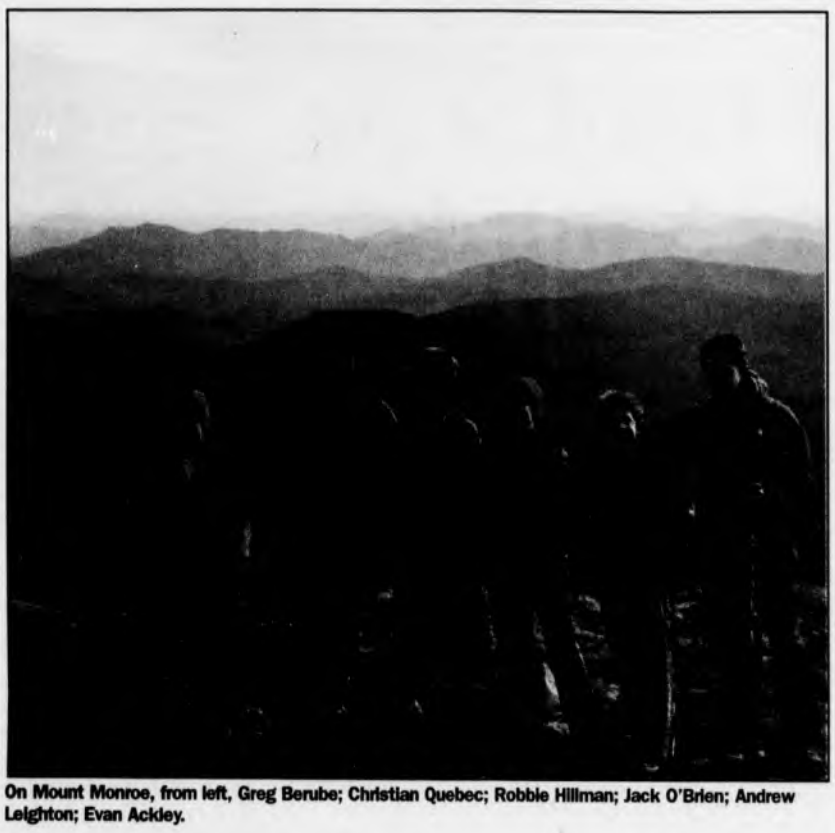
The public is invited. For more information visit www.konohassett.org.

Troop 28 hikes in the White Mountains

On Oct. 11 through 13, scouts in Cohasset's Boy Scout Troop 28 traveled to the Presidential Range of the White Mountains in New Hampshire for a backpacking and hiking trip. On Saturday, the scouts backpacked all of their food and gear up to the Appalachian Mountain Club's Mizpah Springs Hut and set up camp near the hut.

On Sunday, the group left camp at dawn and hiked more than 12 miles of mountain trails, first over the summit of Mount Pierce (4,310 feet) and then above the tree line along the Crawford Path across Mount Eisenhower to the summit of Mount Franklin (5,004 feet). From Mount Franklin, the scouts ascended Mount Monroe (5,372 feet) and agreed that the best views along the trail were to be at this peak.

From Mount Monroe, the trail descends to the AMC's Lakes in the Clouds hut, which, while closed, provided a respite for lunch. After lunch, the scouts climbed to the summit of Mount Washington (6,288 feet). After a brief stop at the top, the scouts returned along the trail, skirting the peak of Mount Monroe and returning to camp at dusk.



The weather was ideal for hiking – clear and cool, with occasionally stiff breezes. The views from the peaks, and from the trail above the tree line, were spectacular. All six scouts (and all three adults accompanying them) completed the hike.

On Monday, the scouts broke camp and packed out everything that they brought with them, following the Boy Scout's Leave No Trace guidelines. The return trip with full gear, descending nearly 2,000 feet, was difficult, particularly after the previous day's hike, but the weather remained clear and the hike was a success.

Boy's ages 12 to 17 interested in the fun, adventure and service opportunities offered by scouting should feel free to contact Troop 28 for more information through the Troop's Web site at www.troop28cohasset.org.

Rec Notes

Drive in Control class is Saturday

Cohasset Recreation Center is at 41 Highland Ave. For more information or to sign up for activities, call 781-383-4109 or visit recreation@townofcohasset.org.

Hatha Yoga Class – Moving meditation including gentle stretching and strengthening postures with breathing exercises to decrease stress and increase flexibility. Meets Thursdays, at 10:30 a.m., at Town Hall. Cost is $8.

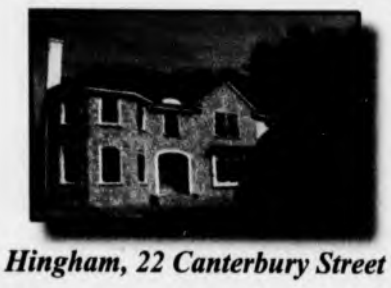
Kitchen Kids – This is a great way to introduce kids to the joy of creative cooking in a fun and safe atmosphere. Even the fussiest eaters will be thrilled to east something they have made themselves. The class is hands-on with step-by-step instructions in a safe, clean environment. Instructor: Sandy Tremblay. Saturday, Oct. 18, Freakish Feasts. Ages 5 through 8 meet from 9 to 11 a.m.; ages 9 through 12, 11:30 a.m. to 1:30 p.m. Cost is $30.

Drive in Control – Sunday, Oct. 19 from 1 to 5:30 p.m. In Control Advanced Driver Training is the first Massachusetts certified driver skills course in the state. Drivers are taught how to avoid crashes and how to best respond in a variety of high speed driving situations, including ABS braking, tailgating (and what safe driving distances really are), car control, handling distractions while driving, etc. Students will have the opportunity to get behind the wheel with a professional driver and practice these emergency situations. Class will take place in South Weymouth. Group class rate for Cohasset Recreation is $274, $225 for second/subsequent member of same family. Insurance deductions are available with most insurance carriers.

Babysitting Course – Meets at Paul Pratt Library. This one-day, three-hour course is designed to assist fifth- through seventh-graders to be better babysitters and learn the do's and don'ts of being home alone. The course will cover information on child development, playing with younger children, basic first aid, fire safety and prevention, and the overall responsibilities of babysitting. Instructor: Kim Cleary, a nurse and mom. Each class is limited to 18 pre-registered students. Cost is $18. The class will meet 9 a.m. to noon, on Saturday, Oct. 25.

CPR – Meets at Cohasset Town Hall. American Heart Association CPR courses instructed by members of the Cohasset Fire Department. CPR instruction will include adult, child and infant CPR. Two-year certification card. Cost is $45 per class. Class one meets 6 to 10 p.m., on Wednesday, Nov. 5.

Kids Love Crafts – Meets at the Recreation Center. Join others for a jammed-filled program of ooey, gooey arts and crafts, stories and songs. Watch one's 2-to 4-year old child make a mess and have some fun as they create crafts that can be treasured for a lifetime. Space is limited to 10 children with parent. Meets Tuesdays, 10 to 11 a.m. Cost for the six-week session is $60. Session 2: Nov. 18 through Dec. 23; Session 3: Jan. 6 through Feb. 10; Session 4: March 3 through April 14; and Session 5: May 5 through June 9.



Boot Camp Fitness –Meets on Cohasset Common. Mondays and Wednesdays, 9:15 to 10:15 a.m., through Dec. 1. This is an interval callisthenic training program for men and women. Class includes running/walking, jump roping, jacks, lunges, squat thrusts, single running knees, skipping, push-ups, sit-ups, stairs and hills. Class goal is to improve cardio endurance, and strength. Bring water, jump rope, running shoes and dress in layers. Get ready to bring fitness level to the next phase. Instructor: Betsy Callanan. Cost for 10 weeks is $100.00.

Ski and Snowboard Lessons – Improve skiing and snowboarding at Waterville Valley and Bretton Woods with four days of skiing and two 1 fi-hour lessons. Luxury motor coach to and from Cohasset Town Hall. Ski days are Sunday, Dec.14, Saturday, Jan. 3, Saturday, Jan. 24, and Saturday, Feb. 7. Cost is $279.99.

Yoga – At Cohasset Town Hall. Vinyasa yoga class will feature flowing meditation style class including moving from one pose to the next on an inhale or an exhale in a smooth way that the poses run together and become like a dance. Meets Tuesdays, at 9:30 a.m. Cost is $8.

OBITUARIES

Ruth I. Goodwin

Longtime Cohasset resident

Ruth I. (MacDonald) Goodwin, 96, died Oct. 13, 2008, at her home surrounded by family.

A resident of Cohasset for most of her adult life, Mrs. Goodwin was born in Medford, where she was an active athlete and later worked for John Hancock Insurance Co.

Over the years, Mrs. Goodwin was involved with many local groups and activities including Girl Scouts and Boy Scouts, South Shore Hospital Consignment Shop, a garden club and Elder Affairs luncheons.

She enjoyed the beauty of Cohasset, spending many days at Sandy Beach and walking many miles along the roads with some of her special friends and different walking groups.

Ruth I. Goodwin

Wife of more than 60 years of the late Harold "Harry," Goodwin, who died in 2000, she leaves her daughter, Ruthie Sve and husband, Charles, of Palos Verdes Estates, Calif.; her sons, Brad Goodwin and his wife, Dee, and Ron Goodwin and his wife, Mary, of Cohasset; seven grandchildren, Charles Sve of Oregon, Jennifer Nowlin and her husband, Jim, of Arizona, Brad Goodwin Jr. of New Hampshire, Ben Goodwin and his wife, Ann, of Maine, Gabriel Goodwin and his wife, Caitlin, of New York, Margaret Goodwin and Tara Goodwin of Cohasset; and three great-grandchildren, Briauna Nowlin, Ryder Goodwin and Georgianna Goodwin.

A memorial service will be held at a date to be announced.

Peter C. Murray

Teacher, principal, real estate broker

Peter C. Murray, 69, of Cohasset, formerly of Somerville and Manomet, died Oct. 14, 2008, at his home.

Born in Somerville, Mr. Murray was a graduate of Somerville High School, Class of 1956, and Boston College, Class of 1963. He obtained his master's degree in education from Bridgewater State College in 1966. He was a veteran of the Korean conflict, having served with the U.S. Navy on the USS Charles R. Ware destroyer.

He began his teaching and education career as a fifth grade teacher at Deerhill School in Cohasset before becoming a guidance counselor in the Quincy Public Schools. Mr. Murray became the principal at Bryantville Elementary School in Pembroke, from which he retired. For the past 12 years, he had been working as a real estate broker.

He leaves his wife of 45 years, Sandra J. (O'Neil) Murray; his son, Sean T. Murray of Cohasset; his brothers, John Murray of Vermont and Philip Murray of Manomet; his sisters, Martha Murray of Maine and Jane Ferry of Georgetown; and several nieces and nephews.

He was the father of the late Michael P. Murray and Kevin Murray.

A funeral Mass was celebrated at St. Anthony Church, Cohasset. Arrangements by McNamara-Sparrell Funeral Home, Cohasset. Interment in the VA National Cemetery, Bourne.

Memorial donations may be made to Camp Joslin, 1 Joslin Place, Boston, MA 02215.

To sign the online guest book, please visit www.mcnamara-sparrell.com.

Suzanne S. Straley

Owned Cards and Shards Gift Shop for 26 years

Suzanne S. (Spangenberg) Straley, 68, of Norwell, formerly of Hull, died peacefully Monday, Oct. 6, 2008, with friends and family at her side.

She was the daughter of the late Leonard and Dorothy Spangenberg of Waban. She graduated from Newton High School in 1958 and Lasell Jr College in 1960.

Sue and Dick Straley were high school sweethearts and married in 1961. Sue and her husband Richard were the proud owners of Cards and Shards gift shop in Cohasset center for 26 years. She will be deeply missed, but remembered forever.

An avid reader and student of life, she loved the ocean, flowers, photography and painting and had recently opened an art studio in her home with one of her lifelong friends, Diana Coyle, where they beautifully captured everything they loved for all to share. She loved to travel and recently fulfilled lifelong dreams to visit France and Ireland, which she said were so beautiful. Sue especially loved holidays, sitting around with the entire family, telling stories and playing cards.

Mrs. Straley was a member of the Church Council and a Deacon at the United Church of Christ in Norwell.

She leaves her husband Richard C. Straley; her children Richard G. Straley, Jennifer S. Sherman, and Kevin M. Straley and four grandchildren Jake, Alexei, Owen, and Ryan. She also leaves a bother, Robert Spangenberg and two daughter-in-laws Beth Straley, and Karen Straley and son-in-law Stu Sherman.

A funeral service was held Sunday, Oct. 12, at the United Church of Christ Church, Norwell. The McNamara-Sparrell Funeral Home, Cohasset handled the arrangements. Interment private. For an online guestbook, visit www.mcnamara-sparrell.com

Carol J. Nason

Grandmother

Carol J. (Hurley) Nason, 69, of Milo, Maine, formerly of Hanover, died Oct. 7, 2008, at South Shore Hospital in Weymouth after a period of failing health.

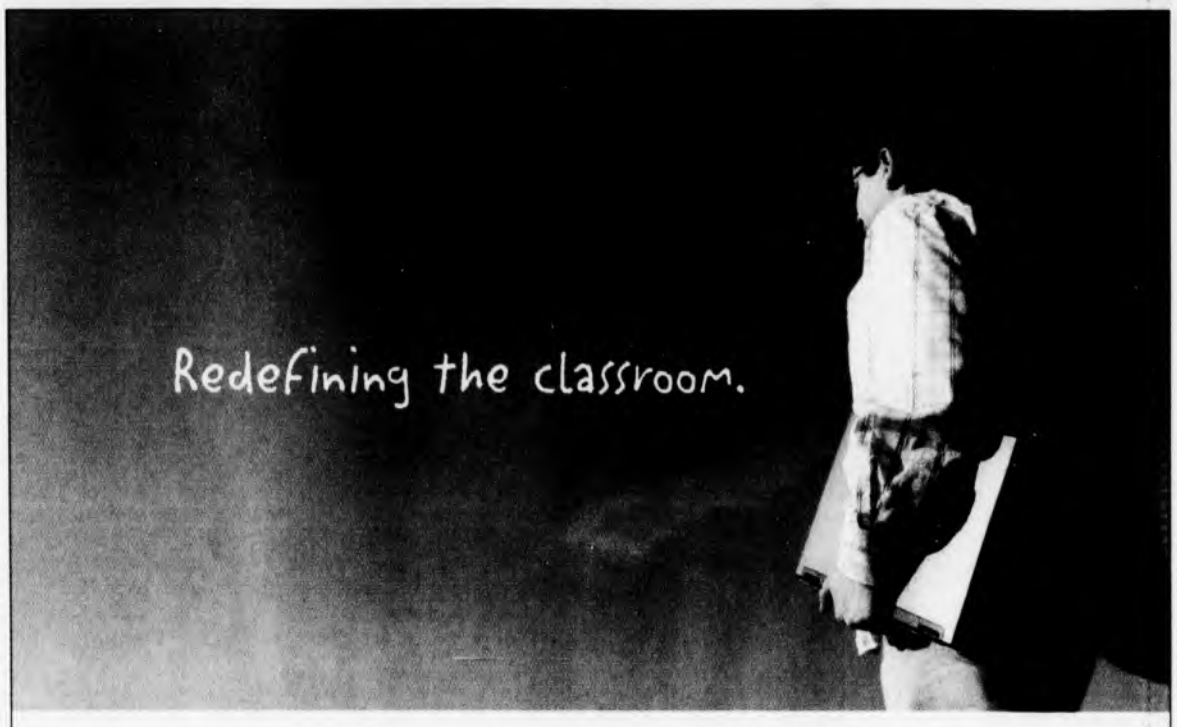
Mrs. Nason was born in Boston, daughter of the late James M. and Josephine A. (Felton) Hurley, and was raised and educated in Cohasset. Mrs. Nason had been a longtime Hanover resident before moving to Maine 16 years ago.

Wife of the late Ralph A. Nason, who died in 1986, she leaves her children, Ralph A. Nason Jr. of Maine, LindaJo Sawyer of Abington and Scott M. Sawyer of Texas; her sisters, Jane A. Hopps of New Hampshire and Lois M. Hughes of Cohasset; her brother, James M. Hurley of California; eight grandchildren; and several nieces and nephews.

A funeral service was held at Magoun-Biggins Funeral Home, Rockland. Interment in Washington St. Cemetery in Norwell.

Memorial donations may be made to American Cancer Society, 30 Speen St., Framingham, MA 01701.

To sign the online guest book, visit www.magounbiggins.com.

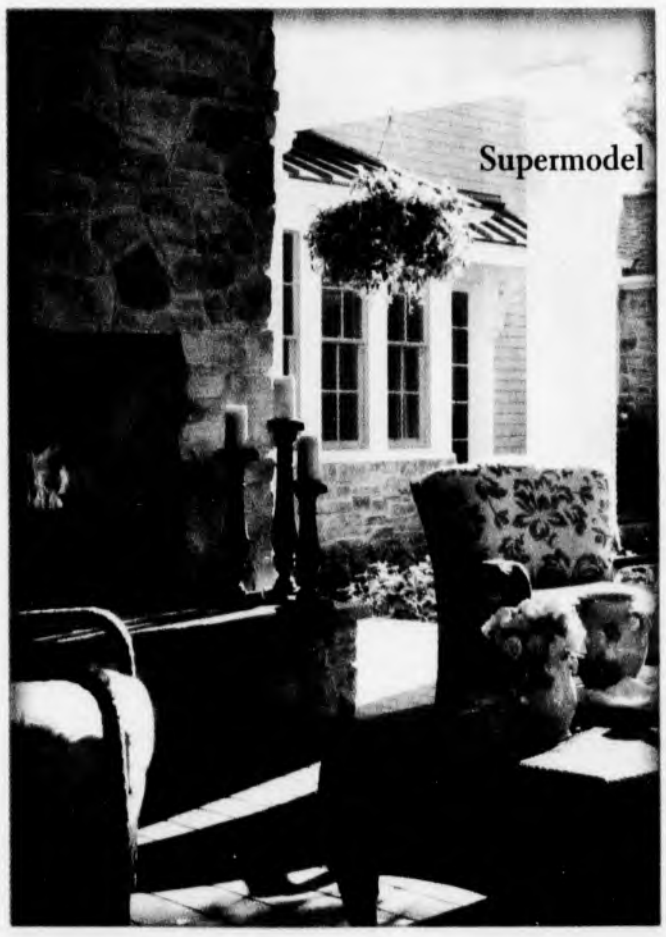


Carol J. Nason

Edward Bayley Long

1920-2008

In celebration of his life, a memorial reception will be held in his honor from 2-to-5 p.m. on Saturday, Oct. 18 at the Long family home: 31 Nichols Road, Cohasset.



Residents are invited to send in photos of their loved ones to the Obituaries page

Officer reports male is fine.

10:15 p.m. **Nichols Rd.**, noise complaint, caller reports he heard gunshots going off in the area. Officer unable to hear anything.

Norfolk County RSVP conducting needs survey

Norfolk County RSVP Volunteer Program is conducting a county-wide survey to identify needs for volunteer services in each community. Nonprofit community organizations that utilize, or wish to utilize, volunteers in their work are encouraged to contact Norfolk County RSVP with information about the organization, population served, and services needed, including schedule requirements and skills needed to perform tasks involved.

"We are here to serve all age groups throughout the county, from preschool children through aging seniors" said Francis O'Brien, Norfolk County Commissioners' chairman. "But very often, community organizations in need become so busy they don't have the time or the staff to recruit additional volunteers; our office can help recruit potential volunteers. We also encourage individuals looking for volunteer opportunities to contact us directly. Just give us a call – we work closely with community groups to match volunteers with necessary and worthwhile assignments."

Norfolk County RSVP is sponsored by the Norfolk County Commissioners and is affiliated with the Federal Corporation for National and Community Service, one of the nation's largest volunteer agencies. RSVP helps recruit and place volunteers who are 55-plus years of age in service positions throughout Norfolk County. Programs include reading tutors, emergency preparedness and other volunteer efforts intended to meet identified community needs.

To become an RSVP volunteer or for more information, call Elizabeth Larkin at the Norfolk County RSVP office, at 781-329-5728, or email rsvp@norfolkcounty.org.

Norfolk County recruiting volunteers for Friendly Visitor Program

Norfolk County RSVP Volunteer Program is recruiting kind and compassionate individuals for Friendly Visitor/Companionship programs throughout the county. Many visits occur weekly and last about one hour and may take place at a senior's home, a hospital, or a nursing home.

"Norfolk County RSVP is proud to participate in Companionship programs that provide visitors for homebound seniors or people who are recovering in a hospital" said Francis O'Brien, Norfolk County Commissioners' Chairman. "We have volunteers who tell us that what began as a weekly visit through a Companionship program has grown into a friendship that has lasted for years."

Norfolk County RSVP is sponsored by the Norfolk County Commissioners and is affiliated with the Federal Corporation for National and Community Service, one of the nation's largest volunteer agencies. RSVP helps recruit and place volunteers who are 55+ years of age in service positions throughout Norfolk County. Programs include reading tutors, emergency preparedness, and other volunteer efforts intended to meet identified community needs.

To become an RSVP volunteer or for more information, contact Kimberly Driscoll at Norfolk County RSVP office, telephone: 781-329-5728, e-mail: rsvp@norfolkcounty.org

Worship Guide

Beechwood Congregational Church, 51 Church St. 781-383-0808. Interim Pastor: Richard Chamberlain; Please join us for Sunday Service and Sunday School at 10 a.m. followed by fellowship in Merritt Hall. Accepting donations of new socks for homeless shelters and non-perishable food items for local food pantries.

Our mission statement is: "Equipping God's people for living out the Good News to be the hands, feet, voice and heart of Christ in our community and in the world." How should we accomplish this? Come hear sermons to find out.

First Parish Unitarian Universalist on Cohasset Common, 23 North Main St. (Parish House). 781-383-1100. www.firstparishcohasset.org Minister: the Rev. Dr. Jan Carlsson-Bull. Interim Director of Religious Education: Jim FitzGerald. **Music Director: Allegra Martin**. **Interim Organists: Carolyn Bates and Maureen Hague**. Parish Administrator: Sandy Bailey. Parish Committee Chair: Mary Parker.

We welcome all to our inclusive spiritual community. We affirm our Unitarian Universalist Principles and put them into action by worshiping together, caring for one another, and working for a safe, just, and sustainable world.

Sunday, Oct. 19 - Association Sunday

8 a.m. - Circle Ministry (group led by Joan Kovach and Susan Meikleham and meeting on the first & third Sundays in the Parish House)

9:50 a.m. – Childcare for our youngest and religious education classes for children and youth in the Parish House.

10 a.m. - Worship in the Meeting House - Association Sunday

On this morning when we celebrate our interdependent association known as the Unitarian Universalist Association (UUA), Rev. Dr. Jan Carlsson-Bull will lead worship and preach on "Intersection." Over half of all Unitarian Universalist congregations nationally are participating in Association Sunday, when our full non-pledge plate is dedicated to the life and programs of our UUA.

Everyone is invited for refreshments and fellowship in Trueblood Hall directly after the service and RE classes. Faith Works Sunday at coffee hour promises that representatives of all First Parish committees dependent upon volunteers will be on hand with information and sign-up sheets.

All are welcome as we worship and learn and live our faith together! To learn more about First Parish Unitarian Universalist, please come by the Parish House and pick up or sign up for the current monthly newsletter, The Common, or visit our website at www.firstparishcohasset.org or contact Rev. Dr. Jan Carlsson-Bull, Minister, at 781-383-1100.

St. Stephen's Episcopal Church: Welcome to St. Stephen's church!

This Sunday, Oct. 19, Massachusetts diocesan Bishop Thomas J. Shaw, SSJE, will be visiting St. Stephen's, highlighted by a 9 a.m. worship and a parish-wide fellowship hour. After fellowship, the Bishop will be meeting with parish committees, including the youth group.

We are also currently underway with our new "Episcopal Church for the 21st Century" class taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. It is an eight-week class running from noon until 2 p.m.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, at www.ststephenscohasset.org.

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 a.m. and 10 a.m. on Sundays, including a Healing Eucharist at 9:30 a.m. on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's:

- Sunday, Oct. 19: 9 a.m.: One service with Bishop Thomas J. Shaw, SSJE
- Monday, Oct. 20: 3 p.m. Christian Meditation.
- Wednesday, Oct. 22: 9:30 a.m. Holy Eucharist with healing; 10:30 Bible Study; deanery outreach meeting
- Friday, Oct. 24: 9:30 a.m. Yoga
- Saturday, Oct. 25: 7 a.m. Bible Fellowship
- Sunday, Oct. 26: Services at 8 a.m. and 10 a.m., Godly Play at 10 a.m. and youth group at 11:30 a.m.

Changes to the worship guide, may be sent by e-mail to mford@cnc.com.

Christian Science lecture talks about prayer, healing

Michael Pabst will describe how he has found that turning to God's love provides answers and healing.

"Prayer, Healing and You!" is a lecture coming to Cohasset on Sunday, Oct. 19. It promises a lively and insightful discussion on how turning to God's love offers solutions to health problems, issues of addiction and safety, and other human challenges. The lecture will be held at the Paul Pratt Memorial Library on Ripley Road on Sunday, Oct. 19 at 3:30 p.m.

The speaker is Michael Pabst of New York, who is a member of the Christian Science Board of Lectureship. In his remarks, Pabst, who was trained as an engineer in Germany, will describe how he has found that turning to God's love provides answers and healing. Pabst draws from his own experience, beginning with his time as a university student in Germany when he began to heal other people through prayer. Two key sources for Pabst are the Bible and "Science and Health with Key to the Scripture," by Mary Baker Eddy, a book which provides universally applicable ideas on practical spirituality. Pabst explains how insights and messages in these texts lead to an understanding of God's love, which in turn leads to healing. This lecture is sponsored by the First Church of Christ, Scientist, Hingham. For more information, call 781-749-1172 or 781-749-2874.

Events at St. Joseph Retreat Center

St. Joseph Retreat Center, 339 Jerusalem Road, Cohasset is offering the following progra.m.s in October and November.

Monday, Nov. 10 — Morning of Prayer, 9 a.m. to 12:30 p.m.: Growing In Relationship with Jesus Through the Dynamic of the Spiritual Exercises — The Unconditional Love of God for All

Monday, Nov. 24 — Morning of Prayer, 9 a.m. to 11:45 p.m.: Praying Psalm 23: Praying on our Life Experiences with the Good Shepherd

The Retreat Center is also available for private retreats for individuals and for groups. For more information and to register, visit www.csjretreatcenter.org or call 781-383-6024/6029.

PUZZLES

Horoscope

SALOME'S STARS
FOR RELEASE
WEEK OF OCT. 13, 2008

ARIES (March 21 to April 19) A bid for you to step in and take over an incomplete project could prove to be an excellent learning experience that you can take with you when a new opportunity opens up.

TAURUS (April 20 to May 20) It's a good time for socializing, both with family and with friends. Your aspects also favor developing new relationships, any or all of which might become especially meaningful.

GEMINI (May 21 to June 20) Your success in handling a recent difficult situation prompts a request to handle another workplace problem. But this is one you should accept only if you get all of the relevant facts.

CANCER (June 21 to July 22) New information about a past decision raises some unsettling questions from an old friend. Be prepared to explain your actions fully and, if necessary, to make adjustments.

LEO (July 23 to August 22) This is not a good time to share personal secrets, even with someone you've known for a long while. What you don't reveal now won't come back to haunt you later.

VIRGO (August 23 to September 22) Pushing yourself to meet a project deadline is admirable. But be careful not to leave out important details in your rush to complete your work and send it off.

LIBRA (September 23 to October 22) Watch that you don't take on more than you can handle when offering to help someone with a personal problem. There might be hidden factors you weren't told about.

SCORPIO (October 23 to November 21) That major move you've been considering could come sooner than you expected. Make sure you'll be ready with the facts you need when decision time arrives.

SAGITTARIUS (November 22 to December 21) Languishing relationships can benefit from a break in routine. Get out of the rut and do something new and maybe more than a little unpredictable this weekend.

CAPRICORN (December 22 to January 19) Although you don't think of yourself as a role model, your ability to make a tough decision at this time sets an example for others, who admire your courage.

AQUARIUS (January 20 to February 18) You need to move any remaining obstacles out of your way before you can take on a new challenge. Seek advice from close, trusted friends and associates.

PISCES (February 19 to March 20) A career change appears increasingly likely to happen during the next several weeks. It's a good idea to start now to prepare, so you can be ready to make the move when the time comes.

(c) 2008 King Features Synd., Inc.

BORN THIS WEEK: You have a strong sense of obligation to justice, which inspires others to follow your example and do the right thing.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Pets have a religious experience

Five-year-old Julia Norton holds her friend, Peanut Butter, a coon cat that she brought to St. Stephen's Church Sunday afternoon (Oct. 5) to be blessed by the Rev. Margot Critchfield in the church's courtyard. Julia and her two older brothers, Jimmy and Will, took part in the St. Francis Day event at St. Stephens Church.

Nine-year-old Ryan Conforti of Cohasset brought his pet guinea pig Snowy to be blessed by St. Stephen's Rev. Margot Critchfield last Sunday.

St. Stephen's Rev. Margot Critchfield blesses Misha, a 10-year-old multi breed, Sunday afternoon (Oct. 5) during a Pet Blessing in the church courtyard. The Pet Blessing was part of St. Stephen's St. Francis Day Observance. Donald Kennedy of Cohasset owns Misha.

Photos by Craig Goedecke

Jackson, a 15-month-old terrier mix who was adopted from Jackson, Tennessee, and owned by Kathy and Brian Tyler, was more interested in the photographer then watching the Pet Blessing being performed by St. Stephen's Rev. Margot Critchfield and Rev. Colette Wood.

Last of the grand old pols

Dick Flavin aims to capture the real Tip O'Neil

By R. Scott Reedy
CORRESPONDENT

PHOTO/ANDREW BRILLIANT

Ken Howard performs as Speaker of the House Thomas P. 'Tip' O'Neill, Jr. in Dick Flavin's 'According to Tip.'

These days, partisan political rancor is often blamed for impeding the legislative process in Washington, but it wasn't always that way. In the 1980s, then Speaker of the House Thomas P. "Tip" O'Neill Jr., a staunch Democrat from Cambridge who represented Massachusetts in the U.S. Congress for 34 years, often led the opposition to President Ronald Reagan on his Republican administration's defense and domestic policies. At the end of the day, however, their political jousting stopped.

"O'Neill and Reagan would fight like cats and dogs all day, but they also had a 6 p.m. rule, which referred to the time that they put their political differences aside for the day. They were both Irishmen who actually really enjoyed each other's company socially," explained writer and Boston television personality and Quincy resident Dick Flavin.

Flavin's one-man show about O'Neill, "According to Tip," starring Broadway, television and film actor Ken Howard ("Crossing Jordan," "The White Shadow"), recently set up shop at Boston's Stuart Street Playhouse after a sold-out summer run at the New Repertory Theatre in Watertown. This play, without really stating it, is a call for a return to civility in politics.

Flavin, who got to know O'Neill while covering him for WBZ-TV, says the legendary Speaker held a Republican congressman from Georgia personally responsible for the negativity that still dominates Washington today.

Dick Flavin

"Tip blamed Newt Gingrich for spoiling things in Congress. Newt was a real back-bencher when he first attacked Tip on his leadership of the House. He baited Tip and Tip took the bait and spoke out very strongly against Gingrich on the House floor. The story made the front page of The New York Times and it also made Gingrich a big man among Republicans.

"Tip's words against Gingrich were ultimately stricken from the record, but I use them in the play exactly as Tip spoke them. Tip was sorry about the great partisan divide between Democrats and Republicans. The disappearance of civility really bothered Tip, because he had always gotten along with his colleagues on the other side of the aisle. He really genuinely liked people and was even comfortable with his own adversaries. He never treated them as enemies. If you go down to Washington now, there are Republicans and Democrats who don't even know each other and won't even talk to each other."

O'Neill retired from the House in 1987 and died of colon cancer on Jan. 5, 1994, at age 81. It was not until early 2001 that Flavin began work on what would become "According to Tip."

"I got the idea to do this when I read a book called "Tip O'Neill and the Democratic Century" by Jack Farrell. I thought it was a definitive work on Tip O'Neill, but with one glaring omission — it could not show you Tip in action. I thought to myself, I knew him, I covered him, and I want to be the one to show people what Tip was really like," said Flavin, who graduated from Archbishop Williams High School in Braintree and Stonehill College in Easton. "Tip was the same guy, and acted the same way, in and out of politics. I liked him and respected him very much. You couldn't know Tip and not like him. I thought to myself, this guy is going to fade from view unless someone does something to try to recapture him and show him in action.

"Tip's charm, humor, not to mention his use of song and stories, disarmed people and disguised the fact that he had a substantial mind and steely resolve,'" said Flavin. "The printed word, no matter how skilful the writer, cannot capture this.'"

According to Flavin, O'Neill never forgot his middle-class upbringing in North Cambridge. "Tip knew very well how to use his Irish blarney strategically. He was a seducer who masked his own intellect. His great genius was to disguise his genius. He could get what he wanted by making you think it was your idea."

Using O'Neill's own words and congressional records, the Farrell biography, and his own memories of his subject, Flavin set about writing his first play. Three months of writing were followed by ongoing rewrites and revisions.

"I didn't know that this kind of writing would be so different from what I did for television,' said Flavin, who won seven New England Emmy Awards and is known by some as "Poet Laureate of the Boston Red Sox" for his many poems and parodies about the baseball team and its storied history.

"A quirky thing about this kind of writing is that rewriting never stops. It starts as a chore, but then it becomes almost like a narcotic. I've just rewritten the section on Watergate. Tip was the Wizard of Oz in that situation. He was on to Nixon's modus operandi very quickly. Tip was heading up the Democratic National Committee's fundraising efforts at that time and he kept hearing horror stories from Democratic donors about the way President Richard M. Nixon's people were treating them. Tip told Jimmy Breslin at the time that it was a shakedown. Tip was not surprised at all by Watergate. And, when the time came, he was ready to push for Nixon's impeachment."

In the seven years since he first wrote "According to Tip," Flavin, 71, never stopped pushing to get it produced. Over the years, everyone from Cambridge-born comedian Lenny Clarke to Tony Award-winning actor Brian Dennehy and "Cheers" co-star George Wendt have been rumored to be attached to the project. Flavin initially met with Howard in L.A. in 2005. Later, the actor was in town for a charity golf tournament and made time to join Flavin and producer Paul Boghosian for a meeting with New Rep artistic director Rick Lombardo, who soon signed to direct the world premiere of the play at his Watertown theater.

"Writing this play and seeing it produced has set me off on this whole new direction.,'" said Flavin, who moved back to his childhood home in the Merrymount part of Quincy a decade ago. "I knew it was the best thing I had ever done and it deserved to be seen."

"According to Tip" is at the Stuart Street Playhouse, 200 Stuart St. Boston. For tickets and information, visit the box office, call 800-447-7400 or go online at stuartstreetplayhouse.com.

BEST BET

Theater review

Framing a jumbled life with humor

Carrie Fisher on Carrie Fisher

By R. Scott Reedy
CORRESPONDENT

Carrie Fisher's 'Wishful Drinking' runs through Oct. 26 at the Boston University Theatre, 264 Huntington Avenue, Boston.

Carrie Fisher certainly has plenty of rich source material for her autobiographical one-woman show "Wishful Drinking," which opened last week at the Boston University Theatre. Fisher, after all, is the daughter of Debbie Reynolds and Eddie Fisher, once stepdaughter of Elizabeth Taylor, and ex-wife of music legend Paul Simon, and, lest anyone forget, played Princess Leia in the original "Stars Wars" trilogy.

Autobiographical one-person shows have enjoyed considerable success in recent years. Elaine Stritch ("At Liberty") and Bea Athur ("Bea Arthur on Broadway: Just Between Friends") set their stories to the Broadway music that made them both stars, while Billy Crystal ("700 Sundays") wrote and starred in a funny and moving play about his family and growing up on Long Island.

Fisher seems content to tell her story tabloid-style. As the actress/author explains at the outset, "If my life weren't funny, it would just be true." She has great fun with the truth of her life —her father's infidelity, which led to her parents' divorce; her mother's financial fleecing at the hands of not one, but two subsequent husbands' her father's many additional marriages; her own failed relationships; and her long-running battles with alcoholism and bipolar disorder. While freely acknowledging that just this past July she underwent electroconvulsive therapy (ECT) for the first time, Fisher manages to find humor in the 2004 sleep apnea- and drug-induced death, in her bed no less, of 42-year-old gay Republican political operative R. Gregory Stevens. She even puts the house lights up to take questions from the audience on the subject.

"Was I naked in the bed with him?" she repeats back to one questioner. "I haven't been naked in 15 years and I haven't worn anything sleeveless in 20."

Fisher wrote the semi-autobiographical 1987 best-selling novel "Postcards from the Edge" and the screenplay for the hit 1990 film version starring Meryl Streep and Shirley MacLaine. She has a solid reputation as a script doctor, adept at retooling and improving other writers' work, so it is not surprising that she has given herself some wonderfully funny material. Anyone old enough to remember reading movie magazines will delight when a blackboard covered with publicity stills of everyone from Debbie, Eddie, and Elizabeth to Connie Stevens and Richard Burton appears. Fisher uses the clever prop to offer a crash course on Hollywood inbreeding that she says proves that real royalty has nothing on the kings and queens of show business.

Donning her now infamous Princess Leia wig, Fisher launches into a funny riff on all things "Star Wars" that finds her lampooning George Lucas and pointedly detailing how his ownership of her image led her Leia to be turned into everything from a Pez dispenser, shampoo bottle and bar of soap to some decidedly less clean collectors' kitsch.

The twice-married and divorced performer can be quite affecting, too, as she is when discussing her two-year marriage and longer relationship with singer-songwriter Simon. Details of their now long-over relationship are referenced in some of Simon's songs, including "Hearts and Bones," "She Moves On" and "Allergies," and are clearly well remembered even by the post-ECT Fisher, who is both poignant and reflective on the subject of Simon. She otherwise carefully navigates through the personal and emotional turmoil that has marked so much of her 52 years, seeming intent on looking back on her troubled past with only her present-day perspective as a self-proclaimed survivor who can laugh at her own misfortunes. This technique works well enough in Act I, where celebrity name-dropping buoys the action, but breaks down in Act II, when Fisher invites the audience along for group therapy that fast becomes all about her. Shows like this — of which Crystal's "700 Sundays" may be the prime example — work best when they illuminate a human experience, but Fisher stops short of doing this with her passages on addiction and mental illness. This child of show business has her own real talents as both a writer and performer, but looking outside herself does not appear to be among them.

Fisher — who bookends the show with a deep-voiced rendition of "Happy Days Are Here Again" as first real and later made-up headlines from her life float by on Alexander V. Nichols's imaginatively designed and executed video screen back-drop — is mostly well-directed by Tony Taccone. Her movements keep things interesting until act two when she often seems to be just pacing back and forth.

If you have ever wanted to know more about Carrie Fisher then this may be the show for you. Otherwise, don't expect more than a few good laughs and some Hollywood anecdotes from an insider.

The Huntington Theatre Company will present Carrie Fisher in "Wishful Thinking" through Oct. 26 at the Boston University Theatre, 264 Huntington Avenue, Boston. For tickets and information, visit the box office, call 617-266-0800 or go online at huntingtontheatre.org.

Sailing's the life in Virgin Gorda

Michael Morton
GATEHOUSE NEWS SERVICE

VIRGIN GORDA — While our catamaran cut through turquoise Caribbean waters as translucent as mouthwash, I resisted the urge to jump in and focused on my next dazzling maneuver as captain: hurling myself from one side of the boat to the other as I tried not to hit my daydreaming shipmate in the head with the steering tiller.

We were at one of the worlds' premier sailing destinations, Virgin Gorda in the British Virgin Islands. And I had more at stake than a good tan. I wanted a shot at nautical glory.

I had entered the weekly Sunday Regatta at the Bitter End Yacht Club.

Constant trade winds make the British Virgin Islands a sailing hotspot, and Bitter End is a popular stop on the yachting circuit for Richard Branson and other moguls.

But that doesn't mean commoners - and landlubbers - can't join in the fun.

So like other guests, I found myself in friendly competition under the watchful eyes of the resort's sailing school staff. After a quick session in the briefing room - think "Top Gun" in bathing suits - our boatload of four (including an instructor) pushed our Hobie Cat Getaway off the beach, secure in the knowledge that if all else failed we could always bribe the race official with a six-pack.

In the end, we didn't need to. After deftly navigating the buoys in the early rounds and earning a couple of top-three finishes, our instructor, Geoff, gave us a quick lesson in steering and adjusting the two sails. He then gave me the controls.

Turning the boat across the wind proved to be the hardest part. During each maneuver, I quickly switched sides while heaving the tiller over, wary of disrupting the human ballast otherwise known as one of my shipmates.

And I got results. We tied for second. A few salutes to our heroics ensued and a prize of a bottle of Mount Gay Rum resulted.

BY MICHAEL MORTON

At Bitter End Yacht Club, guests sail a Hobie catamaran during the Sunday regatta, a weekly resort tradition.

If you go...

Getting there: Most flights are via San Juan, Puerto Rico, to the British Virgin Islands and Terrence B. Lettsome Airport, also known as Tortola-Beef. From the airport, Bitter End Yacht Club guests can take a short walk or taxi ride to the dock for the North Sound Express, which departs Beef Island for Virgin Gorda; tickets $35 for adults, free for children 12 and under.

Staying there: Billing itself as the "finest watersports resort in the world," Bitter End Yacht Club (800-872-2392; www.beyc.com) offers guests free use of a fleet that includes sailboats, kayaks and windsurfing equipment. Nightly rates start at $650 per couple, per night, including three meals daily, accommodations in the recently renovated Beachfront Villas and an introductory sailing lesson. Packages include the option of dividing your stay between the resort and a captained yacht.

Having conquered sailing, my companions and I explored other ways to catch the wind, namely the relatively new sport of kiteboarding. With a large kite and trapeze-style handlebar connected to control lines and a short surfboard, the concept at first seemed to me a little extreme. But when I heard it was all the rage with Google co-founder Larry Page and other Silicon Valley geeks who visit the resort, I knew I had to step up.

Working with limited time, our teacher, Scottie, left the boards on the beach and taught us how to control an airborne kite as we stood in thigh-deep water. Shaped like an airplane's wing, the kite strained at its lines and shot back and forth whenever we moved the handlebar a fraction of an inch.

Trying to keep the airfoil aloft, I performed my next stunning feat: As the wind suddenly died, the kite's control lines slackened, and I found myself backpedaling toward Scottie. He quickly abandoned any thought of stopping me and I fell down, put one hand onto the sandy ocean bottom, caught myself and spun around while passing the handlebar behind my back. A miraculous save to be sure, but the control lines had crossed, and the kite soon plummeted.

"What did you just do?" an incredulous Scottie commented. But other guests later stopped me and complemented my kiteboarding moves, thinking I actually knew what I was doing.

After such active days, guests at Bitter End happily retire each night to luxury cabanas, perched high above the water on a hillside thick with frangipani and bougainvillea. Off the coast, brown pelicans can be spotted diving for a meal, soon replaced by sailboat mast-lights twinkling like stars. Chirping tree frogs and lapping waves provided a natural sound machine.

It was easy to see why colonial sailors named this spot the Bitter End - they would leave here for the desolate waters of the open Atlantic. It's also easy to see why the resort draws repeat visitors, many of whom have been coming for decades.

Not all the attractions are wind-related, of course. During a snorkel tour of Eustatia Reef, my companions and I watched purple sea fans waving lazily while fish of every stripe and hue darted among the coral. While hiking along one of the island's trails to the nearby resort of Biras Creek (www.biras.com), we heard workers belting out hymns while riding an evening commuter ferry.

And at The Baths, a National Park at Virgin Gorda's southern end, ladders, ropes and natural passageways revealed caves, pools and sheltered coves among a series of stacked boulders.

But the wind was still the most powerful draw.

Treat's Pond gets tabled

Selectmen remove related articles from warrant

By Nancy White
NWHITE@CNC.COM

When the dust settled on Monday night's discussion of Treat's Pond, there wasn't much left for the town to consider. The controversial and complicated issue of Treat's Pond will not be up for another round of discussion on the floor of the upcoming Special Town Meeting.

A multitude of unanswered questions led a majority of the Selectmen to vote to remove the Army Corps of Engineers project and two proposed flood control solutions from the Nov. 17 Special Town Meeting warrant.

"The public needs to be educated."
— Selectmen Chairman Ted Carr

Before last week's meeting a total of five articles, each representing a different facet or option addressing the Treat's Pond flooding and access issues, were a part of the draft Special Town Meeting warrant. The articles could have led to eminent domain takings, an $80,000 Sandy Cove pipe extension, a million dollar-plus flood control project or a $1.7 million Army Corps of Engineers proposal with the town kicking in roughly $600,000.

It was, like it was in the spring, the Army Corps of Engineers saltmarsh restoration project that spurred the most debate among the Selectmen and audience members.

Despite recent and lengthy conversation on Treat's Pond, including the two-hour discussion Monday night, the general sense of a majority of the board was the issues surrounding Treat's Pond have not been properly vetted with the public.

"The public needs to be educated," said Selectmen Chairman Ted Carr when it came to the Army Corps project and the flood control solutions. In nearly the same breath, Carr worried the town would lose the over a million dollars in federal funding if they did not make a decision at Special Town Meeting.

"The Army Corps has been very clear

Community leaders converse on how to help in bad economy

By Nancy White
NWHITE@CNC.COM

Help is out there.

But knowing where to turn when an individual or family is struggling is often difficult. As news of the national and international financial crisis continues to dominate headlines, increasing numbers of Cohasset families and individuals could be in trouble — both economically and spiritually.

Spurred on by the continually grim news about the economy, a cross section of community leaders from church leaders to human service providers are getting together to make sure Cohasset residents know they don't have to struggle alone. Community leaders are trying to take the guesswork out of seeking help in times of need, especially for those who might find themselves struggling financially for the first time in their lives.

Still in its infancy, the group tentatively named "Cohasset C.A.R.E.S.," with CARES standing for "caring and responding economically and spiritually," is working swiftly toward visible manifestations. This group is not affiliated with the Cohasset Cares organization started in 2006 by a group of concerned citizens after a house fire that displaced a local family.

The Mariner sat in on their third meeting of the group, which has involved members of various church organizations, the Social Service League, Cohasset Food Pantry, Wellspring Multi-Service Center, Elder Services and South Shore Friends of the Homeless.

St. Stephen's rector Margot Critchfield formed the group early this month. "I started the group in response to the financial crisis as a way for both social service providers and religious leaders to brainstorm about how we might best meet the needs of our community in this crisis," said Critchfield.

"This economic situation is so unique in that effects all of us, I figured if we got together to brainstorm we might not only discover who was doing what, but also might think creatively about new ways to reach out."

Critchfield said the economic crisis is creating a new group, those who are finding themselves economically vulnerable for maybe the first time in their lives — and that group may not know where to turn or be too proud to ask for help.

State CPA funding decreased

Town will get 67 percent match

By Nancy White
NWHITE@CNC.COM

For the first time since Cohasset instituted the Community Preservation Act the town will not receive a 100 percent match from the state. Announced this week, the state will provide a 67 percent match to the town's CPA tax.

The decrease in state match funding comes as no surprise to Community Preservation Committee chairman Stuart Ivimey. Since early 2007, Ivimey has been advising of the possible loss of the dollar-for-dollar state match for Cohasset and towns across the state that have adopted the CPA. Accordingly, he has been extremely conservative in his budget estimates when it came to the state match, predicting a 50 percent state match since 2007.

"Because we budgeted for a 50 percent match, we're actually in good shape with more money than we thought we'd have," said Ivimey in a phone interview. The committee now has more than $57,000 to work with than they thought they would last spring.

"We take very seriously that matches won't be 100 percent or won't even be what we think they will be," said Ivimey. Like nearly all state funding, the CPA funding is provided to the town in quarterly allocations and with cuts currently underway at the state level there is some measure of uncertainty.

"We never want to be in the predicament where we budgeted for more money than we actually receive...we always want to end the year with money in the bank," said Ivimey.

The CPA at a glance

- Funds from the CPA can be spent in three specific areas: open space, affordable housing, and historic preservation.
- Aside from minor administrative costs, the CPC does not spend money. The CPC only makes recommendations to the legislative authority in a town or municipality, (in Cohasset's case, Town Meeting).
- Each year, the CPC must spend or bank 10 percent of its annual revenue on each of the three specific areas.
- CPA funds are generated from two sources, a town real estate tax surcharge (in Cohasset 1.5 percent) and some level of state match, determined year-to-year. Up until this year, Cohasset and other participating towns received a 100 percent state match each year. This year, the state will match 65 percent of the town's dollars. The state funds are derived from a $20 surcharge on all documents filed in the Recorder of Deeds Office statewide (e.g. mortgages, deeds, homesteads, etc.).
- The average single family home valued at $848,000 paid $118.93 in CPA tax in 2008.

That means the CPC will continue to look carefully at the merit of each project and if it qualifies for CPA funding before making its recommendation to Town Meeting to ensure they aren't over-committing themselves.

The CPA's funds are generated from two sources, a town real estate tax surcharge (in Cohasset it's 1.5 percent) and some level of state match, determined year-to-year. The state funds are derived from a $20 surcharge on all documents filed in the Recorder of Deeds office

PICTURE THIS/Jeffrey Treanor

Name: Jeffrey R. Treanor

Occupation: Police Sergeant, Town of Cohasset

Best day of your life: The birth of my two children, Jake, 12 and Mairead,11.

Best vacation: Aruba, January 2008.

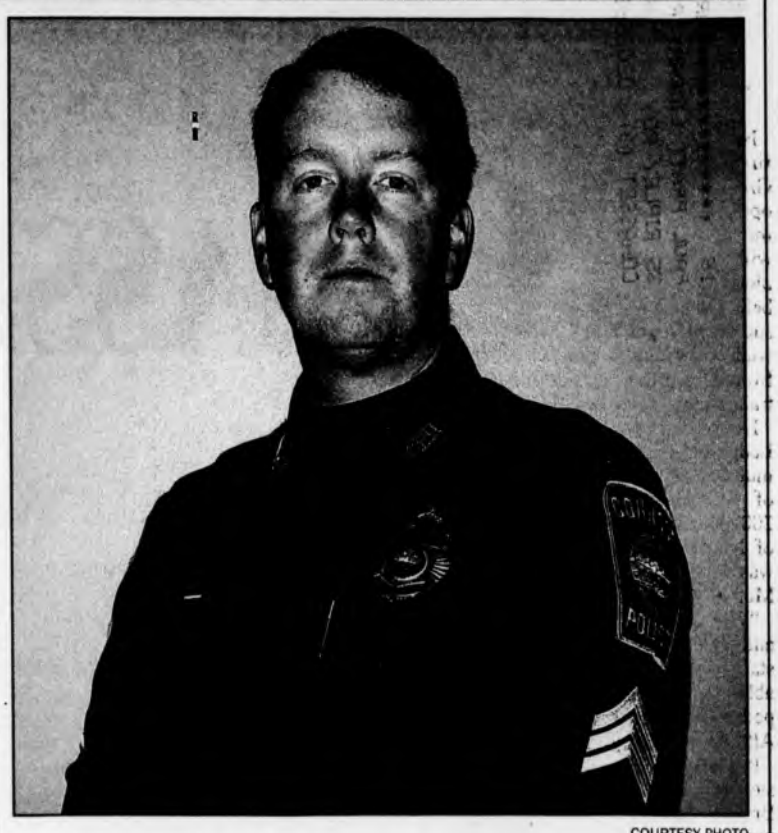
Favorite season: Fall

Favorite holiday: July 4th

Favorite junk food: Peanut M&Ms.

Best book: Most recent, "Russ and Me" and "The Greatest Generation," two great books with inspiring characters.

Best movie: "When Harry met Sally," "Sound of Music" and "It's a Wonderful Life." Best mini-series: "John Adams."



Best T.V. show:"The Wire," "The Shield," "Life on Mars" and old reruns of "Hill Street Blues," all well written and acted.

Best music group or artist: Dave Matthews, Toby Keith, Tom Petty, John Mellencamp.

Pet peeve: Growing lack of civility and respect in today's society.

Most embarrassing moment or fun fact: (Probably both) I wore a kilt at my wedding in Scotland.

Goal: For my children to grow up healthy and safe and to have a safe and successful career.

COURTESY PHOTO

The Mariner caught up with police Sgt. Jeffrey Treanor on Monday at the Cohasset Police Station. Treanor is the town's newest police sergeant.

Person you'd most like to meet: John F. Kennedy

Biggest worry: My family's continued well being.

Best part of Cohasset: Growing up here, I have always been drawn to the coastline and harbor.

BRIEFLY

Wind Turbine hearing postponed until Dec. 1

The Planning Board's continued public hearing on the proposed wind turbines at Graham Waste originally scheduled for this coming Monday Oct. 27, has been postponed to Monday, Dec. 1.

The applicant, Jim Sweeney of CCI Energy, has formally requested that the continued public hearing be postponed. According to an e-mail sent by Planning Board administrator Jo-Ann Pilczak on Thursday morning, Sweeney explained that although they have collected most of the requested data, his project team are still working on collecting further details.

"In fairness to all parties, such as the Planning Board, town engineer and the public, they need more time to provide this information well in advance of the meeting," stated Pilczak. Sweeney felt the month-long postponement would allow him to do this, Pilczak wrote. CCI Energy submitted additional data, studies and documentation to the Planning Board office earlier this week.

This is the second time the applicant has asked for a postponement in order to gather information since the first public hearing in September.

As a procedural matter, the continued public hearing will reconvene on Oct. 27 only to immediately be continued to Dec. 1. No discussion or information on the project will take place on Oct. 27.

CCI Energy is proposing installing two turbines on the Graham Waste site off of Route 3A behind Hingham Lumber. The project calls for two 1.65-megawatt turbines each approximately 141-meters, or 462-feet, from ground to the top of the blade.

New Cohasset Mariner 'drop box' at Tedeschi's

The Cohasset Mariner has a new "drop box" and pickup location at Tedeschi's in the village. The drop box is on the counter in the front window around the corner to the left after you enter the front door.

The Mariner picks up at 8 a.m. on Mondays and Tuesdays. The drop box can be used to drop off glossy photographs, letters, flyers or other editorial copy.

Sports writers wanted

The Cohasset Mariner is looking for students, parents and grandparents who might like to cover youth or high school sports as a community service.

The Cohasset Mariner believes that coverage of high school and youth sports is important and a great way to provide young athletes with some recognition.

Please contact editor Mary Ford at: mford@cnc.com

All ages of sports writers are welcome. Access to a computer and email is a must.

Resident wants N. Main sidewalk

By Nancy White
NWHITE@CNC.COM

"We need a safe, convenient and logical access to the train station. To encourage sustainable travel, there needs to be pedestrian access."
— Howie Altholtz, 4 Cedar Ledge

Next Friday will mark the first anniversary of the Greenbush commuter rail operation. Although most of the major construction items with project have been completed, at least one resident believes the town should pursue one more project — a sidewalk on North Main Street from King Street to Cohasset train station.

Howie Altholtz of 4 Cedar Ledge and a regular train commuter came before the Board of Selectmen in November 2007 to discuss the possibility of North Main sidewalk. He was back before the board this Monday to re-visit the issue.

"We need a safe, convenient and logical access to the train station. To encourage sustainable travel, there needs to be pedestrian access," said Altholtz.

In preparation for the discussion, Greenbush liaisons Mark Brennan and Tom Gruber prepared a list of options for the sidewalk. A sidewalk is currently being constructed up Lower King St. and then north along Route 3A to the station entrance. The town received a transit-oriented district grant from the state for approximately $275,000 in 2006. The grant was given for the construction of a sidewalk up Lower King Street and then along Route 3A to the station entrance.

However, Altholtz said a sidewalk on North Main made more sense because it was a direct route to the station which people would be more apt to use. During Greenbush mitigation, the town wasn't able to negotiate the inclusion of a North Main Street sidewalk.

"It's counter-intuitive not to do (a North Main sidewalk). Pushing people out to 3A is dangerous for drivers and walkers, even if it's cheapest, a bad idea is still a bad idea," said Altholtz. A sidewalk on North Main has a conservative cost estimate of $1.3 million, said Brennan.

"It's a big price tag, but (the sidewalk) is forever," said Alholtz.

A sidewalk on North Main Street to the station has, like most Greenbush issues, a long history. In 2002, the Board of Health, in conjunction with the Rails with Trails program, hired a consultant to look at the possibility of a pedestrian/bike pathway to the commuter train station. The town talked with the MBTA about using the maintenance road next to the track for a pedestrian walkway, but in the end the proposal was turned down. When the Brennan and Gruber came on in early 2005, the options were a sidewalk via North Main or Route 3A. After meetings with representatives from the Board of Health, police, fire and DPW, it became clear the most practical solution was Route 3A. Two major developments, Scituate Hill (across from King Street on Route 3A) and the TOD shopping plaza, Old Colony Square, made the 3A sidewalk even more practical.

Altholtz, an attorney, offered his services to get a meeting with the MBTA to discuss the sidewalk options and possible easements.

The Board of Selectmen gave Altholtz the go-ahead to work with Town Manager Bill Griffin to see how far they could get.

POLICE BEAT

Woman arrested for OUI twice in same day

By Mary Ford
MFORD@CNC.COM

Police said a Scituate woman was arrested twice on Monday (Oct. 13) for operating under the influence of alcohol: first in Scituate and later in Cohasset.

Scituate police saw the woman they had arrested earlier driving toward Cohasset and followed her into Tedeschi Plaza off Route 3A where Cohasset police made the arrest. Observations about her driving by Scituate police, as well as Cohasset's investigation at the scene, led to the motorist being charged with operating under the influence of alcohol (second offense) and operating after license suspension for OUI.

The Cohasset incident occurred at 2:55 p.m. on Monday (Oct. 13).

Attaching plates

• A 43-year-old Carver man is facing several traffic charges following a traffic stop at 8:05 p.m. on Saturday (Oct. 18) on Chief Justice Cushing Highway. Police observed an older model Chevrolette sedan traveling south on Route 3A. Police had knowledge that the plates belonged to another vehicle and stopped the car. As it turned out the plates belonged to a 1998 VW Beetle.

The man was arrested on charges of driving an unregistered, uninsured motor vehicle, attaching plates and for an inspection sticker violation. There was also a warrant for his arrest for failure to appear for jury duty.

• An officer ran a check on the plate of a 2006 Honda that was parked behind Bank of America at Shaw's Plaza at about 9 p.m. on Saturday (Oct. 18). The computer revealed the plates belonged to another vehicle. The car pulled away and police stopped the car at Route 3A and Beechwood Street.

The driver, a 48-year-old Cohasset man, is being summonsed to court on criminal citations of attaching plates, and driving an unregistered, uninsured vehicle.

The plates were seized and the car was towed, police said.

• A 17-year-old Cohasset girl is being summonsed to court after being stopped for having a headlight out at about 10:20 p.m. on Saturday (Oct. 18) on North Main Street. The officer who saw the 2000 Pontiac reversed direction and pulled the car over on Beechwood Street by South Main. The girl is facing charges of driving an uninsured, unregistered motor vehicle, number plate violation, and headlight violation, police said. The plates were seized and the car was towed.

OUI charge

Cohasset police observed a car traveling south on Route 3A at about 1 a.m. on Sunday (Oct. 19) weaving over the centerline multiple times. The officer tried to pull the car over which initially slowed down but kept moving slowly eventually coming to stop. Based on the officer's observations and investigation at the scene, the woman was arrested and charged with operating under the influence of alcohol and marked lanes violation.

Vandalism

• Police are investigating damage done to a 2003 Toyota Highlander by vandals who apparently threw a pumpkin at the windshield, breaking it. The resident, who lives on Jerusalem Road, reported the incident at 8 a.m. on Wednesday (Oct. 15). Police said the resident heard something the night prior but did not see anything and did not think any more of it until the next morning. Chief Hussey said police are trying to determine if this resident was targeted or if this was a random act. Police observed pieces of broken pumpkin near the car; the front, driver's side of the windshield was hit and cracked.

• Police responded to a resident who reported that her son's car had been vandalized sometime overnight (Oct. 18-19). Police said the black Jeep was wrapped in toilet paper and several eggs were broken inside. Police are working with the family to determine if this was a random act of vandalism or if the son's car was targeted. Fingerprints were lifted from the scene and police hope to determine who was responsible, Chief Hussey said.

Pumpkin theft

A caller asked police to log in that four of her seven pumpkins had been stolen overnight (Oct. 14-15). Chief Hussey said unfortunately some youth participate in this kind of behavior this time of year.

Larceny

A contractor working on a house on Gammons Road discovered a laser tool and other tools were missing. He reported the incident on Wednesday (Oct. 15) and will be providing police with a list of the missing items and their serial numbers.

MV crashes

• A 2003 Chevrolet operated by a Cohasset resident failed to stop and rear-ended a 2006 Jeep, also operated by a Cohasset resident, that had stopped the lights at Pond Street. Both vehicles were traveling west. The operator of the Chevrolet said a jar rolled off the seat and got stuck under the gas and brake pedals. The driver of the Chevrolet was cited for failure to stop. The incident occurred at 12:48 p.m. on Wednesday (Oct. 15). There were no apparent injuries and the Chevrolet had to be towed.

• A 2001 GMC, owned by a construction company out of Hanover, and a 2007 Ford owned by a Cohasset resident, were damaged when a vehicle heading west on Jerusalem Road left the roadway and struck the GMC and Ford that were both parked in a driveway on Hull Street. The vehicle that caused the accident turned around and left the scene. The incident, which is under investigation, was reported at 8:46 p.m. on Thursday (Oct. 16).

• The operator (a Braintree resident) of a 2001 Ford traveling south on Route 3A at 6:50 p.m. on Friday (Oct. 17) said he took his eyes off the road for a second before hitting a 2007 Chevrolet, driven by a Hingham resident, at the lights at 3A & Pond Street. The Ford pushed the Chevy into a gray Audi, driven by a Duxbury resident. The driver of the Ford was cited for following to closely and for impeded operation. All three cars were towed. The two occupants of the Chevrolet were transported to the hospital with what appeared to be minor injuries, police said.

Fire hydrant

The driver of a car parked in front of a fire hydrant on S. Main Street returned to the scene just before the vehicle was to be towed, police said. Chief Hussey said police will issue a ticket and have a vehicle towed if the owner operator cannot be located because blocking a fire hydrant is a safety issue. The same holds true for parking illegally in a handicap spot. The fine for blocking a fire hydrant is $50 and it is a $100 fine for parking illegally in a handicap spot.

In this past week's incident, the officer ran the plate and had the dispatch center try the residence but could not make contact with the motorist. The tow company was contacted but in the meantime the motorist returned, was fined and allowed to drive away.

Questions on the table

Dog racing and wind energy to consider

By Carol Britton Meyer
CMEYER@CNC.COM

In a week and a half, America will yield their collective voting power to pick a new President. The Presidential candidates Republican John McCain and Democrat Barack Obama will be the big story of the Election Day, Tuesday, Nov. 4, but four controversial ballot questions to consider.

There are three binding statewide ballot questions related to reducing and then eliminating the state personal income tax; decriminalizing marijuana use and instituting a new system of civil penalties; and prohibiting dog races on which betting or wagering occurs. There is also a non-binding wind power question that will be on the ballot in several South Shore communities, including Cohasset. (See information box.)

State Rep. Garrett Bradley, D-Hingham, said it's important for voters to realize that the first three questions are binding. "These are not [just] questions gauging voters' opinions on these issues [except Question 4]," he said. "No legislative approval is needed for them to become law."

Cohasset polls will be open from 7 a.m. to 8 p.m. Tuesday, Nov. 4, for the State/Presidential election. Precincts 1 and 2 will vote at the Town Hall, 41 Highland Ave.

Editor's note: This is the second of a two-part series. This week we look at Questions 3 & 4 on the Nov. 4 ballot. Questions 1 & 2 were examined in last week's issue of The Cohasset Mariner..

COURTESY PHOTO

Russ Bonetti of Parker Ave. has adopted former racing greyhounds for nearly two decades. His current greyhound, Ditzy, was formerly known as "Snow Lady" at the Hinsdale, New Hampshire track.

QUESTION 3 — DOG RACING

Should dog racing involving betting or wagering on the speed or ability of dogs be banned in Massachusetts?

That is one of the binding questions voters will decide at the Nov. 4 ballot box. A Yes vote would prohibit such dog racing effective Jan. 1, 2010. A No vote would make no change in the laws governing dog racing.

According to Jennifer Reardon, volunteer for The Committee to Protect Dogs, a massive grassroots effort to pass this referendum is underway. A similar law currently exists in 34 states. Proponents allege inhumane treatment and unacceptable living conditions for some of the dogs.

This project supports the Greyhound Protection Act, which is endorsed by many organizations and community leaders throughout Massachusetts, including the Animal Rescue League of Boston, the Massachusetts Society for the Prevention of Cruelty to Animals, the Animal Control Officers Association of Mass., the Humane Society of the United States, and major animal shelters in the state as well as scores of veterinarians, dozens of lawmakers, and hundreds of community leaders, Reardon said.

The Massachusetts Society for the Prevention of Cruelty to Animals claims that according to state records, more than 800 Massachusetts racing greyhounds have been injured since 2002, including dogs who suffered broken legs, paralysis, and even death from cardiac arrest.

The Committee to Protect Dogs has prepared a report documenting information specific to Raynham Park and Wonderland Greyhound Park. According to the committee, all information is recent and nearly all data relates to ongoing practices. Sources of information are state records, industry statements, and mainstream news organizations, much of which has been submitted by the racing organizations themselves, Reardon said.

Here in Cohasset, Russ Bonetti and his wife, Ann Fogarty, have adopted former racing greyhounds for nearly 20 years. Looking to adopt a older dog due to their work schedules, a veterinarian pointed them in the direction of greyhound adoption and they haven't looked back since. They have adopted half dozen greyhounds since then.

"They make great pets," said Bonetti in a phone interview. His current greyhound, Ditzy, was formerly known as "Snow Lady" at the Hinsdale, New Hampshire track. While many might assume an animal bred for speed needs to get out and run, Bonetti says Ditzy sleeps more than his cats.

"Anyone who has been around a racing kennel realizes that our love for these dogs surpasses our financial investment as motivation to keep them as fit as possible."

Greyhound kennel operator/owner John O'Donnell

Despite his adoration for the breed, Bonetti was of two minds on Question 3. He has toured the kennels of one of the greyhound parks and was impressed with the cleanliness and care the dog owners took with the dogs.

"The kennels I saw were very clean, the dogs were all in cages...but the cages were good sized," said Bonetti. "The sport does have inherent cruelties but I don't think it's as prominent in Massachusetts."

In his own experience, the dogs he has taken in as pets were all well-adjusted and didn't show any signs of fearing humans.

SEE QUESTIONS, PAGE 5

Ditzy, who was adopted by Russ Bonetti of Parker Ave., enjoys a nap with the family's cat. Although bred for speed, Bonetti says Ditzy sleeps more than her feline companions.

Questions on the table

FROM QUESTIONS, PAGE 4

"If the dogs are being abused, I have a problem with it. But, if regulated correctly and from what I've seen it appears to be happening, I'm okay," said Bonetti, adding it is in the owner's best interest to keep his dog's in tip top racing form because that's how he makes his money.

Beyond the welfare of the greyhounds, some are concerned with the loss of jobs and livelihood for workers at the two Massachusetts dog racing arenas.

Linda Jensen, President of Racing Owners Assisting Racers, Inc., posted a message on the www.protectdogsandjobs.org web site opposing Question 3. "[Passage of] Question 3 will put people out of work in the state's already faltering economy – at least 1,000 full- and part-time workers in a state with already high unemployment figures for college graduates and other displaced professionals," she stated.

Jensen notes that The Massachusetts Animal Interest Coalition was formed for the specific purpose of defeating Question 3. "The coalition represents the interests of racing greyhounds, greyhound adoption, working families that rely on jobs created by the Massachusetts greyhound racing industry, and dog owners under the state-regulated stewardship of the Wonderland and Raynham-Taunton tracks who are opposed to the passage of Question 3," she said.

Jensen further states that racing greyhounds are "under the constant supervision of the state police and the Massachusetts Racing Commission and are under the care of certified veterinarians. As a result of their careful scrutiny and faithful oversight, there has never been one documented case of dog abuse in any licensed track in Massachusetts," she said.

The Wonderland Greyhound Park Web site posts the "Protect Greyhounds and Jobs in Massachusetts – Vote NO on 3" logo on its homepage.

Conversely, the Massachusetts Society for the Prevention of Cruelty to Animals claims that according to state records, more than 800 Massachusetts racing greyhounds have been injured since 2002, including dogs who suffered broken legs, paralysis, and even death from cardiac arrest. In a statement included in the official Massachusetts "Information for Voters" pamphlet mailed to all households in the state, MSPCA president Carter J. Luke stated that according to the Massachusetts State Racing Commission, "greyhounds have recently died from a mysterious illness and tested positive for cocaine, an illegal stimulant."

In a press release issued recently by Massachusetts Greyhound Kennel Operators and Owners opposing Question 3, greyhound kennel operator/owner John O'Donnell said that, "Massachusetts voters need to know the truth. A percentage of our purses is taken out and used to ensure that dogs are taken care of for adoption… Greyhounds are athletes, and they become pets after they retire from racing… Anyone who has been around a racing kennel realizes that our love for these dogs surpasses our financial investment as motivation to keep them as fit as possible."

Claiming facts have been a casualty in the campaign over whether to ban dog racing, proponents of Question 3 launched a site (www.question3facts.org) recently to challenge opponents.

If passed, the law would take effect in 2010, allowing employees of these facilities more than a year to seek other employment before the operations would close permanently.

Bradley said that the racing business is a declining one in the state. He is hopeful that jobs could be kept by using these facilities in a different manner and plans to have a more definitive statement in the near future.

Hedlund is listed on the Web site www.ProtectDogs.org as a Massachusetts lawmaker endorsing the ballot question.

QUESTION 4 — ALTERNATIVE ENERGY WIND POLICY

At a time when energy costs are rising rapidly, residents in nearly a dozen South Shore towns will decide whether to instruct their state representatives to vote in favor of wind power developments in Massachusetts.

Question 4 is a non-binding Public Policy Question on alternative energy wind policy to register public opinion with legislators in the towns of Hingham, Hull, Cohasset, Scituate, Marshfield, Hanover, Norwell, Rockland, Braintree, and parts of Holbrook and Randolph.

"The AEC feels the 6-plus years of study and the extensive permitting process has shown the placement of turbines off of Cape Cod will produce a significant amount of clean renewable electricity and will have minimal to no effect on the regional fish or birds."

— Cohasset AEC Chairman Andrew Willard

In these towns, located in four state representative districts, wind power supporters collected the necessary 200 validated signatures per district to get the issue on the ballot.

The question reads: *Shall the state representative from this district be instructed to vote in favor of legislation that would support the development of Cape Wind in Nantucket Sound and other possible future onshore and offshore wind power developments in Massachusetts?*

Cohasset's Alternative Energy Committee (AEC) supports a Yes vote to Question 4. At their September meeting to speak in favor of the question and to ask the Board of Selectman to pass a resolution requesting our State Representative to vote in favor of support for Cape Wind.

"The AEC feels the 6-plus years of study and the extensive permitting process has shown the placement of turbines off of Cape Cod will produce a significant amount of clean renewable electricity and will have minimal to no effect on the regional fish or birds," stated AEC Chairman Andrew Willard.

"It is our desire should the Federal Mineral Management Services provide final approval for Cape Wind that our State Elected Officials will not make any attempt to block the construction nor connection of the project to the local electrical grid."

A group of Hingham and other South Shore residents initiated the effort to get the question on the ballot.

"In view of increasing support for Cape Wind and of potential opposition to local wind projects – including Hull's initiative to build four offshore wind turbines and Cohasset's proposed onshore wind turbines – local activists felt strongly that South Shore communities should have a vote recorded as to whether they support local wind power development, both on- and offshore," said proponent Louise Z. Smith, a South Shore resident.

Opposition to local wind projects centers on such issues as noise, location, size, and environmental concerns.

Reporter Nancy White contributed to this report.

Nov. 4 ballot questions

Hingham and 10 other South Shore communities will have four ballot questions to consider Tuesday, Nov. 4. Questions 1, 2, and 3 are binding, while Question 4 is a non-binding Public Policy Question to register public opinion with legislators.

Question 1 – State personal income tax: A Yes vote would reduce the state personal income tax rate of 5.3 percent of federal adjusted gross income to 2.65 percent for the tax year beginning on Jan. 1, 2009, and would eliminate the tax altogether after Jan. 1, 2010. A No vote would make no change in state income tax laws.

Question 2 – Possession of marijuana: A Yes vote would replace the criminal penalties for possession of one ounce or less of marijuana with a new system of civil penalties. A No vote would make no change in state criminal laws concerning possession of marijuana.

Question 3 – Dog racing: A Yes vote would prohibit dog races on which betting or wagering occurs, effective Jan. 1, 2010. A No vote would make no change in the laws governing dog racing.

Question 4 – Alternative energy wind policy: This is a non-binding Public Policy Question on alternative energy wind policy to register public opinion to legislators representing the towns of Hingham, Hull, Cohasset, Scituate, Marshfield, Hanover, Norwell, Rockland, Braintree, and parts of Holbrook and Randolph.

The question reads: Shall the state representative from this district be instructed to vote in favor of legislation that would support the development of Cape Wind in Nantucket Sound and other possible future onshore and offshore wind power developments in Massachusetts?" Voters will be asked to vote either "Yes" or "No" on this question.

For further information about the statewide ballot questions, refer to "The Official Massachusetts Information for Voters" pamphlet recently mailed to every household or view this information online at: www.sec.state.ma.us. Click on the "Election Division" link and then click on the "Information for Voters Online Book" link under the "State Election 2008" heading.

AROUND TOWN

JENNIFER PIEPENBRINK

HALLOWEEN FUN

Hello Cohasset. I hope everyone is doing well and getting ready for a fun-filled week of Halloween Fun.

While I am writing this column, the weather has been a bit unsettled and the ocean was amazing to watch the other day. I hope that the weather will hold out for all the different events and fairs this weekend as well as through the week.

MAGICAL MOON

Looking for a nice event the night before Halloween for all to enjoy? On Thursday evening, Oct. 30th from 6-9 pm, the Magical Moon Foundation will hold a "Not So Scary Halloween Party at the Magical Moon Farm, 575 Summer St. in Marshfield. There will be a carved pumpkin contest, hayrides, a haunted barn room with witches, worlocks and other creatures of the night and lots of fun for all. Prizes will be given for the best costumes and carved pumpkins. Bring your precarved pumpkin ready to be lit up for all to see.

A $5 donation for entrance will go to the Magical Moon Foundation for Children with Cancer. For more information, contact **Donna** or **Patty** at 800-840-0205 or, 781-837-1618. Hope to see many of you there!

BULBS, BULBS!

Attention all gardeners. The Community Garden Club of Cohasset has a nice selection of quality spring flowering bulbs available for sale to the public. To purchase bulbs please call **Liz** at 383-0998 or email her at ejrichardson@comcast.net. All purchases help to fund the club's programs including our junior gardener program, our beautification projects and our scholarship awards for graduating seniors.

The Community Garden Club of Cohasset will hold its monthly general meeting on Tuesday Oct. 28 in Bates Hall at the Second Congregational Church on Highland Avenue. Garden historian, Allyson Hayward, will discuss her book about Norah Lindsay, an English woman who, faced with financial ruin in 1924, embarked on a career as a garden designer. This slide show and lecture includes archival and current images of gardens designed by Lindsay in England and across Europe. Allyson Hayward's book, Norah Lindsay: the Life and Art of a Garden Designer will be available for purchase at the meeting.

WENTWORTH

Wentworth Institute of Technology celebrated the graduation of 507 students during its summer commencement ceremony on Aug. 17.

Nicholas Murphy of Cohasset graduated with a Bachelor of Science degree in mechanical engineering technology.

FAIRFIELD

Fairfield University, a Jesuit university founded in 1942 in Fairfield, Conn., has announced the names of students who qualified for the fall 2007 dean's list. To be selected, a student must attain a grade point average of at least 3.5 out of a possible 4.0.

Marissa Evans of Cohasset, daughter of **Darilynn and Larry Evans**, was named to the dean's list. Marissa is majoring in finance.

'LITTLE WOMEN'

Here is another wonderful performance that you may wish to attend this weekend. The Notre Dame Players will perform Little Woman based on the novel by Lousia May Alcott. Cohasset residents, Rebecca Dickinson, Kathryn Hillman, and Gabrielle Rodman will be performing in this production. Performances will be Friday, Oct. 24 at 7p.m. and Sunday, Oct. 26 at 2p.m. at Notre Dame Academy, 1073 Main St., Hingham.

Tickets cost $5 for students and seniors; $7 for the general public. Call (781)749-5930 ext. 200 for details.

OUR WORLD

If anyone is reading this and looking for something fun to do with the kiddos tonight, why not consider sending them to the Creative Nite in Our World Event happening at the Our World Museum. Tonight's event is from 5:30-9:30 pm with a minimum of two hours and is a Halloween Happenings Bash.

Children may come with their costume if they like but it is not required. We will prepare a Spooky meal for all to enjoy along with some special Halloween books to read, crafts to make, a Halloween movie to enjoy and more. If you are looking for a "no kids allowed" night for some grown-up time and want the kids to have a blast while you are out, then this is the place to send them. For more information or to sign them up, call 781-383-3198 or send the information to info@ourworldcgdm.org!

CABARET

Cohasset Cabaret 2008, is only two weeks away and features a diverse show of singers, dancers, and comedians from the South Shore. The Cabaret had a great reception last year, just ask your friends and neighbors who attended the show, and we look forward to another great performance this year. The show again will be directed by Blanche Clarke, who has worked in theatre for many years including the Hingham Cabaret, Hingham Civic, and other venues. Mark the dates Nov. 7th and Nov. 8th on your calendars now!

Don't miss the opportunity to see this local talented cast featuring **Doug Trudeau**, from Showstopper's fame, as emcee. A little sample of what to expect: **Lily Sestito** and her brother **Tony Carbone** will perform a knockout number. **Tina Turner** will be appearing with one of her popular numbers. **Katherine**, a Star of the musical "Thoroughly Modern Millie," will be there with a great song and dance routine. **Vere Bowen**, a terrific singer from Boston, will be sending chills up your spine with his strong baritone voice. And to top it all off, a few of the guys from the "Full Monty" will be there for a really show-stopping review. On both evenings a social hour will take place from 7 to 8p.m. where you can try your luck at the raffle table which will have some great items from local artists and merchants. Audience members are encouraged to bring their own snacks "Cabaret Style" or we will be selling a selection of theatre sandwiches. There will be a cash bar serving wine, beer and soft drinks.

Cohasset Cabaret is sponsored by The Friends of Cohasset Elder Affairs and will benefit the Friends and St. Anthony's Youth Ministry. Tickets are on sale now and the cost of each ticket will be $25. You can purchase tickets at St. Anthony's Parish Hall office and the CEA office at the South Shore Community Center. For further information please call 781-383-0021.

SCIENCE CENTER

Hmmm, another fun Halloween event to think about on Saturday, Oct. 25th is the Halloween Howl from 4:00-5:30 pm at the South Shore Natural Science Center in Norwell. Enjoy a not-too-scary evening of spook-tacular fun with pumpkin carving, crafts and animal presentations as well. Be sure to wear a costume and bring a pumpkin to carve. Also included in this time frame is 1 trip through the Spooky Woods.

The cost is $12 for members, $15 for non and pre-registration is required. After this event is the Spooky Woods event from 5:30-8:30 pm. The cost for this is $5 per person with no pre-registration required. Wear a costume to this and bring the whole family anytime during these bewitching hours to enjoy a not-too-scary walk through Halloween scenes in the Science Center's woods. For more information, call 781-659-2559 or go to www.ssnsc.org

FREE DROP-OFF

The Paul Pratt Library offers free drop-off and delivery of library materials to the home of Cohasset residents who are unable to come to the library due to illness or limited physical abilities. A volunteer from the Friends of the Library will gladly bring reading materials to your home and return library items on a regular basis, if needed. Contact the Reference Librarian at the library for further details at 781-383-1348.

That is all for this week. Send in your news for next week no later than Tuesdays by 5:00 pm.

COURTESY PHOTO

Virginia Burbank, a former Cohasset High English teacher, has founded "An Orphan's Dream" charity to build an orphanage in Kenya. She recently purchased 11 acres of land in Kenya for the orphanage's site.

An Orphan's dream

Former Cohasset teacher raising money for Kenyan orphanage

Past

When Virginia Burbank retired from teaching high school English to Cohasset High students she figured she would spend the rest of her days growing old peacefully in a rocking chair. All that changed when she traveled to sub-Saharan Africa, to Nairobi, Kenya, and saw thousands of children living in poverty and filth — and without parents to watch over them. The region, like so many in Africa, has been badly stricken by the AIDS epidemic and many children lose their parents to the disease.

While in Africa, the wheels were put in motion to build an orphanage, a place to be called an Oasis of Peace, for dozens of children. She returned home last year to begin fundraising to purchase the land. In a matter of months, Burbank was able to raise over $50,000.

Present

The project is making strides. Earlier this year, Burbank returned to Kenya to purchase 11 acres of land off the main road about two hours outside of the capital city of Nairobi. The land is about 20 miles from the equator situated in the mountains. The land is close enough for the children to walk to a school. A chain link fence was installed around the perimeter and the next step will be to bring in water and electricity.

"This is the time to build," says Burbank. She hopes to return to Kenya in early 2009 with enough money (approximately $90,000) to construct the first two of what will be 10 bungalows.

Burbank is passionate and tireless about this project and feels personally driven to see this project to completion. She is reaching out to local churches, communities and media to spread the word.

Future

The philosophy of the orphanage is to create a family life within a small village of 10 homes. Each bungalow will be run by a "mom," a Kenyan woman who will be responsible for running the household with as many as 10 kids (cooking, cleaning, budgeting, etc.). The mom will share her love and tribal identity with her children.

"When the orphan's parents dies, the children lost their identity, with this orphanage they will gain a new identity from their mom," said Burbank.

Burbank estimates the Oasis of Peace orphanage will cost about $900,000. With such a lofty number, a team of 14 board members are doing all they can to spread the word about both the plight of the Kenyan orphans and the vision of building a home those orphans could call their own.

Through fundraising events, speaking at churches, and simply word of mouth, Burbank's hope is people will open their hearts and their wallets to these children halfway around the world living a very different life than here on the South Shore.

WEDDINGS

Stansell - Fatica

Mr. and Mrs. Robert Arthur Stansell III

Nicole Paige Fatica, daughter of Deborah and Jon Fatica of Riverside, Conn., and St. Simons, Ga., was married July 19, 2008, to Robert Arthur Stansell III, son of Moira and Robert A. Stansell Jr. of Cohasset. The Rev. Stephen DeLuca performed the ceremony at St. Catherine of Siena Church in Riverside, Conn. A reception followed at Greenwich Country Club.

The bride is the investor relations officer at Primus Guaranty Ltd. in New York City. She graduated from Tulane University and is currently pursuing her master's degree in business administration at New York University. Her father is a director at Investment Technology Group Inc. in New York City. He specializes in post trade analysis and research. Her mother is a board member of The Greenwich Scholarship Association in Greenwich, Conn.

The groom is a design architect with Perkins & Will in New York City. He is a graduate of Rensselaer Polytechnic Institute in Troy, N.Y., with a bachelor's degree in architecture and building science. He also works independently on bar and restaurant design, most recently completing GalleryBar and Ella in Manhattan. His father is president of Beacon Architectural Associates in Boston. His mother is a volunteer for Cohasset Food Pantry.

The bride's sisters, Kate and Emily Fatica, served as co-maids of honor, and the groom's brother, Malcolm Stansell, was the best man. Also attending the bride were Aleeza Cooperman, Sarah Nickerson, Lauren Caplan, Sara Ephraim, Michelle Benson and sister-in-law, Caitlin Struble. Attending the groom were Tim Welsh, Matthew Menard, Ely Kahn, Matthew Belson, Kevin McKenna, Burke Davis, and brother-in-law, Tom Struble.

The couple honeymooned in Philippine Islands, Boracay and Palawan, and reside in Manhattan.

Parker - Whitehouse

Mr. and Mrs. Steven M. Parker

Kathryn L. Whitehouse, daughter of Ray and Gail Whitehouse of Cohasset, married Steven M. Parker, son of Steven Parker of Auburn, Ohio and the late Joyce Parker. The wedding was held at the First Parish Church in Plymouth and presided over by Rev. Gary Ritts.

Pauline Taylor, a college friend of the bride, was the Maid of Honor. Bridesmaids were Shayna Greiner, Jenny Montgomery, Carolyn Pratt and Jill Whitehouse. Junior bridesmaids were Rebecca and Lauren Parker, the groom's nieces.

Dusty Small, a childhood friend of the groom, served as Best Man. Groomsmen were Marc Arnold, Sean Menchin, David Parker and John Whitehouse.

The bride is a 1998 graduate of Cohasset High School, a 2002 graduate of Bryant College and recently Bentley College, where she received a Masters in Business Administration. Katy is employed as a technical recruiter for General Dynamics in Taunton.

Her husband is a 1996 graduate of Kenston High School, a 2001 graduate of Bowling Green University and received his Masters degree from the University of Phoenix. Steve is a supplier manager for General Dynamics.

A reception was held at Waverly Oaks Golf Club in Plymouth.

After a wedding trip to Aruba, Katy and Steve reside in Easton with their cats, Rosie and Cowbelle.

Halloween tradition on Cohasset Common

No matter what the costume, ghosts and goblins, princesses and pirates of all ages should get ready to take to the Cohasset Common on Sunday, Oct. 26. The annual South Shore Community Center Nursery School Halloween Fair steps off with its traditional costume parade at 1:45 p.m. around the duck pond. Little ghosts and goblins will want to stay around until the fair's end at 4 p.m. to try their hand at enchanting games of skill and luck, slide the giant slides, play on the obstacle course and the take advantage of the always fun pony rides.

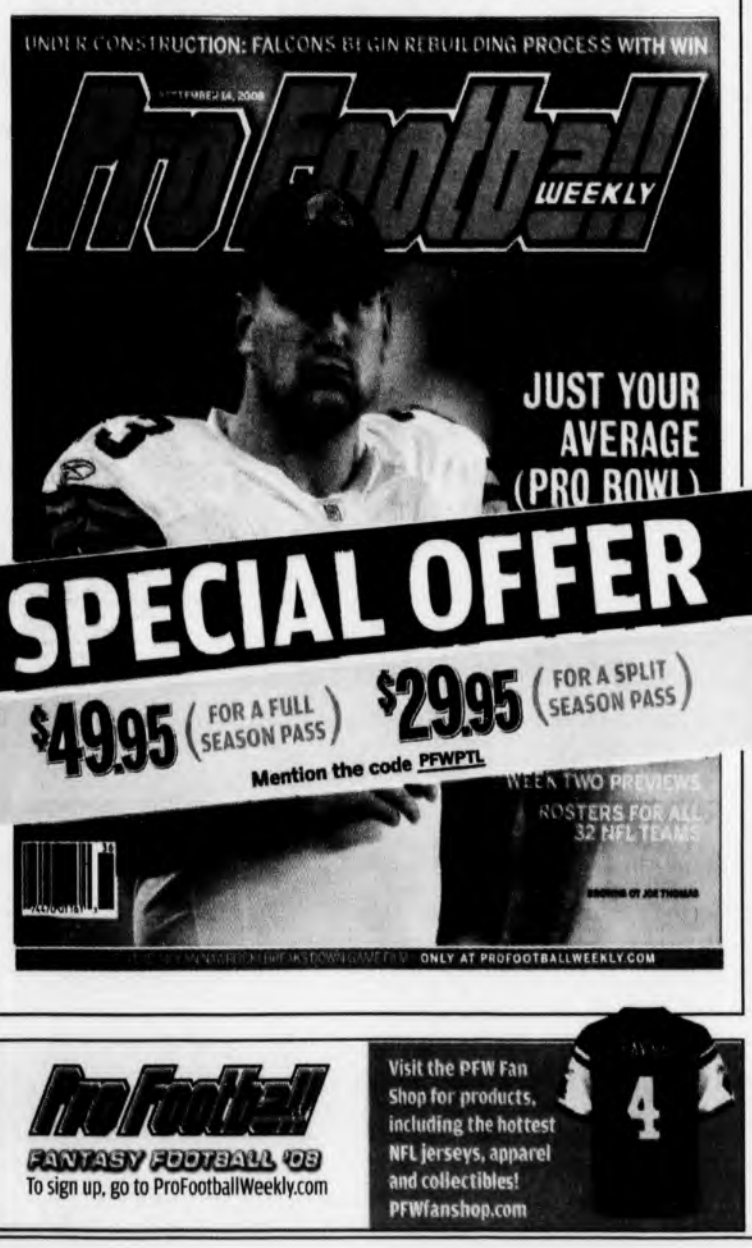
Tickets for activities and rides can be purchased at the event. All proceeds from the fair directly benefit the South Shore Community Center Nursery School through the Nardo Family Scholarship and the schools' Enrichment fund.

For more information about the Fair or the South Shore Community Center Nursery School, call 781-383-0036.

First Parish Unitarian to host Haunted House

First Parish Unitarian Universalist in Cohasset will host a Halloween Haunted House at its Parish House at 23 North Main St., from 4:30 to 7:30 p.m., on Friday, Oct. 31. Sponsored by the congregation's Religious Education Committee, this event will welcome trick-or-treaters and their families from the entire community into this historic Parish House to celebrate Halloween.

The Parish House will be transformed into a haunted house inviting youngsters to walk down the spooky hallways into the large fellowship hall, where they'll find tasty treats and Halloween games for kids of every age.



All are welcome to the fun on Halloween night.

Infrastructure repairs are needed

Town Meeting to consider two big projects

By Nancy White
NWHITE@CNC.COM

To spend or not to spend?

That will be the question facing Town Meeting voters as they consider funding two big-ticket items on the warrant. The proponents of both items say the funding is needed sooner rather than later.

First, a retaining wall on Jerusalem Road (between Gammons Road and Bow Street) collapsed during the course of Little Harbor sewer and water work. A 300-foot section of the 450-foot long wall buckled. The Water Commission and the Sewer Commission are seeking funding to repair the wall so it will be safe for two-way car traffic.

Second, the Jacob's Meadow channel wall near the Legion Hall is in great need of repair, said town engineer Mark Brennan. The immediate area around the collapse has been stabilized and concrete barriers keep cars away from the wall.

The Selectmen reviewed both projects, but did not take a vote to recommend (or not recommend) either project.

Jerusalem Road wall repair

The Water and Sewer Commissions, along the Little Harbor sewer project manager Dan Coughlin of Coughlin Environmental Services, presented four different options for the Selectmen to consider. They ranged in price and scope. The ultimate consensus choice for the Selectmen was the middle of the road option with a price estimate of $270,000.

The wall collapsed while the sewer project contractor, LM Holdings, was finishing up the work done in the area by paving over the trenches. Before work has begun in that area, Coughlin and other engineers has walked the wall to inspect its condition. They knew it was older, but didn't know how it had been constructed. They determined to proceed through the area gingerly, said Coughlin.

The new sewer pipes were installed and the trench was backfilled with soil. The following two days were rainy. Because the trench was unpaved, the road absorbed more water than it may have otherwise, saturating the soils underneath, Coughlin said. When the contractor came in with heavy machinery to begin paving the trench, they noticed the wall starting to give way and shortly after, a portion of the wall collapsed.

After the collapse, the immediate area around the collapse was stabilized and concrete barriers were placed to keep cars away from the wall. The road is now one-way with a temporary traffic light alternating traffic in either direction.

"Now the wall is as strong or stronger than it was before the (collapse), said John Beck, chairman of the Sewer Commission. The sewer project contractor and engineers repaired the wall, adding a secondary buttress wall, but the road still does not meet current state roadway code for vehicle traffic.

> **"We now have to deal with what is a pre-existing, sub-standard shoulder in the road."**
> — John Beck, Sewer Commission

"We now have to deal with what is a pre-existing, sub-standard shoulder in the road," said Beck and because the road is now a known problem, it could raise the town's liability if something was every to happen.

The first of Coughlin's options was a $100,000 Band-Aid approach that would leave the road safe, but not up to current engineering and design standards. The roadway would be offset by two or three feet, interlocking jersey barriers would provide a crash barrier and a sidewalk would be added.

The second and third option both add steel sheeting behind the wall where the wall is more susceptible to failure. The roadway would be offset, the shoulder expanded. In the second option, with a price tag of $250,000, would include a sidewalk and jersey barriers. The third option (which Coughlin referred to as "2B") would install a wooden guardrail, pedestrian rail and a four-foot wide passage area for pedestrians. The cost for this option was $270,000. In the first three options, the road would have to be narrowed slightly to about 20-feet.

The final option presented was a complete wall replacement with a pre-cast block wall system. A complete sidewalk would be installed as well and the road width would stay the same at 23-feet. The cost is estimated to be $500,000.

The last alternative, Beck pointed out, was to leave the road the way it was with the one-way traffic light.

Selectman Karen Quigley questioned why steps weren't taken to prevent the collapse from happening. She asked why the trenches weren't covered with steel plates to protect them from the rain.

Coughlin said they had no way of knowing how the wall was constructed until it collapsed. They thought it was more than a stack stonewall.

"There wasn't any indication a little water would make a big difference," said Coughlin, adding during the sewer pipe installation it was vibrations not water that primarily concerned them.

Selectmen Chairman Ted Carr asked if there was any liability on behalf of the contractor.

"For the most part, no. I don't think they were doing anything haphazard. It was saturated soil and (excessive) loading on to the street," said Coughlin. Water Commission chairman classified the collapse as "an act of God" due to the rains, not a misjudgment of the contractor.

Further, the funding for the repair of the road and wall would not be coming out of the water and sewer project budget. "Neither the sewer nor the project in any way, shape or form is responsible for the pre-existing condition of the road and wall. Putting this on the users of sewer would frankly be inappropriate and the Sewer Commission would vigorously oppose it," said Beck.

Quigley argued there were some residents out there saying the only reason this happened was because of a sewer project.

"Nobody wants to pay for it, but it's not just sewer users driving on Jerusalem Road," said Beck.

In the end, the Selectmen reached a consensus to bring the $270,000 option forward to Town Meeting, but did not vote on whether they would recommend the project for approval. If approved, the project would be bonded with payments coming out of the capital stabilization fund.

Jacob's Meadow culvert repair and upgrade

Next to the Legion Hall is the only means water from Jacob's Meadow is exchanged with water from Cohasset Harbor — and that pathway is in need of repair.

"The channel is in extraordinarily bad repair. It continues to deteriorate and gets worse everyday," said Mark Brennan, the town engineer overseeing this project. "The culvert is physically collapsing. I don't want to be an alarmist, but this is alarming."

The project comes with a cost estimate of $450,000 and the town would have to finance the project through a bond.

The bad repair of the channel and culvert is seriously constricting how fast and how much the water can leave Jacob's Meadow. That becomes especially vital in the event of a heavy rainstorm when Jacob's Meadow routinely floods. The repair will give the water the full opportunity to flow, possibly increasing flow by four-fold.

The installation of a new tide gates will give the town more precision when controlling the flow of water into and out of the meadow, said Brennan.

The project is currently on a waiting list for a hazard mitigation grant.

If the project is not done in the short term, there is a possibility the Legion building could collapse in the event the culvert failed.

Brennan expects if funds were authorized at Town Meeting, construction would begin in fall 2010, after the rainy season. But, permitting and other prep work would be done in the meantime.

There is a Laser way to treat severe gum disease without cutting or stitches

Introducing
Laser Periodontal Therapy™

Finally, there's good news for those of you who suffer from gum disease (gingivitis and periodontitis). We now offer an exciting laser based technique for treatment of periodontal disease called Laser Periodontal Therapy™. Through the use of the Millennium Dental Technologies, Inc. PerioLase® Laser, designed especially for Laser Periodontal Therapy™, we can treat your moderate to severe gum disease and you can quickly return to your normal routine!

There's no incision (scalpel) and no stitches (sutures). Discomfort is greatly reduced, often there is not any pain at all. You heal naturally with full retention of your gums. Local area dentist Dr. Michael Thomas is fully trained and licensed to perform Laser Periodontal Therapy™, an FDA cleared and patented laser gum therapy that greatly reduces the pain and recovery time associated with traditional gum surgery. Dr. Thomas is the only dentist in the South Shore area using the PerioLase MVP-7, the first ever digital dental laser with FDA approval for use in the treatment of gum disease. If you suffer from tender, red, swollen, bleeding gums, or have been told you need periodontal surgery to treat gum disease, call us today for an appointment to evaluate your condition and see what a difference the laser treatment can make for you.

OPINION

EDITORIAL

That sinking feeling

If we had our druthers, the Treat's Pond issue would be resolved and we would never have to write about it again!

Cohasset Mariner readers may recall the Lobster Lab, Cook Estate and of course, Greenbush – as examples of ongoing, long-term issues that took up a tremendous amount of newsprint.

Well, Treat's Pond has joined that elite group. We are not minimizing the importance of resolving the Treat's Pond "problem" – it is apparent that *something* needs to be done. We wish, however, that the Selectmen had allowed something on Treat's Pond to go forward to the Special Town Meeting so voters could decide once and for all what should be done.

A majority of selectmen has decided Treat's Pond needs more study and that more education is required and therefore, the issue has been postponed to the annual Town Meeting.

Those of you feeling as though you have a case of déjà vu are not alone.

At the 2008 Annual Town Meeting – after two hours of discussion on the topic (including four votes on proposed amendments) – voters approved a resolution requesting additional time (until this fall's Special Town Meeting) to review the project more thoroughly.

The resolution, which kept the project in play, expressed the town's interest in the Army Corps proposed saltmarsh restoration project and the federal funding to support it. The resolution, which stated the town did not want to foreclose the possibility of federal funds to support a possible solution, recognized both the serious nature of the environmental health of Treat's Pond and flooding issues in the surrounding area.

Selectmen this week have delayed a decision on the project again, pushing it off to this spring's annual Town Meeting. Only time will tell if the federal funding will stick around until then.

The postponement of Treat's Pond Army Corps restoration project ignores Town Meeting's will expressed in the resolution. It was apparent at Annual Town Meeting there was not widespread support for the project — and the hundreds of thousands in town money it would have required. The resolution gave the Selectmen the time to further review the project so the townspeople could make a more informed decision. For whatever reason, they did not go about this research in a timely or thorough manner.

We think there should have been ample time between the 2008 annual Town Meeting and this fall's Special Town Meeting to further study the issue. Yet little has been done to ensure the public was educated on the proposals. In fact, while Selectmen have discussed Treat's Pond several times in recent months mostly related to Sandy Cove easement issues – Sept. 29 was the first time the Army Corps project was discussed before selectmen in detail since the annual Town Meeting.

Therefore, a multitude of unanswered questions remain. Selectman Fred Koed said this week, "Right now, I don't think we have all the answers on the big picture." Selectmen Paul Carlson and Ted Carr agreed.

Selectman Karen Quigley disagreed and said the issue should come up for a vote and be resolved one way or another. (Selectman Ralph Dormitzer, who is an abutter, has recused himself.)

So here we are. Mariner promises to continue to cover this controversial and convoluted issue to the best of our ability.

We hope the selectmen will live up to their promise to thoroughly educate the public and themselves, for that matter, on all the "ins and outs" of Treat's Pond, put it on the annual Town Meeting warrant and leave it there.

MEETINGS

The following meetings are posted at Town Hall:

Advisory Committee, Oct. 28. 7 p.m.

Alternative Energy Committee, Nov. 18, at 7:30 p.m.,

Assessors, Oct. 24, at 8:45a.m.

Board of Health, Nov. 18, 7 p.m.

Capital Budget Committee, Oct. 28, 7:30 p.m.

Planning Board, Oct. 27 at 6:30 p.m., public hearing at 7 p.m.

Recreation Commission, Nov. 5., at 6:30 p.m.

School Committee, Nov. 5 & Nov. 19 at 7 p.m. at the high school

Selectmen, Oct. 27, at 7 p.m.,

Sewer Commission, Oct. 28, at 6 p.m.

School Improvement , Nov. 5, 2:30 p.m., at the high school.

Water Commission, Oct. 30, 6p.m., at King St. plant.

ZBA, Nov. 5 at 8:30 a.m. & Dec. 3, at 7:30 p.m.

All meetings take place at Town Hall unless otherwise noted. Call the Town Clerk's office at 781-383-4100 for updates and additions.

Flu clinic for high-risk residents

The Cohasset Board of Health has scheduled a flu clinic from 10 a.m. to noon on Tuesday, Oct. 28, in the auditorium of Cohasset Town Hall, 42 Highland Ave.

The clinic is only for residents 65 and older and for high-risk adults, which includes those with asthma, chronic pulmonary disease, diabetes or heart disease.

Residents are asked to wear short sleeves, and seniors are reminded to bring Medicare part B and/or Senior Health Insurance cards.

Call Mary Goodwin at 781-383-2210 with questions.

LETTERS TO THE EDITOR

Global standards for wind power

TO THE EDITOR:

The letter submitted by the Alternative Energy Committee proudly lumps the US wind power growth in with worldwide leaders such as Germany, Spain and others. The US has only recently achieved this status, whereas the European nations have many years of experience. It is on the basis of this experience that global standards have evolved requiring minimum setbacks of 1 kilometer of 1-1/2 miles from wind turbines to protect people from the negative health impacts of these giant structures. As the global leader in wind power, Germany requires 1-mile setbacks to protect against the ill-effects of noise, while wind-rich areas of California and Wisconsin have followed Europe's lead and implemented similar setback mandates of up to 2 miles.

Following these guidelines, several hundred homes and businesses in Cohasset would fall within the danger zone. Hundreds of residents, including dozens of children and elderly who are the most vulnerable to the negative health effects, would be at risk. In addition, both the Deer Hill and Osgood Elementary schools fall within the danger zone. The Planning Board, Board of Health and Selectmen should do everything in their power to require wind power developments to abide by the emerging global standards.

Bricks help maintain park

TO THE EDITOR:

This is an up date on the Beechwood Ball Park and the bricks that will help in maintaining the park.

The long awaited bricks are finally here. They are at Glenn Pratt's house waiting to be put in the ground at the park. They will be located at the granite stone under the score board. For those who are not familiar with the bricks, Michelle Loughlin sold bricks that could have a name or what ever else a person would like on the brick for $100 a brick. Any one interested in adding a brick should contact Michele.

The plan at this time is to get the bricks in the ground hopefully before winter and then have a dedication of the bricks and an opening day ceremony (any ideas are welcome for this) some time in early May of next year.

We are looking for volunteers to help on the Beechwood ballpark Committee. This would be to set up some type of maintains program of neighborhood people to help maintain the field above and beyond what the town does. This could include raking of the wood chips in the play area, weeding around the fence area, weed the flower beds and many other things that need to be done to help keep the field looking like new and for all to enjoy.

Anyone wishing to help can get in touch with Glenn Pratt or Merle Brown

Thank you very much. We are looking forward, with the neighborhood help, to keeping this park a gem of the town.

Merle Brown
Co-Chairman Beechwood Ball Park Committee

Farmers Market appreciates support

TO THE EDITOR:

The Cohasset Farmers' Market would like to thank the Cohasset Youth Baseball Association and the South Shore Music Circus for their willingness to let us use their facilities when the Water Department work at the common forced us to find an alternative location at the end of this season.

The Music Circus space ultimately was more conducive to our needs, and the staff could not have been more welcoming and helpful — right down to hanging a sign especially for us on their marquee! The overwhelming support that we received from the Music Circus from the very first time we approached them renewed our faith in our community.

Thanks also to Tom Gruber for his engineering genius and Carl Sestito of the DPW and Jim Lagrotteria for always answering our calls, no matter what the request! Finally, to all the vendors and patrons who continued to support the Market in spite of location changes, we look forward to seeing you on the common for another successful season in 2009!

Darcy Schramn
For the Cohasset Farmers Market

Absentee ballots available for Nov. 4 state election

Absentee ballots for the Nov. 4 state election are now available at the Town Clerk's office. Absentee voting may be done during normal office hours up until noon on Monday, Nov. 3, when the office will close to prepare for the election.

Voters who are in town on Election Day and are able to come to the polls should vote in person. Only the following voters may use an absentee voting ballot: those absent from town during the hours the polls are open; those with physical disabilities; and those whose religious beliefs prevent voting at the polls on Election Day.

Applications are available in the Town Clerk's office or a written, signed request can be sent by mail, or hand delivered by the voter or any other person. The application should include the legal voting address of the voter, where the ballot is to be mailed, and the signature of the applicant. Also, applications may be downloaded from the Secretary of State's Web site, www.sec.state.ma.us//, and mailed or hand delivered to the Town Clerk's office. The ballot will be mailed to the voter.

Returned ballots should be mailed or can be delivered by an immediate member of the family to the Town Clerk's office by Nov. 4, 2008, to be counted.

Residents happy with roadway paving

MAKING TRACKS

TOM GRUBER & MARK BRENNAN

The Little Harbor Project – Last week, we were finally able to complete the base coat paving on Caravel Cove after the paving machinery had broken down the previous week. Needless to say, the residents were happy to have their roadway put back into some semblance of order. Also, the base coat was applied to Little Harbor Road after we regraded the road a bit. Hopefully, the rainwater will be managed a little better than before the paving. When we do paving, if we are made aware, we will try to make grading adjustments to enable changes to be made to drainage. Unfortunately, sometimes we find that minor changes to the grade are not sufficient to appreciably improve the drainage. We do intend to monitor how the base paved road handles the rainwater. If adjustments are required, we can do so when the top coat is applied next year. Next week, we are looking forward to applying the base asphalt to Bow Street and possibly several other small roads.

Work on the Common – We sort of got ourselves into a confusing situation. We were approached by the Carriage House Nursery School, who as always, is concerned about the safety of their young charges as they arrive and are picked up both for the morning and the afternoon sessions. We share their concern, especially with the construction work on the Common in front of their school.

Working cooperatively with the school and LMH, the Water/Sewer Project contractor we decided that the safest way to handle construction directly in front of their building is to do it on second shift. We originally agreed to do it this week and so notified all of the residences on the Common. However, it turned out that LMH wasn't ready to do it this week, so it was moved out two weeks. But, that conflicted with the National Presidential Elections. So, we will work on the Common next week, for a period of one week, from 3:30 to 11:00 PM. We will notify all of the Common residents via reverse 911 about this change. We very much appreciate the cooperation and understanding of all of the residents on the Common.

Town Parking Lot one-way signs – This past week the Cohasset DPW was kind enough to reinstate the One Way signs and One Way arrows in the pavement that have been missing from the Town Parking Lot since the MBTA started work in the lot in spring of 2005. Without these markings the lot has turned into sort of a free-for-all. Cars have been going In and Out over either drive from of Depot Court at the Art Center. Please follow the signs and road markings. So remember, "One Way" in the Town Parking Lot!

COURTESY PHOTOS

New directional arrows in the aisles

The shy mystery sign.

New sidewalk construction.

New one-way entrance sign.

A very interesting sign — The Greenbush is approaching its first year of service anniversary on October 30th. Prior to the railroad operation the MBTA put a few directional signs around Town that direct people to the commuter rail station.

One such sign was installed at the corner of Depot Court and Main St. However, even with numerous calls to the MBTA they haven't gotten around to uncovering it yet. Or, perhaps we just have a shy sign.

A new sidewalk — As you may have noticed, a small sidewalk project is underway on Border Street. The plan is to construct a small piece of sidewalk to connect the Border St. Bridge sidewalk to the new harbor sidewalk constructed last year.

A small amount of ledge had to be removed and curb installed prior to sidewalk paving. Ultimately a crosswalk will added to enable pedestrians to cross the road safely. Now the sidewalk on the bridge finally goes somewhere.

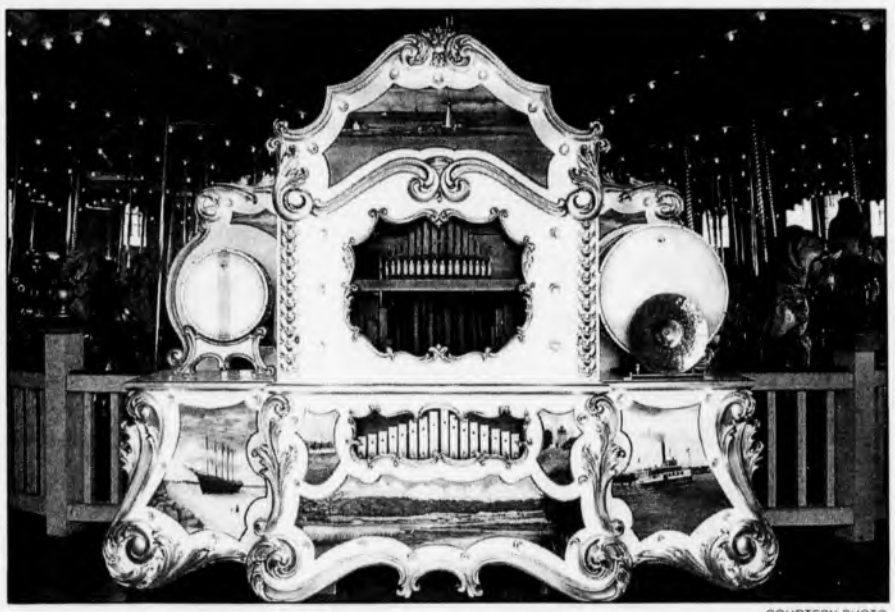
Paragon Carousel is in need of your help



COMMENTARY

CATHERINE MORGAN

The Paragon Carousel on the heart of Nantasket Beach in Hull has brought great fun and memories to thousands for over 80 years. The Carousel's history boasts 66 hand-carved horses, two Roman chariots, 1,074 lights, 35 oil paintings, 36 cherubs, 18 goddesses, and the most beautiful canopy ever created for a carousel in this country. To date one Chariot, over 10 horses and the motor house have been restored. A recently restored 1926 Wurlitzer Band Organ and facade have been recently unveiled.

The carousel is in need of your help. The Carousel was saved from being sold off piece by piece in 1995 by a Friends Group and with the help of the Town of Hull, Commonwealth of Massachusetts, and many many many generous donors was able to secure and keep the carousel in one piece. This left a huge mortgage that the Friends group has been paying off ever since. The Friends owe to date $373,073 in mortgages, this is down from close to $1 million. This is a big challenge. The carousel is open from Easter Sunday to Halloween — six months — leaving six months with no income other than membership and donations. So how can you help? First are you a member? If not please take out your checkbook and write a check. Memberships start at $25 to $100. Your membership is a tax-deductible donation and helps to pay off part of the debt. It also helps to continue the restoration of the horses, and gives you the right to vote at the annual membership meeting.

You can also volunteer. Send a letter of interest and come ready to work. We need people with all sorts of talents and time who are willing to donate it. We need an all sorts of skill sets: legal, marketing, financial planners, grant writers, accounting, office personnel, membership drive volunteers, Web designers, fundraising coordinators and planners, and people within the world of printing. We need volunteers willing to help with raking the lawn, pull weeds from between the bricks in the walkways, plant flowers around the signs, fill the flower boxes and water them. We need volunteers to pick up trash, sweep,wash the picket fence that surrounds the carousel, clean mirrors and wipe down the horses after a busy weekend of lots of kids and sticky fingers. We need people to flip pancakes and pour juice at the Summer Pancake Breakfasts Fundraiser. We need scrapers and painters willing to help get and keep the buildings painted. We need volunteers willing to give tours and help organize school tours.

COURTESY PHOTO

The recently restored 1926 Wurlitzer Band Organ at the Paragon Carousel.

The Friends of Carousel has always needed volunteers and now is asking for your help. Now is the time to pony up! Roll up our sleeves and pitch in.

I am requesting everyone who reads this to become a member of the Friends of the Paragon Carousel Inc. membership applications are available on line at www.ParagonCarousel.com or at the ticket counter at the Carousel.

The carousel opened this season 2008 with a deficit of $25,380 on gross revenue of $230,855 last year. The carousel and its building are valued at $1,103,285. Let's all get together make sure we as members of the South Shore communities are able to keep it in good order, painted and with a sound business operation, so we can all boast about it to all who come to visit the South Shore and Hull and take a ride on her.

The friends can be reached at: The Friends of the Paragon Carousel Inc. P.O. Box 100 Hull, MA 02045 /781-925-0472/ www.ParagonCarousel.com

Catherine Morgan is a member of the Friends of the Paragon Carousel.

SENIOR SCENE

Disaster Preparedness for Seniors Nov. 5

Cohasset Elder Affairs is sponsoring the following events. Call 781-383-9112 to register..

• Wednesday, Oct. 29, 11 a.m. to noon. "Funding Your Lifestyle and Medical Expenses When the Cost of Living is Going Through the Roof" will be presented by Frank Callahan from Right at Home and Pat Dougherty from Coastal Finance. A special luncheon will be served following the presentation. Call to register.

• Monday, Nov. 3, 7 to 8:30 p.m. A discussion titled "Presenting the Boston Italians" will be given by author Stephen Puleo. Come meet the author at this event, which will take place at St. Anthony Parish Center. Puleo will tell the story of the people who came to America from Sicily, Aveleno, Abruzzi and Calabria to live on the streets of the North End of Boston and why they came. Call to sign up.

• Wednesday Nov. 5, 11 a.m. to noon "Disaster Preparedness for Seniors" will be presented by Louise Arnold from the Massachusetts Emergency Management Agency and Jeff Dougan from the Massachusetts Commission on Disabilities. A gourmet luncheon following the presentation at the Cohasset Senior Center. Critical information that seniors need to know in case of a disaster. Call 781-383-9112 before Oct. 29 to register.

• Friday, Nov. 7, and Saturday, Nov. 8. Doors open at 7 p.m. Cabaret 2008, sponsored by Friends of Cohasset Elder Affairs, will take place at St. Anthony Parish Center. This evening of entertainment will feature singers, dancers and comedians. The evening will include a social hour, raffle table and cash bar serving beer, wine and soft drinks. Cost is $25.

• Saturday, Nov. 22, and Sunday, Nov. 23, will be "Make a Difference Days," which is sponsored by Deer Hill School PSO. Volunteers from Deer Hill School and their families will go to the homes of seniors to rake, put down storm windows and do other chores. Call the Senior Center before Nov. 14 to sign up.

• Tuesday, Nov. 25, noon. The Roy family and the staff at Atlantica Restaurant will host a Thanksgiving feast or Cohasset seniors. Each senior is asked to bring anon-perishable food or household items for Cohasset Food Pantry. Call the Senior Center before Nov. 20 to sign up.

Numbers are mind-numbing

HENSHAW

TOM HENSHAW

I don't know about you, but I'm having trouble wrapping what's left of my feeble brain around the mind-numbing figures that are being tossed around on the business, editorial, even the sports pages these days.

When I was young and ice covered most of the earth, a trillion meant the distance between two stars, not the national debt, which was at $11 trillion and climbing the last time I looked at the news out of Washington.

Think about it. That's $11,000,000,000,000. That's 11 thousand billion. That's 11 million million. That's more than $36,000 for each one of us. Enough to buy a BMW for everyone with enough left to fill the gas tank.

And they've just appropriated $700 billion more to fix the economy so they can spend even more!

It's not just numbers out of Washington that are stretching beyond my ken either.

Remember how upset we were when we learned that the expense of fighting World War II on two fronts half a world apart had run the national debt to $260 billion and conservatives groused that FDR was ruining the country?

It's not just numbers out of Washington that are stretching beyond my ken either.

I was reading the other day that the new Yankee Stadium in the Bronx is going to cost $1.4 billion by the time it is done next year and the Yanks — hold your breath now — will be charging $2,500 per game for the choicest seats.

Across the river in Jersey they're building with taxpayers money a new stadium for the football Giants and Jets where fans will pay a personal license fee of up to $25,000 per seat, and that doesn't include the price of game tickets.

I can remember sitting in the right field "jury box" at old Braves Field and cheering Tommy Holmes for 75 cents and getting a hot dog, coke and a score card for less than a buck.

Now, the Red Sox think nothing of paying $100 million just to talk to a Japanese pitcher and another $100 million to sign him to a multi-year contract. They have the second highest payroll in baseball and the most expensive ticket, averaging $48.80.

Team Marketing Report of Chicago has something called the Fan Cost Index (FCI) that shows it costs a family of four $320.71 cents to attend one Red Sox game.

That will get them two adult tickets, two child tickets, two draft beers, four soft drinks, four hot dogs, parking for their car, two game programs and two adult-size adjustable caps. But not the interest on the bank loan it cost them.

But that's nothing compared to the luxury suites high above the stands at Fenway Park.

The Sox have 49 of them, each with 16 seats, that can be leased for $216,000 to $220,000 for three years, including tickets, with an option to purchase up to four more tickets at $165 per ticket per game.

In fact, the only thing cheap about Our Olde Towne Team is the ballpark itself. Fenway Park cost $420,000 to build — in 1912.

Party politics on Our Town

"Our Town" co-hosts Pat Martin and Mark DeGiacomo sit down with Kevin O'Donnell, chairman of the Cohasset Republican Town Committee, and Kevin MacCarthy, chairman of the Cohasset Democratic Town Committee, to debate from each party's perspective the issues, platforms and candidates in the presidential election.

Our Town airs on local Comcast Channel 10 on Monday, Tuesday and Thursday evenings starting at 9pm.

Stay tuned and stay informed.

Community leaders converse on how to help in bad economy

FROM CARES, PAGE 1

The idea formed the central part of last week's discussion: how to best communicate and coordinate to individuals and families where they can turn to for help. The group stressed that financial troubles can be coupled with emotional and spiritual concerns.

"If I was someone who was living alone in real trouble emotionally, out jobless and living in Cohasset, I wouldn't know where to go," said Barbara Cook, a member of St. Stephen's parish and a volunteer at the Cohasset Food Pantry. Because of her association with a church, she said she would likely turn to the clergy for help, but if someone was without that connection he/she might not know where to turn.

Churches, town offices (Town Hall, library, police and fire stations), local newspapers, coffee shops could be sources of information about local organizations. But, part of the group's role is to raise awareness about what help is available locally and reduce the stigma associated with seeking help whether it be financially or emotionally.

"So much depends on the large community," said Critchfield to ensure members of the community are doing okay and getting the assistance (whatever that may be) they need.

Rev. Jan Carlsson-Bull of First Parish Church said there were many factors that might preclude someone in trouble from seeking out help. Pride can come into play, especially in a community of privilege and wealth, like Cohasset. This could be especially true for those individuals and families who have been used to supporting themselves. Accessibility is also a factor; while Wellspring (located in Hull) offers a wide array of support programs, it is hard to get to without a car, she said. Finally, there is a desperation factor where a parent in trouble might not go seek help if they are hungry, but if their kids are hungry.

"We need to create visible doors that people can go through," said Carlsson-Bull. Bridging the gap that exists between who might know of individuals or families struggling — friends, neighbors, school nurses, food pantries, veterinarians — and the help they need is one of the key goals of Cohasset C.A.R.E.S.

"We need to plan a system where everybody is respected. It's not about charity, it is about compassionate justice," said Carlsson-Bull.

In the coming weeks, the group will be putting together a comprehensive guide to service providers, including social service agencies as well as faith communities and other spiritual, physical, and emotional health resources.

Bringing together those who can help others and those who are in need is also one of their objectives. The group wrestled with finding a way to compassionately provide care without making the process seem like charity.

A significant need as the cold winter looms ahead is growing fuel assistance funding. They might ask those who are still well-off to match their fuel bill, or open up a couple of rooms in their home for transitional housing for a Cohasset family. It could also be providing a discreet location (where the person would not be seen by a co-worker, acquaintance) where residents could talk to a counselor.

The group brainstormed about having a meeting, or a series of workshops, to discuss the financial issues and how each person could help.

"Each person could put on a plate something they could offer: expertise, time, skill, money," said Carlsson-Bull.

Cohasset C.A.R.E.S. will continue to meet on a weekly basis, if you'd like to get involved contact Rev. Margot Critchfield at 781-383-1083.

Unique to faith communities

Many of the people in attendance were members of faith communities, so part of the discussion revolved around how churches and temples can uniquely help those who are struggling.

An interfaith service of healing, pastoral care and counseling, Bible study groups were just a few of the efforts mentioned. One of the things places of faith have readily available is space for meetings, lectures and counseling.

Colette Wood, assistant rector at St. Stephen's, said a faith community can provide a sense of connectedness to those who may feel disconnected. The reasons could be varied: they could live alone, lost a job or kids have moved away.

"As a faith community we have something to offer no one else does, we can offer hope," said Critchfield.

Town will get 67 percent CPA match

FROM CPA, PAGE 1

statewide (e.g. mortgages, deeds, homesteads, etc.).

This year, the number of communities receiving matching funds reached 127. Due to the popularity of the program, the distribution for this year uses a formula so town's across the state who have adopted the Community Preservation Act, are slated to receive anywhere between a 67 percent match to a 100 percent match. The percentage match varied by community, with the statewide average being a 73.73 percent match to the local surcharge revenue. In total, $54.6 million were distributed across the 127 communities.

Cohasset collected $332,381 in local surcharge tax last year and the state will match that with $224,757.

Next year, under current legislation there is the possibility of lowering the state match to 35 percent, Ivimey said. But, there is legislation pending that would revise how the state assesses surcharges at the registry of deed in order to guarantee a 75 percent match for all CPA towns.

Special Town Meeting CPC applications

The Community Preservation Committee received four applications for CPA funding for this Town Meeting cycle. They met this past Tuesday to deliberate the projects in order to give their recommendation to Special Town Meeting (Nov. 17). Town Meeting has the ultimate power to spend CPC funding.

The first application is $30,000 to install a septic system for the Beechwood ballfield submitted by Glenn Pratt. The CPC is recommending a dollar for dollar match of any funds raised by the applicant, up to $15,000.

The second application requests $15,000 for engineering to overhaul the pond on Cohasset Common was recommended in full by the CPC.

The third application is for town-wide open space and recreation plan, which is needed to apply for a wide variety of federal and state grants. The last open space plan was drafted in 2002 and expired in 2006; the estimated cost for the plan is $25,000. The CPC recommended funding this project in full ($25,000).

The final application was to fund a $25,000 engineering study to look at the operation, maintenance and tide gate schedule of Cat Dam and inner Little Harbor required by the Conservation Commission. The CPC will not be recommending the funding of this study at Town Meeting.

Selectmen remove Treat's Pond articles from warrant

FROM POND, PAGE 1

on the money part of the project — the money will very likely get re-allocated (if the town does not give an answer soon)," said Carr.

Selectman Fred Koed agreed that the Treat's Pond flooding solutions were not ready for the primetime. "Right now, I don't think we have all the answers on the big picture."

Vice Chairman Paul Carlson said it didn't make sense to bring the Army Corps project proposal to Town Meeting without also bringing forth the other two flood mitigation proposals — extending the Sandy Cove outlet pipe and creating an overflow pipe on Atlantic Ave. that goes to the harbor.

"To determine the best solution, we need to keep the options open. My inclination is to take all three off warrant," said Carlson.

Not all the Selectmen were of the same mind; Karen Quigley wanted to see the Army Corps project go forward to a Town Meeting vote.

"In all honesty, I think we owe the Army Corps an answer," said Quigley. "This article should come up for a vote and be resolved one way or another...It would simplify everyone's life if we know how the town feels."

Quigley didn't see why this stormwater issue was being singled out for more attention than the other town stormwater problem areas. "I think (all flooding/stormwater issues) should be looked at as part of an overall package," said Quigley, but she still maintained the Army Corps project should be addressed because it was not flood related, rather it was a saltmarsh restoration.

Carr, Carlson and Koed outvoted Quigley to remove the Army Corp saltmarsh restoration article from the Special Town Meeting warrant. Whether or not the federal funds will stick around for another Town Meeting cycle remains to be seen.

With Treat's Pond, the town has been wrestling primarily with two distinct, but interrelated issues. First, there has been an issue of access to the Treat's Pond drainage pipe outfall on Sandy Cove in order to keep it clear during rainy weather. Carr reported the town has reached a verbal agreement with a group of residents off an Atlantic Avenue private driveway, often called the Bigelow driveway, to access Sandy Cove and the Treat's Pond drainage outlet.

Second, the Treat's Pond/Atlantic Avenue flooding has severe impacts on neighboring homes during rain events. There have been myriad solutions suggested and lobbied for. On the Special Town Meeting draft warrant, there were three options on the table: the Army Corps of Engineers saltmarsh restoration project (the primary purpose of this project is saltmarsh restoration, not flood mitigation), an overflow pipe to the harbor, and an extension of the current Sandy Cove pipe.

At Annual Town Meeting in March, voters agreed to a resolution to further study the issues and Army Corps proposal for the Treat's Pond flooding problems, little has been done since Annual Town Meeting to ensure the public was educated on the proposals.

The Selectmen have discussed Treat's Pond several times in recent months, mostly relating to the Sandy Cove access/easement issue. Sept. 29 was the first time the Army Corps project was discussed in detail before the Selectmen since Annual Town Meeting.

Proposed articles

None of these articles will appear on the Special Town Meeting warrant.

• Access to Sandy Cove via Lothrop Lane

The Board of Selectmen removed this land taking article at the Oct. 14 meeting of the Board. The Selectmen have has numerous discussions with the residents of Lothrop Lane who have expressed a desire to cease using their private street as a means to access Sandy Beach except in emergency circumstances.

• Access to Sandy Cove via Atlantic Avenue ("Bigelow driveway")

Citing a verbal agreement with the Bigelow driveway landowners, the Selectmen removed this land taking/eminent domain article Monday night. The verbal agreement to an easement would allow the town to go over the residents' property to access the Treat's Pond drainage pipe outfall on Sandy Cove. Because the original Bigelow deeded easement is now covered with vegetation, the new easement would follow a more worn path. The property owners also called for the removal of the article because of its "threatening eminent domain language" at the meeting.

• Treat's Pond restoration project funding

In a 3-1 vote (Selectmen Karen Quigley voted against), this article concerning the Army Corps of Engineers project was removed from warrant. One of the primary reasons for not bringing forth the article is the more public was not yet fully informed on all the issues.

• Treat's Pond/Atlantic Ave. overflow pipe project funding

This solution, proposed by the town's flood control master plan engineer, Coughlin Engineering Services, was tabled as well. The article was removed in a 4-0.

• Sandy Cove outfall pipe extension project funding

The lack of scientific data to support a pipe extension's positive effect on Treat's Pond flooding and Sandy Cove resident opposition led the Selectmen to remove this article from the warrant in a 4-0 vote.

More study needed

At the meeting several residents said in order for the town to make an informed decision, more study is needed to ensure an implemented plan would curb flooding.

With the exception of the a request to the Army Corps and the nearly complete flood control master plan (which does not include an analysis of the Army Corps project proposal) the town does not have any other study (or the funding authorization) in the works.

The town has written to the Army Corps to see if they had information or would be willing to study the environments effect an influx of freshwater to the inner harbor from Treat's Pond would have.

The Flood Control Master Plan, authorized and funded last November at the 2007 Special Town Meeting, is the only flood-specific engineering study the town has authorized. Two workshops were held over the summer on the master plan, with one night devoted to Treat's Pond/Atlantic Avenue. However, the flood control master plan's scope did not specifically look at the Army Corps of Engineer's project.

Mindy Evans of Sohier Street saw it differently.

"To continue to study this thing is a total waste of time and money," said Mindy Evans, adding it didn't matter if the town pays for the study or the federal government it was still taxpayer money.

A fresh look at history

Cohasset history guidebook debuts next month

By Nancy White
NWHITE@CNC.COM

Each tour comes with two maps: one helps visitors find the area, such as Government Island, and the other points out specific sites within that area.

Imagine this scenario: you have friends flying in to stay with you a week during the summer. You want to show them around Cohasset and point out the many interesting stories, tidbits of history and sites of interest. The thing is when you get to Government Island; you realize you don't have anything much interesting to say.

This Christmas, visiting guests could get the complete tour of interesting points in Cohasset with the help of the latest release from the Committee on Town History.

Jacqueline Dormitzer has penned her fourth book on Cohasset history, "Exploring Historic Cohasset — Ten Tours and Concise History." Like the name implies, the guidebook points out areas of interest or historical significance throughout Cohasset.

"The guidebook is completely pictorial and has minimum text," said Jim Hamilton, a member of the Committee on Town History. Approximately 100 pages, it is printed four-color process throughout and mechanically bound so that the book can like flat when opened to make it easier to use a reference while touring the sights.

Dormitzer said the idea for the book came to her after showing visitors around Cohasset. Even as the author of three Cohasset history books, she found herself skipping over many places of interest because she had no plan and had little to say.

"Exploring Historic Cohasset is designed to remedy this situation," said Dormitzer. Six of the 10 tours can begin from the Common and be walked. Each tour comes with two maps: one helps visitors find the area, such as Government Island, and the other points out specific sites within that area. The exception is Central Cemetery is more easily navigated with verbal directions and therefore has no site map. Two tours, Jerusalem Road and Beechwood/Wompatuck, go beyond most people's walking endurance — a car or bicycle. The final two tours are hiking trails in Whitney Woods and Wheelwright Park. All the tours have been field-tested.

One of Dormitzer's favorite tours is through Central Cemetery where the walk takes the visitor to the old slate tombstones some that date back to the 1700s. A concise, brief history of Cohasset is included with the book as well.

"I expect people to enjoy this book and find it useful," said Dormitzer.

Kimberlee Alemian has designed the book and all photographs were contributed by Ralph Dormitzer, Richard Alemian and Margot Cheel.

To put icing on the cake, the publication will not cost the town any money. Funding is provided by the Committee on Town History's book account from sales of the Town's five history books in print — three volumes of the Narrative History of Cohasset and two anthologies. Jackie wrote three of these books, the Narrative History of Cohasset, Volume III 1950-2000; Treasury of Cohasset History and Savor of Salt.

Upon publication in November, Exploring Historic Cohasset, as well as all the Town's current history books, will be available for sale at the Town Clerk's Office in Town Hall, the Cohasset Historical Society and Buttonwood Books. The price will be around $15.

Art Center recognizes volunteers at annual meeting

South Shore Art Center held its annual meeting of the corporation on Wednesday, Oct. 22, in the Art Center's Bancroft Gallery. Newly elected officers are Jennifer Willms of Cohasset, president; Elise Russo of Scituate and Belmont, president-elect; Douglas Smith of Scituate, treasurer; and William Wenzel of Norwell, secretary.

In addition to the slate of candidates, Art Center Executive Director Sarah Hannan announced the Volunteer of the Year Awards, which were presented to Pat Cammet of Norwell, Robert Montminy of Duxbury and Jeanne Wiley of Hingham. Pat and Robert are both instrumental in hanging the Art Center's gallery exhibitions and Jeanne is a talented ceramicist who is responsible for oversight of the Clay Studio including all kiln firings.

The annual Shirley Neer Award is given to an "outstanding children's art instructor," and was presented to Charissa Roberts of Cohasset. Charissa has taught both adults and children at the Art Center for the past few years and currently teaches a middle school art studio class.

South Shore Art Center has gallery exhibitions and offers four terms of classes for adults and children. For additional information, visit www.ssac.org.

HEALTH NOTES

Watch for signs of dehydration

By Steve Bobo
SPECIAL TO THE MARINER

Illness, diabetes, excessive use of laxatives or diuretics can also cause dehydration. Even sore throat or loss of appetite can cause a fluids imbalance.

Dehydration is a threat even in cooler weather and at times when one doesn't expect it. The conventional wisdom is that dehydration is apt to occur during strenuous exercise or during warm weather through perspiration. Such is generally the case, but the body needs constant replacement of liquids. When one's body has insufficient water and fluids it becomes dehydrated naturally through perspiration, or insufficient water and liquids intake. Frequently, however, dehydration occurs through inattention, or when preoccupied with other maladies, through vomiting and diarrhea. Infants and children are more susceptible to dehydration than adults because of their smaller body weights and higher turnover of water and electrolytes. The elderly are also at higher risk. Illness, diabetes, excessive use of laxatives or diuretics can also cause dehydration. Even sore throat or loss of appetite can cause a fluids imbalance.

Symptoms include dry or sticky mouth, low or no urine output; concentrated urine (appears dark yellow), inability to produce tears, sunken eyes and in infants, markedly sunken *fontanelles* (the soft spot on the top of the head). A person who seems lethargic or comatose may be exhibiting severe dehydration and often symptoms of depression. A physical examination may reveal signs of: low blood pressure, rapid heart rate or blood pressure that drops when changing from lying down to standing. Poor skin turgor — the skin may lack its normal elasticity and sag back into position slowly when pinched up into a fold; normally, skin springs right back into position.

Treatment — Drinking fluids is usually sufficient for mild dehydration. Drink frequent, small amounts of fluid (using a teaspoon or syringe for an infant or child) rather than trying to force large amounts of fluid at one time. Electrolyte solutions, available at pharmacies, or freezer pops are especially effective. Sport drinks contain too much sugar and can cause or worsen diarrhea. In infants and children, avoid using water as the primary replacement fluid as it can also induce vomiting. Intravenous fluids and hospitalization may be necessary for moderate to severe dehydration. A doctor will try to identify and then treat the cause of the dehydration.

Outlook — When dehydration is recognized and treated promptly, the outcome is generally good. Stomach viruses (also called *viral gastroenteritis*) frequently accompanied by dehydration, tend to resolve on their own after a few days. On the other hand, untreated severe dehydration may result in seizures, permanent brain damage, or death.

When to Contact a Medical Professional — Call your doctor right away if you or your child has any of the following symptoms: Not producing tears, sunken eyes, little or no urine output for 8 hours, dry skin that sags back into position slowly when pinched up into a fold, dry mouth or dry eyes, sunken soft-spot on the top of your infant's head, fast-beating heart, blood in the stool or vomit, diarrhea or vomiting (in infants less than 2 months old), listlessness and inactivity.

Prevention — Even when healthy, drink plenty of fluid every day. Drink more when the weather is hot or you are exercising. Carefully monitor someone who is ill, especially an infant, child, or older adult. If you believe that dehydration is developing, consult a doctor before the person becomes even moderately or severely dehydrated. Begin fluid replacement as soon as vomiting and diarrhea start — DO NOT wait for signs of dehydration.

Always encourage the person to drink during an illness, and remember that a person's fluid needs are greater when that person has fever, vomiting, or diarrhea. The easiest signs to monitor are urine output (there should be frequent wet diapers or trips to the bathroom), saliva in the mouth, and tears when crying.

Steve Bobo is a long-time member of the Cohasset Board of Health.

Chamber networking event is Nov. 13

The Cohasset Chamber of Commerce is sponsoring a Fall Networking Event, to be held on Thursday, Nov. 13, from 5:30-7:30 p.m. at 15 Depot Court, the newest building in the Village. Sean Cunning of S, G, & D Insurance, the building owner, will be the host and provide the grand tour. Light refreshments will be served. All Chamber members and potential members are welcomed. Come meet some new folks and support your fellow business associates. Any questions, call Karen Kirkendall at 781-789-6288.

Delahunt office hours announced

Members of U.S. Rep. Bill Delahunt's staff will resume the ongoing schedule of office hour visits to local town halls. Congressional staffers will be on hand to field any questions of individual or community concern.

Local office hours are designed to make it as easy as possible for residents of the 10th Congressional District to seek assistance from Delahunt, and to get acquainted with services offered through his office, including help navigating the maze of federal bureaucracy. Future office hours are scheduled for Plymouth and Weymouth on Wednesday Oct. 29.

Anyone who is interested but unable to attend may call Delahunt's office toll-free at 800-794-9911 or visit his Quincy office at 1250 Hancock St., Suite 802N. For those with Internet access, more information is available on Delahunt's congressional Web site at house.gov/delahunt.

Delahunt's staff hosts office in hours in Abington, Carver, Cohasset, Duxbury, Hanover, Hanson, Hingham, Hull, Kingston, Marshfield, Norwell, Pembroke, Plymouth, Plympton, Rockland, Scituate, and Weymouth.

Open house at Brown Bear

Brown Bear Children's Center located at 152 King St. is holding an Open House on Saturday, Nov.15 from 10 am to 2 pm. Brown Bear is a brand new center, having just opened in September, offering infant through pre-kindergarten programs. The location has been completely renovated and Brown Bear is now enrolling in its preschool and pre-kindergarten programs.

Playing out the string

Boys soccer won't head to post-season

By Mike Spellman
MSPELLMAN@CNC.COM

The Cohasset High boys soccer team saw its last gasp hope at a playoff spot snuffed out Tuesday with a 1-1 tie to Nantucket.

"That kind of typified our season," observed Skippers second-year head coach Jim Willis. "Like so many other games this year, we were just one narrowly missed play away from a much different outcome."

Visiting Nantucket got a goal from Emerson Guzman at the 20-minute mark, but the Skippers carried the balance of play from that point forward in a desperate all-out attempt to keep their slim post-season hopes alive.

"Once again, I was proud of the effort," said Willis. "Our guys played hard to the end. I just feel bad for them because we came so close to scoring the game-winner a few times."

Senior August Odbliefson netted the equalizer for the hosts early in the second half, off a pretty feed from fast-emerging sophomore midfielder Anders Goetz.

Odbliefson has missed several games this season due to illness and injury, but appears on his way to finishing the season strong. Even with the missed time, he is second to only Goetz in the team-scoring race.

"It was nice to see August finish on his chance," said Willis. "He's a player who's made a difference quite a few times when we've been able to get him out there."

With the score tied, three Skippers failed to convert on clean looks inside 10 yards, two shots going right at Nantucket

Cohasset's Mike Monaco battles for the ball with Abington's Greg McDonnell at a game earlier this season.

Eye on the prize

Cohasset girls focus on post-season possibilities

By Mike Spellman
MSPELLMAN@CNC.COM

The focus now has shifted entirely to the post-season.

With last Wednesday's second 2-1 loss of the season for the Cohasset High girls soccer team to South Shore League rival East Bridgewater, any shot at a league title is now completely gone.

Coach Deb Beal's overriding goal now turns to keeping her girls healthy, and getting them back to playing to their collective team capabilities.

Four of the Lady Skippers' final five games are scheduled to be played at home, which Beal said should help her girls focus and end strong, hopefully securing a top five slot for the Div. 3 south sectionals and at least a few more games at Alumni Field.

The loss to East Bridgewater (8-3-1) raised a few red flags that remained top of Beal's mind even after Friday's 5-0 victory over struggling Carver.

"We were a little timid to start the game, and the EB girls took advantage of that," said Beal, who's team checked into this week with a record of 11-3. "They were running through balls hard, and we were back on our heels a little. We eventually got back into our game but at that point it was too late. If that had been a tourney game, our season would be over right now. We have to come out ready to play hard from beginning to end.

"Hopefully, that game served as a wakeup call to a few players," added Beals. "We've got a lot of talented girls, but we're not so talented that we can take anything for granted."

Sarah Coggins' third goal of the year came after the Lady Skippers were down 2-0, and proved too little too late.

Lady Skippers 5, Carver 0

Captain Maggie McGoldrick led the charge two days later on the road, scoring the game's first two goals and setting up the third.

STAFF PHOTO/CHRIS BERNSTEIN

Cohasset's Sabrina Gardiner is in hot pursuit of the ball as she tries to outmaneuver three Abington players during a game earlier this season.

"I am amazed how quickly the regular season cruises by. I am looking forward to experiencing all the highs and lows with this group."

— Girls soccer coach Deb Beal

Sarah Coggins netted her fourth of the year before the break, and Kristin Monaco closed out the scoring with the lone goal of the second half.

***

Practices earlier this week focused on getting back to the basics.

"We have really been working hard to play a calmer and more efficient style of soccer," said Beal. "We play so much better when we drop the weight off our shoulders and rely on one another like we should."

This is a push that has been rekindled by the seniors in general, and tri-captains Coggins, McGoldrick and Torey Hart in particular.

"I am very impressed with the unity our seniors have been able to maintain throughout the season including everyone in all activities," said Beal. "I could not have asked for a better senior class. Our three captains are doing an outstanding job. They have been a pleasure to work with. I expect that their leadership will kick up to the next level as the post-season approaches."

Beal has made a few tactical adjustments over the last week, eliminating the stopper position to create an extra midfielder and go with a greater focus on the offensive half. The veteran coach said she believes this will lead to better distribution of the ball and more scoring opportunities. Of course, anything that puts more balls at the feet of fast and talented forwards Torey Hart, Kaci Kucinski and Caroline Fein is a very good thing, in Beal's mind.

"As they gain more confidence I believe they will be a threesome to fear come tournament time," said Beal. "How can you defend that speed? Shut down two and the third one will burn you. Our midfielders have a little more room now and they have been creating time and space which has improved our possession game all over the field."

Midfielders Coggins and McGoldrick have also found themselves with a little more room in the new alignment. In the last four games, these two central midfielders have combined to tally seven goals and six assists.

"Maggie and Sarah are an integral part of their team's success because of their leadership on and off the field," said Beal. "These two are experienced year-round players who provide their team with support and confidence."

The switch up has created a few anxious moments on defense, but Beal is seeing progress on that front too, with sisters Sammi and Tori Lehr stepping up to anchor the backfield. "Defensively, we are still making some adjustments striving to find the perfect blend of speed and skill to enhance our chances of survival throughout the tournament," said Beal. "I have the

More close calls for Cohasset Field Hockey

Scoreboard does not reflect level of play

By Susan Franklin
SPECIAL TO THE MARINER

Statistically the Cohasset varsity field hockey team won both of their two most recent games but the scoreboard showed otherwise. Facing Carver at home without defensive standout Lucy Noble (who was out with an injured left hand) the Cohasset squad dominated play, outshooting Carver 11 to four and earning seven offensive corners to their four. Fourteen minutes into the contest Carver got their first shot on goal but it was denied by Alyssa Mullin. Cohasset's defense led by Marissa Tangherlini, Jean Thome and Kate Durant turned Carver away from the Cohasset zone time and time again.

The offensive squad led by Lessen Haracz, Hillary Gaumer, Jenny Cahill, Kelsy Erler and Isabelle Franklin generated a number of exciting attacks on the Carver goal. In the last 10 minutes of play in the first half Cohasset got three solid attempts on goal including a lead pass by Haracz to Gaumer who made an inside pass to Cahill for a shot that was turned away by the Carver goalie. Later Franklin and Gaumer teamed up with Haracz for an attack on goal that generated a corner and a shot on goal by Franklin. At the half the score stood 0-0.

Cohasset came out quickly in the second half with Jean Thome sending a long ball to Franklin who flipped it to Erler. Erler's shot on goal was deflected and Erica Reardon got the rebound but her shooting attempted was foiled by a foot fault. Carver turned it around and got into the Cohasset circle where their shot

More close calls for Cohasset Field Hockey

FROM HOCKEY, PAGE 15

on goal was silenced by Mullin. Cleared to the side, Carver took it back into the Cohasset circle where Tangherlini blocked Carver's shot, but the rebound was sent back hard at the goal and Carver took a lead 0-1.

Cohasset answered with a line drive shot by Erler that went wide. Seconds later a shot by Cahill off a Cohasset corner fell short. Earning another corner, Franklin got off a strong shot but it was direct at the Carver goalie's kneepads. Sent upfield the ball was stolen by Erler who charged downfield surrounded by Carver sticks but could not get off a solid shot. With five minutes remaining in the game, Cohasset was determined to score. Gaumer found Franklin but her shot on goal was denied. Cahill attempted to resend the ball but was stopped by a barrage of Carver sticks. Haracz's stick stopped a hard hit ball at midfield and streaked toward the goal but her momentum pushed her past the ball. Franklin got off another shot and Cahill owned the follow up but both were stopped by the Carver goalie. The effort by the entire team was commendable but regardless of statistics, the score stood 0-1.

Hull 1, Skippers, 0

The squad traveled to Hull on Monday. From the starting whistle Cohasset dominated the play. Cohasset played a great game, making 10 shots on goal to only four made by Hull. The game was fast paced and there was not a blade of grass on the field that was not touched by the ball, a stick or a cleat. Skippers like Lesen Haracz played so hard that Hull fans were warning their team to watch number 21.

Cohasset came out quickly in the second half with Jean Thome sending a long ball to Franklin who flipped it to Erler.

Cohasset captain Jenny Cahill took the first shot of the contest but it went wide. Ten minutes into the game, Lucy Noble broke up a Hull corner, but the loose ball shot through a sea of bodies in the circle got past Mullin and Hull took the lead 1-0. A minute later Noble drilled a sideline pass through the Hull defenders into the circle, but it came in too hot for Cohasset's shooters to handle.

Cohasset came out strong in the second half intent on scoring. On a well executed full field attack, Noble cleared the ball to Haracz, who passed to Franklin, who found Cahill but her shot went wide of the net. Cohasset dominated ball control, but one popped out of the Hull zone and a player broke away from the Cohasset defense and made a solo streak downfield at Mullin who mastered a critical kick save. Seconds later Cohasset's Franklin made a solo breakaway, passing ahead of the Hull defenders and chasing her passes down. She found Cahill in the circle who got off a shot that was saved by Hull. The follow up shot by Franklin was forced wide and the ball went out of bounds.

Minutes later Cohasset made another run on the goal. Off a corner pass, Franklin sent the ball on a trip straight across the Hull goal line but Cohasset was not able to get a stick on it and Hull took it up field. The defense continued to quell Hull's bursts that gave the offense more opportunities to work. Tangherlini, Thome and Noble staved off the Hull offense at midfield while Durant shut down anything that got over the midfield line. Gaumer made a number of great offense plays, using her speed and stick skills to bring the ball around Hull defenders into the corner for an angle on goal. She found Cahill who got off a quick shot that was saved by Hull.

With less than 10 minutes remaining in the half, the offensive line, including Kelsy Erler and Hannah Burgess, continued to attack the Hull goal. Noble found Burgess who passed to Gaumer inside but her shot was deflected 12 feet into the air over the head of Cahill. When the ball landed Cahill sent it towards the goal but it went wide. A Hull attack made it to the front of the Cohasset goal, but Erler spoiled the party. Stolen back by Hull, their shot on goal was scooped up by Haracz who sent it wide up the sideline. Hull brought it back but Erler stole it and broke up the sideline on a full field burst accompanied by Gaumer, but a foot fault on her lead pass gave it back to Hull. In the final minute Gaumer converted to Franklin who hit Cahill in the circle but her shot was saved by the Hull goalie.

The game ended with Cohasset on the short end of the 1-0 score, but the team proudly left the field. Cohasset played a clean but tough game in which they manufactured many well-executed attacks on goal. Their defense was again a force to be reckoned with allowing Hull only four shots on goal the entire game. The Skippers round out their season with a game at Scituate followed by a home stand against East Bridgewater and Hingham.

Shane Haggerty from Cohasset sidesteps an opponent and goes in for a score.

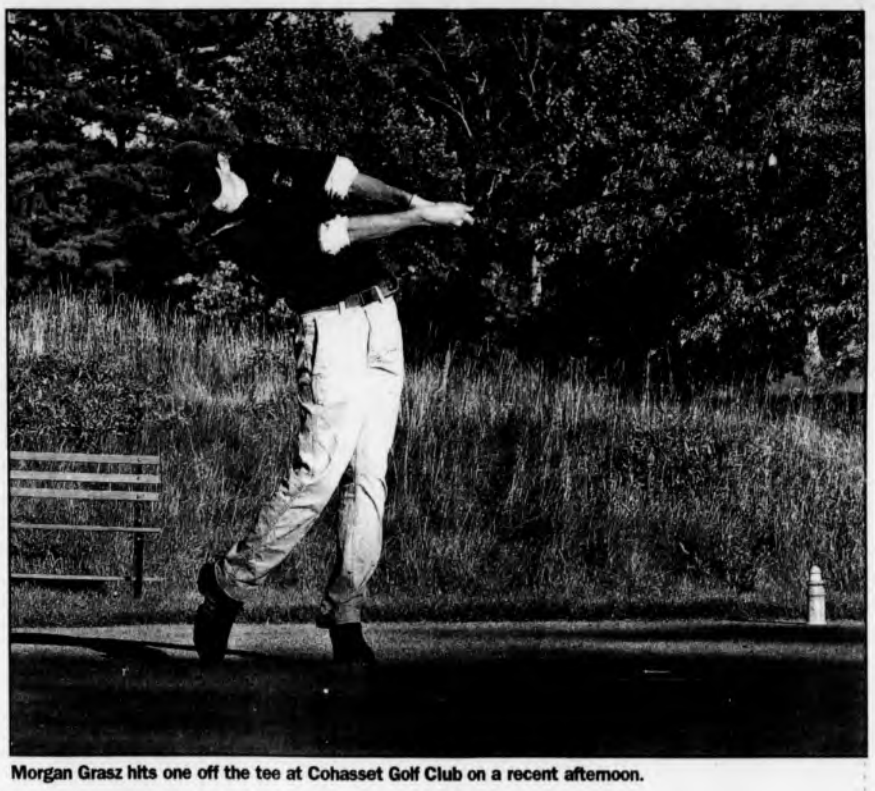
Sharks regain winning formula

Scituate-Cohasset's eighth-grade Sharks wasted little time regaining their winning formula against non-league opponent Taunton on Saturday night under the lights in Taunton.

Michael Stewart returned the opening kick-off 65 yards to give the Sharks an early 6-0 lead. **Shane Haggerty** hit a wide-open **Conor Dooley** for the two-point conversion and the Sharks led 8-0 before the fans could reach their seats.

Determined to put last week's loss behind them, the defense did not allow Taunton's offense to convert a first down turning the ball back over to the offense.

Haggerty handed off to **Shea McCarthy**, **Joe Daileader, Stewart, Jordan Kelley, Drew Nahill** and **Patrick Thowig** play after play until Haggerty found an open **Dooley** in the end zone for six more. **Joe Daileader** hauled in the two-point conversion and the score was 16-0 with only four minutes off the clock.

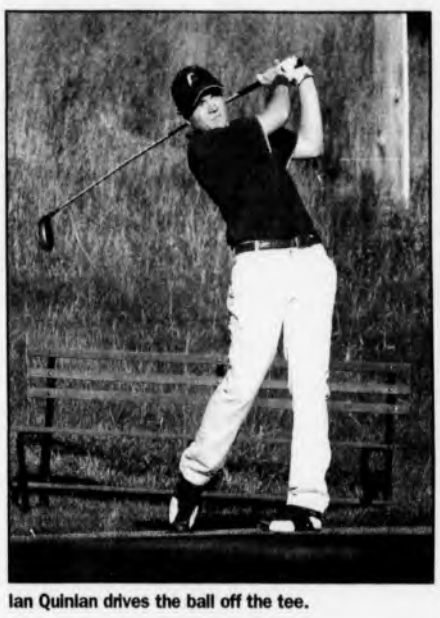


...the defense did not allow Taunton's offense to convert a first down turning the ball back over to the offense.

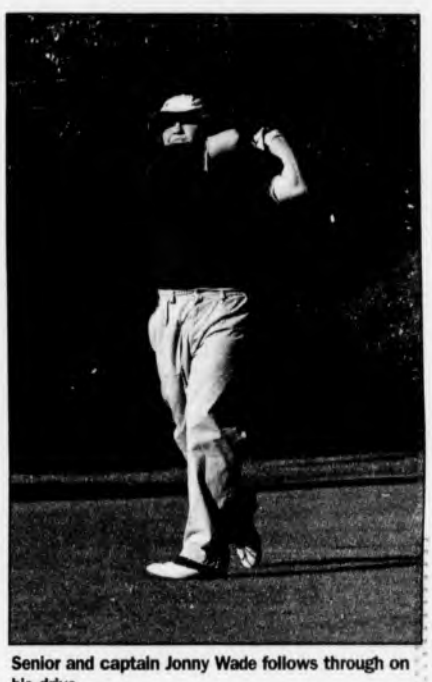
The Sharks substituted freely from here on out allowing all 31 players to see action in the first half. **Jack White** piloted the second offense behind a line of **A.J. Rosenquist, Jake Brady, Mark and Andrew DelGrosso**. **Tommy Ryan, Mike Rosen** and **Matt Gregory**. Runningbacks **Greg Hurley, Grady Comeau, Dante Saccheitella, Nahill** and **Thowig** took turns taking handoffs from White.

Defensively **Tyler Serra, Danny Buckley, Craig Davis, Sean Shea** and **John Foster** led the first unit. **Davis** also broke through Taunton's punt formation, blocking a punt for the Sharks. **David Mavilia, Garrett "Gunther" Byrne, Gideon Bernstein, Ryan Gillis, Paul Hannigan** and **"Shoo" Nick Shooshan** led the second defense. The Sharks' secondary shut down the high-powered passing game of Taunton. **Matt McCrae, White, Stewart** and **Haggerty** never allowed the receivers to get behind them and the front seven continuously pressured the Taunton quarterbacks.

The second half game plan consisted of running the ball (with **Comeau** nearly breaking one for 52 yards), keeping the clock running and getting home in time for the Red Sox. The Sharks managed to carry out their plan and ran their record to 6-1 with the 16-0 victory.

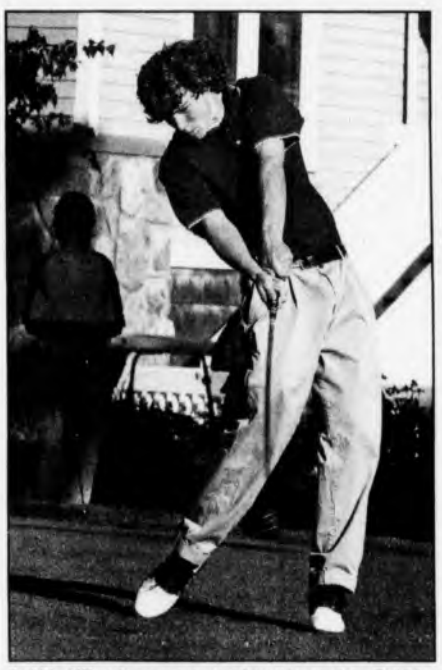


The Sharks wrap up their regular season at Hingham High School Sunday, Oct. 26. Game time is 12:30 p.m.

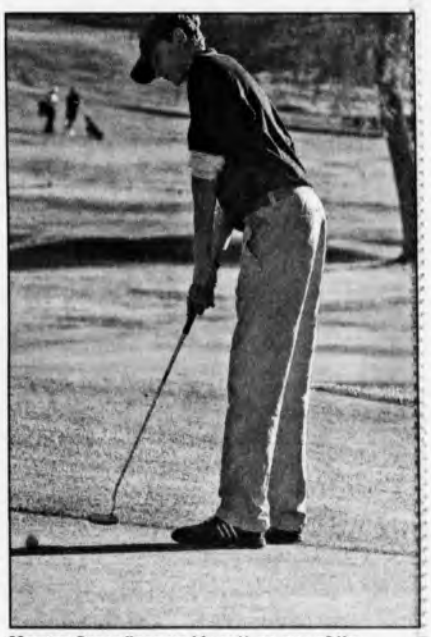


Morgan Grasz hits one off the tee at Cohasset Golf Club on a recent afternoon.

Golfers wrap-up season



The golf team finished 6-6 (6-8 overall) in the South Shore league. The Skippers lost 2 non-league matches and did not qualify the team for the states for the first time in 5 years. Yet each team is allowed to bring one golfer to the states if he has a good average. Senior captain, Jonny Wade, played in the states and shot an 83, which is 11 over par. Wade's score was good enough for 20th place out of 124 golfers. The team is participating in the South Shore League Tournament, which they have won the last two years. Jonny Wade, Chase Stebbins, Ian Quinlan and Robbie Hill are participating in this tourney at Ridder Golf Course in East Bridgewater. Sebastian Braga, Harry Cipolla and Morgan Grasz rounded out the varsity this season and played well, coach Torin Sweeney said.



Ian Quinlan drives the ball off the tee.

Senior and captain Jonny Wade follows through on his drive.

Robbie Hill puts some power into his stroke. Robbie is one of the CHS golfers participating in this South Shore League Tournament at Ridder Golf Course in East Bridgewater.

Morgan Grasz lines up his putt on one of the Cohasset Golf Club greens.

Playing out the string

FROM STRING, PAGE 15

keeper Alex Perkins (8 saves), the other flying inches over the cross bar.

"It's just been that kind of season," concluded Willis, whose team goes into action next week with a 3-8-4 record.

"I'm hoping we give the outgoing seniors some good memories to take with them, and we give the players coming back something to build on for next season."

- Coach Jim Willis, on the remainder of the season

Carver 3, Cohasset 1

It took Carver senior Victor Vainbrum all of 20 minutes to score three goals (giving him 11 for the season) in this South Shore League tilt last Friday.

The Skippers woke up after that, not that it mattered much in the final analysis.

"That was the worst 20 minutes of defense we've played all season," declared Willis. "Vainbrum scored three times on three different kids, and all of the goals came on breakdowns I can't explain."

As was the case in the Nantucket game, the Skippers played a much better game from that point forward. However, the effort this time couldn't yield an all-important point in the standings.

"Carver's a good team, and there aren't too many teams anywhere that could overcome spotting them a three goal lead," said Willis of the 13-1-1 Crusaders. "We played most of the second half in (Carver's) end, which was another nice testament to the fight in our players, but again we just couldn't put away those chances we created."

Willis counted four relatively open looks inside the goal area in the second half. Unfortunately, Goetz was the only one able to convert on one of those looks.

Willis made a point of lauding Goetz as well as junior Tyler Durant, another midfielder.

"Those guys are my frenetic bookends," praised Willis. "They both play at only one speed whether we're up 5-0 or down 5-0. It's the only way they know how to play the game. It's real nice to know I'm going to have them both back next season to build around."

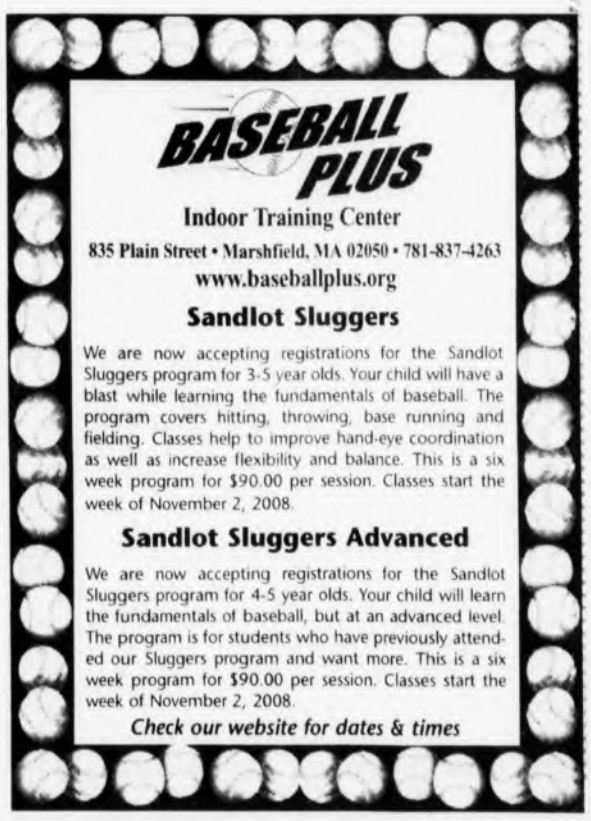
In order to give the offense even more of a boost, Willis recently moved co-captain Lennert Brown from quarterback of the defense to quarterback of the offense, sweeper to center-mid, a move that has definitely helped the Skippers' possession game. The coach has also been moving lifelong defender Owen Landon, a powerful player, up front for short stints. The move paid off in last Wednesday's showdown with East Bridgewater, as Landers scored the first goal in a 2-1 win. Goetz scored the game winner late in the second half.

Senior co-captain Conor Ofsthum continues to anchor the defense, but he is now receiving considerable help from sophomore Travers Craven — who Willis reports has made steady strides since being moved into Brown's starting sweeper spot.

Next up

Wednesday's scheduled contest at Hull was postponed due to rain and wind, and the makeup moved to next Tuesday. This means the Skippers will play games in each of the first three days next week. They'll host Mashpee on Monday (4 p.m. start) and then play night games (6:30 starts) at Hull on Tuesday and Scituate on Wednesday.

"The focus now is on ending strong," said Willis. "I'm hoping we give the outgoing seniors some good memories to take with them, and we give the players coming back something to build on for next season."



The boys will end the regular season by hosting currently unbeaten Harwich (13-0-1) a week from Tuesday (4 p.m. start).

"We're actually hoping Harwich stays unbeaten until the final game, because our guys would love the challenge of trying to knock them off of that," said Willis, who's Skippers dropped a hard-fought 3-0 decision at Harwich earlier in the season. "We felt like we played Harwich pretty tough in that game down there, and we were missing three starters for that one. We're healthy now, and that would be a great way to end the season."

Cohasset girls focus on post-season

FROM PRIZE, PAGE 15

utmost confidence in Sammi and Tori, two very talented and hard-working athletes."

Meredith Kelly has been bounced around a bit of late from outside back to sweeper, but Beal said she's progressed steadily. Samantha Crough, Lindsay Davis and Carli Haggerty are also logging regular minutes in back these days and, according to the coach, "developing into tough defenders."

"The younger kids are certainly feeding off the experiences of our veteran players and watching them learn and strive to match their elders' performances is what coaching is all about," continued Beal. "It's really nice when you have kids that can do the job but watching them to be certain that the younger kids get it too and are able to carry it into the future is so rewarding. They are such a tight-knit group of girls all enjoying each others' company on and off the field.

"I am amazed how quickly the regular season cruises by. I am looking forward to experiencing all the highs and lows with this group. They are as prepared as they can be and now we focus on finishing strong and playing well as a team."

Next up

Hull was slated to come to town this past Wednesday.

"I think we have our plate full this week hosting Hull," said Beal. "Hull is a team that most likely will qualify for the tournament this year so I can only imagine the excitement that is building within their program right now. We cannot look past this game. I think that with some focus and energy we will play really well."

Last night (Thursday), the Skippers were slated to host Notre Dame. Hingham's high-powered private school program will be looking to avenge their season-opening 3-1 loss to Cohasset.

"I know that NDA is a well-coached team and has some of the top players in the area, but I believe that we have the skills necessary to match up well with them," said Beal. "At their place we played extremely well and even overcame the loss of (keeper Johanna Brophy). We need to show up and do our job and not let anything get in the way of that. I am confident that we are not looking past this and know that we have two big games on the docket this week and we will not let down."

The girls will make their final road trip of the season when they travel to Mashpee on Monday afternoon (4 p.m. start). This will also be the final league game.

The Lady Skippers host Rockland on Wednesday night, then Plymouth North the following Monday. Both of these games will be played under the lights, with 6:30 starts scheduled.

Rec Notes

Pooch parties start next week

Cohasset Recreation Center is at 41 Highland Ave. For more information or to sign up for activities, call 781-383-4109 or visit recreation@townofcohasset.org.

Middle School Dance – There will be a dance for Cohasset youngsters in grades six through eight on Friday, Nov. 7, from 7 to 10 p.m. at the Recreation Center (Garage). Dances are $6 per person and pre-registration at www.cohassetrec.com is required. Cohasset residents only and school ID is required. Late arrivals (after 7:30 p.m.) or students leaving early require a parent to be present. Snacks and refreshments will be on sale.

Pooch Parties – Events are one night only sessions and cost $30, or $100 for all four doggie parties.

Wednesday, Oct. 29, 7:30 to 9 p.m. Halloween Pooch Party: Events include: bobbing for tennis balls, best costume contest, beginners agility and of course tricks for treats

Wednesday, Nov. 19, 7 to 8:30 p.m. Thanksgiving Gobble Doggie Social: Events include, off leash playgroup, obedience command obstacle course, bar jump contests and musical doggie tunnels

For information call 781-857-1239. happydogtraining.com

Nov. 1 is deadline day!

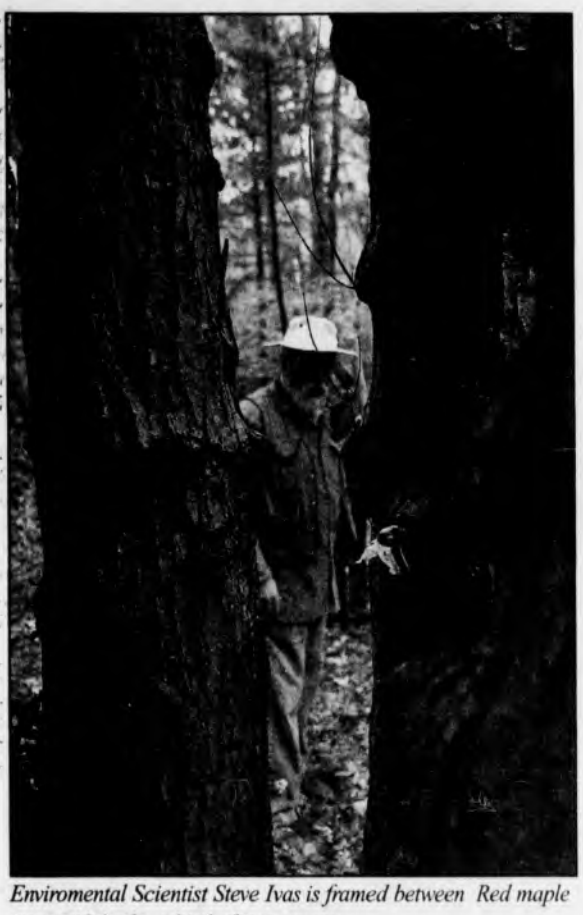
LIFE AT CHS

LAUREN MACK

Hello everyone! The temperature outside is finally beginning to cool down, and cooling down right along with it is the heat of the fall sports seasons. Many of the CHS sports teams are wrapping up their seasons in the next few weeks with the exception of the football boys, who have a home game this week, and those who made it into tournament. Bravo to those teams who made it to post-season! Note to all seniors: Nov. 1st is approaching quickly, so that means that all yearbook information, including senior pictures and write-ups are due! Also, Nov. 1st is also the deadline for a lot of early action colleges, so make sure that you're up-to-date with all of your applications! In other news, the CHS Newspaper *The Spinnaker* is scheduled to come out next Friday (which, conveniently, happens to be Halloween), so all students should plan to bring $1 into school in order to purchase one!

This week's teacher quote of the week comes from a familiar face in the history hall. Known for his Law class and ever-popular Civics and Community Service classes in addition to his participation in the CSCR and Crew programs, **Mr. Buckley** is a very popular teacher among the student body. When confronted with the question of how to deal with the day-to-day gossip that circulates around the high school, Mr. Buckley came up with quite the resolution: "When somebody talks about you behind your back, you should be honored!" he said to his fellow teacher, Mr. Afanasiw, and I, "because that means that they are thinking about you! It means that they care!" And with that, I leave you all with a new way of dealing with drama and a farewell! Au revoir!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.



Environmental Scientist Steve Ivas talks about the trees and plants during the Discover the Woods Day at Holly Hill Farm Sunday afternoon.

Environmentalist Steve Ivas, center, leads the Discover the Woods Day at Holly Hilly Farm on Sunday afternoon. Ivas took a large group of nature seekers on a two hour walk at Holly Hill Farm.

Walk in the woods

Holly Hill Farm hosts outdoor enthusiasts

Steve Ivas spoke on several items of interest, such as the mushrooms in this image.

Steve Ivas talks about the various plant growth and trees along the trail to the crowd of nature seekers Sunday afternoon during the Discover the Woods Day at Holly Hill Farm off Jerusalem Road.

Cohasset resident Martha Hurtig,left, points out a sassafras tree to enviromentalist Steve Ivas during the Discover the Woods Day 2 hour walk at Holly Hill Farm Sunday afternoon.

Here along the path, Steve Ivas points out witch hazel plants to the nature walkers.

AWAY

Take me to the river

Fran Golden
GATEHOUSE NEWS SERVICE

DIJON, FRANCE — Sitting back in the plush comfort of The Amaryllis, a luxury barge owned by Orient-Express, I watched the scenery of Burgundy from the parlor windows as I sipped champagne and munched on caviar canapes with my four fellow passengers.

We were traveling on the historic Canal de Bourgogne, passing tiny towns with stone houses and gliding into ancient locks, where lock keepers still turn big wheels by hand, raising and lowering water levels so barges can pass through.

For a few days, we relaxed along the lazy waterway, indulging in gourmet meals prepared by our private chef, drinking bottles of Burgundy wine and sampling amazing French cheeses. The barge's guide took us by van to Clos de Vougeot, the medieval chateau that is headquarters of the Chevaliers du Tastevin wine society and to explore the wine city of Beaune and historic Dijon.

Our barge moved so slowly on the canal we could work off calories by biking or even walking alongside, chatting with locals and watching birds fly overhead.

That is the joy of cruising rivers and canals - the chance to appreciate local culture and sights close-up, at a slow pace.

"Slow boat" cruising is an increasingly popular way to travel, especially in Europe, and it is easy to see why.

Accommodations and meals and in many cases excursions to major nearby sights - a museum, a chateau - are often included in the cruise price. You travel on calm waterways and get views of river life - kids swimming, people fishing, boats and barges passing by with freight and passengers. If you want time on your own to explore, many itineraries allow for that, too.

Barges carry as few as four passengers, and in some cases you can rent the entire vessel for your family and friends. River ships carry more passengers, but even the biggest - at about 300 passengers - offer an experience that is more intimate than on larger cruise ships.

Public rooms may be limited - a dining room, a lounge, maybe a separate bar - but there is typically lots of open deck space for viewing the sights. There may even be a splash pool or gym. Cabins range from small to spacious suites, but in all cases you are hardly roughing it.

BY FRAN GOLDEN

The Amaryllis barge on the historic Canal de Bourgogne in France.

The following are some suggested barge and river cruising options:

The five barges of Afloat in France (www.afloatinfrance-.com) are all ultra luxurious - as one would expect from Orient-Express - and cruise the historic canals of France's Burgundy, Franche-Comte and Provence regions. Carrying just four to 12 passengers, each is staffed by a crew that includes a private chef and guide. Top-flight wines accompany gourmet meals. Three of the barges are reserved for full charters. For individual passengers, six-night cruises on the classic Burgundy wine route are priced from $5,400 per person.

German river cruise firm Peter Deilmann Cruises (www.deilmann-cruises.com) traverses the Danube, Rhine and other main European rivers, with eight ships carrying 70 to 200 passengers. Seven-night Danube cruises from Passau, Germany, include overnight dockings in Vienna and Budapest, so you can get off the ship and enjoy the local cuisine and nightlife. Priced from $1,535, on the 200-passenger Mozart (which boasts a full-size indoor pool).

Viking River Cruises (www.vikingrivercruises.com) is the "big Kahuna" of the river cruise industry as owner/operator of nearly two-dozen, hotel-like river ships, carrying 150 to 300 passengers. The 180-year-old European firm's ships cruise in places as far flung as Germany and China, and including Russia. A 12-night Waterways of the Czars trip between Moscow and St. Petersburg is offered on three deluxe ships, priced from $2,999.

A cruise in Egypt combined with a land tour, as offered by Boston-based adult travel specialist Grand Circle Travel (www.gct.com), takes you on a tour of ancient sites. Grand Circle owns a dozen 50- to 216-passenger river ships operating in Europe and Egypt and also charters smaller barges in France. Explore the Nile, with seven nights shipboard and six nights in a hotel in Cairo, from $2,395, including airfare.

In China, explore the Yangtze and visit the Three Gorges Dam with Victoria Cruises (www.victoriacruises.com), which serves up five-star cruising on seven ships carrying 130 to 308 passengers. The seven-night Explorer itinerary from Chongqing to Yichang and back is priced from $1,600 (shorter cruises also available).

When you think of river cruising you might not think of Portugal and Spain, but the Douro River is one of 35 itineraries on 12 rivers in Europe, China and Egypt, offered by California-based Uniworld (www.uniworld.com). New owners recently upgraded the firm's 10 ships, which carry 82 to 220 passengers (additional vessels are chartered). A seven-night Douro River cruise, combined with a two-night hotel stay in Lisbon, is priced from $2,099.

World War II Veterans pose for a group photo before an honorary dinner was held Saturday evening at Cohasset's American Legion Hall.

THE GREATEST GENERATION

WWII vets honored at Legion

Photos by Craig Goedecke

Left, Mary Frances Barrett holds a picture of herself when she served in World War II as a Army Nurse in the Philippines. Mary Frances and her husband Benedict, at left, attended an honorary dinner held Saturday evening at George H. Mealy American Legion Hall Mary Frances cared for the Japanese prisoners of war as well as American soldiers.

The Cohasset Sons of The American Legion honored World War II veterans with a dinner and a chance for vets to exchange stories. US Marine Rocky Laugelle, center, shares some war stories with two fellow veterans.

First Parish to host Halloween Haunted House

In addition to the Halloween fun, First Parish members will be on hand to offer information about the congregation's religious education program and social justice outreach activities.

First Parish Unitarian Universalist in Cohasset will host a Halloween Haunted House at its Parish House at 23 North Main St., from 4:30 to 7:30 p.m., on Friday, Oct. 31. Sponsored by the congregation's Religious Education Committee, this event will welcome trick-or-treaters and their families from the entire community into this historic Parish House to celebrate Halloween.

The Parish House will be transformed into a haunted house inviting youngsters to walk down the spooky hallways into the large fellowship hall, where they'll find tasty treats and Halloween games for kids of every age. Fair trade coffee, hot cider and cookies will be offered to adults while their trick-or-treaters play Halloween games to win candy and other prizes. In addition to the Halloween fun, First Parish members will be on hand to offer information about the congregation's religious education program and social justice outreach activities.

Halloween games will include: Trick-or-Treat Caldron – Children approach the caldron filled with small pumpkins. If a child reaches into the caldron and picks out a pumpkin that says "treat," more candy goes into their bag. But if the caldron gives them a pumpkin that says "trick," they'll have to earn their candy by acting out their favorite monster!

Tragic Sam – Poor Sam died of fright on Halloween and all that remains are his body parts – made out of various types of food. Those children brave enough to put on the blindfold and use their sense of touch to guess the right body part may be in for some more candy. A game definitely not for the squeamish!

All are welcome to the fun on Halloween night.

American Legion hosts Marine Corps Birthday Ball

The George H. Mealy Post 118 of the American Legion will host its second annual Marine Corps Birthday Ball on Saturday, Nov. 8, from 6 to 10 p.m. at the Legion Post, 98 Summer St., Cohasset.

The event, which is open to the public, will feature a complete roast beef dinner and entertainment. Tickets are $10 per person and are available at the Legion Post. Active and inactive Marines in uniform are free.

For tickets or more information contact the American Legion Post at 781-383-9657

Cohasset Cabaret

Cohasset Cabaret is only two weeks away, and will feature a diverse show of singers, dancers and comedians from the South Shore. It will take place at St. Anthony Church hall on Friday, Nov. 7, and Saturday, Nov. 8. The show, which had a great reception last year, will again be directed by Blanche Clarke, who has worked in theater for many years including Hingham Cabaret, Hingham Civic and other venues.

Tickets are on sale now and cost $25 apiece. Tickets can be purchased at St. Anthony Parish hall office and the CEA office at South Shore Community Center. For more information, call 781-383-0021.

OBITUARIES

William A. Brown

Attorney, assistant professor

William A. Brown, 66, of Cohasset and Bethel, Maine, died suddenly Oct. 18, 2008.

Mr. Brown was a graduate of Northeastern University with a bachelor of science degree and master of science degree in electrical engineering, and received a juris doctor degree from Suffolk Law School. He was a former law clerk to United States District Judge Frank Murray. He was an assistant professor at Suffolk Law School and was also a former assistant attorney to the Unites States Attorney in Boston. He also worked as the former chief of the Civil Division for the United States Attorney's Office and later had a private practice, specializing in federal criminal, civil and administrative litigation.

Mr. Brown lived his life his way. His quiet generosity and compassion endeared him to his many friends here and abroad, from all walks of life. He loved competitive gardening, skiing in Maine, boating on the North River and cooking for his friends. He and his partner, Diane, enjoyed traveling extensively, especially to Alaska. He took great pride in his children and joy in his grandchildren.

He leaves his partner, Diane L. Esslinger of Cohasset; his children, Heidi K. Brown of Hyde Park and Christian B. Brown and his wife, Emily, of Manchester-by-the-Sea; his grandchildren, Henry, Annie, Gus and Abby; and his niece, Jenene Martell.

Arrangements were handled by McNamara-Sparrell Funeral Home, Cohasset. Funeral service and interment private. A celebration of Mr. Brown's life will be held at a later date.

In lieu of flowers, memorial donations may be made to Suffolk University Law School, Office of Advancement, 8 Ashburton Place, Boston, MA02108-2270; to Salvation Army, 6 Baxter St., Quincy, MA 02169; or a charity of the donor's choice.

To sign the online guest book, visit www.mcnamara-sparrell.com.

Interment service for Gertrude Bates and Vern Bates

Following a memorial service in Petersham, there will be an interment of Gertrude C. Bates and Vern M. Bates, wife and daughter of Nathan W. Bates, formerly of Cohasset, at 2:30 p.m., on Saturday, Oct. 25, at Beechwood Cemetery, Beechwood Street, Cohasset.

WORSHIP NOTES

Saint Stephen's accepting book donations

Saint Stephen's Episcopal Church, 16 Highland Avenue, Cohasset is currently accepting donations of slightly worn hardcover and paperback books, books on tape, DVDs, and CDs for its annual book sale, part of the ecumenical Village Fair that will be held this year on Dec. 6 on Cohasset's scenic Common.

Donations can be brought to the church in bags or boxes and placed inside the parish hall door marked "Church Offices". Use the "reserved parking" spot to unload your books during church office hours Monday through Friday 8 a.m. to 2 p.m. Books are sorted at St. Stephen's Church in Walton Rodgers Hall every Tuesday from 9 to 11 a.m. Donations will be accepted through Nov. 25. Old textbooks, romance novels, damaged, musty or moldy books or books with notes and/or highlighting cannot be accepted. For information, call D'Anne Avotins at 781-923-1104

The monies raised from the Book Sale will be used to send underprivileged children and their families to the Barbara C. Harris Camp in Greenfield, N.H. For more information about this facility, visit www.bchcenter.org.

Organist Gail Archer to play at St. Stephen's

Celebrating its 17th year, St. Stephen's Concert Series in Cohasset will present organist Gail Archer of New York City in a recital at 3 p.m., on Sunday, Oct. 26, in a program featuring the music of 20th century French organist Olivier Messiaen. The music of this composer is highly controversial and uses elements of bird song, Gregorian chant, Far Eastern scales and scales of his own construction – all in a mission to bring the music of the church into the world and to musically present Christian truths in the concert hall. Archer lives in New York and serves as chairman of the music department at Barnard College, Columbia University.

This year, St. Stephen's is also celebrating the partial restoration of its 58-rank Aeolian-Skinner organ, portions of which had been rendered unplayable by spring storms several years ago/

The church is at 16 Highland Ave., Cohasset, is handicap accessible, and there is plenty of parking is available at the village car park. Admission is free, but donations will be accepted. For information, call 781-383-1083.

Events at St. Joseph Retreat Center

St. Joseph Retreat Center, 339 Jerusalem Road, Cohasset is offering the following progra.m.s in October and November.

Monday, Nov. 10 — Morning of Prayer, 9 a.m. to 12:30 p.m.: Growing In Relationship with Jesus Through the Dynamic of the Spiritual Exercises — The Unconditional Love of God for All

Monday, Nov. 24 — Morning of Prayer, 9 a.m. to 11:45 p.m.: Praying Psalm 23: Praying on our Life Experiences with the Good Shepherd

The Retreat Center is also available for private retreats for individuals and for groups. For more information and to register, visit www.csjretreat-center.org_or call 781-383-6024/6029.

WORSHIP GUIDE

Beechwood Congregational Church, 51 Church St. 781-383-0808. Interim Pastor: Richard Chamberlain; Please join us for Sunday Service and Sunday School at 10 a.m. followed by fellowship in Merritt Hall. Accepting donations of new socks for homeless shelters and non-perishable food items for local food pantries.

Our mission statement is: "Equipping God's people for living out the Good News to be the hands, feet, voice and heart of Christ in our community and in the world." How should we accomplish this? Come hear sermons to find out.

First Parish Unitarian Universalist on Cohasset Common, 23 North Main St. (Parish House). 781-383-1100. www.firstparishcohasset.org Minister: the Rev. Dr. Jan Carlsson-Bull. Interim Director of Religious Education: Jim FitzGerald. Music Director: Allegra Martin. Interim Organists: Carolyn Bates and Maureen Hague. Parish Administrator: Sandy Bailey. Parish Committee Chair: Mary Parker.

We welcome all to our inclusive spiritual community. We affirm our Unitarian Universalist Principles and put them into action by worshiping together, caring for one another, and working for a safe, just, and sustainable world.

Sunday, Oct. 19 - Association Sunday

8 a.m. - Circle Ministry (group led by Joan Kovach and Susan Meikleham and meeting on the first & third Sundays in the Parish House)

9:50 a.m. – Childcare for our youngest and religious education classes for children and youth in the Parish House.

10 a.m. - Worship in the Meeting House - Association Sunday

On this morning when we celebrate our interdependent association known as the Unitarian Universalist Association (UUA), Rev. Dr. Jan Carlsson-Bull will lead worship and preach on "Intersection." Over half of all Unitarian Universalist congregations nationally are participating in Association Sunday, when our full non-pledge plate is dedicated to the life and programs of our UUA.

Everyone is invited for refreshments and fellowship in Trueblood Hall directly after the service and RE classes. Faith Works Sunday at coffee hour promises that representatives of all First Parish committees dependent upon volunteers will be on hand with information and sign-up sheets.

All are welcome as we worship and learn and live our faith together! To learn more about First Parish Unitarian Universalist, please come by the Parish House and pick up or sign up for the current monthly newsletter, The Common, or visit our website at www.firstparishcohasset.org or contact Rev. Dr. Jan Carlsson-Bull, Minister, at 781-383-1100.

St. Stephen's Episcopal Church: Welcome to St. Stephen's church!

This Sunday, Oct. 26, our 17th annual St. Stephen's Concert Series begins with organist Gail Archer performing at 3:00. Archer is an international concert organist, recording artist, and specializes in the music of Olivier Messiaen. The concert is free and open to the public.

We are currently underway with our new "Episcopal Church for the 21st Century" class taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. Classes run from noon until 2:00.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, from our website, www.ststephenscohasset.org.

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 am and 10 am on Sundays, including a Healing Eucharist at 9:30 am on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's:

- Fri. Oct. 31: 9:30 Yoga
- Sat. Nov. 1: 7 am Bible Fellowship
- Sun. Nov. 2: All Saints Day. Services at 8 and 10, Godly Play at 10 and youth group at 11:30

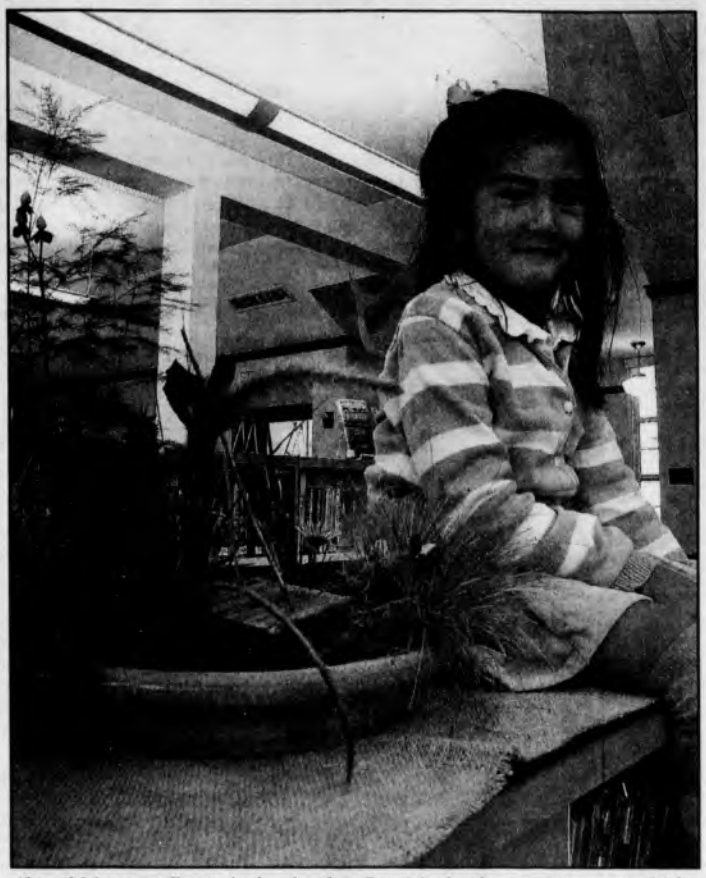
Baha'i Faith of the South Shore. Local weekly devotional/spiritual refection and monthly discussion group meetings are open to the public. For further local information call 1(781) 545-0721 or email: b19moshfegh@comcast.net

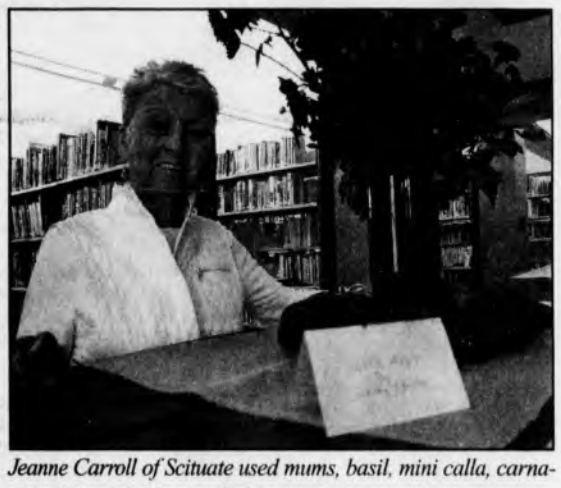
"The earth is but one country and mankind it's citizens" 1(800)22-UNITE www.bahai.us

Changes to the worship guide, may be sent by e-mail to mford@cnc.com.



The Shell Seekers by Rosamond Pilcher was Eileen Rutledge's choice for her Books In Bloom arrangement. Her daughter Christine, a student at Villanova University joined in the fun.

Daisies make up this sunny arrangement created for the book Please Don't Eat The Daisiesby Jean Kerr.



Abigail Moy proudly sits by her brother, Ben Moy's, plant arrangement which was inspired by "The Raft" by Jim LaMarche. Ben is a fifth grader at the Deer Hill School.

Peggy McCarthy added a family photo to her exhibit of holly based on the book "The Family Christmas," by Caroline Kennedy.

Books in Bloom

Community Garden Club hosts event at library

Jeanne Carroll of Scituate used mums, basil, mini calla, carnations, leucondendron and olstroemeria to create her arrangement based on the book "Black Magic" by Whitley Strieber.

"Gifts From The Sea" by Anne Morrow Lindbergh, a book that Delores Roy had in mind when she created her arrangement for Books In Bloom.

Serendipity Sundaes by Stephen Bruce was the inspiration for Lee Jenkins, President of the Community Garden Club. Lee's arrangement of carnations and ivy with a cherry on top was set in a ceramic vase that resembles chocolate and marshmallow.

Frannie O'Toole, Chairman of the Books In Bloom Flower Show at the public library, created her arrangement based on the "Snow Flower and the Secret Fan," by Lisa See.

Photos by Laura Sinclair

Library Corner

Author visits planned for Oct. 26, Nov. 12

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road. For more information, call 781-383-1348.

Author Visits – Catherine Goldhammer, author of "Still Life with Chickens," will discuss her new book "Winging It: Dispatches from an (almost) Empty Nest," at 3 p.m., on Sunday, Oct. 26, in the Meeting Room. All are welcome to this free event. Goldhammer's books will be available for purchase.

Kathleen Kent, author of "The Heretic's Daughter,' will discuss her new book at 7 p.m., on Wednesday, Nov. 12. The book is a liteary imagining of the events surrounding the Salem witch trials. Kent, a descendant of one of the first women to be accused as a witch, brings her family's legacy to life. Copies of the book will be available for purchase. All are welcome to these free events.

Library Book Group – Join others for coffee and discussion of Junot Diaz's Pulitzer Prize winning book, "The Brief Wondrous Life of Oscar Wao," at 10 a.m., on Wednesday, oct. 29, in the Meeting Room. All are welcome to this free event.

Movie Matinee – The library will show the film "The Miracle Worker" starring Patty Duke and Anne Bancroft at 11 a.m., on Friday, Nov. 7. The Friends of the Library will provide light refreshments. Movie site license sponsored by Friends of the Library and Cohasset Democratic Town Committee. The movie is free and all are welcome.

Independent Film Night – The library will show the independent film "The Grocer's Son" at 6 p.m., on Thursday, Nov. 20. Free admission and free refreshment courtesy of the Friends of the Library.

FOR CHILDREN

MamaSteph – Performances at 10:30 a.m., on Mondays, Oct. 27, Nov. 3, 10, 17 and 24, in the Meeting Room. Join others for children's music and more. Doors close promptly at 10:35 a.m. Funded by Friends of the Cohasset Library. All ages and communities are welcome.

Drop In Story Time – In the Story Room at 10:30 a.m., on Tuesdays, Oct. 28, Nov. 4, 18 and 25. All ages and communities welcome.

Coloring/Decorating Contest – Create an owl by decorating the template found on Mrs. Moody's desk. Markers, glitter, beads, pipe cleaners, tissue paper and things found in nature can be used to create an owl that reflects one's personality. Contest ends Friday, Oct. 24, at 4 p.m. Winners in all age groups. Winners will be called.

'Godspell' to be performed by Cohasset Dramatic Club

Cohasset Dramatic Club has announced it has assembled the cast for its fall production of "Godspell." Show dates will be at 7:30 p.m., on Nov. 14, 15, 21 and 22, and 2 p.m., on Nov. 16 and 23. The production will take place at Cohasset Town Hall auditorium.

Director and music director, Mark Bono set out in search of a diverse, energetic cast of 10 adults to recount the telling of the Gospel according to St. Matthew, through both parables and music, and find them he did. The ensemble is led by Stephen Lee from Randolph as Jesus. Lee has done this show before, and it is one of his favorites, so he is thrilled to be a part of this cast bringing this show to life for the first time on the Cohasset Town Hall stage. Supporting Lee in the ensemble, and each singing their own piece from the score by Stephen Schwartz, are Mark Alves, Cohasset; Eric Braun, Hanover; Nicole DiRuzza, Quincy; Denise Feeney, Abington; Lisa Pratt, Cohasset; Anne Thornton of Hanover; and Sharon White and Bill White of Scituate.

"Godspell" boasts a string of songs led by the hit "Day By Day." As the cast performs "Prepare Ye The Way of the Lord," "Learn Your Lessons Well," "All For the Best," "All Good Gifts," "Turn Back, O Man" and "By My Side," the parables come to life. Drawing from various theatrical traditions such as clowning, pantomime, charades and vaudeville, "Godspell" is a unique reflection of the life of Jesus, with a message of kindness, tolerance and love.

Tickets will be available soon at Paperscapes in Cohasset Village, Buttonwood Books on CJC Highway in Cohasset, or via CDC's ticket reservation and information line at 617-697-2115. Tickets are $15, and reservations are presently being accepted.

Scituate Cohasset Newcomers Club accepting new members

Whether one just moved to Scituate or Cohasset, or has lived here for years, Scituate Cohasset Newcomers Club is a great way to get involved in the community and make new friends. The club is currently accepting new members. For more information about becoming a member, visit the Web site at scnewcomers.com.

Every month, a newsletter is issued that includes the schedule of social events. Some events are geared toward adults, while others involve caregivers and tots or the entire family. Annual events include the Fall Kick-Off Party, Children's Halloween Party, Chili Cook Off and Summer Barbecue. Every season new events are added or revised depending on the needs of members. Special interest groups are constantly developing as creative ideas are presented.

SCNC prides itself on its dedication to community service, and has raised money and donated time to Habitat for Humanity and the Magical Moon Foundation, and continues to find ways to help those in need.

Horoscope

SALOME'S STARS
FOR RELEASE
WEEK OF OCT. 20, 2008

ARIES (March 21 to April 19) A colleague might offer to open a door for you professionally. But before you walk through it, be sure this "favor" isn't attached to an obligation you might find difficult to discharge.

TAURUS (April 20 to May 20) Your creativity, your persistence and your reliability could lead to a major career shift. Be sure to use that other Taurean trait, your practicality, when discussing what the job offers.

GEMINI (May 21 to June 20) A changing situation might require some adjustments you might not have been prepared to make. However, flexibility in this matter could be the best course to follow at this time.

CANCER (June 21 to July 22) You're in a period of fluctuating moods, which is not unusual for the Moon Child. Your emotions stabilize by the 26th. Meanwhile, try to hold off making major decisions until then.

LEO (July 23 to August 22) That keen sense of perception helps you hunt down those minute details that others overlook. And, of course, your Leonine ego will accept the expected praise with good grace.

VIRGO (August 23 to September 22) Be careful not to be confrontational when raising a work-related issue. Better to make a request than a demand. And, of course, be prepared to back up your case with facts.

LIBRA (September 23 to October 22) Your ego might be hurt when a colleague turns down your offer to help. But accept it as a rejection of your offer, not of you. A friend from the past could re-emerge by week's end.

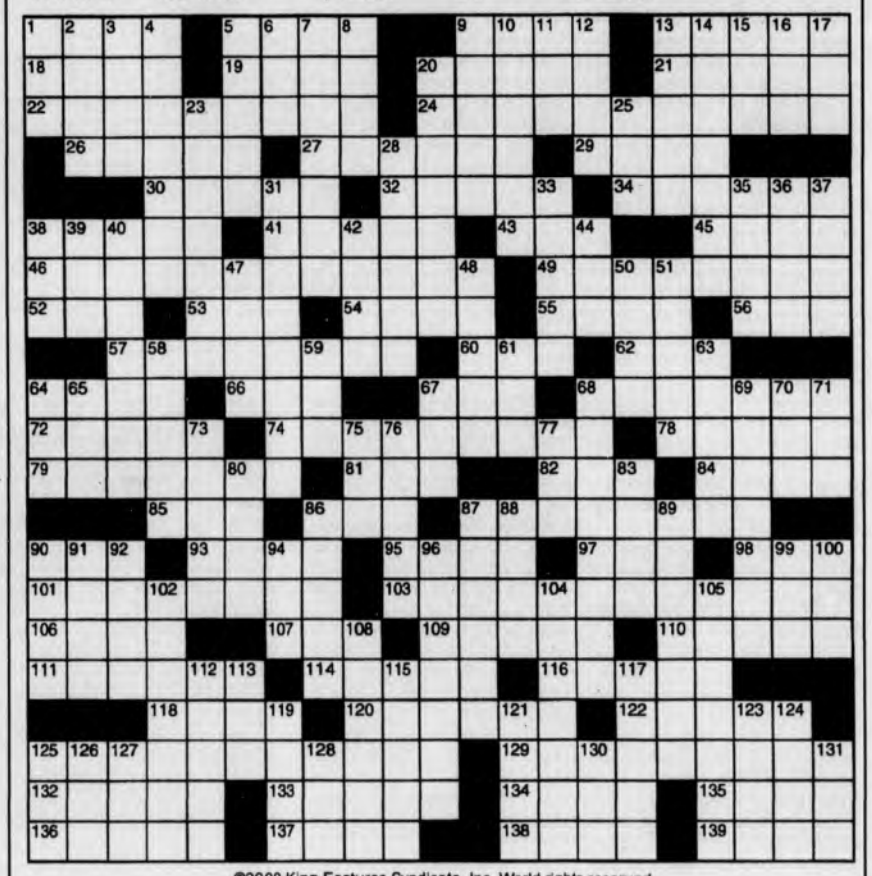
SCORPIO (October 23 to November 21) A flow of positive energy turns a work project you didn't want to do into something you actually love doing. Now, take that attitude into your social, intimate life — and enjoy what follows.

SAGITTARIUS (November 22 to December 21) Working hard to meet your professional goals is fine. But don't neglect your private life, especially where it concerns your more cherished relationships.

CAPRICORN (December 22 to January 19) "Patience" remains the key word in dealing with an emotionally sensitive situation involving a close friend or family member. Help comes your way by week's end.

AQUARIUS (January 20 to February 18) With new information coming in, it's a good time to rethink some of your goals without taking suggestions from others, no matter how well-meaning they might be.

PISCES (February 19 to March 20) Making progress on your project is relatively easy in the early part of the week. A problem could arise midweek. But all goes swimmingly once it's resolved.



(c) 2008 King Features Synd., Inc.

BORN THIS WEEK: Holding fast to your principles, no matter what, inspires others to follow your example.

Level: Challenging

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

RO - Restraining Order

S/P - Suspicious Person

SSH - South Shore Hospital

WMS - Warrant Management System (Name for Massachusetts computer system that holds arrest warrants)

BUSINESS NOTES

Browne joins NAIOP Massachusetts

NAIOP Massachusetts announced recently that Melissa J. Browne has joined the chapter's staff as chief operating officer, responsible for overseeing all chapter operations including membership, marketing and programming, as well as chapter administration. She replaces outgoing chief operating officer Fran Shifman.

Formerly a senior vice president, partner and the director of marketing and research at Colliers Meredith & Grew, Browne has long been a member of NAIOP, working closely with NAIOP staff on several events and programs including serving as co-chairwoman of NAIOP's 2006 Bus Tour. With more than 25 years of experience working and volunteering in the commercial real estate industry, Browne brings with her a wealth of skills, including marketing, event planning and volunteer management, all of which have prepared her for the role of an association chief operating officer.

At Colliers Meredith & Grew, she directed an eight-person team responsible for all marketing, advertising, communications, public relations and research. Prior to joining CMG in 2004, Browne was chief marketing officer and managing director for Holliday Fenoglio Fowler LP, having joined HFF from its parent, Lend Lease Real Estate Investments Inc., where she was a principal and head of the client services group. Prior to joining Lend Lease, she was a vice president of client service at AEW Capital Management, and director of client service and regional vice president for The Boston Company Real Estate Counsel.

Browne graduated from Milton Academy and Georgetown University School of Foreign Service, and was awarded a CPM designation in 1985 from the Institute of Real Estate Management in Chicago. She is a director of Pilgrim Bank, The Hingham Group and The Francis Ouimet Scholarship Fund, as well as president of the Cohasset Golf Club. She and her husband live in Cohasset,

For more information on NAIOP, visit the Web site at naiopma.org.

Making Headlines.

How to Get Press Pull.

Have you ever wondered how others get headlines while your news becomes a calendar listing?

Or isn't picked up at all?

Attend the South Shore Ad Club's panel discussion with some of the area's leading media specialists on November 11th.

You'll learn how media outlets define "news," what constitutes a good news "hook," how to talk with media people, and how to avoid tripping yourself as you reach for the top of the page, or the top of the hour.

PANELISTS

Ed Perry, WATD. **Tom Luft,** FOX-25 TV.
Mark Olivieri, Community Newspaper Co.,
Greg Porrell, South Shore Senior News,
Helen Graves, Women's Business Boston.

Asian C Restaurant, Rte 53, Hingham

There will be a cash bar, light hors d'ouevres, and the tips you need to make news, without having to make bail.
You can find out more about membership in the club by attending this event or visiting www.southshoreadclub.com.

To RSVP, please call or email Colleen Jacobsen at Webster Printing Company Inc., Hanson, MA
Phone: 781.447.5484, ext. 16, or email colleen@websterprinting.com.

What's happening on the South Shore

OCTOBER 23-31, 2008

BEST BET

The Dickinson Art Gallery, 1132 Main St., Route 18, Weymouth. Exhibit of the paintings of Dianne Panarelli Miller through Oct. 31. Miller paints a variety of subjects in oil paintings with brilliant, glowing colors: landscapes, Boston and South Shore landmarks, floral still life designs, portraits, and sights from an annual Bermuda trip. The gallery is open Wednesday through Saturday from 10 a.m. to 5:30 p.m. and on Sunday from noon to 5 p.m. For evening appointments, call 781-331-3384. Preview gallery's artists online at www.dickinsonartgallery.com.

Send your calendar events to: Dorothy Dinsmore, Community Newspaper Company, 165 Enterprise Drive, Marshfield, MA 02050 or by fax 781-837-4543 or e-mail ddinsmore@cnc.com. Deadline is Friday at noon. Visit Town Commons: What's happening on the South Shore on the Web at wickedlocal.com — click on your town — then click the fun, entertainment or arts tabs.

Thursday, Oct. 23

A new take on '42nd Street'

Easton's Todd Lattimore leads the cast at North Shore Music Theatre

By R. Scott Reedy
CORRESPONDENT

When the star of the show-within-the-show in the classic backstage musical "42nd Street" suffers an injury, a young performer is plucked from the chorus to take the lead. During his close to four years on Broadway in the 2001 Tony-winning revival of "42nd Street," Todd Lattimore put his dancing feet to good use in the ensemble, and, in a case of art imitating life, he even replaced the young male lead a few times, although no broken ankles were involved.

"In addition to being in the chorus, I understudied the role of Billy Lawlor," said Lattimore last week, during a rehearsal break from the upcoming North Shore Music Theatre (NSMT) production of "42nd Street" in Beverly. "And I got to play the role opposite Christine Ebersole (Tony Winner for Best Actress in a Musical for her portrayal of Dorothy Brock), and her replacements Shirley Jones and Beth Leavell."

An Easton resident, Lattimore will be spending the next month in Beverly, where he will take on the role of leading tenor Billy Lawlor full-time. It will be the performer's third time in the Harry Warren and Al Dubin musical, based on a novel by Bradford Ropes and the subsequent 1933 feature film of the same name.

David Merrick's original 1980 Broadway production, directed by the legendary Gower Champion and featuring a book by Michael Stewart and Mark Bramble, ran for 3,486 performances, and won five Tony Awards including Best Musical with a score that includes "You're Getting to Be a Habit with Me," "We're in the Money," "I Only Have Eyes for You," "The Lullaby of Broadway," and, of course, the title song.

"I did this show at the Merry-Go-Round Playhouse in my hometown of Auburn, N.Y., when I was still in high school and then, of course, on Broadway. To be honest, NSMT called me twice to come in and read for the show and I said no both times. I was just too busy. I had 'No, No Nanette' at New York's City Center in May and 'My One and Only' at The Muny in St. Louis in July, and I had been approached about doing the Detroit production of Irving Berlin's "White Christmas,' which I had done at the Wang Theatre in Boston in 2005 and 2007."

PHOTO BY PAUL LYDEN

Melissa Lone as Peggy Sawyer and Todd Lattimore as Billy Lawlor in "42nd Street" at North Shore Music Theatre, Oct. 28 through Nov. 23.

After taking time to consider all his options, Lattimore, 32, finally decided the time was right to once again lace up his tap shoes.

"I didn't really want to spend Christmas in Detroit, so when NSMT called me for the third time about Billy Lawlor, I went to New York to audition and I got the part. The choreographer for this production, Michael Lichtefeld, knew I had done this show before, so the thing he said to me was, 'Forget what you already know. What we're going to do is all new.'

Todd Lattimore

"I was very glad to hear him say that, because I knew it would keep me thinking and keep my work fresh. When you understudy someone else, you have to do what has already been set up by the other person because that is what the others are expecting. At NSMT, the role is all mine."

And so are the challenges of performing in NSMT's space.

"Doing a tap show in theater-in-the-round means the audience gets a 360 degree of everything that happens. It also means there is no chance for upstage breathers when you're not on, because you're always on. Everything is sort of 3-D, but it is also a very intimate space, which is really cool and very interesting. What's also really cool is that we're wearing the revival costumes that Roger Kirk designed and which I wore for the first time on Broadway. They're absolutely beautiful."

A 1998 graduate of the Boston Conservatory, Lattimore has worked extensively in theater, but also kept a hand in other things. For several years, he owned and operated a retail store, The Lily Pad, in Mashpee and more recently was with Marc by Marc Jacobs on Newbury Street in Boston. He and husband Brian Merrill, a creative director with the TJX Companies in Framingham, make their home in a former Swedish Lutheran church turned Masonic Temple that the pair renovated in 2005. Lattimore and Merrill recently decided to sell the house and are looking at relocating to Boston. In the meantime, Lattimore couldn't be happier with his current assignment.

"For me, tap dancing is like a perfect summer day. Just putting on my tap shoes brings a huge smile to my face. I've been tap dancing since I was 4 years old and I hope to be able to do it until I'm 92."

The North Shore Music Theatre, 62 Dunham Road, Beverly, will present "42nd Street" from Oct. 2 to Nov. 23. For tickets and information, visit

Town Clerk readies for election

By Nancy White
NWHITE@CNC.COM

It could be a surprise to many that McCain/Palin and Obama/Biden are not the only races on the ballot in Tuesday's State Election.

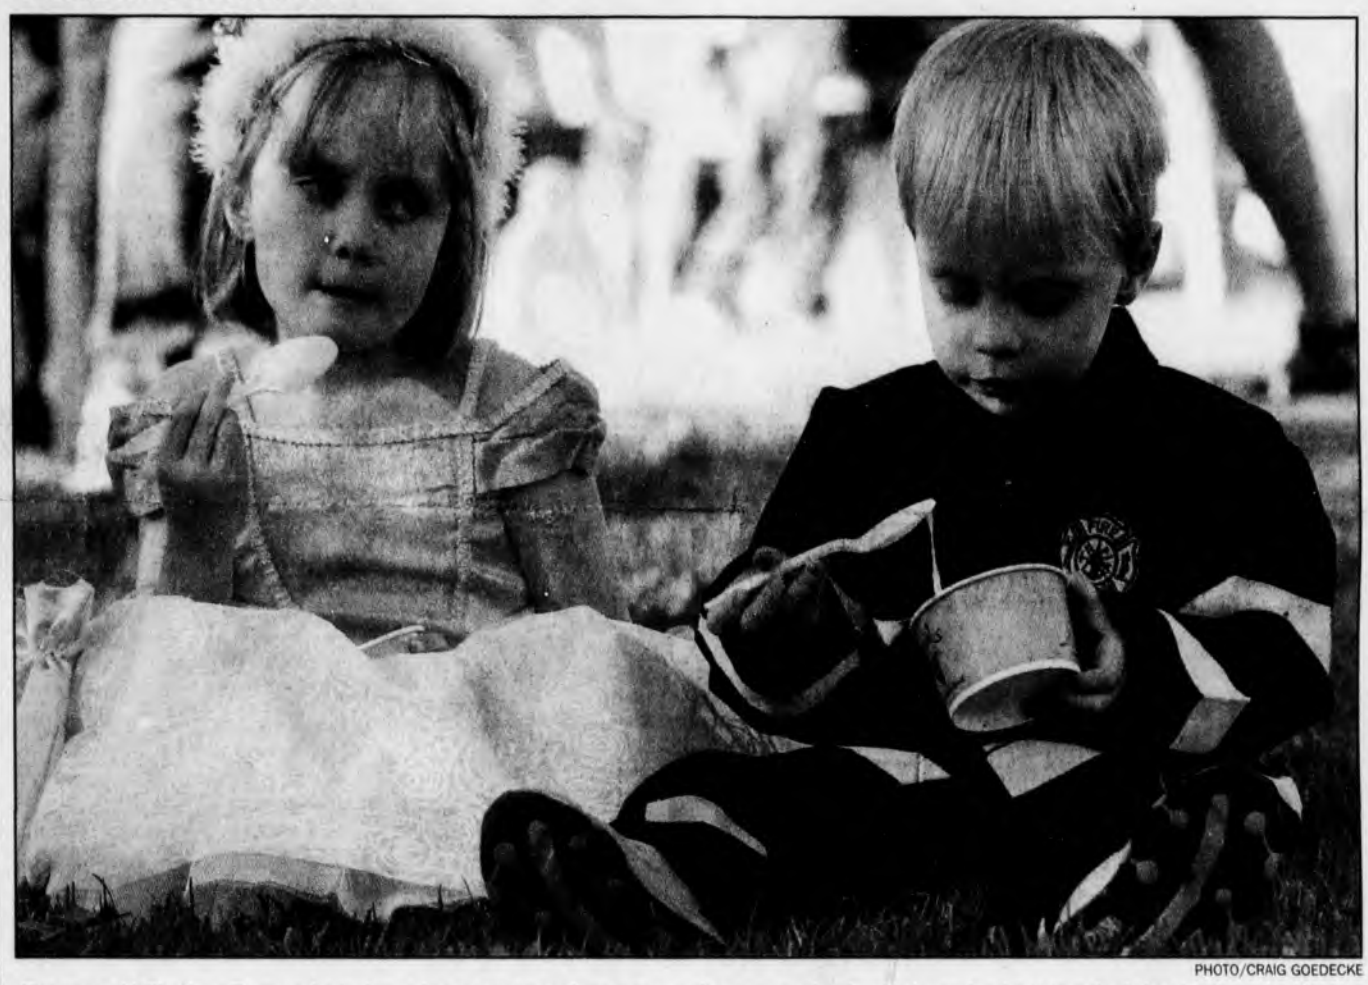
In fact there are four other "tickets" in the presidential race. Other races include: a three-way race for US Senator; there is a four-way race for two Norfolk County commissioner seats; and there are four ballot questions.

However, most would agree that the presidential race between Obama and McCain will be the biggest draw.

"People really want to vote," said Town Clerk Marion Douglas, evidenced by the 246 residents who have registered to vote since the September primary.

While the September state primary brought out just 7 percent of Cohasset voters, Douglas is expecting more than 90 percent of Cohasset's registered voters to turn up at the polls on Tuesday.

"The state is predicting 90 percent so we are expecting about that, but we are always hoping for more," said Douglas this week.



Describing the Town Clerk's office as hectic as of late, the office has been busy doling out and accepting absentee ballots. They have received 401 applications for absentee ballots as of Tuesday morning. About 240 ballots had been returned — 111 from Precinct 1 and 128 from Precinct 2.

Douglas said the number of requests for absentee ballots was a little higher than the typical town or state election, but added presidential elections, especially when there is not an incumbent candidate.

Voting for precincts 1 and 2 will be held in the Cohasset Town Hall auditorium from 7a.m. to 8p.m. on Tuesday, Nov. 4. Voters should expect a packed Town Hall, but Douglas has put on four

COMMON OCCURRENCE

PHOTO/CRAIG GOEDECKE

Five-year-old Charlotte Torrey, who is dressed as a princess, glances over at her younger brother Ned, age 3, who is in a firefighter's suit, as he dives into his ice cream during the South Shore Community Center Nursery School's annual Halloween Fair held on the Town Common on Sunday. The kids' parents were close by. Both children were taking a break from all of the excitement of the fair, which is an annual tradition.

Turf talk

Alumni Field transformation on the table

By Nancy White
NWHITE@CNC.COM

They are cropping up all over the South Shore, Massachusetts and the country — and Cohasset could be the latest town to add a synthetic turf field to their assets.

On the Special Town Meeting warrant, a citizen's petition from the Cohasset Sports Partnership asks voters to support — in theory and financially — a turf field.

Numbers are still being confirmed on the town side, but it is estimated between $500,000 and $600,000 of public funds are required to complete the project. The remaining project costs

Commuters on the Greenbush Line, Nancy Fink and Chris Childs, arrive at the Cohasset Train Station.

Ridership growing and shopping plaza on the way

By Nancy White
NWHITE@CNC.COM

It's been one year since Greenbush began running full speed ahead and more and more people are turning to Greenbush to get to work.

"The numbers clearly show that the Greenbush Line has become a very attractive transportation alternative for commuters heading to Boston each morning," said MBTA General Manager Dan Grabauskas.

The numbers of customers utilizing the Greenbush rail service has seen a steady up tick. In its first month of operation (November 2007), the five morning rush trains carried 1379 passengers. In July 2008, the combined count for the same five trains was 1817 passengers. On Sept. 24, the combined count for the five trains was 2118 passengers.

While there were no ridership projections made for the line's first year of operation, Grabauskas said the T is extremely pleased that more and more people are choosing to commute by train.

"Not even a year old, the Greenbush Line has become the preferred transportation alternative for thousands of residents in Cohasset, Scituate, Hingham, Weymouth, and Braintree," said Grabauskas in an e-mail.

Another very positive trend: last month (Sept 08) was the

PICTURE THIS/Mr. Scarecrow

PHOTO/NANCY WHITE

This week the Mariner caught up with Mr. Scarecrow, who has dutifully watched over the Pumpkin Patch all month. Today (Halloween) is the last day the Appalachia Service Project Pumpkin Patch will be open for business. Head over to Wheelwright Park to scoop up a last minute pumpkin — and be sure to say hello to Mr. Scarecrow!

Name: Mr. Scarecrow.

Occupation: Guardian of the Pumpkin Patch.

Best day of your life: I have two — the day the ASP Pumpkin Patch opens and the day those irritating birds fly south.

Best vacation: Weekend trip to Halloween Town.

Favorite season: Fall.

Favorite holiday: Halloween.

Favorite junk food: Pumpkin pie.

Best book: "How to Kill a Mockingbird."

Best movie: "The Wizard of Oz," a scarecrow finally broke into the business!

Best TV show: "Scarecrow and Mrs. King."

Favorite song: "If I only had a brain." It's the story of my life…

Most embarrassing moment: I turn red in the cheeks (so to speak) when my straw falls out.

Fun fact about yourself: In my opinion, plaid shirts are always in style.

Pet peeve: When birds don't give me the respect I deserve.

Goal: To sell all the Pumpkin Patch pumpkins.

Person you'd most like to meet: The Wizard — maybe I'd get my very own brain.

Biggest worry: All the Pumpkin Patch pumpkins won't sell.

Best part of Cohasset: Meeting the friendly people at the Pumpkin Patch!

BRIEFLY

Cohasset Mariner 'drop box'

The Cohasset Mariner has a "drop box" and pickup location at Tedeschi's in the village. The drop box is on the counter in the front window around the corner to the left after you enter the front door.

The Mariner picks up at 8 a.m. on Mondays and Tuesdays. The drop box can be used to drop off glossy photographs, letters, flyers or other editorial copy.

Sports writers wanted

The Cohasset Mariner is looking for students, parents and grandparents who might like to cover youth or high school sports as a community service.

The Cohasset Mariner believes that coverage of high school and youth sports is important and a great way to provide young athletes with some recognition.

Please contact editor Mary Ford at: mford@cnc.com

All ages of sports writers are welcome. Access to a computer and email is a must.

Negotiation rights for health insurance

Cohasset has survived the first round of local aid cuts from the state, Town Manager Bill Griffin said at the Selectmen's meeting last week. In a discussion with other local town managers, Griffin said the issue came up of getting authorization with the state to negotiate health benefits for town employees.

"It would allow us to deal with what will be a very tight budget," said Griffin. He intends to write a letter to the Governor Deval Patrick to seek the authorization. Currently, the state has the ability to negotiate with the health insurance companies but that ability is not extended to cities and towns.

Flu clinic planned for Nov. 8

Cohasset Board of Health will host a flu clinic from 10 a.m. to noon, on Saturday, Nov. 8, in the auditorium at Town Hall, 41 Highland Ave. The flu clinic is open to any resident of Cohasset 9 years and older. Those attending should wear a short-sleeve shirt.

For more information, call registered nurse Mary Goodwin at 781-383-2210.

PHOTO/NANCY WHITE

A special introduction and pinning ceremony was held Monday for Sgt. Jeffrey Treanor at the Selectmen's Office. From left are: selectmen Karen Quigley, Paul Carlson and Ted Carr, Sgt. Treanor, selectmen Ralph Dormitzer and Fred Koed, Chief James Hussey and Town Manager Bill Griffin.

Ceremony for new sergeant

By Nancy White
NWHITE@CNC.COM

There's a new sergeant in town — and he is a familiar face. Jeffrey Treanor, a 15-year veteran for the Cohasset Police force, officially accepted his new role and title at introduction and pinning ceremony at the Board of Selectmen's meeting Monday night.

"It's always important to introduce our officers, especially when they take on new, exciting and critical positions," said Police Chief James Hussey.

Describing Treanor as having the ability to handle different (and difficult) situations with a calm demeanor, Hussey spoke highly of his newest sergeant.

"In the last three years I've been able to watch a young man grow into his role," said Hussey.

Treanor grew up in Cohasset, graduated from Cohasset High in 1986 and got his bachelor of science in criminal justice from Westfield State. He graduated from the Police Academy in the top third of his class and joined the Cohasset Police Department in 1993. Later, he earned a masters degree in criminal justice from Western New England College.

Treanor servers as the department's child passenger safety technician and as an Operation Lifesaver instructor teaching train safety to kids.

"I'm honored and humbled to serve in this position. I look forward to serving the town and its people," said Treanor.

Treanor succeeds retired Sergeant Shellee Peters. Peters came to the police department in January 1991 and served Cohasset for 17 years. An officer, currently at the Police Academy, has been hired to replace Treanor's vacated position. Hussey said the police will be hiring another new officer to fill an open position vacated when an officer took a job for the Quincy police.

Saint Stephen's accepting book donations

Saint Stephen's Episcopal Church, 16 Highland Ave. is accepting donations of slightly worn hardcover and paperback books, books on tape, DVDs, and CDs for its annual book sale, part of the ecumenical Village Fair that will be held this year on Dec. 6 on Cohasset's scenic Common.

Donations can be brought to the church in bags or boxes and placed inside the parish hall door marked "Church Offices". Use the "reserved parking" spot to unload your books during church office hours Monday through Friday 8 a.m. to 2 p.m. Books are sorted at St. Stephen's Church in Walton Rodgers Hall every Tuesday from 9 to 11 a.m. Donations will be accepted through Nov. 25. Old textbooks, romance novels, damaged, musty or moldy books or books with notes and/or highlighting cannot be accepted. For information, call D'Anne Avotins at 781-923-1104

The monies raised from the Book Sale will be used to send underprivileged children and their families to the Barbara C. Harris Camp in Greenfield, N.H. For more information about this facility, visit www.bchcenter.org.

POLICE BEAT

Traffic enforcement is part of regular routine

By Mary Ford
MFORD@CNC.COM

Calls and complaints to the police about traffic issues on Cohasset streets are a common occurrence.

Over the past week, two such calls were logged in. One caller asked for traffic enforcement to curtail speeding on Forest Avenue by Forest Notch, the other asked about traffic enforcement on Cedar Street.

Chief James Hussey explained that police routinely monitor traffic in high volume areas such as both the north- and southbound lanes along Route 3A, where there have been numerous accidents.

Police will also monitor traffic in response to problem areas. Citizen complaints help alert police to speeding and other traffic issues.

The police "speed board," which has become a familiar sight around town and displays the speed of an oncoming vehicle, has proved to be a good tool. Hussey said the speed board helps educate motorists to the true speed they are traveling. Many motorists do not realize they are exceeding the speed limit on a particular street, he said.

"It can serve as an eye-opener or a wakeup call," Hussey said.

The chief explained that the speed board can be installed on a street in response to citizen complaints about speeding to send motorists message. Once the speed board is removed, police will follow up and issue tickets if necessary.

The speed board also provides police with the ability to collect data on traffic. The device can record how fast cars are going, he said.

Hussey said police welcome reports about speeding and other traffic infractions. He said it is particularly helpful if callers can provide a plate number so police can follow-up with the alleged offender.

"It can serve as an eye-opener or a wakeup call."
— Chief James Hussey

In some cases, with the help of the caller, police can seek court action against a motorist who is a repeat violator, he said.

Civil matter

Police spoke with those associated with a local business that is being dissolved to act both civilly toward each other and to handle any dissolution issues in civil court.

There are some problems about who will take what equipment, for example. Police received calls last week about a dispute in handling the matter. There were conflicting stories, police said.

Signs taken

Cohasset police have received a couple of complaints over the past two weeks about the apparent theft of campaign signs. The sign removal appears to be bipartisan, as complaints have come in about the removal of both Obama and McCain signs.

Driven home

A Hingham woman who was parked at the former Boatworks site on Route 3A by the Scituate Town Line, secured her car, and was driven home by police after police found her distraught and disoriented last week.

Police said she had parked there after having a dispute with a family member. She was checked out by the ambulance but refused medical treatment. Police did not think it was a good idea for her to drive, so they took her home.

Flat tires

A former girlfriend of a Cohasset man is facing vandalism charges and the charge of violating a restraining order after she allegedly let the air out of the tires in two of his vehicles last week.

Police said both the right side tires in the two vehicles were flattened.

The victim called police who investigated. The woman, who is 44, will be summonsed to court on the charges.

Traffic stops

- A 52-year-old Cohasset man will be summonsed to court for driving on an expired license following a traffic top at 6:40 p.m. on Saturday (Oct. 25) at Beechwood Street and Chief Justice Cushing Highway.

A police officer pulled the BMW over for a faulty license plate light. The officer ran the plate, which revealed the registered owner, had an expired license. The car was towed.

- An officer conducting radar along Forest Avenue clocked a Ford Escort traveling 46 mph in a 30 mph zone.

The officer activated the lights on the cruiser and pulled the car over at 8:10 p.m. on Sunday (Oct. 26). A computer check revealed the motorist, a 20-year-old Hull woman, was driving on a suspended license. She was able to call someone to take custody of her car so it did not have to be towed, police said. She is being summonsed on the suspended license charge.

Bike found

Local kids found an abandoned child's bike in the woods behind the tennis courts at Milliken Field and their father brought the red Next bike to the station where it was put into the abandoned bike inventory. Anyone missing a bike should stop by the station, police said.

Town Clerk readies for election

FROM ELECTION, PAGE 1

extra poll workers to ensure the lines keep moving.

"We've never had a problem in the past with long wait times, so I don't anticipate a problem," said Douglas. There are plenty of voting booths, so she is hopeful no voter will have to wait long.

At the last presidential election in 2004, where Massachusetts Democrat John Kerry challenged President George W. Bush, 85 percent of voters turned out at the polls. The Kerry/Edwards ticket won Cohasset with 2284 votes to Bush/Cheney's 2164 votes.

In Tuesday's state election other presidential tickets include: Baldwin and Castle (Constitution Party); Barr and Root (Libertarian Party); McKinney and Clemente (Green-Rainbow Party); and Nadar and Gonzalez (independent, no party affiliation).

US Senator John Kerry is facing a challenge from Republican Jeffrey K. Beatty and Libertarian Robert J. Underwood.

"The state is predicting 90 percent so we are expecting about that, but we are always hoping for more."

— Town Clerk Marion Douglas

State Senator Robert Hedlund, a Republican, and state Rep. Garrett Bradley, a Democrat, are unopposed. US Rep. William Delahunt, a Democrat, is unopposed. Neither Christopher A. Iannella Jr. who is running for reelection for Fourth District Councillor, Patrick W. McDermott who is running for Register of Probate nor Joseph A. Connolly who is running for County Treasurer have opposition.

John M. Gillis, Francis W. O'Brien, Thomas E. Gorman and Michael F. Walsh are vying for two County Commissioner seats. Gillis and O'Brien are the incumbents.

Of the Cohasset's 5,381 registered voters there is almost an even number of Republicans to Democrats, 1197 to 1199, respectively. The majority of voters, 2,973, are registered unenrolled. There are also two registered green-rainbow, six libertarians, one reform and two registered in the working families party.

Also prominent on the ballot are three binding statewide questions related to reducing and then eliminating the state personal income tax (Question 1); decriminalizing marijuana use and instituting a new system of civil penalties (Question 2); and prohibiting dog races on which betting or wagering occurs (Question 3). There is also a non-binding wind power question that will be on the ballot in several South Shore communities, including Cohasset (Question 4).

Nov. 4 ballot questions

Hingham and 10 other South Shore communities will have four ballot questions to consider Tuesday, Nov. 4. Questions 1, 2, and 3 are binding, while Question 4 is a non-binding Public Policy Question to register public opinion with legislators.

Question 1 – State personal income tax: A Yes vote would reduce the state personal income tax rate of 5.3 percent of federal adjusted gross income to 2.65 percent for the tax year beginning on Jan. 1, 2009, and would eliminate the tax altogether after Jan. 1, 2010. A No vote would make no change in state income tax laws.

Question 2 – Possession of marijuana: A Yes vote would replace the criminal penalties for possession of one ounce or less of marijuana with a new system of civil penalties. A No vote would make no change in state criminal laws concerning possession of marijuana.

Question 3 – Dog racing: A Yes vote would prohibit dog races on which betting or wagering occurs, effective Jan. 1, 2010. A No vote would make no change in the laws governing dog racing.

Question 4 – Alternative energy wind policy: This is a non-binding Public Policy Question on alternative energy wind policy to register public opinion to legislators representing the towns of Hingham, Hull, Cohasset, Scituate, Marshfield, Hanover, Norwell, Rockland, Braintree, and parts of Holbrook and Randolph.

The question reads: Shall the state representative from this district be instructed to vote in favor of legislation that would support the development of Cape Wind in Nantucket Sound and other possible future onshore and offshore wind power developments in Massachusetts?" Voters will be asked to vote either "Yes" or "No" on this question.

For further information about the statewide ballot questions, refer to "The Official Massachusetts Information for Voters" pamphlet recently mailed to every household or view this information online at: www.sec.state.ma.us. Click on the "Election Division" link and then click on the "Information for Voters Online Book" link under the "State Election 2008" heading.

Alumni Field transformation to turf on table

FROM TURF, PAGE 1

would be paid for by private contributions. The current construction estimate for the turf field is between $800,000 and $900,000. Track re-construction could also be wrapped into this project at a cost anywhere between $50,000 for a repair to $350,000 for a complete new synthetic track. Special Town Meeting is scheduled for Monday, Nov. 17.

Even though fundraising is still in a preliminary stage, Sports Partnership member George McGoldrick said they have received over $200,000 in private funding commitments.

McGoldrick went through a list of the project's positives. The current field is in disrepair and has chronic draining problems making the utilization of the field about two times per week. A turf field would be able to be used two to three times per day.

"It is like creating three new fields," said McGoldrick. Turf fields have about a 15-year life. Maintenance would only be a few thousand dollars per year based on other area school's maintenance costs.

An approval vote at Special Town Meeting would authorize the Board of Selectmen to borrow the amount being requested, provided the fundraising produces all the additional money necessary to undertake the project. In short, passage of the article would authorize the selectmen to borrow the money, not mandate it.

"We not asking for new dollars, only to take the money currently being literally put in the ground now."

— George McGoldrick, Cohasset Sports Partnership

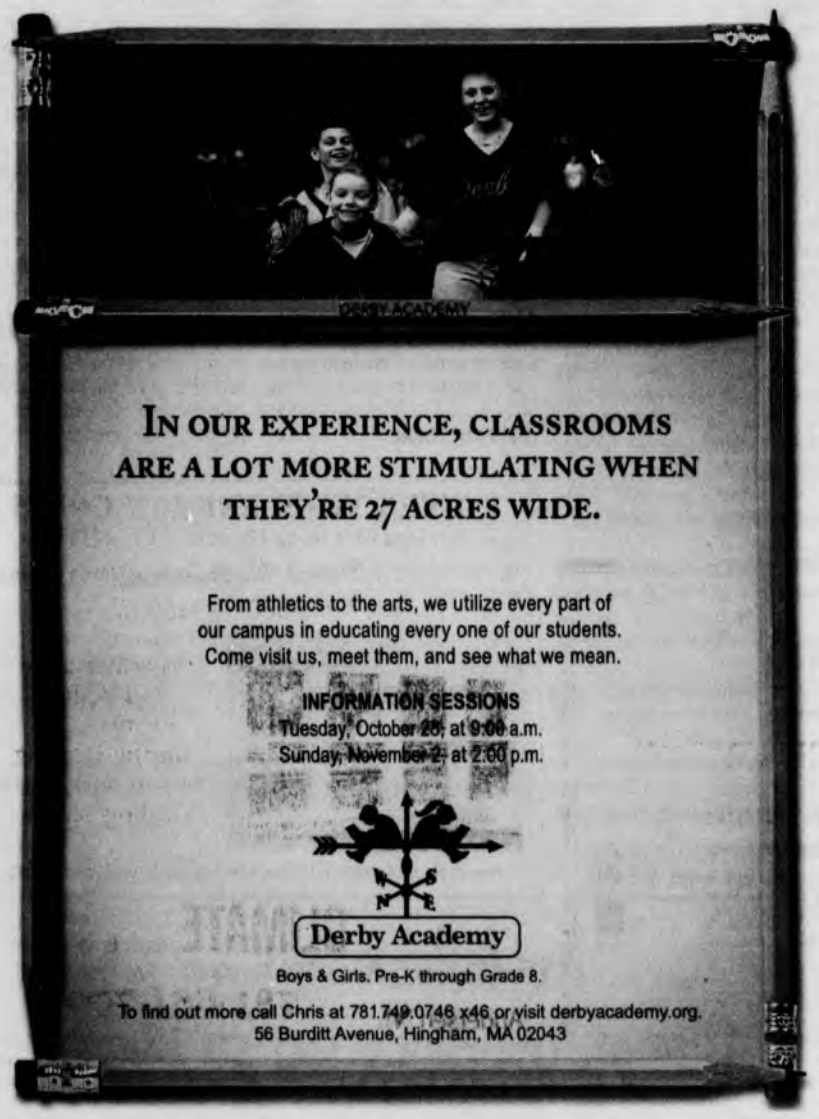
The Selectmen spoke highly of the project, but did have financial and procedural concerns.

"As a general belief I don't like to do things like this for Special Town Meeting," said Selectman Ralph Dormitzer. His reasoning was in November the town does not have a firm handle on next year's budget numbers. Yet, he said the bigger question would be if the article would pass at regular Town Meeting.

"We have to take a good look at the offset costs, but, of course, the risk at regular Town Meeting is the town may be short money," said Dormitzer, adding ideally he'd like to see a 50/50 public-private match.

The Partnership is proposing the existing money used to maintain Alumni Field (water, mowing, fertilizing etc.), which is estimated to be $35,000, be used to fund the turf field debt service. That money would also be coupled with an estimated $15,000 in revenues gained from increased field use and the implementation of user fees from youth groups and private athletic programs.

"We not asking for new dollars, only to take the money currently being literally put in the ground now," said McGoldrick.



The Selectmen had some questions as to the accuracy of the Alumni Field maintenance numbers, particularly with the water bills. The Selectmen asked Town Manager Bill Griffin to work with Finance Director Mike Buckley to get a firm numbers for their next meeting.

"If the numbers are right, from a financial perspective it makes good financial sense," said Selectmen Chairman Ted Carr.

Like the Selectmen have done with all the Special Town Meeting large spending articles, they are holding off making a recommendation. When the first spending items came before the board, they determined to get together with the other boards (Advisory Committee, Capital Budget Committee, School Committee) to get a better financial picture before making their recommendation.

Selectman Karen Quigley recused herself from the discussion on the turf field because she is an abutter to the school property.

The Selectmen will make their recommendations for Town Meeting articles on Monday, Nov. 10.

Effect of loss of state income tax

Resident spurs more conversation on Question 1

By Nancy White
NWHITE@CNC.COM

On Monday night, a discussion during the Selectmen comment period got a resident up from the comfort of her living room couch to get in the car and make her way to Town Hall. Adrienne MacCarthy of 85 Doane Street, and also a member of the School Committee, felt she had to respond to Selectman Paul Carlson's comments on Tuesday's ballot question 1, which could eliminate the state income tax.

During the comment period shortly after 7p.m., Carlson said the Selectmen had received a letter from Judith Chute of Beach Street asking what could be the ramifications on the town budget if the question passes.

"As a Cohasset resident I am very concerned that little has been said about the devastating effect that a yes vote on question 1 could have for the residents of Massachusetts, particularly the residents of Cohasset," Chute wrote. "I love living in this beautiful town but I cannot envision what it would be like if many services were cut back and my already high property tax were increased. Why has not a greater cry going out focusing on the possible consequences?"

In response to the letter, Carlson talked to Town Manager Bill Griffin about the portion of the town budget that comes from state sources.

"State aid is only about 10 percent of the tax levy," said Carlson. "It's not huge."

State aid is about $2.5 million and the tax levy is about $26.5 million, or about 9.4 percent. The operational budget, including schools, is about $36.5 million.

Carlson said he did the math and for him, and he guessed many in Cohasset, the elimination of the state income tax and the inevitable increase in property tax would be less than what he was paying now in state income tax.

"State aid is only about 10 percent of the tax levy. It's not huge."
— Selectman Paul Carlson

To that Selectmen Karen Quigley said, "we must be in different tax brackets."

The other Selectmen made no other comments at this time.

As a motion from the Board of Selectmen to adjourn was put on the table MacCarthy raised her hand to speak from the audience.

"I think the issue (of Question 1) needs more discussion and another perspective," said MacCarthy. "I don't think you can leave the public thinking (the loss of state income revenue) is not going to be a big deal."

MacCarthy said the schools received state money for their full-day kindergarten program, special education (circuit breaker), METCO program and Deer Hill STEM (science, technology, engineering, and mathematics) lab. She also mentioned things like plowing of Route 3A, a state highway, could be affected.

"If the income tax goes away, those things go away," said MacCarthy. "It may not devastate your side of the budget, but it will devastate the schools."

MacCarthy informed the Selectmen of the School Committee's recent 3-1 vote to oppose Question 1. MacCarthy said with the way the economy and that state budget is going, the town could stand to lose that funding anyway.

"There's no more rainy days…the point is state income tax pays for a lot more on the school side," said MacCarthy.

Carlson explained his point. He said while other cities towns would be severely impacted by the loss of tax revenue, Cohasset would not be as it comparatively relies very little on state aid.

Then, the conversation really got going. Selectman Fred Koed brought up the effect the loss of state income tax would have on state services many across the state depend on to live their day-to-day life. "There are lots of lives in jeopardy," said Koed.

Quigley said it may be harder for some segments of the population, like seniors on fixed incomes, to contemplate a drastic property tax increase as might be required without state income tax revenues.

MacCarthy said the town did not pass an $800,000 in 2006 override and may have a difficult time passing a $2.5 million override should Question 1 pass.

Town Manager Bill Griffin has said "the repeal of the income tax would have a devastating impact on town services. Even though we do not receive as much state aid as a lot of communities, a significant loss would be extremely difficult to address without a large override or reduction in services."

The Selectmen did not issue a statement or take an opinion vote on Question 1. At the polls, Massachusetts voters will decide whether to repeal the state income tax. The result of the ballot question is binding.

A Yes vote would reduce the state personal income tax rate to 2.65 percent for the tax year beginning on Jan. 1, 2009, and would eliminate the whole tax beginning on or after Jan. 1, 2010. A No vote would make no change in state income tax laws. Massachusetts has a flat personal income tax rate of 5.3 percent of federal adjusted gross income.

Rain gardens are doing their job

Initial testing shows decrease in nutrients

By Nancy White
NWHITE@CNC.COM

Over the past two years, the Water Commission has installed 36 rain gardens and other low impact development designs throughout the Lily Pond watershed. It was the aim of the rain gardens to capture and clean the first flush of rainwater, which is usually the dirtiest, before it makes its way to the town's drinking water supply.

The initial results are in and the outcome is encouraging.

"We're seeing a dramatic decrease in nutrients and contaminants," said Water Commissioner John McNabb.

A recent sampling done by Norfolk Ram, the engineering firm behind all the Water Department's low-impact development, showed a drastic decrease in the amount of nitrogen (31 percent), phosphorous (58 percent) and petroleum hydrocarbons (85 percent).

While McNabb can't quantify the effect the decrease of nutrients will have on the water treatment plant, but said anything that improves the water quality in Lily Pond reduces the amount of work the plant has to do to clean the water. The cleaner water could increase the life of the filters, reduce plant costs and improve drinking water quality, said McNabb.

"This is a passive way of cleaning the water," said McNabb.

Lily Pond is the water supply for 90 percent of Cohasset's drinking water and the Water Commission found a few years ago that it received more nutrients and pollutants from its watershed than what was predicted for good water quality. The Water Commission tackled the problem in a two-prong approach — use low impact development (rain gardens) in the highly developed areas of the watershed and protect the undeveloped open space.

The town will vote whether to support the establishment of a conservation restriction on nearly 200 open space acres in the watershed.

The rain garden project was financed in part by a grant administered by the Massachusetts Department of Environmental Protection. The town received $255,000 in grant money; the rest of the project was funded by the Water Department through a low interest state-lending program. The entire project cost around $735,000, including design, permitting and construction.

Studies leading up to the rain garden project showed much of the nutrient and pollutant loading problem came from the Peppermint Brook sub-basin, located near Clay Spring Road, Route 3A and King Street.

The project was divided into three phrases. The first phrase was completed in 2006 with the construction of five rain gardens and two bioretention swales. The second phase was completed in spring 2008 with the construction of 15 more rain gardens and on oil water separator at the intersection of Route 3A and Pond Street to protect against associated oil/gas spills. The final phase of the project was completed in early summer of 2008 and included the installation of a further 13 rain gardens. In total 36 stormwater "best management practices" were constructed.

All the rain gardens were installed on town land, but the Water Commission worked with the abutting residents to ensure the project was something they could live with. In some cases, residents opposed it and the Water Commission sought other locations or abandoned that site.

While other communities are catching on to rain gardens and other types of low impact development, Cohasset is a pioneer.

"It's not a widespread practice, but it's catching on where people hear about them…this report shows the rain garden success and it's popular with many people," said McNabb.

The Water Commission plans to do another round of testing next year to allow all the rain gardens to take root and be operating at their full effectiveness. The Water Department is still perfecting the maintenance piece of the rain gardens; some are getting filled with leaves and other debris. In addition, Norfolk Ram recommended sampling during a storm event to determine the mass loading percentages.

LIBRARY CORNER

See 'Miracle Worker' on Nov. 7

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road. For more information, call 781-383-1348.

Movie Matinee – The library will show the film "The Miracle Worker" starring Patty Duke and Anne Bancroft at 11 a.m., on Friday, Nov. 7. The Friends of the Library will provide light refreshments. Movie site license sponsored by Friends of the Library and Cohasset Democratic Town Committee. The movie is free and all are welcome.

Author Visit –Kathleen Kent, author of "The Heretic's Daughter," will discuss her new book at 7 p.m., on Wednesday, Nov. 12. The book is a liteary imagining of the events surrounding the Salem witch trials. Kent, a descendant of one of the first women to be accused as a witch, brings her family's legacy to life. Copies of the book will be available for purchase. All are welcome to these free events.

Independent Film Night – The library will show the independent film "The Grocer's Son" at 6 p.m., on Thursday, Nov. 20. Free admission and free refreshment courtesy of the Friends of the Library.

Art Exhibit – South Shore Art Center will present an exhibition of paintings by Marshfield artist Mary Callahan at Paul Pratt Memorial Library, Nov. 3 through Dec. 31. Callahan is a director of the New England Watercolor Society, a Copley Master in the Copley Art Society, a signature member of Allied Artists of America in New York, and a gallery member of many other art organizations. She has had numerous solo exhibitions in Boston and the South Shore, and group exhibitions at the Guild of Boston Artists, Prudential Center, Harvard Club of Boston, Provincetown Art Museum, Cahoun Museum, Attleboro Museum and National Arts Club, New York. Her impressionist watercolors have earned more than 150 awards from national, regional and local exhibitions. Callahan teaches watercolor painting at South Shore Art Center in Cohasset and North River Arts Society in Marshfield Hills.

FOR CHILDREN

Family Literacy Month – Join others at 3 p.m., on Sunday, Nov. 16, in the Meeting Room to celebrate Family Literacy Month with an interactive musical show featuring the Toe Jam Puppet Band. Free tickets may be picked up staring Nov. 10, at 10 a.m. For more information about the Toe Jam Puppet Band, go to the Web site at toejampuppetband.com.

MamaSteph – Performances at 10:30 a.m., on Mondays, Nov. 3, 10, 17 and 24, in the Meeting Room. Join others for children's music and more. Doors close promptly at 10:35 a.m. Funded by Friends of the Cohasset Library. All ages and communities are welcome.

Drop In Story Time – In the Story Room at 10:30 a.m., on Tuesdays, Nov. 4, 18 and 25. All ages and communities welcome.

Drop In Crafts – Create In the Story Room from 10:30 a.m. to 1:30 p.m., on Thursdays, Nov. 6, 13 and 20. Just drop in to make a craft. All ages and communities welcome. Children must be accompanied by an adult.

Cohasset resident earns Legacy Award

Simmons College President Helen Drinan, a Cohasset resident and respected leader in the Boston health care and business industries, has been awarded the 2008 Legacy Award by Boston Women Communicators (BWC). The award recognizes Drinan's achievements and commitment to professionalism in communication, the advancement of women's careers, and her efforts to ensure gender equity in the workplace.

Drinan was honored at BWC's 14th Annual Legacy Award celebration Oct. 27, at the French Library & Cultural Center in Boston' Back Bay.

COURTESY PHOTO

Helen Drinan of Cohasset

Drinan became president of Simmons College in July 2008, after serving as a member of the Simmons College Board of Trustees since 2003, and board chair since 2007. She is an alumna of two Simmons graduate programs: the Simmons School of Management and the Simmons Graduate School of Library and Information Science.

Drinan previously worked for nearly two decades at BankBoston Corporation and for several years as senior vice president of Caritas Christi Health Care System, the second largest health care system in New England. While at Caritas, she was recognized for cultivating a culture focused on inclusion and respect.

Additionally, she has served on the board of directors of Blue Cross Blue Shield of Massachusetts since 1995, and was president of the Society for Human Resource Management, the world's largest professional association devoted to human resource management, from 2000 to 2002.

Have you seen Riley, the cat?

AROUND TOWN
JENNIFER PIEPENBRINK

COURTESY PHOTO

Riley, who is missing, is de-clawed and has a pink collar.

HAPPY HALLOWEEN!

Happy Halloween Cohasset! Have so much fun tonight while Trick-Or-Treating and remember to stay safe.

The weather is so nice and perfect for tonight, enjoy.

If by any chance any preteens, teens or other people who may be thinking about pumpkin smashing read this before you head out, please remember that you were once a young child who loved to carve your pumpkin and put it outside for everyone to see. When you smash one for that 2-3 seconds of what you view as "fun," the child who that pumpkin belonged to will be sad for a lot longer than that, just like you would have been a few years ago when you were little. Have a fun night, receive a lot of tasty treats and try real hard to keep the "TRICKS" to a minimum.

SPACE SHUTTLE

Here is a really cool piece of news that we as a community are all so proud about. A CHS alumni is headed into space next month on the space shuttle!!

Steve Bowen, CHS class of 1982, is a Mission Specialist on the upcoming NASA Endeavor flight STS-126, scheduled to launch on Friday, Nov. 14th.

To read more about it go to,

http://www.nasa.gov/mission_pages/shuttle/shuttlemissions/sts126/index.html

and to leave him and the rest of the crew a special message, go to :

http://www.nasa.gov/mission_pages/shuttle/main/sts126_comments.html.

Also, if you are in the area and would like a special treat in honor of Steve Bowen, take a trip into Nona's Ice Cream in Hingham Center to try an original flavor picked out by Steve himself! No giving the secret away so if you want to find out what it is, go and sample the treat. Chrissy Pompeo, owner of Nona's was caught buying the ingredients and it sounds like it will be a super yummy treat.

TURKEY GIVEAWAY!

The Red Lion Inn announces it will, for the fifth year in a row, be sponsoring the Great Turkey Giveaway on Nov. 22nd. The Red Lion will donate turkeys to several of the area food pantries to help those in need. The turkeys will be available for pick-up (with the appropriate vouchers) on Saturday, the 22nd at the Inn between 9 a.m. and noon.

Gerd Ordelheide, the proprietor of the Inn, takes his Civic responsibilities very seriously and believes the Inn, with a History dating back to 1704, should be a vibrant part of the area community. During each year the Red Lion Inn sponsors several functions and donates its facilities and services for local charities.

BOSTON UNIVERSITY

Boston University awarded academic degrees to 1,576 students in September. Cohasset residents receiving degrees were:

Laura E. Vigneau, master of science degree in computer information systems; and **Caroline B. Steele**, bachelor of arts degree in psychology, magna cum laude.

MISSING CAT

Oh my goodness, here is a message from a loving cat owner to all in town who are reading this. All should be on the lookout for a missing cat from the Linden Drive area. **Riley** is a "maine-coon" cat with a black/brown/gold color combination, white paws and green eyes. She is de-clawed and has a pink collar.

Please call 781-383-1261 if found.

2003 REUNION

Just a reminder that the five year reunion for the CHS class of 2003 will be held Wednesday, Nov. 26th from 7-11pm at the George Mealy American Legion Post, 98 Summer St.. Make your parents happy by coming home for Thanksgiving. Then catch up with old friends and share your new exciting experiences. Appetizers and drinks will be served.

Questions? Contact **Curt** (curt.cahn@gmail.com) or **Ross** (rliebhappen@gmail.com).

AUTHOR TALK

The Paul Pratt Library and Buttonwood Books welcome author **Kathleen Kent** on Wed. Nov. 12, 7 p.m. at the Paul Pratt Memorial Library, 35 Ripley Road. Kathleen is discussing her book, "The Heretic's Daughter," a fictionalized account of her ancestor, Martha Carrier, one of the first women to be accused, tried and hanged as a witch in Salem. The book, based on fact and family lore, is a mesmerizing and enticing narrative. Kathleen Kent lives in Dallas with her family. This s a free event and refreshments will be served. Hope to see you there.

OUR WORLD

Some new classes, programs and workshops are happening at the Our World Museum for children of many ages.

There are programs in drama, cooking, art, Mr. Dykas classes, music and more. For more information call 781-383-3198 or check out the Web site at www.ourworldcgdm.org. Holiday Happenings at Our World is also getting ready with many other programs and nights for November and December. A whole lot of fun for all!

That is all the news for this week. Send in messages no later than 5:00 pm on Tuesdays.

Performers John DiFranco and Lilly Sestito have a little fun during their dress rehearsal.

Watch for performers Catherine Umano and Elvis (John Taylor) in the Cohasset Cabaret on Nov. 7th and 8th.

Elvis (John Taylor) has his hair adjusted by Cabaret performer Arpy Aghazarian.

Life is a Cabaret!

Variety show fun for one and all

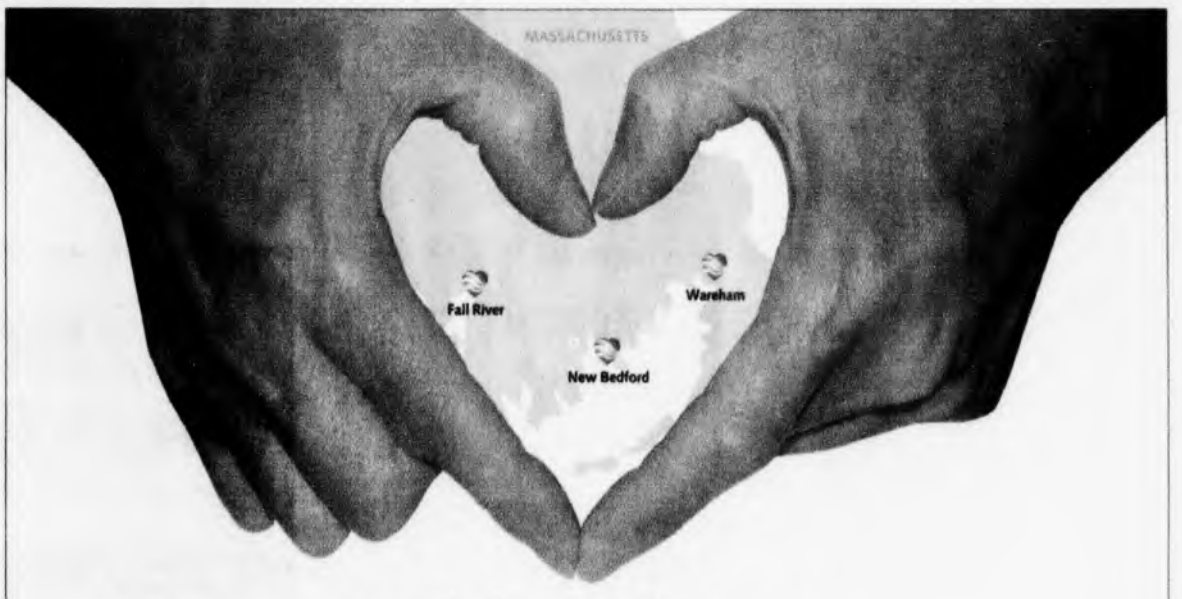
Cohasset Cabaret, a show featuring singers, dancers and comedians, will present its second annual show Friday and Saturday, Nov. 7 and 8, at St. Anthony's Church hall.

On both evenings, a social hour will take place from 7 to 8 p.m., where attendees can try their luck at the raffle table that will have items from local artists and merchants. Audience members are encouraged to bring their own snacks "cabaret style" or there will be a selection of sandwiches. A cash bar will serve wine, beer and soft drinks. Cohasset Cabaret is sponsored by the Friends of Cohasset Elder Affairs and will benefit the Friends of St. Anthony Youth Ministry.

Tickets are on sale, and cost $25 each. Tickets can be purchased at St. Anthony Parish Hall and the CEA office at South Shore Community Center. For more information, call 781-383-0021.

Emcee Doug Trudeau,of Scituate and Arpy Aghazarian clown around a dress rehearsal for Cohasset Cabaret.

From left: Kate Kelly, Doris Seroll, and Lilly Sestito pose for a photo during their dress rehearsal Wednesday evening at the Hingham Community Center.



The Cohasset Cabaret will present its second annual fundraiser for Friends of Elder Affairs Nov. 7th and 8th. Pictured from left to right is emcee Doug Trudeau; musical director Tom Boyer, and director -producer Blanche Clark.

Top rated heart care, minutes away.
When you need heart care, you want the best quality and experience you can find.
You want advanced treatment options:
Angioplasty and stents, heart rhythm services, open heart surgery, a heart cath lab that's available all day, every day.
Good outcomes:
Our heart surgery and angioplasty outcomes are as good as Boston's and our patient satisfaction ratings are 100 percent.
Personal care:
Our surgeons and cardiologists spend a lot more time with their patients. And there's the comfort of being close to friends and family.
That's what you'll find here at Southcoast Hospitals.
One of New England's heart care leaders, just minutes away.

Atlantic Symphony celebrates the spirit of America

By Roy Harris
SPECIAL TO THE MARINER

On Saturday, Nov. 1, just three nights before the national election, the Atlantic Symphony Orchestra opens its new season with a program that celebrates the resilient spirit of America — and its foundation as a beacon for people around the world.

Aaron Copland's powerful "Lincoln Portrait" highlights the evening, with the inspirational words of the great president read by Boston television journalist and Cohasset resident Anthony Everett. The co-host of WCVB-TV's "Chronicle" news magazine has long been fascinated by the timelessness and eloquence of the oratory and writings of Abraham Lincoln.

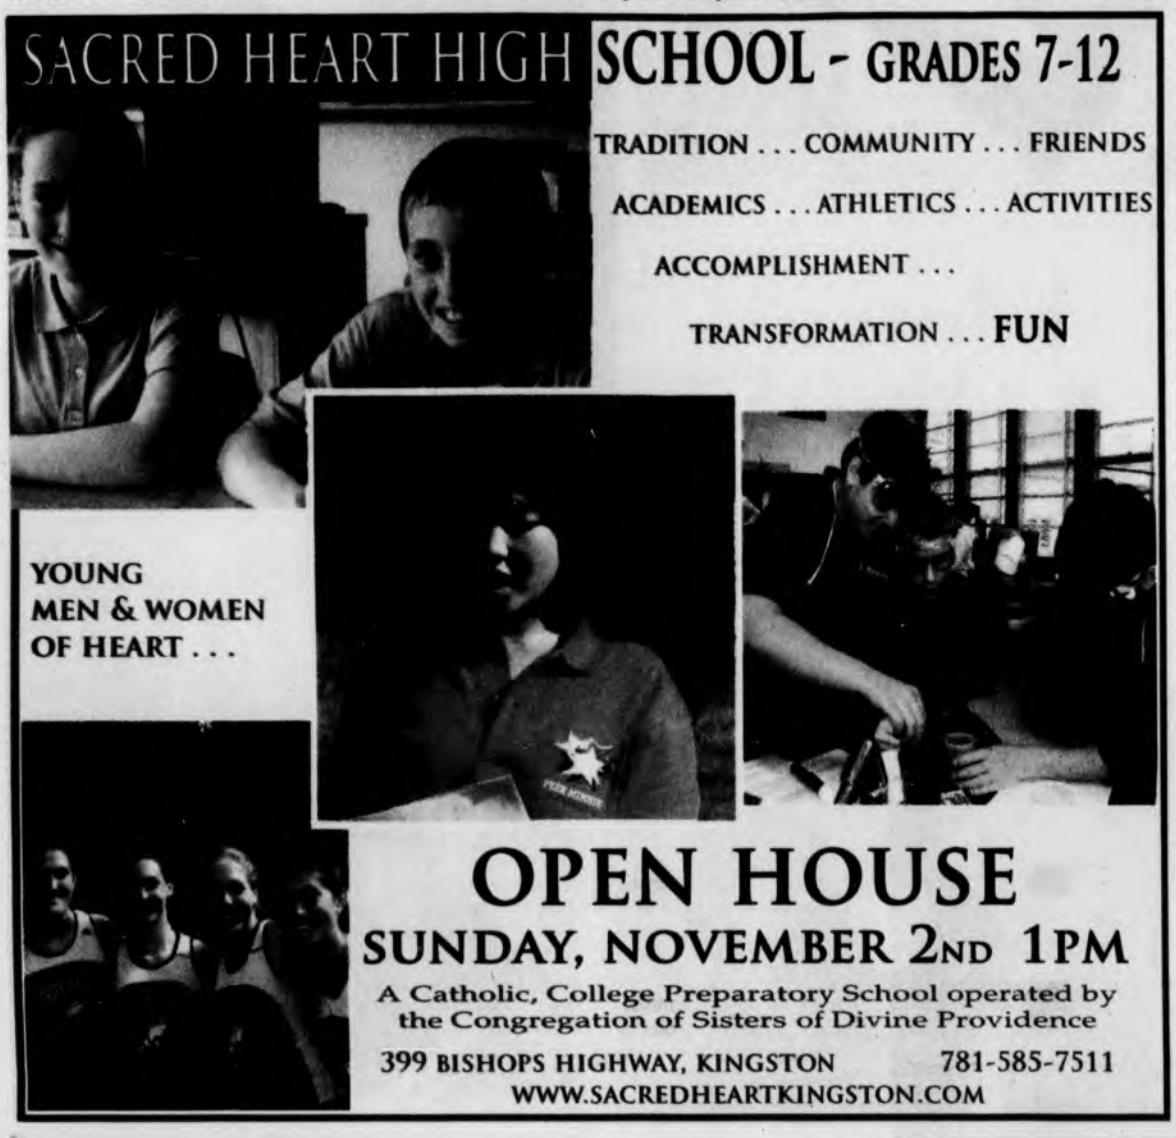
"To be able to pause right now – with a crucial presidential election so close to us – offers a great opportunity," according to Everett. "Lincoln said, 'The occasion is piled high with difficulty, and we must rise with the occasion. As our case is new, so we must think anew and act anew.' His words ring as true today as they did in his time. Lincoln Portrait reminds us that our nation has endured many tumultuous periods, testing many generations before us."

"...Lincoln Portrait reminds us that our nation has endured many tumultuous periods, testing many generations before us."
Anthony Everett

In the Atlantic Symphony's Masterworks Opening Night program, "Lincoln Portrait" is just one of the national musical treasures with American connections. It also features Copland's majestic "Fanfare for the Common Man" and Gershwin's exuberant "An American in Paris," along with Dvorak's Symphony No. 6. Conductor Jin Kim chose the program with America's essence in mind. "Many people don't realize that Copland was a product of the New Deal in many ways," said Kim. "After World War II, several of his important works were funded by the U.S. government. As ambassadors of American music, people immediately think of Copland and Gershwin. Their style was immediately embraced as 'American.'" Kim included Dvorak in the program as a nod to the influential years late in his career that the Czech composer spent living here as an ethnomusicologist, performer and teacher.

Boston news personality and Cohasset resident Anthony Everett is doing the narration for "Lincoln Portrait" at the Atlantic Symphony Orchestra performance.

The concert begins at 7:30 p.m. at the beautiful, accessible Duxbury Performing Arts Center, 130 St. George St., just minutes from Route 3A. Conductor Kim gives a pre-concert talk at 7 p.m., and there is a post-concert reception. Tickets (adults $25, seniors $25 and youth $10) are available at the door, or may be purchased in advance at www.atlanticsymphony.org or 781-740-5694.



Everett charmed a Symphony Hall audience last December with his reading of "A Night Before Christmas" with Keith Lockhart and the Boston Pops. The Christmas program had special meaning to Everett. "I always read that to my children," he said, "so it had a forceful connection when I performed it with the Pops." His 7-year-old daughter Claire and 15-year-old son Alexander were in attendance for the Symphony Hall performance, as was wife Lydia. His first experience with musical narration "hooked" him, he said. And now he is back – with a reading that should bring chills.

Everett has a special connection with "Lincoln Portrait," as well. Because his given first name is Edward, he shares his name with the Massachusetts orator forever known as the man who spoke just before Lincoln's Gettysburg Address – which holds a place of honor in the Copland work. Edward Everett is perhaps equally famous for his gracious letter to the president, telling Lincoln: "I should be glad, if I could flatter myself that I came as near to the central idea of the occasion, in two hours, as you did in two minutes." Anthony Everett said, "Because of that name connection, I've been a fan for years of that entire story about Edward Everett's long speech and Lincoln's brilliant and concise one."

The Nov. 1 Masterworks Opening Night gala, conducted by Jin Kim, comes on the heels of the orchestra's special Oct. 18 performance for the opening of Thayer Academy's new Center for the Arts in Braintree. In a profound display of the Atlantic's versatility, it joined with the rock group Aerosmith's Steven Tyler in a thrilling rendition of the Aerosmith hit "I Don't Want to Miss a Thing."

The Atlantic Symphony's 2008-2009 regular season of five symphonic concerts, along with chamber performances, educational programs and special events, continues Dec. 6 and 7 with two Joyful Noise Fire & Ice presentations. The first will be at the new Thayer Academy Center for the Arts, and the second at St. Anthony's Church in Cohasset.

But, said Everett of this first pre-election concert, "It is a presentation that couldn't be coming at a more appropriate historical moment."

Ridership growing and shopping plaza on the way

FROM GREENBUSH, PAGE 1

ingle busiest month yet for the arking lots along the reenbush Line. In December 007, a total of 18,262 motor ehicles parked in the lots at reenbush Line stations. The tal for last month was 26,740.

"The new railroad is already taking thousands of motor vehicles off the roads," said Grabauskas.

The Cohasset station has contributed its share of the growing parking numbers.

"The growing number of motor vehicles parking at Cohasset Station is a strong indicator of the Greenbush Line's increasing popularity," said Joe Pesaturo, spokesman for the MBTA. In December 2007, a total of 2,494 cars parked at the station (an average of 125 per day). Last month, a total of 3,793 cars parked at the station (an average of 190 per day).

But, the number of cars is not indicative of the whole picture; many commuters are dropped off at the station minutes before the train pulls in.

The town's Greenbush liaisons Tom Gruber and Mark Brennan have been out counting the cars in the parking lot periodically for the last year. On its first day of operation there were 75 cars in the Cohasset Station lot and their most recent count earlier this month has 190 cars and bikes. Their informal counting does not include those riders who get dropped off. Gruber said the MBTA projections for 2010 were 210 riders so Cohasset should be right on track.

In December 2007, a total of 2,494 cars parked at the station (an average of 125 per day). Last month, a total of 3,793 cars parked at the station (an average of 190 per day).

"By and large from what I've seen, the train has been a roaring success," said Gruber. "Everybody I know who rides it, loves it."

From the police perspective, the first year of the active Greenbush tracks has gone fairly well, said Police Chief James Hussey. While in the first few months there were multiple instance of glitches to the grade crossing system, he has noted a steady decline.

"Over the last two months there have been very few instances. Those glitches seem to have been worked out," said Hussey, adding whenever there was a problem in Cohasset the MBTA was responsive.

The police maintain a zero tolerance policy when it comes to trespassing on the tracks and have had at least three arrests in the last year.

"I'm not sure what we expected in terms of trespassing, but our enforcement will remain vigilant," said Hussey. The North Main Street crossing was plagued with problems — bike accidents and cars driving onto the tracks were the two major issues. In recent months, those issues have been addressed through new street lining and the addition to two bike paths on either side of the road.

"Time will tell (if the fixes prevent further accidents)," said Hussey.

The police will continue to education the town's youth in train safety, "Operation Lifesaver," on an annual basis.

PHOTOS/LAURA SINCLAIR

The Greenbush train arrives in Cohasset Station from Boston during the afternoon commute.

The shopping plaza, dubbed "Old Colony Square," will be a two-story complex with 33,000 square feet of first floor retail/commercial space in conjunction and 22,000 square feet of residential space on the second floor.

Old Colony Square on the horizon

As much change the Cohasset station has given to Route 3A, more change is on the way. The transit-oriented district mixed-use development is under construction. Construction workers have been working on the site, beginning the first stage of construction for about a month. Along with the development will be the installation of a traffic light (a traffic light at the intersection of King Street is also forthcoming with the Scituate Hill project).

The five-acre site, formerly home to a small strip of stores and a boat storage center, is adjacent to the MBTA station right. Within the next year, it will look a lot different with a new community of shops, restaurant and apartments.

The developer, Connell Cohasset Greenbush LLC, an affiliate of New Jersey-based Connell Real Estate & Development Co., brought forth plans for the town's first — and only — transit oriented overlay district, or TOD. The mixed-use project received site plan approval from the Planning Board last fall.

The shopping plaza, dubbed "Old Colony Square," will be a two-story complex with 33,000 square feet of first floor retail/commercial space in conjunction and 22,000 square feet of residential space on the second floor.

The project will be the town's first and only transit-oriented district project. The TOD bylaw, which has been sunset, complements the state's "smart growth" initiative. The development has done its best to comply with the spirit of the TOD bylaw, as defined in the town's zoning bylaws and as encouraged by the state's "smart growth" initiative. The intent of TOD developments is to encourage sustainable living by locating a high-density, mixed-use center near public transportation. The idea is to take cars off the road and create pedestrian friendly living.

"I think it is going to be dynamite," said Tom Gruber, the town's Greenbush liaison. "I think it meets the full intent of the TOD concept and tightly integrates business, residences and transportation."

Architectural renderings of the project show varying roof heights, different storefront façades, cupolas and a clock tower centerpiece. During the site plan review, the developers indicated they would look for smaller retailers, not big box stores, to occupy the storefronts. Coffee shops, drycleaners, small restaurant chains, a fitness center and other independent retailers were offered as examples during the site plan review process.

A separate building situated closer to Chief Justice Cushing Highway (Route 3A) is slated for a 3,400 square foot bank with a drive-thru.

Above the first floor retail in the main building will be 14 to 18 apartments, a combination of one- and two-bedroom units. Two of the apartment units will be qualify as affordable under the state's Chapter 40B to comply with the town's inclusionary bylaw. Chapter 40B is the state's affordable housing law.

On site, the plans call for roughly 200 parking spots.

OPINION

EDITORIAL

Make history on Nov. 4

The 2008 presidential election will make history.

This election represents the most crucial turning point in our country's history in decades.

This election will determine our path, the very nature of our country, for decades to come.

Next Tuesday, voters will chose either the McCain/Palin or Obama/Biden team to lead our country.

The outcome will be of momentous importance on two levels.

No matter who occupies the Oval Office, one more political glass ceiling will be shattered.

On Nov. 4, we will elect either the first black president or the first female vice president.

This election will be a landmark in our history.

More importantly, this election is about fundamental changes that could reshape our nation. In the months ahead, the president of the United States will guide the restructuring of our economy, revisit how we conduct foreign policy, and determine the nature of our defense against terrorism.

There is much at stake here.

Each candidate has a vision of what the United States will be.

In the hands of the most powerful man in the country, a vision is more than a poetic statement.

The president has the power to make his vision a reality.

His vision will become our reality.

We need to examine each candidate's vision; what shall our country become?

We need to understand the somber responsibility we carry.

Our responsibility is to make a prudent decision in the voting booth in this key election.

Bob Dylan once said, "A hero is someone who understands the responsibility that comes with his freedom."

So, be a hero.

Be a part of making tomorrow's history.

Vote on Nov. 4.

The Halloween spirit is all over town... even on the Sohier Street speed controller

HAMILTON

LETTERS TO THE EDITOR

A nice Treat for the few

TO THE EDITOR:

As noted prominently on the front page of last week's *Mariner*, the majority of our selectmen wish to educate the public about the proposed Treat's Pond "remediation" project before allowing a vote at town meeting on whether to proceed with it. In this spirit, I would like to dispel one persistent falsehood concerning the Army Corps of Engineers' (ACE) intent to connect Treat's Pond to Cohasset harbor — that to vote against this project would deprive our community of $1 million or more in federal funding.

According to the 2005 census, Cohasset has 7,222 inhabitants. Only 20- 25 of them live close to Treat's Pond and stand to benefit from federal funds associated with the ACE project. These thus provide at least $50,000 per Treat's Pond person. The remaining 7,200 members of our community will be less fortunate. Instead of a handout, we will receive polluted Treat's Pond water piped into Cohasset harbor and a bill for at least $600,000 to provide the non-federal, matching money that the ACE project requires by law. This large public contribution notwithstanding, Treat's Pond and adjacent Sandy Cove remain private property; indeed two Cohasset residents and taxpayers were threatened recently with trespassing charges for setting foot on this very site.

The Treat's Pond project is apparently on hold until the town decides whether or not to commit its share of the required matching, non-federal funds. This provides a golden opportunity to halt this expensive piece of pork, save the town upwards of $600,000 in matching funds and develop fairer, inclusive remedies for Cohasset's flooding problems.

Chris Evans
36 Sohier St.

More retail needed downtown

TO THE EDITOR:

As a former resident of Cohasset, growing up in the 60s and 70s, no doubt I was one very fortunate child. Visiting my mom lately, I am struck by the absence of anything for sale "downtown" except real estate. What once were retail shops now are window after window showing off property and homes. Not much else!

Something hollow and foreboding about this. As a kid, I might wonder is everything up for sale? Like a living room covered in plastic. You can look but don't touch.

Tough times in paradise.

On close inspection of property Sothbey's has for sale: The lot listed is behind the Town Hall on Highland Avenue but the picture in the ad shows Little Harbor from Mohawk Valley marsh.

The ad boasts boat storage at Cuba Dam. The Realtors might as well have dropped in from Mars. But does anyone notice?

Once a townie – Peter Hubbard,
Chelsea

Response to recent 'Wind Advisory' email

TO THE EDITOR:

Re: Recent e-mail from "Cohasset Wind Advisory Committee:"

The Alternative Energy Committee wants to respond to the recent email that was circulated throughout town on Monday Oct. 20.

This anonymous organization has no official connection to nor is sanctioned by the AEC or town government. This unsigned email has no connection to any member of the Cohasset Alternative Energy Committee.

No member of the AEC is connected in any way to this anonymous organization.

The Cohasset AEC continues to support the development of energy conservation efforts along with renewable energy alternatives including wind resources in our town. The AEC continues to support the Cohasset Heights Wind project.

We urge local residents to attend the Dec. 1 Planning Board meeting to hear the facts for themselves.

Andrew Willard, Chairman
Rod Hobson
Mike Bliss
Sally Ayers

No cards, give food

TO THE EDITOR:

I cannot stop thinking about the news stories that I have watched on TV this past week regarding the current plight of food pantries across the state of Massachusetts. Not only did I see pictures of empty shelves, but also lines of jobless and hungry people outside their doors. Due to the current economic situation in our country, this year I have decided that the $100-plus that I spend on holiday cards and postage stamps will be spent on a few bags of food for local food pantries. This is something easy that we can all do.

This food pantry crisis across our state and country is real. Some people are losing everything that they have worked for. This year, people are going to go without food in Cohasset, Scituate and in communities across our state. Let's stock those shelves together. I hope that you will consider joining me in dropping off a few bags of much-needed food at these pantries. I know that my friends can go without a family picture from me for one year!

Not only will we be making the life of someone in need a little easier, but consider the joy it will add to your own holiday season. I suggest that you use your gesture as a learning experience for your kids. Take them with you to deliver the bags of food and stock the shelves with them. Explain to them just what they are doing there. I think that you can look forward to their reaction.

Happy Holidays!

Jane Henderson
291 Fair Oaks Lane

Absentee ballots available for Nov. 4 state election

Absentee ballots for the Nov. 4 state election are now available at the Town Clerk's office. Absentee voting may be done during normal office hours up until noon on Monday, Nov. 3, when the office will close to prepare for the election.

Voters who are in town on Election Day and are able to come to the polls should vote in person. Only the following voters may use an absentee voting ballot: those absent from town during the hours the polls are open; those with physical disabilities; and those whose religious beliefs prevent voting at the polls on Election Day.

Applications are available in the Town Clerk's office or a written, signed request can be sent by mail, or hand delivered by the voter or any other person. The application should include the legal voting address of the voter, where the ballot is to be mailed, and the signature of the applicant. Also, applications may be downloaded from the Secretary of State's Web site, www.sec.state.ma.us//, and mailed or hand delivered to the Town Clerk's office. The ballot will be mailed to the voter.

Returned ballots should be mailed or can be delivered by an immediate member of the family to the Town Clerk's office by Nov. 4, 2008, to be counted.

Open space committee needs two more members

The Board of Selectmen voted to reconstitute the Open Space Committee so they can begin to manage the development of a town-wide open space and recreation plan. Selectman Karen Quigley, Sandra Durant and Recreation Director Ted Carroll were all appointed to the committee.

The development of a town-wide open space and recreation plan will allow the town to seek more state and federal grants. Carroll recently submitted an application for Community Preservation funding ($25,000) to have a professional develop the open space plan.

Two more citizens-at-large are needed to fill out the committee. If interested, send a letter to the Town Manager's office, 41 Highland Ave., Cohasset.

MEETINGS

The following meetings are posted at Town Hall:

Alternative Energy Committee, Nov. 18, at 7:30 p.m.,

Board of Health, Nov. 18, 7 p.m.

Capital Budget Committee at selectmen, Nov. 10 at 7 p.m.

Cohasset Housing Authority, Nov. 5, 1 p.m., 60 Elm St.

Library Trustees, Nov. 18, 7 p.m. at the library.

Planning Board, Nov. 10, 7 p.m.

Recreation Commission, Nov. 5., at 6:30 p.m.

Selectmen, Nov. 10 & Dec. 1 at 7 p.m., Nov. 17 at 6 p.m.

Sewer Commission, Nov. 25, 6 p.m.

School Committee, Nov. 5 & Nov. 19 at 7 p.m. at the high school

School Improvement , Nov. 5, 2:30 p.m., at the high school.

Troika, Nov. 18, 19, & 20 at 6:30 p.m.

ZBA. Nov. 5 at 8:30 a.m. & Dec. 3, at 7:30 p.m.

All meetings take place at Town Hall unless otherwise noted. Call the Town Clerk's office at 781-383-4100 for updates and additions.

Cohasset streets earn their stripes

MAKING TRACKS

TOM GRUBER & MARK BRENNAN

Yipes Stripes! — After what seemed like an eternity, the striper finally deigned to visit Cohasset over the past weekend. Consequently, Forest Avenue, South Main and parts of Beechwood Street now have a whole set of new paving markings.

We had received numerous comments from Forest Avenue residents looking for a crosswalk near the beach where the sidewalk crosses from one side to the other side of the road *(see photo)*. When Forest Avenue was first paved we were able to only paint the centerline, but no crosswalks or fog line (the white line at the edge of the road). The whole of Forest Avenue is now good to go, complete with a shiny new crosswalk.

The Story of Jacobs Meadow — As you probably know Jacobs Meadow is the meadow that is in the center of Town and surrounded by Elm, Border, Summer, Brook and Main streets. Jacobs Meadow collects all of the storm water from James and Stewart Brooks and releases it to the harbor through a channel next to the Legion building and then under Border Street. Essentially, all the storm water from the Lower King Street — Forest Avenue area to South Main Street beyond Sestito Lane is collected into this meadow. That's a lot of water, especially with a major nor'east type of rain event. The rate at which water can leave the meadow for the harbor is controlled by the tides and the capacity of the channel between Jacobs Meadow and the harbor.

This channel has developed serious problems and has been patched and shored up by the Town over the years. But, it is deteriorating rapidly. In the last 14 months it has narrowed by about 5 inches. Also, there is a rubble build-up in the channel that further impedes the water flow. These changes mean that water will leave Jacobs Meadow slower than it would have just two years ago. Should this channel collapse, storm water could build up in the meadow to a greater extent than it did in the Mother's Day Storm in 2006, which caused considerable personal property damage to homes adjacent to the meadow.

Article #12 at Town Meeting presents the opportunity for the Town to solve this problem by reconstructing the channel and making it wider to increase the channel capacity. This solution also includes the replacement of the three tide gates at the harbor with a single sluice gate. (A sluice gate is a vertical door that slides up or down and can be adjusted to any flow in or out from 0 percent to 100 percent of capacity.) Increasing the channel capacity and flow adjustability will increase the amount of water that can be passed and the control the Town has over when it will be able to flow. The projected cost of this project is $450,000. If you have any questions about this project please contact us and we'd be pleased to review the proposed designs with you and answer any questions you may have.

Long-awaited Crosswalk on Forest Avenue.

Channel is 5 inches narrower.

Night Owl

DRIVING WHILE TYPING

JOHN LENGYEL

I have a love/hate relationship with bedtime. If I'm completely wiped out I can't wait to climb into bed and collapse, but when I'm not exhausted I tend to put off sleep until I am. Being aware of the act of falling asleep can fill me with mortal dread. I feel as if my little sputtering flame of consciousness is about to be snuffed out, the candle tossed onto a shelf in the corner of a dark closet, and that my continued existence every morning may in fact c e to a miraculous coincidence I can't really depend on.

Children have no such worries, of course, and my wife's only fear is of being woken up before she's had her full union-negotiated seven-hour break, so they're all long asleep by the time I force myself to stumble up the stairs at midnight or so. I feel my way blindly past the foot of the bed, always making sure to bang my face into one of the wood-covered steel rods in the middle of the room from which our second floor hangs — a feature of our converted carriage house's balloon frame design. In pitch blackness I undress, put on my pajamas, slip under the sheets, gently steal my pillow back from my wife, and try not to question too much the point of having a soul if death really is an eternal sleep.

It's at this moment, as I'm reluctantly letting go and sinking beneath the surface of the dark pond, that my youngest daughter often begins to talk in the next room.

It's the creepiest sound. A person you know to be deeply asleep is talking to someone who isn't there. It's mostly gibberish, obviously — sometimes sprinkled with a few recognizable words that suggest whether she's having a dream or a nightmare. And it is a nightmare, usually, that triggers these one-sided conversations, which makes the experience of overhearing them muffled through the bedroom wall all the more unnerving.

I've gotten used to this routine, as much as one can. Then last night as my mind lay helpless on the shelf and nervously watched the closet door closing, I heard Emily say, very distinctly, "Is anyone there?"

And it is a nightmare, usually, that triggers these one-sided conversations, which makes the experience of overhearing them muffled through the bedroom wall all the more unnerving.

The clarity in her voice made me alert again. I assumed she was calling for me, so I got out of bed and tiptoed into her room rather than answer from a distance and risk waking everyone else.

"It's okay, Emily," I said sitting down next to her. "I'm here."

She wasn't awake, even partially. In fact she was so still and silent that I felt hot adrenaline rush into my chest and up the back of my neck. I went so far as to shake her awake — something I hadn't been foolish enough to do to any child since my first daughter overslept by half an hour when she was one. That's half an hour I'd like to have back now.

"*Stop it*," Emily moaned, as annoyed as you can be while still mostly asleep. Clearly she hadn't been calling for me. I went back to bed.

"Is anyone out there? Can you hear me?" Again I heard her say it. And again it knocked me off the fence I'd been straddling between light and shadow. This time I quietly called to her without getting up.

"Emily? You okay?"

No answer.

"Emily?" I called louder. My wife rolled over, grunted, and tried to elbow me. I wasn't helping anyone. I told myself I must have imagined the voice. I'd been practically asleep both times, after all. I have a documented history of imagining strange things while in that limbo state. I settled down again and counted leaves. There were thousands of them all over my yard, stuck in the stonewalls, lying matted beneath impenetrable bushes, laughing at me.

"Please help us," said Emily's voice in the next room. "If you can hear me, please answer."

I was too far gone now — too tired to wake up. "I can hear you," I said. Was I really speaking aloud? I didn't know.

"I found someone!" Emily said. "Can you let us out? Can you still hear me?"

"Let you out?" I said.

"We're locked in. Can you let us out please? We're in the cellar."

"What cellar?" I said. Our house didn't have one.

"In the Town Hall," Emily said. "Please help."

"The Cohasset Town Hall?" I said.

Someone kicked me and I woke up. I felt like I'd been out for hours, but it wasn't yet 1:00am.

"Could you go sleep downstairs?" my wife hissed. "And take Emily. You're both driving me nuts."

I took my pillow to the family room couch but left Emily in her bed. I slept soundly till dawn.

John Lengyel lives in Cohasset. He will be trick-or-treating tonight, but not near the common.

SENIOR SCENE

Author shares American story of Boston Italians

Cohasset Elder Affairs is sponsoring the following events. Call 781-383-9112 to register.

• Monday, Nov. 3, 7 to 8:30 p.m. A discussion titled "Presenting the Boston Italians" will be given by author Stephen Puleo. Come meet the author at this event, which will take place at St. Anthony Parish Center. Puleo will tell the story of the people who came to America from Sicily, Aveleno, Abruzzi and Calabria to live on the streets of the North End of Boston and why they came. Call to sign up.

• Wednesday Nov. 5, 11 a.m. to noon "Disaster Preparedness for Seniors" will be presented by Louise Arnold from the Massachusetts Emergency Management Agency and Jeff Dougan from the Massachusetts Commission on Disabilities. A gourmet luncheon following the presentation at the Cohasset Senior Center. Critical information that seniors need to know in case of a disaster. Call 781-383-9112 before Oct. 29 to register.

Come meet the author at this event, which will take place at St. Anthony Parish Center. Puleo will tell the story of the people who came to America from Sicily, Aveleno, Abruzzi and Calabria to live on the streets of the North End of Boston and why they came.

• Friday, Nov. 7, and Saturday, Nov. 8. Doors open at 7 p.m. Cabaret 2008, sponsored by Friends of Cohasset Elder Affairs, will take place at St. Anthony Parish Center. This evening of entertainment will feature singers, dancers and comedians. The evening will include a social hour, raffle table and cash bar serving beer, wine and soft drinks. Cost is $25.

• Saturday, Nov. 22, and Sunday, Nov. 23, will be "Make a Difference Days," which is sponsored by Deer Hill School PSO. Volunteers from Deer Hill School and their families will go to the homes of seniors to rake, put down storm windows and do other chores. Call the Senior Center before Nov. 14 to sign up.

• Tuesday, Nov. 25, noon. The Roy family and the staff at Atlantica Restaurant will host a Thanksgiving feast or Cohasset seniors. Each senior is asked to bring anon-perishable food or household items for Cohasset Food Pantry. Call the Senior Center before Nov. 20 to sign up.

Emily Post, revisited

HENSHAW

T... H...

I don't know about you, but on those rare occasions when I'm out walking with a friend of the female persuasion, inevitably I drift over to the part of the sidewalk nearest the street, even though my companion of the moment may be inclined to view the move with some suspicion.

Why do I do this? Because, during my most formative years, Emily Post told me to, that's why.

For those of you who came in late, Emily Post was once synonymous with good manners, starting with her book "Etiquette," published in 1922, which sold 1.5 million copies and went through 89 printings, and continuing with a radio show and a syndicated column designed to shame the rude and crude among us.

Emily, who died in 1960 a week short of her 87th birthday, came to mind the other day when I read of the publication of the first full-length biography of the arbiter of social grace, "Emily Post: Daughter of the Gilded Age, Mistress of American Manners," by Laura Claridge.

Of course, this discovery sent me to the nearest copy of "Etiquette," which presumably is still being published by Emily's estate, to see if the modern world had impinged on Our Lady of Good Manners. It has.

Rule 2 – "In North America and Europe, a firm handshake is an appropriate form of greeting. In Asia and the Middle East, where handshaking is relatively new, the customary grip is gentler; a too hearty grip could be interpreted as aggressive. In Islamic countries, offering your hand to a woman is highly offensive."

In other words, be gentle when you take away their uzis.

Rule 6 – "Children's birthday party etiquette: Keep the guest list to a reasonable number. The rule of thumb is one guest for each year of your child's age, plus one. Have plenty of adult help on hand. Even as they approach age six, preschoolers need lots of watchful, if subtle, supervision."

In other words, keep an eye on the liquor cabinet.

Rules 8 – "Technically, food is passed around the table in a counterclockwise direction. The reason there is even a guideline for this is to provide some sense of order when passing food. In general, what's important is that when several dishes are being passed at the same time, they all go in the same direction."

In other words, pass corn to the right, lima beans to the left, and you get succotash.

Rule 9 – "A tip should always be earned. Reward good service generously and reduce the tip proportionately for indifference or rude service. That way you help raise the standard of service. Leaving no tip does not correct the problem of poor service."

In other words, no tip can get you a cup of dishwater, not coffee, the next time you're stuck at the same waitress' station.

Alas, Emily's only rule that I remember from my youth is now irrelevant.

Rule 5 – "The custom of a man walking between his female companion and the street was the custom in the day when carriages splashed mud and ladies' finery needed shielding. These days, it doesn't matter who is walking on the street side of the sidewalk."

Party politics on Our Town

"Our Town" co-hosts Pat Martin and Mark DeGiacomo sit down with Kevin O'Donnell, chairman of the Cohasset Republican Town Committee, and Kevin MacCarthy, chairman of the Cohasset Democratic Town Committee, to debate from each party's perspective the issues, platforms and candidates in the presidential election.

Our Town airs on local Comcast Channel 10 on Monday, Tuesday and Thursday evenings starting at 9pm.

Stay tuned and stay informed.

Capital priorities

Ambulance, cruiser top recommendations

By Nancy White
NWHITE@CNC.COM

After meeting with various town departments over the past few weeks, the Capital Budget Committee sat down to prioritize the requests — and discuss the best way for the town to pay for them.

The Capital Budget Committee makes recommendations on capital spending, but it is ultimately the voters at Town Meeting on which capital items ultimately get purchased.

Emergency response vehicles for both fire and police topped the short list of capital items. An ambulance, a fire command vehicle and a marked police cruiser are all recommended items.

With no free cash available to devote to capital items according to Town Manager Bill Griffin, the only available funds are in the capital stabilization fund, which was established and funded with $250,000 at the 2008 Annual Town Meeting. The town could turn to bonding to pay for capital expenses.

"Some things make sense to bond, especially in the early years of the capital stabilization fund," said Steve Gaumer, chairman of the Capital Budget Committee.

Not wanting to deplete the entire capital stabilization fund in its first year of existence, the Capital Budget Committee will recommend to Town Meeting that the vehicles (ambulance, police cruiser and fire command vehicle) be grouped into a lease-to-buy program and paid out installments. The installments would begin in fiscal 2010 and be paid for out of the capital stabilization fund. In the past, vehicle purchases have been paid for up front.

The committee went through the list of town department requests. The schools had brought forth no urgent requests, only asked for a plan to replace aging school buses and classroom computers.

The Fire Department presented a desperate case for both its 2001 advanced life support ambulance and the 13-year old Ford Explorer, which serves as the department's command vehicle. A new heart monitor/defibrillator was also requested to replace an aging model. The hydraulic rescue tool, more commonly known as the Jaws of Life, needs a replacement of the power unit (motor/pump) portion of the tool. The cutter and spreader were replaced with the capital money that was appropriated at last fall's Special Town Meeting. The purchase of the power unit will complete the replacement of the tool that was originally purchased in the 70's.

The town's ambulance is one of the few capital items that pays for itself over its lifetime. Approximately $372,000 in revenue from hospital transports was brought into the town in fiscal 2008, said Fire Chief Robert Silvia.

If Town Meeting approved the purchase of the ambulance and the command vehicle, the older models will be moved into a new role. The ambulance will serve as a back-up piece or a reserve piece, while the old command vehicle will go out on inspections.

The Capital Budget Committee is recommending for the replacement of approximately half of the library's public computers. A total replacement of the 20 computers was requested, but the committee did not feel the $20,000 price tag was warranted.

"They need to find a better way to fund the department," said member Peter Decaprio, suggesting a library card fee or pay per use fee for the computers.

Gaumer recognized the library's willingness to communicate the department's needs and answer specific questions raised by the committee, but as a whole the committee felt the replacement of all the computers was too much for this fiscal year. Gaumer said he would support a discussion the computer purchase being revisited in the spring.

The committee recommended the replacement of an aging police cruiser that has about 150,000 miles on it. The cost is $29,000. Going forward, the committee plans to put in place a replacement schedule for police cruisers so they are replaced on a rotating basis.

After brief discussions on the major spending articles going forward to Town Meeting, the committee is recommending Town Meeting approval all the projects — the repair of the Jerusalem Road road/wall, the repair of the crumbling Jacob's Meadow/Legion culvert, and the citizen's petition for the synthetic turf field.

Capital Budget recommendations

To be paid for in cash from capital stabilization fund in Fiscal 2009	
Library public computers	$10,000
Fire defibrillator	$25,000
Fire Jaws of Life power unit	$10,000
Total in cash	**$45,000**
To be wrapped into a lease-to-buy payment plan	
-Fire ambulance	$160,000
-Fire command vehicle	$30,000
-Police marked vehicle	$29,000
Total (without interest)	**$219,000**

The Capital Budget supported the Jerusalem Road repair ($270,000), Jacob's Meadow culvert repair ($450,000) spending articles and, if the numbers presented prove accurate, the citizen's petition for a synthetic turf field proposal at the high school (approximately $500,000).

"Some things make sense to bond, especially in the early years of the capital stabilization fund."
Steve Gaumer, chairman of the Capital Budget Committee.

How the capital stabilization fund works

The capital stabilization fund was created at the Spring Town Meeting as a mechanism to fund future capital purchases. The town authorized a $125,000 transfer from free cash to the stabilization fund and another $125,000 in the roll-off amount from the town's non-excluded debt service schedule for the end of fiscal 2009. The plan is to put future debt service roll-off into the stabilization fund and use it to maintain and replace the town's capital assets.

Wait on wind

Wind turbine hearing postponed to Dec. 1

By Nancy White
NWHITE@CNC.COM

Residents will have to wait until Monday, Dec. 1 to hear more about the proposed Graham Waste wind turbine project. Last Thursday, the applicant, Jim Sweeney of CCI Energy, formally requested the public hearing set to continue on this past Monday, Oct. 27 be postponed to allow him to collect further data.

In anticipation of the planned public hearing last week, talk and opinion of the wind turbines were blowing around.

When reached by phone, Sweeney said they have completed most of the requested items from the first public hearing, but still need to complete a sound analysis study, primarily for the Avalon property, with the leaves off the trees.

News of the postponement came via e-mail from Planning Board administrator Jo-Ann Pilczak.

"In fairness to all parties, such as the Planning Board, town engineer and the public, they need more time to provide this information well in advance of the meeting," stated Pilczak. Sweeney felt the month-long postponement would allow him to do this, Pilczak wrote.

CCI Energy submitted additional data, studies and documentation to the Planning Board office last week. In the new documentation, the applicant indicates two AAER 1.65 megawatt-size turbine will be utilized on the site. In a phone interview, Sweeney said while they plan to purchase the turbines from Canadian-based company AAER turbines, if something fell through and the company was not able to provide the turbines they would use something equivalent that's on the market. According to the applicant's documentation, this project would be the first time this specific model of turbine would be used in North America.

The new report also indicates the turbine sited closest to the Avalon property has been relocated approximately 900 feet from its original location to lessen the impact on the future development.

This is the second time the applicant has asked for a postponement in order to gather information since the first public hearing in September.

In addition, Sweeney said he has had an initial meeting with Town Manager Bill Griffin to talk about selling the excess energy from the turbines to the town.

"I feel confident we'll be able to negotiate favorable terms," said Sweeney. "We're definitely looking forward to presenting in December and getting the turbines up and running by the end of 2009."

Griffin told the Mariner in an e-mail that the relatively brief meeting to commence discussions on whether the town would be interested in purchasing electricity at a discount rate was introductory in nature. Since the project has just begun the local permitting process and the state regulations on this type of private-public energy exchange have not been finalized, Griffin said it was difficult to get into any detail about the proposal.

Private group sends email

A private group made up of concerned citizens from the neighborhoods close to the proposed project (Sanctuary Pond, Lower King St, Fair Oaks Lane) as well as others beyond the immediate area has formed. Calling themselves the "Cohasset Wind Advisory Committee" (not to be confused with the town appointed board, the Alternative Energy Committee), the group sent out an unsigned e-mail last week to get their concerns out to other residents.

The e-mail sent late on Sunday, Oct. 19 enumerated the "Top Ten Myths about the Graham Waste wind project." The Mariner asked the group to put a name and address on the e-mail, but a copy was not sent by press time.

Jeff Patterson of 10 Sanctuary Pond Road did not write the e-mail but is one of the group's members. He said the e-mail was distributed to about 580 e-mail addresses and roughly 40 people have expressed interest in being actively involved in the group.

In a phone interview, Patterson cited a lack of specifics and detailed information from the developer at the first meeting led he and the Wind Advisory Committee to speak out against the turbine project.

In the e-mail, the group explains they are not against wind power, "but we do care about protecting the health, safety, and welfare of all residents and preserving the beauty of Cohasset."

They point out the town of Cohasset has no negotiated benefit to the town from the turbines. The developer has said at the first public hearing and several open meetings he plans to sell excess energy from the turbines to the town, but because the project is not approved, no contract has been negotiated.

The group goes on to list concerns about property values (and consequence on the town's property tax levy), the size of the turbines (they are larger than both of Hull's turbines), noise impacts, shadow impacts and general safety.

"We are really trying to raise the issues we believe are valid concerns," said Patterson. "We want to make sure the project is done in a way that's safe and beneficial to the town. I hope we can work constructively."

When asked why the e-mail was sent anonymously, Patterson said he could not specifically comment because he did not send the e-mail but said it was a way to get the group's views and concerns out there.

One Planning Board member who received the e-mail was taken aback by its content — and the lack of a signed sender.

"I am concerned about this type of communication with completely unsubstantiated information…crafted by a group that is hiding their true objectives and identity," said Planning Board member Mike Westcott in a phone interview. Westcott had received a copy of the e-mail directly from the sender and forwarded a copy to the Mariner. "The neighbors have some visibility to the project and are concerned, but they are getting people fired up with misstatements and lack of facts."

The Alternative Energy Committee crafted a formal statement at their recent meeting to make it clear the Cohasset Wind Advisory Committee — and their opinion — had nothing to do with their committee.

"This anonymous organization has no official connection to nor is sanctioned by the AEC or town government. This unsigned e-mail has *no* connection to any member of the Cohasset Alternative Energy Committee," stated a letter sent to the Board of Selectmen. "*No* member of the AEC is connected in any way to this anonymous organization."

The letter affirmed the AEC's support for the development of energy conservation efforts along with renewable energy alternatives including wind resources in Cohasset.

"The AEC continues to support the Cohasset Heights Wind project. We urge local residents to attend the Dec. 1 Planning Board meeting to hear the facts for themselves and not to be swayed by rumors, innuendos and distorted truths," concluded the letter.

When reached for further comment, AEC Chairman Andrew Willard declined to be specific about the committee's objections to the letter. Since the letter was never sent directly to the AEC or the town, Willard did not feel it appropriate to comment further.

BRIEFLY

Chamber networking event is Nov. 13

The Cohasset Chamber of Commerce is sponsoring a Fall Networking Event, to be held on Thursday, Nov. 13, from 5:30-7:30 p.m. at 15 Depot Court, the newest building in the Village. Sean Cunning of S, G, & D Insurance, the building owner, will be the host and provide the grand tour. Light refreshments will be served. All Chamber members and potential members are welcomed. Come meet some new folks and support your fellow business associates. Any questions, call Karen Kirkendall at 781-789-6288.

Newcomers Club accepting new members

Whether one just moved to Scituate or Cohasset, or has lived here for years, Scituate Cohasset Newcomers Club is a great way to get involved in the community and make new friends. The club is currently accepting new members. For more information about becoming a member, visit the Web site at scnewcomers.com.

Every month, a newsletter is issued that includes the schedule of social events. Some events are geared toward adults, while others involve caregivers and tots or the entire family. Annual events include the Fall Kick-Off Party, Children's Halloween Party, Chili Cook Off and Summer Barbecue. Every season new events are added or revised depending on the needs of members. Special interest groups are constantly developing as creative ideas are presented.

SCNC prides itself on its dedication to community service, and has raised money and donated time to Habitat for Humanity and the Magical Moon Foundation, and continues to find ways to help those in need.

American Legion to host Marine Corps Birthday Ball

George H. Mealy Post 118 of the American Legion will host its second Marine Corps Birthday Ball from 6 to 10 p.m., on Saturday, Nov. 8, at the Legion Post, 98 Summer St., Cohasset. The event, which is open to the public, will feature a complete roast beef dinner and entertainment.

Tickets are $10 per person and are available at the Legion Post. Active and inactive Marines in uniform will be admitted free of charge.

For tickets or more information, call the American Legion Post at 781-383-9657.

Health Notes

Oh rats! Rodent sightings are limited

By Steve Bobo
SPECIAL TO THE MARINER

Some time ago, I'm told, Jack Buckley's high school students in the public service program were looking for something to do in a systematic way for the Town and someone from the Board of Health; I haven't been told who, suggested that they investigate the presence of rats in Town and see if they were a threat. The net result of this effort was a map showing the product of the student search of the Town for rats: the location of 10 sightings. Before we proceed any further, it should be said that after extensive research by the Health Notes experienced staff, the sighting of 10 rats or evidence thereof, can hardly represent a health threat of any type, or even an abnormal occurrence in a town the size of Cohasset.

Nonetheless, it's probably wise to know a bit more about the relationship between sound health practice and rats, and for that matter, rodents in general. According to a document "*Pest Notes*," Publication 74106 by the University of California, January 2003, "Rats are some of the most troublesome and damaging rodents in the United States. They consume and contaminate food, damage structures and property, and transmit parasites and diseases to other animals and humans. Rats live and thrive under a wide variety of climates and conditions; they are often found in and around homes and other buildings, farms, gardens, and open fields."

But not particularly in Cohasset. From about 1990 until 2006, the Board received no complaints about rats. Since that time, we have received a total of about 12 complaints. Opinions vary as to the cause of the appearance of rats, but from my readings of *Wind in the Willows* and the opinions of other members of the Board of Health team we believe the increase in sightings may be connected with disturbance of rats' dwellings by the construction work involving the train tracks. We've all been disturbed by construction in Town; rats, no less than people. Rats, apparently hate exposure to us as much as we to them. So I suspect that after all the construction is finished, things will settle back down and rat sightings will decline.

Finding rats is not difficult, but requires some persistence as one seldom encounters them in suburban settings. Indicators to look for are: Rat droppings around dog or cat dishes or pet food storage containers; noises coming from the attic just after dusk; remnants of rat nests when dismantling your firewood stack. Is there evidence rodents are feeding on fruit/nuts that are in or falling from trees in your yard or damaged vegetables in the garden? Of course, gardens a.e fair game for chipmunks, squirrels, and many other small animals as well as some larger ones as we've encountered reports of foxes, deer, bears, and other animals large and small. So, it's not always rats stealing your produce.

The two common species of rats are Norway rats and roof rats. *See illustration.* Norway rats (Rattus norvegicus) sometimes called brown or sewer rats, are stocky burrowing rodents that are larger than roof rats. Their burrows are found along building foundations, beneath rubbish or woodpiles, and in moist areas in and around gardens and fields. Nests may be lined with shredded paper, cloth, or other fibrous material. When Norway rats invade buildings, they usually remain in the basement or ground floor. Roof rats (Rattus Rattus), sometimes called black rats, are slightly smaller than Norway rats. Unlike Norway rats, their tails are longer than their heads and bodies combined. Roof rats are very agile climbers and usually live and nest above ground in shrubs, trees, and dense vegetation such as ivy. In buildings, they are most often found in enclosed or elevated spaces in attics, walls, false ceilings and cabinets. Both species are more prevalent in the south and on the west coast.

Rat Control — The best expedient is the large, simple, cheap wooden snap trap sold in hardware stores. Attach it firmly to the ground or solid place to keep the rat from dragging the trap away. Place it near where you find droppings and where it's safe and away from kids. Poisons are not recommended for rat control inside buildings, since poisoned rats can die in hard to reach places causing a bad smell. When poisons are used, they must be used in accordance with strict pesticide rules. Dispose of rats using gloves where possible. Wash your hands with hot water and soap after getting rid of dead rats! (Even if you used gloves).

Steve Bobo is a long-time member of the Cohasset Board of Health.

Overview of current legislation

YOUR REP

GARRETT BRADLEY

...I will highlight some specific issues, projects, and laws that I have advocated for which directly affect the town of Cohasset

As the legislative year comes to a conclusion, I wanted to update you on some of the legislation passed by the House of Representatives this session. Please note that this is just a brief overview. Feel free to contact me should you have questions or would like additional information.

First, let me give you an overview of several pieces of general legislation affecting all residents of the Commonwealth. Then I will highlight some specific issues, projects, and laws that I have advocated for which directly affect the town of Cohasset.

The following bills were passed by the House:

• A law allowing municipal employees to join the Group Insurance Commission. This would save municipalities significant funds which, in turn, could be used for property tax reduction.

• A pension reform bill, which would permit the state to take over poorly performing municipal or county funds. This too would provide significant savings to our community.

• An identity theft bill, which mandates notification to the public of data breaches and establishes security freezes for accounts subject to identity theft, as well as, sets standards for the disposal of records containing any personal data.

• Legislation was passed to mandate the divestment of the state's employee pension fund from any companies providing financial support to the Sudanese government due to the genocide in Darfur, as well as, to the government of Iran.

• $1 billion economic stimulus bill, which invests in the state's growing life science sector. The economic development package takes a targeted approach to creating high paying quality jobs in Massachusetts and retaining talented scientists and researchers at our state's institutions.

• An energy reform bill to promote the use of clean and renewable energies here in Massachusetts. We also passed an ocean management bill to clarify laws to allow for the clean development in areas currently zoned for only traditionally energy generation.

• The House acted to avert a home heating crisis by unanimously approving $15 million in emergency funding for more than 100,000 elderly residents and low income families trying to stay warm this winter.

• The House passed a bill aimed at increasing safety in our communities and on our roads by banning text messaging while driving and prohibiting the use of cell phones by young drivers.

• The House froze the unemployment insurance rate which is expected to save employers $153 million this year and the House passed a corporate tax reform bill which closed loopholes saving the state $217 million a year in revenue. This action will provide much needed funds directly to our local communities.

• A major bridge repair bond bill was passed to preserve the existing transportation infrastructure and improve the safety of our bridges in the Commonwealth. Fore River Bridge in Weymouth/Quincy is included in this bill.

• Legislation to promote job growth in the Commonwealth's green clean energy sector. This legislation will encourage green start-up companies to expand in Massachusetts and provide individuals of all income levels with job skills needed to excel in this state's green economy.

• The House passed legislation to better protect children from sex offenders, enforce tougher sentences and enhance tracking of online predators.

• The House approved legislation allowing children suffering from mental illness to access care through insurance plans, expand access to mental health screenings, and provide early education tools to better serve students suffering from devastating mental illness.

• Legislation was passed to strengthen and better coordinate school district accountability and assistance in public schools. The legislation promotes stronger alignment between required school district performance audits and state targeted assistance for struggling schools and districts.

• In the midst of the national state-wide mortgage crisis, the House passed bold new legislation to stem the number of mortgage foreclosures by encouraging banks to help borrowers and providing a new three month window to cure defaults and maintain tough new licensing standards for mortgage loan originators.

This, of course, is only a partial list of the legislation that the House of Representatives dealt with in this past two year legislative session. During the budget, as well as in several bond bills, I had an opportunity to advocate for our community and was able to secure funds for some necessary projects. However, as you are aware, we are dealing with an uncertain economic future. Therefore, some of these authorizations may be curtailed and/or delayed. I will continue to keep you, and our local officials, informed as we move forward.

Budget Items

• The town of Cohasset will receive $1,788,815 in Chapter 70 funding, an increase of 5.4 percent from FY 08.

• The town of Cohasset will receive $474,221 in lottery aid.

• The town of Cohasset will receive $166,099 in additional assistance.

Bond Items:

• $4 million was allocated to create an upstream retention of storm water to reduce flooding of Jacob Meadows in Cohasset Village.

• $600,000 for the rehabilitation of the Jacob Meadows outfall channel wall.

• $50,000 to re-establish an increased title flow through the enlargement of Parkman Avenue and Border Street.

In addition to these funds, the following Home Rule petition was passed by the House of Representatives:

• An act authorizing the town of Cohasset to provide water services to other cities and towns, and water companies. Chapter 35 of the Acts of 2008.

• An act relative to town water department access within the state highway property in Cohasset.

As always, I appreciate the input that I received from so many constituents over the last session and I look forward to your advice going forward.

Should you have any questions, please do not hesitate to contact me. Starting this fall, my district office at the Sons of Italy Hall in Hingham, located at 88 Chief Justice Cushing Highway, will be staffed every Friday. If you need to set up an appointment or have any questions please call my State House office at 617.722.2460 Monday-Friday or my district office on Fridays at 781.749.3331.

State Rep. Garrett Bradley represents the Third Plymouth District that includes Hingham, Cohasset, Hull and one precinct in Scituate.

Cohasset sends East Bridgewater packing

STAFF PHOTO/ROBIN CHAN

Cohasset's Dana Valentine (1) stretches out and breaks the plane of the goal line for a touchdown to start the scoring with 9:12 left in the game of their 20-7 win over East Bridgewater on Friday night.

After a demoralizing loss in Mashpee the week prior, it was anyone's guess as to how the Cohasset Skippers would handle perennial league foe, East Bridgewater.

A loss and a tie against East Bridgewater over the last two years made preparing for this week's game that much more important to coach Pete Afanasiw and his team. There was no doubt the Skippers were hungry for their first league win of the season.

Cohasset received the opening kickoff but quickly turned the ball over on downs. EB took possession on its own 40-yard line and began barreling through and leapfrogging over the Cohasset D. Junior Graham Stevenson slowed the momentum with a ferocious tackle in the backfield. The Viking 12-play drive culminated in a made field goal, which was called back on a offensive penalty. The second attempt missed, wide right.

Cohasset took over on its own 25-yard line and ran two plays before the first quarter ended. The Skippers controlled the line of scrimmage and behind the determined efforts of junior running back Dana Valentine (22 carries, 142 yards, 1 TD) they moved the ball 11 more plays down the field but turned the ball over on downs on the EB 31 yard line.

EB looked like it was putting a big drive together, nine plays, but another monster tackle by Stevenson in the backfield and a pass deflection on fourth down halted their progress. The Cohasset defense was in containment mode.

Cohasset went three and out from its own 30. EB took over on downs and the half ended as junior Will Lynner burst through the offensive line to sack the Viking QB for an enormous loss.

Both teams headed into the locker room, deadlocked. The Skipper faithful were concerned that their beloved boys in blue had now gone six quarters without putting points on the board. The defense that was beaten down by Mashpee last week held EB out of the red zone for the entire half and came up with the big plays when needed. But could they keep it going?

The second half started with on on-side kick by Cohasset, and sophomore Jack Carrier (four tackles in the game) emerged from the pile with the ball. Two series later, Cohasset started to build momentum behind the running of Valentine and sophomore QB Jeff Cavanaro (13 carries, 100 yards, TD). Valentine went up the middle and "Cavs" went outside. The Skippers finally were inside the 20 and on fourth down went for a field goal, which missed wide right. EB took over but quickly had to punt the ball, which was blocked by Will Lynner. And a fortuitous block it was as it gave the Skippers great field position.

The Skippers had the ball to start the fourth quarter and on the third play of the drive, Cavs pitched the ball to Valentine who went in for the score. Junior Brendan Doonan

When the going got tough...

Lady Skippers stay on track through injuries and rough conditions

By Mike Spellman
MSPELLMAN@CNC.COM

All things considered, Deb Beal was happy to conclude the last week of action with a record of 1-0-2.

Beal's Lady Skippers were depleted by injuries and other factors for showdowns last week with fellow postseason-bound Notre Dame Academy and Hull, and battled to salvage ties in both contests.

"Our two games last week were as I had expected were difficult," said the veteran Cohasset coach. "A few injuries have popped up, which has caused some kids to sit a little in order to rest up for the tournament."

On Monday, a bit of normalcy returned, as the Lady Skippers traveled to Mashpee and took a lopsided 6-1 decision, wrapping up their South Shore League slate at 10-3-1 and moving to 12-3-2 overall.

The Lady Skippers were slated to host two non-league games under the lights at Alumni Field to close out the regular season at the time of this writing. Rockland was on the schedule for this past Wednesday night, Plymouth North for Monday (6:30 p.m. start).

"My focus now is getting these girls pumped up and ready," said Beal, referring to postseason play, which will get underway a week from today (Friday).

The Lady Skippers are hoping for a high seed in the Div. 3 south sectionals, and quite possibly a first round bye and a few home games as they set their sights on surpassing last year's program-best run to the sectional finals.

"Although we had a very successful run in the tournament last year there is no free ticket

Q&A with Coach Mingels –varsity cross country coach

Brad Mingels is the Cohasset Varsity Cross Country Coach and the Technology & Engineering teacher at Cohasset Middle School. Coach Mingels shared with the Mariner his thoughts about the CC team, where it is today, and where it is going.

• How do you feel the team is doing this year?

I am very happy with the team this year. This is the inaugural season for Cohasset Cross Country and it has surpassed my expectations. As you know, we are a co-op team with Hull and the group of athletes we have, on both sides, is dedicated and talented. The Hull side is a bit farther along because they had a coach prior to the start of the season, however, our Cohasset runners are getting stronger every week and everyone is contributing to the overall team effort.

• What are your hopes for the rest of the season?

This is a multiple part answer.

For the boys team, I am hoping that we will be in contention for the league championship. We have a strong team of 19 runners between the two towns and are currently ranked 9th on the South Shore. I am hopeful that we can finish at least in the top 3 in the League Meet.

For the girls, we are at the very beginning of the program and only have a total of 7 runners between the two towns. It's been tough to compete with some of the other, larger and more established programs so far. However, the girls are working hard and getting stronger every week and we finally won our first meet against Harwich last week. I think if the girls team has the potential to finish well in the League Meet, probably fourth or fifth but we have a chance to finish as high as third.

Regardless of where we finish in the standings, I think this season has been a success and I am very proud of both of these teams. We have a good core group of runners who come to practice every day and it has been a pleasure to coach these kids. I am already looking forward to next year.

• Any highlights or key players?

I think that the credit for this season goes to the entire team as well as my counterpart in Hull, Coach John Jacoppo. Clearly, Kenton Gilmartin, Dave Allen and T.J. Stokes

The way of the Wise

CHS keeper stops 17 shots to shutout Mashpee

By Mike Spellman
MSPELLMAN@CNC.COM

Mashpee 0, Cohasset 0

Coach Jim Willis hopes this performance Monday will be the one that catapults keeper Will Wise past South Shore League all-star honors onto the All-Eastern Mass team.

Though he has surrendered only a bit over one goal per game, the Skippers' junior netminder currently ranks third in goals allowed average among South Shore League keepers behind Carver's Mike Phelan and Harwich's Zack Jamous. Of course, as Willis correctly points out, Wise may have twice as many saves as either of those keepers.

"The Carver and Harwich keepers have games where they're really not much more than observers, but that's never the case for Will," said Willis. "We've had a lot of injury and inexperience on defense, so Will has been a very active participant in every game this season."

The top five vote getters for the South Shore League all-star team will qualify for the All-Eastern Mass team. On the surface, it might seem tough to argue that honor for the keeper of a 3-8-6 team that is now playing out the string, but Willis will make that argument vehemently.

During Monday's scoreless tie with Mashpee, Wise made 17 stops in all, including many of the outstanding variety to record his fifth shutout on the season. The most memorable was a point blank stuff with three minutes to play that flashed all of the best of Wise's athleticism, instincts and focus.

"Will is just a natural," Willis said of the 6-foot-2, 170-pound multi-sport standout. "He has all the athletic and instinctive gifts and works extremely hard. He sees the game in front of him very well. But what really stands out is how even keeled he is. He never gets rattled."

Wise has been the Skippers starter at keeper since his freshman year. His focus and unflappability are the attributes, Willis said, that Wise's teammates recognized in voting the junior a team captain.

"We've had a lot of injury and inexperience on defense, so Will has been a very active participant in every game this season."
— Boys soccer coach Jim Willis, on keeper Will Wise

Of course, it bears mentioning that Wise's support has gotten much better as the season has progressed, as attested by the goals against: Wise has surrendered just seven goals over the last eight games.

Sophomore Travers Craven was moved into sweeper a few weeks ago to allow senior star Lennert Brown to move into the midfield in the hopes of jump-starting an anemic offense. There were some growing pains at first, but Willis reports that progress has been steady and encouraging.

"When I look at how far Craven has come it's exciting to think that he's only a sophomore," said Willis.

As far as Craven has come, no CHS player, in Willis' estimation, has progressed nearly as rapidly as junior Jack Murphy. Murphy is also a natural athlete, as witnessed by his prowess on the wrestling mat and work between the pipes as the Skippers lacrosse goalie. He was a JV keeper as an eighth and ninth grader, then did not play at all as a sophomore. He opted to give soccer another shot this fall, this time as a defender. The results speak for themselves, but that still doesn't stop Willis from adding his two cents.

"In all my years of coaching, I've never seen a kid come so far with his foot skills and confidence in one season as Jack has," said Willis, who served as head coach at Scituate High for eight years before taking over the Cohasset reins last year. "In weeks, he's gone from being a player who didn't look comfortable at all with the ball at his feet to someone who is getting by people now and making very good decisions with the ball. At this rate, I look for him to be one of the league's top defenders next season. We should have a very nice core in back between him, Craven and Will."

As for this season, however, no defender's impact has been as noteworthy as captain Conor Ofsthun. The senior missed the first couple of weeks of the regular season while recovering from a severely sprained ankle. The Skippers went 0-5-1 over that stretch. They're 3-3-5 since — 3-8-6 overall. They were eliminated from postseason contention last week, so will play out the string over the next week.

"If only we could have started the season with this team we have right now," said Willis. "We've come so far. It's frustrating to look back at all of those one goal losses that could have been ties or ties that could have been wins, but those are the growing pains a young team sometimes has to go through. We're a young team. The things we've gone through this season will make us stronger next season."

LAST UP

The Skippers were slated to travel to Scituate this past Wednesday. Next week sees them host Harwich on Tuesday (4 p.m. start) and travel to Hull to close it out the season Wednesday night (6 p.m. start).

Skippers field hockey season comes to a close

Players and team receive recognition

By Susan Franklin
SPECIAL TO THE MARINER

The last week of the Skippers field hockey season was a busy one. Despite the cold, rainy weather, Cohasset faced off against Scituate on their turf field. The Skippers started out very strong in the first half, keeping the ball to the outside and pushing it down the wings. Players positioned more to the center of the field were key in changing the direction of play. Cohasset scored first when senior captain Jenny Cahill found the net. During the contest, Cohasset moved the ball consistently down field gaining 7 offensive corners and making 8 solid shots on net. Scituate too played a very offensive game so both teams had to work very hard between the 25-yard lines. Scituate gained 9 offensive corners and took 7 shots on net. This hard fought contest ended with Scituate taking the victory 2-1 over the Skippers.

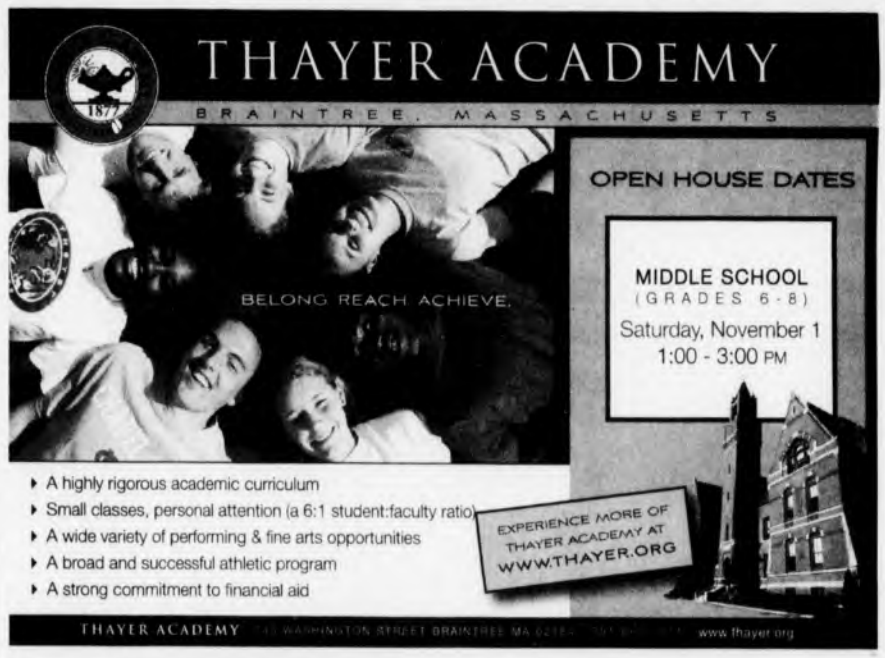
Tired from playing two games earlier in the week, the Skippers faced a formidable East Bridgewater team. East Bridgewater scored first off a beautiful pass. Erika Reardon came back in the second half and scored a well-placed goal on a corner, putting the ball between the post and the goalie. The Skipper offense took 11 shots on net and equally gained 11 corners. The Cohasset defense allowed East Bridgewater only 2 corners and 5 shots on our net. But one Cohasset goal would not be enough to beat this notable second half team. Crowding the circle and taking big shots, East Bridgewater added 3 goals to their tally bringing the final score to 4-1.

The final game of the season was against Hingham. The play was back and forth the entire game with both teams working hard to create scoring opportunities. Cohasset took 4 shots on net and gained 6 offensive corners. Defensively Cohasset shut Hingham down, limiting them to 5 shots on net and 3 offensive corners. Our midfielders kept the ball moving down field with forwards getting breakaway shots on the Hingham net. Well matched overall, Hingham took this one home with a score of 2-0.

With an overall record of 2-14-2 and a South Shore League record of 1-9-2, this season was a true test of character for Skippers field hockey. Returning players still felt the excitement of last season's quarterfinal playoff birth, minus many 2007 graduates and the head coach who brought them there. Led by Abbey Coakley, former assistant coach and standout field hockey player at Cohasset, this team has much of which to be proud. Although their record did not turn out as they all hoped it would, this squad displayed the skill, tenacity, poise and teamwork of champions.

The games in the loss column were tight contests, most relinquished with a score of 0-1. During this rebuilding year, the Skippers gave teams a run for their money with opposing coaches of both league and nonleague teams remarking about the squad's work ethic and sportsmanship. Although Cohasset had a tough time putting the ball in the net they succeeded at generating scoring opportunities. Their defense was formidable, making it extremely difficult for teams to penetrate and gain shots on net.

All players on this squad deserve recognition. With no middle school field hockey program at the time, many of these players had never picked up a field hockey stick until their freshman year. Nonetheless, many have developed into noteworthy players and dynamic leaders on and off the field. This season's top scorers were senior captain Jenny Cahill (4 goals and 1 assist), followed by junior Isabelle Franklin (2 goals and 1 assist) and senior Erika Reardon (2 goals). Contributing single marks for Cohasset were junior Hillary Gaumer, sophomore Elise Quebec, senior Lesen Haracz, senior captain Marissa Tangherlini. Many players were defensive standouts, including Tangherlini, senior Jean Thome, junior Kate Durant and junior Lucy Noble. In the goal, senior captain Alyssa Mullin was solid all season long making 143 saves on 186 attempts on goal.



South Shore League All Star nominations went to senior captains Jenny Cahill, Marissa Tangherlini, Alyssa Mullin and junior Isabelle Franklin. Cahill and Tangherlini were voted onto the 2008 SSL All Star Team and Mullin and Franklin received honorable mentions. The team's consistently tenacious play, unmatched sportsmanlike conduct and class led to Cohasset High School Varsity Field Hockey being awarded the **2008 Sportsmanship Award**. The last Skipper's squad to earn the Sportsmanship Award played six seasons ago, with Coach Coakley wearing the Skipper uniform.

The field hockey program in Cohasset has grown tremendously. Supported by dedicated coaches and boosters, middle school students in grades 6, 7 and 8 are getting exposure to the sport. This year the varsity team had a record 15 new players turn out for the program. The outlook for 2009 is positive with the team returning many seasoned players who will be joined by players coming up from this year's very successful junior varsity team.

Cohasset sends East Bridgewater packing

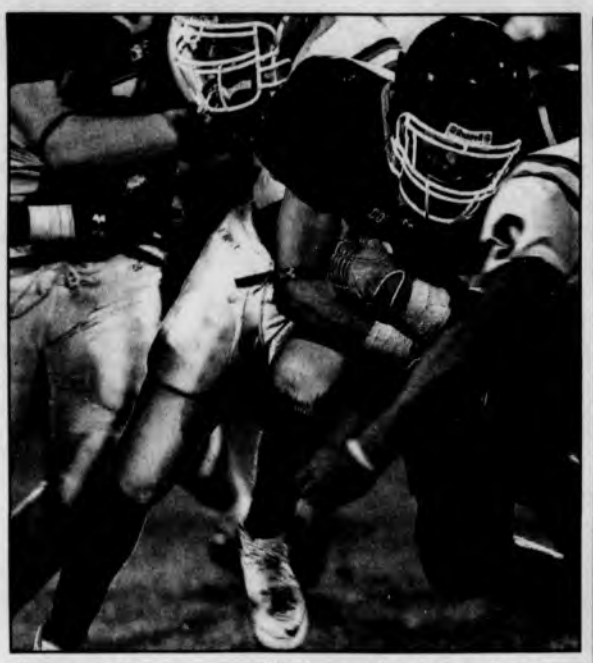
FROM FOOTBALL, PAGE 15

added the PAT.

After receiving the kickoff, EB needed to move the ball up the field, quickly. On the second play from scrimmage, and under enormous pressure from senior captain Andersen Lynner and senior lineman Nick Simonds, the Viking QB heaved the ball down field and junior defensive back Johnny Maher was in perfect position to catch the ball and return it 20 yards to give Cohasset decent field position on its own 47 yard line. Three plays later it was Cavs to Maher (2 catches, 30 yards, TD, INT), who avoided two defenders as he made it into the end zone for the score. Cohasset led 13-0.

A shoestring tackle at the five-yard line by sophomore Thomas Flibotte prevented a 50-plus yard TD completion by EB. But two plays later, on a QB sneak from the one-yard-line, EB was on the board. The PAT was good. One score separated the Skippers and the Vikings.

Not a team to panic, the Skippers began a methodical and disciplined drive down the gridiron, grinding up yardage and time. When Cavanaro scored on a QB sneak from the 1-yard line and Doonan added the PAT, the score was 20-6 and that was how the game ended.



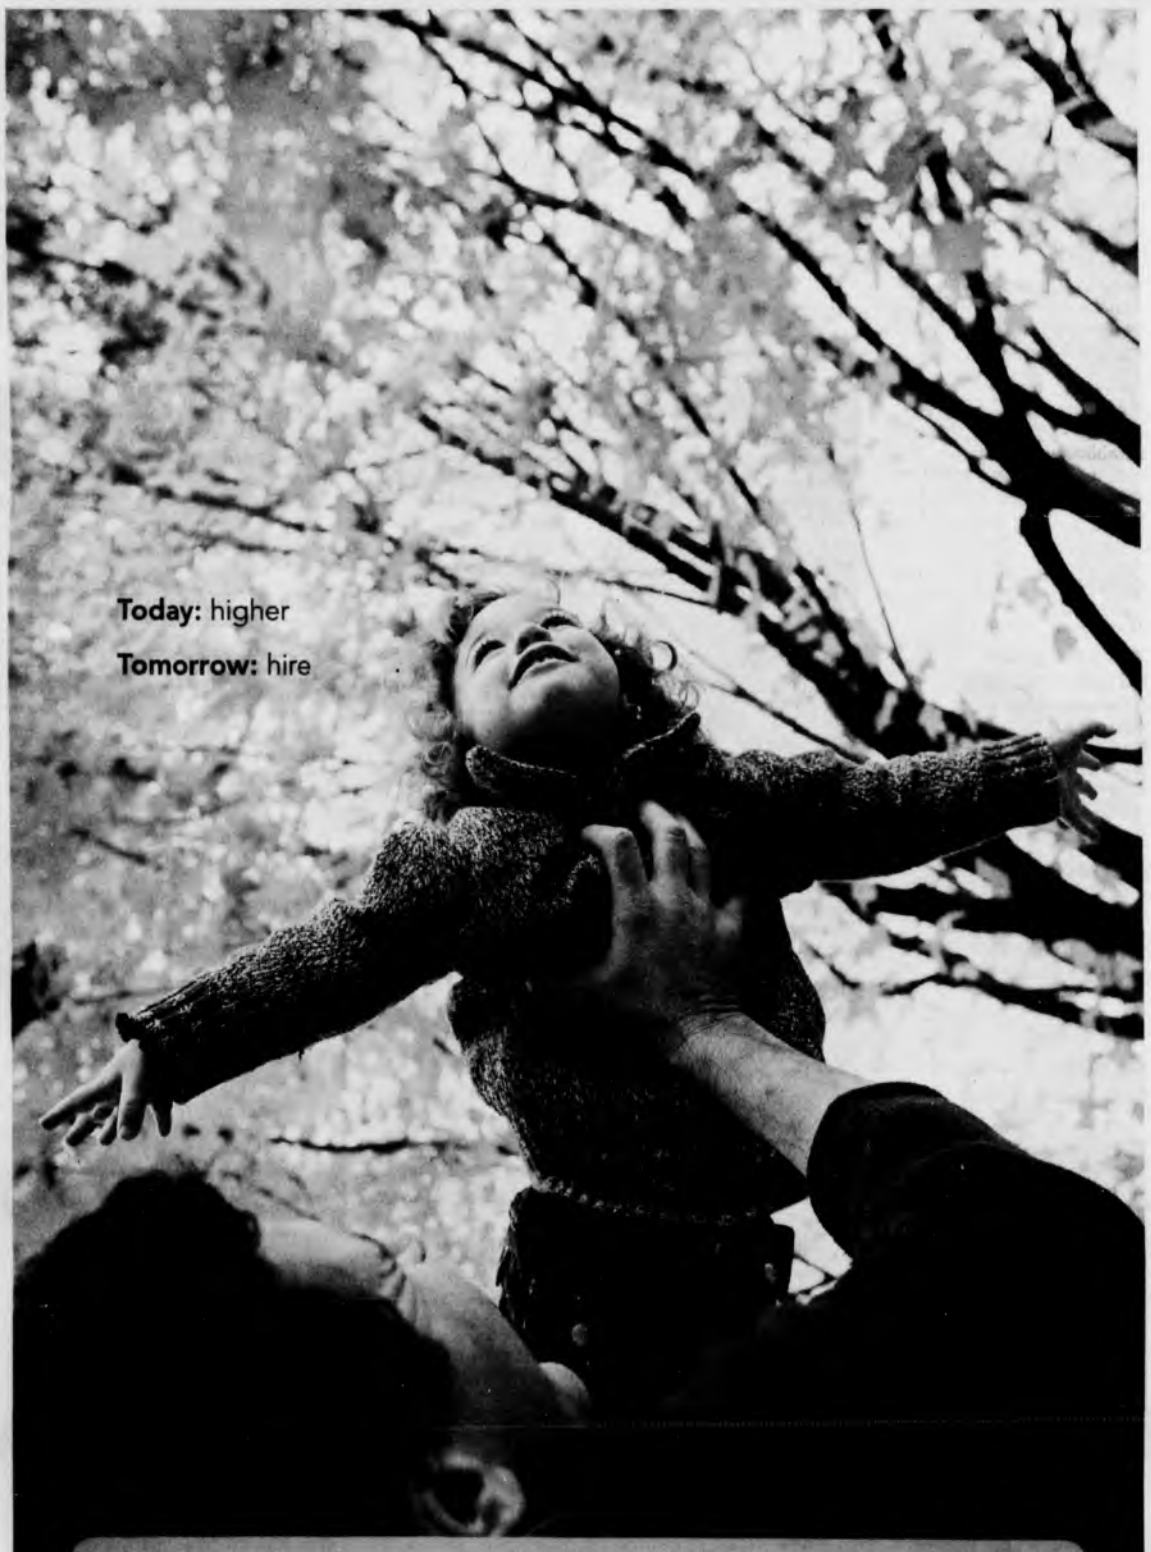
Cohasset collected 297 total yards of offense, 262 on the ground. The offensive line of junior Dan Sullivan, senior Matt Wasel and his sophomore brother Eric and the Lynner brothers did an excellent job creating the holes and making the blocks that were critical to the success of the Skipper ground assault.

Junior linebacker Jake Wheelwright led all defenders with 11 tackles. Defensive backs Maher and Doonan, along with sophomore DB Robert Jones played well, shutting down the EB passing game. Cohasset executed very well, not turning the ball over once and not committing a single penalty.

"It is very nice to get back on the winning track," said Afanasiw. "After losing two big league games we needed a strong performance going into our bye week. The kids did a great job. We didn't have a single penalty all game… that is the first time in my three years here at CHS that that has happened. We also protected the football and usually those two things add up to good things. On top of all that we executed very well and played very physical, disciplined football. I am extremely proud of the way the boys played against EB.

"However, that game is history and now it is on to preparing for defending league champ Abington," added Afanasiw. "We will definitely have our work cut out for us, but I feel confident that we can take care of business, especially if we play like we did Friday night".

The Skippers are off this week and travel to Abington for their next game on Friday, Nov. 7.



Cohasset's Alec Livingstone (37) lowers his helmet and tries to churn out more yards on a tough run in the third quarter of their win over East Bridgewater.

STAFF PHOTOS/ROBIN CHAN

Cohasset's Thomas Flibotte (20) eyes East Bridgewater's Jared Contre (33) as he tries to turn the corner on a run in the second quarter.

Lady Skippers stay on track

FROM SKIPPERS, PAGE 15

back to the same spot," continued Beal. "We have to work very hard and not lose our concentration. Hopefully we have learned from our mistakes in the past 17 games and we apply those to our upcoming games. We live and learn and with a little luck we get to where we want to go without getting distracted."

Skippers 0, Notre Dame Academy 0

"NDA at home was a very physical game on a very cold evening," reported Beal. "I thought we played really tough and we had some great scoring opportunities. I was happy to escape that one with a point towards tournament seeding. We did not escape, though, without some key injuries."

In a cruel twist of irony, Beal lost star senior keeper Johanna Brophy to a "mild concussion" 20 minutes into this one, as she took a knee to the head after going to the ground to smother a bouncing ball in the goal area. This was the second time in as many games this season with NDA that Brophy suffered a head injury. In the season opener, Brophy had her teeth quite literally smashed in. The injury required root canal surgery and several weeks away from contact sports. She missed eight games in all, and returned to action two weeks ago. It was not known at the time of this writing how long Brophy would be forced out of action this time.

She did not play either Friday night vs. Hull or Monday at Mashpee.

Junior Charlotte Malone, who filled in admirably during Brophy's first extended absence, played well after being called to duty.

Beginning this school year, all Cohasset High athletes must take an online "Impact Test" before the start of season to provide a baseline for neurological function. Any athlete who suffers a head injury must retake the Impact Test. Brophy did retake it, and, as Beal pointed out, "the numbers didn't lie."

"I think it is awesome," said Beal of the new requirement. "You really have to be so cautious with head injuries and some kids, as you know, are stubborn and say they are fine, when they actually are not and could suffer more serious life threatening injuries if struck again in the head."

Skippers 2, Hull 2

The Skippers entered this game Friday dealing with a return to action with 20 hours rest and the absences of Brophy and fellow seniors Sammi Lehr (foot injury) and Maggie McGoldrick (pre-planned college visit), a team captain.

The visiting Lady Pirates scored the only goal of the first half.

Tri-captain Sarah Coggins led the charge off the second half kickoff and scored the equalizer.

"Sarah did a nice job trying to maintain consistency in the middle without Maggie," lauded Beal, "but she could only do so much. It was a bit chaotic on the field with people not quite sure of who had who and what to do next. We played a little immaturely and we paid for it."

Hull would re-take the lead a few minutes after Coggins' tally, but junior Mackenzie Hart headed home a feed from sister Torey Hart, the third senior tri-captain, to even the game back up at 2-2. That was it for scoring.

"This was another game I was happy to walk away from with a point," admitted Beal. "I knew going into that game Hull would be tough. They qualified for post-season and they feel pretty good about themselves and they played tough."

Pointing to a hard-fought 4-3 loss Hull suffered last week to South Shore League champ Norwell, Beal added: "(Hull could really break some hearts and make some noise come November. That game with Norwell was pretty impressive and scary. We could face them again! Ugh!"

Skippers 6, Mashpee 1

McGoldrick and Lehr were back for this road game Monday, and the warm weather was a welcome change from last week.

"Defensively, we played smarter and calmer," noted Beal. "The weather was beautiful, the sun was out, it was a perfect day soccer, not that any day isn't perfect but Monday was exceptional. We opened up the scoring early and didn't look back."

Sophomore Kaci Kucinski led the way offensively with a hat trick. Coggins, Mackenzie Hart and Kristin Monaco had the other tallies.

"We played great one and two touch soccer and really played with confidence," assessed Beal. "I hope this is the turning point we have needed. With two big non-leagues coming up we need to remain sharp and play smart. This really is the most exciting part of the season. I love the competition. The who, the what, the where is what makes it so interesting."

Seeing the big picture

While Coach Beal certainly has reason to hope for a long postseason run, she also knows the end of a very special run is coming with this year's group of seniors.

"I know I have said it before but I am so fortunate to have such a nice group of girls to work with and it is so hard to believe that one day in the next month this is all going to come to an end," offered the veteran coach. " I know that this group of seniors — Brittany Dunn, Kristin Monaco, Johanna Brophy, Sammi Lehr, Maggie McGoldrick, Sarah Coggins and Torey Hart — all have a left a mark on this program and they are truly a class act and I will miss them, their leadership and their smiles."

Cohasset golfers do well in all-league tournament

The following are the South Shore League, All-League Golf Tournament Results. The tournament was held Wednesday (Oct. 29) at Ridder Farm Golf Club

Cohasset Athletic Director Ron Ford said the South Shore League extends its thanks to Jon Ridder and Skip Keene of Ridder Farm Golf Club for donating the course for the 2008 SSL Championship Tournament.

• 2008 SSL Tournament Team Results

Connor Dooley of Cohasset takes on a Hingham blocker during Sunday's game.

Sharks beat Hingham to finish 7-1

The eighth grade Sci-Coh Sharks capped off their final season of youth football together with an impressive 14-6 victory against Hingham on Sunday to finish their regular season at 7-1. The Sharks now move on to play Barnstable in the playoffs next Sunday in Scituate at 1 p.m.

Under blue skies and bright sunshine at Hingham High School both teams played four quarters of smash mouth football. After a poor kick-off left Hingham with possession of the football at midfield, Hingham came out firing the ball all over the field, catching the Scituate defense off guard, as they had prepared all week to stop the outside running game of Dean Driscoll. On Hingham's second possession Driscoll broke loose down the right sideline for a 38-yard touchdown but the Scituate defense rose to the challenge and stuffed the conversion attempt, Hingham 6 - Scituate 0.

On the ensuing kickoff, Sci-Coh's **Shane Haggerty** returned the ball to the Hingham 37-yard line. On the first play from scrimmage Haggerty scampered untouched 37 yards to even the score at 6-6, Scituate's conversion attempt failed. The teams traded sides at the beginning of the second quarter but the momentum had shifted to Scituate's sidelines. Linebackers **John Foster, Daniel Buckley** and **Mike Stewart,** with the assistance of defensive ends **Jordan Kelley** and **Conor Dooley**, contained Hingham's outside running game and **Tyler Serra, Sean Shea** and **Craig Davis** stuffed the middle. When Hingham went back to their passing game Haggerty (two interceptions), **Joe Daileader** (one interception) and **Jack White** prevented any advancement from Hingham's offense.

Sci-Coh's offense line of **Davis, Shea, Serra, Buckley** and **Foster** took control of the line of scrimmage as running backs **Stewart, Daileader, Kelley** and **Shea McCarthy** took turns pounding the ball at Hingham's defense. Eventually **Haggerty** found **Kelley** on a deep post and after catching the ball scampered the remaining 17 yards for a touchdown, Scituate 12 - Hingham 6. **Haggerty** kept it himself on the conversion attempt and Scituate led 14-6.

Scituate received the second half kickoff and was able to continuously run the ball between the tackles until they eventually turned the ball over on downs. However they successfully controlled the ball for most of the third quarter preventing Hingham's high-powered offense from getting on the field. Hingham's last attempt at evening the score was thwarted by **Daileader**'s interception and Scituate's tenacious defense led by subs **Patrick Thowig, Mike Rosen** and **David Mavilia.**

Scituate now entertains the Barnstable Silver Bullets on Sunday at Scituate High School. Scituate beat Barnstable in the regular season 20-18, coming back from an 18-8 deficit in the fourth quarter. The winner of Sunday's game advances to the Super Bowl to take on the winner of Marshfield and Bridgewater.

On Saturday morning the sharks JV squad faced off against Marshfield's JV squad over in Hingham and although the final score was not in Scituate's favor, 24-12, there was some valuable performances displayed from the likes of **Mike Rosen** and **Tommy Ryan** at linebacker, and **Brady Cunningham, Grady Comeau** and **Greg Hurley** at defensive back. Offensively **Patrick Thowig** and **Drew Nahill** broke long runs for touchdowns and **Jack White** hit **Matt Gregory** for a couple of nifty completions.

Q&A with Coach Mingels –varsity cross country coach

FROM CROSS, PAGE 15

from Hull have done well this year and will probably be league all-stars. On the Cohasset side, I'd like to recognize Terry McCormack and Tatyana Nakashima as the captains of the boys and girls teams; they have done a great job with the first year runners and also with integrating the two halves of the team. We have a solid foundation for future years and a strong commitment by the runners.

• Other basic information?

Cross Country is usually viewed as an individual sport.....but it's not. It is a team effort and I can honestly say that everyone on the team is contributing every week. We have a mix of runners and other athletes like Vinnie Curran and Cole Hernon who are running CC to get into shape for other sports. Regardless of the motivation for running, everyone is giving 100 percent I am very encouraged about this team and this program and I think we have taken the first step toward a long term, successful program.

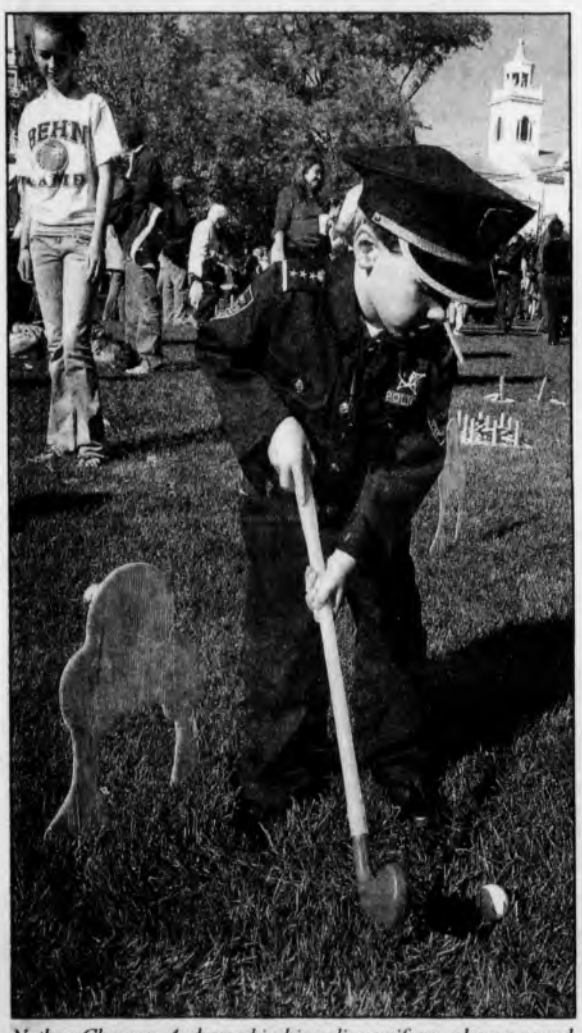
Halloween Happening

Annual tradition heralds the holiday

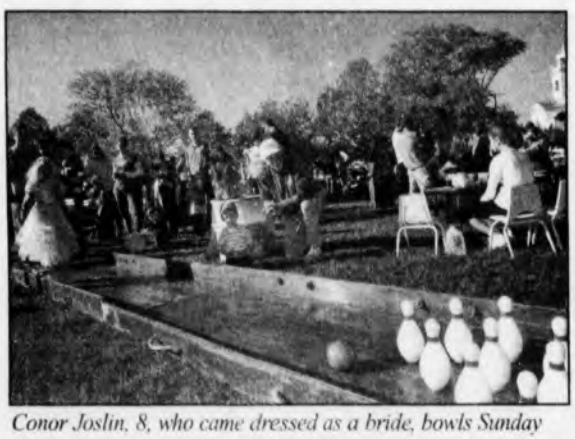
Photos by Craig Goedecke



Luke Gonyea, 5-1/2, rides Belmont with the assistance of Cheryl Meehan and Brianna Janis.

Janet Waserman, as the Cat in the Hat character, walks with her son "Batman" Garrett, 4, around the common during the Halloween parade.

Maddie Williams, 2-1/2, wears her Minnie Mouse outfit to the annual South Shore Community Center Nursery School's Halloween Fair Sunday on the Common.



Nathan Charron, 4, dressed in his police uniform, plays a round of mini golf.

Aidan Gildea, 7, waits for his next customer for his game, Knock Down the Cans. Aidan worked as a volunteer for the event.

Janice Batts returned to the Cohasset Town Common again for her annual Witch Walk around the Pond. At right is Sam Wasserman, 3, as Batman and his mom, Julie.

Conor Joslin, 8, who came dressed as a bride, bowls Sunday afternoon during the South Shore Community Nursery School's Halloween Fair.

Halloween Haunted House tonight at 23 N. Main!

In addition to the Halloween fun, First Parish members will be on hand to offer information about the congregation's religious education program and social justice outreach activities.

First Parish Unitarian Universalist in Cohasset will host a Halloween Haunted House at its Parish House at 23 North Main St., from 4:30 to 7:30 p.m., on Friday, Oct. 31. Sponsored by the congregation's Religious Education Committee, this event will welcome trick-or-treaters and their families from the entire community into this historic Parish House to celebrate Halloween.

The Parish House will be transformed into a haunted house inviting youngsters to walk down the spooky hallways into the large fellowship hall, where they'll find tasty treats and Halloween games for kids of every age. Fair trade coffee, hot cider and cookies will be offered to adults while their trick-or-treaters play Halloween games to win candy and other prizes. In addition to the Halloween fun, First Parish members will be on hand to offer information about the congregation's religious education program and social justice outreach activities.

Halloween games will include:

Trick-or-Treat Caldron – Children approach the caldron filled with small pumpkins. If a child reaches into the caldron and picks out a pumpkin that says "treat," more candy goes into their bag. But if the caldron gives them a pumpkin that says "trick," they'll have to earn their candy by acting out their favorite monster!

Tragic Sam – Poor Sam died of fright on Halloween and all that remains are his body parts – made out of various types of food. Those children brave enough to put on the blindfold and use their sense of touch to guess the right body part may be in for some more candy. A game definitely not for the squeamish!

All are welcome to the fun on Halloween night.

Rec Notes

A doggone good time is guaranteed

A series of special events for dogs and their people are being held at the Cohasset Recreation Center at the garage. These training/social events require dogs be of good temperament, are 90 minutes long and cost $30 per event. Or sign up for all four and the total cost is only $100. Call 781-383-4109 for information or stop by the Rec office at Town Hall, first floor.

Thanksgiving Gobble Doggie Social – Wednesday, Nov 19, from 7 to 8:30 p.m. Events include off leash playgroup, obedience command obstacle course barjump contests and musical doggie tunnels

Doggie Obstacle Course Nite – Wednesday, Dec 1, from 6 to 7:30 p.m. Learn basic agility and run a course with your dog.

Jingle Bell Bark – Wednesday, Dec. 15, from 6:30 to 8 p.m. events include canine contests like best trick best holiday outfit and agility games.

To register call the recreation center at 781-383-4109 or the trainer at 781-878-4343.

Middle School Dance – There will be a dance for Cohasset youngsters in grades six through eight on Friday, Nov. 7, from 7 to 10 p.m. at the Recreation Center (Garage). Dances are $6 per person and pre-registration at www.cohassetrec.com is required. Cohasset residents only and school ID is required. Late arrivals (after 7:30 p.m.) or students leaving early require a parent to be present. Snacks and refreshments will be on sale.

Schools

First quarter grades to close

LIFE AT CHS

LAUREN MACK

The SAT's are to be held this Saturday morning at Cohasset, so I wish all those taking either the reasoning test or any of the subject tests the best of luck

Hello again, everyone, and Happy Halloween! Fortunately for CHS students, there have been no ghosts or ghouls; the only relatively "frightening" thing that has been happening at the school is that the first-quarter grades close next week. Therefore, I'm sure many of the students are checking up on their grades to ensure that they are up to date in all of their classes.

In other news at the high school, the award-winning CHS newspaper, *The Spinnaker*, was sold today during school for $1. Although the papers are no longer allowed to be sold with lollipops attached, the student body still expressed interest in hearing the latest news stories and poll results, as well as gossip.

The SAT's are to be held this Saturday morning at Cohasset, so I wish all those taking either the reasoning test or any of the subject tests the best of luck. I also apologize to those previously mentioned for having to take the SAT's to begin with, especially the morning after Halloween.

Students aren't the only ones who get to have fun on Halloween night; some teachers also enjoy the Day of the Dead — which brings me to my quote of the week. This man is one who is not only well-versed in the English language, but also very passionate about it. That being said, it makes sense that **Dr. John Wands**, head of the English department, would take over as the senior AP English Literature class. When asked if he was going to dress up for Halloween, he replied, "Oh well, I'm going to have to search through some boxes, but I think I'm going to be a clown. Either that or I'll be that ghost character from those *Scream* movies. I'm leaning towards the clown, though." And with that, I leave you all to a wonderfully spooky Halloween weekend! Be safe! Don't egg cars! Au revoir!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.

AP scholar named

Cohasset High School recognizes one more additional student for exceptional achievement on AP Exams. **Meghan Anderson**, from last year's graduating class, has been added to the list of 28 students who have earned AP Scholar Awards.

Congratulations Meghan!

CEF seeks volunteers

The Cohasset Education Foundation (CEF) is looking for volunteers to coordinate their Teacher Appreciation Program, "Extra Credit". It is a rewarding program that allows donors to make a truly meaningful gesture to our dedicated teachers while raising money at the same time. Your participation will be greatly appreciated.

Please contact sarah.murphy@comcast.net and visit cohasseteducation.org to learn more about Extra Credit and the CEF.

Cohasset PAC to meet

Cohasset PAC (Parents Advisory Council) meeting is Tuesday, Nov. 4th. This will be a quick general meeting to talk about organization needs and upcoming workshops. Please consider becoming involved, take a moment and speak to any of the PAC officers or A.P.P.L.E. participants.

Location: The Osgood School, (located behind Deer Hill School), 210 Sohier St.. Time: Starts promptly at 7:30 p.m. All workshops and presentations are free and are sponsored by the Cohasset PSO South Shore PAC Network. The Cohasset PAC has joined with local PAC members in the area to promote communication, combine workshops and establish a broader network. The South Shore PAC Network hopes to meets informally throughout the year. If you would like to be added to our e-mail network for updates please forward your contact information to: southshorepac@comcast.net

News hotline - 781-741-2933

New school Web site launched

The Cohasset Schools has an entirely new Web site. The revamped site is still able to be accessed at www.cohassetk12.org.

The site is composed of five sites, each one to be frequently updated by administrators, teachers and staff. Teachers can have their own site to post homework assignments, the Superintendent can able to post messages, and the daily school lunch menu is available as well.

St. Stephen's Episcopal Church: Welcome to St. Stephen's church!

We are currently underway with our new "Episcopal Church for the 21st Century" class taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. Classes run from noon until 2:00.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, from our website, www.ststephenscohasset.org.

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 am and 10 am on Sundays, including a Healing Eucharist at 9:30 am on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's:

- Sun. Nov. 2: Services at 8 and 10, Godly Play at 10 and youth group at 11:30, 5 p.m. Evensong
- Tues. Nov. 4: Election Day! Please vote!
- Wed. Nov. 5: 9:30 am Holy Eucharist with healing; 10:30 Bible Study; 3 pm, Christian Meditation.
- Thurs. 6: 3:30 Meeting of economic response group
- Fri. Nov.7: 9:30 Yoga
- Sat. Nov. 8: 7 am Bible Fellowship
- Sun. Nov. 9: Services at 8 and 10 a.m., Godly Play at 10:00 and youth group at 11:30.

Vedanta Centre, 130 Beechwood St., 781-383-0940. Denomination: Vedanta, an Indian philosophy which honors all world religions. Clergy: Rev. Dr. Susan Schrager. Sunday morning, 11 a.m. Refreshments and fellowship after the service. Thursday Meditation and Study Class from 7 to 8 p.m.

Legal Notices

BLUE RESTAURANT. INC.
LEGAL NOTICE
Board of Selectmen
Public Hearing Notice

The Cohasset Board of Selectmen, acting as liquor license authority, will hold a public hearing on Monday, November 11, 2008 at 7:10 PM in the Selectmen's Office, Town Hall, 41 Highland Avenue, to consider the application of Blue Restaurant Inc., 156 King Street, Cohasset, for a new All Alcoholic Restaurant License. The proposed manager is Kevin D. Kelley, Sr. The licensed premises shall consist of a one story building of approximately 4,500 square feet which consists of a dining room and bar and additional storage in the basement. There is a handicap accessible entrance on the side and a main entrance in the back. The public is invited to offer input on this proposed license in writing in advance of the public hearing or in person at the hearing.

Horoscope

SALOME'S STARS
FOR RELEASE
WEEK OF OCT. 27, 2008

ARIES (March 21 to April 19) The high standards you set for yourself don't always translate into the behavior you expect of others. That relationship problem can be resolved if you're more flexible and less judgmental.

TAURUS (April 20 to May 20) Not enough party bids to satisfy the Bovine's fun-loving side this week? Go ahead and throw one of your own. Then prepare for some serious work coming up early next week.

GEMINI (May 21 to June 20) A new and intensely productive cycle is about to kick in. Be careful not to get too stressed out, though. Make time to restore your energies by relaxing with family and friends.

CANCER (June 21 to July 22) This could be a good time to share some of your plans with those closest to you. Their comments could give you some added insight into how you might accomplish your goals.

LEO (July 23 to August 22) An attack of self-doubt might be unsettling for the usually super-assured Feline. But it could be your inner voice telling you to hold off implementing your plans until you've reassessed them.

VIRGO (August 23 to September 22) This is a great time for you to reward yourself for all your hard work by taking a trip you haven't spent months carefully planning, to somewhere you never thought you'd be going.

LIBRA (September 23 to October 22) Some misunderstandings resist being resolved. But your sincerity in wanting to soothe those hurt feelings wins the day. By month's end, that relationship should begin to show signs of healing.

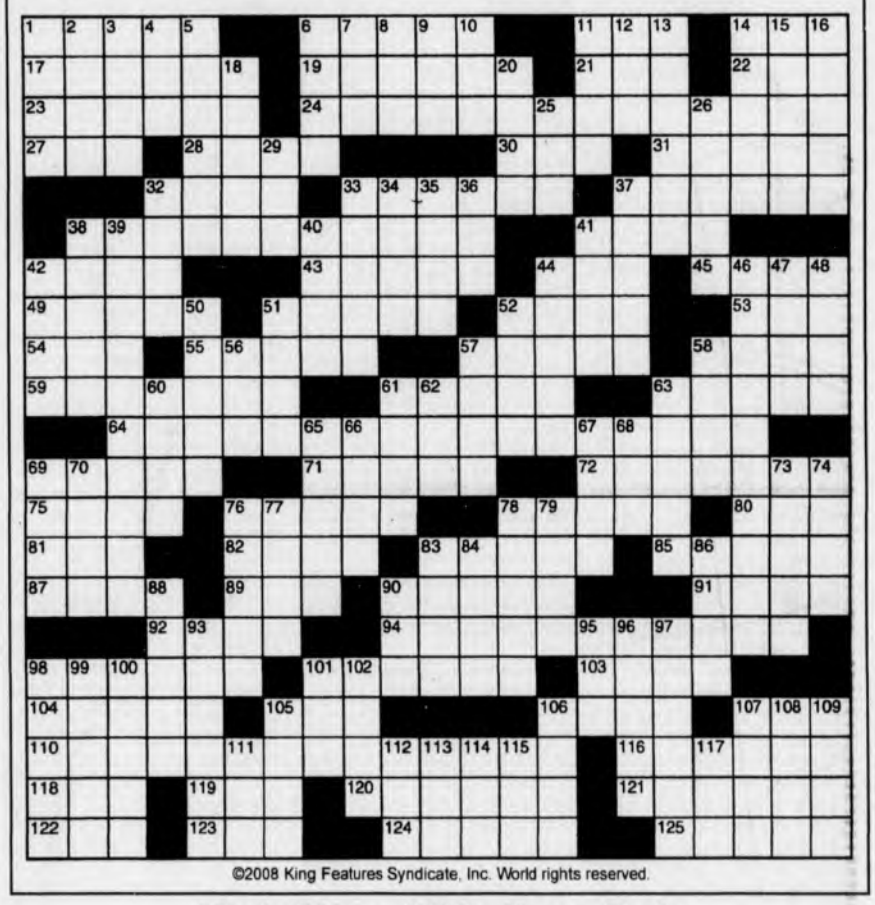
SCORPIO (October 23 to November 21) A hectic job schedule begins to ease just in time to blow off all that work-generated steam on Halloween. A family situation runs into an unexpected complication.

SAGITTARIUS (November 22 to December 21) A cutting remark in the workplace needs to be handled with finesse. Remember: How you respond could determine the depth of support you gain from colleagues.

CAPRICORN (December 22 to January 19) Once again, that Capricornean stubborn streak sets in and could keep you from getting much-needed advice. Fortunately, it lifts by week's end, in time to make an informed decision.

AQUARIUS (January 20 to February 18) A surprise trip early in the week could lead to other unexpected offers when you return. Word to the wise: Avoid talking too much about this until you've made some decisions.

PISCES (February 19 to March 20) Learning dominates the week for perspicacious Pisceans, who are always looking to widen their range of knowledge. A series of important job-linked commitments begins late in the week.



(c) 2008 King Features Syndicate, Inc.

BORN THIS WEEK: Your sense of humor generates good feelings and good will everywhere you go.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Joyful noise

'Legally Blonde' is upbeat as its heroine

By R. Scott Reedy
CORRESPONDENT

'Legally Blonde: The Musical' will be at the Opera House, 539 Washington St., Boston, through Nov. 9.

What do the musicals "Hairspray," "The Full Monty," "Dirty Rotten Scoundrels" and "Legally Blonde: The Musical" have in common?

If you said that they're all based on feature films, or that they each enjoyed long runs on Broadway, you would be right. However, if you answered that all four shows feature choreography by Jerry Mitchell, then not only would you be correct, but you'd also deserve extra credit for reading your "Playbill" cover to cover.

A one-time Broadway dancer, the much-in-demand Mitchell has choreographed 10 Broadway shows in 10 years, including his latest — based on the 2001 MGM comedy starring Reese Witherspoon as Elle Woods, the perky, blonde, pink pump-shod UCLA sorority sister whose passion for a preppy lands her at Harvard Law — now at Boston's Opera House on national tour. The Paw Paw, Michigan-born Mitchell, who first appeared on Broadway as a dancer in the 1980 revival of "Brigadoon," made his directorial debut with "Legally Blonde: The Musical," which he says he knew would make a great musical the first time he saw the movie.

'Legally Blonde' choreographer Jerry Mitchell

"Elle is larger than life. She needs to be at the center of a musical. The story is about young girls at the pivotal moment when they decide, 'Am I going to be pretty or smart?' I loved 'Legally Blonde,' so even though I was up to my eyeballs in work when this came along, I knew I had to be part of it. I think a lot of people want to feel happy and joyous when they go to the theater, and this shows gives them that opportunity," said Mitchell from a cell phone poolside at the Luxor Hotel in Las Vegas, where he has a new show in development.

On "Legally Blonde," Mitchell is part of a creative team that includes Harvard alums and husband and wife composer and lyricists Laurence O'Keefe and Nell Benjamin, and Heather Hach, who wrote the book for the musical.

While the 2001 film remains popular in repeats, the musical built its own following with the highly rated 2007 MTV broadcast of "Legally Blonde: The Musical" from Broadway's Palace Theatre, and the subsequent reality series "Legally Blonde: The Musical, The Search for Elle Woods" which chronicled efforts to find a replacement for original Broadway Elle Laura Bell Bundy. Two Elle runners-up from the reality show, Rhiannon Hansen and Lauren Ashley Zarkin, have smaller parts in the tour. Mitchell, who won a 2005 Tony Award for Best Choreography for the revival of "La Cage Aux Folles," another musical based on a movie, sees plenty of audience potential in all shades of "Blonde."

"The movie and the stage production are entirely separate entities. Movies are all about closeups, of course, while the stage is all about the full scene. Movies tell you where to look. In theater, we have to tell 1,500 people where to look," says Mitchell, who in addition to his still top-secret Vegas project, is also attached to an upcoming Broadway musical adaptation of the 2002 feature film "Catch Me if You Can," which will re-team him with his "Hairspray" collaborators Marc Shaiman and Scott Wittman.

"You can see one or the other or you can see both. It is the story that matters, and when it comes to stories that people love like, like this one, there will always be room for various versions."

("Legally Blonde: The Musical" will be at the Opera House, 539 Washington Street, Boston, through Nov. 9. For tickets and information, call 617-931-2787 or go online at broadwayacrossamerica.com)

Joan Crowe opens the new cabaret room at Cela's in Quincy Center next week.

The South Shore debut of New York-based singer Joan Crowe next week will mark the opening of a new cabaret room in the also new Italian restaurant Cela's in Quincy Center. The endeavor won't be all-new, however, since veteran entertainment presenter John F. McDonald Jr., will be in his familiar role behind the scenes.

McDonald — who local audiences will recall from his dinner theater days at Raffael's in Hull, Quincy, and Walpole — through his JM Productions has presented an array of shows and concerts over the past 20 years. Now he's focused on cabaret music.

McDonald test-marketed his latest venture, "Standing O! Comedy, Cabaret and More," earlier this year at Quincy's The Inn at Bay Pointe. He says he believes the move to what was once the heart of the city's shopping district is well-timed.

"When I was growing up in Wollaston, everybody went to Quincy Square to go shopping, whether it was at Remick's, Sears Roebuck, or Jason's Luggage & Music. If you needed something you could always find it in Quincy Square. Many years have passed since those halcyon days, of course, but Quincy Center has re-emerged as a kind of cousin to New York's Restaurant Row.

"There are all kinds of wonderful new places to eat along Hancock Street that are attracting attention from all over. With that in mind, I decided that what the area also needed was something for people to do after they enjoy a good meal and first-rate cabaret seemed like the perfect fit."

McDonald's idea has the enthusiastic support of Crowe — winner of a 2002 MAC (Manhattan Association of Cabarets and Clubs) Award in the female musical comedy performer category — who will bring her "In the Key of Comedy" show to Quincy.

"I really embrace the whole idea of what John is trying to do," said Crowe by telephone from her home in suburban New Rochelle, N.Y., last week. "It's always such fun to work with new people, too. We haven't met in person yet, but I can tell already that John and I are going to get along very well."

Crowe has been getting along with New York cabaret audiences for years with her regular appearances at Eighty-Eights, Don't Tell Mama, and Danny's Skylight Room. She has also developed a worldwide fan base thanks to podcasts made during her regular Monday night open mike appearances at the famed Birdland. The podcasts, available at her Web site funnyjazzchick.com, recently landed Crowe a gig even further away than Quincy.

"It is amazing how much the podcasts have really expanded my audience," says Crowe, who lists Joni Mitchell, Judy Collins and Bette Midler among her biggest musical influences. "I got a call not too long ago from a representative of Colin Cowie, a big-name event planner with offices in New York, Los Angeles and London. Colin was doing an event for the third richest family in Hong Kong to celebrate the birth of their baby girl. It seems they had a hired a well-known singer from Sydney, but she had suffered a panic attack on the plane from Australia and could not go on. Colin knew me from my podcasts and must have liked what he saw, because I was hired and two hours later was on my way to Hong Kong.

"I only had to do four songs, but it was a gig I will never forget."

JM Productions will present Joan Crowe at 8 p.m. on Friday, Nov. 7, and at 7:30 and 9:30 p.m. on Saturday, Nov. 8, at Cela's, 1495 Hancock St., Quincy. For tickets, call 617-786-7469 or go online at jmproductionspresents.com

Explore Lake Placid any time of year

Nancy Olesin
GATEHOUSE NEWS SERVICE

LAKE PLACID, N.Y. In my family, the Adirondacks are known as "God's Country."

My father grew up near Lake Placid, amid the northern peaks of the Adirondack Park, and would entertain the family with tales of climbing mountains and crossing frozen lakes. He would drive hours from our home in New Jersey to fill jugs from a spring here that he claimed had the freshest water anywhere.

A recent trip to upstate New York gave me the chance to explore the area my father so loved. What I found was a recreational paradise, a place of natural beauty dotted with charming towns and impressive mountains; a four-season delight.

With more than 6 million acres, Adirondack Park is America's largest state park - bigger than the Yellowstone, Everglades, Glacier and Grand Canyon national parks combined. It's even bigger than nearby Vermont.

The park has some of the highest peaks in the East, including massive Mount Marcy - the state's highest peak and second in the Northeast only to Mount Washington in New Hampshire. Whiteface is the area's ski hub. There are some 3,000 ponds and lakes, 1,500 miles of river and thousands of miles of hiking trails - and backcountry that will be forever wild.

Lake Placid, known as the "Winter Sports Capital of the World" for its role as host of the 1932 and 1980 Winter Olympics, is an excellent base for area exploration.

While there is a Lake Placid, most of the commercial development is on the shores of nearby Mirror Lake. On a recent visit, my mother and I stayed just a block from the village center, at the elegant, historic Mirror Lake Inn Resort and Spa. With fireplaces and wood-paneled walls, the inn's common rooms are luxurious without being stuffy; the ambience akin to staying at a Great Camp, which is what huge lake houses are called in these parts.

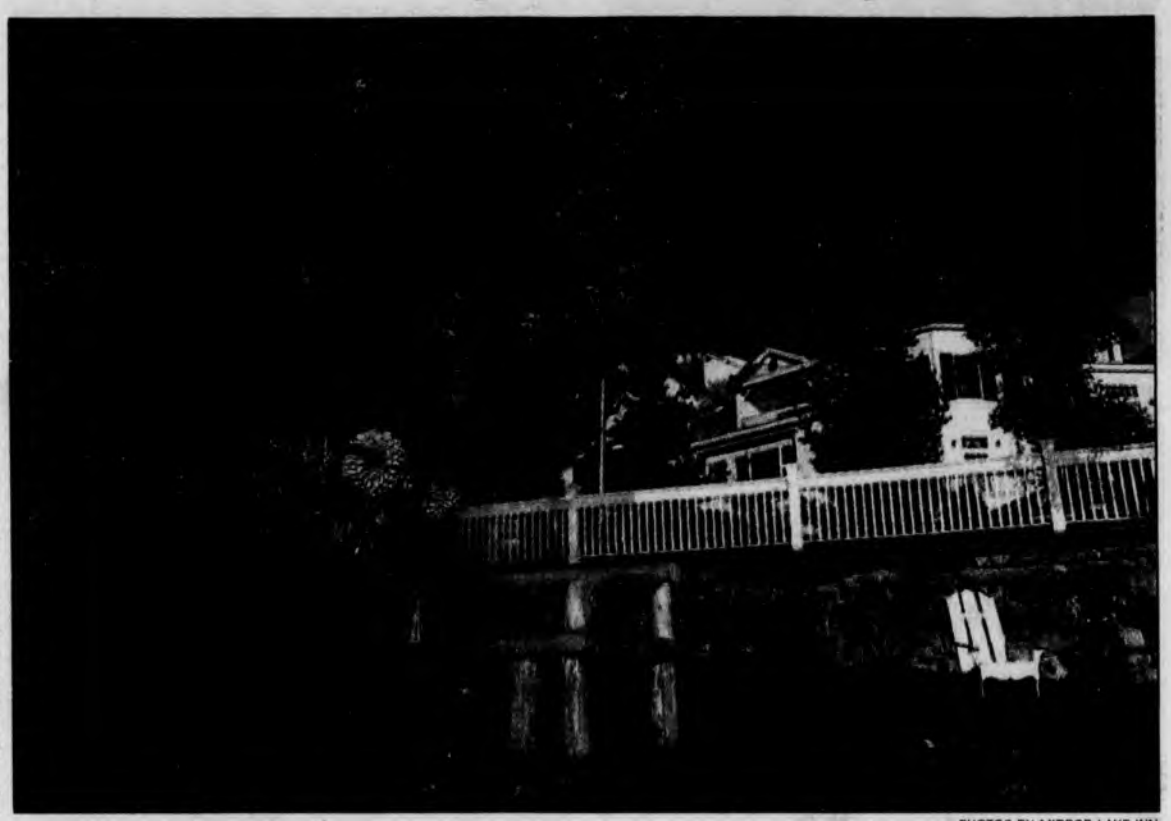
The inn's full-time concierge will organize any type of outing you want, from rock climbing in summer to sleigh rides and ice climbing in winter. A daily activities calendar also has organized activities such as a wilderness canoe trip ($60) and a nature scavenger hunt for kids ($20).

For an easy exploration on your own, start out with a walk, bike ride, or in winter, cross-country ski from the inn on the 2.7 miles of red brick-lined sidewalk around Mirror Lake. Or do what I did and explore the lake on one of the inn's kayaks.

Lake Placid is still the home of athletes. The Olympic Regional Development Authority maintains and operates facilities where serious athletes come to train.

Experience Olympics history with an Olympic Passport ($29) and visit the rink where the "Miracle on Ice" brought home hockey gold for the United States in 1980. You can also see the 1932 rink where Sonja Henie won the figure skating competition. Ride an elevator to the top of the 120-meter ski tower and see freestyle skiers practice their moves at the Olympic Jumping Complex; and tour the bobsled, luge and skeleton tracks at the Olympic Sports Complex. For $65, in warm weather you can hop in with a guide and hurdle down the bobsled track on a wheeled bobsled, or in winter do the real deal for $75. In winter, you can also take spins on the outdoor speed-skating oval.

Champions are still made here, too. In February, the town hosts world championships in three winter sports: toboggan, luge and bobsled (http://lakeplacid2009-.com/).



Nearby, 4,867-foot Whiteface Mountain in Wilmington, about a 15-minute drive from Lake Placid, is where the Olympic ski events were held in 1980 (there were no alpine races in 1932).

Skiing is indeed the popular mountain activity in winter. But in the spring, summer and early fall you can take the eight-passenger Cloudsplitter gondola ($17, or free with Olympic Passport) to the top of Little Whiteface or drive up Veterans Highway to get close to the summit for breathtaking views of the high peaks.

To take in more of the area's natural beauty, in warm weather, you can hop aboard a Lake Placid Boat Tour ($11) where your guide will tell you the history of the Adirondack Park, the 19-mile-long lake and the multimillion-dollar camps that are home to the rich and famous. You'll learn that Lake Placid, which is 350 feet deep in some places, is spring fed. And, you'll hear fish stories: The largest lake trout ever caught in Lake Placid, according to our guide, weighed 32 pounds.

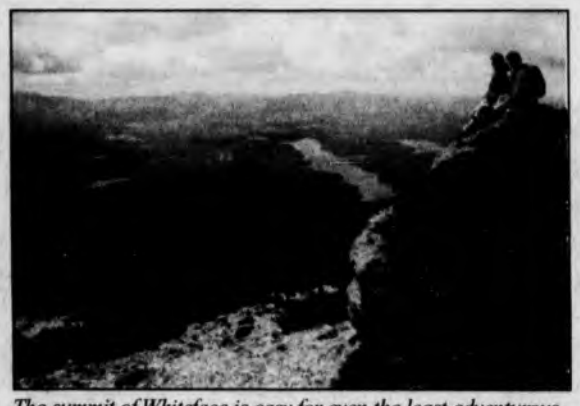
Make sure to reserve time to explore the village of Lake Placid, which is brimming with adorable shops featuring clothing, decorative arts, antiques and rustic furniture so you can bring home a little bit of the Adirondacks. Adirondack Decorative Arts & Crafts (2512 Main St., 518-523-4545) and the Adirondack Store (2024 Saranac Ave., 518-523-2646, www.THE-adirondackstore.com) both offer gifts, furniture and accessories. Buy your own Olympic apparel at the U.S. Olympic Store (2418 Main St. and also at the Olympic Training Center, 518-523-8402), and feel like a Lake Placid champion.

Find more travel features and the Get Away with Fran blog at www.wickedlocal.com/travel.

PHOTOS BY MIRROR LAKE INN

Fall is a beautiful time of year to stay at the Mirror Lake Inn in the heart of Lake Placid.

go...



GETTING THERE: Lake Placid is about a five-hour drive from Boston. But if you have the time, head north on I-93 to Burlington, Vt., and take a ferry across Lake Champlain to Port Kent, N.Y. ($17.50 one-way with driver and vehicle). The drive is much prettier.

STAYING THERE: The Mirror Lake Inn (518-523-2544; www.mirrorlakeinn.com) was opened in 1934 by William Rufus Wikoff, the original "Fuller Brush Man." The property was rebuilt after a huge fire in 1988, but the main inn still features decor reminiscent of a Great Camp. For an extravagant stay, there are suites in two cottage-style buildings lakeside, across from the main inn - ours featured huge chandeliers of carved deer with antlers, a stone fireplace, cathedral ceilings and a deck overlooking the lake. The inn has an award-winning spa - where I was left glowing after an Adirondack Maple Sugar Body Scrub for $125 - and indoor and outdoor heated pools. Rooms from $260 per night, suites from $450.

The Courtyard by Marriott (518-523-2900; www.courtyardlake-placid.com), is a brand-new, modern hotel with an indoor pool with a cascading waterfall. Rooms from $119, suites from $299.

Adirondack Park is a recreational paradise no matter how you choose to explore.

The summit of Whiteface is easy for even the least adventurous via Veterans Highway and an elevator to the top.

ELECTION 2008

Obama takes country, Cohasset

85 percent voter turnout on Election Day

By Nancy White
NWHITE@CNC.COM

For this year's election it could be said, "so goes Cohasset, so goes the nation (and the state)."

Cohasset's majority votes matched up with those cast statewide and nationwide.

A majority of Cohasset supported Democratic Sen. Barack Obama in the race for president, but the race was fairly close. A difference of 223 votes (about 5 percent) separated the votes for the Obama and Sen. Joe Biden ticket from the Republican ticket of Sen. John McCain and Alaskan governor Sarah Palin ticket (2,378 to 2,155).

The results for the four ballot questions reflected the votes cast statewide. Cohasset opposed Question 1, the elimination of the state income tax; supported Question 2 decriminalizing possession of small amounts of marijuana. Cohasset voters were in favor of Question 3, which would ban dog racing where betting or wagering occurs, effective Jan. 1, 2010.

Question 4 was a non-binding public policy question asking state legislators to support Cape Wind and other possible future wind power developments in

SEE OBAMA, PAGE 12

STAFF PHOTO/ROBIN CHAN

Betsy Connolly of Cohasset waves to drivers while campaigning for Obama as they turn onto Highland Avenue to vote after work on Tuesday evening. Voter turnout was 85 percent with 4,623 out of Cohasset's 5,381 registered voters casting a ballot Tuesday.

A supporting role

Women's Auxiliary helps veterans, families and children

By Nancy White
NWHITE@CNC.COM

Each November 11, the country pauses to remember and honor those who have fought for our country and those who have given the ultimate sacrifice.

The American Legion Women's Auxiliary works year round to support area veterans, their families and children. As the largest women's organization in the world, Cohasset's auxiliary chapter is a little piece of a greater movement that has been around for decades.

"As a women's group, we tend to be take care more of the family," said Deirdre Wigmore, President of the Cohasset Women's Auxiliary. From providing stuffed animals to sick children to serving visiting at the Roxbury VA Hospital, the Women's Auxiliary carries out a vision started by the women left behind during World War I.

Initially, the Auxiliary was organized by concerned women who took on the day-to-day responsibilities of life when their male family members went across sea during World War I. Aware of the many fatherless families and the needs of returning veterans, Auxiliary women vowed to continue their supportive roles when the veterans of World War I founded The American Legion in 1919. The Cohasset American Legion and Women's Auxiliary chapter were founded in 1920.

STAFF PHOTO/CHRIS SHORES

Deirdre Wigmore of the American Legion Women's Auxiliary places a wreath at the Veterans Memorial with her father-in-law Steve Wigmore, commander of the George H. Mealy Post, during last year's Veterans Day observance.

Auxiliary members today are wives, mothers, sisters, daughters, granddaughters and great-granddaughters of these courageous veterans. Some members are veterans themselves. In order to be eligible in the Auxiliary, women have to have a direct familial link to a veteran.

For the largest patriotic women's service organization in the world with nearly one million member nationwide, Wigmore said the mission is simple: "Our mission is to help those in need, those in harm's way and each other."

The Auxiliary has myriad programs to help the veterans, with a special focus on children and families.

They collect cancelled stamps to be used in art project for special needs children. They collect the pull off tabs on soda cans and old keys. The metal then gets melted down and each year

School lunch is revisited

Increase in sales at elementary level

By Nancy White
NWHITE@CNC.COM

To keep up with the daily rigors of school, students need a nutritious lunch to get them through the day. Each day, the Cohasset Schools provide students with options to ensure their stomachs are full.

This fall, a few strategic changes have been made for the school's food service department in an effort to get more kids to buy lunch.

Last year, the School Committee kept a close eye on the food service budget at their monthly meetings as they saw the revenues were not making back the cost. When the School Department closed the books on fiscal 2008, the food services budget ran a deficit of approximately $40,000. It was the first year where the food service budget, which is typically a self-sufficient operation or even a profit maker, ended the year significantly in the red.

Food service director Bob Levy and school finance director Dave DeGennaro reported to the School Committee Wednesday night on the first two months of school lunch operation.

"We were in a spiral downward, but we're fighting everyday to grab every sale we can get," said Levy.

To begin to combat the problem in the

Where the sidewalk ends...

Parking Way sidewalk proposal is on the table

By Nancy White
NWHITE@CNC.COM

With all the changes in the village over the last few years, there is more to come. The revamped zoning bylaws were designed to encourage new growth while ensuring Cohasset's village will retain its small town New England charm.

"Having some sort of game plan is a good first step, then we can chip away at the actual project."
— Clark Brewer, Planning Board

One of the key areas the bylaw targeted were the properties that abut the town parking lot. Currently, the area looks like the back end of village, but the rear of South Main Street has been envisioned as having a "second main street façade."

At previous Planning Board meetings the property owners and developers in that area have asked for some town effort to be made to design a sidewalk along Parking Way. Not only would the sidewalk improve the look of the area, but also link the area, which someday may have retail storefronts, to the rest of the village.

Planning Board member Clark Brewer has taken on the sidewalk initiative as a side project. An architect by trade, he has drawn up a preliminary schematic design. While nothing has been set in stone, Brewer said the proposal is an important one.

"Having some sort of game plan is a good first step, then we can chip away at the actual project," said Brewer. The sidewalk design would require some engineering before it could be put into action.

Portions of the area are poised to change in the area in the near term. At one end plans for a medical building behind the village gas station were recently approved by the Planning Board and at the other, the new building at 22 Depot Court opened with five new businesses this week.

Some developers, particularly those whose properties border on Parking Way, have repeatedly spoken to the Planning Board of the importance of a town plan for a sidewalk and other pedestrian amenities to enable the "second main street façade" talked about for the town parking lot. The subject came up at recent design review guidelines public hearings.

The challenge will be rectifying jagged property lines through easements or land swaps that currently prohibit a continuous sidewalk from being built bordering the parking lot.

Wayne Sawchuk, owner of 35-39 South Main St., which borders on the town parking lot, has been a proponent of establishing a town plan for a sidewalk.

"I don't see it as an expensive thing and it will go a long way in making the area look a lot nicer," said Sawchuk, in a phone interview.

Village property owners have also asked the Planning Board to consider changing the street name to something more appealing than "Parking Way."

POLICE/FIRE LOG

Police arrest Cohasset man on drug charges

By Mary Ford
MFORD@CNC.COM

Cohasset police have arrested Brien J. Buckley, a 21-year-old Cushing Road resident, on charges of distributing marijuana.

During the afternoon of Nov. 1, Cohasset detectives, acting on information that a resident was distributing marijuana from his home, established surveillance of the home at 37 Cushing Road.

Detectives observed James Wood, 18, of Marshfield meet briefly with Buckley then leave the area. Police then observed Wood meeting with Robert Noble, 17, of Marshfield and a 15-year-old Marshfield juvenile, in the area of Bancroft Way. Police stopped and searched the teens and seized about one ounce of marijuana from under the front seat of their vehicle, found one gram of marijuana on the juvenile, and a Xanax pill on Noble. All three were arrested without incident, police said.

During the next 10 minutes, detectives saw Buckley meet briefly with the occupant of two other cars that then left the area.

Police stopped one of the vehicles and seized about one ounce of marijuana. The occupants said they had purchased the marijuana from Buckley. Police may summonsed those individuals to court on marijuana charges.

At 4:50 p.m., detectives saw Buckley leave his home and head up Norfolk Road and onto Bancroft Road where he was stopped.

Officers found about one-half ounce of marijuana inside Buckley's vehicle and he was arrested without incident.

Police served a search warrant at 37 Cushing Road on Nov. 2 and seized about two pounds of marijuana, some crack cocaine, psilocybin mushrooms, a scale and marijuana packaging supplies. They also seized $7,266 in US currency from a desk and safe in the bedroom. The street value of the marijuana seized is about $13,000, police said.

Buckley is facing several marijuana charges including possession of marijuana with intent to distribute, drug violation near a school and conspiracy to violate the drug law. Police said additional charges against Buckley would be filed related to the evidence seized during execution of the warrant.

Buckley and the others were arraigned Monday in Quincy District Court. Police

Lt. Gregory Lennon described the arrest as a very successful drug suppression operation conducted by the Cohasset Criminal Investigation Division with the assistance of the patrol division.

"This operation resulted in the arrest of a significant source of supply of marijuana to Cohasset youth and youth from surrounding towns," Lennon stated in a press release. "We are confident that this arrest will make a major impact on the availability of marijuana to the adolescent population in this area."

Chief James Hussey said this arrest should put a dent in the supply of marijuana in Cohasset and surrounding communities.

"One of the buyers in this case was only 15 years old," Hussey said. "That is our biggest concern; keeping this drug out of the hands of our youth."

Toxic substance

A 37-year-old Cohasset woman is facing charges of inhaling a toxic substance (gas from whipped cream cans).

A call came in at 9:23 a.m. from the Mobil Mart on Route 3A from a witness who reported seeing the woman disposing of a large quantity of whipped cream cans in the trash. The caller also reported seeing the car drive off erratically. Police ran the plate number that showed the car belonged to a resident.

Police collected 22 cans from the trash and found the receipt where they had been purchased.

Further investigation revealed there was enough evidence to charge the woman who is being summonsed to court for inhaling a toxic substance.

Police also spoke to employees at the store where the woman bought the whipped cream to remind them to be alert when someone is purchasing a large quantity of the cans.

Protective custody

A 66-year-old Scituate woman was taken into protective custody after police responded to a call about a silvered-colored car in Wheelwright Farm in which the occupant appeared to be sleeping. The call came in at 1:44 p.m. on Sunday (Nov. 2) and when police arrived the doors were locked. Initially she refused to open the doors or windows. Police determined she was under the influence of alcohol. Police tried to contact family members to pick her up but were unsuccessful. Her car was towed and she was taken into protective custody.

Lost wallet

A woman walked into the police station on Sunday to report that her wallet was either lost or stolen. The last time she remembered having the wallet was at Walgreen's on Halloween. The wallet contained about $100 in cash, her driver's license and credit cards. She contacted Walgreen's on Saturday but no one had turned the wallet in.

Police advised her to cancel her credit cards.

Car keyed

Police responded to a caller from Chief Justice Cushing Highway (Route 3A) at 4:30 p.m. on Friday (Oct. 31) who witnessed a car being keyed in the parking lot. The witness provided a description of the suspect as a white male wearing a blue shirt and green hat. The suspect fled across the street toward Hingham Lumber. Police responded right away but could not locate him. Police talked with the witness but there did not appear to be any motivation for the vandalism that would lead to the suspect.

Vandalism

A woman who is going through a divorce reported vandalism to shelving in a shed last week on her property and two days later reported that her car had been keyed. She believes her "ex" could be responsible and police are investigating. There was also drained oil dumped behind the shed and some trash. The car was vandalized while parked in the town lot. There was damage to the right rear quarter panel and right front fender. Nails were also put against two tires, police said.

Unregistered

A 23-year-old Hull man is being summonsed to court for driving an unregistered, uninsured motor vehicle last week. An officer stopped the pickup truck because it did not have a valid registration sticker and a computer check revealed the truck was not registered. The operator was allowed to make arrangements to be picked up and the truck was towed. The incident occurred at 10:36 p.m. Thursday, (Oct. 30).

Sandbar

The Coast Guard handled an incident that was reported at 5:08 p.m. on Friday (Oct. 31). Police said a caller reported that a boat was trying to run him into a sandbar. The harbormaster was also advised of the incident.

Hit & run

Cohasset police assisted Hingham police in locating a Cohasset man involved in a motor vehicle accident in Hingham at about 10:30 p.m. on Thursday (Oct. 30). Cohasset police confirmed the car and operator were at the residence and Hingham police brought the operator back to the accident scene on Rockland Street.

Deer hit

A 1999 Volkswagen operated by a Scituate resident hit a deer at 5:23 a.m. on Monday (Oct. 27) on Chief Justice Cushing Highway (3A). The deer ran across the roadway. The car had damage to the bumper and a headlight.

The state DPW was contacted to collect the deer, police said.

A plan for buses is needed

Aging fleet concerns School Committee

By Nancy White
NWHITE@CNC.COM

Five out of the seven Cohasset school buses have over 100,000 miles on them.

The oldest bus, usually kept in a reserve role, was built in 1994.

These facts give the School Department and the School Committee great concern. When coupled with the facts the older buses incur high maintenance cost and there is currently not concrete plan for bus replacement, the schools got serious about establishing a 10-year plan for replacing their transportation fleet.

On Wednesday night, the School Committee reviewed the facts and some of the options for bus replacement. Historically, the school buses and two special education vans have been considered as capital expenditures and paid for with free cash or other town funding, not the school budget.

At a recent Capital Budget Committee a few weeks ago the Superintendent of Schools Denise Walsh, Finance Director Dave DeGennaro and some school committee members went before the Capital Budget Committee to talk about developing a plan for bus replacement. They didn't specifically ask for the committee to consider the purchase of a bus in this Town Meeting cycle (Special Town Meeting is Nov. 14), rather they were looking to get buses on the radar screen not only for Annual Town Meeting in the spring, but for the foreseeable future as all the buses are aging.

"We're getting anxious that we're not moving at all on this," said Walsh Wednesday night. In that spirit, the School Committee is looking to take ownership of the replacement schedule. In the upcoming fiscal 2010 cycle, the School Committee will separate out the transportation costs from the operational side of the budget.

Not only were there concerns for the safety of the vehicles, but also School Committee member Lucia Flibotte expressed frustration with the Capital Budget Committee for not being prepared for the expenditure. A school bus has been on the capital budget spreadsheet for several years.

"The Capital Budget Committee has known about we will need a bus in 2009 for five years…isn't the question why are we being overlooked by the Capital Budget Committee," said Flibotte.

Chairman Rick Flynn rationalized the situation by saying the capital budget committee only has so much to spend each year and the amount is not much.

"My point is (the buses) have to be taken out of the capital budget…we need to attack this from a different direction," said Flynn. "The reality is their cash flow is limited."

Member Adrienne MacCarthy agreed, "we need to take ownership of the issue."

DeGennaro went through the scenarios of buying the buses outright (at a cost of approximately $85,000) versus lease to buy over three or five years (at the end of the lease term, the town would own the asset).

If the buses/vans are purchased outright, one every year, the cost would be $780,000 and the replacement cycle would be 10 years, completing in 2017.

In a five-year lease scenario, payments of varying amounts (a low of $10,946 and a high of $92,765) would be paid over 14 years, ending in 2021. The total amount paid over the cycle (with interest) is $851,580.

The School Committee members seemed to favor buying the transportation assets outright.

"The best option, if we have the money, is to purchase the buses outright," said Walsh.

In fiscal 2008, the schools paid nearly $100,000 in preventive maintenance, vandalism, and repairs. With the cost of fuel ($28,000), the total maintenance cost was $126,000.

With the maintenance cost for fiscal 2008, DeGennaro pointed out a new bus could have been purchased.

"With newer vehicles there would be less maintenance cost," said School Committee member Steve Fusco, who asked DeGennaro to run the numbers on how less maintenance costs could possibly partially offset the purchase of a new bus.

Options of contracting out the bus services were discussed, but Flynn said it had been explored a few years back and didn't work because of Cohasset's location and small size.

Fusco requested DeGennaro prepare a few numbers to show the cost of owning the bus holistically (including cost of bus purchase, maintenance, insurance, bus driver salary etc.) so they could get a clearer picture of the cost they will be facing in future years.

"We need to figure out how to fund it," said Flynn. The bus replacement schedule will be discussed leading into the budget season.

School lunch sales up at elementary level

FROM LUNCH, PAGE 1

spring a food service consultant was hired to do an extensive operational review to help the fledging school lunch program. The consultant's primary goal was to suggest improvements to strengthen the fiscal integrity of the lunch program.

The consultant, Mary Jo Cutler, a registered dietician and nutritionist, suggested a revamp the menu including increasing fresh fruits and vegetables, incorporating more exciting descriptive language of the entrees, and making over the high school salad bar. Some of the changes were implemented during May and June of last year, but this fall has been the first true test of the lunch program.

"All the decisions we're making indicate we're going in the right direction," said Levy. "We've seen a pretty sizable increase in meals consumed daily at the elementary level."

Levy said nearly all the processed foods formerly a staple on the school lunch menus have been replaced with more wholesome options. Canned fruits have been replaced with fresh options. A grilled cheese sandwich and a soup of the day are available on a daily basis. Fresh vegetables are served with a dip to make it more appetizing for the students. The menu has more color and descriptions.

At the Osgood and Deer Hill Schools school lunch participation numbers are up—and so are the profits. At Osgood the percent of student participation rose from 33.1 percent in October 2007 to 40.4 percent in October 2008. At Deer Hill participation percentages stayed relatively the same when compared to last year's numbers. The high school participation numbers have dropped off slightly over the same time last fall.

Superintendent of Schools Denise Walsh said most schools aim to have a 50 to 70 percent student participation rate in school lunch.

In addition to trying to drive more lunch sales, the schools are also trying to look at their supply prices. To save money on the food products themselves, Cohasset has joined the Education Cooperative (TEC) and now has cooperative buying power with other area schools thereby lowering the prices of certain food items.

"We buying better food and getting better prices," said Levy. "From the changes we've made and implemented we're seeing improvement."

In addition to menu changes, Levy has implement flow changes at the middle-high school and Osgood School to make paying for the meals a little quicker and easier. The middle-high school is not seeing a marked improvement in sales, but Levy is hopeful the students will come around. A new salad bar at the high school is popular, said Levy.

Levy said there are inherent challenges for the school lunch program in the current economic climate. Parents are pinching every penny and many are opting to brown bag their children's lunch rather than spending the few dollars on a school lunch.

"We feel confident we're making better decisions and providing a better product to the students," said Levy.

School Committee member Steve Fusco asked the Levy and DeGennaro to go directly to the source—the students—for feedback on the lunch program.

"We need to find out why they aren't buying lunch," said Fusco.

DeGennaro told the School Committee the first two months of data only provide a "snapshot" look at the program and requested they wait to gather two more months of data before making any further decisions on the program.

Information about drinking water

The following is a notice from the Cohasset Water Department.

Cohasset Water Contains High Levels of Lead - Our water system recently violated a drinking water standard. Even though this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we are doing to correct this situation.

We routinely sample water at consumers' taps for lead. The tests show lead levels in the water above the limit, or "action level," so we are required to install corrosion control treatment. This treatment helps prevent lead in the pipes from dissolving into the water. Corrosion control is installed and is being adjusted to improve results.

What should I do?

Listed below are some steps you can take to reduce your exposure to lead:

Call us at the number below to find out how to get your water tested for lead.

Find out whether your pipes contain lead or lead solder.

Run your water for 15-30 seconds or until it becomes cold before using it for drinking or cooking. This flushes any standing lead from the pipes.

Don't cook with or drink water from the hot water tap; lead dissolves more easily into hot water.

Do not boil your water to remove lead. Excessive boiling water makes the lead more concentrated - the lead remains when the water evaporates.

What does this mean?

Typically, lead enters water supplies by leaching from lead or brass pipes and plumbing components. New lead pipes and plumbing components containing lead are no longer allowed for this reason; however, many older homes may contain lead pipes. Your water is more likely to contain high lead levels if water pipes in or leading to your home are made of lead or contain lead solder.

Your water is more likely to contain high lead levels if water pipes in or leading to your home are made of lead or contain lead solder.

Infants and children who drink water containing lead in excess of the action level could experience delays in their physical or mental development. Children could show slight deficits in attention span and learning abilities. Adults who drink this water over many years could develop kidney problems or high blood pressure.

What happened? What is being done?

In August of 2007, three homes in Cohasset tested above the maximum contaminant level for lead. The source of the lead is from brass or lead pipes and fixtures located in the plumbing of the home. The water that leaves the treatment plant and well station to supply the town does not contain any lead. The treatment plant has a corrosion control system in place and has made adjustments to improve results.

This is not an emergency. If it had been, you would have been notified immediately.

For more information, please contact the Cohasset Water Department at 781-383-0057 or 339 King St. Cohasset, MA 02025.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

ELIZABETH GRADY

ONE GIFT FITS ALL.

Give an Elizabeth Grady gift certificate.
It's the perfect gift for everyone on your list. They'll all love a relaxing facial, body massage, a day or an entire year of beauty. Each certificate can be customized and is presented in an elegant gift box, complete with ribbon, and sent the day you order. Call now or visit our web site. It's a beautiful way to shop.

Call 1-800-FACIALS or visit www.elizabethgrady.com for nearest location, services, products & gift certificates.

BRIEFLY

Schools on track with budget calendar

Superintendent of Schools Denise Walsh reported the school department was gearing up for the budget season. In recent weeks she had meetings with all the school principals to talk about the fiscal 2010 budget. She is expecting to bring forth a level services budget.

"It's going to be about as lean as we can make it while still providing the essentials," said Walsh. That means no new staff, but recently added services, like the Virtual High School program, will remain intact. Pressing needs, like fourth- and fifth-grade social studies textbooks to better align with the curriculum, will be included as well.

Walsh also proposed separating out transportation expenses from the operational budget to give the School Committee and the town a clearer picture of that cost.

"Personally, I think it makes sense to isolate that...if we put it as a separate item, more attention will be paid," said School Committee chairman Rick Flynn.

State budget cuts hit schools

It's been in the news for weeks now, but the state budget cuts are now beginning to affect the Cohasset Schools budget albeit thus far in a small way. Approximately $1,000 has been cut from the town's METCO state grant. The grant was reduced from $272,080 to $271,162.

Superintendent of Schools Denise Walsh prepared the School Committee that there could be other state budget cuts that could affect the Cohasset Schools in fiscal 2009.

"Every grant we've applied for has been cut or eliminated all together," said Walsh. For example, Walsh said, the Cohasset Schools were a good candidate for a gifted and talented grant, but now the state has decided to regionalize the allotment and the money will likely go to school districts struggling with meeting their MCAS annual yearly progress targets.

"In recent years, grant money was pretty plentiful and we benefited," said Walsh. "On the state side we will begin to see the impact."

Walsh said she is keeping a close eye on how a $13 million statewide cut to circuit breaker funding (a state grant to help districts with special education costs) will affect Cohasset.

School Committee chairman Rick Flynn tried to see the silver lining, "the good news is we have gotten grants in recent years and it has benefited our schools."

School website up and running

The Cohasset schools' website, www.cohassetk12.org, has an entirely new look and new features. Powered by School Fusion, the new site has information about the district and all three schools. Monthly lunch menus are posted for the Deer Hill and Osgood Schools. Classroom teachers each have their own page to post homework assignments, grading policies and upcoming events. In the near future, parents and students will get unique log-in accounts to keep in touch with teachers and the school. An online payment mechanism to pre-pay school lunch tickets, fees and tuitions will be available soon.

There is a Laser way to treat severe gum disease without cutting or stitches

Introducing
Laser Periodontal Therapy™

Finally, there's good news for those of you who suffer from gum disease (gingivitis and periodontitis). We now offer an exciting laser based technique for treatment of periodontal disease called Laser Periodontal Therapy™. Through the use of the Millennium Dental Technologies, Inc. PerioLase® Laser, designed especially for Laser Periodontal Therapy™, we can treat your moderate to severe gum disease and you can quickly return to your normal routine!

There's no incision (scalpel) and no stitches (sutures). Discomfort is greatly reduced, often there is not any pain at all. You heal naturally with full retention of your gums. Local area dentist Dr. Michael Thomas is fully trained and licensed to perform Laser Periodontal Therapy™, an FDA cleared and patented laser gum therapy that greatly reduces the pain and recovery time associated with traditional gum surgery. Dr. Thomas is the only dentist in the South Shore area using the PerioLase MVP-7, the first ever digital dental laser with FDA approval for use in the treatment of gum disease. If you suffer from tender, red, swollen, bleeding gums, or have been told you need periodontal surgery to treat gum disease, call us today for an appointment to evaluate your condition and see what a difference the laser treatment can make for you.

NOVEMBER!

Hello Cohasset, Happy November. I cannot believe we are at this time of year already. The weather has been so nice but looking ahead it looks like some cooler weather is coming. I hope everyone had a happy and safe Halloween, the costumes that we saw around were so cool and cute. We have some great items to talk about and let you all know about this week as well as introducing us all to some new babies in our world.

BABY GIRL

Katherine Murphy Snider was born on September 5, 2008 at Georgetown Hospital weighing in at 5 pounds. Her proud parents are **Keeley (Dwyer) and Barney Snider** of Chevy Chase, Md. and Katherine's excited and thrilled grandparents are **Retta and John Dwyer** of Cohasset and **Britt and Ginger Snider** of McLean, Va. Congratulations to you all and "Thank heavens for little girls..."

OH BOY!

Congratulations go out to **Todd** and his wife **Kristen (Drunsic) Bestick** who had a son on Oct 30, 2008 at South Shore Hospital. **Brayden Todd Bestick** arrived weighing in at a healthy 7 pounds, 11 ounces. His very happy and proud grandparents are **Earl and Carol Bestick** of Cohasset and **Tom and Debra Drunsic** of Norton.

His aunts and uncles are **Al and Elizabeth Beaune** of Cohasset, **Earle and Barbara Bestick** of New York, **TJ and Jamie Drunsic** of Marshfield and **Bryan and Stephanie Murphy** of Norton. What a treat this little boy was, enjoy him each and every day!

CMI MEETING

The Cohasset Maritime Institute (CMI) will hold its Annual Meeting on Saturday Nov. 15 at 9 a.m. at 40 Parker Ave. Cohasset Maritime Institute is dedicated to the preservation of Cohasset's maritime history and the promotion of ocean rowing for Middle and High School students and adults. All Cohasset Maritime Institute members and the community are invited to attend the CMI Annual Meeting.

Following the Annual Meeting, volunteers are needed and welcome to assist in the clean out of the CMI boathouse in preparation for its' renovation. Please visit the CMI website, rowcmi.com, for more information or call *Lisa Hewitt Dick* at 781-383-0204 or **Susan Galligan** at 781-383-0765.

BOOKS!

The Community Garden Club's publications, Cohasset Entertains and The Eclectic Gardener, would make excellent holiday gifts. The cookbook contains not only tried and true recipes, but also sample menus and arrangement ideas. The Eclectic Gardener is divided into chapters by month starting with January. Each chapter provides gardening tips, seasonal recipes, nature notes, possible outings and much more. Books can be purchased at Flemings of Cohasset and club member businesses —the Windsor Tea Room and Country House Furniture and Interiors.

It's not too late to give a gift of bulbs. The club has a nice selection of spring flowering bulbs available. You can purchase them by calling **Liz** at 383- 0998 or email her at ejrichardon@comcast.net.

All purchases help to fund Community Garden Club programs including the Junior Gardener program at Deer Hill School, the scholarship fund, the garden therapy program for seniors at Golden Living Center and local conservation and beautification efforts.

DOORWAYS

The Community Garden Club of Cohasset invites Cohasset residents to participate in a Decorated Doorway Contest. Doorways should be decorated for the holidays in a festive, imaginative way. A committee from the Garden Club of Hingham will judge our doorways on Dec. 15. Winners will be announced before Dec. 25. This contest is meant to be fun. There is no entry fee and there are no rules to follow. If you wish to enter your doorway in the contest, you must fill out an entry form by Dec. 12. Judging will take place on Dec. 15. Entry forms are available at Town Hall, the Paul Pratt Library, Community Center, French Memories, Village Wine Store, and Cohasset CVS. Instructions regarding the contest and the submission process appear on the entry form.

OUR WORLD

Looking for something to do with the kiddos on Tuesday, Veterans Day? Well, bring them on down to the Our World Museum (www.ourworldcgdm.org) for a fun-filled musical concert with Jim Armstrong at 9:20 and to pick up a Holiday Schedule of programs, creative nites and more. Children of all ages are welcome with parent, grandparents, nannies and friends. If you have any questions, call 781-383-3198.

POST PROM

Attention all senior parents! On Thursday, Nov. 13, there will be an organizational meeting in the Cohasset School Library to begin making plans for the post prom party. The meeting will begin at 7 p.m.. If you are unable to attend but would like to participate, contact Barb Mullin or Ronnie McMorris.

It is so important to get ready know for this and work together for a fun-filled, safe and happy event.

REUNION

Just a reminder that The five year reunion for the CHS class of 2003 will be held Wednesday, Nov. 26th from 7-11pm at the George Mealy American Legion Post, 98 Summer St. Make your parents happy by coming home for Thanksgiving. Then catch up with old friends and share your new exciting experiences. Appetizers and drinks will be served. Questions? Contact **Curt** (curt.kahn@gmail.com) or **Ross** (rlieblappen@gmail.com).

That is it for now. Make sure to send in all of your news no later than Tuesdays by 5:00 pm.

EMAIL: aroundtowncohasset@yahoo.com

MAIL: PO Box 33, Cohasset, MA 02025

WEDDING

Mr. and Mrs. Mathijs Willem Zandbergen.

Zandbergen - Ross

Kathryn Bridget Ross, daughter of James and Susan Ross of Cohasset, was married June 28, 2008, to Mathijs Willem Zandbergen, son of Henny and Liesbeth Zandbergen of Katwijk, the Netherlands. The wedding was held in Trinity College Chapel in Oxford, England, and was presided over by the Rev. Emma Percy. A reception was held on the Trinity College lawns, followed by dinner and dancing in the hall.

Rebecca Ross, sister of the bride, was maid of honor. Flower girls were Victoria Parker, Fiona Ross and Ellie Butler, all cousins of the bride.

Johan Zandbergen, brother of the groom, served as best man. Andrew Ross and Thomas Ross, brothers of the bride, served as groomsmen and musical talent.

The bride is a Class of 1996 graduate of Cohasset High School, a Class of 2000 graduate of Skidmore College and will complete her doctorate degree in comparative social policy at the University of Oxford in the winter of 2009.

The groom is a Class of 1997 graduate of Pieter Groen High School, a Class of 2001 graduate of TU Delft, and will complete his doctorate degree in material science at the University of Oxford in the winter of 2009.

The couple honeymooned in Pano Elounda, Greece, and plan to reside in the Netherlands commencing in January of 2009.

Cohasset Cabaret benefits youth ministry

Don't miss the chance to see the local talented cast in Cohasset Cabaret '08 this Friday and Saturday, Nov. 7 and Nov. 8, at St. Anthony's Parish Hall. The show will be emceed by Doug Trudeau of Showstopper's fame, and the lineup includes performances by Lily Sestito, Tina Turner and Boston baritone Vere Bowen; and a song and dance by Katherine Umano, the young star of the musical "Thoroughly Modern Millie." To top it off, a few of the guys from the "Full Monty" will be there for a really show-stopping review.

On both evenings a social hour will take place from 7 to 8 p.m., when you can try your luck at the raffle table, which will have some great items from local artists and merchants. Audience members can bring their own snacks or chose from a selection of theatre sandwiches. There will be a cash bar serving wine, beer and soft drinks.

Cohasset Cabaret is sponsored by The Friends of Cohasset Elder Affairs and will benefit the Friends and St. Anthony's Youth Ministry. Tickets, $25, are on sale at St. Anthony's Parish Hall office.

BOOKS FOR TROOPS

Got Books, a local organization with the goal of collecting and re-circulating donations of used books from the community, has a goal. Got Books started the Books for Troops program and has pledged to send 25,000 books in 2008 to local residents serving overseas in the military.

YOU CAN HELP BY DONATING BOOKS.

When you donate books, Got Books sorts them to find their best use. The goal is to get books to people who will enjoy them. Books that we've determined will be best for the troops will be sent overseas, while others will be given free to local schools, given free or at extreme discounts to local teachers, or sold at the Charity Book Sale where 50% off all profits are donated directly to local charity partners, while a small percentage will be sold online to help cover the costs of all these programs. No book will EVER end up in the trash. Damaged or unusable books get recycled as a last resort... Saving trees, not bad for a worst case scenario.

With 8 years of experience, Got Books will find a great new home for your used books. Through a wide variety of programs, they have the best chance of finding a use for the books you once enjoyed. Got Books makes it easy to donate by offering a free pick-up service for donations. You can also drop them in a LOCAL donation bin, which in most cases raises money for the nonprofit group hosting the container.

A true win-win situation.

To schedule a FREE pick-up or to learn more about re-circulating your books into the community, please call 978-327-7672 or visit www.GotBooks.com/troops.

Helping YOUR community, one book at a time.

Opening night for 'Godspell' is Fri., Nov. 14

By Nancy White
NWHITE@CNC.COM

The set is simple — chain link fence and a few sawhorses.

The cast is small — just 10 actors, five men and five women. But, "Godspell" is anything but small and simple.

The Cohasset Dramatic Club will present their interpretation of the well-known musical — and the even better known stories it tells — beginning next Friday (Nov. 14) at Cohasset Town Hall. For the first time in its long history, the Cohasset Dramatic Club will present "Godspell," the musical based on the Gospel according to St. Matthew.

PHOTO/LAURA SINCLAIR

Stephen Lee and Denise Feeney sing "By My Side" during a rehearsal for the Cohasset Dramatic Club's production of "Godspell."

PHOTO/LAURA SINCLAIR

The cast of the Cohasset Drama Club's production of the musical "Godspell," front row, Stephen Lee of Randolph, Bill White of Scituate; middle row, Lisa Pratt of Cohasset, Dan Kirichok of Brockton, Denise Feeney of Abington, Eric Braun of Hanover, Sharon White of Scituate; back row, Mark Alves of Cohasset,Anne Thornton of Hanover and Nicole DiRuzzo of Quincy.

"Godspell" is not the traditional boy meets girl musical in a lot of ways. The cast acts as the crew to make the set transitions from scene to scene. It has a smaller cast than traditional musicals and no chorus parts. Each of the 10 actors plays an integral role in the production and telling of the story. The play is broken up into several different stories, or parables, from the Gospel according to St. Matthew. The stories of the Prodigal Son, the Good Samaritan and the Last Supper are all told during the course of the production.

"It's a hip version of the Gospel according to St. Matthew," said Mark Bono, director and music director of "Godspell."

"What (the show) does for me is it fosters people to come together as a community," says Bono.

Bono has quite a history with "Godspell." He was first introduced to the show when he bought a $5 standing room only ticket to the original cast production on Broadway. Since then, he has been a part of 10 different productions of "Godspell" starting back in high school. He still has and uses his original music book, complete with dog eared corners and various notes, at each rehearsal.

"It's my favorite show to play," said Bono and he knows much of the music by heart.

This is the first time the Cohasset Dramatic Club has ever put on a production of Godspell. The fact they are doing a musical at all in the fall is unusual. Traditionally, the CDC does a smaller play in the fall and then a bigger musical production in the spring. But, "Godspell" with its small cast, relatively low production cost and audience appeal was too attractive to pass up.

"Godspell" boasts a string of songs led by the hit "Day By Day." As the cast performs "Prepare Ye The Way of the Lord," "Learn Your Lessons Well," "All For the Best," "All Good Gifts," "Turn Back, O Man" and "By My Side," the parables come to life.

The production has laugh out loud moments as well as those that are serious and poignant.

"It's a story of kindness, tolerance and love," said Bono. "It is a great story to tell and regardless of someone's religious beliefs or lack thereof everyone can take something away from this play."

"Godspell" draws on various theatrical traditions such as slapstick, clowning, pantomime, farce, charades and vaudeville. The finale is promised to be both unique and moving.

"I expect to hear sniffles," said Bono.

JoJo Fichtner is choreographing several of the musical numbers. She originally signed on to choreograph two of the numbers, then quickly found herself making up the dance steps for no less than five of the songs.

"I'm having a ball, I didn't really know the show before I started. It's just now beginning to make sense," she quips. The audience can look forward to kick lines, jazz, musical comedy, soft shoe and even a little Charleston in the choreography.

"Every song has its own different flavor," said Fichtner.

The cast

The fact there is a small cast and the actors must stay on stage for the entire two acts makes the show intimate in many ways.

"It is a diverse group in a lot of ways," said Bono, naming experience (either with CDC and on stage), size, shape, and age. In many ways, he said, the cast mirror itself with the play.

"(The diversity) plays into the whole sense of community. It is truly an ensemble piece. Whole production is only as strong as each individual…nobody can hide in this musical," said Bono.

Unlike in a traditional musical where the actors often get some sort of break to take a sip of water or take a deep breath, the actors in Godspell have to look busy for Act I and Act II.

"There's no time to think. It requires a higher level of focus," said Lisa Pratt, co-producer and actress who sings one of the more recognizable songs, "Day by Day."

Like the original production, the characters take on the names of the real life actors.

The play is written in such a way to be both timeless and molded to a particular cast and crew. The actors add various current events and pop culture references to the script.

"Especially in this type of show where it is more loosely threaded, you can bring your own personality to it and really make it your own," said Bono. In the script there is a line with shoes, in the original Broadway production, the actor said "Keds," in Cohasset's production, they says "Reebok."

The ensemble is led by Stephen Lee from Randolph as Jesus. Supporting Lee in the ensemble, and each singing their own piece from the score by Stephen Schwartz, are Mark Alves, Cohasset; Eric Braun, Hanover; Nicole DiRuzza, Quincy; Denise Feeney, Abington; Lisa Pratt, Cohasset; Anne Thornton of Hanover; and Sharon White and Bill White of Scituate.

Get your tickets!

The Cohasset Dramatic Club will present six performances of "Godspell" at the Cohasset Town Hall Auditorium. Show dates will be at 7:30 p.m., on Nov. 14, 15, 21 and 22, and 2 p.m., on Nov. 16 and 23.

Tickets are available soon at Paperscapes in Cohasset Village, Buttonwood Books on CJC Highway in Cohasset, or via CDC's ticket reservation and information line at 617-697-2115. Tickets are $15. Groups of 10 or more are $12.

STAFF PHOTO/ELSA ALLEN

Deirdre Wigmore, far left, joins her husband, Tom Wigmore, Maureen Harrold, Ann Marie Goff, and her father-in-law Steve Wigmore at the post office in packaging up and mailing boxes to the troops in Iraq and Afghanistan. The American Legion Women's Auxiliary works year round to support area veterans, their families and children.

American Legion Women's Auxiliary helps veterans, families and children

FROM VETERANS, PAGE 1

the auxiliary donates the money to a different charity. This year, the funds are going toward the Children's Hospital neonatal intensive care unit.

The Auxiliary also raises money to purchase "Josh Dogs," stuffed animals to comfort kids in the hospital, and "Spinoza Bears," stuffed animals with a CD of soothing music and stories for children with life threatening cancer and autism. About five local children have received the Spinoza bears.

Collecting hats, blanket and clothing (preferably handmade) for premature babies at the Boston hospitals is also one of their efforts.

For high school students entering their senior year, the Auxiliary has two programs to give kids a taste of a future career. For young women looking to get into government, there is a weeklong program held in June called "Girl State." Girls from all over the state gather and build up their own government fostering a better understanding of how all levels of government work. The Auxiliary also runs a "student trooper" program sending a rising junior in high school interested in law enforcement to one week of trooper boot camp.

They visit with the veterans at the Roxbury V.A. Hospital and put on a "gift shop" so the veterans can purchase holiday gifts for loved ones before Christmas.

The Auxiliary is ready and willing to send boxes of goods to local soldiers or family members serving overseas.

Around town, they put on social gatherings from a Thanksgiving breakfast before the high school football game to a Legion dinner for the residents of 60 Elm Street. A New Years' Day "Recovery Brunch" is in works.

In recent years, Wigmore has worked hard to build up the Auxiliary, both in numbers and involvement. Over the next few years she hopes to continue that trend.

The Women's Auxiliary, American Legion and Sons of the American Legion have worked together to do more things to honor the town's veterans over the past few years. Their motto, "one team, one goal," goes a long way to ensuring a family atmosphere to the Legion. It's not that hard to foster a family atmosphere when the presidents of each of the organizations are related. Deirdre Wigmore's husband, Tom, is President of the Sons of the American Legion and Steve Wigmore is Tom's father. Steve Wigmore is commander of the George H. Mealy Post.

"A day doesn't go by where one of us doesn't mention the Legion," said Wigmore.

The addition of the Healing Field — hundreds of American flags set up across the street from the Legion Hall and Veterans Memorial Park — to Cohasset's Memorial Day activities is one of the most visible of the efforts.

For Wigmore involvement in the American Legion is a way of life. For the last eight years, three of which she has served as president, the American Legion Women's Auxiliary has grown in numbers.

When Wigmore spoke at Memorial Day this past May she looked around at all the people who turned out to honor those who have served the country and realized why she is a part of the Legion Auxiliary. In that spirit, she asked if anyone else felt the patriotism of the day and would like to help to join the Legion and the women's auxiliary. From that simple statement, she got five new members.

"We want to be more united as a family and be one cohesive unit," said Wigmore.

At 65 members strong, the Women's Auxiliary is a large organization by Cohasset standards. Most members hail from Cohasset, Scituate and Hingham. Right now, the Women's Auxiliary has 12 junior members, or members under the age of 18. Wigmore would love to get a few more mother and daughter pairs involved and anyone with a few extra hours and patriotism to get involved.

"I live for the red, white and blue. Flag Day is my favorite day of the year," Wigmore says with a smile.

To find out more about the Auxiliary or to join, contact Auxiliary President Deirdre Wigmore at (781) 740-8049.

Veterans Day service is Tuesday

A Veterans Day service will be held at the Veterans Memorial Park on the Tuesday, Nov. 11 at 11a.m. The short service to honor the town's veterans will be followed by a collation at the George H. Mealy American Legion Post.

Legion seeking donations for those deployed

The George H. Mealy American Legion Post 118 is seeking donations of toiletries and other items for those deployed to Iraq and Afghanistan. Donations may be dropped off at the Legion Post on Summer Street daily after 3 p.m. or at Pilgrim Cooperative Bank branches on 3A or in the village.

Monetary donations are also accepted. Checks should be made out to the Sons of the American Legion, with "Soldiers Project" written in the memo line on the check. Checks can be mailed to Sons of the American Legion, PO Box 118, Cohasset, MA 02025. The following items are being collected at the American Legion for deployed servicemen and women:

Batteries - AA and AAA, razors, mouthwash, Chapstick, nuts, shaving cream Ziploc bags of all sizes, hand warmers, baby wipes, pens and notepaper, Pringles, toothbrushes, toothpaste and floss.

Also, sports magazines, local newspapers, socks, T-shirts, candy (no chocolate), phone cards, peanut butter and crackers, dry tuna in a bag, deodorant, winter hats and gloves, gum, mints, Lifesavers, Q-Tips, sunscreen, soap and body wash, dry soup, beef jerky, Tylenol, Advil, Excedrin and cameras.

Also, athlete's foot cream or spray, bandanas, socks, Bounce dryer sheets, chap sticks, ground coffee, CoffeeMate, antibiotic cream, duct tape, used CD or DVD's, paperbacks, knee-hi hose, cologne, Band-Aids, a variety of shoe inserts, playing cards, black pens, writing pads, envelopes, puzzle magazines, flea collars, lens cleaner for glasses, Ramen noodles in the cup, breakfast bars, gum, single-serve packets hot chocolate or soup, Pringles, hard candy, and microwave popcorn. Personal notes or cards are encouraged.

Donations may be dropped off at the Legion Post on Summer Street daily after 3 p.m. or at Pilgrim Cooperative Bank branches on 3A or in the village.

Chamber networking event is Nov. 13

The Cohasset Chamber of Commerce is sponsoring a Fall Networking Event, to be held on Thursday, Nov. 13, from 5:30-7:30 p.m. at 15 Depot Court, the newest building in the Village. Sean Cunning of S, G, & D Insurance, the building owner, will be the host and provide the grand tour. Light refreshments will be served. All Chamber members and potential members are welcomed. Come meet some new folks and support your fellow business associates. Any questions, call Karen Kirkendall at 781-789-6288.

Self-made Multimillionaire Reveals Next Jackpot for Investors!

How You Can Get Super Rich With Boston's Commercial Real Estate!

• Apartments • Offices • Retail • Medical • Warehouses • Industrial • Hotels & Resorts •

Discover Why Commercial Properties are Easier to Own, Pay Greater Cash Flow, and are More Profitable than Owning Rental Houses Especially in Today's Market... And Anyone Can Do It!

Boston, MA — It's no secret that commercial real estate is legendary for its ability to "multiply" your net worth. And this year is poised to be one of the best years ever to invest in commercial property and secure your retirement.

The Wall Street Journal recently reported:

"While the residential housing market is struggling, commercial real estate is showing solid fundamentals in many markets — with occupancies high, increasing rent growth and supply under control."

Why? Simply because as the population grows, the demand for multifamily housing units, storage, offices, warehouses, parking lots, etc., grows proportionately. In fact, it is estimated that the population of the U.S. could double within the next 50 years. If this happens, it is very likely that values will skyrocket!

Now you can learn ways to master the art of commercial real estate and get a complete overview of what it takes to be successful in your own hometown.

Free Workshop Reveals How to Own Commercial Real Estate in the Boston Area

This FREE 90-minute introductory workshop shows you what it takes to begin building a fortune in commercial real estate right now! This groundbreaking event will show you step-by-step how you could own lucrative commercial real estate in as little as 60 days. You'll discover how it's possible to:

- **Increase the worth of a commercial building by up to 30% in 30 days.**
- **Quickly pinpoint the value of a building. No calculator needed.**
- **Create a block-wide real estate boom with just one property.**
- **Determine the highest and best use for any property.**

Plus...

- **How simple paperwork can add huge value to your property.**

Don't Let These Myths Stop You From Owning Commercial Real Estate!

MYTH: Commercial real estate is *too expensive.*

REALITY: It can be the best bargain in real estate. Fact is, it can cost no more out of your pocket to acquire a commercial property than to buy a house. Even acquire prime commercial properties with little or no money down.

MYTH: Commercial real estate is *too complicated.*

REALITY: It can be easy. Buying your first commercial property can be no more complicated than buying your first home. Perhaps even less complicated, because you'll know the right way to go about it.

MYTH: Commercial real estate is *too volatile.*

REALITY: History shows it can be much more stable than investing in houses, especially in the market we're in today, PLUS get property value appreciation, tax benefits, and higher income.

MYTH: Commercial real estate is *too time-consuming.*

REALITY: It can be effortless to manage. The secret is to have a team in place that manages your property. And the best part is, your tenants pay for your team's service. So, it can cost you nothing out of pocket.

The Biggest Myth of All...

MYTH: Only the rich can afford commercial real estate.

REALITY: Commercial property makes you rich, but you don't need to be loaded with cash to get started. **Find out why at this amazing free workshop: *How To Make Money With Commercial Real Estate.***

ICR 135 BFP -Gatehouse Media - Boston WK45

the institute of COMMERCIAL REAL ESTATE

FREE EVENT!

Today's historic buyer's market is a once-in-a-lifetime opportunity to start building your personal fortune in commercial properties

Dear Friend,

Q. What's the biggest difference between an average real estate investor and an enormously rich real estate investor?

A. An enormously rich real estate investor knows how to acquire commercial real estate. Owning commercial real estate is a proven path to outrageous personal wealth. And it takes no more "smarts" than buying a house, but it does take special knowledge.

You're invited to a free introductory workshop on how to begin building wealth with commercial real estate. You'll look at examples of how to find, inspect, and acquire all types of commercial properties... apartments, offices, strip malls, and more.

You'll see how to "do the numbers" and you'll be shown how savvy commercial real estate deals are put together. You'll see how little more than a week's worth of work on your part can lead to extra monthly income of $5,000 or more.

The moneymaking potential is spectacular. We can prove it to you.

I'm one of the largest single owners of historical commercial properties in the United States, including U.S. territories. Imagine traveling to the Caribbean and coming back with more than a tan... coming back as the owner of income-producing property. You'll see how I did it.

This is the only workshop where you can get key secrets I use to structure extremely lucrative commercial real estate deals anywhere.

With the information you'll learn at this event, I promise you'll know how to start building substantial wealth quickly and safely.

Cherif Medawar,
International Investor & Authority on Commercial Real Estate

P.S. You'll discover how commercial real estate can add more wealth to your life FASTER than you ever dreamed possible. Now's the time! This is what's next!

Makes More Money, Faster

Commercial real estate is richer than single-family housing. You make more money, get faster appreciation, and avoid today's residential real estate down cycle. But did you know, you can become a millionaire on just one deal? The FREE workshop will highlight how.

COMMERCIAL BEATS RESIDENTIAL

- **Easier and cheaper to manage. Fact is, commercial tenants pay insurance, taxes, maintenance, and utilities.**
- **Better tenants: Many commercial tenants will make tens of thousands of dollars in improvements to your property without batting an eyelash or asking you for a dime. Find out who they are.**
- **Longer leases: Businesses have a vested interest in keeping their address. Why find a tenant for 12 months, when you can get one for 12 years or longer — with less effort.**
- **Less money down and cheaper loans: See how commercial real estate can be more affordable than residential.**

See How Easy It Is to Cash In!

You'll see real-life examples of making money with all types of commercial real estate... properties that have made MILLIONAIRES out of investors just like you. You'll discover our hands-on training where you'll find commercial properties in your city and neighborhood and analyze their moneymaking potential under the savvy guidance of an active real estate investor. Find out how!

You'll discover:

- **Huge wealth is possible:** Make $1 million from one deal
- **Little to no risk:** Make money without risking a penny of your own
- **Fast income:** Make money in less than 30 days
- **Steady money:** Generate a constant cash flow you can bank on
- **Secure growth:** Get long-term tenants with built-in rent increases
- **Less work:** Enjoy hassle-free, low-cost/no-cost property management

Who Should Attend?

- **First-time Real Estate Investors:** If you have never invested in real estate, get started with the big moneymaker right from the start: commercial real estate. Don't waste time with houses when you can own lucrative commercial real estate with no cash out of your pocket.
- **Residential Real Estate Investors:** Find out how to move up to the phenomenal income potential of commercial real estate. Get proven strategies that take you from residential real estate to commercial and put you in a whole new moneymaking league.
- **Commercial Real Estate Investors:** Discover how to construct truly powerful deals that take your income to the next level and beyond. This is real estate investing on steroids. Discover how to find, analyze, and secure the biggest and most lucrative properties and watch your profits soar.
- **Real Estate Professionals:** Now is the time for you to make more money on your deals. See how you can earn more than a commission and massively increase your net worth by getting in on the action for yourself.
- **Small-Business Owners:** Stop paying rent to someone else. Build an additional cash flow stream for your business and watch your wealth multiply.

From Hotel Manager to Real Estate Magnate

Cherif Medawar, Founder, Institute of Commercial Real Estate (ICRE)

My education at UCLA taught me how to work for money, but not how to make my money work for me. I was working night and day as a hotel manager in California when a billionaire guest pulled me aside and said, "Cherif, come work for me. I will show you the path to wealth."

I learned how to acquire properties, how real estate deals are structured, and how billions are made. On a much smaller scale, I also began to buy my own properties around the U.S. and develop a personal system for creating wealth.

Today, I have property all over the world. And yet, I work less than ever. My wealth works for me.

Let me open the door to wealth for you just as the billionaire once did for me. Learn my 12 steps to wealth. Steps that become easier the more often you take them! Richer the less you do! It all begins at my FREE workshop.

For Beginners & Seasoned Investors!

If you've been wishing for a new way to invest that's *richer than single-family houses*, this is for you!

This is more than how to move up a rung or two on the Wealth Ladder... this is how to take the express elevator to the top floor!

Now you can learn ways to master the art of commercial real estate and get a complete overview of what it takes to be successful in your own hometown.

You'll get an up-close view of the best types of commercial property to invest in now, and the hidden properties with big payout potential that often go overlooked, including:

- **Finding prime commercial real estate in your area before it hits the market**
- **Exactly why it's a reliably profitable investment path**

Plus how to:

- **Invest in property using other people's money**
- **Start with a positive cash flow**
- **Get immediate cash back**
- **Locate properties that can subsidize your retirement**

It's OK to Start at Zero, as Long as You Start

Some of today's most successful real estate investors started with nothing. Like me, banks wouldn't talk to them. They had no personal assets. No money. Now you can find out how it's possible to overcome the obstacles and go from $0 to millions.

At my FREE 90-minute workshop, you'll discover how to find hidden real estate gems, how to structure risk-free deals that make you wealthy, and how you can do this quickly in your local real estate market or any area you choose. Save your free coupon below. Plan now to attend. See why almost anyone can tap the "millionaire mind-set" and become truly wealthy.■

In Your Area for 4 Days ONLY! Plan NOW To Attend!

OPINION

EDITORIAL

Election reflection

We want to make it clear that we know Cohasset very well.

Cohasset has active Democratic and Republican town committees, an informed and well-educated electorate, and a large group of citizens who care very deeply about their town, state and nation.

Therefore, much of what we want to express is more about the bigger picture.

We totally believe in the right of every American citizen to vote. Presidential elections, as a rule, tend to get voters fired up and attract them to the polls in large and even sometimes record numbers.

The 2008 Presidential Election could be one for the history books in terms of registering and attracting new voters.

We now hope – and ask – that new voters continue to participate!

Even the most seasoned voters among us have the challenge of being an informed, educated voter. Besides the race for president, there were several ballot questions, a race for the US Senate and a race for county commissioner on Tuesday's ballot.

We can only hope that the multitude of new and those who are "occasional voters" (meaning they only turn out for presidential elections) took the time to make an educated choice for their "other votes."

The danger with large turnouts of uninformed voters is that other important votes such as this election's Question 2 (possession of marijuana) are also on the table. Voters opted for change in the criminal law over the objections of the majority of law enforcement officials who deal with drug use and its effects every day. We wonder what that vote might have been in an "off-year" when fewer people (but arguably more informed voters) make a trip to the polls.

We can recall casting our first vote for President in the 1972 election and can proudly say we have not missed an election since: national, state, or local. Simply put, we think voting is both a right and responsibility.

As the emotion and passion in the presidential election and its candidates settle down, let us hope that many of the new voters (young, old and those in the middle) got excited enough to want to continue to be involved.

They should know that long lines on Election Day are rare and likely only occur every four years in presidential elections in some areas.

The sad truth is for the lion's share of elections, there are no lines at all. Few Americans find the time or have the interest in educating themselves and voting in the regular local and state elections, which lend themselves less to sound bites and massive media coverage.

The fact of the matter is those "off year" elections have as much – or even more – effect on our quality of life and our government as voting for the next president does.

The government is "us" – we need to remind ourselves of that fact, teach more civics to our kids, and be educated on all the issues and all the candidates.

MEETINGS

The following meetings are posted at Town Hall:
Advisory Committee, Nov. 12, 7 p.m.,
Alternative Energy Committee, Nov. 18, at 7:30 p.m.,
Board of Health, Nov. 18, 7 p.m.
Board of Registrars, Nov. 14, 8:30 a.m.
Capital Budget Committee at selectmen, Nov. 10 at 7 p.m.
Conservation Commission, Nov. 20 at 7 p.m.
Housing Partnership, Nov. 20 at 7 p.m.
Library Trustees, Nov. 18, 7 p.m. at the library.
Planning Board, Nov. 10, 7 p.m.; Nov. 17 Special Town Meeting, 6 p.m. at the high school.
Selectmen, Nov. 10 & Dec. 1 at 7 p.m., Nov. 17 at 6 p.m.
Sewer Commission, Nov. 25, 6 p.m.
School Committee, Nov. 19 at 7 p.m. at the high school.
Sewer Commission, 6:30 p.m., Nov. 17, Special Town Meeting at the high school.
Special Town Meeting, Nov. 17, 7 p.m. at the high school
Troika, Nov. 18, 19, & 20 at 6:30 p.m.
Water Commission, Nov. 11 at 8 p.m. with the planning board; Nov. 15 at 10 a.m. and Nov. 24 at 6 p.m. at the King Street Plant.
Special Town Meeting, Nov. 17 at 6 p.m. at the high school.
ZBA, Dec. 3, at 7:30 p.m.

All meetings take place at Town Hall unless otherwise noted. Call the Town Clerk's office at 781-383-4100 for updates and additions. The Special Town Meeting gets under way at 7 p.m., Nov. 17 at Cohasset High School.

Interact with your town!

LETTERS TO THE EDITOR

Fairness in addressing concerns of our neighbors

TO THE EDITOR:

I must emphatically disagree with Chris Evans regarding his letter in last week's Mariner concerning the Treat's Pond issue. (Note that while I live in the area of Treat's Pond, my house in not directly affected by the flooding issues, so I represent an open mind.)

The main point of the letter is that the town should not be spending money on a problem that affects only a small minority of the population. Whether one agrees or disagrees that Treat's Pond flooding should be addressed, I hope most would strongly reject this argument. If we had not, our neighbors on Forest Avenue would be without the sidewalk they felt so strongly about years ago. They didn't represent a majority. Our young children and their parents would lack the wonderful playground next to Our World. Most of the town doesn't utilize this. In fact, if we follow this logic today, should the town even be discussing funding a turf field at the High School? How many of us will use it? What about those who are concerned about a potential Cohasset windmill? They certainly do not represent a majority. Should we ignore elder issues? Low-income housing? What about the other flood zones the town has promised to address? Why should we all pay to benefit the minority of the population living in these areas?

Please don't mistake my rhetorical questions. I am not against discussing a turf field or a windmill study or addressing flood zones. Quite the opposite. As members of this small community, it is our willingness to consider each other's interests and concerns that I believe demonstrates the beauty of what makes Cohasset a wonderful place to live. That doesn't mean taking on or funding every request; it means being reasonable, fair, and good neighbors.

Paul Antico
124 Atlantic Ave.

Cohasset flag is a beautiful thing

TO THE EDITOR:

My Mariner arrived and I could hardly wait to see the pages of Cohasset Day. The pictures, places and people were great but no Cohasset flag.

This reminds me of the big parades we used to have. Phil Murray had a hard time arranging bands, floats, etc., from the center, down Elm Street, through the cove to Summer Street, and up to South Main Street to the center again.

In 1970 we had a quite a big time for Cohasset's Bi-Centennial year. My friend, Jean Salvador, and I entered a design for a Cohasset flag and our design was chosen! A picture of the flag is enclosed.

We do have a Cohasset flag that is flown on occasion. It is a beautiful thing. Perhaps someone could look it up. The Historical Society had flags made up and sold them. They may still have one.

Alain Pinel knows a great town when, he sees one. There used to be a Pinel family at the end of Elm Court. In the winter, we use to slide down beside a high cement wall. The Pinels lived beyond that wall. That was about 73years ago. I was about 8. Maybe he is a relative. The town reports may give you information.

Harry and I miss our friends and the harbor.

Marjorie Ritter
Sarasota, Fla.

Attacks, vandalism cannot be condoned

COMMENTARY

BILL BELL

Our family has lived in Cohasset for over eight years and has had many enjoyable memories. I write today to share with the community our disappointment with the character and integrity of certain members of the senior class at Cohasset High School.

For over two years our family has experienced a number of negative actions, ranging from illegal phone calls to property vandalism. The sad truth is that all of these acts have been perpetrated by individuals who we had once embraced as friends of our family. Despite attempts to appeal to how one should conduct themselves as moral members of our community with both the individuals and their families, the pattern of harassment continues.

Two Saturdays ago I had an unfortunate accident that lead to emergency surgery to address a life-threatening situation. As I lay recovering in a post-surgical ICU, with my family trying to enjoy whatever rest they could achieve given my state, our property was once again vandalized. I learned of the details of the vandalism the following morning. To be in a compromised state and learn of further attacks against one's family, perpetrated by individuals who you once coached and molded in various youth sports settings, is quite damning. Clearly, the positive behavior that we demonstrated through our coaching was not being reinforced when not under our control.

While you would expect our family to be angry, our true feelings are ones of sadness for the individuals and their families who have no understanding of what it is to be a friend, a member of a community, and worthy of respect. We have the privilege of knowing a number of true friends here in Cohasset, all of whom have demonstrated an extraordinary level of concern for us given my accident and the demands that have been placed on my wife and children. We are grateful to all of you.

And for all the others who know absolutely nothing about the events explained in this letter — now you know, and it is you who can make the greatest impact. What has happened to our family has happened to others. We call upon all committed residents to not be blind to unacceptable behavior and collectively call it out when it appears. To say that certain Class of 2009 students are solely responsible for these acts is shortsighted. It is the bystanders that watch silently that too share the guilt through association.

Our family looks forward to many positive days ahead in Cohasset, hopefully with the negative memories from the past couple of years behind us.

Bill Bell lives at 20 Rustic Drive.

Cohasset's Big Dig moves along

MAKING TRACKS

TOM GRUBER & MARK BRENNAN

The Little Harbor Project – The Little Harbor Project continues to dig its way through town. Last week on Friday we were almost able to get Bow Street paved. This in itself is an interesting story. When we pave the paving contractor makes arrangements for the number of trucks of asphalt that are needed to do the job. However, very often a few trucks are used to make multiple round trips to the asphalt plant. Well Friday was such a day. The round trip to the asphalt plant they were using was a three-hour trip. Consequently, there was a dead time of several hours mid-day when everyone was just waiting for the trucks to return with fresh asphalt. Late in the day, we had a small amount of paving yet to do. But, the next truck of asphalt necessary to finish the job would not arrive until after 6 p.m. With Trick or Treaters on the street we felt that we'd just suspend paving and finish up the next week. So, that's why there's a small, unpaved section on Bow Street.

We get lots of questions from time to time about what is going on. On Monday of this week we were driving down North Main Street and stopped to watch LMH install a large 6-foot diameter underground structure. When it is all covered over and repaved all you will see is the ubiquitous cast iron manhole cover at the top. But, underneath is a large space that holds some of the equipment necessary to allow the new sewer system, to function.

The accompanying photograph shows the contractor in the process of backfilling the hole. You can get a good idea of the size of the underground portion relative to the size of the manhole that will be visible in the road.

Greenbush stuff – This past week we were down at the Cohasset Station and noticed that the MBTA has finished their "critter crossings." This seemed like a little known item that could stand a bit of explanation. At the time when the MBTA was doing their environmental analysis and making environmental commitments, the spotted turtle was on the endangered species list. It has subsequently been taken off the list, but the MBTA is stuck with their spotted turtle protection commitment, unless they want to re-do their environmental application. That is something that is not a pleasant task and takes years to carry out. They said to themselves, "I don't think so!"

So, periodically along the railroad, in areas where the turtles are known to be living, there are special critter crossings to allow them to cross under the tracks without harm.

First, alongside of the track bed there are very short fences (about a foot, or so high) designed to keep small animals out of the track area. Periodically there are gaps in the fence that lead to special crossings, between the railroad ties, that allow the critters to safely cross under the rails. Since there is a maintenance road adjacent to the tracks inside the critter fence, there is a steel grate in the roadway under which the critters can travel. When they get to the track area there are sidewalls that direct the critters under the tracks to the other side. This is easily seen in one of the photos.

The other photo shows a close up of the gap in the fencing where critters can start their journey under the maintenance roadway. The only things the MBTA seemed to overlook are miniature traffic lights to control the flow of critters from one side to the other and tiny directional signs.

HEALTH NOTES

Town-wide flu clinic Saturday

By Steve Bobo
SPECIAL TO THE MARINER

The Town-wide Flu Clinic for all Citizens of Cohasset over 9 years will be held tomorrow on Saturday Nov. 8, 2008 from 10 am – 12 pm and at the Cohasset Town Hall Auditorium.

Parents of children under 18 years of age should consult their pediatricians.

The flu vaccine is free but seniors are reminded to bring their Medicare insurance card or Medicare "HMO" card with them and all are asked to wear a short-sleeve shirt for ease of administration. The money the Board of health receives from Medicare registration and reimbursement during flu clinics will assist in paying for flu shots for everyone in town wanting them.

CDC recommends that all children from 6 months to their 19th birthday get a flu vaccine every year.

Several manufacturers of U.S. influenza vaccine began shipping vaccine for the 2008-09 influenza season in August, but we have only recently received sufficient vaccine for our expected turnout. Vaccine manufacturers ship their vaccine in lots as it comes off the production lines. Manufacturer's are projecting that as many as 143 million to 146 million doses of influenza vaccine will be produced for use in the United States during the 2008-09 influenza season. This is an all-time high supply of vaccine making it possible for more people than ever to seek protection from the flu. Vaccine shipments will continue to be distributed by manufacturers until the end of November.

This year's flu vaccine protects against the three main flu strains that research indicates will cause the most illness during the flu season.

Yearly flu vaccination should begin as soon as vaccine is available and continue throughout the influenza season, into December, January and beyond. Influenza season most often peaks in February, but influenza viruses can continue to cause illness into the spring. For people not able to get their influenza vaccine in the fall, even vaccination in December, January and beyond is beneficial and protection lasts about a year.

Getting vaccinated as soon as vaccine is available may be most important for children being vaccinated against flu for the first time. They need to get two doses of flu vaccine at least 4 weeks apart.

This year's flu vaccine protects against the three main flu strains that research indicates will cause the most illness during the flu season. This year's influenza vaccine contains three new influenza virus strains. They are: A/Brisbane/59/2007(H1N1)-like virus; A/Brisbane/10/2007 (H3N2)-like virus and B/Florida/4/2006-like virus.

The Board of Health recommends that everyone consider being vaccinated, but particularly: children up to their 19th birthday; pregnant women; people 50 years of age and older; people of any age with certain chronic medical conditions; people who live in nursing homes and other long-term care facilities; people who live with or care for those at high risk for complications from flu, including: health care workers, household contacts of persons at high risk for complications from the flu, household contacts and out of home caregivers of children less than 6 months of age (these children are too young to be vaccinated)

For more information, ask Mary Goodwin, the Town Health Nurse, 781 383-2210, your healthcare provider or call 800-CDC-INFO (800-232-4636) Website www.cdc.gov/flu

The gap in student success

COMMENTARY

STEPHEN MCGUNNIGAL

Have you ever watched a child work through a problem on their homework? Struggling through it, as they bite the top of their pencil, they flip through the pages of their texts looking for an answer. All of a sudden it seems to come to them, and they get momentarily excited as they continue on to the next question. This is a proud moment for both parents and educators for having helped foster a growing mind. Now, imagine watching that child struggling to the point of hopelessness. No matter how many pages he flips, or how many concepts he reviews, the answer doesn't come. He becomes frustrated with himself, and aggravated with the learning system. This is what many inner-city parents and educators are experiencing.

Many people do not realize the huge gap in student's success between socioeconomic levels. Many inner-city parents are required to work multiple jobs to put food on the table. Naturally, such a work schedule does not leave time for a parent to read aloud to their child, nor do such financial restrictions allow a parent to purchase any reading material to stimulate their child's mind.

As your child outgrows books, think about what you do with them. Are they being thrown away, or stashed in the attic?

In 2003, a study was done that took 42 families, representing the three socioeconomic groups: welfare, working class, and professional. For a total of 1,300 hours, the researchers measured the words and vocabulary of the families. When they got their results and projected them over 4 years, they found that on average, the child from a wealthier class family has heard 45 million words by the age of four. The child who is from a family suffering from poverty only hears 13 million words by the age of four. If you don't think this is significant, simply compare our MCAS scores to that of an inner-city school. In 2006, 2 percent of Norwell fourth graders failed their English MCAS. In that same year, in Brockton, 16 percent of fourth graders failed. The difference is significant. School officials and parents see this difference, but with no resources, there is little chance for improvement.

In order for a student to succeed they need to be motivated. What motivates a child to read? An engaging teacher, an inviting reading center in a classroom, the mentality that reading is enjoyable, are all key components. Many of our inner-city schools cannot afford these basic elements, let alone books that are up to date, or are of student interest. It is easy to teach your child to love reading when you raise them in a house where books are everywhere. Some families are not as privileged.

As your child outgrows books, think about what you do with them. Are they being thrown away, or stashed in the attic? In my house, many have remained on shelves in case they will be needed again, which they haven't. Those books are the key to success for thousands of students. Helping a student who was set for failure, to succeed is worth the effort of donating your books.

Want to help? *Contact me at smcgunnigal@student.stonehill.edu for drop off and donating information.*

Stephen McGunnigal, who is from Norwell, is in his senior year at Stonehill College. He studying to be a high school Spanish teacher, and has spent a lot of time in Brockton Public Schools. Being from such a privileged town, he was not expecting to see the difference in the schools. "I believe that many people, like I was, are unaware of this difference, and would be willing to help if they had more information," Stephen says.

Things pollsters never noticed

HENSHAW

TOM HENSHAW

On Election Day, 1948, there arrived at the Quincy Patriot Ledger as well as other daily newspapers throughout the country a copy of Drew Pearson's syndicated column for use the next day suggesting a cabinet for President-elect Thomas E. Dewey.

You remember President Dewey, don't you?

The Gallup Poll had him five points ahead of Harry Truman. Gamblers were getting 4-1 odds on him with few takers. The New York Times predicted he would win 345 out of 531 electoral votes. An early edition of the Chicago Tribune even headlined "Dewey Defeats Truman."

Yet, when the last vote that meant anything was cast, there was Harry, forced to serve a brand new four-year term in the White House.

No one knows exactly what ambushed Dewey on the way to the presidency, but the best guess is that he campaigned above the heads of the electorate while Harry got right down among them at the whistlestops -— and no pollster or pundit noticed.

That makes this column a difficult one to write since it was written before Tuesday's election and you won't read it until after it's over. All signs point to a Barak Obama victory but — remember the Chicago Trib — was there something we didn't notice?

Once upon a time there was a magazine called The Literary Digest that conducted a telephone poll before the election of 1936 and found that the governor of Kansas, a rather colorless man named Alfred Landon, was about to hand Franklin Delano Roosevelt the beating of his life.

As it turned out, FDR won by the biggest landslide in presidential history, limiting Landon to only eight electoral votes from Maine and Vermont. What The Literary Digest failed to notice was that few FDR voters had telephones. The magazine quietly went out of business.

Polling has improved greatly in the 72 years since the Landon blunder. Most of the old pitfalls have been identified and corrected. But what of the new ones? Like, how many voters have given up landlines and rely for communications on cell phones, which, as far as I know, are unlisted?

How do you measure what is called "the ground game?" While the pundits analyze the dotted Is and crossed Ts of position papers and the press searches for titillating "gotchas," the campaign's pick and shovel workers have been going door-to-door with the message and driving voters to the polls.

And then there is the issue that dares not speak its name — race.

How many whites voted for Obama, who is black, or at least half black? How many whites said they were going to vote for Obama and didn't, the so-called Bradley effect? How many said they weren't and did? How do you measure it when no one will talk about it for fear of being called a racist?

Perhaps we'll never know.

Marine Corps ball

George H. Mealy Post 118 of the American Legion will host its second Marine Corps Birthday Ball from 6 to 10 p.m., on Saturday, Nov. 8, at the Legion Post, 98 Summer St., Cohasset. The event, which is open to the public, will feature a complete roast beef dinner and entertainment.

Tickets are $10 per person and are available at the Legion Post. Active and inactive Marines in uniform will be admitted free of charge. Call 781-383-9657.

Dolores Roy, right, of Cohasset checks in to vote while Sean Silvia, 19 left, of Cohasset waits his turn to vote for the first time in his life on Tuesday.

85 percent voter turnout on Election Day

FROM OBAMA, PAGE 1

Massachusetts, and Cohasset voters supported it overwhelmingly by a count of 3,551-677.

Although not the 90 percent voter turnout predicted, Cohasset Town Hall had a steady flow of people from just before 7a.m. when the polls opened onward. Voter turnout was 86 percent with 4,623 out of Cohasset's 5,381 registered voters casting a ballot Tuesday.

A line snaked out the door at various points during the day, but for the most part the line moved steadily and voters never had to wait long. By 9:30a.m. over 1,000 registered voters had cast their ballot.

Town Clerk Marion Douglas was a bit surprised at the 85 percent turnout number.

"It felt like it was 90 percent," said Douglas, thinking back on the busy day. Douglas reported there were no incidents at the polls. If there were any problems with voter registration they were able to correct it almost immediately, she said.

Despite the excitement surrounding this election and expectations of sky-high voter turnout, this Election Day was not the highest voter turnout in recent history. This election just edges out the 2004, 85 percent voter turnout. In 2000, 82 percent of Cohasset made their way to the polls and in 1992, 87.2 percent participated. As a point of interest, Louis Eaton of Beach Street told Douglas there was a 92 percent voter turnout in the 1952 election when President Dwight Eisenhower was elected to the presidential office.

This Election Day voters and signholders did not have to contend with nature's elements and enjoyed mild temperatures and sun.

Supporters for both the democratic Obama/Biden ticket and republican McCain/Palin ticket set up shop at the corner of Highland Avenue and the Town Common greeting voters as they headed to the polls. Beeps, waves and thumbs up were more or less equally bestowed on each candidate's supporters.

The Obama sign holders talked about the excitement surrounding this election, something they haven't seen in a very long time, if ever.

"We're all excited about today, that's for sure," said Democratic Town Committee chairman Kevin McCarthy on Highland Ave. Tuesday. "I think people really sense it is time for a real fundamental change in government…

The Obama supporters told the Mariner as a school bus full of kids made their way to school, they opened the windows and yelled out "Obama!" while passing Town Hall.

In a phone interview on Wednesday, McCarthy pointed to how the Obama campaign grassroots strategy really took hold in Cohasset. The Democratic Town Committee was able to get their lawn signs out early and a group of Obama supporters have been holding signs three mornings a week on Route 3A for the past month. As the election grew nearer, they say there was more and more enthusiasm expressed through beeps and waves to the signholders.

"To see it work at a local level was astonishing. Our own group of democratic activists locally were energized," said McCarthy, who was floored by the attendance of 140 local democrats to a pre-election event.

McCarthy also spoke to the historical significance of Obama's election — he will be the nation's first African-American president.

"Both republicans and democrats can look to that fact with great pride…It has been just a short 40 years after civil rights movement and this proves the miracle of American democracy is alive and well," said McCarthy.

"I hope we can now come together as a nation," said McCarthy.

At the polls on Tuesday, McCain supporters were hopeful and eager to see their candidate become the president-elect.

"We are very disappointed. We thought we had a great candidate for president and vice president and we're sorry the voters didn't see it that way," said Kevin O'Donnell, chairman of the Republican Town Committee.

"It is a wonderful victory in a sense a black man can now hold the highest office in the land, but our perspective is it was never about race, it was about the principles he will govern by," said O'Donnell in a phone interview Thursday.

O'Donnell will be looking to the Congress to thoroughly debate proposed policies by the President-elect to ensure they are in the nation's best interest.

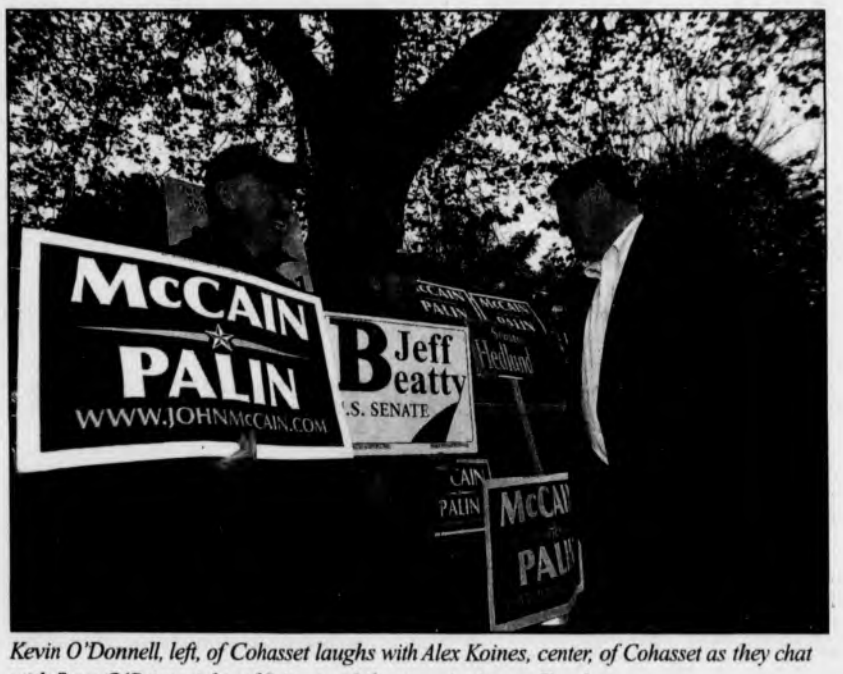
Other notables

In the county treasurer's race, Cohasset voters favored Democratic incumbent John M. Gillis with 1,665 votes, followed by Republican Thomas E. Gorman with 1,629 votes. Democratic incumbent Francis W. O'Brien finished third with 1,420 votes, followed by independent Michael F. Walsh with 1,018 votes.

For U.S. Senate, incumbent Democrat John Kerry was the choice of Cohasset voters over Republican challenger Jeff Beatty by a 2,458-1,959 margin. Kerry easily retained his senate seat in the statewide vote.

State Sen. Robert Hedlund, R-Weymouth, ran unopposed for the Plymouth & Norfolk Senate District seat and was the candidate with the most votes of the day, garnering 3,527 votes (A 'yes' vote for Question 4 on wind power earned slightly more votes, coming in with 3,551 votes). Garrett Bradley, D-Hingham, was unopposed in for the Third Plymouth District seat in the state House of Representatives.

William Delahunt, D-Quincy, was unopposed for the 10th District Congressional seat in the House.



Many were surprised by the amount of support for Question 2 both in Cohasset and statewide, which decriminalizes the possession of small amounts of marijuana. Among them was Police Chief James Hussey.

"I believe people were hoodwinked. The proponents of decriminalization spent a lot of money pushing their agenda. My concern is this sends the wrong message to our youth and will make it easier for suppliers to get this mind altering product into the hands of our youth," said Hussey in an e-mail.

In attendance at the George M. Ingram Park dedication, left to right, were Rick Swanborg, John Cavanaro, Ozzie Ingram, Jack Keniley, Dave Weltman, Gary Vanderweil, Wayne Sawchuk, Glenn Pratt and Frank Neer.

George M. Ingram Park dedication held

Members of Cohasset Land Foundation, Cohasset Conservation Trust and Ozzie Ingram celebrated the dedication of the George M. Ingram Park on Beechwood Street. This is the culmination of a collaborative effort by Osborne Ingram and several town organizations to create open space of more than 30 acres in the memory of his father, George M. Ingram. CLF and CCT worked closely with Ingram, his family, abutters, town boards and the Selectmen to prepare a plan that met the town's needs and preserves as much open space as possible.

Ingram dedicated the park to his father, George M. Ingram. Mr. Ingram Sr. was a butcher at the firm of Waters and Litchfield in the Quincy Market Building in Boston, when in 1922 he purchased this property, as well as another parcel and house into which he moved. His employers and co-workers couldn't understand why he would live so far out of Boston. He commuted to work every day, usually on the first train in the morning and the last at night.

Ozzie Ingram himself attended grades one through three in the one-room schoolhouse on Beechwood Street and then moved on to the old Elm Street School for grades four through 12. At Harvard, he was president of the Harvard Crimson. He subsequently became a reporter for the Boston Post. During World War II he served in the Navy, and in 1947 he joined Eastern Gas and Fuel Co. in Boston, where he was vice president of public relations for many years.

Starting in the early 1950s, he served 12 years on the School Committee, 11 as chairman, during which time the Deer Hill School was built and two additions were put on the High School. He subsequently served on the Advisory Committee.

Library Corner

Author visit is 7 p.m., Nov. 12

The following events will take place at Paul Pratt Memorial Library, 35 Ripley Road. For more information, call 781-383-1348.

Movie Matinee – The library will show the film "The Miracle Worker" starring Patty Duke and Anne Bancroft at 11 a.m., on Friday, Nov. 7. The Friends of the Library will provide light refreshments. Movie site license sponsored by Friends of the Library and Cohasset Democratic Town Committee. The movie is free and all are welcome.

Author Visit – Kathleen Kent, author of "The Heretic's Daughter,' will discuss her new book at 7 p.m., on Wednesday, Nov. 12. The book is a liteary imagining of the events surrounding the Salem witch trials. Kent, a descendant of one of the first women to be accused as a witch, brings her family's legacy to life. Copies of the book will be available for purchase. All are welcome to this free event.

Independent Film Night – The library will show the independent film "The Grocer's Son" at 6 p.m., on Thursday, Nov. 20. Free admission and free refreshment courtesy of the Friends of the Library.

Art Exhibit – South Shore Art Center will present an exhibition of paintings by Marshfield artist Mary Callahan at the library through Dec. 31. A free reception will take place from 4 to 6 p.m., on Sunday, Dec. 7.

Library Book Group – November's meeting date will move to 10 a.m., on Wednesday, Dec. 3, to discuss "This I Believe" edited by Jay Allison. All are welcome to this free event.

FOR CHILDREN

Family Literacy Month – Join others at 3 p.m., on Sunday, Nov. 16, in the Meeting Room to celebrate Family Literacy Month with an interactive musical show featuring the Toe Jam Puppet Band. Free tickets may be picked up staring Nov. 10, at 10 a.m. For more information about the Toe Jam Puppet Band, go to the Web site at toejampuppetband.com.

MamaSteph – Performances at 10:30 a.m., on Mondays, Nov. 10, 17 and 24, in the Meeting Room. Join others for children's music and more. Doors close promptly at 10:35 a.m. Funded by Friends of the Cohasset Library. All ages and communities are welcome.

Drop In Story Time – In the Story Room at 10:30 a.m., on Tuesdays, Nov. 18 and 25. All ages and communities welcome.

Drop In Crafts – Create In the Story Room from 10:30 a.m. to 1:30 p.m., on Thursdays, Nov. 13 and 20. Just drop in to make a craft. All ages and communities welcome. Children must be accompanied by an adult.

Building Permits

The following building permits were issued recently at Town Hall:

Cole, 15 Mill Lane, $30,000, replace eight windows, reconstruct roof over kitchen, bedroom, update kitchen cabinets, new PVC trim; King, 812 CJC Highway, $1,000, 3 foot by 8 foot rooftop sign, marquee, 1 foot by 6 foot sign; Genovesi, 130 Gammons Road, 20 foot by 40 foot pole tent for Oct 4 and 5; Haber, 49 Oak St., $10,000, add second bathroom on first floor; Anthony, 24 So. Main St., $10,000, convert second floor to apartment, add kitchen, enlarge bath; Henry, 94 No. Main St., $5,000, two footings under existing porch, deck, bedroom;

Sullivan, 169 Border St., $25,000, enclose existing porch, build new 10 foot by 12 foot entrance on side of house; Robbins, 20 King St., $10,000, demolish home; Burgoon, 15 Hull St., $1,000, install used wood stove; Batson, 708 Jerusalem Road, $4,414, install Jotul wood stove; Tedeschi, 2 Otis Ave., $28,000, install 18 foot by 38 foot in-ground pool; Lynch, 154 Forest Ave., $28,000, install 22 foot by 38 foot in-ground pool; Wyatt, 113 Border St., $7,125, 20 squares asphalt roofing; Oftshun, 45 Fair Oakes, $16,000, re-line chimney; D'Andrea, 210 Lamberts Lane, $7,000, 10 foot by 12 foot garden shed on concrete slab; Cardelle, 739 Jerusalem Road, $20,000, 25 squares asphalt roofing, 1 or 2 squares wood siding; Golden Gate 1 CJC Highway, $1,475, replace existing sign as per plans; Benson, 172 Forest Ave., $4,000, 10 squares asphalt roofing; Cahill, 24 Buttonwood lane, $3,140, repair interior and exterior of 4 foot by 4 foot utility room; Robbins, 20 King St., $2,000, foundation as per plans; Spofford, 14 Heather Drive, $15,000, remodel second floor bathroom;

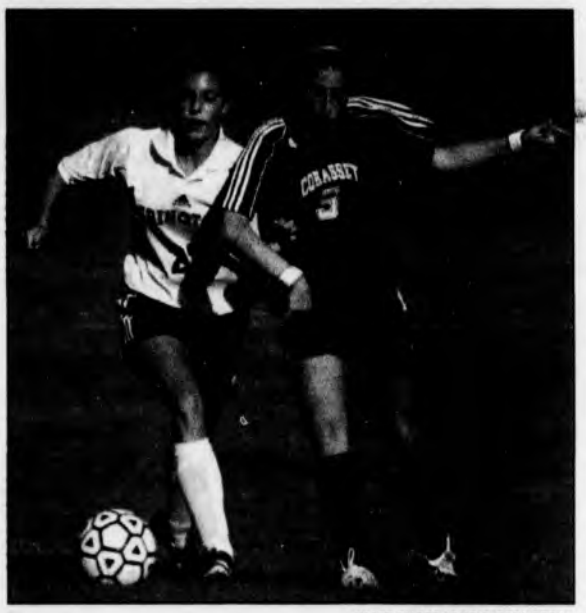
Cohasset girls pass pre-tournament test in final two soccer games

By Mike Spellman
MSPELLMAN@CNC.COM

Sometimes it really is more about the journey than the destination.

Much was expected of the Cohasset High girls' soccer team this fall, returning most all of the players from a team that came just one goal shy of winning the 2007 South Sectional championship.



And while, on the balance, this has been a very good season for the Lady Skippers, as witnessed by their final regular season record of 13-3-3, there have been a few disconcerting hiccups along the way.

With not much left to gain by winning out down the stretch, Coach Deb Beal looked at the final two games of the regular season against larger division teams from Rockland and Plymouth North primarily as opportunities to work out some kinks and focus her squad for postseason play, which begins this afternoon (Friday).

SEE GIRLS SOCCER, PAGE 19

Tournament game at 5p.m.

The girls soccer team, with a record of 13-3-3, has qualified for MIAA Division 3 South Sectional tournament at the #3 seed. The Lady Skipper will host Bishop Connolly today (Fri. Nov. 7) at 5p.m. at Alumni Field. Tickets for all MIAA Tournament games at school sites are $5 students and senior and $7 for adults. Go Blue!

Cheerleaders set sights on league competition

Squad puts hours into practice

By Emily Toomey
SPECIAL TO THE MARINER

It's a Friday night at Cohasset Middle High school and Skippers fans are piled into the stands to support the football team playing on the field below. But the football players aren't the only ones working hard — the cheerleading team, led by captains Anna Roberts, Grace Curry, and Kelsie Rocheleau, is also showing the crowd the results of their dedication and practice.

The squad consists of 12 girls, none of them freshmen, who practice two hours daily to perfect their various routines. And as shown by their presentations at the high school's pep rally and recent games, all that practice is paying off. However, this team has aspirations that reach beyond football games; they are hoping to succeed in competitions such as the South Shore League Competition on Nov. 9.

All three captains agree that their love of football game experiences inspired them to become cheerleaders. Captain Grace Curry adds that she hopes to prove that cheerleading is an intense sport, contrary to popular belief. Having started before high school, the captains have acquired advanced skills that are improving with every season.

Coach Liz Pelletier says cheerleading is hard work and involves a lot of practice.

"The one thing people don't realize about cheerleading is how much work goes into it," Pelletier says. "It's a lot more than standing on the sidelines cheering. Our team conditions daily, and practices stunts and tumbles."

"It's a lot more than standing on the sidelines cheering. Our team conditions daily, and practices stunts and tumbles."
— Coach Liz Pelletier

Coach Pelletier, who began cheerleading in the fourth grade, aims to use her knowledge of the sport to help the squad develop. She graduated from Salve Regina University this May and applied for the coaching position after moving to the South Shore. This is her first year coaching, and her main objectives are to increase the number of students in the program and make it a competitive team.

"After my first meeting with the girls, I wanted them to feel confident in their abilities and I wanted to push them toward their individual goals," she says. As evident from their recent performances, she has succeeded.

"The girls have grown so much from the beginning of the season and I can't even being to describe how proud I am of them. I expect only great things for the rest of the year," Pelletier says.

The squad currently cheers for football and boy's basketball. Pelletier said they are also looking into cheering for girls' basketball home games as well.

Field hockey building for the future

Middle School Club posts successful season

By Susan Franklin
CORRESPONDENT

The game of field hockey began over 4,000 thousand years ago in ancient Egypt. The modern game began as a men's sport in England in 1849. Over 50 years later in 1901, Constance Applebee introduced the game of field hockey to the United States. An Englishwomen attending a summer course in anthropometry at Harvard University, Applebee demonstrated the sport to fellow classmates using makeshift equipment. Encouraged by Harriet Ballintine, director of athletics at Vassar College, Applebee spent two years traveling with 22 hockey sticks and a cricket ball, to the women's colleges of Vassar, Smith, Wellesley, Mt. Holyoke, Radcliffe and Bryn Mawr, demonstrating the game to students. In 1904 Applebee became the Athletic Director at Bryn Mawr College where she continued to champion field hockey and other women's sports until her death in 1981.

Here in Cohasset, Middle School students have been getting introduced to the game of field hockey by a group of dedicated parents. The Middle

SEE FIELD HOCKEY, PAGE 17

The future of Cohasset High field hockey is at the middle school. The Cohasset Field Hockey Club consists of 4 teams: two sixth-grade teams with 15 players each, a seventh-grade team of 20 players and an eighth-grade team of 14.

South Shore ATHLETE OF THE MONTH
Sponsored by COASTAL NISSAN.com
800-562-9993
109 Accord Park Drive, Norwell (Exit 14 off Route 3)

Kristina Katsikis, Hanover High's senior captain and field hockey forward, scored 14 goals, four assists in just eight games this month. The Patriot League All-star tallied 20 goals, 10 assists in the regular season, helping to guide the 11-2-5 Lady Indians to a league championship (10-0-2) and No. 7 seed in the Div. 2 South tourney. Katsikis was one of only 15 players from the South region to be selected to the senior All-State team.

Coastal Nissan has donated $500 to the Hanover High School Athletic Department in Kristina Katsikis's name.

Way to Go Kristina!

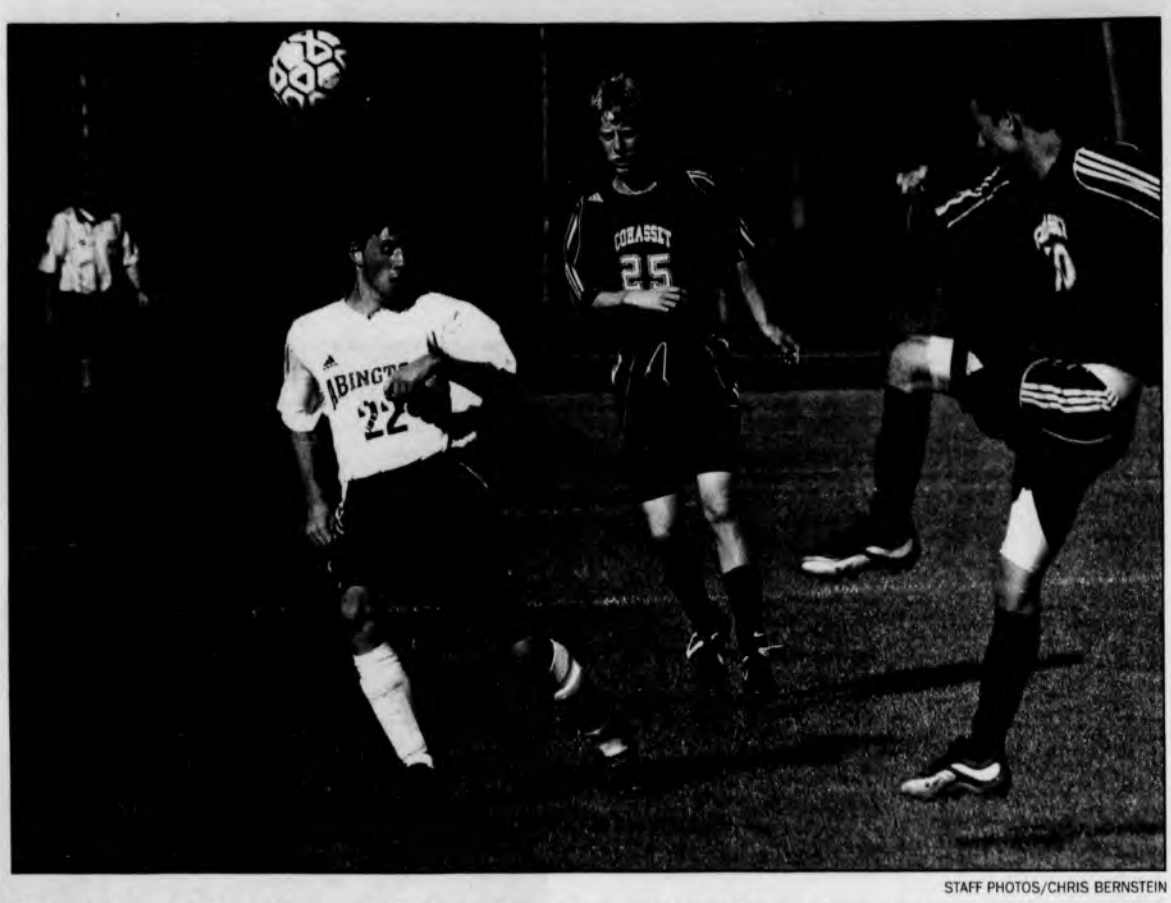
Skippers see red in season finale

Bad late goal stops CHS boys from closing out season with win

By Mike Spellman
MSPELLMAN@CNC.COM



It seemed almost fitting that a wacky season for the Cohasset boys' soccer team ended with one of the wackiest games the South Shore has seen in recent memory.

Skippers 3, Hull 3

The Skippers traveled to Hull for Tuesday's finale, and played the Pirates to a 3-3 tie. The hosts drew two second half red cards, forcing them to go down the stretch playing nine-against-11, but still managed to net the game-tying goal against the no-luck Skippers with two minutes to go.

"What a crazy way to end the season," assessed Skippers head coach Jim Willis, who saw his team finish with a record of 3-10-6. "You had two teams out there with nothing to play for beyond this game, and they both just let it all fly. It would have been great to go out a winner after all the tough breaks this year. We had so many chances to put the game away, but we just couldn't do it."

Playing on Hull's hard-packed postage stamp of a pitch, the game was played in tight quarters, which, as always, contributed to a good deal of contact and extra-curricular activity. In addition to the two red cards issued to the Pirates, they were also whistled for three infractions in the goal area resulting in Cohasset penalty kicks.

STAFF PHOTOS/CHRIS BERNSTEIN

Cohasset players #25 Travers Craven and #10 Captain Lennart Brown stay focused during play in a game against Abington earlier this season.

Cohasset player #22 Owen Landon and Abington player #13 Brandon Marini clash with durning a recent game.

Senior co-captain Lennert Brown was the lone Skippers to convert on a freebie.

"You don't see too many missed PKs, but we had two of them in one game," said Willis. "That's a little bit of tough luck, but it also makes you feel like we didn't do what we needed to do to earn the win. That's part of the learning process for a lot of these kids. They have to step up and take it when the opportunity is there. I give the Hull players credit for scrapping their way back even down two players. We should have had them back on their heels a little, but I think they put us back on our heels us with how aggressive they were in trying to get that tying goal."

Hull scored the lone goal of the first half, but Cohasset senior Connor Ofsthun tied it back up with a pretty tally 10 minutes after the break. The hosts scored next, but then junior Tyler Durant punched home the equalizer a few minutes later to add to his team-best scoring totals.

Brown was flattened in the box by the Carver keeper with 10 minutes to play, and converted on the ensuing PK. It looked as if the Skippers might grab their fourth win of the season after that, but then the Pirates moved every one forward on a corner kick, and one of them was able to get to the right spot in the middle of the box to head-flick the ball past powerless Cohasset keeper Will Wise.

Scituate 3, Skippers 1

Scituate senior Safi Vicente ended his career in style, scoring twice in his final home game to lead the Sailors (5-10-3) past neighboring town rival Cohasset, 3-1, last Wednesday.

Ivan Sceery scored the Skippers lone goal with a nifty redirect off the back of his foot off a free kick from just above the goal area.

Harwich 2, Cohasset 0

Willis actually considered this Monday performance against unbeaten league champion Harwich (17-0-1) to have been a "major morale victory."

"We went toe-for-toe with a very good team, and could have very easily ended their undefeated season if things had gone just a little differently," asserted Willis. "For our players who will be back next year, they played with the type of effort you need to compete day in and day out in the South Shore League."

Harwich scored a goal in each half. Big scorer Gus Ribeiro got the scoring started for the Rough Riders in the first half on a cross from DJ Robinson, finishing after a brilliant crossover move and quick struck pea. Alex Votteler scored the second goal just over a minute into the second half off of a prolonged scrum in front to provide some much needed breathing room against the upset-minded Skippers.

Cohasset hit a post in the second half and had a prolonged flurry in front of the Harwich net late in the game. However, no one was able to bump or kick it those all important final few feet.

"There's a couple of golden opportunities we didn't cash in on, and that was really the difference in the game," said Willis. "Harwich capitalized on two very similar opportunities and we didn't. Still, I was very happy with the scrappiness of our players."

Field hockey building for the future

FROM FIELD HOCKEY, PAGE 15

School Field Hockey Club was started in 2005 when Cohasset resident Mike Condon pulled together a group of 30 sixth-, seventh- and eighth-grade girls and began teaching them game basics and stick handling. Since this humble beginning the Middle School field hockey club has grown consistently with 45 girls participating in 2007 and an astounding 68 players this season.

Since this humble beginning the Middle School field hockey club has grown consistently with 45 girls participating in 2007 and an astounding 68 players this season.

Beth Marsden-Gilman joined Condon in 2006 when Gilman's daughter Marie wanted to participate. Marsden-Gilman, a 1975 CHS graduate who played defense for Cohasset's field hockey squad, offered to help and the rest is history.

"Beth brings an enthusiasm to the program that can only be described as contagious," said Condon. Elected captain in her senior year, Marsden-Gilman's "contagious enthusiasm" for the sport has helped grow participation levels. Today, Marsden-Gilman spends countless hours coaching the players, scheduling games and promoting the club. Marsden-Gilman says her primary goal "is first to develop an athletes interest in the sport, then convert that interest to a desire to play and ultimately to a passion to excel." The program focuses on stick handling, game strategy and team building. The club stresses conditioning as a critical component to success in this fast paced game where possession changes constantly.

The Cohasset Field Hockey Club consists of 4 teams: two sixth-grade teams with 15 players each, a seventh-grade team of 20 players and an eighth-grade team of 14. Condon and Marsden-Gilman are assisted in coaching by Condon's daughter Caitlin, a former CHS Varsity goalie, Meg O'Hara a Cohasset elementary school teacher and volunteer Kate Fallon. Marsden-Gilman commends the many parents who support the club and the players, "we couldn't do it without their support," she added.

This season the club led the 68-player roster in competitive play with a 20-game schedule facing teams from schools like Thayer, Derby and Canton. Each grade had a successful season with the club posting a 13-4-1 record overall in league play.

The success of the club reaches far beyond the middle school. Early exposure to the game and game competition is molding Cohasset's young athletes into field hockey contenders. Players exposed to multiple years in the Middle School club have now moved on to high school. This year's varsity squad included sophomores with club experience and 15 members of this year's 14-0-1 Junior Varsity squad honed their skills and developed their competitive spirit in the Middle School Club program.

"I strongly believe we should have a freshman team for field hockey with the numbers we have," says Marsden-Gilman. "The USA Field Hockey organization is also putting a lot of effort and focus on the Northeast to get more girls interested in the sport and this seems to be well received. This year I worked with Dover to help them put a sixth-grade program together and Hingham started last year and now have over 160 girls, 60 of whom are in sixth grade alone."

According to Pat Waters, whose daughter Sydney was a center forward on the undefeated Junior Varsity team, the Middle School club was an unbelievably positive experience. Sydney believes she would have played the sport in high school, but Waters notes she would have been nervous had she not had so much exposure to the sport in Middle School. With players developing skills, a deep understanding of game rules and game strategy in Middle School, they are free to focus on conditioning, team play and improving shot speed, accuracy and other stick skills.

Waters says the club is fortunate to have dedicated parent coaches and volunteers with technical knowledge and expertise in the game. Recalling the early days of the program for this year's group of talented JV players, the sixth- and seventh-grade seasons were difficult. "For the first two seasons, we didn't have a dedicated field and practiced along side the JV and Varsity on the sidelines," stated Condon. "The girls worked hard and competed against older and more experienced programs, I'm really proud of how these girls have developed," he added.

There is no doubt that dedication to the program by participants and organizers will continue. The program has matured beautifully with players matriculating to the JV and Varsity level. However, despite the club's success and its influence on the JV and Varsity programs, continued school budget issues may put the club at risk. Proposed charges for use of the middle school field may push participation fees to an unaffordable level. The road to get women playing field hockey in the US was not an easy one for Applebee. Marsden-Gilman and Condon know the drill and hope to continue to make field hockey available to future Middle School students.

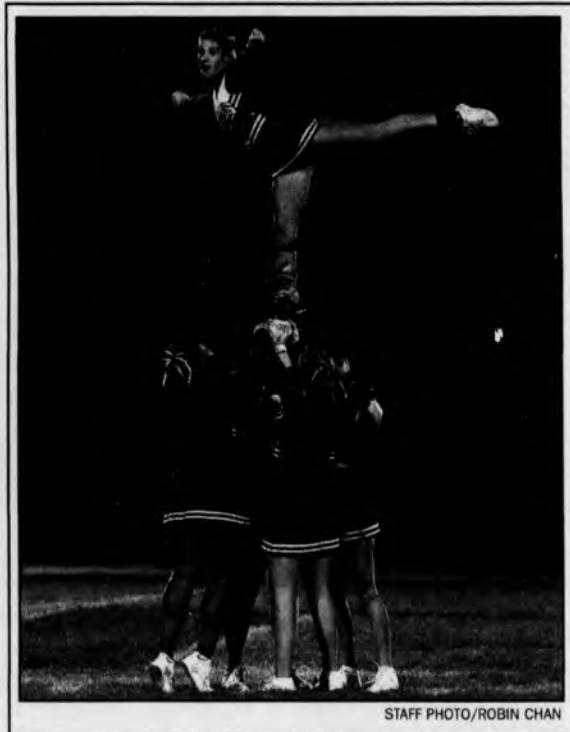
SciCoh Stingray 2nd/3rd grade team heads to Super Bowl to face Hanover.

Stingray Mites advance to Super Bowl

Second-third grade football team plays Sunday



On a beautiful late Fall evening at Scituate High School, the SciCoh Stingray Mites clinched a spot in the Super Bowl by defeating a tough Middleboro team 6-0 on Saturday (Nov. 1). The Stingrays are made up of 56 players from the towns of Scituate and Cohasset and the win was a culmination of months of hard work. Starting in early August, the team worked tirelessly to learn the fundamentals of the game. A few of the players played last season as second graders but the vast majority were playing tackle football for the very first time.

The Stingrays clinched a playoff spot by beating the same Middleboro team 18-6 on Sunday, Oct. 26, and this game proved to be a much tougher battle. Middleboro got the ball first and had possession for the entire first quarter but the tough SciCoh defense would eventually stop them and give the ball back to the offense. The Stingrays just missed putting the first points of the game on the board as **Will Greer** flew through a big hole opened by **Charlie Pyne** and **Matthew Dickey** but Middleboro's best player tackled him before he broke into the clear. Middleboro would eventually stop the SciCoh offense and start another drive before being thwarted again by the Stingray D. On fourth down from the twelve-yard line, **Cal Osten** intercepted a pass and stopped the drive.

The second half was even more exciting as the teams traded possessions before Greer would blast through a hole on the right side and turn on the jets for a 65-yard TD. **Will Thomas, John Bulman** and **Cam Pattison** all had key blocks on the play. Middleboro stopped the two-point conversion, which game them a chance to win with a TD and two point conversion.

The SciCoh defense came up huge on two possessions at the end of the game to clinch the victory. Game MVP **Will Bowen** made numerous tackles in the backfield and saved a TD by hustling all the way across the field and making the tackle at the 20-yard line. **Alex Defreitas, Jackson Mansi** and **Tommy Carrabes** all had big hits to stop Middleboro on the final drive.

The Stingrays will play Hanover for the championship in a rematch of a great regular season game. The Super Bowl will be played at Middleboro on Sunday Nov. 9 at 11am. Everyone is encouraged to come to the game and cheer the team on!

STAFF PHOTO/ROBIN CHAN

Betsy Crawford is held up in the air during halftime during the Homecoming game last month. The Mariner wishes the cheerleading squad luck in their league competition this weekend. The CHS cheerleaders are: Anna Roberts – Senior; Betsy Crawford – Junior; Grace Curry - Junior; Kelsey Rochleau – Junior; Kelsea Hindley – Junior; Jamie Canavan – Junior; Jessica Fusco – Sophomore; Jennie Curley – Sophomore; Samantha Liberty – Sophomore; Colby Smalzel – Sophomore; Khiana Clemons – Sophomore; and Tina D'Antonio – Junior.

Girls pass pre-tournament test

FROM GIRLS SOCCER, PAGE 15

The veteran coach was pleased to report that she couldn't have asked for much more than what she got in the 2-1 win over Rockland last Wednesday and a 1-1 tie with Atlantic Coast League champion Plymouth North (13-2-2) this past Monday.

"Our last two games were just the pre-tournament test we needed," Beal declared. "I feel that we are prepared and ready to compete."

Awarded the fourth seed for the Div. 3 south sectionals by virtue of their final record, the Lady Skippers will host 14th seeded Bishop Connolly (10-7-1) this afternoon at Alumni Field (5 p.m. start).

"Not knowing much about them and their league is always a little bit frightening," said Beal.

A victory here would advance the locals to face the winner of the Sacred Heart (12-6)-East Bridgewater (11-4-2) contest. E.B, of course, is a South Shore League rival for the Skippers and the sources of two of their three losses, both 2-1 heartbreakers.

"I certainly am not looking ahead, but wouldn't that be an exciting rematch?" said Beal.

Cohasset 2, Rockland 1

This Wednesday night game at Cohasset featured typical late October weather along the coast: cold and windy.

The Lady Bulldogs were hoping for a postseason berth and it showed in the intensity of their play.

"The game started out pretty evenly matched with two teams who didn't know one another finding their way, looking for holes and playing tough," said Beal.

Rockland got on the board first, but Beal said she was proud of the way her girls responded.

"We seemed OK with it," Beal reported. "There was no dropping of the shoulders and our heads remained in the game."

Maggie McGoldrick tied it up not long thereafter, though, finishing on a pass from fellow senior captain Torey Hart.

The Skippers were coming off back-to-back ties, and it looked very much like the streak could reach three when the game clock ticked under 10 minutes.

"We're coming off two ties that shouldn't have been tied," Beal said. "I was thinking we needed the boost for the momentum in the (Division 3 South Sectional) tournament."

Well, Hart delivered that spark with nine minutes to play, scoring the goal that put the Lady Skippers ahead.

Rockland was led by keeper Sarah Crawford.

"She made 15 or 16 really good saves," Beal said. "She kept them in it."

Concluded Beal: "We played a tough and physical game, which made me a little bit more confident in the games ahead."

Cohasset 1, Plymouth North 1

Beal admits now that she went into this game with no small degree of trepidation, matched against a league champion from a school with nearly four times the student body.

"I had no idea what to expect from them," admitted Beal. "They finished first in the Atlantic Coast League, which is a tough league. They are a bigger school than us and I was hopeful that we could keep up with them physically."

It didn't take Beal to discover, though, that her girls were hardly overwhelmed.

"Was I ever wrong to even think about us not matching up evenly," she said. "We played one of our best games of the season. In my opinion, it could not have happened at a better time. Although we tied, I saw more on that field from the girls than I have seen all year."

Beal has been occasionally critical of the lack of field communication between her charges, as well as the propensity for getting frustrated, but she feels she saw her team grow up a little in this knock-down, drag-out finale.

"I saw Sammi Lehr, Sarah Coggins and Maggie McGoldrick take control of the game," said Beal of her senior leaders. "They kept everyone in the game, they were calm and they set the tone."

A few Cohasset players drew yellow cards, which charged up more what was already an emotional match.

"I believe frustration caused them and the officials made decisions based on the player's actions," observed Beal. "Lessons are learned every day and I believe there are a few girls who now know that actions speak louder than words and we need to keep our composure even when we don't like the situation.

"I preach sportsmanship at all times and I think that as a team we need to know the importance of playing hard and knowing when the boundaries are being crossed. Despite having a few key players removed from the field by me for fear of getting another card and losing them for two games I was impressed with how we continued to play hard and didn't let the situation go to our heads."

Hart scored her ninth goal this year to help the Skippers take a point from this match.

***

So now it's on to the postseason for the Lady Skippers

The Lady Skippers traveled to Hanover Wednesday for a "friendly" pre-tournament scrimmage with the Div. 2 south tourney-bound Lady Indians. Beal said she was "looking to work out some of the technical stuff such as direct kicks, corner kicks, and penalty kicks" in that one.

Summing up the season, to date, Beal stated: "I can't complain. What a nice job done by all this fall. I am so proud of the girls and the dedication to this program. They came off such a successful season on fall 2007 and picked it right back up where we left it last November. The loss to Norwell (in the '07 sectional finals) was the theme of the season.

"Coming back in August we took nothing for granted and we worked hard from day one. I clearly remember pushing them pretty hard those last days of August when the temperature was 60 degrees warmer than it is now. The girls were dying but refusing to give up. Pushing them was easy because they responded every time, no matter what the drill was. They strive to please their coaches, their teammates and themselves. Never have I had a group that works so hard. They are tough on themselves and are always working to improve."

Sharks eliminated from playoffs

Last Sunday the (7-1) Scituate-Cohasset eighth-grade Sharks were run over by a very determined (6-1-1) Barnstable Silver Bullet team, 20-6, in the first round of the playoffs. Barnstable advances to next Sunday's Super Bowl against (6-1-1) Marshfield.

Barnstable won the opening coin toss and elected to receive. When their offense took the field, they were determined to avenge their only loss of this season, which came against Scituate in week five, 20-18. The big fullback continuously ran off tackle with much success as Scituate's defensive line was being blown off the ball. Barnstable scored first to take 6-0 lead.

Scituate's offense had little success running the ball early and their receiver's dropped a couple balls that could have resulted in large gains or possibly touchdowns. After Scituate punted the ball back to Barnstable, the Silver Bullets offense quickly found the end-zone again and converted their extra point to extend their lead to 14-0.

On the ensuing kickoff, Scituate's **Shane Haggerty** returned it 74 yards for a touchdown to finally put the Sharks on the board 14-6. (In the previous game against Barnstable and Scituate trailing 18-8, Haggerty also returned a kick-off in that game, sparking Sci-Cohs late game heroics.) The rejuvenated Sharks dug in on defense and were able to turn the ball over to the offense in excellent field position. Haggerty hit **Matt McCrae, Conor Dooley** and **Shea McCarthy** on successive plays and the ball was now at the five-yard line with only a minute left in the half. However, Barnstable withstood four Sci-Coh attempts at getting into the end zone and the score stood at 14-6 at the half.

Scituate received the second half kickoff but the offense fizzled once again, punting the ball back to Barnstable. Barnstable took command of the game when their big fullback scampered 35 yards for their third TD of the game. Scituate was now forced to play catch up and despite Haggerty's valiant effort the Barnstable defense stymied every Scituate attempt.

When Scituate's 85-pound wrecking ball, known as **Greg Hurley**, forced a fumble late in the game the Sharks last offensive series resulted in Haggerty being sacked and Barnstable celebrating its return to the Super Bowl.

ELIZABETH GRADY

LESS IS MORE.

For coverage, PUREMINERALS™ is far superior to normal makeup. It's concentrated, so you use less and it always looks sheer and natural. Dermatologists recommend it because it doesn't contain fillers and talc that can irritate your skin and clog pores. PUREMINERALS is sold exclusively at Elizabeth Grady salons. Come in now and get a lesson from our make-up artists that you can apply for the rest of your life.

John Paul Adams, at left, Dan Toomey, center, and Mrs. Regan check out a device during Techsplorations at Deer Hill.

Evan Canney cannot contain his excitement. At right is Mary Lengyel. Fifth-graders students participated in individual workshops in the STEM lab, where they learned how to trade distance for effort by experimenting with their own simple machines and vehicles.

Emily Moy pulls on the lever system. Thanks go to the Deer Hill School PSO for sponsoring this program.

Margret Norton gives a device a try. Fifth-graders participated in individual workshops in the STEM lab, where they learned how to trade distance for effort by experimenting with their own simple machines and vehicles.

Tom Wahle of Techsplorations is about to demonstrate the power of the lever at Deer Hill.

Aidan Chamberlain uses the pulley to lift Mrs. Jordan during Technology Day at Deer Hill.

SCHOOLS/HAPPENINGS

Spinnaker hits the newsstands!

LIFE AT CHS

LAUREN MACK

Hello again, everybody! I hope that everyone had a fantastic Halloween and kept out of trouble, even though I know children in Cohasset never cause trouble. In any case, *The Spinnaker* was a huge success last Friday, selling out every single issue printed. Kudos to *The Spinnaker* staff for putting together such a well-written and informative publication!

On Monday this week, a luncheon was held in the library for those students who received the John and Abigail Adams Scholarship. Pizza was served. Other big news at the high school this week was that the end of the first quarter was this past Wednesday, meaning that either highly-dreaded or highly-anticipated report cards will be sent home soon. Another highly-anticipated event is that next Tuesday is Veterans Day, meaning no school, and also that, for the first time in a long time, Monday doesn't have to be the worst day of the week.

With application deadlines looming overhead for seniors, and the college search just beginning for juniors, the guidance department has become increasingly important in the daily lives of students; which brings me to my Quote of the Week. This week's quote comes not from a teacher at CHS, but rather a familiar face in the faculty. You may have seen her in the main office last year, but now you'll find her sitting in the guidance office helping CHS students left and right, out of the goodness of her heart. This woman's name is **Ms. Peggy Lewis**, and when I approached her with questions about her expertise in the college application process, she said: "I rarely make mistakes. Sometimes I might skip one, but that's not too often. I'm usually right." And with that, I leave you all to a wonderful weekend! Ciao!

Lauren Mack is a senior at CHS. Her column appears weekly during the school year.

OPENING NIGHT

Friends and students of Judith Rossman attend their opening night reception (Oct. 30) at the Cohasset Office of Sotheby's International Realty in Cohasset Village. The students' work is on exhibit at the office through Nov. 30. From left: (back row) are: Dolores Shelley, Mary Hufnagle Murray, Paul Merchant, Debbie Reardon, Jill Flynne, Mary Louise Hoss and Trish Baggott. Front row, from left, are: Randi Meryl, Peggy Scahill and South Shore Art Center instructor, Judy Rossman.

COURTESY PHOTO

Acoustic guitar concert Sunday

Acclaimed acoustic guitarist Jim Scott will perform an evening of his songs of peace and the environment on Sunday, Nov.ember 9 at 4:00 pm at First Parish meetinghouse. Unitarian Universalist in Cohasset. With insight and more than a little humor, Scott makes his case for harmony in the world with a jazz / world folk music styling and some great guitar technique in accompaniment.

Scott"s performance is sponsored by First Parish Unitarian Universalist in Cohasset and will take place in the Meeting House on the Common. Admission is $15 for adults and $5 for children and payable at the door. This is the first in a series of Meeting House concerts scheduled for 2008-09.

Known to many as the voice on the Winter Consort"s ""Common Ground,"" Scott"s musical output runs from lyrical songs and instrumentals to choral compositions. He has performed in the company of many luminaries of the jazz and folk worlds. Pete Seeger said of Jim"s guitar virtuosity: ""[Jim is] some kind of a magician."" Paul Winter said of his long time collaborator: ""His music sings of the life spirit.""

Scott"s most recent project has been compiling ""The Earth and Spirit Songbook,"" an anthology of songs of earth and peace and he has added many of these songs to his concert repertoire. From this widely varied background, Scott considers himself a contemporary folk artist in the sense that folk music represents people with a positive and hopeful spirit.

"Folk follows a long tradition of social commentary," Scott said. "It's the voice of the people. That's what I like to think I'm representing."His musical, ""The Tree and Me,"" has been staged at colleges in New York and Michigan. He also performs for kids and has written songs with elementary school classes. His ""Big and Little Stuff - Songs for Kids"" marks his fifth recording of original songs released on CD. He has taught at numerous colleges, including Oberlin College in Ohio, and has conducted workshops throughout the country.

"My messages are of ecology and social conscience, but also of optimism," Scott said. "I believe in the power of song and self-expression for change."For more information about the concert, call Allegra Martin at (617) 872-0461.

DEER HILL, OSGOOD MENUS

CEF seeks volunteers

The Cohasset Education Foundation (CEF) is looking for volunteers to coordinate their Teacher Appreciation Program, "Extra Credit". It is a rewarding program that allows donors to make a truly meaningful gesture to our dedicated teachers while raising money at the same time. Your participation will be greatly appreciated.

Please contact sarah.murphy@comcast.net and visit cohasseteducation.org to learn more about Extra Credit and the CEF.

Child Find being conducted

Cohasset Public Schools, in accordance with Federal Law IDEA 2004 and Massachusetts Special Education Regulations 603 CMR 28.00, are in the process of conducting Child Find. The school department is seeking children with suspected disabilities residing in Cohasset who may be in need of Special Education services.

Cohasset Public Schools will evaluate students from age 3 through high school age who are unable to progress effectively in a regular education program due to a suspected disability in one of the following areas: developmental or intellectual delay, sensory, neurological, emotional, communication, physical, specific learning disability or health impairment. Cohasset Public Schools will also arrange for an evaluation of young people ages 16 through 21 who have not graduated from high school and who are not now attending school.

In addition, screenings for 3- to 5-year-olds will take place the third Friday of each month at Osgood School. Call the Integrated Pre-school staff at 781-383-6117 for more information.

Cohasset provides all children with an opportunity to participate in the public school programs using a continuous and systematic process to identify students in need of special education. All programs and services are offered without regard to color, race, sex, religion, national origin, sexual orientation or disability.

Parents who have a child they suspect may have a disability or know a child with a disability who may be in need of special education services, can call the director of student services, Linda Gill, at 781-383-6104 for information regarding the referral process.

Post-prom planning to begin Nov. 13

There will be an organizational meeting for all senior parents at 7 p.m. Thursday, Nov. 13, in the Cohasset School Library to begin making plans for the post-prom party.

Those who are unable to attend but would like to help can contact Barb Mullin 781-383-0953.

Cohasset Maritime Institute to host meeting

Cohasset Maritime Institute will host its annual meeting at 9 a.m., on Saturday, Nov. 15, at 40 Parker Ave. Cohasset Maritime Institute is dedicated to the preservation of Cohasset's maritime history and the promotion of ocean rowing for middle and high school students and adults.

All Cohasset Maritime Institute members and the community are invited to attend the CMI meeting. Following the meeting, volunteers are needed to assist in the clean out of the CMI boathouse in preparation for its renovation.

Visit the CMI Web site at rowcmi.com or call Lisa Hewitt Dick at 781-383-0204 or Susan Galligan at 781-383-0765 for more information.

Middle school dance

Friday, Nov. 7, from 7 to 10 p.m., in the Recreation Center garage, for Cohasset residents only (school ID required) in grades six through eight. Parents must be present with late arrivals (after 7:30 p.m.) or for early pickup. Snacks and refreshments will be on sale. $6 per person; pre-registration at www.cohassetrec.com is required. This dance is sponsored by the Rec Department.

WONDERFULLY WICKED

PHOTO/CRAIG GOEDECKE

Nine-year-old Alexandra Lanier is delighted to see a friendly witch (Carol Martin) during the Halloween Haunted House at the First Parish House at 23 North Main St. The event was sponsored by the congregation's Religious Education Committee and welcomed trick-or-treaters and their families from the entire community into this historic Parish House to celebrate Halloween. Martin is co-chair of the Religious Education Committee at First Parish.

WORSHIP GUIDE

Beechwood Congregational Church, 51 Church St. 781-383-0808. Interim Pastor: Richard Chamberlain; Please join us for Sunday Service and Sunday School at 10 a.m. followed by fellowship in Merritt Hall. Accepting donations of new socks for homeless shelters and non-perishable food items for local food pantries.

Our mission statement is: "Equipping God's people for living out the Good News to be the hands, feet, voice and heart of Christ in our community and in the world." How should we accomplish this? Come hear sermons to find out.

First Parish Unitarian Universalist on Cohasset Common, 23 North Main St. (Parish House). 781-383-1100. www.firstparishcohasset.org Minister: the Rev. Dr. Jan Carlsson-Bull. Interim Director of Religious Education: Jim FitzGerald. Music Director: Allegra Martin. Interim Organists: Carolyn Bates and Maureen Hague. Parish Administrator: Sandy Bailey. Parish Committee Chair: Mary Parker.

We welcome all to our inclusive spiritual community. We affirm our Unitarian Universalist Principles and put them into action by worshiping together, caring for one another, and working for a safe, just, and sustainable world.

Sunday, Nov. 9

8 a.m. – Circle Ministry (group led by Bill Baird & John Kornet and meeting on the 2nd & 4th Sundays)

9:50 a.m.– Childcare for our youngest and RE classes for children and youth – Parish House

10 a.m. – Worship in the Meeting House – Rev. Dr. Jan Carlsson-Bull will lead worship around "A Conversation."

Everyone is invited for refreshments and fellowship in Trueblood Hall directly after the service and RE classes.

4 p.m. - Concert in the Meeting House featuring Jim Scott - Acoustic guitarist, singer, composer. This is a concert for all ages, so bring your children! Tickets are available at the door—$15/adult and $5/children under 12.

All are welcome as we worship and learn and live our faith together! To learn more about First Parish Unitarian Universalist, please come by the Parish House and pick up or sign up for the current monthly newsletter, The Common, or visit our website at www.firstparishcohasset.org or contact Rev. Dr. Jan Carlsson-Bull, Minister, at 781-383-1100.

Second Congregational Church, 43 Highland Ave. If you live on the South Shore and you're looking for a church home we encourage you to join us on Sunday mornings.

September through mid June: Service (with choir) begins at 10 am in the sanctuary with Nursery care and Sunday School for age's pre-K through 8th grade, including children's music provided at the same time. Immediately following the 10am service you're invited to a coffee-fellowship hour in Bates Hall. Youth groups for middle and senior high school children are available. We are an open, welcoming church family. We enjoy periodic book/Bible/topical discussion groups in addition to annual church wide events such as the Strawberry Festival, Christmas Craft Fair, Quilt Show and Appalachia Service Project.

FALL BOOK STUDY: Every Wed., through Nov. 19th at 7 pm in Bates Hall. We are discussing A New Earth Awakening to Your Life's Purpose by Eckhart Tolle. This is a life transforming study that Oprah Winfrey presented in a 10 week web cast series. For more information you can check out www.oprah.com or www.eckharttolle.com. Come and join us!

CALLING ALL CRAFTERS: Members of SCC are already at work creating homemade crafts for the annual Village Fair to be held on Sat. Dec. 7. New crafters and helpers are always welcome!

For more information please call us at 781-383-0345 or visit us on line at www.2ndcc.org

St. Stephen's Episcopal Church: Welcome to St. Stephen's church!

We are currently underway with our new "Episcopal Church for the 21st Century" class taught by Rev. Margot Critchfield. This class is for anyone who wants to learn more about the Episcopal faith and anyone preparing for Confirmation or Reception into the church. Classes run from noon until 2:00.

Rev. Critchfield is also offering individual spiritual direction this fall. If you are looking for a spiritual home or exploring your faith, we invite you to visit us. You can learn more about us, and the Episcopal Church, from our website, www.ststephenscohasset.org.

Other programs this fall includes bible study for adults, youth group activities, the children's Christian education program "Godly Play", outreach programs serving the hungry and homeless, yoga, meditation and a monthly luncheon for seniors.

Services at St. Stephen's are at 8 am and 10 am on Sundays, including a Healing Eucharist at 9:30 am on Wednesdays. All are invited.

You can reach the church at 781-383-1083. The Rev. Margot Critchfield can be reached at mcritchfield@ststephenscohasset.org. Our offices, which are open Monday through Friday, can be accessed by coming to the back of the church, up the Highland Ave hill. We are handicap accessible.

Going on this week at St. Stephen's:

- Sat. Nov. 8: 7 am Bible Fellowship
- Sun. Nov. 9: Services at 8 and 10 a.m., Godly Play at 10:00 and youth group at 11:30.

Vedanta Centre, 130 Beechwood St., 781-383-0940. Denomination: Vedanta, an Indian philosophy which honors all world religions. Clergy: Rev. Dr. Susan Schrager. Sunday morning, 11 a.m. Refreshments and fellowship after the service. Thursday Meditation and Study Class from 7 to 8 p.m.

HAPPENINGS

Fall bird walk planned

The public is invited to join Sally Avery, Audubon expert, for a fall bird walk on Saturday, Nov. 15. Rain date is Nov. 22. Participants should meet at 8 a.m. at the intersection of Atlantic and Summit avenues, by the Black Rock end of the pond on the Hull side.

For more information, call Sue Lofchie at 781.925.0535.

Saint Stephen's accepting book donations

Saint Stephen's Episcopal Church, 16 Highland Ave. is accepting donations of slightly worn hardcover and paperback books, books on tape, DVDs, and CDs for its annual book sale, part of the ecumenical Village Fair that will be held this year on Dec. 6 on Cohasset's scenic Common.

Donations can be brought to the church in bags or boxes and placed inside the parish hall door marked "Church Offices". Use the "reserved parking" spot to unload your books during church office hours Monday through Friday 8 a.m. to 2 p.m. Books are sorted at St. Stephen's Church in Walton Rodgers Hall every Tuesday from 9 to 11 a.m. Donations will be accepted through Nov. 25. Old textbooks, romance novels, damaged, musty or moldy books or books with notes and/or highlighting cannot be accepted. For information, call D'Anne Avotins at 781-923-1104

The monies raised from the Book Sale will be used to send underprivileged children and their families to the Barbara C. Harris Camp in Greenfield, N.H. For more information about this facility, visit www.bchcenter.org.

Wine Tasting Party at the Abbey Center

Wines from the vineyards of France, New Zealand and California will be featured at a Wine Tasting Party from 5:30 to 7:30 p.m., on Saturday, Nov. 8, at The Abbey Center, 16 Hull St., Hingham.

The event will provide hors d'oeuvres and goodies from area caterer The Chef's Table, along with an array of wines. Two sommeliers will describe the nuances of the wines and will answer questions from attendees.

For tickets, visit the Glastonbury Abbey Bookstore, or call 781-749-2155, ext. 243. Tickets are $50 per person, $85 per couple.

Memory loss talk

Sunrise Assisted Living of Cohasset presents: Guiding the Families & Friends of Those with Memory Loss, which will presented by motivational speaker/LCSW Barbara Tortorella at 6 p.m. on Tuesday, Nov. 18. RSVP : (781) 383-6300.

Legal Notices

SEL/BLUE RESTAURANT, INC.

LEGAL NOTICE
Board of Selectmen
Public Hearing Notice

The Cohasset Board of Selectmen, acting as liquor license authority, will hold a public hearing on Monday, November 10, 2008 at 7:10 PM in the Selectmen's Office, Town Hall, 41 Highland Avenue, to consider the application of Blue Restaurant Inc., 156 King Street, Cohasset, for a new All Alcoholic Restaurant License. The proposed manager is Kevin D. Kelley, Sr. The licensed premises shall consist of a one story building of approximately 4,500 square feet which consists of a dining room and bar and additional storage in the basement. There is a handicap accessible entrance on the side and a main entrance in the back. The public is invited to offer input on this proposed license in writing in advance of the public hearing or in person at the hearing.

Commonwealth of Massachusetts
The Trial Court
Probate and Family Court Department
NORFOLK Division
Docket No. 08P2581EP

In the Estate of WILLIAM A BROWN
Late of COHASSET
In the County of NORFOLK
Date of Death October 18, 2008

NOTICE OF PETITION FOR PROBATE OF WILL

To all persons interested in the above captioned estate, a petition has been presented praying that a document purporting to be the last will of said decedent be proved and allowed, and that GEORGE P FIELD of BOSTON in the County of SUFFOLK or some other suitable person be appointed executor, named in the will to serve without surety.

IF YOU DESIRE TO OBJECT THERETO, YOU OR YOUR ATTORNEY MUST FILE A WRITTEN APPEARANCE IN SAID COURT AT CANTON ON OR BEFORE TEN O'CLOCK IN THE FORENOON (10:00 AM) ON **DECEMBER 10, 2008**.

In addition, you must file a written affidavit of objections to the petition, stating specific facts and grounds upon which the objection is based, within thirty (30) days after the return day (or such other time as the court, on motion with notice to the petitioner, may allow) in accordance with Probate Rule 16.

WITNESS, HON. ROBERT LANGLOIS, ESQUIRE, First Justice of said Court at CANTON this day, October 29, 2008.

Horoscope

SALOME'S STARS
FOR RELEASE WEEK OF
NOV. 3, 2008

ARIES (March 21 to April 19) You enjoy the attention early in the week, but it might be a good idea to opt for some privacy by week's end so that you can have more time to consider an upcoming decision.

TAURUS (April 20 to May 20) You unearth some surprising facts. Now you need to consider how to use them to your advantage. Meanwhile, it might be best to keep what you've learned secret for now.

GEMINI (May 21 to June 20) A comment by a colleague piques your curiosity to know more. Best advice: You'll find people more likely to offer information if you're discreet when making your inquiries.

CANCER (June 21 to July 22) Your energy levels begin to rise by midweek. This allows you to catch up with your heavy workload and still have plenty of get-up-and-go to go out on the town this weekend.

LEO (July 23 to August 22) You're probably roaring your head off about a perceived slight from a longtime critic. Ignore it. That person might just be trying to goad you into doing something you might later regret.

VIRGO (August 23 to September 22) The early part of the week is open to spontaneity. Then it's time to settle into your usual routine to get all your tasks done. A personal situation could require more attention from you.

LIBRA (September 23 to October 22) A meeting of the minds on a workplace project might well develop into something more personal for Librans looking for romance. Aspects are also favorable for platonic relationships.

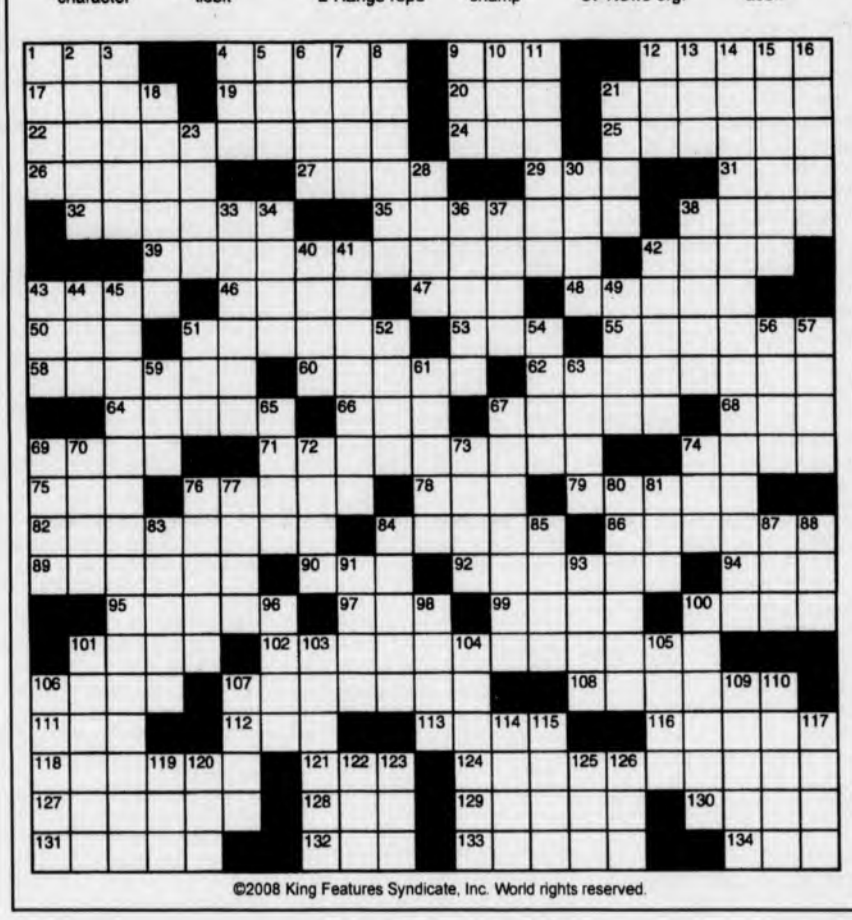
SCORPIO (October 23 to November 21) A more-positive mood might be difficult to assume in light of a recent problem involving the health of someone special. But by week's end, your emotional barometer should start to rise.

SAGITTARIUS (November 22 to December 21) Look for a changed attitude from a former adversary once he or she realizes you have your colleagues' full support. Now you can refocus your energies on that workplace project.

CAPRICORN (December 22 to January 19) This time, a difference of opinion might not be resolved in your favor. But be patient. It could all ultimately work out to your advantage, as new information begins to develop.

AQUARIUS (January 20 to February 18) A tug of war develops between the artistic Aquarian's creative aspect and his or her practical side. Best advice: Prioritize your schedule so you can give appropriate time to both.

PISCES (February 19 to March 20) You could be entering a career phase awash with job-related demands. But avoid being swamped by the overflow and, instead, keep treading water as you deal with demands one by one.



(c) 2008 King Features Synd., Inc.

BORN THIS WEEK: You are an exceptionally loyal person, and you're respected for your ability to keep the secrets entrusted to you.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Rum and more yo, ho, on Barbados

Kevin Zimmerman
GATEHOUSE NEWS SERVICE

Bridgetown, Barbados — A Barbados legend insists when Englishmen partook of the brownish beverage concocted from molasses - a by-product of sugar-making - they became boisterous, bawdy and even unruly or rumbustious.

It didn't take long for the drink to be christened "rum."

The easternmost of the Caribbean islands, Barbados could easily adopt the moniker "the Island that rum built," but that is only part of the story.

Visitors to the island will discover a place of pink sand beaches, clear blue seas and friendly residents eager to share their island's beauty and history.

Bridgetown, the capital, retains its British ambience and is home to the country's Parliament Building - Barbados has been independent since 1966 but Queen Elizabeth II is the head of state.

It is also the main port and the place to head under the sea in the Atlantis III (www.atlantisadventures.com), a submarine sporting multiple windows on both its port and starboard sides so those inside don't miss any views.

PHOTOS BY KEVIN ZIMMERMAN

The pink sand beach at the Crane Resort and Residences.

As the submarine slowly descends to an offshore coral reef, schools of tropical fish glide past.

Hundreds of blue chromis - so blue they're nearly black - are the main inhabitants of the reef, but they share their home with the "schoolmaster snapper," a gray fish with yellow spots so named because it appears to have a stern look on its face; and the chief predators of the reef, the horse-eye jack. As the submarine nears a shipwreck, much to the crowd's delight, several sea turtles slice their way through the water.

For those who prefer to stay above board, Tiami Catamaran (www.tallshipcruises.com) offers daily catamaran sailing trips. A five-hour sail hugs the shoreline, stopping a few times to allow passengers the opportunity to snorkel or swim. Cruises include lunch complete with the nation's two most recognized dishes - steamed flying fish and macaroni pie.

Back on land, grab a board and head to the island's Atlantic Coast and the best surfing in the Caribbean. Beginners would be wise to book a lesson with professional surfer Alan Burke.

In the basement of his home on Burke's Beach, Burke runs Burkie's Surf School (www.surfbarbados.net) teaching students who have ranged in age from 8 to 65.

"Barbados has an amazing amount of surfing spots. Spots that are consistent," Burke said.

A lesson in Burke's backyard about how to find the board's sweet spot, how to keep the nose of the board slightly out of the water and how to stand in one smooth move, of course becomes a harder process when clinging to a board that is being thrashed by waves - in my case at Long Beach on the calmer waters of the Caribbean.

When you've had your fill of sand and surf, Barbados offers several indoor attractions that are historical, educational and just plain fun.

St. Nicholas Abbey (www.stnicholasabbey.com), in the northern parish of St. Peter, is the second plantation house built on the island. Dating back to about 1660, the home is one of only three genuine Jacobean mansions in the Western Hemisphere.

The place has nothing to do with the church, but, like much of the island, was built as part of the burgeoning sugar trade. Little remains of the original homestead beyond the walls and beams, but visitors can tour the buildings and grounds to get a glimpse of what life was like for the historic privileged few on the island.

For a look into the lives of common Bajans, as locals are called, head to Speightstown and the Arlington House Museum (www.arlingtonbarbados.com). The museum is located in a three-story home with a steeply pitched gable roof, dormer windows and a veranda on its northern side that 200 years ago was home to the Skinners, a merchant family. It's a classic example of a Single House - a house that's one room wide on the street but can be several rooms deep.

Life in the 1800s centered on fishing, sugar cane and trade with England. Speightstown was once called Little Bristol after the English port city of Bristol, a major trading post with the island.

The museum offers historic maps, photographs and prints that tell the history of Barbados, with interactive videos and a movie outlining the story of slaves brought from Africa and the sugar trade.

Visitors can also learn about the island's most famous pirate, Stede Bonnet, a wealthy plantation owner who ditched conformity and joined forces with Blackbeard.

Though it's hard to prove any pirate ever burst into song with, "Yo, ho, ho and a bottle of rum," the beverage is an important part of the island's economy and lifestyle.

At the center of that story is Mount Gay Rum and its factory in Bridgetown which produces 10,000 bottles a day.

You can take a tour of the facility (www.barbados.org/mountgay.htm) and learn about founder Sir John Gay Alleyne, see the various stages in the rum-making process and even sample the end product that is part of everyday life on the island.

"When you're holding a bottle of Mount Gay, you're not just holding a bottle," said Maria Elias, a tour guide at the factory. "You're holding the history of Barbados."

Movie review

Unrelentingly powerful

Changeling (A)

Film Review
Ed Symkus

The pain in my back, legs and arms was a clear sign that I loved "The Changeling" — I hadn't budged for two-and-a-half hours.

Clint Eastwood's new film features a riveting story and a castful of amazing performances. I'm sure it will garner Oscar nominations for script, director, film, and actress, and there's very little doubt that it will go home with some gold.

Eastwood is a miracle man of the movies. He's been a working actor for more than 50 years, and has been directing for almost 40. While his early efforts were shaky but watchable, over the past two decades he morphed into a master director, with lots of hits ("Unforgiven," "A Perfect World," "Million Dollar Baby") and only a couple of misses ("Midnight in the Garden of Good and Evil," "Blood Work").

Angelina Jolie struts the acting stuff she showed off as Mariane Pearl in "A Mighty Heart." And she's surrounded by a terrific supporting cast that's also capable of stealing a scene or two. Eastwood proves once again that he knows what makes a good movie, and has the know-how to pull it off.

Set in late-1920s Los Angeles, and tagged as "a true story," it follows single mom Christine Collins (Jolie) and her 9-year-old son Walter (Gattlin Griffith), who are very close and have managed to weather dad's walking out on them long ago. But one day when Christine comes home from work, Walter is gone. The police aren't interested in her worried phone call, and say they won't be till the next day, by which time he'll surely return. But he doesn't.

Christine Collins (Angelina Jolie) is aghast when a police captain (Jeffrey Donovan) brings her a boy (Devon Conti) who she's convinced is not her missing son.

Jolie's smooth transformation from happy, loving mom to anxious, distressed mom is the first hint of where she's going to take this character. The story takes some very bizarre turns, when, some five months later, the L.A. police (at the time beleaguered for being both corrupt and inept) tell her that Walter has been found in Illinois and is being brought home. But when the train pulls into the station, and a young boy gets off, all she can say is, "That's not my son."

That's definitely not the response that Captain Jones (Jeffrey Donovan) wants to hear, and he quietly tells her that the boy has been through an ordeal and has changed. Then he shifts his tone and tells her she should take him on a trial basis, at which point most viewers should be saying, out loud, "What?"

To Christine's consternation, the boy keeps calling her "mummy." The police, with their already tarnished reputation, can't afford another screw-up; a radio evangelist (John Malkovich) is on a campaign to uncover everything dirty about the department; the captain, abusing his authority way beyond the limit, convinces the right people that the confused and frightened Christine is either "a derelict mother or just plain nuts" and has her committed to a hospital's psychopathic ward. In the midst of all of this, hints are dropped that there's a serial killer on the loose in the area, and his choice of prey is young boys, one of whom might have been Walter.

Eastwood and TV scriptwriter J. Michael Straczynski keep a very tight rein on all of this plotting and turn it into a compelling and thrilling and entertaining mix. Eastwood throws in an occasional mood-setting flashback, and manages to coax his actors into giving Grade-A performances (Donovan as the police captain, Michael Kelly as Detective Ybarra, Geoffrey Pierson as the firebrand lawyer S.S. Hahn, Jason Butler Harner as the possible killer, and Amy Ryan as another prisoner on the mental ward are standouts). Eastwood has also composed another exquisite score to complement the downbeat ambiance of the story.

This is an unrelentingly powerful film, certainly up there with the best that Eastwood has directed. It's an absorbing story, as your back, legs and arms may remind you when the lights come up.

Rated R. "Changeling" has some violent content and strong language.

COHASSET MARINER

Community Newspaper Company | www.wickedlocal.com/cohasset | FRIDAY, NOVEMBER 14, 2008 | 56 Pages ■ 4 Sections ■ Vol. 29, No. 46 ■ $1.00

A message to our readers

We hope you enjoy this issue of the Cohasset Mariner, which is being mailed to every household in town.

Each Friday, the Cohasset Mariner delivers unparalleled coverage of local news, features, high school and youth sports and events that impact the community. Stay informed with weekly features, police/fire log, school news, obituaries, personal milestones and more. In the Cohasset Mariner, you also receive award-winning opinion pages and photography, as well as a complete listing of what's happening in Cohasset and on the South Shore.

To those of you who haven't yet been convinced the Mariner is the indispensable source for everything that is Cohasset, please accept this copy of the newspaper as a sample of what you're missing.

To those of you who are already subscribers, we thank you.

For those who don't subscribe to the Cohasset Mariner, but would like to, please see our advertisement on page 10.

Town Meeting is 7 p.m., Monday

By Nancy White
NWHITE@CNC.COM

While there is no one "big" issue topping off Monday's Special Town Meeting, in its own way each article will affect the town's finances and direction in the year to come — and some well beyond. This Monday, Nov. 17 Special Town Meeting will convene at the Cohasset High School Sullivan Gymnasium at 7p.m.

A total of 13 articles appear on the warrant, or agenda, for Special Town Meeting. The issues range from mid-fiscal year budget adjustments to improving the Jacob's Meadow culvert and several capital purchases.

"This is the beautiful thing about small town government, everyone has a voice to make the big decisions for the town," said Selectmen Chairman Ted Carr. "Those who are interested and want to be involved in the public process can come out and vote the way they feel."

Each article will be taken up one at a time, a motion will be made, and votes will typically be taken on a voice basis. Town Moderator Dan Evans once again will oversee the proceedings having the task to keep discussion on point and courteous.

Before the meeting can even get started, a quorum of 100 registered voters is required. Once a quorum is determined at the start of the meeting, it is assumed a quorum is present unless challenged. If challenged the number of voters will be counted, and if a quorum does not exist, the meeting will be adjourned.

Town officials are optimistic all the town's business could be completed in one night, if a quorum is reached and sustained.

Painting the town

Art students paint new mural in village

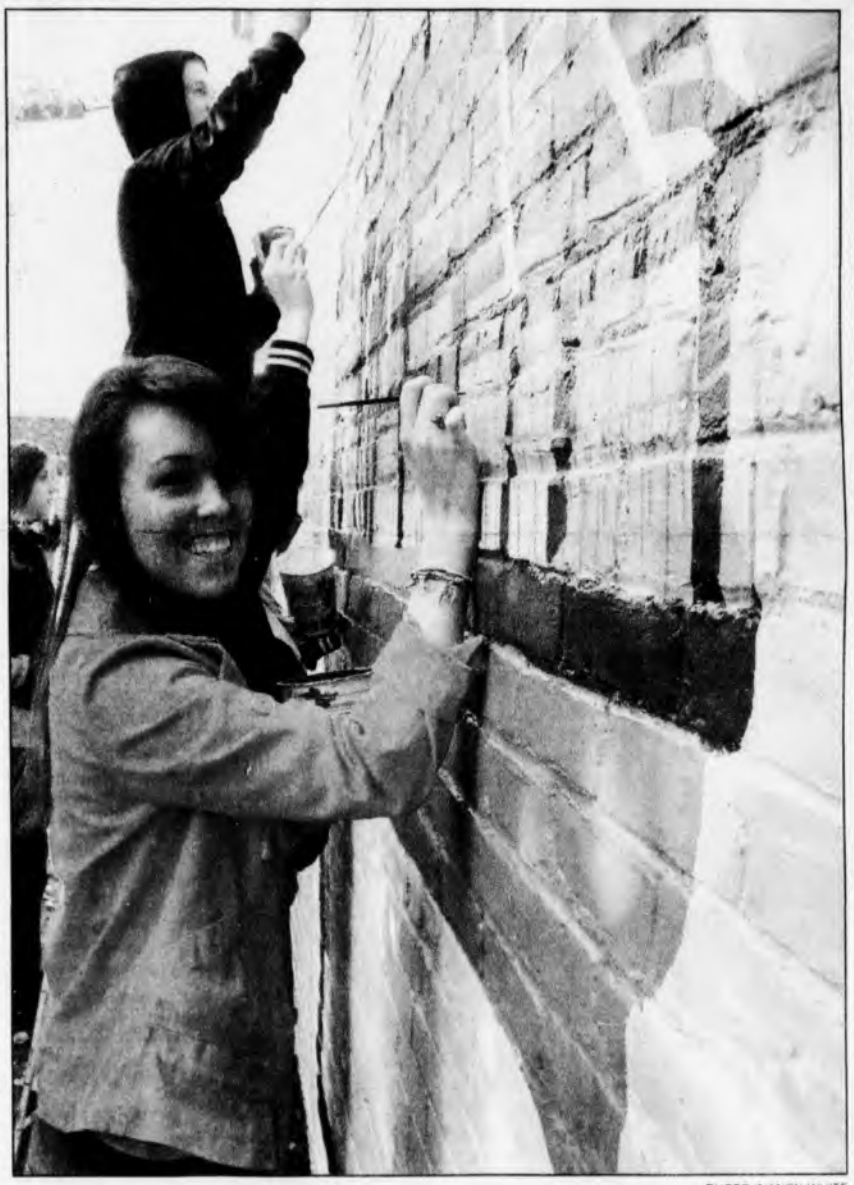
By Nancy White
NWHITE@CNC.COM

You may not be able to see Cohasset Harbor from the village, but, thanks to a talented group of high school artists, pedestrians can now enjoy a water view.

Over the last month, Nina Berkowitz's Art Major class has created a mural on one of the walls in the pocket park between French Memories and Tedeschi's. Finished this week, the area now boasts a colorful and true-to-life painting of the view from Governor's Island, including the iconic Minot Light replica.

"We wanted to do something reminiscent of Cohasset," said CHS junior Austin Meyers. The class chose this particular scene from several photographs Berkowitz had taken around Cohasset. Their charge from Pilgrim Cooperative Bank, which owns the building, was to paint a traditional Cohasset scene, but not something that's been done time and time again.

To the students, a view of Cohasset Harbor with a single sailboat at a mooring and the Minot Light replica in the foreground was the winning choice.



The wall has had a mural on it for many years with four small scenes from each season, but its age was beginning to show. Cohasset High students had done the original mural many years ago.

"The mural was in disrepair, crumbling and fading," said Elaine Breslow, President of the Cohasset Arts Boosters. The Arts Boosters covered the material cost associated with the project.

"This is the first time we've done something like this," said Berkowitz. In recent years, art students have done murals inside the school, but not one outside or of this size. "It's a big project and it's coming out better than we thought it would."

The 26-student class worked cooperatively during various

Before too long, Cohasset residents will have a new place to eat and drink. After close to a year after Pacini's Restaurant on Route 3A closed its doors, a new restaurant will take its place.

Blue Restaurant, an endeavor of Norwell resident Kevin Kelly Sr., received approval for its all-alcoholic liquor license from the Selectmen Monday night.

Kelly is a 30-year veteran in the restaurant industry. His most well known post was at the two Durgin Park

Regional dispatch center proposed

Four-town service to be based in Hingham

By Nancy White
NWHITE@CNC.COM

What if the town of Cohasset could provide better emergency service for the same or even less money?

Right now, four towns' police and fire chiefs and town officials are working together to come up with a plan to form a regional dispatch center to be based in Hingham.

With state grants available for this type of regionalization, Cohasset, Hingham, Hull and Norwell have joined forces to consider what could be more efficient way to respond to emergency 9-1-1 calls. For close to a year, the chiefs and town officials have been analyzing the operation of each town's dispatch center and working through some of the many issues involved.

Selectmen heard a preliminary report from the regional dispatch center committee and supported the committee moving forward to apply for state grants.

Police and fire officials in all the towns are working alongside Blake Haskell, president of J.D. Hunter, Inc., a networking communication specialist to develop a preliminary proposal for the regional dispatch center.

The proposal would merge each of the town's dispatch centers into a single dispatch center. The Hingham dispatch center, with minor modifications, could accommodate the regional center. The dispatch center would be designed to accommodate up to six towns down the line.

"The fire, EMS and police personnel in the four-town service area will enjoy a greater level of safety," said Haskell, including an improved radio system, common database software, a common set of protocols for operations and increased information sharing across all agencies.

For the public, Haskell said 9-1-1 callers would see an improved level of service. Right now, the town's dispatch centers, particularly Cohasset that often has just one dispatcher on at a time, fall short of national standards in providing emergency medical dispatch service.

Emergency medical dispatch means the dispatcher stays on the line with the caller walking them through first aid steps or keeping the caller calm until emergency personnel arrives on the scene. Currently, the dispatcher is required to answer all the calls that come in and in the event of a car accident or other type of emergency witnessed by several people it is not unusual to get a dozen calls at one time making it difficult, if not impossible, to stay on the line with a caller while answering the calls and dispatching fire and police resources.

In the event a regional dispatch center is created, two or more dispatchers would be

BRIEFLY

Wind Turbine hearing postponed until Dec. 1

The Planning Board's continued public hearing on the proposed wind turbines at Graham Waste originally scheduled for Monday Oct. 27, has been postponed to Monday, Dec. 1.

This is the second time the applicant has asked for a postponement in order to gather information since the first public hearing in September.

As a procedural matter, the continued public hearing reconvened on Oct. 27 only to immediately be continued to Dec. 1. No discussion or information on the project took place on Oct. 27.

CCI Energy is proposing installing two turbines on the Graham Waste site off of Route 3A behind Hingham Lumber. The project calls for two 1.65-megawatt turbines each approximately 141-meters, or 462-feet, from ground to the top of the blade.

Sports writers wanted

The Cohasset Mariner is looking for students, parents and grandparents who might like to cover youth or high school sports as a community service.

The Cohasset Mariner believes that coverage of high school and youth sports is important and a great way to provide young athletes with some recognition.

Please contact editor Mary Ford at: mford@cnc.com

All ages of sports writers are welcome. Access to a computer and email is a must.

Food pantry items

The Cohasset Food Pantry is need of the following items:

Cereal, spaghetti sauce, mayonnaise, mustard, ketchup, tuna, peanut butter, jelly, canned vegetables, canned fruit, juice, sugar, paper towels, kleenex, bar soap, dish detergent, laundry detergent, shampoo, and canned hash.

Anyone wishing to make a food donation can drop it off at 9 Black Horse Lane on the front porch. The Food Pantry thanks you in advance for your continued generosity.

Regional dispatch center proposed

FROM DISPATCH, PAGE 1

on duty at any given time so dispatchers can provide the emergency medical dispatch service in accordance with national standards.

Yet, the regionalization effort could face obstacles with the dispatchers' union as the regional center would not require the same amount of manpower. Other considerations include how the cost of the dispatch center would be divided between the four towns and the fact the Cohasset station would be unmanned during the overnight hours (typically, the dispatcher is the only one in the station during the overnight hours).

Town Manager Bill Griffin pointed out the regionalization effort could not only save the money in operational costs, but also in avoided capital expenditures. A $150,000 upgrade to the Cohasset dispatch center consoles is on the capital expenditure list for the next fiscal year. Each town has their own story about avoided expenses, for example in Norwell they are constructing a new police station and could avoid the cost of a dispatch center if a regional center is built.

What makes the proposal very enticing in the Selectmen's and town officials' opinion is the current availability of state grants for regional dispatch centers. From dispatcher training to technology upgrades to infrastructure improvements, it is anticipated roughly $420,000 in state grants are available on an annual basis with regionalization.

The current dispatch costs between the four towns is $1.4 million annually. Each year, the towns received approximately $107,000 in state grants annual, with regionalization that number could quadruple to $420,000.

Officials do not yet have an estimate on how much it will cost to construct the dispatch center and purchase the equipment. The target date for regional dispatch implementation is set for July 1, 2010 (at the start of fiscal 2011).

Intangible benefits to the regional dispatch center were enumerated as well. The mutual aid network would be strengthened and coordination of assets would be enhanced by a centralized communications center.

"If we can provide better service with the same amount of money I thought that would be good enough. With the state funding we might be able to provide better service for less money and at that point to us it becomes a no brainer," said Fire Chief Robert Silvia.

Silvia recognized this was only a baby step in the project and a complete feasibility study would be done before anything was finalized, "we do know we have a lot of work to do, but we just need to get started."

Selectman Ralph Dormitzer recognized there were a lot of details to be worked out.

"I could ask a 100 questions, but it would be a waste of time. You need to sort it out yourself," said Dormitzer, who supported the proposal in theory, but added, "the devil will be in the details on this one."

This is not the first time a cooperative effort to regionalize emergency services was attempted. In the early 1990s, Cohasset along with Scituate, Hingham, Hull and Norwell, got a grant for a $30,000 feasibility study for a regional fire and rescue services. Despite initial support from local politicians and emergency service personnel and the promise of cost savings, the effort never fully got off the ground.

Regional dispatch at a glance

- Towns to be served: Cohasset, Hingham, Hull, Norwell
- Number of residents in the four towns: 47,000
- Current cost of dispatch services across four towns: $1.4 million
- Current receipt of state grants across the towns: $107,000
- Possible state grants with regionalization: $420,000
- Target date for center implementation: July 1, 2010

POLICE BEAT

Watch out for deer, police warn

By Mary Ford
MFORD@CNC.COM

Police warn that it is the mating season for deer so they are crossing Route 3A and other town roads more frequently. Over the past week there have been several deer/car accidents.

At 5:02 p.m. on Friday (Nov. 7) police received a 9-1-1 call from a 60-year-old Scituate man in a 2008 Mercedes SUV that had struck a deer on Route 3A near Red Fox Lane. The car sustained heavy damage but was able to be driven to the body shop, police said.

About 12 hours later at 7 a.m. a 46-year-old Scituate woman driving a 2004 Toyota Highlander reported that she had hit a deer. She was also able to drive to the body shop.

The State DPW picked up the deer in both the accidents.

At 5:56 p.m. on Saturday (Nov. 8) a cell phone caller reported he had hit a deer on Beechwood near Old Pasture Lane. The deer ran off and the driver did not stop but called to let police know about the mishap.

Lt. William Quigley said last year a police cruiser was involved in an accident with a deer that sidelined the cruiser for repairs. Police have installed "deer whistles" on the cruisers in an effort to prevent future accidents. He said wind travels through the devices and generates a sound the deer can hear. The devices were inexpensive, he said.

MV accidents

• At 2 p.m. on Monday (Nov. 3) a 67-year-old Hull woman driving a 2005 gray Jeep was involved in a rear-end accident on S. Main Street near the Depot Court intersection. She was backing out of a parking space when she was hit by a delivery van, police said. There were no injuries and neither vehicle was towed.

• At 9:03 a.m. on Thursday (Nov. 6) a 50-year-old Camden, Maine woman in a 2003 BMW exited Starbucks onto Route 3A, failed to yield to oncoming traffic, and hit a 2005 Ford pickup truck, operated by a 31-year-old Roslindale man, police said. The pickup was traveling north on Route 3A. There were no injuries and no tows, police said.

• At 12:50 p.m. on Thursday (Nov. 6) a 2002 Ford Windstar, operated by a 50-year-old Cohasset woman, was rear-ended by a 1999 Plymouth Voyager, driven by a 43-year-old Hull woman. Police said both cars were traveling north on Route 3A. The Hull woman pulled behind the Windstar that was waiting in the left-turning lane to Shaw's Plaza when the collision occurred. The Cohasset woman was transported to the hospital with what appeared to be minor injuries. Both vehicles were towed and the Hull woman was cited for following too closely.

• A 57-year-old Cohasset woman driving a 2006 BMW hit the traffic island at the King Street railroad crossing at abut 6:12 p.m. on Thursday (Nov. 6), damaging her car, police said. The MBTA was notified and the train was held while the crossing was cleared. The woman was cited for marked lanes violation. The BMW was towed. The woman was not injured.

• A 17-year-old Cohasset girl driving a 1989 Nissan Stanza was broadsided by a 1999 Jeep, operated by a 43-year-old Hull man, last Friday (Nov. 7) at 6:59 p.m., police said. The Nissan was exiting Leo's gas station onto Beechwood Street when the collision occurred. Police said, the Jeep was headed east on Beechwood and traveled through the intersection when it hit the girl's car. The operator of the jeep was cited for being unlicensed and is being summonsed to court. The owner of the Jeep is also being summonsed to court for allowing an unlicensed driver to operate his car.

OUI arrest

A 46-year-old Cohasset woman is facing drunk-driving charges after a traffic stop on Sunday (Nov. 9) at 12:55 a.m. The BMW was traveling north on South Main Street (toward Hingham) when an officer stopped the car for speeding and marked lanes violation. Police observed an open container of alcohol in the car. Further observations resulted in the woman being arrested for operating under the influence of alcohol. She was charged with OUI, negligent operation, having an open container of alcohol in the vehicle, speeding in violation of special regulation and marked lanes violation.

Learner's permit

The 18-year-old Scituate man driving a 1999 Ford Explorer is being summonsed to court for unlicensed operation after police stopped him for going through a red light at 3:17 p.m. on Sunday (Nov. 9) at Pond Street and Chief Justice Cushing Highway. As it turned out the operator, who was the only one in the car, only had his learner's permit. He is being charged with unlicensed operation and failure to stop for a red light.

Erratic operation

• A 75-year-old Cohasset woman checked out OK after police responded to a report that she was driving erratically in the parking lot of a gym off Route 3A at around 4:15 p.m. on Monday (Nov. 3). Police said she had been a little distracted, but was fine and was waiting to pick her husband up at the gym.

• A 67-year-old Cohasset man also checked out OK after a caller reported him as driving erratically on Route 3A. Police found the car in Cohasset Plaza by Feng Shui restaurant and talked to the operator. The call came in at 6:30 p.m. on Monday (Nov. 3).

Hunting season

Callers over the past week reported hearing gunshots.

At 6:51 a.m. on Wednesday (Nov. 5), a Heather Drive resident heard two gunshots. Police checked the area and think the gunshots may have come from beyond Route 3A. Certain areas are open for hunting, which is handled by the state Environmental Police. It is illegal to discharge a firearm within 500 feet of a dwelling, police said.

At 5:19 p.m. on Wednesday (Nov. 5), a caller from Doane Street reported hearing gunshots in the area. Police determined there was an event being held at the Scituate Rod and Gun Club at that time.

Charging turkey

A Cohasset woman called police at about 3:30 p.m. on Tuesday (Nov. 4) to report while she was walking to her car from her house a turkey charged at her sister in the driveway, knocking her to the ground and pecking at her.

The animal control officer was notified.

Police said it appears to be an isolated incident. Turkeys do not carry rabies.

Window smashed

Police responded to a call about the rear window to a resident's 2007 Honda Odyssey being smashed. They were unable to determine what was used to smash the window. No rock or projectile was found. The car owner was advised to contact his insurance company. The incident was reported at 8:52 a.m. on Wednesday (Nov. 5).

Dog complaints

• At the request of the animal control officer, police are logging complaints about a large, brown retriever mix that continues to wander around downtown without its owner. Several sightings were logged over the past week. When the animal control officer went to the residence where the dog lives, the resident refused to answer the door. The ACO will follow up about this ongoing problem, police said.

• A caller complained about a dog that charged at him as he was coming out of the woods on King Street at just past 4 p.m. on Thursday (Nov. 6). The caller just wanted the incident logged, police said. The caller did not provide a description of the dog.

• At 6 a.m. on Friday (Nov. 7) a woman, who lives near the common, complained to police about two golden retrievers. One of the dogs attempted to bite her. She said if she had not been wearing a leather coat, she would have been bitten. Police alerted the animal control officer about the incident.

• At 10:50 a.m., on Saturday (Nov. 8), police received a frantic call from an Ash Street resident reporting that a Weirmaraner who had escaped from a neighbor's electric fence had just killed a cat belonging to another neighbor. The cat owners put the cat in a blanket and rushed it to the animal hospital. The owners of the dog said they would cover any medical bills. Police said the cat was gravely injured in the attack.

• A caller told police that she and her husband were attacked by two huskies while they were horseback riding in Thayer-Whitney Woods. The report came in at 3:36 p.m. on Saturday (Nov. 8). The couple wanted the incident logged.

Lunch dates for veterans announced

All veterans are welcome to lunch at noon, on the third Wednesday of each month. Upcoming dates include Nov. 19 and Dec. 17. The purpose of the luncheons is to foster camaraderie and assist those in need.

Luncheons will take place at Hearth 'n Kettle, 151 Main St., Weymouth. Menu will include a choice of chicken, fish or steak tips with coffee or soft drink with refills. Cost is $16 and includes gratuity.

For more information, call coordinators Paul Salvas at 781-337-0533 Joe McElroy 781-383-0505.

Cohasset High School's Art Major class of 26 students and art teacher Nina Berkowitz stand by their mural on a chilly morning earlier this week. The mural is located in the pocket park between French Memories and Tedeschi's.

Painting the town

FROM PAINTING, PAGE 1

class times over the last month to complete the mural.

"They work well together, each day they take on different jobs," said Berkowitz.

The Art Major class is considered an upper level art class and it carries honors credit. Art Major students must have taken Introduction to Art and Intermediate Art as pre-requisites. The class is mixed with students from grades 10 through 12.

"We're making an impact on the town," said junior Mike Filby of the group project — and it is an impact that could last for quite awhile.

Junior Sebastian Braga said the class has faced challenges from the elements and art. Cold weather and rain have slowed down the painting process and the large surface area tested their artistic skills.

"We wanted to do something reminiscent of Cohasset."

— CHS junior Austin Meyers

"The proportions are the hardest to get right," said Sebastian.

"They are making a little bit of history and it is something that will be enjoyed by not only Cohasset residents, but also people who come to visit," said Breslow.

The project fits well with the Arts Boosters mission provide support for arts education at the Middle-High School.

"It's an opportunity for the students in a accelerated art class to go beyond the classroom. I think the students are excited and proud to have their work in the village," said Breslow.

Interest in turf field could draw numbers

FROM FIELD, PAGE 1

"If we get started at a reasonable time, I am confident we can complete in one night," said Town Manager Bill Griffin. "I think the turf field may help us with the quorum, though it is the last article on the warrant."

There are several articles asking voters to support costly, but town officials say necessary projects, which may get conversation flowing on the floor of town meeting. There is a request for $270,000 to repair a retaining wall on Jerusalem Road. Then there is a $450,000 request to reconstruct and improve the culvert at Jacob's Meadow, which could have some positive effects on the recurring flooding issues in the meadow. Lastly, voters will be asked their collective opinion on whether a synthetic turf field at the high school to the tune of $500,000 in town funds (the cost will be matched by private fundraising) is something they want to do.

The Board of Selectmen is recommending the approval of each of the articles appearing on the town warrant.

Article 1 would amend the fiscal 2008 operating budget. The town is proposing two amendments to the budget previously approved at the Annual Town Meeting in March.

First, the town is asking for a $20,000 increase in the unemployment budget line item due to unexpected increases.

Second, they are asking for a decrease in the exempt dept budget by $506,187 due to refinancing of the school bond issue and receipt of lump sum state grant payment. The net reduction in exempt debt is $20,887.

Union contracts and other salary adjustments are requested in **Article 2**. The article requests funding for those fiscal 2009 cost items contained in collective bargaining agreements between the Town and unions representing the library employees, clerical employees, and civilian dispatchers, and for a cost of living adjustment for non-union and contract employees. The funds necessary for these adjustments were set aside when the Fiscal 2009 balanced budget was presented to the annual town meeting. However, settlements have not yet been reached with the three remaining unions, Town Meeting will be asked to transfer the remainder of the collective bargaining set aside to the Town Manager's budget for future allocation by Town Meeting once those contracts are settled.

Next up, the Capital Budget Committee will present its recommendations for capital purchases. This year, they received roughly $2.5 million in capital requests from various departments. In **Article 3**, a total of $264,000, some to be paid out over the next several years through lease-to-buy financing, is recommended. An ambulance ($160,000), a fire command vehicle ($30,000) and a marked police cruiser ($29,000) will be wrapped into a lease-to-buy program and paid out in installments over a five-year period. A total of $10,000 is requested for the library's public computer, $25,000 for a fire defibrillator and $10,000 for a Jaws of Life power unit for the fire department.

For **Article 4**, Town Meeting will be asked to consider several Community Preservation funding requests. The Community Preservation Committee has narrowed down the projects to the following: $15,000 for the engineering to overhaul the pond on Cohasset Common, and $25,000 for a town-wide open space and recreation plan. The Community Preservation has supported a dollar for dollar match up to $15,000 for the installation of a septic system for the Beechwood ball field, but applicant Glenn Pratt withdrew his application because he didn't think raising $15,000 for the project was feasible.

Article 5 is multi-faceted. Approval of the article will allow the Water Department to abandon one easements, one on Nichols Road that is no longer needed. In the warrant sent to home two weeks ago, the abandonment of an easement located off 100 Pleasant Street is also requested; however, due to neighborhood concerns, that portion of the article has been withdrawn.

Passage of **Article 6** will begin the process to place a Conservation Restriction on 313 acres of land, in the Brass Kettle Brook Conservation Area located in the Lily Pond watershed. The Water Commission and the town own the land. The article will authorize the Board of Selectmen and Board of Water Commissioners to petition the Legislature to pass a Special Act authorizing them to impose a Conservation Restriction on this land restricting its use to conservation, open space, and water protection purposes. Eventually, the town will grant the conservation restriction to the Trustees of Reservations.

Article 7 is the first of several substantial spending articles. The article seeks the authority to bond $270,000 to reinforce and otherwise improve and existing retaining wall along Jerusalem Road. During the course of the Little Harbor water and sewer project, a portion of the wall collapsed. The collapsed portion was repaired by the sewer project contractor to equal or better condition; however, the road still does not meet current design standards. The requested appropriation will provide reinforcing of the wall and allow some offsetting of traffic to address these pre-existing deficiencies. A guardrail and walkway are also included in the design. The $270,000 appropriation will bring the wall and the rode up to current design standards.

The restoration and renovation of the old portion of Town Hall will be discussed in **Article 8**. The purpose of this article is to authorize the Board of Selectmen to accept any gifts, grants, tax credits or other sources of money to offset the cost of the proposed project.

For the past year, the Alternative Energy Committee has worked with an energy consultant to investigate alternative energy options for the town, pursue grant funding, promote clean energy alternatives within the community, **Article 9** would provide funding ($10,000) to keep the consultant on for another year.

Article 10 is a housekeeping items to correct typographical and/or grammatical errors that have appeared in the most recently approved zoning bylaw amendments. No significant alterations changing the substance or meaning of the bylaws are part of the article.

The purpose of **Article 11** is to authorize the Board of Selectmen to grant an easement to National Grid to install a gas line from Highland Avenue along the Town Hall parking lot to service a residential property owned by St. Stephen's Church.

Article 12 seeks authority from Town Meeting to bond $450,000 to reconstruct and upgrade the open culvert and tide gates at the Jacobs Meadow culvert at the American Legion Post. According to town engineer Mark Brennan, the current culvert is in extreme disrepair and in danger of collapse. The project will restore the project to proper condition and install an automated sluice gate, both measures will provide additional flushing of Jacob's Meadow during storm events.

The final article (**Article 13**) is a citizen's petition seeking Town Meeting approval to borrow funds for a portion of the proposed synthetic turf field project at the Clark Chatterton Athletic Complex. The article seeks authority to bond $500,000 for the field. Proponents of the turf field say the majority of the amount borrowed could be repaid from offsets, maintenance savings and revenue from the local youth programs. Numbers drawn up by town finance director Mike Buckley supports this assertion. Additional funding, approximately $500,000 will be provided by private and corporate donations. If installed, proponents of the turf field say it will triple the utilization of the current field. Alumni Field is used two to three times per week and is primarily for varsity games only. A new turf field can be used every day by multiple teams, school and recreation programs and clubs.

New restaurant in Pacini's space

FROM EATERY, PAGE 1

locations in Faneuil Hall and Copley Place. Describing the feel of the future restaurant as traditional New England, Kelly will look to the example he knows best — Durgin Park.

He plans to serve "good old American food," offering baked beans and franks and corn beef and cabbage as examples. He will welcome families and plans to serve quality food at reasonable prices.

"Quality costs money, so the prices will vary," said Kelly.

Kelly, who is buying the entire building from the current owner, plans to open as close to the New Year as possible.

"Basically, the restaurant is not in bad condition the way it is," said Kelly. "We want to spruce it up, paint it and make it more New England-like."

"We want to spruce it up, paint it and make it more New England-like."

— Kevin Kelly Sr., Blue Restaurant

After KoKo Island vacated the space, Acapulco's, a Mexican restaurant, completely renovated the space and Dunkin Donuts opened its doors. When Pacini's opened in 2007, it was again renovated for a more Italian look. Dunkin Donuts will remain next door when Blue Restaurant opens.

Kelly has a long association with the South Shore having summered in Scituate in the 1950s and currently residing in Norwell. He recalled eating at the Ground Round, which occupied the restaurant space before it became KoKo Island. Kelly said the location has been a restaurant for about 60 years through many reincarnations.

Selectman Ralph Dormitzer commented the location has been three different restaurants in just over three years, "that location has been difficult, how are you going to make it a success?"

Kelly said he hopes to use his knowledge of the area to his advantage and provide quality food that he knows will appeal to people in the area.

Michael Guerra, the chef de cuisine at the Red Lion Inn, stands by the largest bonnet in the United States in the kitchen of the Red Lion Inn. The specialties at the Red Lion Inn are the French Onion Soup, steak frites, and confit. He works in the kitchen during lunchtime from Thursday to Sunday and at dinner, Thursday through Monday and on Wednesday evening.

Bonjour, Brasserie Zapp!

Red Lion heralds French-inspired menu

By Nancy White
NWHITE@CNC.COM

Since 1704, the Red Lion Inn has been a meeting place, a resting place, a drinking place and an eating place. Over the last 304 years there have been many changes around it and within it, but those activities at the heart and soul of the inn have rarely wavered.

In that spirit, the Red Lion Inn is undergoing another change, this time to its restaurant. Brasserie Zapp has opened with a French inspired menu in a casual dining atmosphere. With an expanded six-day a week schedule and lunch Thursday through Sunday, Brasserie Zapp is ready for customers.

Red Lion Inn owner Gerd Ordelheide was inspired to created his own brasserie after dining at one of the most well-known brasseries, Brasserie Lipp in Paris. A brasserie, literally translated, is a restaurant that serves alcohol and food. He decided to take the concept and apply it to the Red Lion Inn's restaurant and pub.

To help him with his vision, he hired executive chef Patrick Quillec, a native Frenchman, and head chef Michael Guerra. Quillec, a 30-year veteran of the restaurant industry, said the move to brasserie sets the Red Lion apart from other local restaurants.

"It's a smart thing for him (Ordelheide) because there are hardly any French restaurants in the area," said Quillec. The casual dining French menu he expects will appeal to both locals and destination diners.

Like any business venture, the ultimate goal of the restaurant re-tool is to generate more revenue. Right now upwards of 80 percent of the inn's revenue comes from weddings and functions, said Ordelheide.

The new dinner menu includes classic French dishes like coq au vin, bouillabaisse and duck a L'Orange. Complementing the daily dinner menu will be seafood and fish specials driven by what the local fishermen are catching, said Quillec.

"It's going to be a beautiful place," said Quillec.

Head chef Michael Guerra will see to the daily operation of Brasserie Zapp, who envisions the restaurant as a neighborhood place to gather, just like it was in 1704.

"Brasserie food by definition is the French equivalent of an American diner—a bubbling atmosphere, good food and fun. Once people get past the French words, they'll realize the food is just a piece of steak with a little butter on top," said Guerra.

He draws inspiration from the inn itself—the wraparound porch is the ideal place for "the biggest clambake Cohasset has ever seen", the original bread oven could make delicious flatbread pizzas.

"Brasserie food by definition is the French equivalent of an American diner — a bubbling atmosphere, good food and fun."
— Michael Guerra, head chef

Guerra's ultimate aim is to make the Brasserie Zapp experience a fun one for all ages. He hopes kids will be adventurous in their menu choices, "when kids come in and order mussels or trout, I love that. A 10-year-old eating a bowl of mussels, to me, that's what food is all about."

One initiative close to Guerra's heart is creating a menu with product sourced within 100 miles of the Red Lion. He has plans to grow his own garden on the inn's grounds, get seafood and fish locally, and buy exclusively from Holly Hill Farms in the summer. He will buy fresh meats and hand cut them himself.

"I think that's part of the inn atmosphere," said Guerra. "Food is only as good as the product used to make it."

However, there is one thing he's not going to compromise on—-his frites (French fries to most Americans) will also be cooked in duck fat.

"It's a very big part of French cooking," said Guerra.

When asked what is his favorite menu items to prepare, he can't list just one.

First, it's the onion soup—made from scratch—"if you come in for the onion soup, you'll never leave, it's just perfect."

Next, it's the a dessert made with cream puff dough piled with vanilla ice cream and covered in hot chocolate sauce. "That's one I enjoy making and enjoy watching people eat."

Then, he names the quiche—"that's pretty good too."

Brasserie Zapp will be open six days a week for dinner (closed Tuesdays) and open for lunch Thursday through Sundays. For more information, visit www.redlion-inn1704.com or call 781-383-1704.

Guiding Families Through the Journey with Sunrise of Cohasset
Alzheimer's Discussion
Providing direct care to a loved one with Alzheimer's or dementia can be a rewarding, exhausting and frustrating experience. Sunrise Senior Living understands and has been assisting families with Alzheimer's and dementia care since 1981.
Please join motivational speaker and LCSW, Barbara Tortorella, as she leads a discussion on coping with the loss that Alzheimer's brings. A questions and answer session will follow the discussion and light refreshments will be served.
Sunrise Senior Living is committed to furthering the knowledge of senior living topics through events and seminars designed to help and inform seniors and their caregivers.

Gabriel Sean Sweeney arrived on Halloween!

AROUND TOWN

JENNIFER PIEPENBRINK

COURTESY PHOTO

Gabriel Sean Sweeney can look forward to a ton of Halloween-themed birthday parties!

NEW ARRIVAL

We have a new little guy in our world that we want to talk about. Welcome to **Gabriel Sean Sweeney** who was born on Oct. 31, 2008 at South Shore Hospital weighing 8 pounds, 5 ounces. His proud parents are **Erin (McAllister) and Sean Sweeney**. Gabriel's excited and proud grandparents are **Donald and Jaye McAllister** of Cohasset and **Eugene and Dianne Sweeney** of New Jersey. His cousins all think he has the best birthday ever — he'll get presents and can trick or treat!

HOLIDAY SEASON

Hello Cohasset. How is everyone doing? I cannot believe it but the holidays have started with great enthusiasm and events that are being talked about around town. Make sure to keep in touch with the Mariner every week to learn about all of the wonderful events, fairs and so much more that is happening. I am going to kick off the column with some information about a show that is happening starting tonight.

GODSPELL

Godspell is here in town! You don't want to miss this timeless telling of the Gospel according to St. Matthew brought to life for the first time on the Cohasset Dramatic Club stage! The memorable tale is presented through both parables and great music, and includes a string of well-loved songs led by the international hit "Day By Day." Drawing from various theatrical traditions such as clowning, pantomime, charades, and vaudeville, "Godspell" is a groundbreaking and unique reflection of the life of Jesus with a message of kindness, tolerance and love.

Show Dates: Nov. 14, 15, 21, 22 at 7:30 p.m. and Nov. 16 & 23 at 2 p.m. at Cohasset Town Hall Auditorium. Tickets are $15 and can be purchased at Paperscapes, Cohasset, Buttonwood Books and by calling the ticket reservation line at 617-697-2115. Tickets will also be available at the door.

Group ticket rates are available for groups of 10 or more at a cost of $12 per ticket. Please contact Lisa Pratt at 617-852-0091 for group ticket information.

I am so looking forward to seeing this show and hope that so many of you will join us here at the Town Hall.

HOLIDAY FUN

Here is some news about a Holiday Class happening on Monday, Dec. 29th from 10 am to 2 pm for boys and girls ages 4-10. The cost for this is $42 for members, $45 for non and there is a $5 discount for each sibling. This is happening at the South Shore Community Center here in town. Come join Ruthann and her staff for a fun-filled day of gymnastics, sports, games, bowling, face painting, crafts and much, much more! Bring a peanut free lunch and snack. Classes are limited so sign up today! Call 781-383-0088 to register or come by SSCC at 3 North Main St.

OUR WORLD

As many of you are probably already planning out the holidays and how to fit everything in to get ready, why not think about one or many of the Our World Children's Global Discovery Museums Creative Nites or Shop Till You Drop programs to put the kiddos into while you are out? There are nites scheduled this Saturday, Nov 15th, Friday, Nov 21st, Shopping Day, Sunday, Nov 23rd, Fri, Dec 5th, Shopping Day, Sunday, Dec 7th and many more. The hours for the nites are from 5:30-9:30 pm and are a different theme and activity each time. The Shopping Days are from 11-5 and you can choose the amount of time you would like. For more information, send an email to info@ourworldcgdm.org or call 781-383-3198.

WALK THE LINE

South Shore Art Center's national Drawing show will be the back-drop for a fundraiser entitled "Walk the Line" a casual and fun evening of music, food and art. This event is tomorrow night, Saturday, Nov.15th at 7:30 pm. With a nod to country-legend Johnny Cash, the evening will feature country and popular music by musician Chuck McDermott and friends, fun finger-foods, cash bar and a participatory art project. Guests will be given a drawing implement to add their touch to an evolving 12-feet x 6-feet work of art. Get your cowboy boots out, wear your jeans, relax and have fun—all to benefit the art education and exhibition programs of South Shore Art Center. The event is $45 for Art Center members; $55 for non-members and includes complimentary drink ticket, hors d'oeuvres, great music, door prizes and your chance to contribute to a work of art! For reservations or more information, contact the Art Center at 781-383-2787 or festival@ssac.org.

CMI MEETING

The Cohasset Maritime Institute (CMI), will hold its Annual Meeting on Saturday, Nov. 15 at 9 a.m. at 40 Parker AvenAve.Maritime Institute is dedicated to the preservation of Cohasset's maritime history and the promotion of ocean rowing for Middle and High School students and adults. All Cohasset Maritime Institute members and the community are invited to attend the CMI Annual Meeting. Following the Annual Meeting, volunteers are needed and welcome to assist in the clean out of the CMI boathouse in preparation for its' renovation. Please visit the CMI website, rowcmi.com, for more information or call Lisa Hewitt Dick (781.383.0204) or Susan Galligan (781.383.0765).

That is all for this week. Make sure to send in all news to me no later than Tuesdays by 5:00 pm in one of the following manners.

EMAIL: aroundtowncohasset@yahoo.com

'In keeping with the theme of youth'

AAUW

GWENDOLIN SAYIAN

It's become clearer over time that both organizations promote personal growth, advocate for girls/women, and provide to their communities.

What do you get when 17 girls run through the woods on an early spring night with nets, buckets, and flashlights? Need another clue? What would you call a gang of girls scrambling up rocks, while hiking a trail, yelling loudly, and carrying on like crazed monkeys? Are you getting closer to an answer? Ok, last hint: What would you say if you saw a group of girls rolling old tires out of a field, while others drag heavy stuffed trash bags across the frozen ground on a grey bitterly cold winter day, while laughing, chatting, and of course, running whenever possible?

If you answered a school field trip gone seriously awry, you'd be wrong. If you answered a yet unknown but locally produced reality TV series, "Survivor — South Shore — The Preteen Challenge", you'd also be wrong. You may think you've stumbled across the latest fad in girls' birthday parties, "The Out Door Bash" party, but that's not it either. However, if you guessed a Girl Scout Troop, you are right! And for your astute observation, you've won a free Girl Scout cookie pitch delivered right to your front door!

I've been solidly in the middle of all the above mentioned action because I am a Girl Scout leader of this adventuresome bunch of fifth graders. This is my sixth year of being a leader, which is five more years than I thought I'd be doing. I remember back to our first year as a Daisy troop. We would meet once a month for an hour after kindergarten. Some of them would be choking back sobs, wondering when their mothers would be coming. Now they want to know when we're going to London. Our last meeting, the one that involves the crazed monkey reference, was a hike to the weather observatory at the top of the Great Blue Hill. There were no questions about mothers coming, but there were questions about what do you have to do to become a meteorologist, and how hard is calculus. Being a Girl Scout leader is work, but it's been wonderful to see these girls grow into confident, energetic, and curious young women.

Girl Scouting is full of fun activities and field trips, but it's also an exposure to new ideas and hands-on learning that schools don't have time for. All of the badges that scouts can earn relate to learning to be a good friend, community service and involvement, science, leadership, art and music, and appreciation for the outdoors.

When I first became involved in AAUW, I felt a link to Girl Scouts, although I couldn't articulate what it was. It's become clearer over time that both organizations promote personal growth, advocate for girls/women, and provide to their communities. Girl Scouts provides the base, while AAUW follows young women into adulthood and career. I feel privileged to be a member of both organizations. And while I'm at it, I'll make the shameless pitch to encourage you to support these organizations through your membership, or donation. (AAUW doesn't sell cookies, because let's face it, a bunch of women coming to your door selling Thin Mints just doesn't have the charm of cute little Girl Scout Brownies standing at your threshold.)

Although I do feel strong similarities between the two organizations, I've yet to hear of an AAUW camping trip, complete with s'mores, and campfire songs. Perhaps I'll suggest it.

As a mother of a fifth grader, and Girl Scout, excellence in public education is a priority. This month in keeping with the theme of youth, the Hingham Area Branch of AAUW is sponsoring Michele Norman, Director of Strategic Planning and Collaboration from the Massachusetts Office of Education, on Nov. 18 at 7 p.m. at Hingham High School. She will present the Commonwealth's Readiness Project, the Patrick Administration Plan for the future of education in Massachusetts. This plan is the result of nine months of study by a group of educators, experts and stakeholders in Massachusetts education. Ms. Norman will give an overview of the plan and then open up the meeting to questions from the audience. This meeting is free and open to the public.

Like all organizations that have a primary volunteer base, becoming involved either as a Girl Scout volunteer or a member of AAUW, is the way to keep these organizations alive and giving back to the community. I invite you to join us!

Holders of associate's or bachelor's degrees who live in the South Shore towns from Plymouth to Quincy are welcome to join the Hingham Area Branch. To learn more about AAUW, call Patricia McKay at 781-337-3375, or email;

:hollie@gallivan.org. Visit the branch web site at aauw-ma.org and follow the links to the Hingham Branch.

Gwen Sayian is a Hingham resident and member of AAUW.

'What is That?' program Wednesday

The Cohasset Historical Society will present the last of its Fall Wednesday Lecture series on Nov. 19th with a program called "What is That?"

The society will bring items to the meeting and ask the audience to guess what it is and what it was used for. The society will also offer some objects that stimulate the memory by showing a comparison between its old version and the new and modern incarnation.

Attendees are invited to bring household items, tools or what-have-you and participate in this evening that's 'just-for-fun', nostalgic and educational as well. The program will start at 7:30 in the Pratt Building at 109 South Main Street. There is no charge and light refreshment will be served.
